Go Virtual Symposium
Summer 2020

Rita Conrad's Recommended Reading List:

- Barkley, E. F. , Major, C. H. & Cross, K.P. (2014). Collaborative Learning Techniques: A Handbook for College Faculty. Lots of great activity ideas that are adapted for various types of digital environments.

- Fandl K.J. (2016) Success as an Online Student: Strategies for Effective Learning. I haven't read this one but it looked interesting on Amazon.

- Lehman, R. M. & Conceicao, S. C. O. (2014). Motivating and Retaining Online Students.

- McGuire, S. Y. (2015). Teach Students How to Learn. Provides a quick way to teaching students to learn. I think McGuire said she does this in one 50-minute class.
