THE CALIFORNIA STATE UNIVERSITY

Welcome to the California State University (CSU) – the world's largest comprehensive higher education system in the nation with 23 unique campuses serving more than 450,000 students with 45,000 employees statewide. Each year, the university awards nearly 100,000 bachelor's, master's and doctoral degrees. CSU graduates now total nearly 3 million strong, and are serving as leaders in the industries that drive California's economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. Learn more at www.calstate.edu.

More than 50-year tradition of excellence

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to nearly three million graduates around the state of California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- CSU faculty attract more than \$580 million annually in research and education grants, and contracts by federal, state and regional agencies.
- 1 in every 10 employees in California is a CSU alumnus.
- The CSU awards 45 percent of the bachelor's degrees earned in California.
- More than half of all the nurses in the state earn their degrees from the CSU.
- The CSU awards 95 percent of the hospitality/tourism degrees in the state.
- Nearly half of all of the state's engineers earn their degrees from the CSU.
- The CSU is the leading provider of teacher preparation programs in the state.
- The CSU offers 115 fully online hybrid degree programs.
- The CSU offers 3,250 online courses to provide more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU's growing online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU system.
- The CSU serves more than 5,000 individuals annually through professional development certificate programs in educational health services, business and technology, leisure and hospitality, manufacturing, international trade, and many other industries.
- Nearly half of the CSU's 450,000 students are engaged in some type of community service, totaling 32 million hours of service annually.
- More than 9,000 students participate in STEM (science,

technology engineering and mathematics) service-learning courses.

- For every \$1 that the state invests in the CSU, the university generates \$5.43 for California's economy.

Governance

The system is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and presidents develop systemwide educational policy. The presidents, in consultation with the Academic Senate and other campus stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The individual California State Colleges was established as a system with a Board of Trustees and a Chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University (CSU). Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the State Academic Senate was established to act as the official voice of CSU faculty in systemwide matters. Also, the California State College Student Presidents Association—which was later renamed the California State Students Association—was founded to represent each campus student association on issues affecting students.

Through its many decades of existence, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU's core mission has always focused on providing high-quality, affordable bachelor's and master's degree programs, over time the university has added a wide range of services and programs to support student success – from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

The CSU marked another significant educational milestone when it broadened its degree offerings to include

doctoral degrees. The CSU independently offers educational doctorate (Ed.D.), Doctor of Physical Therapy (DPT), and Doctor of Nursing Practice (DNP) degree programs. A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

In 2010, in an effort to accommodate community college transfer students, the university, in concert with the California Community Colleges, launched the Associate Degree for Transfer, which guarantees transfer students admission to the CSU with junior status.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU initiated another milestone in 2013, when it launched Cal State Online, a systemwide collection of services that support the delivery of fully online programs from campuses. Now, full-time students also have access to fully online courses offered at other CSU campuses.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. In 2014-15, the CSU will exceed three million alumni, which includes graduates from all CSU campuses as well as the Class of 2015.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. With 23 campuses, 450,000 students and 45,000 faculty and staff, the CSU is committed to providing a quality higher education that prepare students to become leaders in the changing workforce.

Office of the Chancellor

Welcome to The Beach

Welcome to California State University, Long Beach, one of the nation's most vibrant and successful public universities.

Here you will benefit from an exciting, rigorous learning environment that promotes global engagement and prepares you for the challenges and opportunities of tomorrow.

CSULB is characterized by exceptional academic programs, outstanding support services, dedicated faculty and a diverse student population. Our 322-acre campus provides an inviting collegiate atmosphere as well as state-of-the-art facilities.

We encourage you to take advantage of all the Beach has to offer.

Degrees, Options, Minors, Certificates, and Credentials

Program Title	Type of Program	Catalog Reference
3-D Media	Option, BFA in Art	Art

ADMISSION TO CSULB

Choosing CSULB

CSULB's core academic mission is to graduate students with highly valued degrees. California State University, Long Beach is a nationally renowned public research university that values academic excellence, diversity and community engagement.

University Outreach and School Relations (UOSR) is the university's student recruitment and guest relations office and the primary contact point for prospective students seeking information about CSULB's admission processes, academic departments, student-support programs, campus life and the university's prestigious President's Scholars Program.

UOSR provides application workshops for high school and transfer prospective students, adult re-entry workshops, and educational awareness programs for elementary and middle school students. UOSR also offers guided campus tours and specialized campus visits for K-12 students, parents, counselors and community groups. We encourage prospective students to explore the campus and visit our website at www.csulb.edu.

For more information, call (562) 985-5358, go to www.csulb.edu/outreach or visit the UOSR Office at Brotman Hall, Room 289.

Admissions Procedures and Policies

Requirements for admission to California State University, Long Beach are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available at www.csumentor.edu/planning/.

Electronic versions of the CSU undergraduate and graduate applications are accessible at www.csumentor.edu. The CSUMentor system allows students to browse through general information about the CSU's twenty-three campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid. Information on CSULB admission requirements and deadlines can be found at www.csulb.edu/enrollment.

Applying online via www.csumentor.edu is expected unless electronic submission is impossible. An acknowledgement will be sent when online applications have been submitted. Application in "hard copy" form may be obtained online via www.csumentor.edu as a portable data format (PDF). Application forms (in PDF) may also be downloaded from www.calstate.edu/sas/publications. [Paper applications should be mailed to the campus admission office(s).]

Importance of Filing Complete, Accurate, and Authentic Application Documents

CSU, Long Beach advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete,

accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, of Title 5, California Code of Regulations).

Undergraduate Application Procedures

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The \$55 nonrefundable application fee should be in the form of a check or money order payable to "The California State University" or by credit card and may not be transferred or used to apply to another term.

Readmission

Students who break attendance by not enrolling in classes each semester, and who have not filed for educational leave, must reapply for admission. Transcripts of work completed elsewhere during the absence must also be submitted. Students who left under academic disqualification must submit a "Reinstatement Petition" and an "Application for Reinstatement" with their completed application prior to JUNE 1 for the Fall semester or November 1 for the Spring semester.

Impacted Programs

The CSU designates programs as impacted when more applications from regularly eligible applicants are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus which they are offered; others are impacted only at a few campuses. Candidates for admission must meet all of the campus' specified supplementary admission criteria if applying to an impacted program or campus.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and programs impactation will be available at the following websites:

- www.csumentor.edu
- www.calstate.edu/impactioninfo.shtml
- www.calstate.edu/sas/impaction-campus-info.shtml

Campuses will communicate its supplementary admission criteria for all impacted programs to high schools and community colleges in their service area and will disseminate this information to the public through appropriate media. This information will also be published at the CSU campus individual website and made available online at www.calstate.edu.

Applicants must file applications for admission during the initial filing period. Applicants who wish to be considered at more than one campus must file an application at each campus for which they seek admission consideration.

Supplementary Admission Criteria

Each campus with impacted programs or admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include

rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of AA-T or AS-T degree, the overall transfer grade point average (GPA), completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT. For fall admission, applicants should take tests as early as possible, but no later than December of the preceding year.

The supplementary admission criteria used by the individual campuses to screen applicants are made available by the campuses to applicants who seek admission to an impacted program. Details regarding the supplemental admissions criteria are also provided at www.calstate.edu/impactioninfo.shtml.

Application Filing Periods

<u>Terms in 2015 - 2016</u>	<u>Applications First Accepted</u>	<u>Initial Filing Period</u>
Fall 2015	October 1, 2014	Oct 1 - Nov 30, 2014
Spring 2016	August 1, 2015	August 1-31, 2015

Filing Period Duration

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. Students applying after the initial filing period should consult the campus admissions office for current information. Similar information is conveniently available at www.csumentor.edu/filing_status.

Application Acknowledgment

On-time applicants may expect to receive an acknowledgment within two to four weeks after filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. An offer of admission is not transferable to another term or to another campus.

Undergraduate Requirement Deadlines

Prior to matriculation (official registration as a CSULB-admitted student), students must complete, by published deadlines, admission requirements — including subject requirements, unit minimums, grade-point averages, final transcript and testing requirement. Refer to the Enrollment Services web site (www.csulb.edu/enrollment) for current requirements.

Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses /programs are impacted or desired programs/admission categories are closed. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student's home CSU campus as elective credit, students, before enrolling at the host campus, should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs.

There are two programs for enrollment within the CSU

and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from Office of Enrollment Services.

CSU Concurrent Enrollment – matriculated students in good standing may enroll on a space available basis at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student's transcript at the home campus.

CSU Visitor Enrollment – matriculated students in good standing enrolled at one CSU campus may enroll on a space available basis at another CSU campus for one term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student's transcript at the home campus.

Intersystem Cross Enrollment – matriculated CSU, UC, or community college students may enroll on a space available basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Concurrent Enrollment Within the CSU

All CSULB students wishing to enroll concurrently at CSULB and one of the other 23 California State University campuses must request permission to do so from the Office of Enrollment Services. Concurrent enrollment within the California State University system is limited to students who have completed a minimum of 12 units at CSULB, have a minimum 2.0 grade-point average, are in good academic standing and have paid fees at CSULB for 12 units or more regardless of the total number of units earned at both campuses. No additional fees may be collected after the last day to add classes. Concurrent Enrollment is subject to space availability and registration priority policies at the host campus.

No graduate student may register concurrently at this and any other collegiate institution without advance permission. Permission may be given for concurrent enrollment at CSULB and other institutions if recommended by the department graduate advisor and approved by the Dean of the appropriate college. Forms for concurrent enrollment may be obtained from the college office. When such permission is granted, the academic load at CSULB must be reduced accordingly.

Visitor Enrollment Within the CSU

Students enrolled in any CSU campus may apply to transfer temporarily to another CSU campus in Visitor status, if they have (1) completed 12 units at the home campus, (2) have earned at least a 2.0 cumulative GPA at the home campus, (3) are in good academic standing at the home campus, and (4) are eligible to register under continuing status at the home campus. Approval for visitor enrollment is valid for one term only and is subject to the host campus policies including application deadlines, space availability, and registration priority. Details and Visitor Enrollment Applications are available at the Office of Enrollment Services. Students from other CSU campuses seeking visitor status at CSULB must also contact their home registration office for additional information.

Enrollment of Non-matriculated Students

Applicants not admissible at this time under any of the preceding categories could enroll in another institution, such as a community college, to prepare for admissibility at a future date. Non-matriculated students may be able to avail themselves of programs in the College of Continuing and Professional Education.

Open University (Concurrent Enrollment) — Through Open University, students who are NOT matriculated in CSULB may take regular university classes during spring or fall semesters for academic credit on a "space available" basis with permission of the department chair and the course instructor. Open University enrollment does NOT constitute admission to CSULB. For more information call the College of Continuing and Professional Education at (562) 985-5561.

Summer Sessions, May Intersession, and Winter Session Students

Summer, May, and Winter Session enrollment is open to all matriculated CSULB students and all non-matriculated students such as prospective students, students from other colleges and universities, and interested individuals from the community. No application or admissions process is required for summer and winter registration.

CSULB does not admit matriculated students to start in the Winter, May, or Summer Session. Registration in Winter, May, or Summer as a non-matriculated student does not ensure the privilege of enrolling in the fall or spring semester as a matriculated student. To register for Winter, May, or Summer Session courses, students should contact the College of Continuing and Professional Education at (800) 963-2250.

Freshman Applicants

Preparation and Eligibility

California State University, Long Beach continues to be the 'University of Choice' for a talented and diverse group of California's best and brightest students. CSULB continues to receive more first-time freshman applicants than can be accommodated. To maintain the academic quality of CSULB academic programs and services, supplemental admissions criteria, are applied to first-time freshman applicants. First-time freshmen must:

- Apply on time. Apply between October 1 and November 30.
- Take the SAT 1 or ACT no later than December and request scores be sent to CSULB as soon as they are available.
- Complete the CSU required 15 unit college preparatory "a-g" subjects prior to graduation.
- Perform well – earn the best grades possible (including the senior year).
- Pursue a back up plan should they not be offered admission to CSULB.

The offer of admission is confirmed when the university verifies that they have a CSULB qualifiable minimum eligibility index and will have completed the comprehensive pattern of college preparatory "a-g" subjects.

The university has no current plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index.

Eligibility Index

The eligibility index is the combination of the high school grade-point average and scores on either the ACT or the SAT. Grade-point averages (GPA) are based on grades earned in courses taken during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory "a-g" subject requirements with bonus points for approved honors courses (excluding physical education and military science).

Up to eight semesters of honors courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of "A" in an honors course will receive a total of 5 points; with 4 points for a "B;" and 3 points for a "C."

A CSU Eligibility Index (EI) can be calculated by multiplying a grade-point average by 800 and adding the total of *the mathematics and critical reading scores* of the SAT. Students who took the ACT, multiply the grade-point average by 200 and add ten times the ACT composite score (add 2 points to the ACT score received if taken prior to October, 1989). Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 using the SAT I or 694 using the ACT to be considered for admission.

For admission to terms during the 2015-2016 college year, the university has no plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index.

Persons who neither graduated from a California high school nor are residents of California for tuition purposes, need a minimum index of 3502 (SAT) or 842 ACT; (2 points are added to the ACT score if it was taken prior to October, 1989).

California State University, Long Beach requires all applicants for freshman admission to submit test scores from the SAT I or ACT, regardless of their high school grade-point average. No freshman applicants will be admitted who have not submitted the required test scores.

Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

Subject Requirements

The California State University requires that first-time freshman applicants complete, with grades of "C" or higher, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

Social Science - 2 years to include 1 year of U.S. History and/ or Government

English – 4 years

Mathematics – 3 years to include algebra, geometry, and intermediate algebra

Science – 2 years with laboratory to include 1 year of biological science and 1 year physical science

Foreign Language – 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence).

Visual and Performing Arts – 1 year-long course in which the second semester builds on the first from a single VPA area to include art, dance, drama/theater, or music

Electives – 1 year selected from the areas above.

Foreign Language Waiver

The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English equivalent to or higher than that expected of students who complete two years of foreign language study. Students should consult with their school counselor or any CSU campus admission or relations with schools office for further information.

Special Admission Consideration for Students with Disabilities

The Special Admission process is a means by which applicants, who may not meet the California State University Long Beach (CSULB) admission requirements due to disability, but who are "*otherwise qualified*," may request special consideration for admission. The DSS Special Admissions Committee facilitates this process by consulting with Enrollment Services while providing additional information about each applicant's special circumstances. It is the committee's function to evaluate disability documentation using guidelines established by the California State University (CSU) system. All applicants are reviewed on a case-by-case basis. For more information call (562) 985-4430 or visit www.csulb.edu/sbp.

High School Students — Young Scholars Program

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment. More information is available from the Office of University Outreach and School Relations at (562) 985-5358 or www.csulb.edu/outreach.

Honors Courses

Grades, in up to eight semester courses designated as honors courses in approved subjects and taken in the last two years of high school, receive additional points in grade-point average calculations. Each unit of A in approved courses will receive a total of 5 points; B, 4 points; C, 3 points; D, 1 point; and none for F grades.

Provisional Admission

California State University, Long Beach may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned coursework for the senior year. The campus will monitor the final terms of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduation from high school. Students are required to submit an official transcript after graduation to certify that all course work has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the university. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts, and cancel any university registration for any student who is found not to be eligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a diploma from high school, have a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory "a-g" subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

Transfer Policies of CSU Campuses

Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency is accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GE-Breadth) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

"Certification" is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at www.assist.org.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses and any or all of the California community colleges, and other regionally accredited institutions. Established CSU and CCC articulations may be found on www.assist.org. Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution which does not offer bachelor's degrees or their equivalents, for example, community colleges. Given the university's 30-semester (45-quarter) unit residency requirement, no more than a total of 90-semester (135-quarter) units may be transferred into the university from all sources.

Lower-Division Transfer Requirements

Students who have completed college units after graduation from high school are considered transfer students. Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) by the established deadlines are considered lower-division transfer students. CSULB does not currently accept applicants for most majors at the lower-division level.

Upper-Division Transfer Requirements

Students who have completed 60 or more transferable semester college units by the established deadlines are considered upper-division transfer students. (See Undergraduate Requirement Deadlines above.) Since CSULB continues to be a high-demand campus and expects to receive more applications than can be accommodated, competitive admission has been implemented for the transfer class in order to maintain the academic quality of campus programs and services. All upper division transfer applicants must apply to a specific major and meet all of the following minimum CSU standards and major specific requirements by established deadlines:

1. Have completed a minimum of 60 transferable semester units with a cumulative GPA of at least 2.0 ("C" or better) in all transferable units attempted, and
2. be in good standing at the last college or university attended, and
3. have completed at least sixty (60) transferable semester units of college coursework with a grade point average of 2.0 or higher and a grade of C or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking and quantitative reasoning, e.g. mathematics. The 60 units must include at least 30 units of courses, which meet CSU general education requirements including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

In addition to the CSU minimum requirements outlined above, students must satisfy additional major specific supplemental criteria. For more details, please check the campus website at www.csulb.edu/enrollment.

Associate Degrees for Transfer (AA-T or AS-T)/ Student Transfer Achievement Reform (STAR) Act (SB 1440)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide a California community college student a clear transfer preparation and admission pathway to the CSU degree majors.

California Community College students who earn an associate degree for transfer (AA-T or AS-T) degree are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying to a local CSU campus, or non-impacted CSU program. AA-T or AS-T admission applicants are given priority consideration to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-S/AS-T to provide documentation of the degree to the CSU campus.

International Student Applicants

The International Admissions component of the Center for International Education assists academically eligible international students to apply for admission to the University, and advises them of CSULB's financial, immigration and English language requirements. Throughout the students' attendance, the International Student Services staff is involved in their registration, evaluation of transfer credit, changes of majors, and graduation checks. Students are also counseled regarding

their field of study requirements, which vary at both the undergraduate and graduate levels.

International (Foreign) Admission Requirements

CSULB encourages eligible international students to apply for undergraduate and graduate level studies. The CSU must assess the academic preparation of foreign students. For this purpose, international students include those who hold U.S. temporary visas as students, exchange visitors, or in other nonimmigrant classifications. Application requests and questions should be directed to International Admissions (cie-admission@csulb.edu), located in the Center for International Education (BH 201).

The CSU uses separate requirements and application filing dates in the admission of international students. Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants) and academic performance are each important considerations for admission.

International students need to complete the International application on CSUMentor (www.csumentor.edu). The following documents are required:

1. International application form;
2. \$55.00 application processing fee;
3. Affidavit of support from financial sponsor;
4. Bank statement/letter from financial sponsor;
5. Proof of acceptable English proficiency;
6. Official academic documents and certified English translations;
7. ACT or SAT (required for student athletes and graduates of U.S. high schools);

Once all the documents are submitted to the International Admissions Office, eligibility for admission will be determined based on English proficiency and academic history, as well as other considerations. Graduate applications will also be forwarded to the graduate departments for review. Once admitted, international students will receive pre-arrival, arrival, and orientation information, and the appropriate immigration form and instructions on how to legally enter and/or remain in the U.S..

The Department of Homeland Security (DHS) requires that international students be aware of and follow DHS regulations to remain legally in the U.S. for the duration of their academic status. International students on "F" and "J" visas must be enrolled as full time students. Courses taken through the College of Continuing and Professional Education at CSULB or courses taken concurrently at other colleges may only count toward full time status when approved in advance of course registration by the Center for International Education. Questions about DHS policies may be directed to the Center for International Education.

TOEFL Requirement

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must present a minimum score (Paper: 500, iBT: 61) unless the applicant:

1. has proof of at least three years attendance at a secondary level educational institution in a country where English was the principal language of instruction.* CSULB interprets "where English was the principal language of instruction"

to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English, or

2. completed at least 60 transferable units from accredited U.S. community colleges and/or universities and earned a grade of A, B, or C in English 100 or its equivalent*, or
3. successfully completed Level 4 of CSULB's American Language Institute's Intensive English Language Program.*
4. presents a minimum score of 5.5 in each sub-section on the International English Language Testing System (IELTS).
5. Presents a minimum score of 43 on the Pearson Test of English.
6. Present a minimum score of Pre-1 on the EIEN Test.

Undergraduate applicants who are U.S. Citizens or Permanent Residents of the U.S. and who are subject to the above TOEFL requirement may submit results from the English Language Proficiency Test (ELPT) in lieu of TOEFL. A score of 954 on the ELPT is required of such applicants.

EXCEPTION: Applicants applying for Film and Electronic Arts, which requires a 550 TOEFL score, and Journalism, which requires a 600 TOEFL score, will not be waived from the TOEFL requirement.

*For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

Insurance Requirement

Effective August 1, 1995, as a condition of receiving an I-20 or DS-2019 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Department of State and NAFSA: Association of International Educators. The campus President or designee will determine which insurance policies meet these criteria. Further information may be obtained from the Center for International Education, Brotman Hall 201, (562) 985-4106.

Special Consideration

A very limited number of applicants who do not meet regular admission requirements may be considered by the University through an alternate screening process. As part of this review, admission may be offered based on institutional interests, special talents, or special circumstances. The authority to grant special admission is delegated to the Associate Vice President for Enrollment Services based on the recommendations of the appropriate campus committees.

Admission as a Candidate for a Second Baccalaureate Degree

CSULB accepts applicants for a second B.A./B.S. in science, math, engineering, foreign languages and nursing.

Candidates for a second baccalaureate degree should apply using the graduate application.

Graduate and Post-Baccalaureate Application Procedures

All graduate and post-baccalaureate applicants (e.g., Ed.D., joint Ph.D. applicants, master's degree applicants, those seeking educational credentials or certificates, and where permitted, and holders of baccalaureate degrees interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials at www.csumentor.edu. Applicants seeking a second bachelor's degree should submit the graduate application for admission unless specifically requested to do otherwise. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the \$55 nonrefundable application fee. Since applicants for post-baccalaureate programs may be limited to the choice of a single campus on each application, re-routing to alternate campuses or later changes of campus choice are not guaranteed. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. Applications submitted by way of www.csumentor.edu are expected unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available on the World Wide Web at www.csumentor.edu.

Graduate and Post-Baccalaureate Admission Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective, or where approved, may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:

- General Requirements — The minimum requirements for admission to graduate and post baccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.
- Specifically, a student shall at the time of enrollment: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; (3) have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and (4) satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.
- Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the four following categories:
- Graduate Classified – To pursue a graduate degree,

applicants are required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or

- Graduate Conditionally Classified – Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, deficiencies may be remedied by additional preparation; or
- Post-Baccalaureate Classified, e.g. admission to an education credential program – Persons wishing to enroll in a credential or certificate program, will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or
- Post-Baccalaureate Unclassified – To enroll in undergraduate courses as preparation for advanced degree programs or to enroll in graduate courses for professional or personal growth, applicants must be admitted as post-baccalaureate unclassified students. By meeting the general requirements, applicants are eligible for admission as post-baccalaureate unclassified students. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program (Most CSU campuses do not offer admission to unclassified post-baccalaureate students).

These and other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website www.calstate.edu and the CSU admissions portal www.csumentor.edu are good sources of the most up-to-date information.

Graduate and Post-Baccalaureate English Language Requirement

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score, some programs require a higher score, on the Test of English as a Foreign Language (Paper-Based Test: 550, Internet-Based Test: 80), unless the applicant:

1. Submits proof of having obtained a bachelor's degree from an accredited post-secondary institution where English was the principal language of instruction. CSULB interprets "where English is the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and the applicant received academic instruction in all subjects (except foreign language courses) at all levels of education in English, or
2. Notification from CSULB's American Language Institute that the applicant has successfully completed level 6 of the American Language Institute Program.

NOTE: Several CSU campuses may use alternative methods for assessing fluency in English including Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP).

EXCEPTION: Applicants applying for Public Policy and Administration, which requires a 600 TOEFL, will not be waived from the TOEFL

requirement. Also, for this exemption to remain valid for other students, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

Application to Credential Programs

Students planning to enroll in credential programs must also file an application for admission to the University.

Information on application to credential programs is available from the appropriate department or program coordinator.

Note: Some programs have established application periods each year which are separate from the University application periods and process.

Auditors

Persons who have not been accepted by the University for the semester they wish to attend may request permission to audit courses through College of Continuing and Professional Education.

Students who have been accepted by the University may audit courses. See the regulation under "Grades and Administrative Symbols." The deadline to declare an "audit" grade option is the end of the third week of instruction. Follow the instructions in the *Schedule of Classes* for requesting a course as an "audit" grading option. At the end of the semester the instructor will assign an "audit" grade to the official grade sheet which will be forwarded to the Office of Enrollment Services for recording. Courses taken for audit may be repeated in subsequent terms for credit.

Courses successfully audited are listed on the student's academic record but carry no credit or grade points.

Returning and Transfer Students

Returning students must reapply to the university under the same conditions and deadlines as all other applicants.

Students who have not maintained continuous attendance status shall be subject to the General Education requirements in effect at the time of their reentry to the university, with the following exceptions.

Previous CSULB students who were under earlier General Education requirements and who before breaking continuous attendance needed no more than three additional courses to complete the entire General Education requirement shall be allowed to complete the General Education requirement in effect at the time of the previous attendance. However, all students must complete at least 9 units of upper division General Education courses, of which a minimum of 6 units must be Capstone courses.

Previous CSULB students who were under the earlier General Education requirements and who before breaking continuous attendance completed one or more upper-division GE courses shall be required to complete additional Capstone courses as needed to complete the total of 9 upper-division units. At least two of the courses in the overall program must be Capstone courses.

Transfer students who enter CSULB with full GE certification from a California Community College must

complete both the Human Diversity in the U.S. and the Global Issues requirements if these requirements were not met through transfer, but these students need not complete any other GE courses except the Capstone, which cannot be met through transfer from a community college. Transfer students who enter CSULB without full GE certification from a California Community College must complete the CSULB General Education requirements.

Hardship Petitions

The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the campus Office of Enrollment Services regarding specific policies governing hardship admission. (See Admissions Procedures and Policies at the beginning of this section.)

Early Start Program

Entering freshmen who are not proficient in math or English, as determined by their ELM and EPT scores, are required to participate in Early Start. Participation provides new students with an opportunity to begin to integrate into campus life and possibly improve their placement in Fall math or English classes. Students who take 3-unit extended Early Start courses often require less developmental coursework and may start the fall ready for General Education math and writing.

Newly admitted freshman who are required to participate in Early Start will be notified of the requirement and options for completion as part of campus email communications to newly admitted students.

Senior Citizen Education Program

The Senior Citizen Education Program enables eligible California residents 60 years of age or older to enroll as regular students at a cost of \$3.00 per semester. The program, which was founded at CSULB, has been in operation since 1975. Individuals are attending courses in a variety of subject areas and class levels from freshman through graduate standing.

Note: Regular admission standards apply. Requests to waive the application filing fee must accompany the application. Once admitted to the University, students will be sent registration information advising them of the procedures for fee payment and the dates that they may register. Courses are available to program participants approximately three weeks before the beginning of each semester on a "space available" basis. Due to high enrollment and impacted programs some courses may not be available for participation by Senior Citizens.

Participants in the Senior Citizen Education Program are required to maintain good academic standing and are subject to all university policies, procedures, late fee payments and deadlines.

Test Requirements

The office of Testing, Evaluation and Assessment administers local, state and national tests for placement and certification. Test programs currently offered include the SAT, ACT, EPT/ELM, WPE, and Chemistry 111A.

Freshman applicants must submit SAT I and/or ACT scores directly to CSULB. Students should take these tests

no later than December of the prior year. Registration forms and dates for the SAT and/or ACT are available from high school or college counselors or from a CSU campus testing office. For information about the CSULB Testing, Evaluation and Assessment Department, please see: <http://www.csulb.edu/divisions/students/testing/>.

Students also may contact:

The College Board (SAT) Registration Unit, Box 6200 Princeton, NJ 08541-6200 www.collegeboard.org	ACT Registration Unit P.O. Box 414 Iowa City, Iowa 52240 www.act.org
--	--

The office of Testing, Evaluation and Assessment at CSULB is located in Brotman Hall 216. For information, phone (562) 985-4007, FAX (562) 985-2415, or visit the Testing Office website at www.csulb.edu/testing.

English Language Requirement

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 61 (iBt) or above on the Test of English as a Foreign Language (TOEFL). Some majors and colleges may require a score higher than 61. A few colleges may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP).

Each campus will post the tests it accepts on its website and will notify students after they apply about the tests it accepts and when to submit scores.

Systemwide Placement Test Requirements

The California State University requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they may be a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities prior to the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms.

For further information about test programs at CSULB, call (562) 985-4007, go to www.csulb.edu/testing or go to Brotman Hall, Room 216.

English Placement Test (EPT)

The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the California State University. The CSU EPT must be completed by all non-exempt entering

undergraduates prior to enrollment in any course, including remedial courses. Students who score 147 or above on the EPT will be placed in college-level composition classes.

Exemptions from the EPT are granted to students who provide proof of one of the following:

- A score of "Exempt" or "Ready for college-level English courses" on the CSU Early Assessment Program (EAP) taken along with the English Language Arts California Standard Test in grade 11
- A score of "Conditionally ready for college-level English courses" or "Conditional" on the CSU Early Assessment Program (EAP) taken on grade 11, provided successful completion of the Expository Reading and Writing Course (ERWC), AP English, 1B English or an English course approved for extra honors weight on the University of California "a-g" Doorways course list.
- A score of 500 or above on the critical reading section of the College Board SAT Reasoning Test
- A score of 22 or above on the American College Testing (ACT) English Test
- A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program
- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A score of "Conditionally ready for college-level English courses" or "Conditional" on the CSU Early Assessment Program (EAP) taken in grade 11 with the California Standards Text in English Language Arts, along with provided successful completion (demonstrated with a grade of 'C' or better" in one of the following four CSU-approved 12th grade English courses: CSU Expository Reading & Writing Course (ERWC) adopted as a full year course in the 12th grade being taught by a certified instructor, AP English, International Baccalaureate English, or Honors English identified on the UC Doorways Web site as earning extra honors credit.

Entry-Level Mathematics (ELM) Examination

The Entry Level Mathematics (ELM) Examination is designed to assess and measure the level of mathematics skills acquired through three years of rigorous college preparatory mathematics coursework (Algebra I and II, and Geometry) of students entering the California State University (CSU). The CSU ELM must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 50 or above on the ELM will be placed in college-level mathematics classes.

Exemptions from the ELM are granted to students who provide proof of one of the following:

- A score of "Exempt" or "Ready for college-level Mathematics courses" on the CSU Early Assessment Program (EAP), taken in grade 11 in conjunction with the CST in Summative High School Mathematics or

Algebra II

- A score of "Conditionally ready for college-level Mathematics courses" or "Conditional" on the CSU Early Assessment Program (EAP) taken in grade 11 along with the California Standards Test in Summative High School Mathematics or Algebra II, provided successful completion of a CSU-approved 12th grade math course that require Algebra II as a prerequisite
- A score of 550 or above on the mathematics section of the College Board SAT Reasoning Test
- A score of 550 or above on a College Board SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the American College Testing (ACT) Mathematics Test
- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC exam
- A score of 3 or above on the College Board Advanced Placement Statistics examination
- Completion and transfer to CSU of a college course that satisfies the requirement in Quantitative Reasoning, provided such a course was completed with a grade of C or better

Advanced Placement Credit

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement (AP) Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course. Refer to the Advanced Placement Examination Credit table in the Academic Information section of this Catalog.

More specific information is available from the Office of Enrollment Services at (562) 985-5471 or a student's major department.

International Baccalaureate Credit

Students with scores of 5 or higher (4 in certain subjects) in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IB transcript. Course equivalency for Higher Level examinations completed with satisfactory scores is listed in the International Baccalaureate Examination Credit table in the Academic Information section of this catalog.

For questions or information, please call the Office of Enrollment Service at (562) 985-5471 or consult the department.

Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial

license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning these requirements is available from Academic Affairs, (562) 985-4128.

Immunization Requirements

Students enrolled in a California school for the seventh grade or higher on or after July 1, 1999 will have satisfied the requirements for Hepatitis B and for Measles and Rubella (German Measles). Entering CSULB students who have not satisfied these requirements must comply with the following requirements. These are not admission requirements, but students who do not satisfy them will not be permitted to enroll in the California State University. Failure to comply will result in a "hold" on future registration.

- Measles and Rubella (German Measles) Immunization: All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment.
- Hepatitis B Immunization: All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period. If you need further details or have special circumstances, please consult Student Health Services. Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent contracting the disease and indicating whether or not the student has chosen to receive the vaccination. These are not admission requirements, but are required of students as conditions of enrollment in CSU.
- Meningococcal Disease Information: Each incoming freshman who will be residing in on-campus housing will be required to return a form to housing indicating that they have received information about meningococcal disease and the availability of the vaccine.

References: CSU Executive Order No. 803 Immunization Requirements / California Assembly Bill 1107.

Measles/Rubella and Hepatitis B clearance is obtained by presenting to Student Health Services 1) a medical immunization record showing dates of shots given, or 2) a record of blood tests showing immunity, or 3) receiving immunization(s), or 4) making a request for medical or personal religious exemption. Students may receive the immunizations from their health care provider, HMO, or Public Health Department at low cost. Immunizations may also be obtained at Student Health Services for a minimal charge for Measles and Rubella (German Measles) and vaccine Hepatitis B. Acceptable proof may be by records from high school, private health care providers, and local health departments.

For details on immunization requirements and where to obtain vaccines, call Student Health Services, go to www.csulb.edu/shs or go to the Student Health Center at the

corner of Beach Drive and Merriam Way.

Student Selection and Denial

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines the appropriate criteria based on an applicant's suitability and the best interests of the University.

Estimated Expenses

Students should be prepared to meet expenses for fees within 30 days of registration. Books should be purchased when classes begin. Other expenses are ongoing and must be anticipated monthly and included in the total cost of attendance. Expenses generally go up an average three to four percent per year. Actual costs depend upon where the student lives and if there are dependent children. Financial aid programs are designed to help students meet standard University-related expenses during the academic year. The following budgets will assist students in planning costs for average expenses: (Costs include University fees, books and supplies, room and board, personal miscellaneous and transportation based on 2010-2011 CSULB budgets.)

Undergraduate living at home with parents (nine month term)	\$14,336
Undergraduate living in a residence hall (nine month term)	\$20,780
Single undergraduate living off-campus (apartment, house nine month term, assumes shared housing).....	\$20,770

Housing

Living on campus is the ultimate way for students to enhance their college experience. Approximately 2,600 new and continuing students live within three residential colleges that support students personally, socially, and academically. The application period for new residents is typically early March - May 1 of each year.

All first-time freshmen are required to live in campus residence halls during their first year at CSULB unless they are 21 years or older or will be living at home with a parent(s) or legal guardian(s) during their entire freshmen year. Exemptions will be considered if verification is presented for students who are veterans or currently active duty; students who are married, domestically partnered, and/or have legally dependent children; students who have been independent and not claimed by their parent(s) for two calendar years; students carrying five units or less per semester for the entire academic year; students with special circumstances, such as medical or disability circumstances.

For more information about on and off-campus housing, call (562) 985-4187, go to www.csulb.edu/housing or go to the Housing Office at the corner of Atherton Street and Earl Warren Drive.

Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the California State University establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus

decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website.

Information on CSULB's appeal process can be found at: <http://www.csulb.edu/depts/enrollment/admissions/appeals.html>.

FEES AND FINANCIAL AID

Schedule of Fees, 2014-2015

The CSU makes every effort to keep student costs to a minimum. Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after initial fee payments are made, to increase or modify any listed fee, without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed fees should be regarded as **estimates** that are subject to change upon approval by The Board of Trustees.

Students who wish to drop units AND to simultaneously or subsequently add the same number of units to accomplish this exchange may do so without financial penalty in Tuition Fees, provided this exchange in units meets all other signature requirements. This activity may not occur later than 14 days from the first day of instruction.

All Students

Application Fee (nonrefundable), payable by check or money order at time application is made: \$55.00. These fees are subject to change. Check the current *Schedule of Classes* for fees each semester.

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

2014-15 Basic Tuition Fees

Undergraduate Tuition Fee (per semester)

6.1 units or more.....	\$2,736.00
0 units to 6.0 units	\$1,587.00

Other Mandatory Registration Fees (per semester)

Facilities Fee	\$3.00
Instructionally Related Activities Fee (IRA)	\$25.00
Associated Students Inc. Fee	\$60.00
University Student Union Fee	\$179.00
Student ID Card	\$5.00
Student Health Services Fee	\$45.00
Student Excellence Fund Fee	\$173.00

Total Resident Fees Per Semester

0.1 to 6.0 units.....	\$2,077.00
-----------------------	------------

Total Resident Fees Per Semester

6.1 or more units	\$3,210.00
-------------------------	------------

Credential Program Tuition Fee (per semester)

6.1 units or more.....	\$3,174.00
0 units to 6.0 units	\$1,842.00

Graduate/Post Baccalaureate Tuition Fee (per semester)

6.1 units or more.....	\$3,369.00
0 units to 6.0 units	\$1,953.00

Other Mandatory Registration Fees (per semester)

Facilities Fee	\$3.00
Instructionally Related Activities Fee (IRA)	\$25.00
Associated Students Inc. Fee	\$60.00
University Student Union Fee	\$179.00
Student ID Card	\$5.00
Student Health Services Fee	\$45.00
Student Excellence Fund Fee	\$173.00

Total Resident Fees Per Semester

0.1 to 6.0 units.....	\$2,443.00
-----------------------	------------

Total Resident Fees Per Semester

6.1 or more units	\$3,859.00
-------------------------	------------

2014-15 Doctoral Tuition Fee, effective Fall 2012*

Education Doctorate	\$5,559.00
Doctor of Physical Therapy	\$8,074.00

*Applicable term fees apply for campuses with special terms, as determined by the campus. Total College Year fees cannot exceed the Academic Year plus Summer Term fees. The Summer Term fee for the Education Doctor at quarter campuses is equal to the Per Semester fee listed in the table. Total fees for the Education Doctor over the College Year equals the Per Academic Year fee plus the Per Semester fee for the summer term at all CSU campuses.

2014-15 Graduate Business Professional Fee

Charge Per Unit	\$254.00
-----------------------	----------

The Graduate Business Professional Fee is paid on a per unit basis in addition to basic tuition fees and campus fees for the following graduate business programs: Master of Business Administration (M.B.A.), Master of Science (M.S.) in Accountancy.

Nonresident Students (U.S. and Foreign)

Nonresident Tuition (in addition to basic tuition fees and other systemwide fees charged all students) for all campuses:

Charge Per Unit	\$372.00
-----------------------	----------

The total nonresident tuition paid per term will be determined by the number of units taken.

Optional Fees (per semester)

The following represents rates for the Fall 2010 and Spring 2011 semesters and are subject to change.

Motorcycle and Moped Parking (per semester).....	\$30.00
Automobile Parking (per semester).....	\$123.00
Replacement Parking Permit.....	Full Price

Other Fees and Charges (non-refundable)

Late Registration	\$25.00
Application and Reapplication Fee	\$55.00
Diploma/Commencement Fee	\$45.00
Missed Deadline Fee.....	\$10.00
Dishonored Check and Echeck Charge	\$20.00
(If the Dishonored Check was for payment of registration fees, the Late Registration Fee may also apply)	
Disputed Credit Card Charge	\$10.00
Complete transcript of record	\$4.00
Expedited Transcript Fee.....	\$10.00
Replacement of Student ID Card.....	\$5.00
Late Payment Fee	\$10.00
Enrollment Deposit	\$150.00
Installment Plan Fee.....	\$33.00
Refund Processing Fee.....	\$10.00
Short-term/Book Loan/Tuition Deferment Fee.....	\$15.00

Schedule of Fees, 2015-2016

The CSU makes every effort to keep student costs to a minimum. Fees listed in published schedules or student

accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after initial fee payments are made, to increase or modify any listed fee, without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed fees should be regarded as **estimates** that are subject to change upon approval by The Board of Trustees.

The following reflects applicable systemwide fees for both semester and quarter campuses. **These rates are subject to change.**

All Students

Application Fee (nonrefundable), payable by check or money order at time application is made: \$55.00. These fees are subject to change. Check the current *Schedule of Classes* for fees each semester.

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

2015-16 Basic Tuition Fees

Undergraduate Tuition Fee (per semester)

6.1 units or more.....	\$2,736.00
0 units to 6.0 units	\$1,587.00

Credential Program Tuition Fee (per semester)

6.1 units or more.....	\$3,174.00
0 units to 6.0 units	\$1,842.00

Graduate/Post Baccalaureate Tuition Fee (per semester)

6.1 units or more.....	\$3,369.00
0 units to 6.0 units	\$1,953.00

2015-16 Doctoral Tuition Fee*

Education Doctorate	\$5,559.00
Doctor of Physical Therapy	\$8,074.00

*Applicable term fees apply for campuses with special terms, as determined by the campus. Total College Year fees cannot exceed the Academic Year plus Summer Term fees. The Summer Term fee for the Education Doctor at quarter campuses is equal to the Per Semester fee listed in the table. Total fees for the Education Doctor over the College Year equals the Per Academic Year fee plus the Per Semester fee for the summer term at all CSU campuses.

2015-16 Graduate Business Professional Fee

Charge Per Unit	\$254.00
-----------------------	----------

The Graduate Business Professional Fee is paid on a per unit basis in addition to the SUF and campus fees for the following graduate business programs: Master of Business Administration (M.B.A.), Masters of Science (M.S.) in Accountancy.

Nonresident Students (U.S. and Foreign)

Nonresident Tuition (in addition to basic tuition fees and other systemwide fees charged all students) for all campuses:

Charge Per Unit	\$372.00
-----------------------	----------

The total nonresident tuition paid per term will be determined by the number of units taken.

For up-to-date information on all campus related fees, please visit: http://www.csulb.edu/depts/enrollment/registration/fees_basics.html

Parking Fee

Parking at CSULB is limited. Parking permits are required 24 hours a day, Monday through Sunday, and the vehicle code is enforced at all times. For additional information please go to www.csulb.edu/parking or contact the Parking Office at (562) 985-4146.

To request a partial or full refund, attach all parking documents, permits stickers, decals and gate cards to the refund application and return to Student Account Services, Brotman Hall 148. Refer to the *Schedule of Classes* for deadline information. If parking documents are not available or have not been received, students MUST contact the Parking Administration Office located on Merriam Way adjacent to the parking structure. If any of these parking documents are affixed to the vehicle, their removal by a campus security officer or under the officer's direction, shall constitute appropriate return. Attach all parking documents, permits stickers, decals and gate cards to the refund application and return to Student Account Services, BH 148. There shall be no refund if such amount is less than \$10. There shall be no refund for:

1. Coin operated parking meters.
2. Daily permits for coin operated parking gates.
3. Special events.
4. Fees paid by monthly payroll deductions.

Auditors

Students enrolled as auditors, not for credit, are exempt from payment of the application fee, but must pay fees appropriate to the number of units taken.

Payments

Total fees include the State University Fee, Non-Resident Tuition, other campus mandatory fees as well as course fees. Payment of fees is required 30 calendar days after registration, or approximately 12 days prior to the first day of instruction, whichever is earlier. For payment deadlines, refer to the *Schedule of Classes*. Payment must be received by the due date or the student's registration request may be cancelled; postmarks are not accepted. Students who have not completed their registration before 12 days prior to the first day of instruction, must make payment within 24 hours of their registration.

Students are encouraged to make immediate payment to confirm their enrollment requests as classes fill quickly due to CSULB's high enrollment. They may also make a payment before registering (i.e. a deposit), if they choose.

Payment can be satisfied by cash, check, Echeck, credit card, Financial Aid deferments, actual Financial Aid awards, approved payment plans, other approved fee deferments, approved private scholarships, approved tuition waivers, or confirmed third party sponsors. Payments can be made in the following ways:

- ECheck (self service over the web at <http://my.csulb.edu>)
- Credit Card

Payment of student fees can be made by credit card (Discover, American Express, VISA or MASTERCARD - only) at:

- Self-Service/Smart Pay -- over the web at <http://my.csulb.edu> (Smart Pay charges a 2.75%

service charge)

-- Self-Service over the web at <http://my.csulb.edu>

Payment of fees CANNOT be made if disputed credit card charges exist on your account.

• Check

- In person at the Cashiers Windows, Brotman Hall 148
- Mailed to the Cashiers, Brotman Hall 148, CSULB, 1250 Bellflower Blvd., Long Beach, CA 90840-0103

• Cash

- In person only at the Cashiers Window, Brotman Hall 148

• ECheck (self service over the web at <http://my.csulb.edu>)

• Credit Card

Payment of student fees can be made by credit card (Discover, American Express, VISA or MASTERCARD - only) at:

- Self-Service/Smart Pay – over the web at <http://my.csulb.edu> (Smart Pay charges a 2.75% service charge)

- Self-Service over the web at <http://my.csulb.edu>

Payment of fees CANNOT be made if disputed credit card charges exist on your account.

Contact Student Account Services for further information.

Short Term Loans

A limited number of short term loans to assist in paying for registration fees, books, or authorized emergencies are available to qualified students on a first come, first served basis. Information about this program is available at Brotman Hall 148, Cashiering Windows.

Installment Payment Plan

The Installment Payment Plan is available to all eligible students except financial aid recipients who have sufficient funds to cover the State University Fee. A \$33 non-refundable charge is assessed to defer the administrative costs of the program. A 9% service charge is assessed to the deferred balance for non-resident tuition and international Visa students. Payment Plans are available online at MyCSULB under the Student Center/Finances/Enroll in Payment Plan.

Refund of Mandatory Fees, Including Nonresident Tuition

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-support, special session, and extended education programs or courses at the California State University are governed by a separate policy established by the University, available from the College of Continuing and Professional Education.

In order to receive a full refund of mandatory fees, less an administrative charge established by the campus, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of

instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available in the *Schedule of Classes*.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university's established procedures or drops all courses prior to the campus-designated drop period will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with the campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the campus.

For state-supported non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes, in accordance with the university's established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four (4) weeks.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:

- The fees were assessed or collected in error;
- The course for which the fees were assessed or collected was cancelled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the Student Account Services Office.

Refunds of Registration and Tuition Fees

Details regarding Registration and Tuition Fee Refunds may be found in the on-line *Schedule of Classes*. As this information may differ from one semester to another, students are advised to refer to the *Schedule of Classes* for that particular semester. Students must complete the class drop or withdrawal process prior to becoming eligible for any credit of fees. The amount to be refunded is determined by the effective withdrawal or drop date. In addition, any other outstanding financial obligations that the student may have incurred will be deducted from any credits due to the student before a refund is processed. Refund deadlines are reflected in the *Schedule of Classes*. A \$10.00 processing

fee will be withheld from the refunds.

Details regarding refunds due to Medical Withdrawals can be found in the *Schedule of Classes*.

Further details regarding fees that may be refunded and the circumstances under which they may be refunded may be obtained by consulting the California Code of Regulations, Title V, in the following sections:

Registration and Tuition Fees – Section 41802

Parking Fees – Section 42201

Housing Fees – Section 42019

The following fees are non-refundable: Late Fees, Application Fees, Disputed Credit Card Fees, Dishonored Check Fees, Student I.D. Card Replacement Fees, Late Payment Fees.

Special Circumstances Refunds

There are two levels of financial appeals. They are as follows:

1. Request for Refunds After Published Deadlines:

Students who withdraw or drop in units after the deadlines detailed in the *Schedule of Classes* have passed, may appeal for a Special Circumstances Refund (<http://daf.csulb.edu/forms/financial/bursar/sas/SpecialCircumstancesRefund.php>) based on the following:

- A. Campus Variation
- B. Compulsory Military Service
- C. Death of Student
- D. Fees Collected in Error

Further information regarding Special Circumstances Refunds by calling the Student Account Services Office at (562) 985-8280.

2. Financial Appeals Independent Review Committee (F.A.I.R.)

If a student wishes to petition the decision made at the first appeal level, a written request must be submitted to the F.A.I.R. Committee (BH 155) for review.

This Committee has been approved by the President as the final financial appeal level. It consists of representatives from various University Offices. F.A.I.R. will only review appeals for the current academic year.

Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900- 41916. This material can be viewed on the Internet by accessing the California State University's website at www.calstate.edu/GC/resources.shtml.

Each campus's Admissions Office is responsible for

determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver's license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, along with physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- has not and will not receive more than seven hundred and fifty dollars (\$750) per year in financial assistance from his/her parent; and
- has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906- 41906.6, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school in California and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student cannot be determined

before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

The campus Office of Enrollment Services is responsible for determining the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, as necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residency for tuition purposes at the California State University is found in California Education Code, sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University's website at www.calstate.edu/GC/resources.shtml.

Legal residency may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Steps must be taken at least one year prior to the residence determination date to show an intent to make California the permanent home with concurrent relinquishment of the prior legal residency. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one's permanent belongings are kept; maintaining active residency memberships in California professional or social organizations; maintaining California vehicle plates and operator's license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in the military service.

The student who is within the state for educational purposes only does not gain the status of resident regardless of the length of the student's stay in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of an unmarried minor who has a parent living cannot be changed by the minor's own act, by the appointment of a legal guardian or by the relinquishment of a parent's right of control.

A married person may establish his or her residence independent of his or her spouse.

An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of

abode.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence on parents who cannot satisfy University requirements for classification as residents for tuition purposes, which will be considered along with physical presence and intent in determining reclassification.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "resident student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. Residence determination dates are: Fall – September 20; Spring – January 25; Summer – June 1.

There are exceptions from nonresident tuition including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues until the student has resided in the state the minimum time necessary to become a resident;
2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident;
3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student has resided in the state the minimum time necessary to become a resident;
4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. Graduate students are eligible for this exception for one academic year of continuous enrollment, the length of time necessary to establish California residency. There is no time limitation on this exception unless the military person transfers out of California or retires from military service. If either of those events happen, the student's eligibility for this exception continues until he or she resides in the state the minimum time necessary to become a resident;
5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception is available to the graduate student military member for no more than one academic year of continuous enrollment, the length of time necessary to establish California residency. The undergraduate student military member is eligible for this exception for as long as he or she is stationed in California as an active member of the military.
6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student

has resided in state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous residence is maintained at an institution.
8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.
9. Certain credentialed, full-time employees of California school districts;
10. Full-time State University employees and their children and spouses; State employees assigned to work outside the State and their children and spouses. This exception continues until the student has resided in the state the minimum time necessary to become a California resident;
11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties;
12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident;
13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident;
14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.
15. Persons who have attended a California high school for at least three years and have graduated from a California high school or equivalent. Please Note: Those who hold non-immigrant visas (i.e. F, J, B, H, etc.) are not eligible for this exception. Those seeking this exception must fill out the Student Affidavit for Exemption of Nonresident Tuition form, which is available at www.csulb.edu/enrollment. Once this exception is approved, it is not necessary to reapply each semester. This is the only exception for which this is true.

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residency classification appeal must be in writing and submitted to:

The California State University Office of General Counsel
401 Golden Shore, 4th Floor Long Beach, CA 90802-4210

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.

Changes in residency for tuition purposes are not automatic. Students wishing to apply for residence reclassification must submit a Residence Reclassification Request Form and supporting documentation. The filing period for a spring term is from October 1 through November 1; the filing period for a fall or summer term is from March 1 through April 1. A ten-dollar late filing fee must accompany requests filed after the last date of the filing period. Under no circumstances will a reclassification request be accepted for a term that has ended.

Exceptions from nonresident tuition are valid for one semester only. Students must reapply for an exemption each semester. Forms are located at the Office of Enrollment Services, BH 101.

Financial Obligations and Holds

University offices, including but not limited to the Library, may request that a student reimburse the University for an item that was not returned, returned late or damaged; or they may impose other charges. The requesting office may ask the Student Account Services Office to post this charge to the student's account. Once posted it becomes an obligation to the student. Student Account Services will be able to provide general information concerning obligations. The student will be directed to the appropriate department in which to inquire about the obligation. Until all obligations are paid, or a written release from the originating office is received by the Student Account Services Office, a financial hold will be placed on academic records and the student is restricted from receiving University services, including but not limited to registration, grades, and transcripts. If the obligation continues to appear on the University reports, the student's name will be submitted to the Franchise Tax Board. In this case, the student or former student, permanently loses the privilege of submitting checks as payment for fees or services. (Acceptable methods of payment are cash, cashiers' check or money order). The State then has the authority to withhold amounts owed to the University from any tax refund to which the student may be entitled.

To pay your balance due – Cashier's Office, BH 148.
For information regarding the amount due – Student Account Services, BH 148 or call Student Account Services at (562) 985-8280.

Dishonored Checks / EChecks

Students paying fees by personal check or Echeck are hereby given notice that if the unpaid check is returned dishonored to the University FOR ANY REASON, a \$20.00 fee is charged to the student's account. The University has no control whether the bank sends checks through a second time for clearing. The check should be honored upon first presentation to the bank.

In compliance with California Code of Regulations, Title V, Section 42381, students with dishonored checks may be disenrolled from classes and may be required to reapply for admission to the University. Also, future services including, but not limited to, transcripts, grades, and future registration may be withheld.

Dishonored checks are monitored in the student's record. Any student with a record of two (2) dishonored checks or Echecks will lose check writing privileges with the University and future payments by personal check will not be accepted.

Disputed Credit Card Charge

Students are strongly encouraged to contact the Student Account Services (BH 148) or call Student Account Services at (562) 985-8280, before disputing a credit card charge through the bank. Upon receipt of a disputed credit card charge, the amount of the credit card charge plus a \$10.00 fee becomes the STUDENT'S financial obligation to the University. Payment of Registration fees with a credit card charge which has later been disputed may result in disenrollment and in withholding of future University services including, but not limited to, transcripts, grades, and future registration (California Code of Regulations, Title V, Section 42381). Students who are disenrolled may be required to reapply for admission to the University.

Fees and Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact Enrollment Services, (562) 985-5471, on campus at BH-101 or online at <http://www.csulb.edu/depts/enrollment/>.

Enrollment Services, or another office on campus to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Financial Assistance Information

There are a variety of financial aid programs to assist students and families with meeting expenses. The following information concerning student financial assistance may be obtained from Financial Aid, BH 101, (562) 985-8403 or by visiting the website at www.csulb.edu/enrollment:

1. A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at CSULB;
2. For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and the criteria for continued student eligibility under each program;
4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
6. The way the school provides for Pell-eligible students to obtain or purchase required books and supplies by the seventh day of a payment period and how the student may opt out;
7. The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
8. The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
9. The terms and conditions of the loans students receive under the Direct Loan and Perkins Loan Programs;
10. The exit counseling information the school provides and collects for student borrowers; and
11. Contact information for ombuds offices available for disputes concerning federal, institutional and private loans.

Information concerning the cost of attending California State University, Long Beach is available from the Office of Financial Aid, BH 101, (562) 985-8403, and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of California State University, Long Beach for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Controller, BH 365.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulations is available from the Office of Financial Aid, BH 101, (562) 985-8403.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, Sports Athletics and Recreation, 562-985-8527.

Information concerning teacher preparation programs at CSULB, including the pass rate on teacher certification examinations, may be obtained from either Elementary/Special Education Admission Advising, ED1 54, (562) 985-9259, Elementary Education: www.csulb.edu/cedinfo, Special Education: www.csulb.edu/colleges/colled/special-education, or Single Subject Office, ED 1 53, (562) 985-7623, www.csulb.edu/depts/singlesubj.

The Office of Financial Aid at CSULB provides both financial and advisory assistance to enable students to pursue a quality education despite increasing costs. It administers funds made available by the federal and state governments, CSU and by private sources that are awarded to students who demonstrate a need to cover educational expenses.

Due to limited funding, meeting deadlines is critical. Students must file a financial aid application (FAFSA or CA Dream Act Application) between January 1 and March 2 for priority status. Financial aid files must be complete before financial need can be determined.

Financial Aid Application

The appropriate financial aid application must be completed in order for a student to be considered for financial aid at CSULB:

- Federal aid eligible students (citizens & eligible non-citizens) should complete the Free Application for Federal Student Aid (FAFSA) - at www.fafsa.ed.gov.
- Students with an AB540 status, who are not eligible for federal aid, should complete the California Dream Act Application at www.dream.csac.ca.gov.

To ensure CSULB receives the application information, be sure to list CSULB and the School Code 001139 on the college release section. The application must be completed *each year*; students are encouraged to submit the application online; however, alternate submission instructions are provided on the above websites for those students who are unable to submit the application electronically.

In addition to the FAFSA / Dream Act Application, new applicants for Cal Grants (including entering freshmen) must submit a Cal Grant GPA Verification Form by the March 2nd Priority Filing deadline. Forms are available for download from the California Student Aid Commission website at www.csac.ca.gov.

Detailed information about CSULB financial aid programs is available from the Office of Financial Aid website (www.csulb.edu/financialaid). The submission of various supporting documents may be required, including (but not limited to): (1) verification of all taxable and nontaxable income; (2) household information; (3) other clarifying information requested by the Office of Financial Aid. Upon receipt of all documentation, the applicant's file is evaluated to determine eligibility for financial aid. A student who submits a financial aid application (and all requested supporting documents) is automatically

considered for all aid programs for which he/she qualifies. Students expecting to receive a financial aid refund are required to be enrolled in eRefund - CSULB's electronic refund process (bank account information will be required).

Financial Aid Eligibility

To determine financial aid eligibility, a standard needs analysis system is used. This system allows the Office of Financial Aid to analyze family financial strength and ability to contribute toward the cost of attending CSULB. Subtracted from the student's educational expenses to arrive at financial need are: the parental contribution, the applicant's (and spouse's) contribution from employment, savings, a portion of assets and other resources. As long as program funds permit, a "package" consisting of various types of funds (grants, loans, work-study) is awarded to meet full need.

Award offers are made based on an assumption of full-time enrollment. Students enrolled at least half-time are eligible to receive financial aid, however, some awards may be prorated based on actual enrollment (half-time enrollment is considered to be 6 units for Undergraduate students; 4 units for Master's Degree Students; 3 units for Doctoral students).

Notification of Awards

Upon determination of eligibility, new students are sent notice of a financial aid offer. Students are also notified if determined to be ineligible.

It is the goal of CSULB to package aid that fully meets the need of all qualified aid applicants. However, in the event that funds are insufficient, priority will be given to students whose financial aid files meet the first priority deadlines and who demonstrate the highest need.

Academic Responsibilities

Aid recipients must meet the following Satisfactory Academic Progress (SAP) requirements:

1. The GPA Standard
2. The Pace Standard
3. The Maximum Time Frame Standard

Aid eligibility is governed by the number of units attempted and successfully completed with a passing grade ("D" or better). Students who do not satisfactorily complete enough of their attempted units, or who fail to meet the GPA standard, may be placed on financial aid warning or disqualified from receiving aid.

Most aid recipients enroll in a full-time program of study carrying 12 undergraduate units or 8 units for Master's Degree Students; 6 units for Doctoral students (500-level courses or higher) per semester. To be considered an eligible financial aid applicant, students cannot have attempted more academic units than an established "unit limit." At CSULB, the established unit limit is 150% of the published length of an academic program measured in units.

For complete information on CSULB's Satisfactory Academic Progress Policy, please visit http://www.csulb.edu/depts/enrollment/financial_aid/sap_policy.html.

Financial Responsibilities

If you are determined ineligible for financial aid, you are responsible for the payment of any University obligations you may have, including fees.

Students who are receiving financial aid funds and

completely withdraw from all of their classes, may have to repay all or part of the award they received. Students should check with the financial aid office to find out if they will owe a repayment, before withdrawing from all of their classes.

Campus Financial Aid Programs

Federal Perkins Loans

The Federal Perkins Loan is a federal program providing long-term, low interest loans to both graduate and undergraduate students. Repayment of loan principal and interest begins nine months after you cease to be enrolled at last half-time.

Federal Supplemental Educational Opportunity Grant (SEOG)

The SEOG is a federally funded grant program for undergraduate students with exceptional financial need.

Federal Work-Study (FWS)

The work-study program is a federally funded employment program to expand part-time job opportunities for students with financial need. Students apply for jobs according to their skills, career and academic goals. Positions are available on campus or with organizations off campus.

Educational Opportunity Program Grants (EOP)

EOP grants are provided by the State of California for undergraduate students who are admitted to a CSU campus through the Educational Opportunity Program and demonstrate the same need criteria as federal financial aid. For further information, contact the EOP Admissions Office at (562) 985-4288 or www.csulb.edu, or at the EOP Office at LA1-103.

State University Grant (FAFSA & Dream Act Applicants)

The State University Grant is funded by the State of California to assist students whose ability to attend postsecondary institutions is jeopardized due to financial constraints. The award covers up to the amount of the State Tuition Fee. Students must be residents of California, demonstrate financial need, and be assessed state tuition fees to be eligible for this award.

Please review the complete CSULB State University Grant Policy (including lifetime eligibility limitations) at www.csulb.edu/sugpolicy.

Graduate Research Fellowships

The Graduate Research Fellowship is funded by the California State University to graduate students who have experienced educational or economic disadvantages or hardships. Applicants must be California residents, demonstrate financial need and be accepted into or continuing in a full-time graduate program. Limited awards are made through a competitive process.

Scholarship Information

Scholarships at CSULB are administered by several offices, including the Office of Financial Aid, the Center for Scholarship Information, and some academic departments.

Scholarships may be awarded to qualified students based upon academic achievement, leadership, financial need or a specific area of study and/or ability. Students may access a database of on- and off-campus scholarships and receive guidance on the entire scholarship process, including how to search and/or apply for scholarships, at the Center for Scholarship Information. For more information, call (562) 985-2549, go to www.csulb.edu/scholarships or visit the Center at the University Student Union, Room 238.

President's Scholars' Program

The President's Scholars Program continues to be the premier scholarship of its kind in the state. Recognized by the California Legislature, the program provides California high school seniors who are qualifying valedictorians from accredited high schools or national scholars (National Merit Semifinalists/Finalists, National Achievement Program Semifinalists/Finalists, and National Hispanic Recognition Scholars) an opportunity to compete for an exceptional package that includes:

- Full payment of in-state tuition and general student fees
- Highest priority registration
- Paid housing in campus residence halls
- Sponsored meal plan (for National scholars only)
- Automatic acceptance to the University Honors Program
- Personalized academic advising
- Exclusive access to the President's Scholars Center, including computer lab and study lounge
- Opportunity for international study abroad programs
- Special recognition at commencement with the President's Scholar medallion
- Four-year degree completion option
- Campus student parking privileges
- Annual book allowance

For more information, call (562) 985-5358, go to www.csulb.edu/presidents-scholars or visit University Outreach and School Relations at Brotman Hall, Room 289.

Outside Student Aid Programs

The following programs are administered by other agencies and coordinated by the Office of Financial Aid:

Cal Grant A (FAFSA & Dream Act Applicants)

Cal Grant A is awarded by the California Student Aid Commission to entering and continuing undergraduate students who are California residents. Cal Grant A awards are based on academic achievement financial need, and the enrollment status (full-time, three-quarter time, or half-time). Grants are used to offset state tuition fees.

Cal Grant B (FAFSA & Dream Act Applicants)

Cal Grant B is awarded by the California Student Aid Commission to entering undergraduate students who have not completed more than one semester of college. Applicants must be California residents, and must demonstrate substantial financial need. Grants vary depending on educational costs. Fees, in addition to the basic award, are normally provided in the second, third, and fourth years. The grant may be renewable for up to four years.

Federal Pell Grant Program

The Pell Grant Program is a federal aid program designed to provide financial assistance to eligible undergraduate students who demonstrate financial need. Teacher credential students in an eligible program may also qualify. Once a student is determined eligible for the Pell Grant, the amount of the award is based on the cost of education at the school the student is attending, and enrollment on either a half-time, three-quarter time, or full-time basis. Eligibility is limited to U.S. citizens and eligible non-citizens. Students are limited to a total of six full-time years (600%) of Pell Grant eligibility.

Federal Direct Loan

The Federal Direct Loan Program enables eligible students to obtain loans from the federal government. During the time the student is enrolled at least half-time, the federal government pays the interest on the cumulative amount borrowed if the loan is based on financial need (subsidized). An unsubsidized Federal Direct Loan is not based on financial need. Once funds are disbursed, the student is responsible for interest due on the loan while in school. Federal regulations allow any student to apply for the Federal Direct Loan provided the student: 1) is enrolled and in good standing or has been accepted for enrollment at an eligible school; 2) is enrolled as at least a half-time student; 3) is a citizen of the United States or an eligible non-citizen; 4) is registered with Selective Service (if required); 5) is working toward a degree or certificate; 6) is making satisfactory academic progress; and 7) does not owe a refund on a federal grant and is not in default on a federal education loan.

Federal PLUS Loan

The Federal PLUS loan program provides government-insured loans to graduate/doctoral level students and parents of dependent undergraduate students. The PLUS loan is a non-need based unsubsidized loan meaning interest begins accruing on the amount disbursed from the date of disbursement. Eligibility for the PLUS loan is based upon the credit history of the borrower.

The Teacher Education Assistance for College and Higher Education (TEACH) Grant

The TEACH Grant is designed for students who intend to teach full time in a high-need field at a public or private elementary or secondary school that the U.S. Department of Education has designated as having a high concentration of students from low-income families. In exchange for the TEACH grant, recipients agree to teach for at least four years within eight years of finishing their teacher preparation program. Grant recipients who are unable to complete any of the service requirements of the TEACH Grant Program will have their grants converted to a Federal Unsubsidized Stafford Loan.

Information, brochures, advising, and application forms are available from BH 101, or phone (562) 985-8403.

Fee Waivers

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows:

Section 66025.3 – Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war period veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions;

Section 68120 – Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships); and

Section 68121 – Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001. Students who may qualify for these benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions:

Section 68122 – Students who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus.

Section 68130.5 – Students who are not residents of California are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus. In addition, students without lawful immigration status will be required to file an affidavit stating that they have filed an application to legalize their immigration status, or will file an application as soon as they are eligible to do so. This exemption from paying nonresident

tuition does not apply to students who are nonimmigrant aliens within the meaning of 8 U.S.C. 1101(a)(15), except as provided by Section 68122 above.

Students who may qualify for these benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination.

Bureau of Indian Affairs (BIA) Grants

Students who are at least one-fourth American Indian, Eskimo, or Aleut may apply for a BIA grant. The amount of the grant depends upon financial need and availability of funds. Students must complete an application for financial aid and then contact their tribe or tribal agency for an application.

Federal/State Regulations

The information contained in this publication accurately reflects regulations and policies at the time of printing. Be aware that Federal and State regulations governing financial aid processing and eligibility are subject to change at any time.

Other Types of Financial Assistance

Student Part-Time Employment & Internship Opportunities

The Career Development Center assists students with locating part-time employment, internship opportunities, on-campus federal work-study, and off-campus positions. Students can access listings on BeachLINK, CSULB's online job search site <http://careers.csulb.edu/>. For more information, contact the Career Development Center (562) 985-4151 or visit Brotman Hall, Room 250.

Teaching Associateships and Graduate Assistantships

Many CSULB departments have Teaching Associate (TA) and/or Graduate Assistant (GA) positions available for qualified graduate students. Students should check in department offices or on the campus web site for more information.

ACADEMIC SERVICES AND CAMPUS LIFE

Orientation and Advising

Student Orientation, Advising and Registration

SOAR is the comprehensive orientation workshop to help newly admitted students transition – both academically and socially – to CSULB. All new undergraduate students are required to attend SOAR before registering for classes. Students must be formally admitted to CSULB and have paid the CSULB Enrollment Deposit in order to sign up and attend SOAR.

For information about SOAR workshops and other programs, call (562) 985-5515, email soar@csulb.edu or visit www.csulb.edu/soar.

SOAR Freshman Workshops

Newly admitted freshmen must participate in either a one-day SOAR workshop or attend the overnight program. One-day freshman workshops include a campus tour, academic advising, and assistance with class selection and registration. One-day workshops are offered in the summer and winter. The overnight SOAR program, which is only offered in the summer, provides academic advising, class selection and assistance with the registration process, introduces freshmen to college life/issues, and enables students to experience an overnight stay in the campus residence hall.

SOAR Transfer Workshops

Each of the University's seven colleges collaborates with SOAR to sponsor college-specific transfer workshops. Transfer students should participate in a college-specific workshop where they meet with faculty advisors and receive assistance with class selection specific to their declared major.

Student Transition and Retention Services

The STARS program facilitates the transition and retention of CSULB's diverse student population by providing student-centered programs and services that foster student advancement toward graduation. STARS directs its major effort toward the advising, registration and orientation of new students. It also offers ongoing retention programs and leadership development opportunities through its First Year Experience Series.

The First Year Experience (FYE) Success Series is a collaborative workshop series designed to address important academic information and campus resources at critical points in the first year. Topics in the fall semester are geared towards helping students with their academic transition, while the spring semester focuses more on enhancing the college experience outside of the classroom and gaining important leadership and career experience. Additionally, FYE provides opportunities for students to connect with other students, faculty/staff, and campus resources through co-curricular programming.

For information, call (562) 985-5515, visit www.csulb.edu/soar or go to the Foundation Building, Room 160.

Parent and Family Programs (PEP)

Parent and Family Programs provide parents, family members, and other supporters an opportunity to serve in an active and supportive role in the education of their CSULB student. Its mission is to engage parents and families of CSULB students through quality programs, access to resources and regular communication in order to support student persistence and success toward timely graduation.

Opportunities for involvement begin with Parent and Family Orientation (PFO), which offers an orientation program for parents, family members, and other supporters. PFO help family members understand CSULB and how to best support their student's transition to life at the beach. The PFO experience empowers participants to serve as a valuable resource to their CSULB student. PFP offers additional opportunities for engagement throughout the year by providing e-newsletters in addition to PFP-exclusive programs like the annual *First Year for Parents and Families event*. To inquire about PFP and upcoming events please contact parentfamilyprogram@csulb.edu or call (562) 985-5515.

Advisement Centers and Departments on Campus

CSULB is committed to student success. All academic advising centers and departments are responsible for providing academic direction for new and continuing students. All college specific academic advising units and academic departments provide information and advice about general education, major requirements, and other important academic related policies and procedures. Students are strongly advised to meet with an academic advisor frequently to enhance their overall academic experience and monitor their progress towards attaining their degree goals and objectives.

University Center for Undergraduate Advising

THE UCUA is the primary advising center for

- Undeclared majors as well as those who have doubts or concerns about their initial choice of major
- Beach Learning Community participants
- CSULB students on probation
- Academically disqualified students seeking reinstatement to CSULB

For these populations, we provide:

- guidance in exploring and formulating academic plans to achieve graduation in a timely manner;
- recommendations regarding opportunities for personal growth and academic development;
- interpretation of academic requirements and institutional policies/procedures; (e.g., issues regarding repeat, withdrawal, unit limits, timely graduation, probation, and reinstatement);
- campus and community referrals when students encounter academic and non-academic challenges.

The University Center for Undergraduate Advising operates on an appointment basis; however, students

may walk in during available Quick Question hours. Visit the UCUA website at <http://www.csulb.edu/ucua> or call (562) 985-4837. The UCUA is located in the Horn Center, Room 103.

Bickerstaff Academic Center for Student-Athlete Services

The Bickerstaff Academic Center (BAC) serves as an academic resource for CSULB's NCAA Division I student-athletes. The BAC's mission is to promote student success for our student-athlete population, including helping them maintain the academic standards necessary for NCAA eligibility, persist to graduation, and achieve their overall educational goals. While advising is the core service provided by the BAC, it also has developed additional academic support programs to help student-athletes succeed. These programs include the Freshmen Transitions Program, which assists incoming students acclimatize to university life, Supervised Study Hall, Tutorial Program, Mentoring Program, and Freshmen Academic Skills Workshops.

In addition, the BAC staff closely coordinates with other essential academic support services throughout the University including: The Learning Assistance Center, the Writer's Resource Lab, the Career Developmental Center, Department-based tutorial services, Counseling and Psychological Services, and Student Orientation Advising and Registration. For more information, call (562) 985-4777 or go to KIN-67.

Prebaccalaureate Advising Support Services

PASS provides advising, placement, intervention, and support to admitted students who are required to complete Composition I, ALI 145/150 and MAPB 1, 7, 11 courses as mandated by the CSU Executive Order 1048.

PASS is located in LA5-361, online at www.csulb.edu/pass, and may be reached at (562) 985-7895.

Engineering Student Success Center (ESSC)

Coordinator of Academic Advising

Jason Deutschman (562) 985-2729

Director of Professional Development and Internship

Emmitt Clark (562) 985-1719

Director of Outreach and Recruitment

Saba Yohannes-Reda (562) 985-1463

The Engineering Student Success Center provides key services to students in an inclusive environment that fosters collaboration, community building and academic success skills. The center provides outreach and recruitment activities, first-year experience programs for freshmen and incoming transfer students, mandatory academic advising by professional and peer advisors, tutoring resources, professional development and assist with internship opportunities. As a one-stop shop, the center encourages students to visit for help from professional advising staff. The center focuses its full efforts on informing, engaging and encouraging students to be self-directed in their educational planning process and overall academic success.

College of Health and Human Services Academic Advising and Resource Center

The CHHS Academic Advising and Resource Center (AARC) provides comprehensive academic advising for all

currently matriculated CHHS undergraduate students. For information visit www.csulb.edu/aarc or call (562) 985-2691.

Jensen Student Access to Sciences and Mathematics Center (SAS Center)

The James L. Jensen Student Access to Sciences & Mathematics (or SAS, for short) Center serves to support, prepare, and advance the education of students in all fields of science and mathematics through active participation in research, scholarship, and co-curricular activities. We provide numerous student development programs and activities for students in the science and math disciplines, including orientation programs for incoming freshmen and transfer students, pre-health professions advisement, and research opportunities through federally-funded programs. Additionally, the SAS center offers free, drop-in science and math tutoring, career and graduate school preparation workshops. Finally, we offer cutting edge technology infrastructure for students through our G2 Computer Lab. The SAS center is dedicated to educating current and prospective students, family members, counselors, and administrators about the assortment of resources offered at the university in order to encourage overall student participation and academic success. For information, visit www.csulb.edu/sas, call (562) 985-4682, or visit us in the Hall of Science, Room 164 (HSC-164).

University Honors Program

The University Honors Program offers small discussion classes with students who share similar interests and abilities; personalized academic advisement and guidance each semester; opportunities for a distinguished undergraduate record as one of fewer than 450 Honors students on campus; and the opportunity to complete an undergraduate thesis project in the area of the student's major. Students with strong SAT scores and a high school or college GPA of 3.5 or above are eligible. For more information, please visit the Honors office, Library Room 214, or our website at www.csulb.edu/uhp.

Student Academic Support Services

CSULB provides a broad range of educational and student support services to assist students. The following programs compliment and support classroom instruction.

Career Development Center

The Career Development Center provides resources and assistance for choosing a college major, developing career plans, finding internships or employment, and applying to graduate school. The CDC hosts BeachLINK, the campus web portal for all career services and an interactive job board featuring internships, full-and part-time jobs, and volunteer opportunities. Services at the CDC include the one-on-one career counseling and job search coaching, drop-in advising, group workshops and access to the Career Resource Library, which houses both print and online resources on careers and job search methods. During Fall and Spring semesters, the CDC hosts job fairs, employer information sessions, and the on-campus interviewing program. For information, call (562) 985-4151, visit <http://careers.csulb.edu>, or go to Brotman Hall, Room 250.

Employment Opportunities

The Career Development Center receives over 10,000 job listings every year for full-time and part-time jobs on and off campus, internships and on-campus interview opportunities. Students can access these listings on BeachLINK, CSULB's online job and internship posting board at <http://careers.csulb.edu>.

Internship Program

The Career Development Center Internship Program assists students from all majors with locating paid and unpaid career positions with corporations, businesses, nonprofit agencies, and institutions. The internship program provides students with information regarding academic credit for internships. Students can access internship opportunities on BeachLINK, CSULB's online job search site, <http://careers.csulb.edu>. Additionally, the Career Development Center offers a one-unit elective course to undergraduate students seeking to obtain academic credit for the internship. The internship class, *Leadership in the Workplace* is open to undergraduate students in all majors. For information, contact the Internship Program Office (562) 985.5552 or email interns@careers.csulb.edu or visit <http://careers.csulb.edu>.

Disabled Student Services

Disabled Student Services (DSS) provides services for students including registration assistance, academic advising, exam accommodations, and parking assistance. DSS programs include the High Tech Center, which provides computer support services and alternative media requests; Hearing Impaired Support Services, which provides sign language interpreting and real time captioning; and the Stephen Benson Learning Disabilities Program, which provides psychoeducational assessment and disability management counseling. DSS consults with Department of Rehabilitation clients through the WorkAbility IV Program. Other services include writing support, special admission assistance, and the campus organization for students with Autism or Aspergers, LIFE (Learning Independence for Empowerment), which provides support to students who need assistance socially navigating the campus, work environment, or personal life for a more independent and successful experience. For more information, call (562) 985-5401, visit www.csulb.edu/dss or go to Brotman Hall, Room 270.

College Assistance Migrant Program (CAMP)

The College Assistance Migrant Program (CAMP) is a federally funded program designed to assist migrant and seasonal farmworker students and their immediate family members to successfully complete the first undergraduate year of study at Cal State Long Beach. CAMP offers assistance with academic and financial support such as: individualized one-on-one academic counseling and tutorial services, life skill workshops, a \$400 educational stipend for qualifying participants, exposure to social and cultural events, leadership conference, and educational excursions.

For more information please contact us at 562-985-2006 or email: camp@csulb.edu. Office location: LA1-107, website: www.csulb.edu/camp

Educational Opportunity Center

The Educational Opportunity Center (EOC) is a federally funded program designed to identify and assist low income, first-generation adults who want to enter, re-enter or continue in a program of postsecondary education. Adults enrolled or interested in enrolling in a high school diploma or GED program are encouraged to seek services. For information, call (562) 570-3710, visit www.csulb.edu/eoc, or go to 3477 Atlantic Avenue 2nd Floor, Long Beach (cross streets Atlantic Avenue and East Wardlow Road.)

Educational Talent Search

This federally funded program identifies, selects, and assists low-income, first-generation individuals between the ages of 12 to 27 to continue in and graduate from secondary school and enroll in a postsecondary educational program. For information, call (562) 985-5387 or visit www.csulb.edu/ets.

Student Support Services Program

SSSP is a federally funded program that provides academic development opportunities to students who are first-generation, low income and/or have a disability and motivates them toward successful completion of their postsecondary education. SSSP strives to increase the college retention and graduation rates of its participants by providing academic tutoring and advising, financial and economic literacy counseling and assistance with applying to graduate and professional programs. For information, call (562) 985-2185 or go to Liberal Arts 1, Room 104.

Upward Bound Program

This program is a federally funded college preparatory program designed to assist first generation, low-income high school students who have the potential to pursue postsecondary education. Program assists participants in their efforts to complete high school successfully and obtain a college education. It services summer and weekend academic instruction, tutoring, academic, personal and career counseling, cultural activities and college application and admissions assistance. For information, call (562) 985-5520 or visit www.csulb.edu/upwardbound.

Educational Opportunity Program (EOP)

EOP is a state funded program that provides access/admissions support, academic support and retention services to low-income, first-generation college students to help overcome the obstacles that may prevent them from furthering their education and reaching their potential. For information, call (562) 985-4288, visit www.csulb.edu/eop, or go to the EOP Admissions Office at LA1-103.

Summer Bridge Program

This program provides an intensive-four week summer experience for selected first-time freshmen EOP students. It provides English and mathematics instruction, tutoring, orientation to the campus, study skills workshops and enrichment activities to prepare students for the challenges of college. For information, call (562) 985-5637, visit www.csulb.edu/summerbridge or go to Liberal Arts 1, Room 119.

Educational Equity Services

The Office of Educational Equity Services (EES) assists in the admission and retention of low-income, first generation college students, migrant students and academically and economically disadvantaged students, some of whom might not otherwise be enrolled in the University. For information, call (562) 985-2185 or go to Liberal Arts 1, Room 104.

Partners for Success

Partners is a mentoring program that provides students with an experienced faculty mentor for guidance and individual advising relating to college transitions, academics and major selection.

Center for Community Engagement

The center supports community-based scholarship and learning such as service-learning, community-based participatory research and other types of campus-community engagement. Our purpose is to enrich the educational experience of students by serving as a facilitative partner and resource for students, faculty, staff and community members in strengthening community capacity; promoting shared community-based participatory research and planning; and building social and political capital through the coordination of community and civic engagement, effective service learning and reciprocal community collaboration. The Center is located in the Academic Services Building Room 127. For information call (562) 985-7131 or visit www.csulb.edu/cce.

Writer's Resource Lab

The Writer's Resource Lab provides individualized instruction to help CSULB students develop their writing abilities. For specific information or to make a tutoring appointment, please stop by the Writer's Resource Lab in LAB-206 or call (562) 985-4329.

Learning Assistance Center

The Learning Assistance Center offers four programs to help student achieve academic success. Learning Skills offers individual appointments and classroom workshops on strategies for student success. The Tutoring Program offers discipline- specific individual and drop-in tutoring, and ESL Language and Writing offers Second Language Learners (ESL) individual tutoring and a conversation lab. The Supplemental Instruction Program provides in-class support for the most challenging courses. For more information or to make an appointment, visit our website at www.csulb.edu/lac or call (562) 985-5350.

Study Abroad Programs

This program assists CSULB students and faculty to select and prepare for an educational experience in another country. Study abroad options include short-term programs (summer and winter), semester programs, and year-long programs. International internships, volunteer, and work experiences are also available. Students may be eligible for financial aid, loans, or scholarships to assist them with a study abroad experience. The office is located in the Center for International Education in Brotman Hall, Room 201.

International Student Services

International Student Services serves some 2,700 non-immigrant students, representing over 90 countries, by assisting them with their academic, personal, and cultural growth and development during their years at CSULB. This is accomplished through professional counseling and advising; assistance with Department of Homeland Security (DHS) regulations, paperwork processing, and documentation; student orientation activities; and assistance with registration. The ISS staff also serves as the University liaison with consulates, embassies, businesses, foundations, and community organizations concerning international students at CSULB. ISS is located in the Center for International Education in Brotman Hall, Room 201.

CSU International Programs (IP) System-wide

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 20,000 CSU students have taken advantage of this unique study option.

Participants earn resident academic credit at their CSU campuses while pursuing full-time study at a host university or special study center abroad. International Programs serves the needs of students in over 100 designated academic majors. The program is affiliated with more than 50 recognized universities and institutions of higher education in 18 countries and offers a wide selection of study abroad destinations and learning environments.

Information on academic course offerings available at these locations is in the International Programs Catalog which may be obtained from the Study Abroad Office in the Center for International Education (BH 201).

International Programs pays tuition and administrative costs abroad for participating California resident students to a similar extent that such funds would be expended to support similar costs in California. Participants are responsible for all CSU tuition and program fees, personal costs, such as transportation, room and board, and living expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, in most programs students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in Canada, China, France, Germany, Korea, Mexico, Spain, Sweden and Taiwan. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply, and must fulfill all coursework prerequisites.

Additional information and application materials may be obtained from the CSULB Center for International Education by calling (562) 985-8429. Applications for the 2015-2016 academic year overseas must be submitted by December 15, 2014 (May 1 for Australia).

Campus Services

Center for Scholarship Information

This center serves as a campus resource on the complete scholarship process. The center maintains a database of scholarships on- and off-campus and advises students on how to search and/or apply for scholarships. For information, call (562) 985-2549, go to www.csulb.edu/scholarships or visit the center in the University Student Union, Room 238.

Child Development Center, Isabel Patterson

The Isabel Patterson Child Development Center (IPCDC) serves as a family support service for CSULB students by offering early care and education programs for children from six months through second grade. The IPCDC enables student parents to attend classes and is dedicated to ensuring that no student parent is denied access to higher education because of a lack of affordable campus childcare. Enrollment priority is given to CSULB students, and then opened to faculty and staff, CSULB alumni, and the community as space allows. Accredited by the National Association for the Education of Young Children, the IPCDC is an exemplary program which models current principles and practice in child development. For information, call (562) 985-5333, <http://www.asicsulb.org/pages/child-development-center> or visit the center at 5700 Atherton Street.

Partners for Success Faculty Mentoring Students Program

Partners for Success is a mentoring program that provides first-generation students and sophomores with specific GPA criteria with an experienced faculty mentor for guidance and individual advising relating to college transitions, academics and major selection. Faculty mentors also provide support and campus resources such as tutoring, counseling and involvement opportunities to ensure students success to graduation. For information and a student application, visit www.csulb.edu/partners, email partners@csulb.edu or call (562) 985-7562.

Counseling and Psychological Services

This service provides students with short-term counseling, group counseling, referrals to community providers, psycho-educational workshops and crisis intervention services. The Center also helps students meet personal challenges associated with identifying and achieving academic, career, and life goals. For information, call (562) 985-4001, visit www.csulb.edu/caps or go to Brotman Hall, Room 226.

Student Health Services (SHS)

This service provides medical services, preventive health and health education program. All regularly enrolled CSULB students who have registered for the current semester and have paid the \$45.00 mandatory health fee are eligible for services. Services also are available for students taking classes through College of Continuing and Professional Education for \$15.00 per visit (while classes are in session), and for students on educational leave for a non-refundable \$45 fee. Most medical services are covered under the basic service fee, with the exception of pharmacy, external labs and x-ray copies.

An array of health education services, alcohol and drug abuse prevention workshops, nutrition counseling, HIV testing/counseling and sexual health awareness workshops are offered at SHS. For information, call (562) 985-4771, visit www.csulb.edu/shs or go to the Student Health Center on the corner of Beach Drive and Merriam Way.

Note: A medical emergency arising on campus should be directed to University Police by dialing 9-1-1.

- **Immunization Requirement Clearance**

Entering CSU students are required to present proof of MMR (Measles, Mumps and Rubella) and Hepatitis B before the beginning of their first term. (Refer to Admission to the University, Immunization Requirements section of this catalog.) Clearance is obtained at Student Health Services by showing proof of immunity using medical records or by receiving immunizations (available at SHS). Medical and religious exemptions are available. For information and hours of operation, call the SHS Immunization Hotline at (562) 985-5411 or go to www.csulb.edu/shs.

- **Medical Insurance**

Medical insurance is strongly recommended. A low-cost individual health insurance plan is available to CSULB students through the Associated Students, Inc. For details about the plan, contact the ASI Business Office at (562) 985-4994 or go to www.csulb.edu/divisions/students/asi/administration/businessoffice.html.

U.S. Passport Application Acceptance Office

This office is authorized by the U.S. Department of State to accept and execute passport applications. (Passport processing is completed by the U.S. Department of State.) The office is located in Brotman Hall 250 and open to the public. A passport photo service is offered onsite. Information on required forms, documents and fees is available at <http://passport.csulb.edu> or by calling (562) 985-7790.

Veterans Services

CSULB Veterans Services is the primary support center at CSULB for military veterans, service members and their dependents. A primary role of the office is to certify student eligibility for education benefits offered by the U.S. and California Departments of Veterans Affairs. Other services include outreach to prospective student veterans, advising, and advocacy for veterans and their dependents. A US Department of Veterans Affairs Counselor is available to assist with federal veterans benefits through the VetSuccess on Campus program. For information, call (562) 985-5115, go to the Foundation Building, Room 220, or visit www.csulb.edu/veterans.

University Ombuds

This office is an independent, neutral resource for informal problem-solving serving the entire campus community. The office answers inquiries about the university, provides a safe place for discussing sensitive issues and identifying options, facilitates conversations and engages in conflict resolution, including mediation. The office maintains confidentiality in accordance with the Code of Ethics of the International Ombudsman

Association, the limits of the law, and our organizational context. Appointments are suggested; walk-in cases are usually accommodated depending on availability. CSULB Foundation, Suite 140; (562) 985-5983; www.csulb.edu/president/ombuds.

University Library

The library provides information resources that support teaching and learning and provides enrichment and recreation for members of the campus community, as well as other scholars and community members. Library staff are committed to helpful, efficient customer service. Home to the Spidell Center, the largest student computing facility on campus, the library is a leader in the delivery of digital content and in marshalling technology to facilitate scholarly inquiry. For more information, visit www.csulb.edu/library.

Student Life and Resources

There are many options for students to get involved and create positive experiences and relationships at CSULB. Students are encouraged to make social connections and make a positive difference and to make the most of their time at "The Beach."

Student Life and Development (SLD)

The Office of Student Life and Development provides extensive developmental, leadership, service and involvement activities for students. SLD services include orientation for student leaders; and organizational advising and program approvals for more than 300 recognized student organizations, including fraternities and sororities, cultural clubs and religious groups. SLD also oversees the Lois J. Swanson Leadership Resource Center, Leadership Academy, Student Cultural Resource Centers, American Indian Student Services Program, and Student Academic Travel Grants. Contact SLD at (562) 985-4181 or www.csulb.edu/sld or go to the University Student Union, Room 215.

College Organizations

Many academic departments have academically-related student organizations and discipline based honorary societies. Students from each academic organization departmental association work together on a college student council for each of the seven colleges. These groups promote interaction between faculty and students, and sponsor speakers, seminars, social gatherings and other activities. Staff from Student Life and Development play a key role in coordinating major events sponsored by these groups.

Leadership Resource Center, Lois J. Swanson

This center prepares CSULB students to be the world's best leaders and maximize leadership potential with a commitment to serve others through the LRC services and programs. The LRC also offers two personal development programs for students: Financial Fitness and Conflict Resolution. The LRC provides a leadership library and offers consultations for classroom facilitation, conferences and customized workshops and seminars. For information, call (562) 985-1936 or go to University Student Union, Room 314.

Leadership Academy

The academy is a three-part extracurricular, certificate-bearing program composed of workshops, community service and practical application. The purpose of the Academy is to help students increase their understanding of leadership skills and improve their leadership potential. The Advanced Leadership Challenge, open only to Leadership Academy graduates, builds the theories and foundation skills students gain in the Leadership Academy and involves a practical application of those skills and theories. For information, call (562) 985-1936 or go to the University Student Union, Room 314.

Multicultural Center

The Center's mission is to contribute to the creation of a campus environment which respects and supports cultural, ethnic, racial and religious diversity. The Center has an educational Resource Library which serves students, faculty and staff. The Multicultural Center offers, S.T.A.R. (Students Talk About Race), a professional diversity workshop that is free to students. For information, go to Faculty Office building 3 (F03), Room 03, call (562) 985-8150 or visit www.csulb.edu/mcc.

Student Resource Centers

There are five student-run resource centers on campus. These venues are for affiliated student organizations to conduct program planning, peer mentoring, officer meetings, and post information about scholarships, service and internship opportunities.

- African Student Resource Center, FO4-274
- American Indian Student Study Center, FO4-282
- Asian Pacific Student Resource Center, FO4-277
- Lesbian/Gay/Bisexual/Transgender Student Resource Center, FO4-165
- Raza Student Resource Center, FO4-262

Student Government

The Associated Students Government provides for student self-governance and the development of leadership abilities to ensure the full and effective participation of students in civic affairs and campus shared governance. ASI offers student programs and activities that complement the academic curriculum of the university and develop career related skills. ASI also advances student welfare beyond the university setting by mobilizing student participation in the full range of democratic channels including voter education, voter registration, and legislative lobbying. For information, call (562) 985-5241 or visit www.csulb.edu/asi.

Student Recreation and Wellness Center

The SRWC is a 125,000+ square foot facility with fitness programs, instructional classes, a rock climbing wall, multi-activity courts, swimming pool, sand volleyball, 20,000+ square feet of weight room and cardio space, and more. The SRWC serves as a place for students, faculty, staff

and alumni to exercise, study and hang out and provides opportunities for student employment and internships.

University Interfaith Center

This center is an association of 12 faith traditions serving the educational community of CSULB. The Center strives to enhance the educational experience by encouraging students, faculty and staff in their pursuit of spiritual growth, community building, faith development and personal values. For information, call (562) 985-7595 or go to Brotman Hall, Room 178.

University Student Union

Located in the center of campus, the 180,000 sq. ft. University Student Union offers weekly entertainment activities and numerous recreation and leisure activities. A "home away from home," USU amenities include bowling lanes with a cosmic bowling feature, billiards, video gaming, various lounge spaces, outdoor swimming pool, food court and retail vendors including a full-service bank and ATM's, as well as facilities for meetings, luncheons and films. Discounted theme park and movie tickets are also sold at the Information Center

Women's Resource Center

This center supports and facilitates the educational, professional and personal success of campus women through targeted educational programs, and campus and community resource connections. The center also coordinates Project Safe, a program to reduce the incidence of sexual assault, relationship violence and stalking. For information, call (562) 985-8576, go to www.csulb.edu/wrc or visit Liberal Arts 1, Room 102.

ACADEMIC INFORMATION AND REGULATIONS

Frequently Asked Questions

Students ask many of the following questions about the processes and rules of CSULB. Successful students know the answers to these frequently asked questions. Please read them carefully. Knowing these answers can help you avoid pitfalls during your first semesters on campus. For further information, contact the University Center for Undergraduate Advising at (562) 985-4837.

- 1. Why is it critical that I check e-mail from CSULB?** It is important to check your e-mail regularly since this is the primary means by which you will receive important information from the University (e.g., deadlines for adding and dropping classes, your enrollment appointment date).
- 2. How do I tell the University about a change in my phone number, e-mail address or mailing address?** You can use MyCSULB to change your phone number, e-mail address, indicate the e-mail address that you prefer to use, or change your mailing address. Click on "Personal Information" to view your current information and to make changes.
- 3. Why should I check my official class schedule at the beginning of each semester and again after two or three weeks?** It is important to make sure that you are officially enrolled in every class you are attending and not enrolled in any class you are not attending. Remember that an instructor can give you permission to add a class, but only you can officially enroll yourself in a class.
- 4. Why is it important that I personally drop classes that I have registered for but am no longer attending?** Instructors do not have the responsibility to drop students. Students must drop classes they no longer want or never attended (using MyCSULB) up to and during the first two (2) weeks of the semester.

Beginning the third week, students must use the official withdrawal petition to change their schedule. (See the section on Withdrawals for the rules that apply to withdrawal after the third week of classes.)

Official withdrawal is indicated on the transcript with the symbol "W." This designation does not affect grade point average (GPA). Undergraduates may withdraw from a career-maximum of 18 units per Executive Order 1037.

Students who fail to withdraw officially within the established deadline receive a "WU" symbol (unauthorized withdrawal). In the calculation of the GPA, a "WU" is counted as an "F" grade.

- 5. Can I enroll in a Fall class that requires a prerequisite if I am currently enrolled in the prerequisite course this Spring?** Yes, your work in progress in the spring will be considered as meeting the prerequisite for registration purposes. However, if you fail the class in question, you will be dropped from the class that requires the prerequisite.

- 6. Can freshmen/sophomore students take upper-division (300-499) classes?** University policy prohibits students with under 30 units from taking upper-division courses without permission of the instructor.

- 7. What can I do if I get a "D" or "F" or "WU" in a course?** The University has a policy which allows undergraduates to repeat a course in which they earned a "D", "F," or "WU". If the second grade is a "C" or better and taken at CSULB, the second grade will be used to calculate your GPA. Both grades remain on the transcript, but the first one is "forgiven" from the GPA calculation. This can only be done once per course at CSULB. If you don't earn a "C" or better on the second try, all grades will be counted. Undergraduate students may repeat 28 units of which 16 can be for grade forgiveness, per Executive Order 1037. For further details, refer to the "Repetition of Courses for Credit" in this section of the *Catalog*.

Academic Calendar

California State University, Long Beach operates on a semester system, which is supplemented by a fee-supported summer term and a fee-supported winter session. Normally, fall semester classes begin in late August or early September. The last day of instruction usually comes midway in December; this allows for a week of final examinations prior to the winter recess, which begins about December 20. The spring semester usually begins in the last week of January and ends in mid-May, in time for a week of final examinations and the week of commencement exercises just before or after Memorial Day. The summer term begins in June through July and into late August.

Enrolling in Classes

Registration dates and detailed instructions can be found on the Enrollment Services website. Continuing students, returning undergraduates and newly admitted graduate students are sent a registration appointment date. Undergraduate students who are new to CSULB register when they attend the Student Orientation, Advising and Registration program (SOAR).

Students may enroll in classes via "MyCSULB" starting on the enrollment appointment day assigned by the University through the first two weeks of the fall and spring semesters. During the third week of the semester written permission on a Late Registration Request form is required from the instructor and a stamp of approval is required from the department. Late registration requests will be considered during the fourth week of instruction with the payment of a missed deadline fee.

Students receiving instructor or department "permission" to add classes via MyCSULB or who have been added to an instructor's wait list or roster must still complete the add procedures by the dates listed each semester. No request to add classes will be considered after the fourth week of the

semester unless there is a verifiable technical error.

Students are not permitted to attend any class for which they have not officially registered.

Note: Students must complete the procedures for official enrollment in classes. Instructors, advisors and departments cannot add students into classes.

Registration Holds

Students may be prevented from registering because they have not met a University obligation. Students can view their own information (HOLDS) on MyCSULB.

Financial Holds

Students are personally responsible for making sure that registration fees and any other fees or charges are paid on time to CSULB, regardless of who funds the student's education.

These charges can include payment for items damaged, returned late, or not returned, and can include course fees for some courses or activities.

Students can review their account balance at MyCSULB. Payment can be made on MyCSULB or at the Cashier's Office, BH-148.

Students who have an unpaid balance will have a financial hold placed on their academic records until the balance is paid or a written release from the originating office is received by the Student Account Services Office. The hold restricts the student from receiving University services, including but not limited to registration, grades, and transcripts.

If the obligation continues to appear on the University reports, the student's name will be submitted to the Franchise Tax Board. In this case, the student or former student permanently loses the privilege of submitting checks as payment for fees or services. (Acceptable methods of payment are cash, cashiers' check or money order). The State then has the authority to withhold amounts owed to the University from any tax refund to which the student may be entitled.

Other Holds

The following types of holds may appear. Students should contact the office listed for information about how to clear the hold.

- Failure to take a required test - Testing and Evaluation Services (562) 985-4006
- Remediation hold - Pre-baccalaureate Advising and Support Services AS 14, (562) 985-7895
- Perkins Loans – Business Office, BH 155, (562) 985-5348
- Measles/Rubella – Student Health Services, (562) 985-4771
- CIE hold (Foreign Clearance) – Center for International Education, BH 201, (562) 985-4106
- No Major Hold – Enrollment Services, BH 101, (562) 985-5471
- Timely Graduation Hold – Enrollment Services, BH 101, (562) 985-5471
- Advising Hold - Advisor for Major

Advising for Freshmen

CSULB is committed to offering our students the

best possible first-year experience; therefore, we have established procedures which will ensure that all students receive accurate and timely academic advising. Advising is an opportunity for students to connect to their college or department advisor, faculty and staff to discuss future educational plans. Through this connection, students will be able to discuss future educational goals, review program options, and receive advice on course selection.

This connection is one of the most important steps to your future success at the Beach! We feel so strongly about ensuring that you have advising as you prepare for your sophomore year, that we require all freshmen to participate in the program prior to registering.

In addition, CSULB advisors can assist in a variety of different ways by working with students to broaden interests; develop academic and career goals; identify major areas of academic interest; create realistic plans of study; increase decision-making skills; take responsibility for academic direction.

All entering freshmen have "advising holds" placed on their records for their first year and will not be able to change their schedules without consultation with an advisor. Mid-way through the semester, freshmen will receive information about the Mandatory Advising Program, a comprehensive advising session to prepare for the next semester course selections. The advising hold will be removed after the student attends the advising session.

Class Attendance

Students are expected to attend classes regularly. Classroom attendance is often one of the most necessary and important means of learning and, in many classes, is essential to the educational objectives of the course.

Faculty members must include their guidelines for assigning grades in the syllabus. The syllabus must make clear whether any portion of the grade is based on attendance and/or participation. It is the students' responsibility to make themselves aware of each faculty member's guidelines by carefully reading the syllabus. (PS 04-05)

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

Students may have a valid reason to miss a class. When any of the following reasons directly conflict with class meeting times, students are responsible for informing faculty members of the reason for the absence and for arranging to make up missed assignments, tests, quizzes, and class work insofar as this is possible. Excused absences include, but are not limited to:

1. Illness or injury to the student
2. Death, injury, or serious illness of an immediate family member or the like
3. Religious reasons (California Education Code section 89320)
4. Jury duty or government obligation
5. University sanctioned or approved activities (examples

include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)

Faculty members are not obligated to consider other absences as excused. Faculty members may require students to provide documentation for excused absences.

There are numerous classes offered on campus where attendance is crucial since student participation is essential. Absence from these courses may impact the work and participation of other students. Students who anticipate extended or multiple absences during a particular semester should consult with their advisor and the faculty member before enrolling in any class to determine whether it will be possible to complete the requirements for the course. Students who realize after enrollment that they will have extended or multiple absences should consult with the faculty member to see whether it will be possible to complete the course requirements.

The earliest possible notification is preferred. In some circumstances, it may be possible for the student to notify the faculty member of anticipated absences (e.g. for religious reasons or for scheduled athletic events) during the first week of enrollment. Advance notification (minimally one week in advance) is required for the following absences:

1. Jury duty and other government obligation
2. Religious reasons
3. University sanctioned or approved activities

The California Education Code (section 89320) requires "each state university, in administering any test or examination, to permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed. This requirement shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship which could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution."

It is the responsibility of the student to make advance notification, contact the faculty member to make arrangements to make up any academic work that may be missed, submit assignments on time, and to make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.

If a student does not notify the faculty member one week in advance of the date of absences for these reasons (jury duty, governmental service, religious observances, or University sanctioned activities), the instructor is not required to adjust the class schedule or to allow for make up activities, tests, or exams. Students shall not, however, be penalized for excused absences when circumstances make it impossible to provide advance notice (e.g. student is engaged in a University sanctioned event such as a performance, tournament, or playoff which cannot be anticipated).

A student who expects to be absent from the University for any valid reason, and who has found it difficult to inform the instructor, should notify the academic department office.

The department office shall notify the student's instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work missed.

In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor's option to assign alternative work. (PS 01-01)

Visitors to Classes

Only students registered for the class either as regular students or as auditors and invited guests of the instructor may attend classes at CSULB. Persons wishing to become guests of the instructor should seek the instructor's permission prior to the beginning of the class session.

Faculty Office Hours

The purpose of office hours is to provide opportunities for student-faculty interaction outside the classroom. Each instructional faculty member will hold one office hour per week for every class taught, up to a maximum of four hours. Faculty may account for up to one hour of this expectation through alternative forms of access such as availability by appointment or through e-mail. The faculty member's office hours, phone number, and email contact will be posted by the door and announced in the syllabus. (PS 02-10)

Cheating and Plagiarism

It is the policy of the faculty and administration to deal effectively with the student who practices cheating or plagiarism. These acts are fundamentally destructive of the process of education and the confident evaluation of a student's mastery over a subject. A University maintains respect and functions successfully within the larger community when its reputation is built on honesty. By the same token, each student benefits in helping to maintain the integrity of the University. This policy, therefore, provides for a variety of faculty actions including those which may lead to the assignment of a failing grade for a course and for administrative actions which may lead to dismissal from the University. This document is written with the intent to support the traditional values that students are on their honor to perform their academic duties in an ethical manner.

General

The following definitions of cheating and plagiarism shall apply to all work submitted by a student. Any change or refinement in the following definitions or applications of the definitions, necessitated by the nature of the work involved, shall be made by the faculty member or departments desiring the change. Any change shall be announced, in writing, in the relevant classes before the work is assigned and a copy of the changes will be filed in the department office and in the Office of Judicial Affairs.

Definition of Plagiarism

Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one's own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived

at through independent reasoning or logic or where the thought or idea is common knowledge. Acknowledge of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, either in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions which rightfully belong to another; in written work, failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof; or close and lengthy paraphrasing of another's writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor. Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source; or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

Definition of Cheating

Cheating is defined as the act of obtaining or attempting to obtain or aiding another to obtain academic credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of cheating during an examination would include, but not be limited to the following: copying, either in part or in whole, from another test or examination; discussion of answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an exam without the permission of the instructor; using or displaying notes; "cheat sheets," or other information or devices inappropriate to the prescribed test conditions, as when the test of competence includes a test of unassisted recall of information, skill, or procedure; allowing someone other than the officially enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures. It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

Faculty Responsibilities in Allegations of Cheating or Plagiarism

Before a faculty member charges a student with cheating or plagiarism, the faculty member should have reasonable evidence with respect thereto. Reasonable evidence includes documentary or other physical evidence, personal observation, or testimony. Prior cheating or plagiarism is not reasonable evidence. In order to establish facts of the student's knowledge or skill, the faculty member may ask the student to provide such additional demonstration of competency as the faculty member deems necessary to evaluate scholarship and academic performance. The faculty member must advise the student that a decision to

provide an opportunity for such an additional demonstration of competency is entirely at the faculty member's option and that the student may comply with the request of the faculty member at the student's option. Neither compliance nor non-compliance shall be considered an admission of cheating or plagiarism.

In cases where a student is suspected of cheating or plagiarism, the faculty member should arrange for an informal office conference with the student as soon as possible. The purpose of the informal conference is to bring the persons involved together to discuss the issues informally and to discuss courses of action. At the conference the student shall be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during or as a part of a final examination consult the section just below.

In cases where there is more than one individual suspected of cheating or plagiarism, the faculty member may decide to call the students to confer jointly as a group, or as individuals, or both. If the faculty member should decide to confer with the students as a group, the students shall have the option to also confer with the instructor separately as individuals.

The faculty member shall inform the student(s) that both students and faculty have the right to submit a request to the Academic Integrity Committee (discussed below) for a written opinion on whether the accusation is supported by the evidence. All notes and discussions between the student and the faculty member are confidential, except as may be relevant to the Academic Integrity Committee or in subsequent campus disciplinary proceedings. Neither the faculty member nor the student should discuss a specific charge of cheating or plagiarism or any violations with reference to individuals in the classroom before other members of the class.

When the student cannot be contacted and therefore the informal conference cannot be held, as is sometimes the case after final examinations, a grade of "I" (Incomplete) may be assigned, but only if the instructor wishes an additional test of competence (see section just above). The instructor shall have the agreement form for assigning an "Incomplete" sent to the last known address of the student. The agreement form shall state the following:

Under the provisions of the CSULB Policy Statement on Cheating and Plagiarism, an additional test of competency related to the syllabus name of suspect demonstration (e.g., Final Examination) is requested. You may decline to do so. Please contact the instructor, the department office, or the office of Judicial Affairs for information regarding the University policy on Cheating and Plagiarism. The instructor must indicate on the agreement form the grade with will be assigned, normally 120 calendar days following mailing of the Incomplete Agreement, if the student does not respond or, responding, the student does not agree to an additional test of competence.

Charges of cheating or plagiarism cannot be brought against a student more than 120 calendar days after discovery that the work in question may have been plagiarized or that cheating may have taken place.

Notes and evidence shall be kept by the department chair or program director for a minimum of five years after the case

is settled.

In implementation of the Executive Order from the Chancellor's Office that requires documentation of faculty action regarding cheating and plagiarism, the Academic Senate revised the Cheating and Plagiarism Policy to include the following language: After action has been taken by the faculty member, the faculty member shall complete a form that identifies the student who was found responsible, the general nature of the offense, the action taken, and a recommendation as to whether or not additional action should be considered by the Office of Judicial Affairs. The complete form should be sent by the faculty member to both the provost and the vice president for student affairs whenever cases of academic dishonesty are handled by the faculty member.

Academic Integrity Committee

The Chair of the Academic Senate and the Provost and Senior Vice President for Academic Affairs shall jointly appoint an Academic Integrity Committee for the University. This Committee shall consist of one member from the student body, chosen by the Associated Students Government for a one year term of office; three members of the full-time, tenured or tenure-track faculty, each with a term of office of two years, terms of office expiring in alternate years; and one member of the Office of Academic Affairs, who shall be Chair, voting only in case of ties.

The primary charge of the Committee is to receive the requests of students accused of cheating or plagiarism or the requests of faculty accusing specified student(s) of cheating or plagiarism. Following its review of the evidence, the Committee shall report its opinion to the student(s) and to the faculty member involved on whether the accusation is supported by the evidence. This opinion may not be appealed. However, when new evidence appears to so warrant, a faculty member or student may ask, in writing, the Provost or the Chair of the Academic Senate to request the Committee to reconsider a case. The Academic Integrity Committee shall make readily available the rules and procedures governing its operations.

In all cases, a Report of the Committee is advisory to the student, with whom rests the presumption of innocence, and the faculty member, to whom the decision on the evidence and academic action is reserved.

A faculty member or student who requests a review of the evidence in a case of alleged cheating or plagiarism must make such a request to the Academic Integrity Committee in writing no later than 14 calendar days following the date of first notification of the student by the faculty member of the allegation. Except under extenuating circumstances, the student and faculty member will have no more than 14 additional calendar days to provide evidence to the Committee.

To preserve the rights of privacy, the Committee meetings shall be closed. The Committee may request additional information as may be appropriate to the development of its Reports. The Committee is to provide a final Report within 21 calendar days of the submission of a request to it. Should additional time be required, the reasons should be communicated to the Provost and Senior Vice President for Academic Affairs and the Chair of the Academic Senate as

well as the student(s) and faculty members involved.

The Committee is to report on its actions annually to the Vice President for Academic Affairs and the Chair of the Academic Senate.

Academic Action

One or more of the following academic actions are available to the faculty member who finds a student has been cheating or plagiarizing. These options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. These actions may be taken without a request for or before the receipt of a Report from the Academic Integrity Committee.

- A. Review – no action.
- B. An oral reprimand with emphasis on counseling toward prevention of further occurrences;
- C. A requirement that the work be repeated;
- D. Assignment of a score of zero (0) for the specific demonstration of competence, resulting in the proportional reduction of final course grade;
- E. Assignment of a failing final grade;
- F. Referral to the Office of Judicial Affairs for possible probation, suspension, or expulsion.

Academic dishonesty cases that occur in the classroom shall be handled by faculty members. After a faculty member takes action, the faculty member shall complete a "Student Academic Dishonesty Report" form that identifies the student who was found responsible, the general nature of the offense, the action taken, and a recommendation as to whether or not additional action should be considered by the campus Judicial Affairs Office. The faculty member shall send a completed "Student Academic Dishonesty Report" form to the Vice President for Student Affairs and Provost whenever academic dishonesty cases are handled by the faculty member.

A student may appeal a final course grade the computation of which included an examination or other test of competence in which a score of zero was assigned for cheating or plagiarism, but only on the grounds permitted in the University Grade Appeal Policy Statement. An appeal of the final grade may include as written testimony the Report of the Academic Integrity Committee.

Disciplinary Sanctions – Administrative Action

Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Administrative Code. Copies of Section 41301 of Title 5 may be found in the University Bulletin and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor's Executive Order 148, "Student Disciplinary Procedures for the California State University" are also available upon request.

Opportunities for appeal regarding the sanctions applied by Vice President for Student Services are provided for students involved in the proceedings as outlined by Executive Order 148.

For a summary of the charges concerning cheating and plagiarism report to the Vice President for Student Services. (PS 08-02)

Student Unit Load

Recommended Student Load

The faculty recognizes that it is frequently necessary for students to hold part-time jobs while attending the University. It advises that students enrolling under these conditions use good judgment in planning their programs. Students whose outside employment could be expected to interfere with the normal unit load should reduce their academic program accordingly.

The official unit limit per fall or spring semester is 18 units. Students seeking to exceed the 18-unit limit must complete an Extra Unit Petition form available on the Enrollment Services website.

Students are expected to spend, on the average, two hours of preparation and study for each hour of class time. Thus, a three-unit lecture or discussion course normally demands a commitment of nine hours per week averaged over the semester, with the class meeting for three hours a week. This may be considered sufficient time to enable a student to do satisfactory work. Students who desire to achieve "A" or "B" grades may wish to spend proportionately more time in their studies.

A student's employment and college time combined should not exceed 60 hours weekly. Students who make no allowances for their employment and outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship.

Minimum Unit Requirements for Students in Special Classifications

Veterans

In consideration of the Veterans Affairs Services requirement to equitably certify student veteran benefits in accordance with Title 38 of the United States Code, a post-baccalaureate student veteran in a credit-limited program is considered full-time as long as he or she is enrolled in those courses that are required by the educational program being pursued. Full-time status is awarded to all post-baccalaureate and graduate students who have less than nine (9) units when no other units are offered in their program. This status must be approved and coordinated with the Office of Veterans Affairs Services, located in the Foundation building, Suite 265. For information, call (562) 985-5115 or (562) 985-4279.

Graduate Students

For information about graduate student load, see regulations governing Master's Degrees in this *Catalog*.

International Students

Undergraduate international students on non-immigrant visas must carry and complete a minimum of 12 units per semester unless a reduced load is authorized by the student's advisor and the Center for International Education. Reduced unit loads may be granted for substantial academic reasons or compelling personal reasons beyond the control of the student. Failure to

secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

Students with Disabilities

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. Students with disabilities may request to enroll in a unit load which is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 9 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

Student Load Regulations

1.0 MAXIMUM STUDENT LOAD DURING THE FALL AND SPRING SEMESTERS

1.1 A student pursuing a baccalaureate degree or a credential program carrying 12 or more units during the fall or spring semester is classified as a full-time student. A student pursuing a post-baccalaureate certificate or master's degree carrying 8 or more units or a student pursuing a doctoral degree carrying 6 or more units during the fall or spring semester is also classified as a full-time student. These definitions derive from federal financial aid regulations and have no bearing on the definitions used by the State of California to determine a student's liability for the State University Fee.

1.2 The maximum number of units a student may take during the fall or spring semester is normally 18 for undergraduate, graduate, or post-baccalaureate students.

1.3 Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that it is necessary to enroll for an overload in order to complete the student's chosen academic program in a timely manner. Permission must be obtained from the office of the Division of Academic Affairs prior to registration.

2.0 MAXIMUM STUDENT LOAD DURING THE SUMMER TERM

2.1 The maximum number of units a student may take during the summer term is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 7 for one 6-week session, 10 for two overlapping sessions, and 14 for an entire summer.

2.2 Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediately subsequent term. Permission must be obtained from the office of the Division of Academic Affairs prior to registration.

3.0 MAXIMUM STUDENT LOAD DURING THE WINTER SESSION

3.1 The maximum number of units a student may take during the winter session is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 4.

3.2 Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediately subsequent term. Permission must be obtained prior to registration from the Associate Dean of the college of the student's major department.

Course Listings

Courses are listed in this *Catalog* by department, the departments and programs being arranged alphabetically. Each listing gives the course number, title, semester units in parentheses, and the course description, which includes prerequisites and other restrictions.

Course Numbers

Courses with a number of less than 100 do not count toward any degree program. For purposes of qualifying for financial aid, however, the unit value assigned to those courses will count for the semester in which those courses were taken. Lower-division courses are numbered from 100 through 299. These courses are designed primarily for Freshmen and Sophomores. They provide breadth of understanding and the foundation for the more specialized work in upper-division, advanced courses. Approved General Education courses are listed online and are offered at both the lower-division and upper-division levels; no upper-division General Education course may be used in a graduate degree program. Lower-division courses are open to Junior, Senior, and Graduate students; however, lower-division courses may not be applied to any graduate degree program.

Upper-division courses are numbered from 300 through 499. These courses are open to students who have completed the prerequisites to the course, if any, stated in the course description and other departmental regulations given in this *Catalog*. A "Prerequisite" is a completed course or other measure of academic preparation which provides a foundation for the more advanced course.

Freshmen (fewer than 30 units) are not allowed to enroll in upper-division courses without permission of the instructor. Sophomores wishing to enroll in upper-division courses which indicate no prerequisites should consult with the course instructor or other knowledgeable advisor prior to enrollment. These courses are presented to meet the expectations of academically advanced students.

Certain 400-level courses are double-numbered with 500-level courses. In these courses the expectations of graduate students, who must enroll in the 500-level course, are greater than the expectations of undergraduates. Grading scales are different for the 500-level course and additional work is required of graduate students. A student may not earn credit for both the 400- and 500-level versions of a course.

Graduate-level courses are numbered from 500 to 799. Courses numbered 500-599 may be opened to senior

students upon favorable petition. Courses numbered from 600 to 799 are open only to graduate students.

Included with some of the course numbers is a supplementary letter, or suffix, such as L for "laboratory" or A and B for a year-long sequence. "A-B" means that the courses must be taken in alphabetical sequence; "A,B" designates related courses which need not be taken in sequence. The student is given degree credit for each part of the sequence satisfactorily completed, whether or not the remaining part of the sequence is completed. Funding, student demand, and instructor availability may require that a course be offered in a different semester or session or be postponed until a later academic year. The online class schedule appropriate to the semester or session in question should be consulted for actual course scheduling information. Some of the courses offered during the fall and spring semesters are also offered during the summer session.

The University reserves the right to make changes in course offerings without notice.

Course Credit Units and Modes of Instruction

Course Credit Units

Each course has a specific credit unit value which is indicated in parentheses following the course titles in this *Catalog*.

In accordance with national standards, each semester unit corresponds to approximately 45 hours of work per semester, counting both class meeting time and outside preparation and study. For a traditional lecture or discussion course, this means that the class will meet one hour a week for every unit in a fall or spring semester (15 weeks of class meetings). For a laboratory or activity course, the class may meet two or three hours per week for every unit.

The instructional "hour" is fifty minutes long, allowing for transit between classes and rest breaks within multi-hour classes.

Classes scheduled in the six-week summer session, or in a three-week summer or winter session, are scheduled for additional class hours per week so the total meeting time is the same as in a fall or spring semester. Classes taught by other modes of instruction are expected to require the same time commitment as traditionally-scheduled classes.

Hybrid Classes and Distance Education Classes

Some classes use academic technology to replace part or all of the face-to-face class meetings. In a hybrid class, one-third to two-thirds of the student/faculty and student/student contact time uses academic technology to structure remote activities. The remaining communication is face-to-face, similar to traditional classes. A Local Online Class is a course offering in which the majority of the instruction occurs when the student and instructor are not in the same place, but it may require up to two hours of face-to-face meetings per unit on the California State University, Long Beach campus within the given semester. A Distance Education Class is a course offering in which communication between faculty and student occurs primarily via academic technology, but it may also include

off-site meetings. The mode of instruction is indicated in the online class schedule for each term. (PS 03-11)

Student Rights Relative to Course Instructional Mode

1. Student access to the faculty shall not be reduced by the instructional mode of a class.
2. The University shall make every effort to inform students of the mode of instruction and technological requirements of a course offering before the student enrolls in the class.
3. Matriculated students enrolled in non-traditional classes shall have access to the on-site academic advising services at California State University, Long Beach.
4. All students have equal access to the University library and other on-site learning resources offered at California State University, Long Beach.
5. Students in non-traditional classes shall have reasonable support services. These include:
 - A. Phone-based and online technology help to handle student questions and to refer students to appropriate available services for hybrid and local online or distance education courses;
 - B. Online and phone-based access to university administrative services;
 - C. Online dissemination of information describing the resources available for obtaining the technical competence needed to succeed in a specific course offering;
 - D. Online access to the library research databases and other research-related resources.
6. The University shall provide adequate technical support for academic technology.

Credit for Independent Study Courses

Each student enrolled in a supervised independent study, research, or reading course (excludes thesis courses) must have an agreement on file in the department office where the course is offered. The agreement is to be made between the student and the instructor at the beginning of the course and must include the following: a description of the work to be accomplished, specific information on the tasks required, the nature of the final report, and the basis for determining the final grade. The agreement must be signed by both the instructor and the student.

If a department wishes to use a written agreement different from the standard university form, it must be approved by the dean of the appropriate college prior to its use.

No independent study credit shall be awarded for classroom instruction, assisting in classroom instruction, or for other instructionally related activities, such as grading.

Credit for Cross-Listed Courses

Certain courses are listed in this *Catalog* under more than one department. For purposes of awarding credit, all such listings are considered to be the same course, and a student may receive credit for only one of the listings. Normally, students will receive credit for such a cross-listed course in the department under which they registered.

Transfer Credit

Students who were in good standing at another accredited institution may, within maximums, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements must be determined. Students are cautioned that the University is under no obligation to accept transferred courses for subject credit in addition to unit credit for admission. Normally, however, there is a probability that courses in the accepted core of a discipline will be exchangeable between universities. Policy regarding transfer of courses from California community colleges differs in some respects.

Transfer of Undergraduate Credit From Accredited Community Colleges

A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:

1. No upper-division credit may be allowed for courses taken in a community college;
2. Individual program regulations may include specific transfer limitations along with other requirements.
3. Students who transfer general education certification are still required to complete at least 9 units of upper-division courses at the campus conferring the degree.
4. Any course taken at community colleges can substitute for general education breadth requirements and lower-division requirements, if the course is approved as equivalent to the appropriate CSULB course. Students with more than 70 transferable units from community colleges will get subject matter credit for all such courses, but no more than 70 units will count toward degree units.
5. All transferable units taken at community colleges will count toward computation of the overall grade-point average. All transferable units in the major taken at community colleges will count toward computation of the overall major grade-point average.

Courses Taken by Non-Matriculated Students in Any Term

No more than 24 units total taken during any term while in non-matriculated status may be used to fulfill any undergraduate degree requirements. All students who have not been formally admitted to CSULB and who take courses here are non-matriculated students. Courses taken by incoming freshmen during the summer prior to their first fall are considered non-matriculated units. Students looking to transfer units to a graduate program may take up to 9 units.

Open University

Open University — Through Open University, students who are NOT matriculated in CSULB may take regular university classes during spring or fall semesters for academic credit on a "space available" basis with permission of the department chair and the course instructor. Open University enrollment does NOT constitute admission to CSULB. For more information call the College of Continuing and Professional Education at (562) 985-5561.

Self Support Courses

There is no limit on CCPE Self Support course credits, including Winter, May and Summer Session, applicable to

the degree if taken while in matriculated status in the degree program.

Baccalaureate Credit Based on Alternative Means of Assessment

The University grants credit toward the baccalaureate degree based on several types of assessment other than formal university courses. Students should consult the Chair or undergraduate advisor of the department about applicability to individual courses or degree requirements.

Advanced Placement Credit

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of Advanced Placement (AP) examinations of the College Board. Students who present official scores directly from College Board of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course. Refer to the Advanced Placement Examination Credit table that follows for transfer credit awarded.

For the most up-to-date AP credit information, click the "Admission" icon on the CSULB Enrollment Services Web page, and follow the links under "Freshmen" or "Transfer".

ADVANCED PLACEMENT EXAMINATIONS CREDIT			
AP Exam	AP Score	GE Designation	Credit

	4, 5	C.2c Foreign Language	
Statistics (1 semester)	3	B.2	STAT 108 - 3 units
	4, 5	B.2	STAT 118-3 units
<p>Notes for Advanced placement: ** Credit is awarded for a 3-5 on the AB exam score or the AB subscore on the BC exam. *** If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth. A maximum of 6 units will be granted for each exam. If the number of units per course equivalency exceeds 6, credit for 6 units will be awarded and the course waived. Credit can only be awarded once per course. Example: if a student takes Calculus AB & BC, only nine units can be awarded.</p>			

International Baccalaureate Credit

Students with scores of 5 or higher (4 in certain subjects) in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IB transcript. Course equivalency for Higher Level examinations completed with satisfactory scores is listed in the International Baccalaureate Examination Credit table that follows.

For the most up-to-date IB credit information, click the "Admission" icon on the CSULB Enrollment Services Web page, and follow the links under "Freshmen" and "Transfer."

Credit for Other External Examinations

In addition to the Advanced Placement and International Baccalaureate Examinations, California State University, Long Beach grants unit credit to those students who pass the College Level Examination Program (CLEP) examinations in certain subjects that have been approved for credit by the CSU System.

Refer to the College Level Examination Program Credit table that follows, for transfer credit awarded.

COLLEGE-LEVEL EXAMINATION PROGRAM (CLEP) CREDIT		
CLEP Exam	CLEP Score	Credit

Unit Credit by Examination

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded as test credit on the student's transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.

Students must be enrolled in the University and in the course for which they wish to receive credit by examination. Enrollment is by permission of the department and is only available during the academic semester in which the course is being offered. Students must secure a signed and dated approval form from the department PRIOR to enrolling in the course. Students must provide the instructor with a copy of the signed and dated approval form at the first class meeting.

The instructor will ensure that the examination is conducted, scored, and the results reported prior to the end of the third week of classes. Students who pass the examination will receive academic credit for the course work. Students who do not pass the examination have two options:

1. continue in the course as a regular student; or
2. withdraw from the course.

The University sets no maximum on the number of credits a student may receive by examination. Not all courses, however, are available for credit by examination. Information about courses for which credit by examination is not permitted is available in the Department Office, in the College Office, and the Office of Enrollment Services. A student may NOT receive credit by examination:

1. for an activity course,
2. for any course which is a prerequisite to one for which credit has been received, (see department for possibility of course waiver),
3. to remove a grade of "F," "WU," "NC,"
4. to satisfy the courses required for a major in a master's degree.
5. for any course in which the content or methodology is such that an examination does not appropriately measure competence.

Application forms to apply for credit by examination are available in department offices and in the Office of Enrollment Services. Procedures and criteria for requesting unit credit by examination in a given course are available in the appropriate department office. (PS 87-04)

Substitution of Courses

Students who believe that a course they have taken (or intend to take) may be appropriate to their program and that this course could substitute for a specified course requirement may request that the department submit an official authorization for substitution. Course substitutions are normally limited to cases where the required course cannot be offered or where the student has taken a similar but not identical course elsewhere. (PS 87-04)

Waiver of Course Requirement

In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). The student will be required to justify the request in a way acceptable to the department. A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree. (PS 87-04)

International Program Credit

Course credits earned in universities abroad may be accepted for degree credit at CSULB subject to evaluation by the cognizant department or program upon admission of the student to the university. CSULB students who desire, subsequent to admission, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the Chair of the appropriate department or program.

The Center for International Education administers many international education and exchange programs. Students fully accepted into one of these programs may, in most cases, continue CSULB residency while studying in the approved

foreign institution. Some courses taken through these programs do not have to be approved in advance.

Credit for Noncollegiate Instruction

The California State University, Long Beach grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate degree, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Final Course Grades, Grading Procedures, and Final Assessments

I. Part One: Definitions

The following definitions apply to final course grades assigned in all undergraduate and graduate courses:

- "A" - Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative.
- "B" - Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements.
- "C" - Performance of the student has been at an adequate level, meeting the basic requirements of the course.
- "D" - Performance of the student has been less than adequate, meeting only the minimum course requirements.
- "F" - Performance of the student has been such that minimal course requirements have not been met.
- "CR/NC" - In some courses, the university permits students to select evaluation on a "Credit" or "No Credit" basis.

These grades are defined as follows: "CR" is usually equivalent to an "A," "B," or "C;" and "NC" is equivalent to a "D," "F," or "WU" (defined below).

In two circumstances a final course grade of "CR" reflects work at the level of "B" or better, and a final course grade of "NC" reflects work at the level of "C," "D," "F," or "WU." Those two circumstances are:

1. In certain professional preparation courses, providing that the students are notified of such a policy both in class materials and in the catalog course description; and
2. For graduate students in all courses at the 300, 400, 500, and 600 levels.

Special regulations and procedures governing the "CR/NC" grading system are described below in Part Two.

The following definitions apply to administrative grading symbols assigned in all undergraduate and graduate courses:

- "AU" - "Audit." Enrollment as an auditor is subject to permission of the instructor, provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit

basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. It is the responsibility of the student to request from the instructor what is meant by regular class attendance. The symbol "AU" is posted to the student's permanent academic record unless the student fails to attend a sufficient number of class meetings. In these cases, the instructor will request that the student be administratively withdrawn from the course. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the last day to add classes. A student who is enrolled for credit may not change to "Audit" after the last day to add classes.

"I" - "Incomplete." The symbol "I" indicates that a portion of required course work (normally not more than one-third) has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. No instructor may assign an Incomplete if the student must attend a major portion of the class when it is next offered. No student may re-enroll in any course in which he/she has received an "I" until that "I" has been converted to a grade other than "I," i. e., "A," "B," "C," "D," "F," "CR," or "NC." In such cases, the instructor must assign a grade of "A," "B," "C," "D," "F," "CR," or "NC" based on the available assessments of that student's performance. It is the responsibility of the student with an "I" to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the "Incomplete." A final course grade is assigned when that work has been completed and evaluated. An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an "I" being converted to an "F," except as noted in item 3 below. An extension of time may be granted for contingencies such as military service or documented, serious health or personal problems.

The conditions for removal of the "Incomplete" shall be documented by the instructor on an "Assignment of Incomplete Grade" form. This form shall include a statement of:

1. All work completed in the course, the grades assigned for that work, and the percentages of the final course grade accounted for by each item;
2. The work not completed and the percentage that each uncompleted assignment will count toward the final course grade; and
3. The final course grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the "I" was assigned, without respect to continuous enrollment of the student during this period.

If clear percentages for assignments cannot be delineated, instructors shall explain any special conditions for determining final course grades for work wholly or partially made up.

A copy of the form is to be given to the student and a copy is to be filed with Enrollment Services within 30 calendar days after final course grades are submitted. When the work agreed upon has been completed and evaluated, a final course grade will be assigned by the instructor. If Enrollment Services does not receive an acceptable "Assignment of Incomplete Form" by 90 calendar days after the end of the semester, they will assign a grade of "WU" to the student instead of an "I." The "Assignment of Incomplete Grade" form will not be accepted if:

1. More than one-third of the work remains to be completed, and no justification has been provided;
2. The work required to complete the course has not been specified;
3. The faculty member failed to sign the form; or
4. The percentage fields have not been filled in, and no justification for their absence has been provided.

"RD" - "Report Delayed." This symbol is used exclusively by Enrollment Services to permit processing of all final course grades when the final course grades for an entire course section have not been reported by the instructor. The symbol does not imply any academic evaluation. Individual instructors may not assign "RD." Students who remain enrolled but for whom the instructor has no assessments must receive a "WU."

"RP" - "Report in Progress." The "RP" symbol is used in connection with courses requiring multiple enrollment (i.e., that extend beyond one academic term). It indicates that work is in progress but that assignment of a final course grade must await completion of additional work. Re-enrollment is permitted prior to assignment of a final course grade provided the cumulative units attempted do not exceed the total number applicable to the student's educational objective. Work is to be completed within one calendar year immediately following the end of the term during which it was assigned except for graduate degree theses. If the "RP" symbol is not replaced by a final course grade within the specified time period or prior to the student's declared graduation date, it will be changed to a "W." An "RP" symbol cannot be replaced by an "I" (Incomplete) symbol; an "I" is not a final course grade.

"W" - "Withdrawal." The symbol "W" indicates that the student was permitted to drop a course after the second week of instruction with the approval of the instructor and appropriate campus official. It carries no connotation of quality of student performance and is not used in calculating grade point average.

Students are held responsible for completion of every course in which they register or for withdrawing during the first two weeks of a regular semester (13% of non-standard session) of classes from courses that they do not intend to complete. Application for withdrawal from CSULB or from a class must be officially filed by the student with Enrollment Services whether the

student has ever attended the class or not; otherwise, the student will receive a grade of "WU" (unauthorized withdrawal) in the course.

Regulations governing the refund of student fees in the California State University system are prescribed by the CSU Board of Trustees; see California Code of Regulations, Title 5, Education, Section 41802.

1. Withdrawal during the first two weeks of instruction:

Students may withdraw during this period and the course will not appear on their permanent records.

2. Withdrawal after the second week of instruction and prior to the final three weeks of the regular semester (20% of a non-standard session) of instruction:

Withdrawals during this period are permissible only for serious and compelling reasons. The approval signatures of the instructor and department chair are required. The request and approvals shall state the reasons for the withdrawal. Students should be aware that the definition of "serious and compelling reasons" as applied by faculty and administrators may become narrower as the semester progresses. Copies of such approvals are kept on file by Enrollment Services.

3. Withdrawal during the final three weeks of instruction:

Withdrawal during the final three weeks of instruction are not permitted except in cases such as accident or serious illness where the circumstances causing the withdrawal are clearly beyond the student's control and the assignment of an Incomplete is not practical. Ordinarily, withdrawal in this category will involve total withdrawal from the campus except that a Credit/No Credit grade or an Incomplete may be assigned for other courses in which sufficient work has been completed to permit an evaluation to be made. Request for permission to withdraw under these circumstances must be made in writing on forms available from Enrollment Services. The requests and approvals shall state the reasons for the withdrawal. These requests must be approved by the instructor of record, department chair (or designee), college dean (or designee), and the academic administrator appointed by the president to act in such matters. Copies of such approvals are kept on file by Enrollment Services.

4. Limits on Withdrawal

No undergraduate student may withdraw from more than a total of 18 units. This restriction extends throughout the entire undergraduate enrollment of a student at CSULB for a single graduation, including special sessions, enrollment by extension, and re-enrolling after separation from the university for any reason. The following exceptions apply:

- a. Withdrawals prior to the end of the second week of a semester (13%) of instruction at CSULB,
- b. Withdrawals in terms prior to fall 2009 at CSULB,
- c. Withdrawals at institutions other than CSULB, and
- d. Withdrawals at CSULB for exceptional circumstances such as serious illness or accident (the permanent academic record will show these as a WE to indicate the basis for withdrawal).

5. Medical Withdrawal:

CSULB may allow a student to withdraw without academic penalty from classes if the following criteria are met:

- a. A completed Medical Withdrawal Form, including any required documentation, is submitted to Enrollment Services before the end of the semester, and
- b. The student presents evidence to demonstrate that a severe medical or debilitating psychological condition prevented the student from attending and/or doing the required work of the courses to the extent that it was impossible to complete the courses.

Although students will normally withdraw from all courses, those with serious and compelling reasons may withdraw from only some of their courses; such instances will require additional justification.

The academic administrator appointed by the president to act in such matters will review the evidence presented and, in consultation with appropriate medical or psychological professionals as needed, determine whether the request for a medical withdrawal should be granted. Once granted, all such medical withdrawals will show on the permanent record with a grade of "WE" to indicate that the basis for withdrawal and will not count toward the limit described in 4 above. In addition, the student may be required to obtain a clearance from the appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

Repeat Complete Medical Withdrawal:

If the student has received a complete medical withdrawal in the immediately preceding term, then an additional complete medical withdrawal request must consider the question of whether or not the student can complete appropriate educational objectives and must be reviewed on a case-by-case basis. After a repeat medical withdrawal is granted, the student may be required to obtain a clearance from an appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

6. Instructor Withdrawal:

An instructor may withdraw a student who has never attended a class, if done before the end of the second week of classes. Because instructors are not required to do this, students should not rely on them and should officially withdraw from classes themselves to avoid assignment of a "WU" in the course.

An instructor may also withdraw a student during the first two weeks of classes who has enrolled in a course requiring "permission of the instructor", completion of prerequisites, or concurrent enrollment in co-requisites if the student has not properly secured this permission, satisfactorily completed the prerequisites before enrolling, or enrolled in the required co-requisites.

"WE" – "Withdrawal for Extenuating Circumstances."

The symbol "WE" indicates the student withdrew

for reasons, usually medical or psychological but not restricted to those, clearly beyond the student's control. Such cases will normally involve the withdrawal from all courses that semester. Withdrawals for extenuating circumstances will not count toward the limits on withdrawal. The symbol "WE" is not a grade and does not alter a student's grade point averages.

"WU" - "Unauthorized Withdrawal." The symbol "WU" indicates that an enrolled student did not complete course requirements but did not withdraw from the course. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible (letter grades "A," "B," "C," "D," "F", or an "I"). Instructors of record must report the last known date of attendance for all students who receive a "WU." A student who receives a "WU" may not complete additional work and have the "WU" changed to a letter grade. In courses that are graded "Credit/No Credit" or in cases where the student has elected "Credit/No Credit" evaluation, use of the symbol "WU" is inappropriate and "NC" must be used instead. For purposes of grade point averages a "WU" is equivalent to an "F."

II. Part Two: Course Grading Option

The faculty determines in advance which courses may be taken for "A," "B," "C," "D," or "F" grade only, "CR/NC" only, or either. When a course is designated for "CR/NC" grading only or for "A," "B," "C," "D," or "F" grading only, mention of this fact shall be incorporated in the catalog course description. Any undergraduate course may be designated for or closed to the option of "CR/NC" grading whether or not the course is a requirement for an undergraduate degree major, minor, certificate, credential, or concentration.

No course in which a final course grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the final course grade of "CR" may be permitted for master's theses or projects (to a maximum of six units) when the individual department has specifically designated "CR/NC" grading for the thesis/project course in the department, and for fieldwork, practicum, research, or internship courses (also to a maximum of six units). The option of "CR/NC" grading for graduate students in undergraduate courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken by graduate students under this policy. An undergraduate student may elect "CR/NC" grading in no more than a total of 24 units, of which no more than twelve may be upper division units. No more than eight units per semester may be taken for "CR/NC" grades.

Exemptions from these limitations are:

1. Courses graded "CR/NC" taken at another institution,
2. Course credit earned by examination, and

3. Courses in which "CR/NC" grading is the only form of grading.

The decision to elect the "CR/NC" grading option for a course must be made by the last day to add classes. To elect "CR/NC" grading, the student must obtain the signature of the student's major advisor and a stamp from the department/program in which the course is offered on the appropriate form. The student must then file the signed form with Enrollment Services. The decision to register for a course on a "CR/NC" basis remains in effect unless a change is requested prior to or on the last day to add classes.

The only exception to this rule is for students who declare new majors after the last day to add classes. If the newly declared major requires letter grading for the course in question and the student has elected "CR/NC" grading, then the student may request that "A," "B," "C," "D," or "F" grading be used. Such a change must be requested no later than the last day of instruction. The grading option may not be changed after the end of the semester.

III. Part Three: Final Assessments

1. Every course shall have a final assessment appropriate to the course that shall cover a significant proportion of the course.
2. Every course except Distance Learning Courses shall meet and have an educational experience at the date and time listed in the Final Examination Schedule.
3. All instructors shall administer the final assessment (e.g., an exam or presentation) or have it due (e.g., a paper or project) at a specified time that falls within the date and time listed in the Final Examination Schedule, as part or all of an educational experience.
4. The college dean must approve any exception to these requirements.

IV. Part Four: Assignment of Final Course Grades

1. The instructor of record in a course section (i.e., the faculty member officially assigned to teach that section) has the exclusive responsibility and authority to assign final course grades to all students in that section, subject only to the following exceptions:
 - a. Should the instructor of record be unable or unwilling to complete this task because of death, disability, separation of employment, or prolonged absence from campus during a regular academic term, the department chair or program director, following notification of the instructor of record where appropriate and with the approval of the college dean, may appoint another instructor with the most appropriate qualifications in the discipline to complete the assignment of final course grades; or
 - b. In the event of a successful grade appeal (detailed below in Part Five: Change of Final Course Grades).
2. Final course grades shall be based on at least three, and preferably more, demonstrations of competence by the student. Exceptions require the college dean's approval.
3. In no case shall the grade on any single demonstration of competence count for more than one-third of the final course grade. Exceptions require the college

dean's approval. This provision does not abridge a faculty member's right to assign a course grade of "F" for a single act of cheating, plagiarism, fabrication or falsification of information, or other form of academic dishonesty.

4. At the start of the course and in keeping with PS 11-07 (Course Syllabi and Standard Course Outlines), instructors shall provide to their students in writing:
 - a. The grading policies and practices to be employed in the class;
 - b. The rules that will apply to withdrawals; and
 - c. Any other rules governing attendance, class participation, in-class use of electronics, or other conduct-related policy that may affect a student's final grade in a course.
5. Instructors shall keep a record of students' scores on each of the demonstrations of competence on which the final course grade is based.
6. Instructors shall provide students with an opportunity for demonstration of competence, relevant to the determination of their final course grade in the course, as early as is reasonable and no later than the midpoint of the term.
7. Students have a right to be informed promptly of their scores and to review each of their demonstrations of competence with their instructors.
8. If materials submitted for a demonstration of competence are not returned, these materials must be retained for at least two subsequent semesters by the instructor. The materials shall be accessible to the department office. In the absence of the original instructor, an instructor with appropriate qualifications may be appointed by the chair to review the demonstration of competence with the student.
9. Grades reported to Enrollment Services are considered to be official and final course grades.

V. Part Five: Change of Final Course Grades

1. Changes of final course grades or grading symbols can be made only on the basis of an error, a successful grade appeal (detailed in the separate policy statement on grade appeals), or resolution of an "Incomplete" ("I"). A final course grade or grading symbol shall not be changed on the basis of additional work submitted, except where an "I" was recorded.
2. Original final course grades are replaced only when the change is due to an error, the grade change is the result of a grade appeal, or Enrollment Services receives a late report of final course grades for which the symbol "RD" was substituted pending receipt. Original final course grades or grading symbols are not replaced when the change of grade is the result of the resolution of an "Incomplete" or the repetition of a course. Final course grades or administrative grading symbols must be recorded for all enrollments beyond the census date.
3. Except for changes of final course grades resulting from grade appeals, all changes of final course grades must be filed within one year from the date of the filing of the first final course grade, without respect to continuous enrollment of the student. Only as the result of a successful grade appeal or the correction of an error will a final course grade be changed after the award of a

degree or credential or certificate.

4. All requests for change of a final course grade shall carry the recommendation of the instructor (except as provided for in the grade appeals procedures) and the department chair and the approval of the college dean.

Student Grade Record

A record is kept and grade or administrative symbol notations are indicated for all enrollments beyond the second week of instruction.

Repetition of Courses

Most courses at CSULB may be completed only once for credit. Certain other courses (see below) may be repeated for additional unit credit. Within limits (see below), any course at CSULB may be repeated for grade forgiveness or grades averaged but without additional unit credit.

Repetition of Courses with Grade Forgiveness or Grades Averaged

Undergraduate students (students who have not yet earned a baccalaureate degree) may repeat, for the purpose of excluding the grade from grade point determination (i.e., grade forgiveness), courses taken at California State University, Long Beach in which a grade of D, F, or WU was received subject to the limits established below. Undergraduate students may repeat courses in which a grade of NC was received for grades averaged only subject to the limits established below. Students pursuing second baccalaureates, credentials, certificates, or master's or doctoral degrees may not repeat courses for grade forgiveness, although they may repeat courses for grades averaged without limits.

Courses Taken First at CSULB

Eligible students may repeat a course once for the purpose of grade forgiveness if the course was repeated only at CSULB. The adjustment is automatically calculated at the end of the semester in which the course was repeated. Although the first grade will remain on the student's permanent record, only the grade and grade points of the repeated course on the second attempt will count toward the grade point averages and units earned, provided the second grade was A, B, C, or CR. If the second grade was D, F, or WU, then both grades will count toward the relevant grade point averages (i.e., grades averaged), and the attempt will count toward the limits for grades averaged detailed below. Students with extenuating circumstances may file a Petition for Exception to Academic Policy with Enrollment Services to repeat a course more than once if they fail to achieve an A, B, C, or CR. In such cases, the additional repeat will not result in the forgiveness of a prior grade (i.e. grades averaged only).

Although there is no time limit for repeating a course, no student's permanent record may be altered after a degree has been granted based on attempts to successfully repeat a course in which a grade of D, F, or WU was obtained.

Undergraduate students may repeat up to 28 units they attempted first at CSULB in order to achieve a C, B, A, or CR in the course. These students may repeat up to 16 of the 28 units for forgiveness of a prior grade in the calculations of grade point averages, subject to the provisions above. Only courses attempted at CSULB count toward the unit limits.

The unit value of a course counts only once toward the unit limits regardless of the number of times the student repeats the course at CSULB. Once a student reaches the 16 unit limit, the student may not repeat any additional courses at CSULB for grade forgiveness. Students may repeat up to an additional 12 units at CSULB for grades averaged (i.e., not for grade forgiveness), after which they may not repeat any additional courses at CSULB for grade forgiveness or grades averaged. No courses repeated prior to the fall semester 2009 count toward the 28 unit limit. No courses for which a W was awarded count toward the 28 unit limit. Undergraduate students may appeal these limits for such reasons as immediately impending graduation.

Grade forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

Courses Taken First at Another Institution

If eligible students wish to exclude from grade point determination a grade of D, F, or WU in a course taken at another institution, they may request to do so by enrolling in an equivalent course at CSULB and filing a Petition for Exception to Academic Policy with Enrollment Services. The department in which the course is taught must indicate on the petition which particular course may be taken to replace the previous grade in the calculation of grade point averages. An official transcript from the institution where the original course was taken must be on file at CSULB. Only one repeat is allowed for the purpose of grade forgiveness, and only the repeated grade and grade points will be used in the determination of grade point averages, provided the second grade was A, B, C or CR. If the repeat attempt at CSULB results in a grade of A, B, C or CR the units will not count toward the 28 unit limit. If the repeat attempt at CSULB results in a grade of D, F, NC, or WU, the student may repeat the course one additional time but only for grades averaged, and the units of the first attempt at CSULB will now count toward the 12 unit limit.

A grade received in a course taken at another institution may not be used to replace a grade in an equivalent course taken at CSULB in the calculation of grade point averages but may be used to replace it for other purposes, subject to approval by the appropriate authority at CSULB, such as an advisor in the major.

Repetition of Courses for Credit

A student may repeat for additional units or credit toward a baccalaureate or graduate degree any course specified as repeatable for credit in the CSULB catalog up to the limits specified. Each department determines the unit limits and any other limitations for its courses that may be repeated for credit. Except for courses specified as repeatable for credit and upper-division courses in an undergraduate student's major completed more than ten years prior to graduation, an undergraduate student may not enroll in or receive unit credit for a course for which the student has already received a C, B, A, or CR, including a university-level course taken at a high school or another college or university. Courses repeated for the purpose of validating major requirements will not count either as additional unit credit or toward the calculation of grade point averages. If a student completes a course with a grade of C, B, A, or CR and wishes to

register for the course again only to refresh knowledge, then the student should complete and submit the Exception to Academic Policy for Undergraduate Limit form. If approved, the student must enroll with an audit (AU). (PS 09-05)

Grade Appeals

1. Grade Appeal General Information

- 1.1. The primary authority of the instructor in the assignment of grades must be respected. An instructor's evaluation of a student's work and performance in that instructor's course must not be over-ridden merely because of a difference of opinion or evaluative judgment, provided it is formed in accordance with the generally accepted canons of the relevant discipline and of the academic institution where said course is offered. The university presumes that every instructor wants and tries to be non-prejudicial, objective, and consistent in the assignment of grades. This presumption, however, may be over-ridden by weight of evidence to the contrary.
- 1.2. Although the university presumes that grades assigned are correct, the university has established this grade appeal procedure both to protect students against academic and administrative evaluations and decisions that are prejudicial, capricious, or arbitrary, and to preserve the authority of instructors to evaluate student work in a non-prejudicial, objective, and consistent way. This procedure, available equally to undergraduate and graduate students, also preserves the rights of instructors to appeal grade appeals committee findings as outlined below. The policy in its entirety constitutes the only grade appeal procedure at California State University, Long Beach.
- 1.3. The burden of proof rests upon the student submitting the appeal.
- 1.4. Students may appeal only final grades. Students who believe that individual exams and/or assignments demonstrate evidence of prejudicial, capricious, or arbitrary grading and that those grades had direct bearing on the final grade should include them in the grade appeal file as supporting documentation.
- 1.5. If a grade appeals committee decides to change a grade, the committee need not grant the student's suggested grade but should assign a grade that is appropriate to the work submitted. The new grade shall not be lower than the original grade.
- 1.6. Once a student has filed a formal grade appeal, nobody may change a grade until neither the student nor the instructor continues the process or the third and final level has been concluded.
Timelines for filing an appeal and subsequent decisions specified in this policy statement refer to instructional days during the regular fall and spring semesters. In the case of courses that do not follow the traditional semester pattern (such as short-term courses given during a regular semester or programs that require year-round enrollment), students must initiate an appeal within 40 regular semester instructional days of the termination of the course.
- 1.7. All grade appeal information, whether written or oral, is confidential.
- 1.8. The student may seek the assistance of an advisor in

the preparation of the appeal file. If department and/or college committees permit oral arguments, the advisor may accompany the student to the departmental and/or college hearing and be privy to all confidential information relevant to the case.

- 1.9. The original file, with all documentation, recommendations, final decisions, and all other materials (including a copy of the grade change, if relevant) shall be kept by the college involved for five years. One complete duplicate set of all documentation shall be kept in the office of the Academic Senate for five years. All other parties must destroy all duplicate materials within thirty instructional days of the final decision.
- 1.10. Each college dean and the chair of the University Grade Appeals Committee shall provide a written report at the end of each academic year to the president and the Academic Senate on the number of cases heard and the disposition of each case. College deans also shall forward their reports to the chair of the University Grade Appeals Committee.
- 1.11. If the student's appeal is compounded (or accompanied) by an allegation of unlawful discrimination as defined by federal and state laws, the student has the right to access the university's internal unlawful discrimination process and the processes available through the U.S. Department of Education Office of Civil Rights and the state of California Fair Employment and Housing Commission. However, grades may be changed only through the grade appeal process.

2. Grade Appeals Committees

- 2.1. Each department and extra-departmental program (hereafter referred to as program) shall form a department/program grade appeals committee. If department/program faculty members are unable to serve in sufficient number to form a grade appeals committee, the chair of the council of the relevant college shall appoint the required number of grade appeals committee members from the ranks of college faculty. A department/program grade appeals committee shall include at least one student member appointed by the Associated Students, Incorporated.
- 2.2. Each college and the university shall have a standing grade appeals committee, each of which shall include at least one student member appointed by the Associated Students, Incorporated.
- 2.3. For courses located in a college but not in a department (college-based courses), a first-level grade appeals committee must be formed. The council of the relevant college shall appoint the first-level grade appeals committee from among the faculty members of that college. If review beyond the first-level grade appeals committee is necessary, the appeal next shall go to the regular college-level grade appeals committee.
- 2.4. For courses not located in a college or department/program (university-based courses), the Curriculum and Educational Policies Council must create a first- and second-level grade appeals committee by appointing each committee from among its members.
- 2.5. For courses cross-listed between or among different units, the unit with the prefix under which the student took the course shall handle the grade appeal.

- 2.6. Committee members, at any level, shall not participate in any way in an appeal of a grade decision in which they have been involved personally. Such participation includes, but is not limited to, assignment of the grade in question, involvement in the class in question, or grading any student work for the class in question.
- 2.7. No committee member may serve on a committee at more than one level of a single appeal.
- 2.8. The committee chair at the department/program level and at the college level shall inform all parties of the composition of the grade appeals committee and of the right to peremptory challenge. The student and the instructor involved in any given appeal shall each have one (1) peremptory challenge to remove one (1) committee member from service for that particular appeal. Departments/programs and colleges must replace any removed members within a timely fashion. If peremptory strikes of members are exercised by either party, the committee shall have an additional ten (10) instructional days to review the file and render its decision.
- 2.9. A grade appeals committee deliberating an appeal during any level of the process shall consider all information submitted and may, if necessary, obtain clarification in writing from the student, the instructor, and/or committees at other levels of the process. The committee may request information to help it understand the basis for assignment of the grade. If either party does not supply appropriate grade appeal information within a reasonable time (see 2.11.) when requested by a committee, then that committee may base its decision on the corresponding information supplied by the other party.
- 2.10. Committees shall consider only information available to all parties. All parties to an appeal shall be notified by the committee chair in writing of all responses and deadlines at all points of the appeal process and shall have full opportunity to comment in writing.
- 2.11. Distribution of materials submitted in an appeal shall allow reasonable time for response by the involved parties before committees render their decision. "Reasonable time" for responses shall generally be understood to be ten (10) instructional days from receipt of a response.
- 2.12. After making its determination, the committee hearing the appeal shall prepare a written statement of its decision, including an explanation of its reasoning and a response to the specific issues upon which the appeal is based. The chair of the committee shall place a copy of the decision statement in the appeal file and shall send copies of the statement to all parties involved.
- 2.13. Chairs of department/program and college grade appeal committees shall provide a written report to their dean at the end of each semester detailing the number and disposition of cases heard.
- 3. Preliminary Informal Phase of the Grade Appeals Process: Initiation of Grade Appeals**
- 3.1. Students who believe they have received a final course grade that reflects prejudicial, capricious, or arbitrary grading of their academic performance must make this belief known to the instructor(s), either orally or in writing, before they begin the formal appeal process. In accordance with the Policy on Final Course Grades, Grading Procedures, and Final Assessments, students have a right to be informed of their scores and to review each of their demonstrations of competence with their instructors. If materials submitted for a demonstration of competence are not returned to the student, such materials will be retained for at least two (2) subsequent semesters by the instructor. The materials shall be accessible to the department office. In the absence of the original instructor, an instructor with appropriate qualifications may be appointed by the Chair to review the demonstration of competence with the student.
- 3.2. In the event an instructor is not available to participate, the department/program chair in the discipline/program may appoint another instructor whose areas of expertise most closely approximates that of the instructor of record to represent the interests of the latter.
- 3.3. If the student cannot resolve the problem after informal consultation with the instructor and intends to continue the process, the next step is for the student to prepare a grade appeal file.
- 3.3.1. The file must include:
1. a written statement describing the reasons for the appeal and the recommendation for a new grade;
 2. a Grade Appeal Form obtained from the appropriate college office and fully completed; and
 3. supporting documents, such as the class syllabus, exams, papers, assignments or other corroborating documents, that show evidence of the alleged improper grading.
- 3.3.2. The written statement describing the reasons for the appeal shall be addressed to the department/program chair of the discipline in which the course resides. For the purposes of this policy, a program director or coordinator is considered a program chair.
- 3.3.3. The grade appeal file must be delivered to the department/program chair within the first 40 instructional days of the regular semester immediately following the semester or special session in which the course was completed.
- 3.4. After receiving the student's grade appeal file (see 3.3.1., above), the department/program chair will consult with both the student and the instructor(s) involved to attempt a resolution to the grade appeal.
- 3.4.1. If the instructor of record refuses to participate, the department chair shall insert a written statement to that effect in the appeal file.
- 3.4.2. If a student is appealing a grade assigned by the department chair, the college dean or designee shall perform all functions of the chair in the appeals process.
- 3.4.3. In the case of courses that do not follow the traditional semester pattern (such as short-term courses given during a regular semester or programs that require year-round enrollment), students must initiate an appeal within 40 regular semester instructional days of the termination of the course.

4. First Level of the Formal Appeals Process: Appeal to the department/program grade appeals committee.

- 4.1. Should consultation fail to resolve the appeal and should the student choose to continue the process, the student must ask the chair to forward the appeal to the department/program grade appeals committee. The student must make this request in writing by the last day of instruction of the regular semester immediately following the semester or special session in which the course was completed.
 - 4.1.1. The department/program chair shall forward the appeal to the department/program grade appeals committee within ten (10) instructional days and may include a written recommendation based upon the first, consultative step in the process (outlined in 3.4., above). The chair must also inform the instructor immediately that the formal grade appeals process has been initiated and must give copies of all materials forwarded to the grade appeals committee to the instructor and to the student.
 - 4.1.2. The instructor may submit a written response to the student's appeal and a rationale to be considered by the grade appeals committee. The department/program chair must also provide a copy of the response and rationale to the student.
 - 4.1.3. The student may terminate the appeal at any point by submitting a written request to withdraw the appeal.
- 4.2. The department/program grade appeals committee shall consider the appeal, adhering to the principles and guidelines of paragraphs 1.1., 1.10., 2.9., 2.10., and 2.11., above. A department/program grade appeals committee shall reach its decision within 40 instructional days after it receives the appeal.
- 4.3. If the appeal is granted by the committee, the committee will then determine a grade for the student based upon the evidence included in the appeal file (e.g., exams, papers, and assignments). The committee shall communicate its decision and rationale as specified in paragraph 2.12., above and shall also provide a copy to the department/program chair.
 - 4.3.1. If both the student and instructor accept the committee's decision, the instructor will then have ten (10) instructional days to initiate the grade change by signing the grade change form and forwarding it to the department/program chair, at which point the grade appeal process is over.
 - 4.3.2. If the student accepts the decision of the committee but, within ten (10) instructional days of the receipt of the committee's decision, the instructor does not either file a grade change or file an appeal of the committee's finding, the grade appeal committee chair shall sign the grade change form in the place of the instructor and forward it to the department/program chair. If the department/program chair does not sign the form within ten (10) instructional days of notification, the chair of the department/program grade appeal committee will sign in lieu of the department/program chair and then the college dean will authorize the grade change.
 - 4.3.3. If, within ten (10) instructional days, either the instructor or the student files in writing an appeal of the department/program committee's finding, the

committee chair shall, within ten (10) instructional days, forward the file (including the committee's decision and rationale) to the college grade appeals committee.

- 4.4. If the department/program grade appeals committee rejects the appeal, it shall communicate its decision and its rationale as provided in paragraph 2.12., above, and provide a copy also to the department/program chair.
 - 4.4.1. If, within ten (10) instructional days, the student does not request further review of the appeal, the grade appeal process is terminated.
 - 4.4.2. If, within ten (10) instructional days, the student communicates in writing her/his wish to continue the appeal process, the committee chair shall, within ten (10) instructional days, forward the file (including the committee's decision and rationale) to the college grade appeals committee.

5. Second Level of the Formal Appeals Process: Appeal to the College Grade Appeals Committee

- 5.1. An appeal of a department/program grade appeals committee decision, by either the instructor or the student, begins with a written letter of appeal to have that decision reviewed. This letter of appeal should be directed to the appropriate college grade appeal committee (also called college committee in this document) by way of the department/program chair. The department/program chair must then inform within five (5) instructional days the instructor, student, and college dean in writing that an appeal has been filed and the dean must inform within five (5) instructional days the appropriate college grade appeals committee in writing that an appeal has been lodged. The chair of the department/program grade appeals committee must forward within five (5) instructional days the appeal file, including the committee's decision and rationale, to the college dean who must immediately inform the college grade appeals committee that the grade appeal file has been received and is ready for review.
- 5.2. The committee chair at the college level shall inform all parties of the composition of the grade appeals committee and of the right to peremptory challenge. The college grade appeals committee shall normally render its review decision within twenty (20) instructional days of receipt of the grade appeal file. However, if peremptory strikes of members are exercised by either party, the committee shall have an additional ten (10) instructional days to review the file and render its decision.
- 5.3. The college grade appeals committee shall review the grade appeal file, the department/program grade appeals committee's decision and rationale, and any rebuttal to that decision and rationale provided by the student or instructor in the light of paragraphs 1.1. through 4.4., above. During its review it may consider and act upon matters of both procedure and substance.
- 5.4. As a result of its review, the college grade appeals committee may confirm the decision of the department committee or it may recommend re-consideration.
 - 5.4.1. If the college grade appeals committee confirms the decision of the department/program grade appeals committee, and if neither the instructor nor the student requests further review, then the grade

appeal process ends. The chair of the college committee must inform in writing all parties, including the department/program chair and the department/program grade appeals committee. If a grade change has been recommended by the department/program committee but held in abeyance pending the appeal, the department/program chair shall, within ten (10) instructional days, authorize the grade change by filing the appropriate form. In the event that the department/program chair does not effect the change within ten (10) instructional days of notification, the chair of the college grade appeal committee will sign in lieu of the instructor or the department/program chair. The college dean will then authorize the grade change.

5.4.2. If either the student or the instructor communicates in writing her/his intention to continue the appeal process, the college committee chair shall, within ten (10) instructional days, forward the file (including the college committee's decision and rationale) to the University Grade Appeals Committee.

5.4.3. If the college grade appeals committee recommends re-consideration, it shall put in writing its rationale (which may involve matters of procedure or substance) and any recommendations it may have (which may include recommendations of substance or procedure, new constitution of the department/program committee, or other recommendations toward realizing a fair evaluation of the matters at issue). The chair of the college grade appeal committee shall return the grade appeal file, including the rationale and recommendations of the college committee, to the department/program grade appeals committee for re-consideration and supply copies of the recommendations to all other parties, including the department/program chair.

5.5. When a grade appeal decision has been returned for re-consideration, the department/program grade appeals committee shall review the rationale and recommendations of the college grade appeals committee. It shall undertake to remedy procedural faults identified by the college committee. It shall consider anew the substance of the grade appeal, with due attention to whatever recommendations have been advanced by the college committee. The department/program grade appeals committee shall render a new decision on the appeal, which may be a reiteration of its original decision or may be a different decision (which may, but need not be, in agreement with the college committee's recommendations).

5.5.1. The department/program grade appeals committee shall render its reconsideration within twenty (20) instructional days of receipt of the grade appeal file. If peremptory strikes of members are exercised by either party, the committee shall have an additional ten (10) instructional days to review the file and render its decision.

5.5.2. Upon reaching its decision, the department/program grade appeals committee shall report, in writing, its response to all procedural faults identified

by the college committee and shall again put in writing its rationale for its decision on the substance of the grade appeal. The chair of the department/program grade appeals committee shall forward these reports with the grade appeals file to the college grade appeals committee and supply copies to all other parties, including the department/program chair.

5.6. The college grade appeals committee shall review the re-considered decision of the department/program committee. It may seek clarification from the department/program committee. It shall either confirm or disagree with the decision of the department/program committee. The chair of the college grade appeals committee must inform all parties in writing of its decision.

5.6.1. If within ten (10) instructional days following notification of the college committee's decision, the student or instructor communicates in writing her/his wish to continue the appeal process, the committee chair shall forward the file (including the committee's decision and rationale) to the University Grade Appeals Committee.

5.6.2. If a grade change is recommended by the committee and the change is not appealed by either the instructor or the student (in compliance with 4.5.1., above), the college grade appeals committee chair shall, within ten (10) instructional days of the college committee's action, inform the college dean, in writing, of its decision and the college dean will authorize the grade change as determined by the committee.

6. Third Level of the Appeals Process: Appeal to the University Grade Appeals Committee

6.1. The University Grade Appeals Committee shall function as the third and final level of the grade appeals process. The University Grade Appeals Committee may communicate with the student, the instructor, and the department/program and college grade appeals committees as needed.

6.2. The University Grade Appeals Committee shall normally render its decision within twenty (20) instructional days of receipt of the grade appeal file.

6.3. The University Grade Appeals Committee shall review the grade appeals file, the lower level committees' decisions and rationales, and any rebuttals to those decisions and rationales provided by the student or instructor. It may consider both matters of procedure and substance. The committee may seek further clarification from either lower level committee or the student or instructor as needed. The University Grade Appeals Committee shall either confirm or disagree with the decision of the college grade appeals committee.

6.3.1. If the University Grade Appeals Committee determines that the grade appeal guidelines have not been followed, it may send the appeal back to the department/program or college grade appeals committee for reconsideration.

6.3.2. In the event that a grade change is authorized by the University Grade Appeals Committee, the chair of the University Grade Appeals Committee

shall ensure that the appropriate change-of-grade form is properly signed by the provost and filed with Enrollment Services.

- 6.3.3. The chair of the University Grade Appeals Committee shall inform all parties to the grade appeal, in writing, of the committee's decision.
- 6.3.4. The rendering of the University Grade Appeals Committee's decision, notification of all parties of the decision, and effecting of a grade change where authorized by the committee, completes the appeal process.

Probation and Disqualification

Academic Probation

Undergraduate students are placed on academic probation if at any time their cumulative grade-point average in all college work attempted or their cumulative GPA at California State University, Long Beach falls below 2.0 (C). Graduate students are placed on academic probation when their cumulative grade-point average or grade-point average on all courses applicable to the degree falls below 3.0. Other post-baccalaureate students are placed on academic probation when their cumulative grade-point average falls below 2.5.

Undergraduate students will be removed from academic probation when their cumulative grade-point average in all college work attempted and their cumulative grade-point average at California State University, Long Beach is 2.0 (C) or higher. Graduate students will be removed from academic probation when their overall grade-point average and grade-point average on all courses applicable to the degree are 3.0 (B) or higher.

Other post-baccalaureate students will be removed from academic probation when their overall grade-point average is 2.5 or higher.

Administrative Academic Probation

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive semesters or in any three semesters, unless the withdrawals were directly associated with a chronic or recurring medical condition or its treatment;
2. Repeated failure to progress toward the stated degree objective or other program objective (when such failure appears to be due to circumstances within the control of the student);
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (e.g., failure to take placement tests, failure to complete a required practicum).

Academic Disqualification

Students who remain on academic probation for more than two consecutive semesters are subject to academic disqualification.

Undergraduate students on academic probation are subject to academic disqualification when:

1. As freshmen (fewer than 30 semester-hours of college work completed), their grade-point average falls below 1.5 on all units attempted or on all units attempted at California State University, Long Beach;
2. As sophomores (fewer than 59 semester-hours of college work completed), their grade-point average falls below 1.7 on all units attempted or on all units attempted at California State University, Long Beach;
3. As juniors (60 to 89 semester-hours of college work completed), their grade-point average falls below 1.85 on all units attempted or on all units attempted at California State University, Long Beach;
4. As seniors (90 or more semester-hours of college work completed), their grade-point average falls below 1.95 on all units attempted or on all units attempted at California State University, Long Beach; and

In addition to the above disqualification standards applicable to students on probation, individuals not on probation may be disqualified when both of the following circumstances exist:

1. At the end of any semester, if the student has a cumulative grade-point average below 1.0; and
2. The cumulative grade-point average is so low that in view of the student's overall educational record it seems unlikely that the deficiency will be removed within a reasonable period.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn grades of sufficient quality to remove themselves from probationary status. Disqualification will bar such students from any further enrollment at CSULB.

Disqualification From Impacted Programs

Students who fail to maintain an overall GPA of 2.0 will be immediately removed from an impacted major and placed in the undeclared category or in a general category appropriate to the discipline. To be reinstated as majors in the impacted program, they must reapply at the time when change-of-major requests are normally accepted.

Administrative Academic Disqualification

A student who have been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The student becomes subject to academic probation while on administrative-academic probation;
3. The student becomes subject to administrative-academic probation for the same or similar reason for which they have been placed on administrative-academic probation previously, although not currently in such status.

In addition, an appropriate campus administrator may disqualify a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render her/him unfit for the profession. In such cases, disqualification will occur immediately upon notice to the

student, which shall include an explanation of the basis for the action, and the campus may require the student to discontinue enrollment as of the date of the notification.

For students who subsequently become eligible for reinstatement (see below), disqualification under the provisions of the preceding paragraphs constitutes a break in "continuous enrollment" within a degree major program; therefore, students disqualified may not elect any regulations in effect prior to disqualification.

Reinstatement

In order to be considered for reinstatement to CSULB, a disqualified student must demonstrate progress toward the degree. This demonstration can be achieved by:

1. Completing courses through College of Continuing and Professional Education at CSULB; or
2. Completing classes at other regionally accredited academic institutions.

All classes considered for reinstatement in the student's petition must be applicable for degree credit and toward the student's General Education or major requirements.

Progress toward meeting the GPA requirement can be demonstrated by reducing the deficiency in grade-point average by one-half at CSULB or by making equivalent grades in courses taken at other regionally accredited academic institutions. Grades earned at other regionally accredited academic institutions will not reduce the deficiency in the CSULB grade-point deficiency. Grades earned elsewhere are only indicators of academic ability.

After reducing the deficiency in the CSULB grade-point average and/or demonstrating academic ability at other regionally accredited academic institutions, the student may petition the Academic Appeals Committee for reinstatement. The petition must present evidence that the student is likely to achieve a satisfactory grade-point average and to complete requirements for the degree in accordance with the Timely Graduation Policy. The Academic Appeals Committee will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (fall or spring) semester after their dismissal.

Petition forms are available through Enrollment Services and must be filed by November 1 for the spring semester or June 1 for the fall semester. Petitions received after that date will be returned to the student to be submitted for consideration for a future semester. (PS 09-06)

Disqualified undergraduate students taking courses through College of Continuing and Professional Education will be eligible to enroll in a limited amount of courses. Fall and Spring Semesters: 6 units or two courses, as long as enrollment in these two courses does not exceed 7 units. Summer Session: 6 units or two courses, as long as enrollment in these two courses does not exceed 7 units. Winter Session: 4 units.

The University Center for Undergraduate Advising offers Reinstatement Workshops for Undergraduate Students who have been academically disqualified. The workshops help students to learn how to become reinstated to the university. For more information or to sign up for the workshop call (562) 985-7847 or visit the University Center for Undergraduate Advising, located in the Horn Center

Room 103.

Academic Appeal of Disqualification

Undergraduate students who have made academic progress and believe that there were extenuating circumstances that led to their academic disqualification may file an appeal asking to extend their academic probation for an additional semester. Students must submit their appeals immediately following notification by Enrollment Services that they have been disqualified. The Appeal of Disqualification information and form are available through the University Center for Undergraduate Advising.

Academic Renewal

An undergraduate student may petition to have all the grades and units received during one or two semesters (or up to three quarter terms) of undergraduate work disregarded in the computation of grade point averages and academic standing. The work so disregarded may have been taken at any collegiate-level institution but no work taken during the disregarded terms, even if satisfactory, may apply toward baccalaureate requirements. All grades and units attempted will remain on record. At least five calendar years must have elapsed since the work in question was completed and the student must have subsequently completed 15 semester units with a 3.0 GPA (or 30 semester units with a 2.5 or 45 semester units with a 2.0) at CSULB before filing a request for disregarding the coursework. At the time of filing the petition the student must have either already met all requirements for graduation other than one or more grade point averages or all other remaining requirements are in progress during the semester of filing. No student may use academic renewal to raise any grade point average above what is required for graduation.

Students shall submit petitions for academic renewal to Enrollment Services. Final determination shall be made by the provost (or designee) in consultation with the Academic Appeals Committee. The petitioning student must certify that the work to be disregarded was substandard and not reflective of her or his current scholastic ability or present level of academic performance. This certification must include a statement explaining the extenuating circumstances causing the substandard performance during the terms in question. The student must also provide evidence that it would be necessary to complete additional units or semesters in order to qualify for the baccalaureate degree if the request were not approved. (PS 09-08)

Academic Appeals

Students may petition for exception to academic policy. Typically, exception requests involve issues such as record errors, General Education substitutions or waivers, reinstatement, exceptions to the repeat/delete policy, and academic renewal.

Students can obtain the "Petition for Exception to Academic Policy" forms from the Office of Enrollment Services, Brotman Hall Room 101, or the University Center for Undergraduate Advising (UCUA), located in Horn Center, Room 103. This written appeal will be directed to the Academic Appeals Committee. Petitions must be filed with the Office of Enrollment Services, BH-101.

Cancellation of Registration or Withdrawal From CSULB

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available online at the Enrollment Services website.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Refund of Student Fees

Regulations governing the refund of student fees in the California State University system are prescribed by the CSU Board of Trustees; see California Code of Regulations, Title 5, Education, Section 41802.

Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form should be submitted to the Office of Enrollment Services, Brotman Hall 101.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may submit, in advance, a new educational leave request form for an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved educational leave are not required to submit an application for readmission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must reapply for admission and pay the reapplication fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student's program from the department graduate advisor, department chair, and the College Dean or designee.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree and remediation requirements. (See Baccalaureate and Graduate sections of this catalog).

For the period of an educational leave the student's rights under the "Election of Regulations" rule are

preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance.

An educational leave presupposes no expenditure of University resources or faculty and staff time on behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

Credit Hour

As of July 1, 2011 federal law (Title 34, Code of Federal Regulations, sections 600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. For all CSU degree programs and courses bearing academic credit, the "credit hour" is defined as "the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or

2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours."

A credit hour is assumed to be a 50-minute period. In courses in which "seat time" does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

BACCALAUREATE DEGREE INFORMATION

Student Success and Graduation

CSULB's core academic purpose is to graduate students with highly valued degrees. Graduation rates for CSULB students have increased dramatically in recent years and the length of time it takes students to complete degrees has decreased. The availability of needed courses and support by academic advisors and learning communities greatly improved graduation rates. These improvements were key to CSULB's recognition as one of "America's Best Colleges and Universities" (*U.S. News and World Report*) and as a "Best Value College" and "Best in the West" (The Princeton Review).

Frequently Asked Questions

Successful students know the answers to these frequently asked questions. Please read them carefully. Knowing these answers can help you avoid pitfalls during your first semesters on campus. For further information, contact the University Center for Undergraduate Advising at (562) 985-4837.

1. What courses do I need to take to graduate?

Use the Degree Planner online tool in MYCSULB to map your entire academic path to graduation. Each time you enter the Degree Planner, it determines what degree requirements you have met and what is still remaining. The Planner then provides a recommended plan promoting timely graduation. If you have questions about your recommended plan, contact your major advisor, college advising center, or the University Center for undergraduate Advising if you are undeclared.

2. How can I tell what requirements I still need to meet before I graduate?

Use MyCSULB to check your Academic Requirements Report. Icons next to each requirement reflect the status of that requirement. You can bring a printout of the Academic Requirements Report to your college advising center or major advisor or the University Center for Undergraduate Advising for assistance. Also, check your To Do list for any outstanding transcripts needed from other institutions.

3. Can my General Education (GE) courses be used for both GE and for my major ("double counted")?

Under the 2012 GE pattern, up to 13 units may double count for the major and GE. Students following other GE patterns should review their Academic Requirements Report with their major advisor or see an advisor in the University Center for Undergraduate Advising if they have questions (Horn Center, Room 103, 562-985-4837).

4. How many units will transfer from a California Community College to CSULB?

All bachelor's level courses transfer, but only 70 units of transferable course work will apply to your bachelor's degree. Additional transferable course work will receive subject credit only.

5. I transferred from a California Community College. Do I have to take any General Education courses?

If you have received full GE certification, you are only required to complete an additional nine (9) units of

upper-division GE courses, including Global Issues and Human Diversity. You may also need to fulfill the U.S. History, Constitution, and American Ideals requirement. If you have not been certified as having met the transfer pattern, you must satisfy CSULB's GE requirements.

6. What does General Education (GE) Certification mean?

There are three GE certification processes. Two may be completed at the California Community College (CCC). They are either (1) the California State University (CSU) Transfer Pattern or (2) the Intersegmental General Education Transfer Curriculum (IGETC). The third certification process may be completed at another CSU. In all cases, GE certification means that you have completed your lower-division GE at a CCC or at another CSU.

7. Does having an AA degree from a California Community College mean I am GE Certified?

The minimum requirements for general AA degrees do not include the lower-division GE pattern required by CSULB. The completion of both an AA degree along with the specified CSU GE or IGETC pattern provide the appropriate GE courses for possible GE certification. In addition, the Associate Degrees for Transfer (AA-T, AS-T) do include GE Certification as part of the degree program. After transfer, CSULB also requires an additional 9 units of upper-division GE courses.

8. What is partial General Education (GE) Certification?

Partial Certification means that transfer students have completed subject and unit requirements in one or more GE categories, but not all.

Baccalaureate Degrees

CSULB offers 85 baccalaureate majors (see a list of degree programs and admission requirements at the beginning of this *Catalog*). Baccalaureate degrees are constructed of three interrelated areas: (1) the breadth component, called the General Education (GE) Program, which is the basis for the baccalaureate degree with courses that offer training in general skills, methodologies, and habits of thought; (2) the depth component, or major, which establishes an understanding of the breadth of a body of knowledge, competence in the fundamental skills and methodologies of the discipline, and understanding and skill at an appropriate depth in one or more facets of the discipline; and (3) the elective component that provides the possibility for personal exploration, enhancement, and development to complement the rest of the degree program (and might include a minor and/or a certificate program).

Requirements for the Baccalaureate Degree

1. Completion of a minimum of 120 units for the Bachelor of Arts and the Bachelor of Science. Completion of the minimum number of units which could range from 120 to 132 required by the major program for the Bachelor of Fine Arts or Bachelor of Music degrees. See the description of the requirements for each major for the specific number of units required. There are restrictions

(below) on how many units in certain categories may be counted toward the minimum unit requirement.

2. Completion of at least 40 upper-division units (courses numbered 300-499). No course taken at any community college may count toward fulfillment of these 40 units.
3. Completion of at least 30 units in residence at CSULB of which at least 24 must be upper-division and at least 12 must be in the major. Units earned in Extended Education or Open University cannot be counted toward fulfillment of the residence requirement.
4. Completion of the General Education program, described below, including at least 9 units in upper-division courses completed at CSULB.
5. Completion of the specific course and unit requirements for the academic major, as shown in the alphabetic listing for the major department. If the requirements are changed during students' continuous attendance at CSULB, they have the right to meet either the requirements in effect when they entered the major or the requirements in effect at the time they graduate. All upper-division courses required for a major must be completed within the ten-year period preceding award of the baccalaureate degree. Courses completed prior to this ten-year period can be revalidated by such demonstrations of competence or knowledge of the subject as may be prescribed by the department offering the course.
The on-line *Catalog* Table of Contents has a link at the top to "Road Maps" that shows a suggested sequence of courses to enable students to complete all degree requirements in a timely fashion. Since individual circumstances can vary, students should consult their major advisors for assistance.
6. Satisfactory fulfillment of the Graduation Writing Assessment Requirement (GWAR) (See a description of the requirement at the end of this section.)
7. The grade point average standards of Section 40402 of Title 5 of the California Administrative Code requires undergraduate students, at graduation, to have completed the following with a grade point average of at least 2.0:
 - a. All units applicable toward a degree, including those accepted by transfer from another institution,
 - b. All units in the major, and
 - c. All units attempted at the campus granting the degree.
8. Formal approval by the faculty of the university.

Student Levels

Freshman	0.0 to 29.9 units
Sophomore	30.0 to 59.9 units
Junior	60.0 to 89.9 units
Senior	90.0 or more units
Postbaccalaureate	holding a baccalaureate or equivalent degree

Restrictions on Units That May Be Counted Toward the Minimum Required for the Baccalaureate

Activity Courses

Activity courses provide practice in such areas as music, dance, physical education and Student Recreation and Leadership. Except as required by a student's major, students may apply to the degree no more than eight units each of activity course credit in music, dance, theatre arts, or kinesiology and no more than four units of activity course credit in SRL, up to a total of no more than 20 units in all areas.

Transfer Courses

No more than 70 units of courses from a Community College may be counted toward the minimum unit requirement for the baccalaureate. (For more detail, see the section on Transfer Credit in the Academic Information section of this catalog.)

Courses Taken by Non-Matriculated Students in Any Term

No more than 24 units total taken during any term while in non-matriculated status may be used to fulfill any undergraduate degree requirements. All students who have not been formally admitted to CSULB and who take courses here are non-matriculated students. Courses taken by incoming freshmen during the summer prior to their first fall are considered non-matriculated units. Students looking to transfer units to a graduate program may take up to 9 units.

Open University

Open University — Through Open University, students who are NOT matriculated in CSULB may take regular university classes during spring or fall semesters for academic credit on a "space available" basis with permission of the department chair and the course instructor. Open University enrollment does NOT constitute admission to CSULB. For more information call the College of Continuing and Professional Education (CCPE) at (562) 985-5561.

Self Support Courses

There is no limit on CCPE Self Support course credit, including Winter, May and Summer Session, applicable to the degree if taken while in matriculated status in the degree program.

General Education

The Significance of General Education

The components of an undergraduate education include the major, in which the student acquires depth of knowledge, electives that allow a student to explore personal or career-related interests, and General Education (GE). General Education allows students to develop competency in academic skills that are essential to all academic majors. In addition, General Education offers students broad knowledge beyond the focus of the major, as well as exposure to the rich diversity of the human experience.

The General Education program at CSULB sequentially introduces students to the mastery of academic skills that will provide graduates with an understanding of self, the

physical world, the development and functioning of human society, and its cultural and artistic endeavors, as well as an understanding of the methodologies, value systems, and thought processes employed in human inquiries. The program involves three stages: Foundation, Explorations, and Capstone. Students who begin their college careers at CSULB will complete all three stages, while transfer students who enter the university with a Full General Education Certification will be expected to complete the final (Capstone) stage only, and the Human Diversity and Global Issues requirements if not met through transfer coursework.

General Education Breadth requirements are specified pursuant to Title 5, California Code of Regulations, Sections 40402.1, 40403, 40405, 40405.1, 40405.2, 40405.4, and 40508, and Sections 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees of the California State University, and Executive Order 1065. CSU General Education Breadth requirements have been designated to complement the major program and electives completed by each baccalaureate candidate to assure that graduates have made noteworthy progress toward becoming truly educated persons. These requirements are designed to provide the knowledge, skills, experiences, and perspectives that will enable CSU students to expand their capacities to take part in a wide range of human interests and activities; to confront personal, moral, and social problems that are an inevitable part of human life; and to cultivate both the requisite skills and enthusiasm for lifelong learning.

The Essential GE Student Learning Outcomes

Upon completion of the GE requirements, CSU students should show mastery in each of the following:

Knowledge of Human Cultures and the Physical and Natural World

Achieved through study in the Sciences and Mathematics, Social Sciences, Humanities, Histories, Languages, and the Arts

Intellectual and Practical Skills, including:

Written Communication
Oral Communication
Critical Thinking
Quantitative Reasoning
Information Literacy and Technology Literacy
Teamwork
Creativity, Inquiry, and Discovery

Personal and Civic Responsibility, including:

Global Competencies
Intercultural Competence (cultural values/traditions-U.S.)
Ethical Reasoning and Social Responsibility
Self-Understanding
Foundation and Skills for Lifelong Learning

Integrative Learning, including:

Synthesis and Interdisciplinary Methods of Inquiry

General Education Requirements (48 units*)

The General Education curriculum is organized as three sequential phases. The first is the Foundation, a group of courses designed to provide fundamental learning skills.

The second is Explorations, courses distributed across the curriculum that are intended to provide an opportunity to explore the various way of acquiring and examining knowledge while continuing to develop learning skills. The third is the Capstone, designed to integrate knowledge and skills developed earlier in the curriculum. (*Students majoring in departments within the College of Engineering are required to take only 42- 45 units of GE).

All students must complete a the distribution pattern described below.

English Language Communication and Critical Thinking (Category A, 9 units): Includes three Foundation 3 unit Courses: Written Communication in English (A1), Oral Communication in English (A2), and Critical Thinking (A3).

Science, Technology & Mathematics/Quantitative Reasoning (Category B, 9 units): Includes 3 units in life sciences (B1a) and 3 units in physical sciences (B1b) with one lab course associated with either the life sciences or the physical sciences. This requirement also includes the fourth Foundation 3 unit course in Mathematics/Quantitative Reasoning (B2).

The Arts & Humanities (Category C, 9 units): Includes 3 units in the arts (C1) , 3 units in humanities (C2), and an additional 3 units in either the arts or the humanities.

Social Sciences & Citizenship (Category D, 9 units): Includes 3 units in US history (D1a) and 3 units covering the US Constitution, including CA State & local government (D1b). This requirement also includes 3 additional units in social sciences & citizenship (D2).

Lifelong Learning and Self-Development (Category E, 3 units): Includes 3 unit course that deals with the human being as a psychological, physiological, and social organism.

Capstone (Category F, 9 units): Includes at least nine (9) units chosen from approved Capstone courses (three courses). All students must fulfill 3 units (1 course) of their 9 units of capstone (three courses) by completing an approved Writing Intensive Capstone course. **(Note: At this time, students will not be required to complete a Writing Intensive capstone until such time that the campus determines that it can offer enough courses to meet student demand. Currently, students must complete any 9 units of capstone.)**

Additional GE Requirements: The 48 units above must include courses that also fulfill the following requirements:

Global Issues (GI, 3 units): Requires a course designed to introduce students to cultures and places outside of the US.

Human Diversity (HD, 3 units): Requires a course designed to introduce students to diverse populations and cultures within the US.

General Education Policies

Only courses on the General Education Master Course List at the time the student takes the course shall count for General Education.

Because the program is intended to provide breadth, a minimum of thirty-five (35) units of the student's General Education courses must be outside the student's major department. "Courses in the major department" include all courses housed in the department offering the major,

regardless of prefix. (For example, courses in-French and in Italian are in the same department.)

A cross-categorized course may be counted (at the student's option) in any one of the approved categories A-F, but not in more than one.

Where appropriate exams exist, Foundation and Explorations requirements may be met by external examinations, such as Advanced Placement or International Baccalaureate exams.

Students are expected to complete the Capstone requirement at CSULB. An exception will be made for students who transfer from another CSU campus after completing some of the upper-division GE requirement at that campus. To be accepted toward the Capstone requirement at CSULB, the transfer course must be approved for upper division general education credit at the campus offering the course. Other courses may be used, on an individual basis, to meet the requirement if they are approved for General Education at the campus offering the course and if the purpose of the course meets the criteria for a CSULB Capstone course.

Students who transfer from baccalaureate institutions other than the CSU after completing upper-division General Education courses may petition to have one or more such courses accepted toward the Capstone requirement. Such petitions will be evaluated on the basis of the criteria above.

GE Requirements for Returning and Transfer Students

Students who have not maintained continuous attendance status shall be subject to the General Education requirements in effect at the time of their reentry to the university, with the following exceptions.

Previous CSULB students who were under earlier General Education requirements and who before breaking continuous attendance needed no more than three additional courses to complete the entire General Education requirement shall be allowed to complete the General Education requirement in effect at the time of the previous attendance. However, all students must complete at least 9 units of upper division General Education courses, of which a minimum of 6 units must be Capstone courses.

Previous CSULB students who were under the earlier General Education requirements and who before breaking continuous attendance completed one or more upper-division GE courses shall be required to complete additional Capstone courses as needed to complete the total of 9 upper-division units. At least two of the courses in the overall program must be Capstone courses.

Transfer students who enter CSULB with full GE certification from a California Community College must complete both the Human Diversity in the U.S. and the Global Issues requirements if these requirements were not met through transfer, but these students need not complete any other GE courses except the Capstone, which cannot be met through transfer from a community college. Transfer students who enter CSULB without full GE certification or subject-area (partial) certification from a California Community College must either complete the CSULB GE requirements, or complete and obtain a GE certification from a California Community College which will be honored as meeting CSULB's lower-division GE requirements.

Majors

Choosing a major is one of the most important, and sometimes most difficult, academic decisions students will make during their college careers. There may be many possible choices of major that would provide preparation for a given career. The section on Degrees, Options, Minors and Certificated in this Catalog shows the many choices available and where to find information in each. Many departments have additional information posted on their web pages, accessible from the university's home page. Students are encouraged to interview faculty in possible majors and to seek the help of student services professionals to assist them in making this important decision.

Declaration of a Major

CSULB students must meet precise major specific criteria in order to declare a major. While freshmen are admitted directly into some majors, many majors require that students begin as pre-majors and then declare the major if and when they complete the major specific criteria. All students must have a declared major by the time they reach 60 earned units (PS 06-04). This applies to students who are Undeclared or are currently in a pre-major.

Except for "Highly Impacted" majors, native CSULB students can declare a major if they meet the major specific minimum cumulative GPA and required lower division preparation. There are limitations on the ability to add a second major or to add/change degree objectives based on the following policies - Academic Progress Rules for Undergraduate Programs (http://www.csulb.edu/divisions/aa/grad_undergrad/senate/policy/academic/alphabetical/ProgressRules.html) and Timely Graduation for Undergraduate Students (http://www.csulb.edu/depts/enrollment/graduation/bachelors/timely_grad_ugrad.html).

Steps for Pre-majors to Declare the Major

Students who are in a pre-major must meet major-specific criteria in order to declare the major; therefore, the student should review the criteria in Major Specific Declaration Requirements for CSULB Students (<http://www.csulb.edu/depts/enrollment/graduation/native-major-criteria/index.html>) carefully. The student can check progress towards satisfying the pre-major requirements by reviewing his/her Academic Requirements Report available in 'Academics Section' of the Student Center in MyCSULB. Be aware that "Highly Impacted" majors are very competitive and have additional requirements. If the major specific criteria is satisfied, meet with the department academic advisor to begin the process. If the major advisor supports the request, the advisor will electronically submit the request to the Office of Enrollment Services. Please note that CSULB's Academic Progress Rules for Undergraduate Programs policy may affect a student's ability to continue in his/her degree objective.

Change of Major or Other Objective

Students wishing to change a degree objective must meet the major-specific criteria for the new major as defined in Major Specific Declaration Requirements for CSULB Students (<http://www.csulb.edu/depts/enrollment/graduation/native-major-criteria/index.html>). The following CSULB policies may affect the student's ability to change majors, Academic

Progress Rules for Undergraduate Programs (http://www.csulb.edu/depts/enrollment/graduation/bachelors/change_degree_objective.html#acad-prog-rules) and Timely Graduation for Undergraduate Students (http://www.csulb.edu/depts/enrollment/graduation/bachelors/timely_grad_ugrad.html).

Once the student satisfies the specified criteria, the student should meet with the department academic advisor to discuss the possibility of changing his/her major. If the major advisor supports the request, the advisor will electronically submit the request to Enrollment Services. Be aware that additional information may be requested to insure compliance with the policies mentioned above prior to the processing of the request.

The evaluation of credits transferred to the University is based in part upon the academic objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes.

Declaring a Second Major

Students may be allowed to complete the requirements for two baccalaureate programs concurrently in accordance with the Timely Graduation Policy. Students wishing to add a second major must meet the major-specific criteria for the new major as defined in Major Specific Declaration Requirements for CSULB Students (<http://www.csulb.edu/depts/enrollment/graduation/native-major-criteria/index.html>). While students are encouraged to pursue their academic interests, all degree objectives (e.g., majors, minors, certificates) must be completed within 120% of the units allowed for the primary degree as stipulated in CSULB's Timely Graduation for Undergraduate Students policy (http://www.csulb.edu/depts/enrollment/graduation/bachelors/timely_grad_ugrad.html). Also note that CSULB's Academic Progress Rules for Undergraduate Programs policy stipulates that if any one of a student's three GPAs is below 2.5, the student must have the approval of his/her primary major advisor to add any additional degree objectives. Please note that students whose major GPA is near or below a 2.0 are unlikely to be allowed to pursue additional degree objectives until they have improved their major GPA. Once the student satisfies the specified criteria, the student should meet with the department academic advisor to discuss the possibility of adding the additional major. If the major advisor supports the request, the advisor will electronically submit the request to Enrollment Services. Be aware that additional information may be requested to insure compliance with the policies mentioned above prior to the processing of the request.

One diploma will be issued reflecting both majors. A course, or courses, may be used to satisfy the individual requirements of both majors, without limit, as long as the required pattern of course work is completed for each major.

Minors and Certificates

A minor is a structured selection of courses by which a student can enrich his or her academic preparation through concentrated study of a discipline that is different from, but may be related to, the student's declared major. A minor is a means to augment or complement the major by

broadening the student's academic experience or serving as preparation for a specific career. A minor must be pursued concurrently with a Bachelor's degree. A minor consists of a minimum of fifteen units, as specified by the department or program, at least six of which must be upper division. The minimum overall GPA in courses toward the minor is 2.0. A minimum of six units of coursework towards the minor must be taken at CSULB. Minors are awarded only as part of a baccalaureate degree. Students may not finish a minor after they have graduated. The minor may be in a single subject or interdisciplinary. Students may not declare or receive a minor in the same subject as the major, and the major and minor may not have the same title. The description of each minor shall have a statement listing all majors, if any, that may not be combined with that particular minor. Students should refer to the requirements of the department and college of their major, to see whether a minor is required for that major. Even if a minor is not required, students may elect to complete one or more minors from those available. Note that the award of a minor will be reflected on your transcript, not on your diploma.

Certificate programs differ from baccalaureate majors and minors in their emphasis on practical and applied uses of knowledge in a specific area of human enterprise. Certificates may only be earned concurrently with or following the award of the baccalaureate degree. Certificate programs require at least 18 units of course work, of which at least 15 units must be upper-division. Courses taken to fulfill the requirements for the baccalaureate may also be applied to certificate requirements. A maximum of two 500-level courses, taken by eligible students in their senior year, may be applied to a baccalaureate certificate program. Extension and/or transfer credit may comprise no more than one-fourth of the course work used to meet baccalaureate certificate requirements. A grade point average of at least 2.0 must be maintained in the certificate program's course work. Courses taken to fulfill the Bachelor's degree may also be applied to certificate requirements. Note that the award of a certificate will be reflected on your transcript, not on your diploma; a separate certificate document will be issued.

While students are encouraged to pursue their academic interests, all degree objectives (e.g., majors, minors, certificates) must be completed within 120% of the units allowed for the primary degree as stipulated in CSULB's Timely Graduation for Undergraduate Students policy. Also note that CSULB's Academic Progress Rules for Undergraduate Programs policy stipulates that if any one of a student's three GPAs is below 2.5, the student must have the approval of his/her primary major advisor to add any additional degree objectives. Please note that students whose major GPA is near or below a 2.0 are unlikely to be allowed to pursue additional degree objectives until they have improved their major GPA. If the program advisor for the minor or certificate supports the request for an additional degree objective, the advisor will electronically submit the request to Enrollment Services. Be aware that additional information may be requested to insure compliance with the policies mentioned above prior to the processing of the request.

Additional Baccalaureate Degrees

A graduated student who wishes to pursue an additional baccalaureate degree may be allowed to do so by completing a minimum of 30 units in residence after graduation, of which 24 units must be upper-division courses and 12 units must be in the major. (See the *Catalog* section on admissions for restrictions on the admission of candidates for a second baccalaureate degree.)

A senior, with advance approval of the Academic Appeals Committee, may earn a maximum of twelve units toward the additional degree while in residence for the first degree. Any courses to be applied to the additional degree must be specified and taken in addition to those needed to satisfy the requirements of the first degree.

Students applying for and accepted to a second baccalaureate degree program who have received their first baccalaureate degree or equivalent from an institution outside of the U.S. will be required to complete any deficiencies in the General Education pattern and will be evaluated for General Education on the same basis as undergraduates.

Enrollment of Seniors in Graduate Courses

Undergraduates may enroll in graduate courses only under the conditions specified below:

Graduate Credit Earned as a Senior

Graduate credit usually may not be earned in advance of the baccalaureate degree. Seniors may, however, be granted approval to earn a maximum of 12 units of course work in the 400 and 500 levels designated as acceptable for graduate credit and taken at this university towards their prospective graduate programs (based upon faculty recommendation, academic performance (in general a grade-point average of 3.0 (B) in the major), and promise of academic achievement in post-graduate study). Approval is subject to the following conditions: (a) the course work must be in addition to that required for the undergraduate major; and (b) the undergraduate student must have an approval from the departmental graduate advisor and the department chair prior to enrollment. (PS-92-08)

In those areas in which graduate credit is for a credential only, approval must be obtained from the appropriate department in the College of Education. Requests submitted after completion of course(s) will not be approved.

Senior Enrollment in Graduate Courses for Undergraduate Credit

Under special conditions, seniors who have a 3.0 grade-point average or better in their major and who have adequate undergraduate preparation in the subject may enroll in up to 12 units in the 500-599 series to fulfill the elective requirements of the bachelor's degree. The course work may not be applied to the units of 500-600 level course work required by the department or college for the master's degree. The student must have an approval from the instructor and department chair before registration in the class(es) is permitted. (PS 92-09)

Graduation Writing Assessment Requirement (GWAR)

In order to obtain a degree or certificate from CSULB, all students must demonstrate upper-division competence in academic writing in English. All students must attempt to fulfill the GWAR before filing a request to graduate. A new GWAR policy was adopted in Spring 2012. However, the new policy has not yet been fully implemented. Currently, students are required to fulfill the following requirements.

Continuing students are required to attempt the Writing Proficiency Exam (WPE) when they have earned between 30 and 50 units. Transfer students are encouraged to attempt the WPE prior to their enrollment at CSULB but are required to take the WPE in their first semester of enrollment. Students are permitted to take the WPE only once unless they are approved to take it a second time by a GWAR advisor. Based on their score on the WPE, students fulfill the GWAR by one of the following pathways:

1. Students receiving scores of 11 or higher have satisfied the GWAR and may proceed with completion of other degree requirements.
2. Students receiving scores of 8, 9 or 10 must complete a GWAR portfolio course and submit a passing portfolio at the end of the course. Students following this pathway are expected to fulfill the GWAR within two semesters of enrollment following their WPE attempt.
3. Students receiving score of 7 or lower must complete English 301A with a "C" or better in the following semester of enrollment and must complete a GWAR portfolio course and submit a passing portfolio in the subsequent semester of enrollment. Students following this pathway are expected to enroll in an appropriate GWAR course in each semester following their WPE attempt.

Students who have questions about their next step or who need help selecting an appropriate GWAR portfolio course should schedule an appointment with a GWAR advisor in the Learning Assistance Center, Horn Center, (562-985-4192). Information about the GWAR is available at www.csulb.edu/gwar. Students who attempted the WPE once prior to Fall 2010 may attempt the WPE a second time or may enroll in an appropriate GWAR course and submit a portfolio for assessment. Students are not permitted to take the WPE more than two times.

Students can register for the WPE online at www.csulb.edu/testing. Students must pay a fee each time they take the test to cover the costs of test administration and scoring. Testing, Evaluation & Assessment offers three-hour workshops one to two weeks prior to each WPE date. Information about these workshops, the WPE workbook, and related services is available at BH-216 or at www.csulb.edu/testing.

The GWAR and Registration Holds

If undergraduate students neglect to attempt the WPE by the time they earn 50 units or, if they are upper-division transfer students, in their first semester of residency, CSULB will place a hold on their privilege to register for classes. Students must register for and take the WPE to release these registration holds.

Students with compelling reasons can request deferrals at Testing, Evaluation and Assessment, BH-216. In certain circumstances, students, with help from their faculty or staff advisors, may submit an appeal or contract to release a registration hold temporarily.

If students fail to comply with requirements to enroll in a GWAR course, CSULB will place a hold on their privilege to register for classes. Students must meet with a GWAR advisor to release these registration holds.

Future GWAR Policy

It is anticipated that the new GWAR policy will be fully implemented in Fall 2016. At that time, the following changes in the requirements to complete the GWAR will go into effect:

1. CSULB students will be required to take the GWAR Placement Examination (GPE). Students will be permitted to take the GPE only once unless they are approved to take it a second time by a GWAR advisor.
2. Continuing undergraduate students will be required to take the GPE or alternate assessment when they have earned between 30 and 50 CSULB baccalaureate units.
3. Upper-division transfer students will be required to take the GPE, preferably before they enroll at CSULB, but no later than their first semester of enrollment.
4. Based on their score on the GPE, students will be placed into one of the following pathways to fulfill the GWAR:
 - Students with an upper-range score on the GPE will be required to complete with a C or better a General Education writing intensive capstone course.
 - Students with a mid-range score on the GPE will be required to complete a GWAR portfolio course, including submission of a portfolio that earns a passing score, and to subsequently complete a General Education writing intensive capstone course with a grade of "C" or better.
 - Students with a low-range score on the GPE will be required to successfully complete English 301A with a C or better; to then complete a GWAR portfolio course, including the submission of a portfolio that earns a passing score; and to subsequently complete with a "C" or better a General Education writing intensive capstone course.

Undergraduate students with low- or mid-range scores on the GPE will be required to begin the pathway within two semesters of taking the GPE. These students must enroll in an appropriate pathway course each semester until they are deemed ready to take the General Education

writing intensive capstone course. Registration may be prevented for students not complying with timely completion of the GWAR requirement.

Students will be permitted to appeal to complete requirements concurrently if required for timely graduation. Appeals will be reviewed by the Associate Vice President, Undergraduate Studies.

Graduation

Dates and Requests to Graduate

The University awards degrees at the end of each of four terms in a year: January (work completed at the end of Winter session); May or June (end of the Spring semester); August (end of Summer Session); and December (end of the Fall semester.)

Seniors and graduate students who expect to receive degrees or Certificates at the end of any semester, winter or summer session must complete the Request to Graduate form and/or Certificate form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 15, and for Fall or Winter candidates by the preceding March 1, at the Office of Enrollment Services. The names of candidates who file within these deadlines will appear in the Commencement Program published each Spring. Publication of names in the program does not constitute graduation from the university. Credential students should apply in the Credential Processing Office, located in the Graduate School of Education by February 1 for December completion and by October 1 for Spring and Summer sessions.

Requests to graduate submitted later than the deadline will be processed after those submitted on time. The degree will be granted once all requirements have been completed, but the student's name will not be printed in the Commencement Program.

Completion of Records and Requirements

Prior to receiving a degree, students are responsible for the following:

- Insuring that the university has received official transcripts of all work completed at other institutions. If graduation depends on any classes taken outside CSULB during the final semester or session, the transcript must be submitted by the announced date, approximately one month after the official graduation date.
- Completing all requirements for the degree, including the minimum number of units. Units will not be counted toward the minimum if they are above the acceptable total in certain categories, as listed in the degree requirements, or if they are a repetition of a course for which credit has already been counted. Any substitutions or waivers of course requirements must be submitted by the advisor.
- Completing all "In Progress" and "Incomplete" courses. No additional work may be completed after the degree is awarded. No grade can be changed after the degree is awarded, except for a change resulting from a grade appeal. Any Incomplete remaining on the record as of the graduation date will be counted as if it were an "F," with units attempted but no grade points earned, unless the instructor has specified on the Incomplete form that some other grade be recorded.

Degree Clearing

Final review of records begins three weeks after final exams in the student's last term. If all degree requirements are complete, the degree and any honors are added to the transcript. The transcript is the official verification of the degree.

It is the student's responsibility to submit records of all changes in the record no later than the last day of the final semester or session. Such materials include transcripts from other institutions and amendments, substitutions, waivers, and grade changes.

Honors for Undergraduate Students

I. Graduation with Honors

A. Latin Honors

The following grade-point average (GPA) criteria are used to identify undergraduate students eligible for the honors specified:

- Summa Cum Laude: GPA equal to or greater than 3.950,
- Magna Cum Laude: GPA equal to or greater than 3.750 but less than 3.950, and
- Cum Laude: GPA equal to or greater than 3.500 but less than 3.750.

Undergraduate students may be considered eligible for honors at graduation provided that a minimum of 45 units are earned at California State University, Long Beach. For the first baccalaureate degree, the GPA shall be determined from units earned at CSULB plus transferred units. For the second baccalaureate degree, the GPA shall be determined only by courses taken after the first degree was awarded that are also required by the second major. Latin Honors will be noted on the diploma and transcript.

Master's, credential, post-baccalaureate certificate, and doctoral students are not eligible for Latin honors.

B. University Honors Program

An undergraduate student must complete 24 credits in Honors (General Honors Plan 1-for incoming first-year students) or 15 credits in Honors (General Honors Plan II-for transfer students and continuing CSULB students) and maintain an overall GPA of 3.00 or better in Honors and in all university courses attempted to graduate from the University Honors Program. Students who successfully complete the academic requirements of the University Honors Program will be awarded a University Honors Program certificate and medallion. They will also receive the designation "General Honors – University Honors Program" on their transcript.

C. Honors in the Major

Departments may develop an honors curriculum in the major. The honors curriculum must contain a minimum of nine additional units. Honors in the Major are noted on the transcript.

II. Honor Lists

Undergraduate students exhibiting outstanding scholastic achievement are honored by being included on the President's List or Dean's List. Such recognition will be noted on the transcript each term.

A. President's List

Students will be placed on the President's List to honor them for academic achievement each semester in which

they complete 12 or more graded course units with a semester GPA equal to or greater than 3.750. Students earning fewer than 12 graded course units per semester will be placed on the President's List in the spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA equal to or greater than 3.750.

B. Dean's List

Students will be placed on the Dean's List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA equal to or greater than 3.500 but less than 3.750. Students earning fewer than 12 graded course units per semester will be placed on the Dean's List in the spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA equal to or greater than 3.500 but less than 3.750.

C. Departmental Honors

With the approval of the dean of the college, departments may elect to award departmental honors to their graduates based on GPA and/or other criteria determined by the department. The number of honors awarded by a department shall be limited to three students or five percent of graduates, whichever is larger. Departmental honors will not be noted on the transcript.

Timely Graduation for Undergraduate Students

In order to provide access to the university's undergraduate major and minor programs for as many qualified students as possible, this policy is established to ensure timely graduation of undergraduate students.

Students may earn up to 120% of the number of units required for the degree in their declared primary major. Any additional degree objectives (e.g., majors, minors, certificates) must be able to be completed within the additional units allowed. For the purpose of defining unit limits in this policy:

- Units transferred from other institutions in excess of 60 units will be excluded from the unit limits.
- Units earned by Advanced Placement, International Baccalaureate, and other external exams, military credit, pre-baccalaureate unit credit, as well as unit credit by examination are excluded.

After earning 90 units, students may change degree objectives only if they submit a plan demonstrating that all degree objectives can be completed within the 120% unit limit applicable to the higher unit major.

Students who have not already filed to graduate by the time they have earned 100% of the units required for the degree in their declared primary major must file to graduate and submit a plan to graduate within the unit limits defined in this policy.

Students requesting an exception to the limits in this policy should file a Timely Graduation appeal. The appeal must include a rationale and an advisor-approved plan to graduate.

If an exception is not approved, students whose plan to graduate exceeds 120% of the number of units required for the degree in their declared primary major may be subject to restrictions on enrollment. If the student has earned

any major regardless of whether he or she has declared that major, a degree will be conferred in that major. If the student has not earned a major, enrollment will be restricted to courses required to graduate in the major for which graduation is most likely to occur in a reasonable time.

Honor Societies

- Phi Beta Kappa – Founded at the College of William and Mary in 1776, it is the oldest and most prestigious honor society for students of the liberal arts and sciences. A chapter was established at California State University, Long Beach in 1977.

Graduating seniors are elected to membership in Phi Beta Kappa on the basis of extraordinary scholarly performance at this University, after study of their records by faculty members who are themselves members of Phi Beta Kappa. No action on the part of the student is necessary to initiate consideration. Inquiries should be directed to the President of the University chapter of Phi Beta Kappa, Dr. Harold Schefski, Department of Romance, German, and Russian Languages and Literatures.

Two additional societies which may elect students from all academic areas are:

- Mortar Board – Founded in 1918 as an honor society focusing on scholarship, leadership, and service. Mortar Board was the first national honor society founded by and for college senior women, and the membership expanded to include men in 1975. The California State University, Long Beach Cap and Gown Chapter was founded in 1972, and grew out of an honor club established here by seven women in 1963. The Cap and Gown Chapter is one of over 200 Mortar Board Chapters, with a total national membership of over 250,000 dedicated, active scholars. Mortar Board's focus is on collaboration and balancing positive ideology with practical leadership building experiences. Mortar Board holds that both community service and dedication to academic excellence must remain constant in order to provide a full college career. Membership is extended to service-oriented CSULB seniors who maintain a minimum 3.0 cumulative GPA.
- Phi Kappa Phi – Founded in 1897 at the University of Maine, it is the oldest and largest national honor society which recognizes and encourages superior scholarship in all academic disciplines. Chapter 86 was established at California State University, Long Beach, in 1963.

Admission to Phi Kappa Phi is by invitation only and requires nomination and approval by the chapter and national society. Membership for juniors, seniors, and graduate students is based on integrity of character, one year residence in the University, and outstanding scholarship. Inquiries should be directed to the President of the University chapter of Phi Kappa Phi, Dr. C. J. Walter, c/o College of Business Administration.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:

- Beta Alpha Psi (Accounting) — National scholastic

fraternity to give recognition to excellence in the field of accounting.

- Beta Gamma Sigma (Business Administration) — National honorary business society to recognize superior academic performance.
- Chi Epsilon (Civil Engineering) — National honor society open to Civil Engineering majors with a 2.9 GPA.
- Chi Sigma Iota (Counseling) — International honor society open to graduate students with a GPA of 3.5, scholars, and practitioners in the counseling profession.
- Eta Kappa Nu (Electrical Engineering) — National honor society furthering area interests and promoting scholarship. GPA requirement for seniors is 2.8, for juniors 3.0.
- Kappa Delta Pi (National honor society for teachers) — encourages high professional, intellectual, and personal standards. Recognizes outstanding contributions to education.
- Kappa Tau Alpha — National honor society that recognizes academic excellence and promotes scholarship in journalism and mass communication.
- Omicron Nu (Family and Consumer Sciences) — National honor society recognizing superior scholarship and promoting leadership and research in the field of Family and Consumer Sciences.
- Phi Alpha (Social Work) — National honor society to improve the goals of social work on campus. GPA requirement 3.0.
- Phi Alpha Theta (History) — National honor society in history, founded to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.
- Phi Beta Delta (International Education) — National society, founded at CSULB, recognizes students from all disciplines with high GPAs and extensive involvement in international education or international studies.
- Phi Delta Gamma (Scholarship) — National honor society which fosters academic achievement and professional preparation.
- Phi Delta Kappa (Education) — National organization which promotes service, research, and leadership in education. Members include both students and faculty.
- Phi Epsilon Kappa (Physical Education) — National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.
- Phi Mu Alpha-Sinfonia (Music) — National organization for students in music. Promotes music in America, especially contemporary American music.
- Phi Alpha Alpha (Public Administration) — National society to encourage scholarship among students of public administration.
- Phi Sigma Tau (Philosophy) — National honor society for students with a strong undergraduate concentration in philosophy.
- Pi Kappa Lambda (Music) — National honor society for scholastic achievement in music.
- Pi Lambda Theta (Education) — National organization for undergraduate and graduate students. Purpose is to

maintain high standards of scholarship and preparation for teaching.

- Pi Mu Epsilon (Mathematics) — National honor society recognizing distinction in mathematics.
- Pi Sigma Alpha (Political Science) — National honor society for political scientists. Open by invitation to upper-division and graduate students with a 3.0 GPA.
- Pi Tau Sigma (Mechanical Engineering) — National honorary fraternity encouraging and recognizing outstanding scholastic achievement of students in the field.
- Psi Chi (Psychology) — National honor society recognizing distinction in Psychology. Sponsors research and other participation in psychology.
- Sigma Alpha Iota (Music) — National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.
- Sigma Delta Pi – Capitulo Pi Chi — One of the purposes of this society is to honor those who attain excellence in the study of the Spanish language and in the study of the literatures and cultures of the Hispanic World.
- Sigma Theta Tau (Nursing) — International honor society recognizing superior scholastic achievement, leadership, and community service in nursing.

CSULB Alumni Association

The CSULB Alumni Association is the link between the University and its more than 285,000 graduates to garner their support for The Beach.

It sponsors various alumni programs, communication vehicles to inform alumni about their alma mater, and supports the University with departmental grants and student scholarships including the prestigious President's Scholars Program.

The Association is governed by a volunteer board of directors who serve as alumni ambassadors for the university, promote its mission, and reconnect alumni with the institution. Other volunteers assist with its other programs such as Homecoming, commencement hospitality, Concerts in the Grove, and other events.

Membership dues for CSULB graduates and credential holders is a one-time \$49 fee. For non-graduates, including alumni who took CSULB classes but did not graduate, the fees is \$49 for the first year and \$25 annually thereafter.

The main benefit for members is to keep informed about their alma mater through its magazine "Beach Connection" and e-communicues. In addition, members have access at all CSU libraries (check with campus library for alumni benefits), discounts at the Carpenter Performing Arts Center events and home 49er athletic games, discount on rental of the Earl Burns Miller Japanese Garden, and access to various group insurance policies (medical, home, auto, life, etc.). Alumni also can access the CSULB Career Development Center for an annual fee.

For more information about the CSULB Alumni Association, check the website at www.csulb.edu/alumni or call 562.985.5252.

Giving at the Beach

Beach Fund

Though CSULB is a publicly supported institution, generous contributions to the Beach Fund are critical to keeping the University thriving. Supporting the Beach Fund allows the President and Deans to address the ongoing, immediate needs of the University. Contributions to all areas enhance state support and student fees to provide all students with access to a quality education. Such areas most impacted by your support are:

- Student Success and Access
- Teaching and Discovery
- Creativity and Innovation
- Science and Technology
- Global and Community Engagement

None of these successes can be accomplished with state funding alone. More than 20,000 alumni, parents and friends of the University contribute to the Beach Fund each year. Gifts to the Beach Fund make it possible for our gifted students to earn the lifelong benefits of a quality CSULB education and protect the value of degrees already earned. Please feel free to contact the Office of Annual and Special Giving by phone at (562) 985-5294 or via email at BeachFund@csulb.edu.

MyBeach Senior Class Experience

The MyBeach program, housed within the Alumni Association, provides graduating CSULB seniors with an engaging experience during their last year at the Beach. This is created through event programming, and the promotion of Beach Pride in belonging to the Alumni Association, as well as through introducing a tradition of giving back to CSULB through the Alumni Association.

The Senior Giving Campaign, housed in the Beach Fund, allows current CSULB student fundraisers to reach out to our soon-to-be-grads to introduce them to a tradition of giving back, starting with the Senior Class Campaign.

GRADUATE DEGREES AND OTHER POST BACCALAUREATE STUDIES

Vice Provost for Academic Affairs and Dean of Graduate Studies

Cecile Lindsay

Graduate Studies

A student who plans to become a candidate for a master's degree must hold a bachelor's degree from a regionally accredited institution or have completed equivalent academic preparation at a foreign university as determined by the appropriate campus authority. The student must have completed undergraduate course work substantially equivalent to that required at California State University, Long Beach in the discipline of intended graduate study, or must be prepared to undertake additional work to make up any deficiency. Most graduate degree programs are based upon preparation in the discipline at the undergraduate level. Undergraduate preparation is considered adequate if a candidate has met the upper-division requirements of this University for a bachelor's degree in the subject matter area of the master's degree program. Refer to specific departments for detailed requirements of each degree program. The following graduate degrees are offered:

Master of Arts Degree in:

- Anthropology
- Applied Sociology
- Art
- Asian Studies
- Communication Studies
- Dance
- Economics
- Education
- English
- Family and Consumer Sciences
- French and Francophone Studies
- Geography
- German
- Global Logistics
- History
- Italian Studies
- Kinesiology
- Linguistics
- Music
- Philosophy
- Political Science
- Psychology
- Religious Studies
- Spanish
- Speech-Language Pathology

Master of Business Administration

Master of Business Administration / Master of Fine Arts in Theatre Management

Master of Fine Arts Degree in:

- Art
- Creative Writing
- Dance
- Theatre Arts

Master of Music

Master of Public Administration

Master of Public Health

Master of Social Work

Master of Science in Nursing/Master of Public Health

Master of Science Degree in:

- Accountancy
- Aerospace Engineering
- Applied Statistics
- Biochemistry
- Biology
- Chemistry
- Civil Engineering
- Computer Science
- Counseling
- Criminology and Criminal Justice
- Electrical Engineering
- Emergency Services Administration
- Engineering
- Geographic Information Science
- Geology
- Gerontology
- Health Science
- Health Care Administration
- Kinesiology
- Mathematics
- Mechanical Engineering
- Microbiology
- Nursing
- Nursing/Health Care Administration
- Nutritional Science
- Physics
- Psychology
- Recreation Administration
- Science Education
- Special Education
- Supply Chain Management

Ed.S. in School Psychology

Ed.D. in Educational Leadership

Ph.D. in Engineering and Industrial Applied Mathematics

(awarded jointly with Claremont Graduate University)

Doctor of Nursing Practice

DPT in Physical Therapy

Certificate Programs and Graduate Study

Students, whether graduates of CSULB or of another accredited institution, may complete the requirements for and be awarded certificates while in graduate standing. Certificate programs are of two types: baccalaureate certificates which may be taken concurrently with or following the award of the baccalaureate degree, and graduate certificates which require post-baccalaureate standing. The graduate certificates are listed below, with the department responsible for each certificate indicated in parentheses.

Graduate certificate programs require at least 18 units of course work, of which at least 12 units must be at the 500- or 600-level. Courses taken to fulfill the requirements for the master's degree may also be applied to certificate requirements, if the certificate program permits, but such overlap may not exceed 15 units. Courses in directed research, directed reading, internship, and independent study may comprise no more than 3 units of a graduate certificate program. Thesis and student teaching may not be used on the program. Extension and/or transfer credit may comprise no more than one-sixth of the course work used to meet graduate certificate requirements. A grade-point average of at least 3.0 must be maintained in the graduate certificate program's course work. All courses used to complete the requirements of a graduate certificate must be completed within a five-year period from the date of the initial course work.

If you wish to pursue a graduate certificate program, you should review the course requirements given in the department course listings of this catalog. You should notify the relevant department of your intention to pursue a certificate program as early as possible so as to receive early advisement on the program.

Certificates

Community College (Educational Leadership)
Health Care Administration (Health Care Administration)
Latino Health and Nutrition Studies (Health and Human Services)
Museum Studies (Art)
Nurse Education (Nursing)
Nurse Practitioner (Nursing)
Public Management Analyst
(Public Policy and Administration)
Public Sector Employer-Employee Relations and Personnel Management (Public Policy and Administration)
Public Sector Financial Management
(Public Policy and Administration)
Reading Certificate (Teacher Education)
Teaching English to Speakers of Other Languages
(Linguistics)
Transportation Policy and Planning
(Public Policy and Administration)
Urban Executive Management
(Public Policy and Administration)

Graduate and Post-Baccalaureate Admission Requirements

Applicants must meet the minimum university requirements for admission as well as the standards established by the program. Exceptions to the minimum university requirements can only be granted by the Dean of Graduate Studies based on the recommendation of the program faculty. The offer of admission may be 'provisional' if requirements are in progress at the time of admission that must be completed prior to enrollment in the program (e.g., earning a Baccalaureate degree). Failure to meet the terms of the admission offer may result in the rescission of the offer.

To meet the minimum requirements for admission to graduate and postbaccalaureate studies at CSULB, a student shall at the time of enrollment: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; and (3) have attained an acceptable grade-point average in any of the following ways: (a) hold an advanced degree; (b) hold a baccalaureate degree with a cumulative GPA of at least 2.5 (A = 4.0); (c) hold a baccalaureate degree with a GPA of at least 2.5 in the last 60 semester (90 quarter) units attempted. Lower-division courses or courses taken in extension (except in adjunct enrollment at CSULB in the upper-division level) after obtaining the bachelor's degree will be excluded from the calculation.

Students in the process of completing a baccalaureate degree may be admitted on a provisional basis, subject to proof of degree completion by the established deadline, if their cumulative GPA is at least 2.7 or if the GPA in their last 60 semester or 90 quarter units are calculated at 2.5 or higher.

For information on the specific requirements for admission to a given program, see the catalog section for that program.

These and other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website, www.calstate.edu and the CSU admissions portal www.csumentor.edu are good sources of the most up-to-date information.

Graduate Standing — Conditionally Classified

Admission to Conditionally Classified Standing: Applicants who show promise of success but who have deficiencies in prerequisite preparation which, in the opinion of the program faculty, can be met by specified additional preparation, including qualifying examinations, may be offered admission with a Graduation Standing of "Conditionally Classified" on a space available basis. The academic unit granting the degree must notify the applicant of the specific preparation required including minimum grades and the time frame for completion within two weeks of the University offer of admission. Prerequisites should normally be completed in two semesters. Requests to allow a student longer than two semesters must be approved in advance by the Dean of Graduate Studies.

Graduate Standing — Classified

Admission to Classified Standing: Applicants who satisfactorily meet the professional, personal, scholastic, and other standards for admission to the graduate degree curriculum, including qualifying examinations, are admitted with a Graduate Standing of “Classified.”

Academic unit(s) granting the degree(s) are required to monitor the progress of students in “Conditionally Classified” status each term. Upon the successful completion of the identified preparation, the academic unit granting the degree must notify Enrollment Services and the student that they have earned a Graduate Standing of “Classified.” If the student fails to complete the required preparation within the timeframe established, the student may be immediately dismissed from the program. The academic unit granting the degree may grant additional time based on special circumstances with the approval of the Dean of Graduate Studies. The academic unit granting the degree must notify the student and Enrollment Services of the decision to dismiss for failure to achieve “Classified Standing” in a timely manner.

Post-Baccalaureate Standing — Classified

In this status a student is eligible to enroll in a credential or certificate program, provided that such additional professional, personal, scholastic, and other standards, including qualifying examinations, as may be prescribed for the particular credential or certificate program by the appropriate campus authority, are satisfied.

Admission to the University

For admission requirements, see the Admission section of the catalog.

Requirements for Master's Degree

Applicants with a baccalaureate degree may gain admission to CSULB as a graduate student with either conditionally classified or classified status. Once admitted to CSULB in a graduate degree program, a student retains catalog rights for both the general university requirements and the specific requirements of the degree program unless the student breaks continuous enrollment. Breaking continuous enrollment severs catalog rights for both the university and program.

The receipt of a master's degree involves four major steps:

1. Admission to CSULB and the academic unit granting the degree (department, college, etc.) as either a conditionally classified or classified graduate student;
2. Completion of the requirements to achieve classified status if admitted in conditionally classified status;
3. Preparation of a program of study and advancement to candidacy; and
4. Fulfillment of all remaining requirements for the degree, major, and option, if any, resulting in graduation.

For more information, please see University Regulations Governing the Master's Degree.

Admission to a Department as a Graduate Student

In order to pursue a credential certificate or master's degree, students must be accepted by the department or college offering the program. In some instances (see specific department listing) this process may require

supplemental application to the department or college.

Following review, the department or college will determine whether or not a student meets its requirements for admission to its degree program. Departments or colleges that receive more applications from qualified students than the number of graduate spaces they have available will admit students in priority order based on the strength of candidates' qualifications.

If space is available, a student who is admissible to the University but who does not meet program requirements for admission may nevertheless be accepted as a conditionally classified graduate student by the department or college offering the program, subject to the provision that all remaining admission requirements of the program must then be fulfilled after enrollment.

Special Action

In rare and compelling circumstances, an applicant who doesn't qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the department/college concerned and in the judgment of the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to her/his educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.

Graduation Writing Assessment Requirement (GWAR)

As a requirement for advancement to candidacy, all graduate students must demonstrate upper-division competency in academic writing in English by fulfilling the GWAR. A new GWAR policy was adopted in Spring 2012. However, the new policy has not yet been fully implemented. Currently, graduate students are required to fulfill the following requirements.

Graduate students are required to take the Writing Proficiency Exam (WPE), except that students who have previously (1) received degrees from accredited colleges and universities in the United States; or (2) received degrees from an accredited non-US institution located in a country where English is a primary language of communication; or (3) attained an appropriate score on the analytical writing component of an approved test are exempt from the Writing Proficiency Exam (WPE).

Beginning Fall 2013, these exemptions are automatically noted on students' records at the time of admission. All other graduate students will either self-place into a low- or mid-range pathway in consultation with a GWAR advisor or take the WPE in their first semester of enrollment. Students admitted prior to Fall 2013 who believe they may be eligible for one of the exemptions listed above may submit a Graduate Student Petition to Satisfy the CSULB GWAR to Testing, Evaluation & Assessment, BH-216. The petition form is available at BH-216 or at www.csulb.edu/testing.

Students are permitted to take the WPE only once unless they are approved to take it a second time by a GWAR advisor.

Graduate students who are not exempt from the WPE must fulfill the GWAR by one of the following pathways based on their score on the WPE:

1. Students receiving scores of 11 or higher have satisfied the GVAR and may proceed to advance to candidacy.
2. Students receiving scores of 8, 9 or 10 must complete a GVAR portfolio course, including submission of a portfolio that receives a passing score. Students following this pathway are expected to fulfill the GVAR within two semesters of enrollment following their WPE attempt.
3. Students receiving a score of 7 or lower must complete English 301A with a C or better in the following semester of enrollment and must complete a GVAR portfolio course, including submission of a portfolio that receives a passing score, in the subsequent semester of enrollment. Students following this pathway are expected to enroll in an appropriate GVAR course in each semester following their WPE attempt.

Students who have questions about their next step or who need help selecting an appropriate GVAR portfolio course should schedule an appointment with a GVAR advisor in the Learning Assistance Center, Horn Center, 104 (562-985-4192). Information about the GVAR is available at www.csulb.edu/gvar.

Students who attempted the WPE once prior to Fall 2010 may attempt the WPE a second time or enroll in an appropriate GVAR course and submit a portfolio for assessment. Students are not permitted to take the WPE more than two times.

Graduate students must satisfy the GVAR before they will be advanced to candidacy. (Advancement to candidacy requires satisfying the GVAR and satisfactorily completing six or more semester units in residence while earning a 3.0 GPA or greater.) Graduate students must also visit their graduate faculty advisors in their first semester to determine if additional departmental or program writing requirements apply to their advancement to candidacy.

Students can register for the WPE online at www.csulb.edu/testing. Students must pay a fee each time they take the test to cover the costs of test administration and scoring. Testing, Evaluation & Assessment offers three-hour workshops one to two weeks prior to each WPE date. Information about these workshops, the WPE workbook, and related services is available at BH-216 or at www.csulb.edu/testing.

The GVAR and Registration Holds

If graduate students neglect to attempt the WPE in their first semester of residency, CSULB will place a hold on their privilege to register for classes. Students must register for and take the WPE to release these registration holds.

Students with compelling reasons can request deferrals at Testing, Evaluation & Assessment, BH-216. In certain circumstances, students, with help from their faculty or staff advisors, may submit an appeal or contract to release a registration hold temporarily.

If students fail to comply with requirements to enroll in a GVAR course, CSULB will place a hold on their privilege to register for classes. Students must meet with a GVAR advisor to release these registration holds.

Future GVAR Policy

It is anticipated that the new GVAR policy will be fully

implemented in Fall 2016. At that time, the following changes in the requirements to complete the GVAR will go into effect:

1. Graduate students will be required to take the GVAR Placement Exam (GPE), except that students who have previously (1) received degrees from accredited colleges and universities in the United States; or (2) received degrees from an accredited non-US institution located in a country where English is a primary language of communication; or (3) attained an appropriate score on the analytical writing component of an approved test are exempt from the GPE. All other students will either self-place into a low or mid-range pathway in the consultation with their graduate advisor or take the GPE in their first semester of enrollment.
2. Students who are exempt from the GPE and students with an upper-range score on the GPE will be required to successfully meet any writing requirements specified by the student's department.
3. Students who receive a mid-range score on the GPE will be required to complete a GVAR portfolio course, including submission of a portfolio that earns a passing score, and successfully meet any writing requirements specified by the student's department.
4. Students with a low-range score on the GPE will be required to successfully complete English 301A with a C or better; subsequently complete a GVAR portfolio course, including the submission of a portfolio that earns a passing score; and meet any writing requirements specified by the student's department.

Students with a low- or mid-range score on the GPE will be required to begin their pathway no later than the semester after taking the GPE. These students must enroll in an appropriate GVAR course each semester until they are deemed ready to attempt any writing requirements specified by the student's department. Registration may be prevented for students not complying with timely completion of the GVAR requirement.

Students will be permitted to appeal to complete requirements concurrently if required for timely advancement to candidacy. Appeals will be reviewed by the Dean of Graduate Studies or designee.

Graduate Research Fellowship

The Graduate Research Fellowship is awarded by CSULB faculty to students who show potential for success in scholarly and creative activity and an interest in advanced study. Interested students should contact the office of their college dean for information on the nomination process.

Graduate Study in the International Programs

Students planning to participate and receive unit credit toward a master's degree in an International Program should consult with the graduate advisor in the department of their major and college dean or director of graduate studies before entering the degree program.

Graduate students who have not been admitted to candidacy for a master's degree and who participate in the International Programs may, upon their return to California State University, Long Beach, petition to have six units

earned as resident credit in the International Programs included on their official student program for the master's degree. In no case may excess grade points earned in the International Programs be used to bring a grade-point deficiency at California State University, Long Beach to the required 3.0 (B) average.

Students admitted to candidacy for a master's degree who plan to participate in the International Program of Studies must obtain permission, prior to beginning their study abroad, to have units earned abroad applied toward satisfaction of their degree requirements. A candidate's petition to apply units earned abroad must be reviewed and recommended by the department offering the degree. The specific courses to be taken on the foreign campus, thesis research which is to be done abroad, or any other requirements such as examinations to be taken upon the student's return must be listed on the official student program. Usually no more than six units of credit may be transferred to apply toward the minimum 30 units for an advanced degree as a result of participation in the International Program of Studies, but a maximum of 12 units may be allowed by the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee in consultation with the University Graduate Council in a special case.

A copy of the candidate's graduate student program must be forwarded to the Resident Director for the foreign area, who must certify that any credit earned abroad is appropriate to meet graduate degree requirements.

Pending the faculty's evaluation of the student's work, a Report Delayed (RD) grade will be assigned in all courses in which work was completed abroad and which are offered to satisfy requirements toward an advanced degree.

Change of Objective

Evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Candidates desiring a change in graduate objective to a discipline different from that indicated on the original application must reapply to the University. Reapplication requires the submission to the Office of Enrollment Services of a newly completed Graduate and Postbaccalaureate Admission form and payment of the associated fee. The proposed new graduate department or program will review the application and notify Enrollment Services of its decision. Students who are admitted to a new discipline must then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy." Students who are not admitted to a new discipline have the option of continuing to pursue their original objective.

The only exception to the procedures described in the preceding paragraph is for students seeking to change from one degree program to another degree program within the same discipline (for purposes of this regulation, all options offered by the College of Education are considered to be part of a single discipline). In such cases, candidates must obtain department approval, asking the department to request the program change from Enrollment Services. Requests are considered on a case-by-case basis. If granted permission, candidates must then seek approval of their official student

program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy."

Withdrawal from the Degree Program

If a student wishes to resume graduate study after withdrawal, the student must reapply to the University and to the graduate program. If admitted, the student must be readvanced to candidacy and the department or college may determine that the student's graduate program should be changed.

University Regulations Governing the Master's Degree

General

The following regulations apply to all graduate degree programs. Specific academic and curricular requirements of individual degree programs are given in the departmental listings of this catalog.

In addition to whatever additional requirements a particular degree program has, all candidates for a master's degree must complete the requirements listed below:

1. Maintain a cumulative, graduate, grade-point average of 3.0 calculated on all upper-division and graduate-level coursework attempted by the candidate at CSULB after completion of a baccalaureate degree. Exceptions to the 3.0 cumulative, graduate, grade-point average may be made only on the recommendation of both the departmental faculty offering the degree and the college dean or designee and approval by the dean of graduate studies or designee.
2. Maintain at least a 3.0 average in all the courses listed on the program of study.
3. Obtain a minimum grade of C for a course to count in a program of study. Academic unit(s) granting the degree(s) may require higher minimum grades for specifically indicated courses. A student may retake a course once in order to achieve a minimum grade. A grade for a course taken the second time may satisfy a minimum grade requirement but shall not replace the grade previously earned in the course on the student's transcript.
4. Make progress towards timely completion of the degree as determined by any milestones that the academic unit granting the degree may have established in writing and communicated to its students. Students failing to make satisfactory progress may be placed on administrative academic probation. Department Chairs or Associate Deans must notify students in writing or via email that they have been placed on administrative academic probation.
5. Complete all required courses on the program of study, which must contain a minimum of 30 units in upper-division and graduate courses. Some degree programs require additional units. Student teaching may not be included in any master's degree program.

6. Complete at least seventy percent (70%) of the required units in the degree program at CSULB in matriculated status or as approved graduate credit earned as a senior. At the option of the department offering a master's degree, a graduate student may use credit taken at CSULB in non-matriculated status or approved transfer credit toward up to thirty percent (30%) of the units of the program of study. Units applied towards a previous undergraduate degree cannot be transferred for credit towards a master's degree. The academic unit granting the degree may waive units and course requirements provided the minimum thirty-unit requirement is met in accordance with Title V.
7. Complete at least seventy percent (70%) of the minimum units required for the program of study in courses at the 500 and 600 levels, including double-numbered courses (400/500). At least fifty percent (50%) of the units required for the degree shall be in courses organized primarily for graduate students.
8. Complete a thesis or project subject to all requisite approvals or pass a final, comprehensive examination. Some programs require both a final comprehensive examination and either a thesis or project. Others allow students a choice between a thesis option and a non-thesis, comprehensive examination option. Failure of either the comprehensive examination or thesis/project requirement is failure of both options. In other words, a student failing the comprehensive examination may not proceed to the thesis or project option or vice versa. Once a student has completed a semester of enrollment toward fulfillment of either the comprehensive examination or thesis option, the student may not change from one option to the other without the approval of the graduate advisor, the department chair, and the appropriate dean or designee.
9. Complete all requirements of the degree program within seven (7) years of the date the student initiated the program (i.e., the date [semester] when the student first completed a course appearing on the student's program of study). The dean of graduate studies or designee may grant an exception to this requirement if warranted by individual circumstances and if the student re-validates the outdated work by re-taking the course, passing a comprehensive examination in the relevant course or subject field work, or fulfilling such other demonstrations of competence as may be prescribed by the department in its approved policy on revalidation.
10. Maintain continuous enrollment every spring and fall semester by registering in a course or in GS 700 or having received an approved educational leave. Registration in GS 700 is restricted to graduate students who have completed all course work, have been advanced to candidacy, and have departmental approval. Registration in a course or in GS 700 also is required in winter or summer session if that is when a student plans to graduate. Registration in GS

700 is CR/NC only.

Concurrent Master's Degree

Currently matriculated, post-baccalaureate students may enroll concurrently in a second master's degrees program. Rather than sequentially completing one degree first and then the other, the student's time and the university's resources may be conserved by arrangements that permit the student to proceed in a coordinated way toward completion of the two graduate degree programs simultaneously. The two degree programs may reside in separate academic units or the same academic unit. To protect the integrity of the university's degrees, the following conditions must be satisfied to award concurrent master's degrees:

1. The student must complete all prerequisites for the concurrent master's degree prior to seeking approval to declare that concurrent master's degree;
2. A student wishing to pursue a concurrent master's degree must first seek the approval of the graduate academic unit granting the student's first master's degree program to declare the additional master's program;
3. If the student's current graduate academic unit agrees that the additional master's may be appropriate and feasible the academic unit(s) granting the degrees would collaborate to develop a plan to allow completion of both degrees;
4. Each degree in a concurrent program must meet the 30 unique unit minimum. Units beyond the 30 unique unit minimum may be shared between concurrent degrees.

If the academic unit(s) granting the degrees are successful in developing a plan to allow completion of both degrees, the Dean of Graduate Studies or his/her designee(s) must approve the plan before the student can begin work on the additional master's degree while still enrolled in the initial degree program. The decision whether to approve the student's request should be based on:

1. The extent to which the additional master's program would form a coherent intellectual whole with the initial program;
2. The number of units already completed in the initial master's degree program and student's academic performance in that coursework;
3. The feasibility of the plan to complete the degrees in a timely manner (i.e., without violating either the "seven-year rule" or any timely completion policies of individual master's degree programs);
4. Any additional criteria the Dean of Graduate Studies finds relevant to the decision in any particular case.

The student is considered formally admitted only to the initial master's degree program. If the student wishes to discontinue the initial program in favor of the added program they must reapply to the university and the plan to complete both degrees would no longer be valid.

Regardless of the number of units approved for "sharing" between two master's degree programs, students must complete distinct culminating activities for each degree (e.g., a comprehensive exam for each of the two degrees; two different theses or projects; one comprehensive exam and

one thesis or project).

Academic units that believe pursuing concurrent master's degrees would be beneficial to their students may establish formal cooperation agreements with the approval of the Dean of Graduate Studies. Students would still need to fulfill the requirements listed above but the process for entering the additional master's program would be streamlined.

Second Master's Degree

Students who have graduated with or who are about to graduate with a master's degree from CSULB or any other regionally accredited university may apply for a second master's degree in a different program.

CSULB will grant advancement to candidacy for the second degree only after the first degree has been awarded. All candidates for a second master's degree must meet the following requirements:

1. Meet all admission requirements of CSULB and the academic unit granting the degree;
2. Complete all general requirements for a master's degree at CSULB not already completed as well as all specific requirements for the new degree program. Units applied towards a previously completed degree cannot be transferred for credit towards a second master's degree. The academic unit(s) granting the degrees may waive units and course requirements provided the minimum 30 unique unit requirement is met.
3. Earn, after the awarding of the first master's degree, a minimum of 21 units of graduate residence credit at CSULB, including the minimum of 500 and 600 series units mandated by the academic unit in which the student is earning the second master's degree.

The Program

A student must consult with the graduate advisor for the degree program to prepare a tentative program of study. After completing prerequisites and other requirements, the student must formulate an official program of study and then apply for advancement to candidacy.

Many departments will assign the student a faculty advisor with whom the student must also consult about preparing a program of study; other departments utilize their graduate advisors for this purpose. Either the faculty or graduate advisor will assist the student in preparing a program of study. Many departments will also require a special committee to advise a student, especially when either a thesis or project is involved. The program of study must be approved by the student's department and either the college dean or designee. Once approved, a student's program of study may not be changed without the express consent of all parties involved.

The student program must list the following:

1. Courses required for removal of undergraduate deficiencies;
2. All courses taken prior to advancement to candidacy which are to apply toward the 30-unit minimum;
3. Required courses;
4. Elective courses.

The official student program, when approved, serves as the basis for the Office of Enrollment Services' graduation

audit which is required before the degree can be granted. Students who have not been advanced to candidacy are subject to all changes as published in the CSULB *Catalog*, Policy Statements, and certifications.

Graduate student programs may be revised as the student advances toward the degree. Such revisions must be recommended by the faculty advisor and approved by the departmental graduate advisor and the college dean or director of graduate studies.

Advancement to Candidacy

Advancement to candidacy is the next step after achieving classified status. Advancement to candidacy also signifies approval of a plan of study by the student's major department and college.

The requirements for advancement to candidacy are:

1. Attainment of classified status as a student in a graduate program at CSULB;
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
3. Approval by the student's department and college of a program of study (see above);
4. Completion with a minimum GPA of 3.0 of at least six units of courses required on the student's program of study;
5. A cumulative, graduate, grade-point average of at least 3.0 calculated on all upper-division and graduate-level coursework attempted by the student at CSULB after completion of a baccalaureate degree;
6. Satisfactory completion of any assessments of competence that the department may require.

CSULB will advance to candidacy all graduate students when the above requirements have been successfully completed. In most instances, advancement to candidacy should occur no later than the end of the second semester of matriculation and must occur no later than one semester or session prior to the semester or session in which the student expects to graduate. It must occur prior to a student filing a request to graduate with Enrollment Services. Normally, a student is eligible and should file for advancement to candidacy for the semester immediately after fulfilling the requirements for advancement to candidacy listed above. All students must consult with their graduate advisor regarding advancement to candidacy as well as to determine any departmental requirements to graduate from CSULB.

An approved graduate student program remains in effect so long as a candidate is making satisfactory progress and does not withdraw from CSULB. To ensure minimum satisfactory progress toward the degree objective, the student must enroll every fall and spring semester or be on approved educational leave and complete all degree requirements within seven years after completion of the first course on the student's program.

Prior to advancement to candidacy the student may change degree program or options within the same department with faculty approval. Students wishing to change to a degree program in a different department must file a new application for admission. If admitted to the

new discipline, the student must then follow all the steps indicated above for obtaining approval of a new student program and advancement to candidacy.

A student entering military service after having been admitted to candidacy for an advanced degree will be considered as not having withdrawn from candidacy, provided that the student is enlisted or called to active duty during a semester in which he/she is enrolled or not more than one semester thereafter and then enrolls in courses toward her/his degree within one calendar year of the date of her/his release from service.

Students who have been advanced to candidacy and absent themselves from the University on educational leave will be considered as not having withdrawn from candidacy for an advanced degree, provided the terms of the educational leave are fulfilled.

A department or college recommends a student for advancement to candidacy by forwarding a graduate student program for approval to the college dean or director of graduate studies. After the student's program has been processed and approved, a copy of the completed student program and a letter advancing the student to candidacy will be mailed to the candidate, with copies filed with the department or college and the Office of Enrollment Services.

A student must be enrolled in the semester or summer session in which advancement to candidacy takes place, and this must occur no later than one semester or summer session prior to completion of course requirements. Normally, a student is eligible and should file for advancement to candidacy after completing six units of graduate coursework for the graduate degree program with a 3.0 grade-point average.

Election of Regulations

Graduate students will be held responsible for the regulations governing master's degrees in effect at the time of admission. A change in master's degree objective or readmission to a graduate degree program following withdrawal requires that a new student program be filed under the current graduate policies as published in the latest edition of the catalog.

Teaching Associateships and Graduate Assistantships

Many CSULB departments have Teaching Associate (TA) and/or Graduate Assistant (GA) positions available for qualified graduate students. Students should check in department offices or on the campus web site for more information.

Final Comprehensive Examination

Each academic unit granting degrees requiring a final, comprehensive examination determines the content of the examination. Such examinations may be written or oral or both. A faculty committee shall represent the academic unit granting the degree in preparing the questions, administering the examination, and scoring the results. Through the comprehensive examination, the faculty provides an opportunity for the master's degree candidate to demonstrate analytic ability and knowledge of the discipline. Students may not enroll for courses in

preparation for the comprehensive examination or take the comprehensive examination unless they have been advanced to candidacy for the master's degree or unless advancement to candidacy will occur in the semester in which the enrollment takes place.

An academic unit granting the degree may allow a candidate who has failed the final, comprehensive examination to take it a second time, and the student should contact the departmental graduate advisor for specific procedures for the second attempt. In order for CSULB to award a candidate the master's degree for a particular semester, the department must report the results of the comprehensive examination to Enrollment Services prior to the end of that semester.

Theses and Projects

A student may enroll for thesis or project units (courses usually numbered 698 or 699) only when that student has attained candidacy status for the degree or when advancement to candidacy will occur in the semester of initial enrollment in thesis or project units. CSULB will award a minimum of three and a maximum of six semester units for the successful completion of a thesis or project.

All thesis or project units must be specified as either credit/no credit only or letter grade only by the department. If a department selects the letter grade option the student must earn at least a B..

Theses and projects submitted in partial fulfillment of the requirements for a graduate degree at this University shall meet the following definitions established by the Trustees of the CSU.

A thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis will be required.

A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

Students are responsible for understanding the definition of a graduate thesis as outlined above and must follow the format guidelines prescribed by the University and department in which the thesis is completed.

Thesis Committees

A student's thesis committee shall consist of at least three members qualified in the areas relating to the thesis. At least two shall be full-time faculty members at CSULB, one of whom must be tenured or tenure-track. The chair of the thesis committee must be a tenured or tenure-track

faculty member from a department authorized to offer a graduate degree. The thesis committee must be approved by the department chair and the graduate or thesis advisor. Normally the chair of the committee also serves as thesis director, but this is not necessarily so. The thesis director must be a person qualified in the specific area of the thesis, but need not be a tenured or tenure-track faculty member. The committee shall be responsible for the guidance of the student throughout the thesis effort. Any change in the composition of the committee requires justification and must be approved by the appropriate department graduate advisor and college associate dean or director of graduate studies.

Thesis committee members will advise and direct students in their thesis work and ensure that the thesis meets the standards and definition of a thesis specified above.

Thesis committee members will determine the grade to be awarded for completion of the thesis; and by signing the thesis signature page, thesis committee members certify that they have determined that the thesis meets the required standards of scholarship, format, and style of the discipline.

When the thesis committee includes a thesis director who is not the chair of the committee, this person may be identified on the thesis approval page as "Thesis Director."

Thesis Committee Chairs

Thesis committee chairs will determine that the student has the proper preparation in terms of course work and research skills to pursue the proposed thesis.

In departments where this function is not carried out by graduate advisors, thesis committee chairs will advise the student in the selection of other members for the thesis committee, ensuring that the other members are appropriate to the proposed thesis effort.

Thesis committee chairs will be the major contact point with the student and will oversee the other committee members' work with the student.

Thesis committee chairs will assure that the editorial and format standards appropriate to the mechanical preparation of a thesis are followed.

Thesis committee chairs will establish guidelines for the student and timetables to be followed to ensure completion of the thesis in a reasonable time.

Thesis committee chairs will arrange for the oral defense of the thesis when required.

The thesis committee chair is responsible for canvassing the committee and reporting the grade agreed upon by its members. After the completed thesis has been reviewed by the University Thesis and Dissertation Office for conformance with prescribed format criteria and the approval page has been signed by the committee and by the dean or department chair, as appropriate, the final grade will be submitted.

Thesis and Dissertation Office

All theses must be acceptable for deposit in the University Library. The Thesis and Dissertation Office in University Library will verify that each thesis meets the format criteria prescribed by the department or degree program and by the University and that it meets all

University procedural requirements for theses. Students should consult the University Thesis and Dissertation Office for information, advice, and assistance on the mechanics of preparing a completed thesis and should purchase a copy of *Master's Theses and Projects: Guide to Style and Format* (copies of this guide can also be checked out from the reserve desk in University Library). The Thesis and Dissertation Office also conducts periodic workshops on how to prepare a thesis or dissertation at CSULB.

Academic Probation and Disqualification

Graduate Students

For purposes of determining eligibility to remain at the University, both quality of performance and progress toward the student's objective will be considered. Eligibility will be determined by use of grade points and grade-point average.

Students who are enrolled in a graduate degree program in conditionally classified or classified standing will be subject to academic probation if they fail to maintain a cumulative grade-point average of at least 3.0 (as defined earlier under General Regulations Governing the Master's Degree) in all units attempted subsequent to admission to the degree program.

Every graduate student who has been advanced to candidacy must maintain a cumulative grade-point average of 3.0 and a grade-point average of 3.0 in all courses applicable to the degree. Candidacy for an advanced degree may be revoked if a student's cumulative grade-point average falls below 3.0 at any time. Students who become subject to dismissal from an advanced degree program will be notified of the action taken by the college associate dean for graduate studies or the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn grades of sufficient quality to remove themselves from probationary status. Disqualification will bar such students from any further enrollment at CSULB.

Other Post-Baccalaureate Students

A post-baccalaureate classified student who fails to maintain a cumulative grade-point average of 2.5 on all units attempted at the University will be placed on probation.

A student on probation who, prior to the beginning of the next term, fails to attain a cumulative grade-point average of 2.5 on all units attempted at the University will be disqualified.

A student who is disqualified because of scholastic deficiency may petition the appropriate program authority for readmission only after an absence of two semesters or upon successful completion of summer session courses which remove the grade-point deficiency.

Petitions for readmission must indicate the reason for requesting readmission and must include a statement of any academic work successfully completed since disqualification or of any other activity which gives evidence in support of the petitioner's belief that readmittance is warranted. An application for admission and required transcripts, as well as the petition, must be submitted to the Office of Enrollment Services before the dates established by the University for filing applications.

Academic Credit

Credit/No Credit Grading

A graduate student may take courses at the 100/200/300/400 levels under the Credit/No Credit grading policy; however, no course in which a grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of "CR" may be permitted for master's theses or projects to a maximum of six units when the individual department has specifically designated Credit/No Credit grading for the thesis/project course in the department and for field work, practicum, and/or internship courses.

For graduate students, courses at the 300/400/500/600/700 levels require "B" level proficiency to merit award of the "CR" grade; at the 100/200 levels "C" level proficiency or better is required for award of the "CR" grade.

The option of Credit/No Credit grading for graduate students on 100/200/300/400-level courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken under this policy.

Waiver of Course Requirement and Credit by Examination

No waiver of course requirements or credit by examination may be used to satisfy master's degree requirements. However, the following rules govern course waivers or credit by examination in satisfying prerequisites for admission to candidacy in any master's degree program.

Any candidate for a master's degree who believes that previous training has provided adequate preparation in a certain area may request a waiver from the department concerned.

A candidate may also apply for course credit by examination, but only for prerequisite courses and not to satisfy any of the requirements for the master's degree. Requests for such examinations must be made to the department concerned and approved by the department chair. Credit by examination is restricted to courses published in the current CSULB *Catalog*. Please see Credit by Examination in the General Regulations section of this catalog.

All course credit by examination will be recorded as CR (Credit) and will not be included in calculation of grade-point averages; such credit may not be used to remove a grade of "D" or "F" in a course already attempted, nor may course credit by examination be granted for any course which is a prerequisite to one for which credit has already been received.

Graduate Studies 700

Maintain continuous enrollment every spring and fall semester by registering in a course or in GS 700 or having received an approved educational leave. Registration in GS 700 is restricted to graduate students who have completed all course work, have been advanced to

candidacy, and have departmental approval. Registration in a course or in GS 700 also is required in winter or summer session if that is when a student plans to graduate. Registration in GS 700 is CR/NC only.

Academic Load

Nine units per semester is a normal academic load for a full-time graduate student engaged in study toward a master's degree. If a candidate wishes to exceed this limit, it should be discussed with the departmental graduate advisor. The maximum load for graduate students working toward a master's degree is 18 units per semester. Students who are employed full-time should not exceed six units per semester.

Graduate students who wish to register for more than one unit of credit per week of attendance during the summer session must secure advance approval from the college associate dean or director of graduate studies. Petition forms and information may be obtained in the college offices.

Honors for Graduate Students

Graduate Dean's List

The Graduate Dean's List provides for university recognition of its most outstanding graduate students. Candidates for this honor will normally have completed all the coursework applicable to their graduate student programs at this university. The annual list is limited to one percent of the university's graduate enrollment. Those honored will be named in the Commencement Program and will receive a certificate from the administrator in charge of graduate programs or designee.

Departmental Graduate Student Honors

In recognition of outstanding graduate student achievements, departments may honor graduating master's and doctoral degree candidates by special recognition in the annual commencement ceremonies. The number of honors awarded by a department shall be limited to three students or five percent of graduates, whichever is larger. Departmental honors are usually restricted to students not otherwise recognized by university or college awards. These honors are normally conferred for excellence in and contributions to the discipline, including outstanding seminar papers, artistic exhibitions, special achievements in fieldwork, and in university committees and functions, as well as participation in scholarly and professional organizations resulting from student research.

ACCOUNTANCY

College of Business Administration

Department Chair: Sudha Krishnan

Department Office: College of Business Administration Room 411
Telephone: (562) 985-4653

Website: www.csulb.edu/colleges/cba/accountancy/

Faculty: David Bojarsky (emeritus), Michael Constas, Steven Fisher, Debra Grace, Xuan Huang, Sudha Krishnan, John Lacey, Ping Lin, Praveen Sinha, Rodney Smith, Judy Yin, William Zhang

Administrative Support Coordinator: Kellee Zbornak

Career Possibilities

Accountant • CPA • Cost Accountant • Auditor • IRS Agent
• Financial Analyst • Bank Officer • Controller • FBI Agent
• Management Information Systems Manager • Credit Analyst, Financial Analyst • Appraiser • Banker • Contract Administrator • Stock Broker (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Business Administration

Admission Under Impaction

Refer to the following website for additional impaction criteria: www.csulb.edu/depts/enrollment/graduation/native-major-criteria/.

Requirements

In order to graduate with an undergraduate business degree from CSULB, a student must complete a minimum of 120 units. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.

All CBA majors must maintain major GPAs of 2.0 or higher. A student whose GPA in the major falls below 2.0 will be advised that they are at risk of being dismissed from the major and granted one semester to raise their major GPA(s) to 2.0. Students who do not successfully raise their major GPA(s) must meet with an advisor to declare another major or submit an appeal to the CBA Center for Student Success explaining why they need one additional semester. Students whose major GPAs remain below 2.0 after this additional semester must declare a new major.

1. Lower Division:

Take all of the following:

ACCT 201 Elementary Financial Accounting (3)

*"C" or better required.

Prerequisite: None

ECON 100 Principles of Macroeconomics (3)

* C or better

Prerequisites: MATH 103 or higher; one GE Foundation course.

ECON 101 Principles of Microeconomics (3)

* C or better

Prerequisite/Corequisite: MATH 103 or higher.

MATH 115 Calculus for Business (3)

* C or better

Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

Choose one of the following:

STAT 118 Intro to Business Statistics (3)

Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 114 Finite Mathematics (3)

Prerequisites: Appropriate ELM score, ELM exemption, or MAPB 11.

Students planning business options should take STAT 118.

2. Ethics Course Requirements:

Choose one of the following:

PHIL 160 Introduction to Ethics (3)

CBA/PHIL 400 Business Ethics (3)

3. Critical Thinking Course Requirements

Any critical thinking course (GE category A3); IS 100 is recommended.

4. All business and pre-business majors shall demonstrate computer literacy and competency. Complete one of the following:

A. Passing score (70%) on the Computer Proficiency Examination (CPE).

B. IS 233 Introduction to Computer Systems and Applications (3) with Credit (Cr).

Prerequisite: None

C. Transfer equivalent course with a "C" or better grade.

5. Upper Division:

A. Take all of the following:

CBA 300 International Business (3)

Prerequisite: None

FIN 300 Business Finance (3)

Prerequisite: None

BLAW 320 Legal and Regulatory Environment of Business (3)

Prerequisite: None

IS 300 Management Information Systems (3)

*"C" or better required.

Prerequisite: IS 233 or equivalent.

IS 301 Business Communications (3)

Prerequisite: None

IS 310 Business Statistics (3)

Prerequisite: STAT 118 or MATH 114.

HRM 360 Organizational Behavior (3)

Prerequisite: None

MGMT 300 Principles of Management (3)

Prerequisite: None

MKTG 300 Marketing (3)

Prerequisite: None

B. The following Capstone course must be taken at CSULB as a senior and after the upper-division prerequisite core courses have been completed:

MGMT 425 Business Strategy and Policy (3)

Prerequisites: ACCT 202 or ACCT 320; MGMT 300, MKTG 300, FIN 300 and IS 301.

6. Elective courses to total 120 units. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for

preparation for business employment.

Option in Accountancy (120 units)

The Accountancy curriculum is designed to meet the general education goals of those entering the accounting profession. It satisfies the requirements established by the American Institute of Certified Public Accountants and may be used to meet educational requirements for the California CPA Certificate. The accounting program develops an understanding of an organization's management information system on a broad base of general education and business administration courses. The program is carefully planned and rigorous, building the conceptual, analytical, and communication skills necessary to succeed in the accounting profession. It prepares students for careers in all areas of accounting, including the necessary qualifications for professional examinations such as the C.P.A., C.M.A., C.I.A.

Requirements

Take all of the following:

ACCT 300A Intermediate Accounting (4)

**C" or better required.

Prerequisites: ACCT 201 with a grade of "C" or better.

ACCT 300B Intermediate Accounting (4)

**C" or better required.

Prerequisites: ACCT 300A with a grade of "C" or better.

ACCT 320 Cost Accounting (4)

**C" or better required.

Prerequisites: ACCT 201 with a grade of "C" or better.

ACCT 470 Auditing (4)

Prerequisites: ACCT 300B, ACCT 320 with grades of "C" or better, IS 301.

ACCT 480 Accounting Systems & Data Processing (4)

Prerequisites: IS 300, ACCT 300B and ACCT 320 with grades of "C" or better.

Take one of the following:

- ACCT 351 Federal Tax Law (4)

Prerequisites: ACCT 201 with a grade of "C" or better.

- ACCT 400 Advanced Accounting (4)

Prerequisites: ACCT 300B with grade of "C" or better.

coverage of concepts, classifications, and behaviors of costs.

Letter grade only (A-F). Not open for credit to students with credit in ACCT 310

UPPER DIVISION

300A-B. Intermediate Accounting (4-4)

Prerequisites: ACCT 300A: ACCT 201 with a grade of "C" or better. ACCT 300B: ACCT 300A with a grade of "C" or better.

Accounting theory including recording, valuation, and statement presentation of assets, liabilities, capital, and earnings. Funds statements, financial analysis, compound interest theory, and applications.

Letter grade only (A-F). Laboratory and/or class computer applications required.

320. Cost Accounting (4)

Prerequisite: ACCT 201 with a grade of "C" or better.

Theory and practice of cost accounting. Managerial use of cost accounting data for planning, controlling and decision making. Emphasis on cost accumulation and management information systems.

Letter grade only (A-F). Laboratory and/or class computer applications required.

351. Federal Tax Law (4)

Prerequisite: ACCT 201 with a grade of "C" or better.

Federal income taxation of partnerships, corporations, and s corporations. Personal and family tax planning and ethics.

Letter grade only (A-F). Laboratory and/or class computer applications required. Not open for credit to students with credit in ACCT 451.

352. Voluntary Income Tax Assistance (VITA) (1-4)

Prerequisite: ACCT 351, consent of instructor.

Federal and State income taxation of individuals. Students will provide free income tax filing for low income, elderly, disabled, and limited English proficient individuals after training and tests. Laboratory and/or class computer applications required.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters.

400. Advanced Accounting (4)

Prerequisites: ACCT 300B with grade of "C" or better

Specialized problems in partnership and corporate accounting. Consolidations, foreign currency transactions, and translations. Fund accounting and selected topics.

Letter grade only (A-F). Laboratory and/or class computer applications required.

465. International Accounting (3)

Prerequisites: ACCT 201, ACCT 202, IS 301.

Contemporary accounting theory and practice from an international perspective. Comparative accounting systems in various countries based on prevailing practice in the United States. Analysis of international accounting and auditing standards.

Letter grade only (A-F). Laboratory and/or class computer applications required.

470. Auditing (4)

Prerequisites: ACCT 300B, ACCT 320 with grades of "C" or better, IS 301.

Problems of verification, valuation and presentation of financial information in reports covered by opinion of independent public accountant. Major concepts of operational auditing and relationship to independent audit. Public accountant and internal auditor responsibilities. Rules of professional conduct.

Letter grade only (A-F). Laboratory and/or class computer applications required.

Graduate Programs

Master of Science in Accountancy

Refer to the College of Business Administration section of this *Catalog* for information on the Master of Science in Accountancy.

Accountancy Courses (ACCT)

LOWER DIVISION

201. Elementary Financial Accounting (3)

Introduction to financial accounting practice.

For business majors. Laboratory and/or class computer applications required.

202. Managerial Accounting (3)

Prerequisite: ACCT 201.

The use and reporting of accounting data for managerial planning, cost control, and decision making purposes. Includes broad

480. Accounting Systems and Data Processing (4)

Prerequisites: IS 300, ACCT 300B and ACCT 320 with grades of "C" or better.

Familiarization to accounting information systems development process. Analysis, design, development, and implementation of accounting information systems. Automation of accounting information systems studied through use and application of computers.

Letter grade only (A-F). Laboratory and/or class computer applications required.

493. Accounting Internships (3)

Prerequisite: ACCT 300A.

Real world accounting experience by working in public accounting or accounting divisions of private industry or governmental agencies. Class seminar analysis and evaluation of academic theory in terms of the real world environment.

Credit/No credit grading only.

495. Selected Topics in Accountancy (1-4)

Prerequisite: IS 301, consent of instructor.

Intensive study of current topics in accounting.

Letter grade only (A-F). May be repeated for a maximum of 8 units. Topics announced in the *Schedule of Classes*.

497. Directed Studies (I-4)

Prerequisites: IS 301, consent of instructor and department chair, on Dean's List, Accountancy GPA 3.0.

Advanced individual projects, study, and research in accounting.

Letter grade only (A-F).

ADVANCED STUDIES IN EDUCATION AND COUNSELING

Introduction

The Department of Advanced Studies in Education and Counseling offers graduate level course work in the following program areas: Educational Psychology, Educational Technology and Media Leadership, Social and Cultural Analysis of Education, Marriage and Family Therapy (MFT), School Counseling, School Psychology and Special Education/Education Specialist, as well as undergraduate service courses in life skills and other areas.

Students desiring information should contact the department office for referral to one of the faculty advisors.

All CED graduate level courses (500/600) are assumed to be letter grade only (A-F) unless stated otherwise.

Graduate Degrees

Master of Arts in Education with the following options:

- Educational Psychology
- Social and Cultural Analysis of Education
- Educational Technology and Media Leadership

Two Master of Science degrees are available:

- Special Education
- Counseling

MS in Counseling offers two options:

- Marriage and Family Therapy
- School Counseling

Educational Specialist Degree in School Psychology

Credentials

The department offers credentials in Pupil Personnel Services (School Counseling, School Psychology Internship), Education Specialist/Special Education (Mild/Moderate and Moderate/Severe) and Teacher Librarian Services.

Required credential courses must be completed with a grade of "C" or better. The minimum grade point average for successful progress in the credential programs of the

department is 3.0 on all units to be applied to the credential program. Students falling below 3.0 will be placed on probation. To maintain status in the credential program students must earn sufficient grade points to bring GPA back to 3.0 by the end of the regular semester following the semester in which the GPA fell below 3.0. Refer to this Catalog for policy.

Master of Arts in Education

Candidates for degrees in Master of Arts programs must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time. Program application deadlines may vary. Visit the College of Education website for program details, application guidelines and materials, and application deadlines (www.ced.csulb.edu). All university regulations governing the master's degree apply to college programs. Program requirements published in the university Catalog in effect during the year a candidate advances to candidacy are the requirements the candidate will be held to (catalog rights).

Option in Educational Psychology

The Option in Educational Psychology is a research-oriented Program designed for candidates to develop their understanding of learning and development, testing and assessment, research, and program evaluation in education. Upon completion of the program, candidates will be able to conduct qualitative and quantitative research; to make data-based decisions; to develop instruments that are psychometrically sound; and to perform formative and summative evaluation of educational programs. Visit the program website for program details (www.ced.csulb.edu/academic/masters.cfm).

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree in a behavioral science, education, or a related field.
2. Minimum 3.00 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 3.00 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.
4. Complete EDP 400 (or equivalent introduction to research course) and one of the following (or

equivalent): EDP 301 or EDP 302.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the Educational Psychology program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts.

Classified Admission

Successful applicants are admitted to the program with Classified admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete 6-9 units of core courses.
3. Resolve all incomplete grades.
4. Maintain a 3.0 grade point average in the prerequisites and in all core courses.
5. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

Master's Objective

The degree objective requires a total of 30 units (not including prerequisites) made up of a 24-unit core and a 6-unit "foundation" that culminates in either (a) a master's thesis (6 units) or (b) a written comprehensive examination plus electives (6 units) to meet the 30 unit minimum.

1. Degree Core (24 units):

A. Take all of the following:

EDP 419 Educational Statistics (3)

Prerequisite: Satisfactory completion of an undergraduate mathematics course suitable for general education math credit and, if required by the major, a lower-division statistics course.

EDP 519 Quantitative Educational Data Analysis I (3)

Prerequisites: EDP 419 or equivalent.

EDP 520 Quantitative Research Methods in Educ (3)

Prerequisites: For majors in MA in Educational Psychology: ED P 419 or equivalent. For other majors: ED P 400 or equivalent.

EDP 541 Sem in Educ Measurement & Assessment (3)

Prerequisites: EDP 419, EDP 519, and EDP 520 or equivalent.

EDP 595 Qualitative Research Methods in Educ (3)

Prerequisites: EDP 400 or equivalent.

EDP 596 Program Evaluation in Education (3)

Prerequisites: For majors in Educational Psychology: ED P 419 and 520, or equivalent. For other majors: ED P 400 and 520, or equivalent.

EDP 604 Seminar in Human Development (3)

Prerequisites: EDP 301 or EDP 302.

EDCI 533 Action Research Methods (3)

Prerequisite: Admission to the Curriculum and Instruction Master's Program or consent of instructor.

2. Culminating Experience

A) Thesis Option:

Complete all of the above 24 units of core courses

Complete 6 units of EDP 698 Thesis

B) Written Comprehensive Examination:

Complete all of the above 24 units of core courses

Complete 6 units of 500/600 level electives with

program advisor approval to reach 30-unit

minimum. For example:

EDCI 695 (3) Seminar in Curriculum and Instruction

EDP 536 (3) Collaborative Consultation

EDSP 564 (3) Special Education Assessment

Option in Educational Technology and Media Leadership

Serving the mission of enhancing learning through the use of technology, this program provides theoretical foundations and practical skills for individuals seeking career growth in educational, corporate, and public service settings. This option prepares academic leaders, information professionals, educators and trainers to access, evaluate, use, design, and effectively manage information and communication technologies for educational and training purposes. This program also prepares those planning to pursue doctoral degrees. Visit the program website for program details (<http://www.ced.csulb.edu/edtech>).

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university.
2. Minimum 3.00 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 3.00 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

A working knowledge of word processing, databases, spreadsheets, desktop publishing, presentation software, Internet searching and email usage is expected.

Application

Candidates must apply separately to both the university and the Master's program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the Educational Technology and Media Leadership Master's program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts.

Classified Admission

Successful applicants are admitted to the program with classified admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Maintain a 3.0 grade point average in all course work.
3. Resolve all incomplete grades.
4. Complete all prerequisites and at least 6 units of the program in residence.
5. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

Students must complete a minimum of 30 units of upper-division and graduate courses, of which at least 21 units must be at the 500/600 level taken at this university.

1. Program core courses (18 units):

Take all of the following:

ETEC 510 Foundations of Educational Technology (3)

Prerequisite: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

ETEC 523 Information and Digital Literacies (3)

Prerequisites: ETEC 444 or equivalent experience satisfying California Level I computer technology standard.

ETEC 525 Digital Culture and Society (3)

Prerequisites: None.

ETEC 530 Leadership in Technology and Media (3)

Prerequisites: ETEC 523 or consent of the instructor.

ETEC 551 Education and the Internet (3)

Prerequisites: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

ETEC 570 E-Learning Design and Development (3)

Prerequisite: ETEC 523 or consent of instructor.

2. Research methods (3 units):

Take one of the following:

EDP 520 Quantitative Research Methods in Education (3)

Prerequisites: For majors in MA in Educational Psychology: ED P 419 or equivalent. For other majors: ED P 400 or equivalent.

OR

EDP 595 Qualitative Research Methods in Education (3)

Prerequisites: EDP 400 or equivalent.

3. Electives (3-6 units): In consultation with program advisor, students will select 3-6 additional units to reach 30 unit minimum. Options include, but are not limited to, the following:
 - A. Advanced Technology: ETEC 535, ETEC 580;
 - B. Library and Information Science: ELIB 530A, ETEC 540;
 - C. Other courses, including those outside the College of Education (e.g., Business, Communications Studies), chosen in consultation with program advisor.
4. Exit requirement (3-6 units): Electronic portfolio with interview, and one of the following chosen in consultation with the program advisor:
 - A. ETEC 695 (3 units) plus pass a comprehensive examination
 - B. EDP 699 Project (6 units) with written Project Report
 - C. EDP 698 Thesis (6 units)

Option in Social and Cultural Analysis of Education

The Master of Arts Degree in Education, Option in Social and Cultural Analysis of Education (SCAE), focuses on the social and cultural analysis of education in urban and international contexts. Emphasizing critical approaches to education, including critical theory and critical pedagogy, the degree's interdisciplinary nature provides the intellectual rigor necessary for analyzing the relationship between education and society and effecting social and educational justice. SCAE courses examine education in its historical, social and political contexts, and may be applied to all levels of education: locally, nationally, and internationally. After completion of the program, graduates have a variety of career choices, not only in the educational realm, but also in the private sector and in nonprofit organizations. The program also serves as an ideal foundation for further academic study at the doctoral level. Visit the program website for program details www.ced.csulb.edu/asec/academic/social/.

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university.
2. Minimum 3.00 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 3.00 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu).

One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the Social and Cultural Analysis of Education program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts.

International students should consult the Center for International Education regarding additional application requirements.

Classified Admission

Successful applicants are admitted to the program with Classified admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete at least 6 units of the program, including SCAE 550 and 3 additional units.
3. Set academic, professional, and personal goals in consultation with advisor (facilitated through SCAE 550 and SCAE 551)
4. Maintain a 3.0 grade point average in all course work.
5. Resolve all incomplete grades.
6. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

All students must complete a minimum of thirty-three (33) units of upper- division and graduate level courses, of which twenty-one (21) units must be at the 500/600 level. At least twenty-four (24) units must be completed in residency. With consent of the student's advisor and after following procedures for course equivalencies, students may count up to six (6) units of previously taken graduate courses toward the degree.

1. Core courses (6 units)

Complete the following:

SCAE 550 Foundations of Social and Cultural Analysis of Education (3)
Prerequisites: None.

SCAE 551 Critical Pedagogies (3)
Prerequisites: None.

2. Emphasis Area (9 Units)

Take three courses in one area:

International Contexts: SCAE 566, SCAE 567, SCAE 568, SCAE 564

Urban Contexts: SCAE 560, SCAE 561, SCAE 562, SCAE 564

3. Second Emphasis Area (3 units)

Choose one course from the SCAE 566-568 series for international contexts or from the SCAE 560-562 series for urban contexts.

4. Electives (6 units)

Choose 2 courses in consultation with faculty advisor.

Students who choose the thesis or project exit option (see below) generally use the required two (2) semesters of EDP 698 or EDP 699 as their elective courses. Students may choose to take additional elective courses to supplement program requirements if they wish.

5. Research methods Courses (6 units)

Take the following course:

EDP 400 Introduction to Educational research (3)
Prerequisites: None.

Take one of the following courses: EDP 520, EDP 595

6. Capstone Course (3 units)

Take the following course:

SCAE 695 Social and Cultural Analysis of Education Capstone (3)
Prerequisites: None.

7. Culminating Experience. In consultation with faculty advisor, choose one of the following:

- Comprehensive examination
- Six units of EDP 698: Thesis
- Six units of EDP 699: Project

Master of Science in Counseling

Counselors serve valuable functions in fields of education, health and human services, and business. Their domains of practice include public and private educational institutions, medical facilities and allied health agencies, social service agencies and organizations, state and federal human service agencies and programs, correctional facilities, business and industry, and private practice. The program's philosophy is to introduce students to a variety of approaches to counseling, and to encourage the development of competencies within these approaches.

The program combines theory and practice utilizing on and off campus course work and field work assignments. Required courses are offered predominantly in the evening, but most field assignments require daytime participation during normal business hours defined by the off-campus sites.

Students coming from diverse experiential backgrounds are trained at the graduate level to be able to perform entry level duties expected by the counseling profession and its specialty areas. Students are prepared to assume future leadership positions in their area(s) of expertise after additional work experiences have been acquired in the field following graduation.

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university in a behavioral science, education, or related field.
2. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum

GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.

3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time. Program Option application deadlines may vary.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the selected Counseling program Option must be submitted to the College of Education Graduate Studies Office (ED1-7). You may only apply to one program per year. A program Option application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program Option application does not require a set of transcripts.

Classified Admission

Successful applicants are admitted to the program Option with Classified Admission status.

Advancement to Candidacy - Clear Admission

See individual Options below.

Option in Marriage and Family Therapy

Students in this Option will be prepared for licensed independent MFT practice to work in private practice, community-agency settings, government-court settings, hospitals, clinics, Employee Assistance Programs, and city-county-state agencies to provide counseling services for adults, children, families, and couples. Visit the program website for program details (www.ced.csulb.edu/mft).

Prerequisite

Take the following course:

- EDP 400 Intro to Educational Research (3)
(or equivalent)
Prerequisites: None.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete COUN 510, COUN 513, COUN 515, COUN 522, COUN 608, COUN 609.
3. Maintain a 3.0 grade point average in all course work.
4. Resolve all incomplete grades.

5. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

Take all of the following (58 units) and choose option A or B below:

COUN 508A Family Systems Applied to Aging and Lifespan Development (3)
Prerequisites: None.

COUN 508B Family Systems Methods (3)
Prerequisites: COUN 508A or consent of instructor.

COUN 510 Law and Ethics for Counselors (3)
Prerequisites: None.

COUN 511 Counseling the Alcohol/ Chemically Dependent Person (2)
Prerequisites: None.

COUN 512 Child and Spousal/Partner Abuse (1)
Prerequisites: None.

COUN 513 Introduction to Clinical Interviewing (3)
Prerequisites: None.

COUN 514 Medication and Counseling (2)
Prerequisites: COUN 513 or consent of instructor.

COUN 515 Counseling Theories (3)
Prerequisites: COUN 513.

COUN 522 Counseling Methods and Techniques (3)
Prerequisites/Corequisites: COUN 513, COUN 515.

COUN 543 Human Sexuality Counseling (3)
Prerequisites: COUN 515.

COUN 555 Cross-Cultural Counseling (3)
Prerequisites: COUN 510, COUN 513, COUN 515; COUN 506 for School Counseling Option, SDHE 538 for SDHE Option, or their equivalent upon approval of the instructor.

COUN 556 Counseling Children and Adolescents (3)
Prerequisites: COUN 515 and COUN 522, or consent of instructor.

COUN 557 Counseling Couples (3)
Prerequisites: COUN 515.

COUN 601 Trauma and Grief Counseling (3)
Prerequisites: COUN 556 or consent of instructor.

COUN 608 Seminar in Marriage and Family Therapy (3)
Prerequisites: COUN 510, COUN 511, COUN 512, COUN 513, COUN 515, COUN 522. Recommended: COUN 556.

COUN 609 MFT Practicum (4)
Prerequisites: COUN 510, COUN 511, COUN 512, COUN 513, COUN 515, COUN 522 and COUN 608.

COUN 638 Group Counseling (3)
Prerequisites: Admission to the MS in Counseling and/or PPS School Counseling Credential, or School Psychology Program, COUN 510, COUN 513, COUN 515 or equivalent upon approval of instructor.

COUN 643D Counseling Field Work: Marriage and Family Therapy (3)
Prerequisites: COUN 608, COUN 609.

COUN 644D Advanced Counseling Field Work: Marriage and Family Therapy (3)
Prerequisites: COUN 638, COUN 643D.

COUN 685 Community Mental Health Counseling (1)
Prerequisites: None

Take one of the following:
EDP 520, EDP 595

Select an Option:

Option A - Thesis (total units: 64):

Take EDP 698 Thesis (must enroll in 6 units)

Option B - Comprehensive Exam (total units: 64):

Take an additional 6 units of approved electives from

courses in the Counseling program.

Elective options include:

- COUN 507 Career and Academic Counseling in K-12 Settings (3)
- COUN 559 Play-Art Therapy (3)
- COUN 680 Family Trauma Treatment Seminar (3)
- COUN 681 Spirituality and Counseling (1)
- COUN 682 Gestalt Psychotherapy (2)
- COUN 683 Cognitive Behavioral Therapy (2)
- COUN 684 Advanced Clinical Case Formulation (1)
- COUN 692A Introduction Psychodrama (1)
- COUN 692B Advanced Psychodrama (1)

Option in School Counseling

The Master of Science in Counseling (School Counseling Option) and the Pupil Personnel Services School Counseling Credential Programs are designed to prepare counselors to work in elementary, middle, and high schools. Both programs support a comprehensive, developmental, and collaborative school counseling model. Based upon the American School Counselor Association's National Standards for K-12 School Counseling Programs and their 2003 National Model, our programs further support a balanced, holistic approach that considers the academic, career development, and personal/social needs of K-12 students. Graduates are expected to become proactive leaders who will advocate for their students and themselves, as counseling professionals working toward equity, achievement, and opportunity for all students.

Students entering the Master of Science in Counseling (School Option) program concurrently fulfill requirements for the Pupil Personnel Services School Counseling Credential and must apply to both programs. The Pupil Personnel Services School Counseling Credential (PPS/SC) is required by the California Commission on Teacher Credentialing (CTC) for persons employed by the public schools as school counselors (See Credential Programs).

Each year the School Counseling Programs Information and Application Packet is revised. Applicants must use the application developed specifically for the year for which they are applying.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete COUN 506, COUN 513, COUN 515, EDP 400.
3. Maintain a 3.0 grade point average in all course work.
4. Resolve all incomplete grades.
5. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

Take all of the following (51-57 units):

- COUN 506 Counseling in School Settings (3)
Prerequisites: Official admission to the School Counseling Program.
- COUN 507 Career/Acd Counseling in K-12 Settings (3)
Prerequisites: COUN 506.

COUN 510 Law and Ethics for Counselors (3)

Prerequisites: None.

COUN 513 Introduction to Clinical Interviewing (3)

Prerequisites: None.

COUN 515 Counseling Theories (3)

Prerequisites: COUN 513.

COUN 555 Cross-Cultural Counseling (3)

Prerequisites: COUN 510, COUN 513, COUN 515; COUN 506 for School Counseling Option, SDHE 538 for SDHE Option, or their equivalent upon approval of the instructor.

COUN 606 Current Issues in Professional School

Counseling (3)

Prerequisites: COUN 506.

COUN 607 School Counseling Practicum (3)

Prerequisites: COUN 506, COUN 515.

COUN 638 Group Counseling (3)

Prerequisites: Admission to the MS in Counseling and/or PPS School Counseling Credential, or School Psychology Program, COUN 510, COUN 513, COUN 515 or equivalent upon approval of instructor.

COUN 643A Counseling Field Work: School

Counseling (3)

Prerequisites: COUN 607, Certificate of Clearance, EDP 536 (must be taken concurrently with either COUN 643A or 644A.)

COUN 644A Advanced Counseling Field Work:

Advanced School Counseling (3)

Prerequisites: COUN 507, COUN 638, COUN 643A; EDP 536 (must be taken concurrently with either COUN 643A or COUN 644A); pass CBEST.

COUN 695C Integrative Seminar in Professional

School Counseling (3)

Prerequisites: Advancement to candidacy; COUN 507, COUN 555, COUN 638; EDP 596; and permission to enroll from School Counseling Program Coordinator.
Prerequisites/Corequisites: COUN 643A.

EDP 400 Intro to Educational Research (3) (or equivalent)

Prerequisites: None.

EDP 520 Quantitative Research Methods in Education (3)

Prerequisites: For majors in MA in Educational Psychology: ED P 419 or equivalent. For other majors: ED P 400 or equivalent.

EDP 536 Collaborative Consultation in the Schools (3)

Prerequisites/Corequisites: COUN 643A, 644A, EDP 642A, EDP 642B, or Field Placement in Special Education.

EDP 596 Program Evaluation in Education (3)

Prerequisites: EDP 400 and EDP 520, or equivalent.

EDP 604 Seminar in Human Development (3)

Prerequisites: EDP 301 or EDP 302, and EDP 400 or EDP 419.

EDP 698 Thesis (must take 6 units)

or comprehensive examination.

Prerequisites: Advancement to candidacy, EDP 519 or EDP 520 or EDP 595 or EDP 696, approval by director, department chair and associate dean.

Master of Science in Special Education

Candidates in this master's degree program work toward attaining leadership positions in public and private schools and agencies in the community that provide services for individuals with disabilities. The program is aimed at developing advanced skills and knowledge of current research in special education, and demonstration of the ability to engage in reflective inquiry. The program culminates with a thesis or comprehensive exam. The

program does not result in a credential to teach students with disabilities. Candidates who want to teach individuals with disabilities should refer to the Education Specialist Credential Program section. Candidates who are in the Preliminary Education Specialist Credential Program may be eligible to apply to the master's degree program the semester prior to completing coursework. Please contact your program advisor.

Visit the program website for program details (www.ced.csulb.edu/academic/masters.cfm).

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university, to include 24 upper-division units in 4 areas of study:
 - A. Human development:
EDP 301 or EDP 302 (or equivalent).
 - B. Statistics and measurement:
EDP 400 (or equivalent).
 - C. Individual differences:
EDSP 350 or EDSP 355A or EDSP 355B (or equivalent).
 - D. Special Education Assessment:
EDSP 564 (or equivalent).
2. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. Special education teaching credential, or equivalent experience.
4. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the Special Education program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts. Prospective candidates should attend an on-campus program orientation.

Conditional Admission

Successful applicants are admitted to the program with Conditional Admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Maintain a 3.0 grade point average in all course work.
3. Resolve all incomplete grades.
4. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Requirements

Students must complete a minimum of 30 units of upper-division and graduate courses with a minimum of 21 units at the 500/600-level taken at this university. Degree requirements include the following courses:

1. Foundation Courses:
Take one of the following:
 - EDP 520 Quantitative Research Methods in Education (3)
Prerequisites: For majors in MA in Educational Psychology: ED P 419 or equivalent. For other majors: ED P 400 or equivalent.
 - EDP 595 Qualitative Research Methods in Educ (3)
Prerequisites: EDP 400 or equivalent.Take both of the following:
 - EDSP 546 Induction in Special Education (3)
Prerequisites: None.
 - EDSP 550 Emerging Perspectives in Special Education (3)
Prerequisites: None.
2. Required Specialization Courses:
 - EDSP 535 Collaborative Partnerships and Effective Communication in School Settings (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of individualized Induction Plan, or consent of instructor.
 - EDSP 525 Advocacy and the Educational Context of Disability (3)
Prerequisite: Acceptance in the Master of Science in Special Education Program or consent of instructor.
 - EDSP 582 Research in Special Education: Assessment, Curriculum and Instruction (3)
Prerequisites: Acceptance in the Master of Science in Special Education program or by instructor consent and EDSP 520.
3. One of the following advanced methods courses:
 - EDSP 577 Instructional Methods and Strategies for Individuals with Mild/Moderate Disabilities (3)
Prerequisites: Full admittance to Level 1 Education Specialist Credential Program or ITEP, completion of ETEC 110 or equivalent, and EDSP 564.
 - EDSP 578 Instructional Methods and Strategies for Individuals with Moderate/Severe Disabilities (3)
Prerequisites: Full admittance to Level 1 Education Specialist Credential Program or ITEP, and completion of ETEC 110 or equivalent, and EDSP 564.
4. One of the following pathways with advisor consultation:
 - A. Comprehensive exam: EDSP 695S, Seminar (3 units) and written comprehensive exam;
 - B. Thesis: EDP 698, Thesis (must take 6 units).
5. Take 3-6 units of electives with advisor consultation to reach the 30-unit requirement.

Educational Specialist in School Psychology

The Educational Specialist in School Psychology degree is a 60-unit program. Graduates of the program are typically employed in PreK-12 education to provide direct and indirect psychological, behavioral and academic support to students. Candidates concurrently meet requirements for the Pupil Personnel Services – School Psychology (PPS/SP) credential required of persons employed as school psychologists in public schools. The program is approved by the National Association of School Psychologists (NASP) and accredited by the state Commission on Teacher Credentialing (CTC). Visit the program website for details (www.ced.csulb.edu).

Prerequisites to the Program

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university.
2. Minimum 3.00 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 3.00 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential, either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. Minimum combined score (Verbal and Quantitative) of 300 on the Graduate Record Exam (GRE) or a master's degree in a related field.
4. Completion of the following or an equivalent (may be taken after admission to the program, but must be taken prior to advancement to candidacy): ED P 405 and ED P 301 or ED P 302.

International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application to the Program

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time. The application for Graduate Admission to the University is available online through CSU Mentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the School Psychology program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded from the College of Education website (www.ced.csulb.edu/graduate/application-packets). The program application does not require a set of transcripts. After an initial paper screening, select applicants are invited for an interview with program faculty.

Classified Admission to the Program

Successful applicants are admitted to the program with Classified admission status.

Advancement to Candidacy (Clear Admission to the Program)

Candidates should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), candidates must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete ED P 301 or ED P 302, ED P 405, ED P 419, ED P 520, ED P 528, and ED P 603.
3. Resolve all incomplete grades.
4. Maintain a 3.0 grade point average in the prerequisites and in all core courses.
5. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program advisor.

Program Requirements

1. Completion of the following core courses (or equivalent): ED P 419, ED P 517, ED P 518, ED P 520, ED P 524A, ED P 524B, ED P 603.
2. Completion of the following core courses (no equivalents accepted): ED P 525B, ED P 527, ED P 528, ED P 536, ED P 560, ED P 579, ED P 641A, ED P 641B, ED P 642A, ED P 642B, ED P 643.
3. Completion of a minimum of 42 units of the 51 unit core program in residency at CSULB.
4. Completion of one of the three 9 unit Emphases: (a) Educational Psychology Emphasis – 9 units from the following: EDP 519, ED P 541, ED P 595, ED P 596, ED P 604, ED P 605; (b) Thesis Emphasis – 6 units of EDP 698 and ED P 519 (quantitative thesis) or EDP 595 (qualitative thesis); or (c) Related Field Emphasis – 9 units from master's degree in a related field.
5. Successful completion of a culminating experience (i.e., comprehensive exam or thesis).
6. All University regulations governing the master's degree apply to the Educational Specialist in School Psychology degree.
7. Candidates are annually evaluated for specific professional competencies. If a candidate is found insufficient on one or more of the competencies, the candidate may be required to complete additional course work, practica, fieldwork, and/or other activities before being approved for the PPS intern or full credential or the Ed.S. Degree.
8. Certificate of Clearance prior to enrolling in practica (ED P 641A & B).
9. Pass the CBEST prior to enrolling in practica (ED P 641A & B).
10. Completion of the National School Psychology Examination (ETS/PRAXIS II #10400) prior to completion of the program.

CREDENTIAL PROGRAMS

Program requirements subject to change to align with changes in CTC requirements.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu).

One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the selected credential program must be submitted to the College of Education Graduate Studies Office (ED1-7) or to the Teacher Preparation and Advising Center (ED1-67) for the Preliminary Specialist Education Credential. A credential program application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts. Deadlines for submitting an application for programs vary. Refer to the online directions for specific dates.

Pupil Personnel Services

The College of Education offers two of the three Pupil Personnel Services Credential programs issued by the California Commission on Teacher Credentialing (CTC): School Counseling and School Psychology.

School Psychology Credential: Please see Education Specialist in School Psych.

School Counseling Credential (code 802)

The Master of Science in Counseling (School Counseling Option) and the Pupil Personnel Services School Counseling Credential Programs are designed to prepare counselors to work in elementary, middle, and high schools. Both programs support a comprehensive, developmental, and collaborative school counseling model. Based upon the American School Counselor Association's National Standards for K-12 School Counseling Programs and their 2003 National Model, our programs further support a balanced, holistic approach that considers the academic, career development, and personal/social needs of K-12 students. Graduates are expected to become proactive leaders who will advocate for their students and themselves as counseling professionals working toward equity, achievement, and opportunity for all students.

The Pupil Personnel Services School Counseling Credential (PPS/SC) is required by the California Commission on Teacher Credentialing (CTC) for persons employed by the public schools as school counselors. Neither a Master's Degree nor a teaching credential is required for school counseling positions in the State of California. However, in keeping with national standards, students entering the CSULB Pupil Personnel Services School Counseling Credential Program need to earn a Master of Science in Counseling (School Counseling Option) concurrently with the credential, unless they already have a Master's Degree in Counseling from CSULB or another institution. Thus, applicants to the Pupil Personnel Services School Counseling Credential Program who lack a Master's Degree in Counseling must concurrently apply to the Master of Science in Counseling (School Counseling Option) Program to be considered.

Courses required for the Pupil Personnel Services School Counseling Credential are the same courses that are required for the Master of Science in Counseling (School Counseling Option). Thus, students seeking the Pupil Personnel Services School Counseling Credential are required to take all

coursework required for the Master of Science in Counseling (School Counseling Option).

Prerequisites

1. Baccalaureate degree from an accredited college or university with some coursework in the social sciences, behavioral sciences, or related fields.
2. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Each year the School Counseling Programs Information and Application Packet is revised. Applicants must use the application developed specifically for the year for which they are applying. Candidates are admitted for fall only, although admitted candidates may begin coursework during the preceding summer semester. Applications and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets.

CBEST Requirement

Admitted students must take the California Basic Educational Skills Test (CBEST) no later than the second available administration date following enrollment in the program.

Requirements

1. Completion of the Master of Science in Counseling (School Counseling Option) or an approved equivalent degree.
2. All of the following:
 - COUN 506 Counseling in School Settings (3)
Prerequisites: Official admission to the School Counseling Program.
 - COUN 507 Career/Acd Counseling in K-12 Settings (3)
Prerequisites: COUN 506.
 - COUN 510 Law and Ethics for Counselors (3)
Prerequisites: None.
 - COUN 513 Introduction to Clinical Interviewing (3)
Prerequisites: None.
 - COUN 515 Counseling Theories (3)
Prerequisites: COUN 513.
 - COUN 555 Cross-Cultural Counseling (3)
Prerequisites: COUN 510, COUN 513, COUN 515; SDHE 538, or their equivalent upon approval of the instructor.
 - COUN 606 Current Issues in Professional School Counseling (3)
Prerequisites: COUN 506.
 - COUN 607 School Counseling Practicum (3)
Prerequisites: COUN 506, COUN 515.
 - COUN 638 Group Counseling (3)
Prerequisites: Admission to the MS in Counseling, and/or PPS School Counseling Credential, or School Psychology Program, COUN 510, COUN 513, COUN 515 or equivalent upon approval of instructor.

COUN 643A Counseling Field Work: School

Counseling (3)

Prerequisites: COUN 607, Certificate of Clearance, EDP 536 (must be taken concurrently with either COUN 643A or COUN 644A.)

COUN 644A Advanced Counseling Field Work:

Advanced School Counseling (3)

Prerequisites: COUN 507, COUN 638, COUN 643A; EDP 536 (must be taken concurrently with either COUN 643A or 644A); pass CBEST.

COUN 695C Integrative Seminar in Professional School

Counseling (3)

Prerequisites: Advancement to candidacy; COUN 507, COUN 555, COUN 638; EDP 596; and permission to enroll from School Counseling Program Coordinator. Prerequisites/Corequisites: COUN 643A.

EDP 400 Intro to Educational Research (3)

(or equivalent)

Prerequisites: None.

EDP 520 Quantitative Research Methods in

Education (3)

Prerequisites: For majors in MA in Educational Psychology: ED P 419 or equivalent. For other majors: ED P 400 or equivalent.

EDP 536 Collaborative Consultation in the Schools (3)

Prerequisites/Corequisites: COUN 643A, COUN 644A, EDP 642A, EDP 642B, or Field Placement in Special Education.

EDP 596 Program Evaluation in Education (3)

Prerequisites: EDP 400 and EDP 520, or equivalent.

EDP 604 Seminar in Human Development (3)

Prerequisites: EDP 301 or EDP 302, and EDP 400 or EDP 419.

3. Fieldwork Prerequisites:

A. School Counseling Field Work (COUN 643A) (300 hrs. of approved activities, average of 20 hours per week)

(1) COUN 607

(2) Certificate of Clearance

B. Advanced School Counseling Field Work (COUN 644A) (300 hours of approved activities, average of 20 hours per week):

(1) COUN 507, COUN 638, COUN 643A; EDP 536 (or concurrent enrollment in 536)

(2) Pass CBEST

4. Certification of program completion by the faculty is required. The faculty may require students to complete additional course work, fieldwork, or demonstrate specific competencies before recommendation to the CTC for the PPS School Counseling credential.

School Psychology Internship

See Program Coordinator for details.

An internship performed under the supervision and with permission of the School Psychology faculty and the school district which hires the intern is required. In order to be recommended to a district as a possible intern, the student must have all program entry requirements and be approved by the School Psychology credential coordinator.

Special Education Credentials

The Education Specialist Credential Program prepares and recommends for certification special education teaching candidates in the CTC Education Specialist Credential categories of Mild/Moderate and Moderate/Severe. An Intern Option is also available in collaboration with certain school

districts. Please consult with the Teacher Preparation Advising Center for further information.

Preliminary – Education Specialist Credential and Intern Option: Mild/Moderate Disabilities (code 468) Moderate/Severe Disabilities (code 469)

Professional– Education Specialist Credential: Mild/Moderate Disabilities (code 468) Moderate/Severe Disabilities (code 469)

The Professional Level program is currently not admitting new students.

Preliminary – Education Specialist Credential Program: Mild/Moderate and Moderate/Severe

The Education Specialist Credential Program prepares candidates in the areas of Mild/Moderate and Moderate/Severe disabilities in a program approved by the California Commission on Teacher Credentialing. The program is designed so that candidates may be certified in both areas of authorization if they complete the corresponding methods course and two separate field experiences, i.e., one with students with mild and moderate disabilities and one with students with moderate and severe disabilities. Upon admission to the program, candidates must identify an area of authorization and indicate whether their goal is to become certified in one or both areas. An Intern Option is also available in partnership with selected school districts. Candidates should consult an advisor in the College of Education Teacher Preparation Advising Center (TPAC) for further information. An Education Specialist Credential can also be earned in conjunction with the Integrated Teacher Education Program (ITEP). Candidates should consult an advisor in the Liberal Studies Department for further information.

Application

Application for admission to the Education Specialist Credential Program (ESCP) should be made the semester before beginning the required courses. Students may apply to the program while taking prerequisite courses and may be admitted on a conditional basis pending their completion. Applications are available online at www.ced.csulb.edu/special-education. Applications should be submitted to the Teacher Preparation Advising Center.

Admission

1. Be admitted to the University as a post-baccalaureate (credential) student. (Note that application to the University is a separate process. Apply through www.csumentor.edu)
2. Submit an Education Specialist Credential Program application by the posted application deadline.
3. Attain a grade point average of at least 2.67 in all baccalaureate and post-baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units completed.
4. Provide documentation of a structured field experience of at least 45 hours in a K-12 general education classroom

- setting.
5. Submit two letters of recommendation from individuals who are well acquainted with your educational training, relevant teaching, and other related experiences.
 6. Submit a typed personal essay describing how your interest in special education began; the experiences, training and talents that you bring to the area of special education; your short-term and long-term career goals; and how the program's goals fit your personal goals.
 7. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years. (TB clearance must be valid through advanced field study (student teaching).)
 8. Submit proof of having taken the California Basic Educational Skills Test (CBEST). You must have attempted all three parts of the CBEST. Passage of the CBEST is required before you begin your advanced field study (student teaching).
 9. Pass an oral interview with program faculty.
 10. Demonstrate proficiency in reading and writing English by (1) attaining a minimum passing score of 37 on each of the reading and writing portions of the CBEST exam; and/or (2) through demonstration of appropriate writing skills on your personal essay and oral communication skills in the interview with program faculty.
 11. Demonstrate personal and professional character traits that satisfy the standards of the teaching profession and display a suitable aptitude for teaching students with special needs in public schools through the application documentation and interview with program faculty. (Candidates must continue to demonstrate appropriate personal and professional character traits through completion of the program.)
 12. Submit an application for a Certificate of Clearance to the California Commission on Teacher Credentialing (CTC) or provide evidence of recent fingerprint clearance. Submit a copy of the Certificate as demonstration of clearance or a copy of a certified mail receipt as demonstration of submitting an application.
 13. Submit proof of having demonstrated subject matter competence by passing all three sub-tests of the California Subject Exam for Teachers: Multiple Subjects (CSET: Multiple Subjects) or the appropriate single subject CSET exam in Math, Science, or Language Arts to meet the highly qualified teacher mandate. See the program advisor for more information.

Applicants will be informed by email of the decision of the program faculty regarding acceptance into the program. Upon acceptance, the candidate is required to meet with an assigned program faculty for advisement and may begin taking Preliminary program coursework in the advised sequence.

Application and Admission to the Intern Option

Interns are teachers of record employed by a local school district who earn their credential concurrent with meeting their classroom teaching responsibilities. Prior to applying for the Education Specialist Intern Program (ESIP), applicants must be admitted to the Education Specialist Program (see above).

In addition, Education Specialist Intern Program candidates must:

1. Be employed by a collaborating school district in a qualifying special education classroom or setting.
2. Submit an application for an intern credential (CTC Application 41-4) to the Commission on Teacher Credentialing through the college Credential Center.
3. Maintain continuous university matriculation for the duration of the internship.
4. Submit proof of passage of the California Basic Educational Skills Test (CBEST).
5. Meet the U.S. Constitution requirement (through POSC 100 or 391 or equivalent course at another institution or by exam).
6. Submit a valid Certificate of Clearance (fingerprint background check).
7. Complete all Education Specialist Program prerequisites.
8. Submit one copy of official sealed transcripts from all universities/colleges attended indicating a grade point average of at least 2.67 in all baccalaureate and post-baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units completed.

Requirements for the ESCP and ESIP

To be considered for full admission in the ESCP and ESIP programs, candidates must complete all prerequisite courses (13 units):

Take one of the following:

EDP 301, EDP 302, HDEV 307, PSY 361

Take all of the following:

EDSP 350 Introduction to Teaching the Exceptional Individual (3)

Prerequisites: None.

EDSP 454 Supporting the Academic and Language Development of English Learners (3)

Prerequisites: Consent of Instructor.

EDP 405 Positive Strategies for Classroom Management (3)

Prerequisites: None.

ETEC 110 Introduction to Computers as Tools (1)

Prerequisites: None.

Fully admitted candidates complete core courses (33 units)

Take all of the following:

EDSP 480 Foundations of Inclusive Education in a Diverse Society: Philosophical and Historical Perspectives and Legal Mandates (3)

Prerequisites: Admission to Education Specialist Credential Program.

EDSP 534 Collaboration and Transition in Special Education (3)

Prerequisites: Full admittance to Education Specialist Credential Program or ITEP.

EDSP 564 Assessment and Evaluation of Students with Disabilities (3)

Prerequisites: Admission to the Education Specialist Credential Program or consent of instructor.

EDP 560 Functional Behavior Assessment and Positive Behavior Support (3)

Prerequisites: EDP 405.

EDEL 462 Teaching and Learning Mathematics,

K-8 (3)

Prerequisites: Admission to the Multiple Subject Credential Program.

Take one of the following:

EDEL 452, EDSE 457

Take one of the following:

EDSP 577, EDSP 578

Core courses include the advanced fieldwork courses:

Take one of the following pairs of courses:

EDSP 587A and EDSP 587B

or

EDSP 588A and EDSP 588B

Candidates for dual authorization must complete the methods course and 6 units of student teaching in the second authorization.

The candidate's overall grade point average must continue to meet the program admission standard. A 3.0 grade point average in the core courses is required to advance to fieldwork (student teaching).

Candidates in the ESIP program must identify and work closely with a site-based support team comprised of their site-support coach, principal, and other school and district support personnel throughout the program.

Advanced Fieldwork (Student Teaching) Requirements for the ESCP and ESIP

The final phase of the ESCP and ESIP programs is advanced fieldwork (student teaching). Candidates are required to student teach for 4 days a week for the length of the semesters that they are enrolled in advanced field study courses. ESCP candidates student teach as a traditional student teacher under the direction of a master teacher. ESIP candidates use their own K-12 special education classroom setting in which they are the teacher of record as their advanced fieldwork placement.

A separate application is required for advanced fieldwork (student teaching). Applications for advanced fieldwork must be submitted by the posted deadlines during the semester prior to which the candidate wishes to student teach. Application packets are distributed at program Fieldwork Information meetings, which are announced in program courses and posted on the program website. Upon notification of acceptance to advanced field study, candidates register for Advanced Field Study: EDSP 587 A & B or EDSP 588 A & B.

To be eligible for advanced fieldwork (student teaching), candidates must:

1. Pass CBEST.
2. Complete all program prerequisite and core courses with a 3.0 grade point average.
3. Have on file a negative tuberculosis skin test or chest X-ray valid through completion of student teaching.
4. Meet the U.S. Constitution requirement (through POSC 100 or POSC 391 or equivalent course at another institution or by exam).
5. Submit proof of character clearance (fingerprint background check).
6. Submit a student teaching application by the appropriate deadline: November 1 for spring student teaching; April 1 for fall student teaching.

Applying for the Preliminary Education Specialist Credential

To be eligible for the Preliminary Education Specialist Credential, candidates must successfully meet all program requirements, including passing student teaching. They must also pass the Reading Instruction Competency Assessment (RICA). Candidates may take the RICA at any time prior to applying for the credential. RICA information booklets are available in the Teacher Preparation Advising Center (ED1-67). Candidates apply for the credential through the college Credential Center.

Petition Process

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the program appeals committee. The committee reviews the written statement and supporting evidence. After the review, the committee renders its final decision. Examples of petitionable policies are: the minimum grade point average required for program admission, waiving the deadline for submission of a test score, waiving an application deadline, completing all program courses prior to student teaching, readmission to student teaching, and course equivalencies. Consult the program coordinator for items not listed here. Students follow university procedures (available elsewhere in this Catalog) to appeal a course final grade.

Professional –

Education Specialist Credential:

Mild/Moderate and Moderate/Severe

This program is currently being revised. Please contact the program coordinator for advisement. Teacher Librarian Services Credential (code 700)

Teacher Librarian Services Credential (code 700)

The 27-unit credential program in Teacher Librarian Services prepares students for service as a teacher librarian, grades PK-adult, in the State of California. The coursework can also be applied to the Masters of Arts in Education, Option in Educational Technology and Media Leadership.

Prerequisites

1. Baccalaureate degree from an accredited college or university.
2. Minimum 3.0 overall grade point average in the last 60 semester (90 quarter) units of coursework.
3. Valid California teaching credential.
4. Passage of California Basic Educational Skills Test (CBEST) or equivalent.
5. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. Candidates may bring in a maximum of 6 units through extension courses. A working knowledge of word processing, databases, spreadsheets, desktop publishing, presentation software, Internet searching and email usage is expected.

Requirements

1. Complete the following core courses (24 units):

ETEC 510 Foundations of Educational Technology and Media (3)

Prerequisite: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

ETEC 523 Information and Digital Literacies (3)

Prerequisites: ETEC 444 or equivalent experience satisfying California Level I computer technology standard.

ETEC 525 Digital Culture and Society (3)

Prerequisites: None

ETEC 530 Leadership in Technology and Media (3)

Prerequisites: ETEC 523, or consent of the instructor.

ETEC 540 Organization of Resources (3)

Prerequisites: None

ETEC 551 Education and the Internet (3)

Prerequisites: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

ETEC 570 E-Learning Design and Development (3)

Prerequisite: ETEC 523 or consent of instructor.

ELIB 530A Library Media Materials for Elementary

Grades (K-5) (3)

Prerequisites: None

2. Field Experience (3 units):

ETEC 580 Field Experience (3)

Prerequisites: ETEC 523 and either ETEC 530, EDP 520 or EDP 595.

Counseling Courses (COUN)

LOWER DIVISION

191. Career and Personal Explorations (3)

Prerequisite or Corequisite: Any foundation (G.E. Category A1, A2, A3, or B2) class.

Designed for, but not limited to, entering and undeclared students. Exploration of issues, topics and tasks related to personal, educational and career choices. Includes educational and career planning, exploration of personal characteristics and individual differences, life and work values and interests, decision making, goal setting, and job/career search preparation.

Not open for credit to students with credit in EDP 191 or EDP 360/COUN 360.

UPPER DIVISION

300. The Fundamentals of Peer Advising and Counseling (3)

Introduction to theories of student development, academic advising, multiculturalism, and counseling. Basic skill development and knowledge of policies and procedures to provide effective peer advising. Includes a service-learning component that places students in advising and other peer support services internships on campus.

Letter grade only (A-F).

360. Life and Career Decisions (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Conducting in-depth self analysis designed to facilitate career and personal choices. How education and personal life experiences influence career and life decisions. Career development theories and assessments with applications to student career development and choices. Sound decision-making and goal-setting processes.

Not open for credit to students with credit in EDP 360. Letter grade only (A-F).

430. Orientation to Counseling (3)

A survey of the specialties, functions, roles, models and activities commonly employed in the counseling profession. The course will also include practice in rudimentary active listening skills, a survey of historical and conceptual frameworks, voluntary participation in community-educational services, and developing a professional orientation perspective, and exploring the special needs of clients and other professional considerations.

Not open for credit to students with credit in EDP 430.

GRADUATE LEVEL

506. Counseling in School Settings (3)

Prerequisite: Official admission to the School Counseling Program.

Overview of issues related to school counseling and the role of the professional school counselor. Includes a practicum component designed to develop counseling skills and promote helping relationships. Field experiences are required. School Counseling students are expected to take this course in their first semester in the program.

Not open for credit to students with credit in EDP 506. Letter grade only (A-F).

507. Career and Academic Counseling in K-12 Settings (3)

Prerequisite: COUN 506.

Emphasis on career development theory and practice, the world of work, post-school planning, and academic counseling in K-12 settings. Application of theory through culturally sensitive interventions.

Letter grade only (A-F).

508A. Family Systems Applied to Aging and Lifespan Development (3)

Family systems assessment and counseling applied to lifespan development theories.

Not open for credit to students with credit in EDP 508A. Letter grade only (A-F).

508B. Family Systems Methods (3)

Prerequisite: COUN 508A or consent of instructor.

The application and practice of family systems therapeutic methods.

Not open for credit to students with credit in EDP 508B. Letter grade only (A-F).

510. Law and Ethics for Counselors (3)

An introduction to professional identity as counselors and examination of laws and ethics related to the counseling profession

and its specializations (MFT, career/vocational rehabilitation, student development and administration, and school counseling).

Not open for credit to students with credit in EDP 510. Letter grade only (A-F).

511. Counseling the Alcohol/ Chemically Dependent Person (2)

Survey of the theories, etiologies, and major treatment approaches for counseling and preventing alcohol and chemical dependency, and the role of family and community resources, referrals, and prevention programs.

Not open for credit to students with credit in EDP 511. Letter grade only (A-F).

512. Child and Spousal/Partner Abuse (1)

Child and spousal/partner abuse assessment indicators, laws, community resources, mandatory reporting requirements for child abuse and spousal/partner violence, assessment, detection, and interventions for the child, family, spouse/partner, and the offender. Designed for licensure requirements for mental health practitioners and graduate students.

Not open for credit to students with credit in EDP 512. Letter grade only (A-F).

513. Introduction to Clinical Interviewing (3)

A foundation course that provides training in core interviewing skills including active listening, case exploration, goal setting, conducting a mental status exam, and assessing for self-harm.

Not open for credit to students with credit in EDP 513. Letter grade only (A-F)

514. Medication and Counseling (2)

Prerequisites: COUN 513 or consent of instructor.

An examination of the categories of psychotropic medications: antidepressants including antipsychotics, anxiolytics, and mood stabilizers. Major side-effects of these medications and a brief overview of their medical management are reviewed. Herbal alternatives to pharmacologic agents will be explored. Identification of information resources for counselors and clients.

Not open for credit to students with credit in EDP 514. Letter grade only (A-F).

515. Counseling Theories (3)

Prerequisite: COUN 513.

Major counseling theories examined and the competencies of each developed for use in helping relationships.

Not open for credit to students with credit in EDP 515. Letter grade only (A-F).

522. Counseling Methods and Techniques (3)

Prerequisites/Corequisites: COUN 513, COUN 515.

An applied course which provides practice in the methods and techniques of the major theoretical approaches employed in counseling.

Not open for credit to students with credit in EDP 522. Letter grade only (A-F).

543. Human Sexuality Counseling (3)

Prerequisite: COUN 515.

Training in human sexuality education, counseling, and therapy. An examination of personal attitudes and values. The study of the physiological, psychological, and sociocultural variables associated with sexual behavior, sexual identity, and sexual disorders. For MFT certification only.

Not open for credit to students with credit in EDP 543. Letter grade only (A-F).

555. Cross-Cultural Counseling (3)

Prerequisites: COUN 510, COUN 513, COUN 515; COUN 506 for School Counseling Option, SDHE 538 for SDHE Option, or their equivalent upon approval of the instructor.

Study of U.S. and international cultural factors, perspectives and personal and societal values that affect the counseling relationship, methods, and outcomes. These factors include historical, geographical, socio-psychological, educational and counseling factors from various cultural groups that students will encounter in their professional settings.

Not open for credit to students with credit in EDP 555. Letter grade only (A-F).

556. Counseling Children and Adolescents (3)

Prerequisites: COUN 515 and COUN 522, or consent of instructor.

Theories and application of the methods and techniques of the major theoretical approaches employed in counseling children and adolescents.

Not open for credit to students with credit in EDP 556.

557. Counseling Couples (3)

Prerequisites: COUN 515.

Couple development theories, issues, and practices pertaining to counseling couples.

Not open for credit to students with credit in EDP 557. Letter grade only (A-F).

559. Play and Art Therapy for Children/Adolescents (3)

Prerequisites: COUN 508A and COUN 556 or consent of instructor.

Experiential survey and the practice of play and art techniques employed in therapy as applied to theoretical orientations and problematic behavior.

Not open for credit to students with credit in EDP 559. Letter grade only (A-F).

601. Trauma and Grief Counseling (3)

Prerequisites: COUN 556 or consent of instructor. Required course for students in the Marriage and Family Therapy Program and a recommended course for graduate students in the other Counseling Programs.

Overview of developmentally informed models of trauma response, identifying and assessing problematic responses to trauma and loss, and guidelines for working with traumatized children, adolescents and families in various settings. Current treatment approaches of forms of post-traumatic distress and traumatic bereavement.

Not open for credit to students with credit in EDP 601. Letter grade only (A-F).

606. Current Issues in Professional School Counseling (3)

Prerequisite: COUN 506.

A variety of current issues in school counseling presented in learning modules. Topics include assessment, education of students with disabilities, school violence prevention, crisis counseling, comprehensive counseling plans, and classroom management.

Letter grading only (A-F).

607. School Counseling Practicum (3)

Prerequisites: COUN 506, COUN 515.

Practical application of counseling theory to work with children and adolescents. Supervised counseling, consultation, and case management experiences conducted in the educational psychology/counseling clinic and in school settings.

Not open for credit to students with credit in EDP 607. Letter grade only (A-F). Course fee may be required.

608. Seminar in Marriage and Family Therapy (3)

Prerequisites: COUN 510, COUN 511, COUN 512, COUN 513, COUN 515, COUN 522. Recommended: COUN 556.

Theories, research, treatment planning, and therapeutic methods of MFT counseling utilizing major psychotherapeutic approaches regarding assessment, diagnosis, and treatment of various mental health problems.

Not open for credit to students with credit in EDP 608. Letter grade only (A-F).

609. MFT Practicum (4)

Prerequisites: COUN 510, COUN 511, COUN 512, COUN 513, COUN 515, COUN 522, and COUN 608.

Practicum application submitted no later than March 1 for the following fall semester, and October 1 for the spring semester.

MFT students will provide counseling services to clients at the CED Community Clinic, receive live supervision from MFT faculty members, and participate in a practicum program at an approved off-campus agency.

Not open for credit to students with credit in EDP 609. Letter grade only (A-F). Course fee may be required.

638. Group Counseling (3)

Prerequisites: Admission to the MS in Counseling, and/or PPS School Counseling Credential, or School Psychology Program, COUN 510, COUN 513, COUN 515 or equivalent upon approval of instructor.

Review of theories and applications of small group processes in guidance and counseling. Laboratory practice is provided and issues and roles relating to the selection of participants, leadership, interaction methods, problem-solving, and evaluation are examined. Students will learn how to proficiently facilitate the group process and address multicultural issues in group settings.

Not open for credit to students with credit in EDP 638. Letter grade only (A-F).

643A,D. Counseling Field Work (3)

A. School Counseling (3)

Prerequisites: COUN 607, Certificate of Clearance, EDP 536 (must be taken concurrently with either COUN 643A or COUN 644A).

Practical experiences in counseling and guidance activities under supervision in approved school settings (total of 300 hours). Emphasis on personal and professional development as school counselors.

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 643A. Course fee may be required.

D. Marriage and Family Therapy (3)

Prerequisites: COUN 608, COUN 609.

Practical required experiences of 150 hours in counseling activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following summer or fall semester and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 643D. Course fee may be required.

644A.D. Advanced Counseling Field Work (3)

A. Advanced School Counseling (3)

Prerequisites: COUN 507 (or EDP 530 or EDP 531 for students who have advanced to candidacy prior to Fall 2005), COUN 638, COUN 643A; EDP 536 (must be taken concurrently with either COUN 643A or COUN 644A); pass CBEST.

Continued practical experiences in counseling and guidance activities under supervision in approved school settings (total of 300 hours). Emphasis on personal and professional development as school counselors.

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 644A. Course fee may be required.

D. Marriage and Family Therapy (3)

Prerequisites: COUN 638, COUN 643D.

Continued practical required experiences of 150 hours in counseling activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following summer or fall semester and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 644D. Course fee may be required.

680. Family Trauma Treatment Seminar (3)

Hands-on training in evidence-based treatment for families contending with trauma or loss. Readings, lectures, and in-class demonstrations and practice will focus on family assessment, goal-setting, narrative sharing, and family training on resilience-enhancing skills.

Letter grade only (A-F).

681. Spirituality and Counseling (1)

Experiential seminar on spiritual issues in counseling with an emphasis on helping future counselors increase their awareness of spiritual diversity to help them become better counselors.

Letter grade only (A-F).

682. Gestalt Psychotherapy (2)

Prerequisite: COUN 515 or consent of instructor.

This seminar is designed to be an experiential learning process of Gestalt Therapy. Readings, lectures, in-class demonstrations, and practice will provide grounding in Gestalt theory, assessment, techniques, and treatment planning.

Letter grade only (A-F).

683. Cognitive Behavioral Therapy (2)

Prerequisite: COUN 515 or consent of instructor.

Students will be trained on conducting evidence-based treatment for individuals utilizing Cognitive Behavioral Therapy (CBT). Readings, lectures, in-class demonstrations, and practice will provide grounding in CBT theory, assessment, techniques, and treatment planning.

Letter grade only (A-F).

684. Advanced Clinical Case Formulation Seminar (1)

Advanced seminar on clinical case formulation with an emphasis on helping counselors in practicum and fieldwork improve their understanding of underlying issues that impact clients.

Letter grade only (A-F).

685. Community Mental Health Counseling (1)

Advanced seminar on community mental health counseling with an emphasis on helping counselors gain skills required in contemporary community mental health settings, including recovery-oriented treatment for severe mental illness, case management, client advocacy, and local community service resources.

Letter grade only (A-F).

690. Seminar in School Counseling Supervision: Theory and Practice (3)

Prerequisite: Consent of instructor.

Focus on models and methods of school counseling supervision. Designed to prepare school counselors to be effective site supervisors for school counseling field work students.

Open to advanced students in the School Counseling Program as well as practicing school counselors. Letter grade only (A-F).

692. Selected Topics in Counseling (1-6)

Advanced study of special topics in the field of counseling. Continuing education and non-degree students may enroll for units subject to suitable changes in course content.

May be repeated to a maximum of 12 units with different topics, which includes previously earned credit in EDP 692. Topics announced in the CSULB or CCPE *Schedule of Classes*.

A. Introduction to Psychodrama

B. Advanced Psychodrama

Prerequisites: COUN 692A or consent of instructor.

695C. Integrative Seminar in Professional School Counseling (3)

Prerequisites: Advancement to candidacy; COUN 507 (or EDP 530 or EDP 531 for students who have advanced to candidacy prior to Fall 2005), COUN 555, COUN 638; EDP 596; and permission to enroll from School Counseling Program Coordinator. Prerequisite/Corequisite: COUN 643A.

Designed to support integration and synthesis of knowledge, skills, and attitudes learned and developed during the school counseling program, and to facilitate the transition from graduate student to counseling professional and lifelong learner.

Not open for credit to students with credit in EDP 695C. Letter grade only (A-F).

Educational Psychology Courses (EDP)

UPPER DIVISION

301. Child Development and Learning: A Cross-Cultural Perspective (3)

Explores the physical, cognitive, communicative/linguistic, and socio-emotional development of the child from the prenatal through adolescent period across diverse cultures with an emphasis on the learning process and developmentally appropriate teaching practices.

302. Early and Late Adolescent Development and Learning: A Cross-Cultural Perspective (3)

Explores social, emotional, cognitive, and physical development in early and late adolescence across cultures with an emphasis on the learning process and developmentally appropriate teaching practices.

305. Educational Psychology (3)

Overview of Educational Psychology. Analysis of theories of learning as they relate to intellectual, social, and personal development of diverse learners. Emphasis on learning, motivation, and development with attention to educational practices that foster critical thinking, problem solving, and performance skills..

373. Nonverbal Communication: Interaction of Mind and Body (3)

Prerequisites: GE Foundation, one or more Exploration course(s), and upper-division standing.

History and theories of the development of mind/body integration. Enhancement of personal and interpersonal relations through lectures, discussion, films, and movement experiences. Analysis and synthesis of the interdependence of the psychological and physical processes in nonverbal communication.

Same course as DANC 373. Not open for credit to students with credit in DANC 373.

390. Selected Topics in Education (1-3)

Orientation to and exploration of topics relevant to the college student as a learner-scholar and decision-maker within the changing campus, community and societal milieu. Lectures, discussion, field study.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

400. Introduction to Educational Research (3)

Explores a wide range of research methods used in education. Topics include traditions, theories, approaches, and applications of qualitative and quantitative research methods.

Letter grade only (A-F). May not be used as a substitute for EDP 419.

405. Positive Strategies for Classroom Management (3)

Models and strategies of classroom management to promote student prosocial behaviors and academic growth. Includes information regarding school-wide models of positive behavior support and classroom interventions to support positive behaviors in both general and special education programs.

Letter grade only (A-F). Course fee may be required.

419. Educational Statistics (3)

Prerequisite: Satisfactory completion of an undergraduate mathematics course suitable for general education math credit and, if required by the major, a lower-division statistics course.

Introduction to descriptive and inferential statistical methods with application to educational research problems. Emphasis on understanding statistical concepts, computation skills, and the use of computer programs in data analysis.

432. Social and Cultural Diversity in Educational Settings (3)

Examination of personal attitudes toward distinct groups of people. Study of historical and structural factors that either promote or diminish equal human worth and either empower or oppress people based on class, race/ethnicity, gender, sexual orientation, ability, language, or religion.

485. Theoretical Foundations of Language Minority Education (3)

Introduction to theoretical foundations of language minority instruction. Background on the historical and political context of the development of educational language policies. Models of bilingual and English language development education.

Letter grade only (A-F). Not open for credit to students with credit in LING 485.

490. Selected Topics in Educational Psychology (1-6)

Prerequisite: Consent of instructor.

Topics of current interest in educational psychology selected for intensive study.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

492. Internships in the Human Services (3)

Prerequisite: Consent of instructor.

Students are placed in agencies and organizations to engage in volunteer or paid work in human services/mental health. The required 15 hour seminar will focus on personal values, interpersonal communications skills, critical thinking, and problem solving.

Development of knowledge and skills transferable to future careers will be stressed.

A minimum of 120 hours field experience is required for the semester.

497. Independent Study (1-3)

Prerequisites: Consent of instructor and department chair.

Independent study undertaken under the supervision of a faculty member.

May be repeated to a maximum of 6 units, with no more than 3 units applicable to credential or major requirement.

GRADUATE LEVEL

517. Counseling and Mental Health in Schools (3)

Prerequisites: Admission to School Psychology program; concurrent enrollment in EDP 641A or EDP 641B; or consent of instructor.

Theory, research, and techniques of counseling and mental health service delivery used in individual and group counseling.

Not open for credit to students with credit in EDP 631. Letter grade only (A-F). Course fee may be required.

518. School Crisis Response (3)

Prerequisite: EDP 528 or consent of instructor.

Students will learn about the impact of school crises on children and school communities, and how to prepare and respond to these events, including trauma screening and triage, threat assessment, suicide prevention, and dealing with death at schools.

Letter grade only (A-F).

519. Quantitative Educational Data Analysis I (3)

Prerequisites: EDP 419 or equivalent. An advanced educational univariate data analysis course. Hypothesis testing using analysis of variance, analysis of covariance, multiple regression, and path analysis.

Letter grade only (A-F).

520. Quantitative Research Methods in Education (3)

Prerequisites: For majors in MA in Educational Psychology: EDP 419 or equivalent. For other majors: EDP 400 or equivalent.

Examination and application of quantitative educational research methodology including research designs, sampling methods, inferential statistics and hypothesis testing, and the structure and content of a research proposal.

Letter grade only (A-F).

524A. Psychoeducational Assessment of Diverse Student Populations (3)

Prerequisite/Corequisite: EDP 528; Corequisites: EDP 524B and admittance to the School Psychology Program.

Theories of cognition and their implications for understanding learning, development, and diagnosis of disability in diverse student populations. Emphasis is on the psychometric and socio-cultural strengths and limitations of published, norm-referenced tests of cognitive and academic functioning.

Letter grade only (A-F).

524B. Psychoeducational Assessment: Clinical Applications (2)

Prerequisite/Corequisite: EDP 528; Corequisites: EDP 524A and admittance to the School Psychology Program.

Practice in administration and interpretation of individually administered cognitive tests, and tests of psychological processing and achievement. Students will practice administering tests to adults and children, be observed for proficiency, and learn to apply these results to making instructional placement and eligibility decisions.

Letter grade only (A-F).

525B. Psychoeducational Assessment of Culturally and Linguistically Diverse Students: Clinical Applications (2)

Prerequisites: EDP 524A, EDP 524B.

Application of psychoeducational assessment practices within a clinical setting for culturally and linguistically diverse (CLD) students. Advanced training in selection, administration and interpretation of individually administered cognitive tests, and tests of psychological processing and achievement for CLD students.

Letter grade only (A-F).

527. Advanced Assessment for Intervention (3)

Prerequisites: EDP 525B, EDP 579. Corequisite: EDP 642A.

Advanced assessment and intervention with children ages 3-5, secondary students, and students with moderate to severe disabilities. Topics include identifying useful and appropriate assessments, developing and implementing empirically-validated interventions, and issues and challenges in serving these specific populations.

Letter grade only (A-F). Course fee may be required.

528. Introduction to School Psychology (3)

Prerequisite: Admission to the School Psychology program.

Introduction to the practice of school psychology including history of the field, school psychologist roles and functions, and common service delivery models. Also included are federal and state laws, ethical standards, and literature and research informing the practice of school psychology.

Letter grade only (A-F). Course fee may be required.

536. Collaborative Consultation in the Schools (3)

Prerequisites/Corequisites: COUN 643A, COUN 644A, EDP 642A, EDP 642B, or Field Placement in Special Education.

Theory and practice of collaborative consultation in the schools. Models, roles and skills will be discussed, rehearsed during in-class simulations, and practiced in field settings. Field experience required.

Letter grade only (A-F). Course fee may be required.

541. Seminar in Educational Measurement and Assessment (3)

Prerequisites: EDP 419, EDP 519, and EDP 520, or equivalent. Advanced studies examining the reliability and validity of test scores, item response theory, and other statistical approaches for the improvement of educational testing. Practical application of administration and interpretation of assessment outcomes.

Letter grade only (A-F).

560. Functional Behavior Assessment and Positive Behavior Support (3)

Prerequisite: EDP 405.

Designing, implementing, monitoring, and evaluating comprehensive behavior support plans based on functional behavior assessment data. Developmental and mental health factors impacting the behavior of students with autism, emotional disturbance, and severe cognitive disabilities are included.

Letter grade only (A-F). Course fee may be required.

571. Advanced Approaches to Teaching Special Populations in General Education Settings (3)

Prerequisite: Hold Preliminary Multiple or Single Subject Credential, or equivalent, or consent of instructor.

Issues in teaching special populations in elementary and secondary schools, including students who are gifted, at-risk, and have disabilities. Emphasis on establishing inclusive climates; federal, state, and local regulations; assessment; instructional strategies and modifications; collaborative school structure and classroom management.

Meets state Professional Clear credential requirement. Letter grade only (A-F).

573. Intercultural Communication in Education (3)

Introduction to the facets, parameters, and techniques of

intercultural communication and its relationship to functioning in a multicultural educational environment. Situates intercultural communication within the broader social, cultural and historical context and within the study of culture itself.

Letter grade only (A-F).

579. Curriculum-Based Assessments and Academic Interventions (4)

Prerequisites: Admission to the school psychology program and EDP 524A and EDP 524B.

Evidence-based interventions for diverse learners, including students with disabilities, elementary and secondary students, and English Language Learners. Theories and application of curriculum-based assessments and data-based intervention development, implementation and evaluation.

Letter grade only (A-F). (3 hours seminar, 3 hours laboratory)

590. Selected Topics in Educational Psychology (1-3)

Prerequisite: Consent of instructor.

Advanced study of special topics in education and counseling. A student may enroll for 1-3 units to a maximum of 6 units for certificate and degree purposes, subject to suitable changes in course content. Non-degree and non-certificate students may enroll for additional units subject to suitable change in course content.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters or different topics in the same semester. Topics announced in the *Schedule of Classes*.

595. Qualitative Research Methods in Education (3)

Prerequisites: EDP 400 or equivalent.

Examination, analysis, and application of qualitative research methodology including various types of methods, designs, data collection strategies, data analysis and presentation of findings techniques; qualitative research study construction.

Letter grade only (A-F).

596. Program Evaluation in Education (3)

Prerequisites: For majors in Educational Psychology: EDP 419 and EDP 520, or equivalent. For other majors: EDP 400 and EDP 520, or equivalent.

Identifying and comparing various approaches to program evaluation in educational settings including needs assessments; selecting evaluation questions and criteria; collecting, analyzing, and interpreting qualitative and quantitative evaluation data; and the mechanics and process of developing an evaluation plan.

Letter grade only (A-F).

603. Developmental Risk and Resilience (3)

Prerequisite: EDP 301 or EDP 302.

Examines psychological disorders, such as autism, attention deficit disorder, conduct disorder, depression, anorexia, and selective mutism from a developmental perspective. Major topics include: contrasting psychopathology models; environmental/genetic/neurobiological factors, classification and epidemiology; scientifically-based interventions and expected outcomes; and developmental resilience.

Letter grade only (A-F).

604. Seminar in Human Development (3)

Prerequisites: EDP 301 or EDP 302, and EDP 400 or EDP 419.

Theories and issues in developmental psychology, cognitive, linguistic, perceptual, biological, psychomotor, social and emotional development; nature-nurture and individual differences.

Letter grade only (A-F).

605. Theories of Learning, Cognition, Motivation, and Social Development (3)

Prerequisite: EDP 301 or EDP 302.

Analysis of current theory and research in the areas of student learning, cognition, motivation, and social development and their application in maximizing learning of all students.

Letter grade only (A-F).

619. Quantitative Educational Data Analysis II (3)

Prerequisite: EDP 519 or equivalent.

Advanced multivariate statistical analysis course: multivariate analysis of variance, discriminant function analysis, canonical correlation, exploratory factor analysis, and structural equation modeling.

Approximately 20 hours of applied work in approved educational settings is required. Letter grade only (A-F)

641A. School Psychology Practicum (2)

Prerequisites: Admission to school psychology program, EDP 524A, EDP 524B, EDP 525B, and EDP 528. Prerequisite/ Corequisite: EDP 579.

Seminar and completion of 150 contiguous hours of supervised field placement for a minimum of one and maximum of 5 full days per week, with a minimum of 4 weeks and maximum of 1 year at no more than two sites and with two supervisors.

Credit/No Credit grading only. Course fee may be required.

641B. School Psychology Practicum (2)

Prerequisites: Admission to the school psychology program, EDP 524A, EDP 524B, EDP 525B, EDP 528, and EDP 641A.

Seminar and completion of 150 contiguous hours of supervised field placement for a minimum of one and maximum of 5 full days per week, with a minimum of 4 weeks and maximum of 1 year at no more than two sites and with two supervisors.

Credit/No Credit grading only. Course fee may be required.

642A. Field Work I - School Psychology (1-3)

Prerequisites: EDP 579, EDP 641B; concurrent enrollment in EDP 560; approval of program coordinator.

Students complete 200 hours of supervised school psychology fieldwork per unit for a maximum of 3 units (600 Hours). Placements should include at least 300 hours in a setting that serves at least 50% culturally and linguistically diverse students.

Letter grade only (A-F). May be repeated to a maximum of 3 units in different semesters. Course fee may be required.

642B. Field Work II - School Psychology (1-3)

Prerequisites: EDP 579, EDP 641A; concurrent enrollment in EDP 518; approval of program coordinator.

Students complete 200 hours of supervised school psychology fieldwork per unit for a maximum of 3 units (600 Hours). Placements should include at least 300 hours in a setting that serves at least 50% culturally and linguistically diverse students.

Letter grade only (A-F). May be repeated to a maximum of 3 units in different semesters. Course fee may be required.

643. Systemic Approaches to Interventions in Schools (3)

Prerequisite: ED P 579 Curriculum based assessment and academic interventions

Applying implementation science to promote or improve implementation of multi-tiered systems of support (MTSS). Various models of systems change will be reviewed. Each student will engage in a field project to advance one or more components of MTSS.

Letter grade only [A-F].

696. Thesis Study: Plan Development and Organizing Aspects (3)

Prerequisites: EDP 400 or EDP 419 and EDP 520 or EDP 595.

Designed for students planning to write a thesis. Form a thesis committee by midterm in the course. Accomplish a completed draft of the thesis plan by the end of the term.

697. Directed Research (1-3)

Prerequisites: Consent of instructor, department chair, and associate dean.

A student may enroll for 1-3 units to a maximum of 6 units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment including an approved directed research proposal must be made to the Office of Graduate Studies and Research by March 1 for the fall semester or October 1 for spring.

Letter grade only (A-F). May be repeated to a maximum of 6 units, with different topics in different semesters or with different topics in the same semester.

698. Thesis (3)

Prerequisites: Advancement to candidacy, EDP 519 or EDP 520 or EDP 595 or EDP 696, approval by director, department chair and associate dean.

Planning, preparation and completion of a thesis under supervision of a faculty committee.

Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester or October 1 for the spring semester. Letter grade only (A-F).

699. Project (3)

Prerequisites: Advancement to candidacy, approval of graduate advisor, and written application to the College of Education Graduate Office.

Information and discussion related to the development of master's degree projects in Educational Psychology, School Administration, Counseling and related fields.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Project application to be made to the College of Education Graduate Office by March 1 for the Summer or Fall semester or October 1 for the Spring semester.

DOCTORAL COURSES

704. Exploration of Campus Cultures: Impact and Influence (1-3)

Examination of faculty, administrative, and student cultures in terms of values, behavioral norms, impacts, and influences. Students will study research methods for campus cultures. Implications for higher education policies and practices.

Letter grading only (A-F).

705. Finance in Education (1-3)

Examination of higher education finance and governmental influences that shape this process. Through simulations students gain a working knowledge of finance, philosophies, vision, and processes for the design and implementation of resource planning in both two- and four-year institutions.

Letter grade only (A-F).

707. Student Learning and Development Theory in Higher Education (1-3)

Student development and learning theories based on cognitive, psychosocial, typology, and person-environment perspectives. Analysis and critique of theoretical tenets relevant to understanding the college experience.

Letter grade only (A-F).

708. Leadership in Education (1-3)

Current research and theories on leadership and organizational change. Multicultural organizational development theories, planning, change, effective strategies for becoming a catalyst for change. Case studies of organizational leadership for change. Examines issues, barriers, supports for, and processes and outcomes of change.

Letter grade only (A-F).

790. Selected Topics in Higher Education (1-3)

Examines such issues of the CEO's roles and responsibilities, managing change, facilitating focus groups, data-based organizational change, applications of technology, responding to the needs of student populations, working with governing boards, staff development programs, and personnel assessment instruments.

Letter grade only (A-F). May be repeated to a maximum of 24 units. Topics announced in the *Schedule of Classes*.

797. Directed Individual Study (1-6)

Prerequisites: Consent of instructor, department chair and associate dean.

Individual research or intensive study under the guidance of a faculty member.

Letter grade only (A-F). May be repeated to a maximum of 36 units.

798. Doctoral Dissertation (3)

Prerequisites: Approval of instructor/doctoral candidacy required.

Specifically for students researching and writing dissertations.

Credit/No credit grading only. May be repeated to a maximum of 24 units.

Education Specialist Courses (EDSP)

303. Preparing to Teach Special Populations in the General Education Classroom (1)

Corerequisites: EDEL 380.

Emphasis on roles and responsibilities of the general education teacher in the Individualized Education Program (IEP) process. Relevant state and federal laws pertaining to the education of exceptional populations.

Letter grade only (A-F).

350. Introduction to Teaching the Exceptional Individual (3)

Characteristics and etiology of different categories of disability are addressed. Future educators and other school professionals will learn about history, legislation, and processes pertaining to educating students with exceptionalities.

Letter grade only (A-F). Two 2-hour fieldwork observations of individuals with exceptionalities in educational settings are required. Course fee may be required. (Field work)

355A. Collaborative Models of Inclusive Education: Partnerships and Strategies for Teaching All Students in Elementary Schools (3)

Overview of collaborative educational models; family, school, community partnership models; access, equity, historical, legal, social, political perspectives for diverse students with special needs; roles and responsibilities of the general educator as a team member at the elementary level; Individualized Education Program process.

Letter grade only (A-F). Not open for credit to students with credit in EDSP 355. Course fee may be required.

355B. Collaborative Models of Inclusive Education: Partnerships and Strategies for Teaching All Students in Secondary Schools (3)

Overview of collaborative educational models; family, school, community partnership models; access, equity, historical, legal, social, political perspectives for diverse students with special needs; roles and responsibilities of the general educator as a team member

at the secondary level; Individualized Education Program process.

Letter grade only (A-F).

454. Supporting the Academic and Language Development of English Learners (3)

Prerequisite: Consent of instructor.

Addresses typical and atypical language development and acquisition in school-aged children from non-English speaking backgrounds. Focus will be on assessment and instruction for English Learners, emphasizing sheltered instruction. Typical language development and language disabilities are addressed.

Letter grade only (A-F).

480. Foundations of Inclusive Education in a Diverse Society: Philosophical and Historical Perspectives and Legal Mandates (3)

Prerequisite: Admission to Education Specialist Credential Program.

Philosophical and historical foundations of special education in a diverse society. Discussion of educational theories, legal mandates, and models for serving students with special needs in inclusive settings, with particular focus on students who are culturally and linguistically diverse.

Letter grade only (A-F). Course fee may be required.

525. Advocacy and the Educational Context of Disability (3)

Prerequisite: Acceptance in the Master of Science in Special Education Program or consent of instructor.

Effective advocacy for fundamental change in educational settings to improve the lives of persons with disabilities from diverse backgrounds grounded in the literature with an emphasis on understanding the social, cultural, and educational contexts of disability.

Letter grade only (A-F).

534. Collaboration and Transition in Special Education (3)

Prerequisites: Full admittance to Education Specialist Credential Program or ITEP, and successful completion of EDSP 480.

Methods for developing collaborative partnerships and effectively communicating with educators, community members, families, and individuals with disabilities. Examination of major issues and approaches to promoting successful transition of youth with disabilities into, through, and beyond school.

Letter grade only (A-F).

535. Collaborative Partnerships and Effective Communication in School Settings (3)

Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Methods for developing collaborative partnerships and effectively communicating with educators, community members, families, and individuals with disabilities.

Letter grade only (A-F).

542. Technology in Special Education (3)

Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Overview of Assistive Technology and Augmentative Communication for individuals with exceptional needs. Examination of legislation, devices, and services using assistive technology and augmentative communication. Introduction to assistive technology assessment and advanced development of Computer Assisted Instruction.

Letter grade only (A-F).

546. Induction in Special Education (3)

Prerequisite: Acceptance into Masters Program in Special Education or consent of instructor.

Reflection on evidence of practice through collaboration and teacher action research. Induction and formative assessment of candidates clearing the Education Specialist Credential. Development of Individualized Induction Plan and supervision in field.

Application should be made by March 1 for the fall semester and October 1 for the spring semester. Letter grade only (A-F). Not open for credit to students with credit in EDSP 546C.

550. Emerging Perspectives in Special Education (3)

Prerequisite: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Interpretation and application of emerging research in special education. Historical foundations, litigation, legislation, policy and practice in special education, emphasizing the last century. Current and emerging issues in the field. Relationships between research and practice.

Letter grade only (A-F).

563. Advanced Methods of Teaching Individuals with Significant Disabilities (3)

Prerequisite: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Formal and informal assessment procedures responsive to the cultural, socio-economic and linguistic characteristics of individual students with significant disabilities. Data-based decision making, curriculum adaptations and modifications, and instructional strategies. Collaboration with community agencies for successful transition from school to work.

Letter grade only (A-F).

564. Assessment and Evaluation of Students with Disabilities (3)

Prerequisite: Admission to the Education Specialist Credential Program or consent of instructor.

Knowledge and use of appropriate formal, informal, and authentic assessment procedures for planning, monitoring and evaluating instructional programs for students with disabilities. Emphasis on issues in assessing and evaluating culturally and linguistically diverse students.

Letter grade only (A-F). Course fee may be required.

565. Advanced Methods of Teaching Individuals with Mild/Moderate Disabilities (3)

Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Advanced assessment, methods, strategies, and curriculum adaptations for students with mild/moderate disabilities at all levels. Emphasis on collaboration, diversity, literacy, technology and transition.

Letter grade only (A-F).

566. Transition Into, Through, and Beyond School for Individuals with Disabilities (3)

Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.

Examination of major issues and approaches to promoting successful transition of youth with disabilities into, through, and beyond school. Emphasis on instructional strategies for teaching adolescent youth with disabilities at the secondary level.

Letter grade only (A-F).

567. Curriculum and Instruction for Students with Disabilities: Literacy, Communication, Social and Physical Education (3)

Prerequisites: Full admittance to the Level I Education Specialist Program or Education Specialist ITEP.

Prerequisite/Corequisite: EDSP 564.

Curricular issues, models and practices related to teaching students with disabilities in literacy, communication, physical education, and social behaviors. Emphasis on core curriculum, standards-based instruction, and differentiating instruction. Instructional planning and validated teaching strategies.

Letter grade only (A-F). Course fee may be required.

569. Curriculum and Instruction for Students with Disabilities: Math, Science, and Life Skills (3)

Prerequisites: Full admittance to the Level I Education Specialist Program or Education Specialist ITEP.

Prerequisite/Corequisite: EDSP 564.

Curricular issues, models and practices related to teaching students with disabilities in math, other content areas, and life skills. Emphasis on core curriculum, standards based instruction, and differentiating instruction. Instructional planning and validated teaching strategies.

Letter grade only (A-F). Course fee may be required.

570. Community Inclusion: Introduction to Individuals with Disabilities (3)

Prerequisite: None

Overview of approaches, services, strategies, and research associated with the education and community inclusion of people with disabilities.

Letter grade only (A-F).

577. Instructional Methods and Strategies for Individuals with Mild/Moderate Disabilities (3)

Prerequisites: Full admittance to Level 1 Education Specialist Credential Program or ITEP, completion of ETEC 110 or equivalent, and EDSP 564

Instructional methods, strategies, and curricular adaptations for students with mild/moderate disabilities from kindergarten to age 22. Research-based interventions, using data for program planning, and use of technology are emphasized.

Letter grade only (A-F).

578. Instructional Methods and Strategies for Individuals with Moderate/Severe Disabilities (3)

Prerequisites: Full admittance to Level 1 Education Specialist Credential Program or ITEP, and completion of ETEC 110 or equivalent, and EDSP 564

Instructional methods, teaching strategies, and curricular adaptations for students with moderate/severe disabilities from kindergarten to age 22, including evaluation, program planning, and use of technology for instruction and communication; knowledge related to movement, mobility, and sensory needs addressed.

Letter grade only (A-F).

582. Research in Special Education: Assessment, Curriculum and Instruction (3)

Prerequisites: Acceptance in the Master of Science in Special Education program or by instructor consent and EDSP 520.

Research practices in assessment and data-based decision making responsive to individual cultural, socioeconomic and linguistic characteristics; acquisition of knowledge necessary to integrate curriculum within systems that provide academic and social skills instruction to students with disabilities.

Letter grade only (A-F).

586. Education Specialist Intern Supervision (1)

Prerequisite: Full admittance to Education Specialist Intern Program
Candidates will be assigned a fieldwork supervisor who will provide support and supervision through classroom visits, online, and other means as needed. Specific emphasis on teaching English learners with disabilities.

Credit/No Credit grading only

587A. Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate Disabilities (6)

Prerequisite: Admission to the Level I Education Specialist Credential in Mild/Moderate Disabilities. Must complete all Level I courses. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.

Advanced field study in a public or private school or community-based site serving individuals with mild/moderate disabilities. Candidates will demonstrate competencies in their own classroom or with a master teacher, under the supervision of a university supervisor.

Students may concurrently enroll in EDSP 587B upon advisement by their faculty advisor. Credit/No Credit grading only. Course fee may be required.

587B. Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate Disabilities (6)

Prerequisite: EDSP 587A or concurrent enrollment in EDSP 587A upon advisement by their faculty advisor. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.

Advanced field study in a public or private school or community-based site serving individuals with mild/moderate disabilities. Candidates will demonstrate competencies in their own classroom or with a master teacher, under the supervision of a university supervisor.

Credit/No Credit grading only. Course fee may be required.

588A. Advanced Field Study and Seminar: Education Specialist Credential in Moderate/Severe Disabilities (6)

Prerequisite: Admission to the Level I Education Specialist Credential in Moderate/Severe Disabilities. Must complete all Level I courses. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the Spring semester.

Advanced field study in a public or private school or community-based site serving individuals with moderate/severe disabilities. Candidates will demonstrate competencies in their own classroom or with a master teacher, under the supervision of a university supervisor.

Students may concurrently enroll in EDSP 588B upon advisement by their faculty advisor. Credit/No Credit grading only. Course fee may be required.

588B. Advanced Field Study and Seminar: Education Specialist Credential in Moderate/Severe Disabilities (6)

Prerequisite: EDSP 588A or concurrent enrollment in EDSP 588A upon advisement by their faculty advisor. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.

Advanced field study in a public or private school or community-based site serving individuals with moderate/severe disabilities. Candidates will demonstrate competencies in their own classroom or with a master teacher, under the supervision of a university supervisor.

Credit/No Credit grading only. Course fee may be required.

695S. Seminar in Special Education (3)

Prerequisites: Advancement to candidacy, and written application to Graduate Office. Application for enrollment must be made by March 1 for the summer session or fall semester, or by October 1 for the spring semester.

Studies of problems and issues in special education. Relating research to practice in the area of exceptional individuals. For

qualified candidates preparing for the comprehensive examination. Not open for credit to students with credit in EDP 650. Letter grade only (A-F).

Educational Library Courses (ELIB)

UPPER DIVISION

497. Independent Study (1-3)

Prerequisites: Consent of instructor and department chair.

Independent study under faculty supervision. May be repeated to a maximum of 6 units, no more than 3 units applicable to credential or major requirement.

GRADUATE LEVEL

500. Foundations of Information (3)

Role of information and information technology in organizations (particularly in Western education) and society. Topics include societal needs and demands, diffusion of knowledge and technology, information seeking and use, information/technology and culture.

Letter grade only (A-F).

510. Collection Development (3)

Criteria, tools, procedures and policies for evaluating, selecting and maintaining informational resources to use in information organizations.

Letter grade only (A-F). Course fee may be required.

520. Information Literacy and Reference Services (3)

Philosophy of reference service and information literacy. Criteria for evaluation, selection, setup and use of selected basic reference sources to reflect cultural and linguistic diversity of students. Uses of reference sources and information literacy processes.

Letter grade only (A-F). Course fee may be required.

530A. Library Media Materials for Elementary Grades (K-5) (3)

Selection and use of fiction and non-fiction books, audiovisual and electronic media, and related materials of interest to children that reflect California's cultural diversity and support current curriculum frameworks. Criteria and tools for selection and use. Current issues.

Letter grade only (A-F).

530B. Library Media Materials for Secondary Grades (6-12) (3)

Selection and use of fiction and non-fiction books, audiovisual and electronic media, and related materials of interest to young adults that reflect California's cultural and support current curriculum frameworks. Criteria and tools for selection and use. Current issues.

Letter grade only (A-F).

550. Management of Information Organizations (3)

Philosophy, principles and problems of planning, organizing, supervising and managing a school library media program, technology service, or other information organization.

Letter grade only (A-F). Course fee may be required.

570. Library Media Technologies (3)

Prerequisite: Level I computer technology knowledge and skills.

Evaluation, selection, and integration of computer, digital, audiovisual and other technologies for use in schools and other library settings; issues of technology planning, instruction, collaboration, assessment, and digital citizenship.

Letter grade only (A-F).

580. Field Experience in Libraries (3)

Prerequisite: Consent of program coordinator.

Course Description: Students will model effective practices in administering a library program under the supervision of a qualified library professional. Applications for field experience are due March 1 for the summer or fall semester and October 1 for the spring semester.

Letter grade only (A-F). Course fee may be required.

Educational Technology Courses (ETEC)

LOWER DIVISION

110. Introduction to Computers as Tools (1)

Introduction to operations, terminology, and components of computing systems. Introduction to computer applications including word processing, databases, and spreadsheets. Introduction to University e-mail systems and electronic searching.

Letter grade only (A-F).

171. Critical Thinking Using Computer Technology (3)

Prerequisite/Corequisite: GE Foundation Category A1 Written English.

Cultivates critical thinking abilities in conjunction with the use of computer technology. Introduces basic hands-on computer skills to facilitate critical thinking and learning. Critically examines the use of computer technology in academic and personal lives.

Letter grade only (A-F). (2 hours lecture, 2 hours laboratory)

UPPER DIVISION

411. Assessment of Computer Technology Competency, Level I (1)

Appropriate only for students who are already proficient with the material in ETEC 444. Provides students with an opportunity to meet the California Level I computer technology requirement by a performance assessment. Two class meetings and online activities.

Credit/No Credit grading only.

435./535. Accessible Electronic and Information Technologies (3)

Prerequisite: Either ETEC 110, ETEC 411, ETEC 444 or consent of instructor.

Critical use, analysis and evaluation of computer applications of computer technologies for accessibility and usability for populations with diverse needs. Terminology, design principles, and applications of accessible technologies. Legal and ethical issues in developing or adopting accessible electronic and information technologies.

Letter grade only (A-F).

444. Computer Technology in Education, Level I (3)

Prerequisites: Course design assumes familiarity with topics introduced in ETEC 110.

Introduction to educational computer technology: resources and tools for professional use; strategies for integrating computers into teaching; applications to diverse learners; legal, ethical, and societal issues. Meets the Level I teaching credential computer technology standard.

(Seminar 2 hours, laboratory 2 hours)

GRADUATE LEVEL

510. Foundations of Educational Technology and Media (3)

Prerequisite: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

Introduction to technology and media use in education and training. Overview of theoretical approaches, research trends, major developments, and prominent issues in the field. Incorporation of social, historical, psychological, and philosophical perspectives in the study of technology and media.

Letter grade only (A-F). (Seminar 3 hours)

523. Information and Digital Literacies (3)

Prerequisites: ETEC 444 or equivalent experience satisfying California Level I computer technology standard.

Information and digital literacies; principles and theories for integrating technologies into learning environments to improve planning, designing and implementing learning experiences; issues of technology planning, collaboration, and assessment; and digital citizenship. Course meets Level II Technology Standards.

Meets California Level II computer technology standard. (Seminar 3 hours) Letter grade only (A-F).

525. Digital Culture and Society (3)

Critical examination of social and cultural implications of information technologies and media. Issues of cultural bias, equity, and questions of who benefits from particular technologies. International applications and implications of information technologies.

529. Educational Technologies in Science, Engineering, and Mathematics (3)

Prerequisite: Basic teaching credential or consent of instructor.

Participants will: (a) learn about pedagogical innovations in math, science, and engineering education using technology, (b) plan, implement, assess, and refine technology-based lesson(s) in math, science, and engineering, and (c) use Internet and social networking tools for ongoing professional development. Field experience required.

Letter grade only (A-F).

530. Leadership in Technology and Media (3)

Prerequisites: ETEC 523 or consent of the instructor.

Examines the role of leadership as it relates to the implementation of educational technologies and media. Theory, knowledge, and skills necessary to use, evaluate, plan, manage, and implement technologies effectively. Administrative issues associated with computers, including security and cyber-ethics.

535./435. Accessible Electronic and Information Technologies (3)

Prerequisite: Either ETEC 110, ETEC 411, ETEC 444 or consent of instructor.

Critical use, analysis and evaluation of computer applications of computer technologies for accessibility and usability for populations with diverse needs. Terminology, design principles, and applications of accessible technologies. Legal and ethical issues in developing or adopting accessible electronic and information technologies.

Letter grade only (A-F).

540. Organization of Resources (3)

Theories of organizing resources; rationale and use of library catalogs; principles and practice in classification and cataloging applied to information organizations; technical processing and organization resources; managing collections and their access.

Letter grade only (A-F). Not open for credit to students with credit in ELIB 540.

545. Reading for Leisure and Learning (3)

Selection and use of a wide variety of literature and informational texts to reinforce literacy instruction; reading promotion for learning, personal growth and enjoyment.

Letter grade only (A-F).

551. Education and the Internet (3)

Prerequisites: Either ETEC 411, ETEC 444, equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.

Survey of educational applications throughout the Internet. Characteristics of teaching and learning mediated through the Internet; analysis and design of Internet-based learning activities; design and development of online courses; implementation, management, and administration of online learning.

Letter grade only (A-F). (Seminar 3 hour)

570. E-Learning Design and Development (3)

Prerequisite: ETEC 523 or consent of instructor.

Introduction to e-learning design and development, including project management, instructional analyses and strategies, software selection, and evaluation. Interactive multimedia development applications, processes, and principles. Design and production of technology-enhanced instruction.

Letter grade only (A-F). (Seminar 3 hour)

580. Field Experience in Educational Technology (3)

Prerequisites: ETEC 523 and either ETEC 530, EDP 520 or EDP 595.

Students investigate and experience occupation or environment utilizing a form of educational technology. Under instructor guidance, students perform 90 field experience hours in educational technology environment. Instructor approval required for site selection.

Letter grading only (A-F). Course fee may be required.

695. Seminar in Educational Technology (3)

Prerequisites: Successful completion of all required course work for the Master of Arts in Education, Option in Educational Technology.

Studies in educational technology including reviews of literature, critique of educational technology research, and systematic development and evaluation of areas of students' prior work.

For qualified candidates preparing for the comprehensive examination. Application for enrollment must be made by March 1 for summer session or fall semester or by October 1 for spring semester. Letter grade only (A-F). May be repeated to maximum of 6 units.

Social and Cultural Analysis of Education Courses (SCAE)

550. Foundations of Social and Cultural Analysis of Education (3)

Introduction to central theories and concepts and development of core competencies in social and cultural analysis of education; discussion of applications of critical theories and pedagogies in education; examination of the significance of social difference (e.g. race, class, gender, sexuality, language).

Letter grade only (A-F).

551. Critical Pedagogies (3)

In-depth examination of foundations and constructs of critical pedagogy in various educational contexts; applications of critical pedagogies in the United States and around the world; exploration of the relationship between critical pedagogies and social and educational justice.

Letter grade only (A-F).

560. History of Social and Educational (In)equality (3)

Historical survey of education as an institution; struggles for educational justice from the 19th century to present; analysis of the historical foundation of persistent educational inequities; emphasis on peoples of color, women, people with disabilities, LGBT individuals, and immigrants.

Letter grade only (A-F). Not open for credit to students with credit in EDP 576.

561. Urban Educational Policy (3)

Critical examination of the historical, cultural and political-economic dimensions of educational policy; impact of educational policy on student learning, experiences and outcomes; issues of difference, identity and justice in educational policy; special attention to urban education policy issues in California.

Letter grade only (A-F). Not open for credit to students with credit in EDP 575.

562. Agency, Resistance and Identity in Education (3)

Sociological and anthropological approaches to understanding youth cultures, academic resilience, identity formation, and how students influence, and are influenced by, educational experiences; youth and community organizing; race, class and gender, sexuality, language, etc. as factors in education.

Letter grade only (A-F). Not open for credit to students with credit in EDP 574.

564. Language and Education Policies (3)

Examination and analysis of historical and contemporary U.S. language policies, educational language policies, and legal decisions as context for current educational language practices; comparison of experiences with other nations; discussion of the relationship between language attitudes and educational policy formation.

Letter grade only (A-F). Not open for credit to students with credit in EDP 672.

566. Education and Global (In)equality (3)

Examination of historical and contemporary global power structures that contribute to educational inequality; investigation of neocolonialism and the influence of international organizations in educational development; discussion of strategies to address social and educational inequalities that exist around the world.

Letter grade only (A-F). Not open for credit to students with credit in EDP 582.

567. Educational Issues in Global Perspective (3)

Analysis of topical issues related to education in various international contexts; examination of topical issues across countries. Students have the opportunity to select the issues under investigation in consultation with the instructor.

Letter grade only (A-F). Not open for credit to students with credit in EDP 583.

568. Globalization and Educational Reform (3)

In-depth study of globalization and its impact on education around the world; analysis of policy borrowing and lending processes in the educational arena; national and local interpretations of global or borrowed educational policies; examination of educational reform processes.

Letter grade only (A-F).

695. Social and Cultural Analysis of Education Capstone (3)

Synthesis of concepts and ideas in the social and cultural analysis of education; implications of social and cultural theories for educational practice in a variety of settings; strategies for effecting social and educational justice.

Letter grade only (A-F).

AFRICANA STUDIES

College of Liberal Arts

Department Chair: Maulana Karenga

Department Office: Psychology Building (PSY), Room 306
Telephone / FAX: (562) 985-4624 / (562) 985-5599

Faculty: LaRese Hubbard, Maulana Karenga, Alosi Moloi, Bede M. Ssensalo, Khonsura Aaron Wilson

Undergraduate Advisor: Maulana Karenga

Administrative Support Coordinator: Harvey Hunt

Students desiring information should contact the department office for referral or the faculty advisor.

Career Possibilities

Social Scientist • Social Worker • Counselor • Teacher
• Archivist • Journalist • Public Relations Consultant
• Community Organizer • Recreation • Law • School Administrator • Linguist • Parole Officer • Probation Officer
• Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The discipline of Africana Studies focuses on the critical study of African Americans, Continental Africans, Afro-Caribbeans and Afro-Latinos, but also allows for study of African peoples in Asia and Europe. It emphasizes an interdisciplinary and multicultural approach to teaching.

The Africana Studies Department encourages students to take advantage of opportunities to do service learning and internships, and study abroad. The Department encourages and supports faculty/student collaboration in conferences, forums, field trips and joint research and writing projects.

The subspecialties of the disciplines of Africana Studies include: Africana theory and philosophy; Africana women's studies; African American historical studies; and Continental African studies.

Undergraduate Programs

Bachelor of Arts in Africana Studies (120 units)

Requirements

A minimum of 39 units is required for the major in Africana Studies; 12 lower division and 27 upper-division units. The distribution of courses within Africana Studies affords the students the opportunity for in-depth exploration of African American Studies, in Continental African Studies or a combination of the two, as well as other Diasporan studies, e.g., Caribbean basin.

Lower Division (12 units)

Take the following course:

AFRS 110 Introduction to Africana Studies (3)
Prerequisite/Corequisite: One GE Foundation course.

Take one of the following:

AFRS 120 African American History to 1865 (3)

Prerequisite/Corequisite: One GE Foundation course.

AFRS 121 African American Hist 1865-Present (3)
Prerequisite/Corequisite: One GE Foundation course.

Take 6 units electives, select one course from the following groups:

Group A (Social Science):

AFRS 115, AFRS 120, AFRS 150, AFRS 154,
AFRS 200, AFRS 201, AFRS 210

Group B (Humanities):

AFRS 140, AFRS 155, AFRS 160, AFRS 170A,
AFRS 170B, AFRS 240, AFRS 255

Upper-division Core (27 units):

Take all of the following courses:

AFRS 330 Politics of the African American Community (3)
Prerequisites: AFRS 110 and AFRS 121.

AFRS 335 Economic Development in the African American Community (3)
Prerequisites: AFRS 110 and AFRS 121.

AFRS 495 Research Methods in Africana Studies (3)
Prerequisites: AFRS 110 and 6 units upper-division work in Africana Studies. For Department majors.

Take one of the following:

AFRS 332 Civil Rights and the Law (3)
Prerequisite: GE Foundation requirements.

AFRS 354 African American Women and the Civil Rights Movement (3)
Prerequisite: GE Foundation requirements.

Take electives (15 units), one or more selected from the following groups:

Group A (Social Sciences):

AFRS 310, AFRS 319, AFRS 325, AFRS 332, AFRS 337, AFRS 404, AFRS 410, AFRS 430

Group B (Humanities):

AFRS 343A, AFRS 343B, AFRS 346, AFRS 353,
AFRS 363, AFRS 415

Group C (Theory):

AFRS 400, AFRS 454, AFRS 475, AFRS 498

Certificate in Africana Studies

Students majoring in other departments of the University but interested in Africana Studies may concurrently pursue this certificate. Courses used to meet the certificate requirement may, where applicable, also be used simultaneously to meet General Education requirements or the major and minor requirements of cooperating departments.

Requirements

1. A major in another academic discipline. Certificate can be completed prior to or simultaneously with completion of the B.A. requirement.
2. A minimum of 24 units of which at least 12 must be in upper-division courses, with two or more courses selected from each of the following:

Group A: AFRS 110, AFRS 154, AFRS 210, AFRS 325,

AFRS 330, AFRS 332, AFRS 335, AFRS 420
Group B: AFRS 160, AFRS 343A, AFRS 346, AFRS 363,
Group C: AFRS 120, AFRS 121, AFRS 200, AFRS 201, AFRS 330, AFRS 337, AFRS 354, AFRS 400, AFRS 410, AFRS 454

Minor in Africana Studies Requirements

The Minor in Africana Studies is open to any non-Africana Studies majors.

The Minor in Africana Studies requires a minimum of 24 units of which at least 12 units must be in upper-division courses.

Take two or more courses from each of the following:

Group A: AFRS 120, AFRS 121, AFRS 154, AFRS 200, AFRS 201, AFRS 210, AFRS 310, AFRS 325, AFRS 330, AFRS 332, AFRS 335, AFRS 354, AFRS 400, AFRS 404, AFRS 410, AFRS 420, AFRS 430

Group B: AFRS 140, AFRS 155, AFRS 160, AFRS 255, AFRS 337, AFRS 343A, AFRS 343B, AFRS 346, AFRS 353, AFRS 363, AFRS 415, AFRS 454, AFRS 475, AFRS 498I

Take the following core course:

AFRS 110 Introduction to Africana Studies (3)
Prerequisite/Corequisite: One GE Foundation course.

AFRS 495 Research Methods in Africana Studies (3)
Prerequisites: AFRS 110 and 6 units upper-division work in Africana Studies. For Department majors.

Africana Studies Courses (AFRS)

LOWER DIVISION

100. Composition II (3)

Prerequisite: Students who score 147 or above on the English Placement Test, are exempt from the EPT, have credit in AFRS 100S (or its equivalent), or consent of the instructor.

Composition II does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA.

Expository writing course designed for first-year students. Satisfies one of the writing requirements for general education at CSULB. Emphasizes academic writing, focusing primarily on analytical reading and thesis-driven writing.

Same course as ENGL 100, ASAM 100, CHLS 104. Not open for credit to students with credit in: ENGL 100, ASAM 100, CHLS 104.

100S. Composition I (3)

Prerequisite: Students who score 146 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course.

Composition I does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA. Must have a "C" or better to earn credit in GE.

Basic course in writing, offering intensive practice in every stage of writing process from generating ideas to final proofreading, as well as to the developing stronger reading comprehension for specific writing tasks.

Same course as ASAM 100S, CHLS 104S, ENGL 100S. Not open for credit to students with credit in AFRS 1; ASAM 1, CHLS 1, ENGL 1, ASAM 100S, CHLS 104S, ENGL 100S, ESW 100S.

110. Introduction to Africana Studies (3)

Prerequisite/Corequisite: One GE Foundation course.

A critical survey of the major themes, issues, concepts, current research, schools of thought, theorists and scholars in the discipline of Africana Studies, as well as its historical evolution and academic rationale.

115. Introduction to African Politics (3)

A review of recent developments or changes in the government, parties, political ideologies, politics, leadership and political processes in selected African countries.

120. African American History to 1865 (3)

Prerequisite/Corequisite: One GE Foundation course.

Survey course on African American history with origins in African culture and civilization. Focus on the role, impact and significance of African Americans in the U.S. from the colonial period through the American Revolution, enslavement and the Civil War.

121. African American History Since 1865-Present (3)

Prerequisite/Corequisite: One GE Foundation course.

Impact of social, economic and political change on African Americans after the Reconstruction period. Issues of migration, education, cultural development and business enterprises will be examined.

140. Introduction to African American Literature (3)

Prerequisite/Corequisite: One GE Foundation course.

A study of selected or representative literature of the African American writer. Special attention will be given to style, content, methodology and thematic approach.

150. Critical Thinking in Africana Studies (3)

Prerequisite/Corequisite: AFRS 100 or GE Composition (Area A1) or equivalent.

Introduction to the nature and process of critical thinking. Extensive practice in critical reasoning directed toward developing cognitive skills and dispositions central to its application in academic work and in the analysis and advocacy of personal perspectives and social issues.

154. Introduction to Africana Women's Studies (3)

Prerequisite/Corequisite: One GE Foundation course.

Critical introduction to basic concepts, perspectives and methodology in Africana women studies, focusing on historical and contemporary continental and diasporan African women's experience, initiatives, issues, and intersections of race/class/gender within the context of their oppression, resistance and internal creative capacity.

155. African American Music (3)

Prerequisite/Corequisite: One GE Foundation course.

Nontechnical survey of African American music. Some attention given to the impact of social movements on the musician and the music produced. Gospel, jazz and well-known derivatives will be highlighted.

160. Introduction to Africana Arts (3)

Prerequisite/Corequisite: One GE Foundation course.

A presentation of prevailing themes, methodology, concepts and meaning in African American art. Equal time will be given to early and contemporary art. The work of some Continental African artists will be introduced as appropriate.

167. Exploitation of the African American Athlete (3)

Study of the socio-dynamics of amateur, professional and collegiate sports activity in the United States as it relates to the African American community. Case studies of well-known African American athletes will also be presented.

170A. Elementary Swahili (4)

Prerequisites/Corequisite: Any Foundation course.

Introduction to grammar, syntax, comprehension, reading, writing and conversation in the language. Attention will be given to cultural context throughout the course.

Letter grade only (A-F).

170B. Elementary Swahili (4)

Prerequisites: AFRS 170A or equivalent competency.

A continuation of AFRS 170A. Advanced grammar, syntax, comprehension, reading, writing and conversation in the language
Letter grade only(A-F).

177. African American Rhetoric (3)

Prerequisite/Corequisite: AFRS 100 or GE Composition (Area A1) or equivalent.

Principles and practice of excellent public speaking (medi nefer) from an Afrocentric perspective including: extensive practice in preparation and presentation; developing persuasive arguments; cultivating critical and ethical thinking, listening and cultural sensitivity; audience evaluation, adaptation and engagement; and building confidence.

200. Ancient African Civilizations (3)

Prerequisite: GE Foundation requirements.

A study of ancient African empires, kingdoms and states, including discussions of political institutions, social structures, education, cultural values, trade and international relations.

201. History of Slavery (3)

Prerequisite: GE Foundation requirements.

Historical examination of trans-Atlantic slave trade and its impact on Africa and the Western Hemisphere. Nature of slavery in Africa, Greece, Italy, the Caribbean, the Middle East, South America, and the United States. Legacy of slavery.

210. African American Community (3)

Prerequisites: GE Foundation requirements.

Examines the social structure and challenges in the community life of African-Americans as compared to other ethnic groups. Explore and analyze how institutional and stratified pattern, demographic changes, social movements, community organizational programs affect African-Americans. Case studies presented.

214. Introduction to Africana Aesthetics (3)

Prerequisite: GE A.1 (Communication). Corequisite GE A.3 (Critical Thinking)

African Aesthetic is the philosophy of goodness, beauty and creativity informed by an African worldview. Surveys key 20th century writing on Africana aesthetics by African philosophers, such as Alain Locke, W.E.B. Dubois, Zora Neale Hurston, and Margaret Walker.

Letter grade only (A-F).

215. U.S. Diversity and the Ethnic Experience (3)

Prerequisites: Open only to Integrated Teacher Education Program students.

Survey of four major ethnic groups (American Indians, African American, Latino American, and Asian American) in American society from the colonial era to the present. Special attention to the formation and transformation of each ethnic group and their individual and collective roles in the development of the United States.

Letter grade only (A-F). Same course as AIS 215, CHLS 215. Not open for credit to students with credit in AIS 215, ASAM 215, CHLS 215. Departments take turn offering course in the Fall semester.

216. Caribbean Intellectual Thought (3)

Prerequisite: AFRS 110.

An introduction to 20th century Caribbean intellectuals and their contributions to African American social and political thought and issues facing the African diaspora.

Letter grade only (A-F).

240. African and African American Folklore and Culture (3)

An examination and presentation of material on folklore, folk tales, and folk heroes in the African American community. Some attention also given to African mythology.

254. Africana Womanist Religious Thought (3)

Prerequisite: AFRS 110 or AFRS 154.

Critical survey of the major spiritual and ethical themes and concepts of Africana womanist religious thought in Christianity, Islam and African traditions of Kawaida, Ifa and Maat, including voice, Afrocentricity, claiming, naming, self-defining gender jihad, complementarity, mutual respect, and reciprocity.

Letter grade only (A-F).

255. Introduction to Hip Hop (3)

Prerequisites: GE Foundation requirements.

A critical exploration of Hip Hop's history and culture, which includes analysis of its impact and influence on contemporary aesthetic culture, race relations, gender politics and struggles for social justice.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

310. African American Male and Female Relationships (3)

A comprehensive study of male/female patterns of interaction in the African American community. Some attention given to institutional impact, role changes and projected images of relationships.

319. The Ethnic Experience in the U.S. (3)

Prerequisite: GE Foundation requirements.

Comparative study of race, cultures, and ethnic relations in U.S. society with special focus on experiences of four core groups: Native Americans, African Americans, Asian Americans, and Latino Americans.

Same course as AIS 319, ASAM 319, CHLS 319, WGSS 319. Not open for credit to student with credit in AIS 319, ASAM 319, CHLS 319, WGSS 319. (Lecture/Discussion.)

325. Africana Psychology (3)

Prerequisite: AFRS 110 or PSY 100

Develops the concept of Africana Psychology. Using comparative techniques, the course introduces students to common consequences in the experience of being a person of African descent, or a person of color.

330. Politics of the African American Community (3)

Prerequisites: AFRS 110 and 121.

Study of the perspectives, styles, problems and dynamics of political activity in the African American Community.

332. Civil Rights and the Law (3)

Prerequisite: GE Foundation requirements.

Designed to provide the student with a basic understanding of the interaction between the American legal system and civil rights of African Americans, other minorities, women and the general citizenry.

335. Economic Development in the African American Community (3)

Prerequisites: AFRS 110 and AFRS 121.

Development of business and banking institutions in the African American community. Some attention given to the impact of external factors on development.

Letter grade only (A-F).

337. Cultures of African Peoples (3)

Prerequisites: GE Foundation requirement, AFRS 200 or consent of instructor.

Critical presentation of a cultural map of African people, emphasizing geography, migration and cultural similarities.

343A. African Literature (3)

Prerequisites: GE Foundation requirements and one or more Exploration courses.

A general survey of traditional and contemporary African Literature within the context of the historical, political, social, economic, and cultural movements. Also a comparison of Pan-African literature and Western literature.

343B. Caribbean Literature (3)

Prerequisite: GE Foundation requirements.

A general survey of traditional and contemporary Caribbean literature within the context of the historical, political, social, economic and cultural movements. Also a comparison of Pan-African literature and Western literature.

346. Africana Theatre (3)

Prerequisites: GE Foundation requirements.

Introductory survey course of Africana theatre as a historic medium, profoundly revealing in its humanistic, literary, social and cultural heritage as it relates to Africa, America and the Caribbean.

(Lecture 2 hours, activity 2 hours)

353. Religions of African Peoples (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses and upper-division standing.

Critical examination of selected spiritual and ethical traditions of the world African community with emphasis on Maat, Ifa, Christianity and Islam, their sacred texts and commentaries, major themes, representative figures, and comparative analyses of their continental and diaspora expressions.

354. African American Women and the Civil Rights Movement (3)

Prerequisite: GE Foundation requirements.

A critical examination of vital and multiple roles African American women played in the modern civil rights movement. Emphasis on African American women's agency, activism and shared vision, and role as an essential political force in reconceiving and reshaping U.S. history.

363. History of African Art (3)

Prerequisite: GE Foundation requirements.

Survey of African art from antiquity to the present as an integral part of African culture, including historical, cultural and religious contexts.

400. African American Social Thought (3)

Prerequisite: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Survey of African American intellectual history, with emphasis on social theories and opposing schools of intellectual thought.

404. Contemporary Issues of the Africana World (3)

Study of the shifting power and international status of the Africana world. Domestic issues, geo-politics and the diplomatic policies of selected countries will be highlighted.

410. The African American Family (3)

Prerequisites: GE Foundation requirements. AFRS 325 or consent of instructor.

Systematic study and social-historical analysis of the structure and function of the African American Family in the United States. Sociological/ theoretical analysis of the models of family units, roles and interpersonal relations in society. Comparison with other family units in America.

415. International Africana Children's Literature (3)

A survey of literature for and/or about African and African American children by authors from Africa, the U.S. the Caribbean and the rest of the Diaspora.

420. African American Children in Public Schools (3)

Theories, concepts and principles relating to the intellectual growth, development and learning of African American children.

423. Issues in Psychological Assessment of African Americans (3)

Prerequisites: candidates must have working knowledge of statistical concepts, upper-division standing in Africana Studies or consent of instructor.

Examination of issues, problems, and practices in the assessment of African American children.

430. African Political Leadership in the Twentieth Century (3)

Prerequisite: GE Foundation requirements.

Critical examination of African's search for national liberation and cohesion, collectively built institutions, movements/parties and ideological self-definition. Comparative study of traditional African leadership concepts and modern forms. Focus on selected countries and major African leaders.

454. Africana Womanism: An Intellectual History (3)

Prerequisites: GE Foundation requirements, one or more exploration courses and upper-division standing.

Historical and critical study of the major schools of thought in Africana womanism, including continental and diasporan sources, historical evolution, cultural grounding, methodology, discourse on and with feminism, enduring and current issues and its relevance and relation to social change.

475. Racism and Sexism: An Analytical Approach (3)

Prerequisite: AFRS 332

Examination of institutions and a study of legislation which has been written and implemented in consequence of racism and sexism in American society. Social theories used to support and reject concepts of racism and sexism will also be presented.

490. Selected Topics in Africana Studies (3)

Prerequisite: Consent of instructor.

Topics of current interest in Africana Studies selected for intensive development.

May be repeated to a maximum of 6 units with different topics in the same semester. Topics announced in the *Schedule of Classes*.

495. Research Methods in Africana Studies (3)

Prerequisites: AFRS 110 and 6 units upper-division work in Africana Studies. For Department majors.

Presents information on use of scientific methods in Africana Studies, research theory, research design, sampling, measurement and science techniques. Focuses on instrument construction as well as test reliability and validity.

Letter grade only (A-F).

498. Ancient Egyptian Ethical Thought (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Critical study of ethical thought of ancient Egypt with due attention to theological, literary and socio-historical context in which it was developed and evolved, including examination of its major ethical texts and comparative analysis with surrounding traditions.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Permits individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units.

AMERICAN INDIAN STUDIES

College of Liberal Arts

Director: Craig Stone

Program Department Office: F03-300

Telephone: (562) 985-8703

Faculty: Craig Stone

Academic Advisor: Craig Stone

Department Administrative Support Coordinator: Michelle Seales

Students desiring information should contact the department office for referral to one of the faculty advisors.

Career Possibilities

American Indian Affairs • Social Scientist • Archivist, Social Worker • Journalist • Counselor • Teacher • Public Relations Consultant • Community Organizer • School Administrator • Linguist • Law Parole Officer • Probation Officer • Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

American Indian Studies is an interdisciplinary study of the American Indian. The options are designed to provide students with various fields of knowledge of American Indian Studies with opportunities for emphasis on particular topical, cultural and geographical interests. The program is governed by a committee of faculty representing a variety of schools and departments throughout the university.

Courses offer two directions: 1) content directed toward American Indian culture in the North Western Hemisphere; and 2) relevant content leading toward understanding the American Indian experience.

Students may pursue a program in American Indian Studies through a minor, certificate or concentration in American Indian Studies in the Liberal Studies Degree.

Undergraduate Programs

Certificate in American Indian and Indigenous Studies

Students pursuing any approved degree or credential program of the University may at the same time earn a Certificate in American Indian Studies. Courses taken to meet the requirements may be used, where applicable, to meet General Education requirements or the degree or credential requirements of cooperating departments. Certification of successful completion of requirements will be issued upon the recommendation of the American Indian Studies Program Director.

Requirements

1. A Bachelor's degree with a major in a traditional discipline. (Certificate requirements may be completed

prior to or after the completion of B.A. requirement).

2. Submission of all college/university transcripts to the academic advising coordinator, who will work with the student to develop a well-integrated program of studies. Interested students are strongly encouraged to meet with the academic advising coordinator after having completed the lower division core courses.

3. A minimum of 21 units, distributed as follows.

Core Courses (9 units)

Take three of the following courses:

AIS 101 or AIS 222, AIS 308 or ANTH 322, AIS/FEA 450 or AIS 485

Lower Division Core:

Take 3 units from the following courses:

AIS 101, AIS 105, AIS 106, AIS 200, AIS 215, AIS 222.

Upper Division Core:

Take 3-9 units from the following courses:

AIS 300, AIS 308, AIS 319, AIS/WGSS 313, AIS 320, AIS 336, AIS 345, AIS/ENGL 340, AIS 400, AIS 420, AIS 485, AIS 490, AIS 497, AIS 499.

Upper Division Electives: (0-6 units)

Take up to two of the following courses:

- American Indian Studies: AIS 319, AIS 308, AIS/WGSS 313, AIS 400, AIS 497
- American Studies: AMST 300, AMST 350
- Anthropology: ANTH 321, ANTH 322, ANTH 329, ANTH 448, ANTH 449, ANTH 450 (maximum 3 units approved by advisor), ANTH 451 (can only be taken once) ANTH 487
- Art/Art History: AH 430, AH 431, ART 354A or ART 354B, ART 440/ ART 540, AH 456/556
- Comparative World Literature: CWL, 315, CWL 320, CWL 415
- English: ENG 340, ENG 375, ENG 470, ENG 683I (ENG 683I is only open to English Masters Students)
- Film and Electronic Arts: FEA 316, FEA 380, FEA 486, FEA 450
- Geography: GEOG 357, GEOG 473, GEOG 481, GEOG 447
- Human Development: HDEV 320, HDEV 360, HDEV 403
- Journalism: JOUR 310, JOUR 311, JOUR 431
- Kinesiology: KIN 338, KIN 332, KIN 335 (KIN 338 and KIN 335 are only open to Kinesiology Majors)
- Museum Studies/CRM: AH 430, AH 431, ANTH 487
- Music: MUS 471, MUS 478, MUS 490
- Philosophy: PHIL 351, PHIL 451, PHIL 489
- Political Science: POSC 311, POSC 312, POSC 321, POSC 326 POSC 323, POSC, 395
- Social Work: SW 330, SW 331, SW 350, SW 351
- Women's and Gender Sexuality Studies: WGSS 313, WGSS 318, WGSS 401

Minor in Native American Cultures

15 units required for the minor.

Lower Division required (3 units)

AIS 101 Introduction to AIS

Corequisite/Prerequisite: Any GE Foundation course.

Upper Division Core

Select 6 - 9 units from the following:

AIS 300 or AIS/FEA 450

AIS 320 or AIS 420

AIS 340/ENGL 340 American Indian Literature (3)

Prerequisite: GE Foundation requirements.

AIS 345

AIS 335 or AIS 336

AIS 485 American Indians and the Law (3)

Prerequisites: Completion of the GE Foundation requirement, completion of one or more Exploration courses and upper-division status. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

AIS 490 or AIS 499

Electives

Select: 3-6 units in any combination from the following courses and/or areas. Anthropology, Museum Studies/CRM, American Indian Studies, Art/Art History and Social Work.

Anthropology: ANTH 321, ANTH 322, ANTH 329, ANTH 448, ANTH 449, ANTH 450 (maximum 3 units approved by advisor), ANTH 451 (can only be taken once) ANTH 487.

Museum Studies/CRM: AIS 222, AH 430, AH 431, ANTH 487.

American Indian Studies: AIS 105, AIS 106, AIS 215 or AIS 319, AIS 308, AIS/WGSS 313, AIS 400, AIS 497

American Studies: AMST 300, AMST 350

Art/Art History: AH 114, ART 254, ART 354A or ART 354B, AH 430, AH 431, ART 440/540, AH 456/556

Comparative World Literature: CWL 315, CWL 320, CWL 415

English: ENGL 340, ENGL 375, ENGL 470, ENGL 683I (see note below)

Film and Electronic Arts: FEA 316, FEA 380, FEA 486, FEA 450

Geography: GEOG 120, GEOG 357, GEOG 473, GEOG 481, GEOG 447

Human Development: HDEV 360, HDEV 403

Journalism: JOUR 310, JOUR 311, JOUR 431

Kinesiology: KIN 156, KIN 157, KIN 338, KIN 332, KIN 335 (see note below)

Music: MUS 471, MUS 478, MUS 490

Philosophy: PHIL 270, PHIL 351, PHIL 451, PHIL 489

Political Science: POSC 311, POSC 312, POSC 321, POSC 326, POSC 323, POSC, 395

Recreation: REC 225, REC 325, REC 337, REC 371, REC 428, REC 431

Social Work: SW 220, SW 221, SW 330, SW 331, SW 350, SW 351. (see note below)

- Women's and Gender Sexuality Studies: WGSS 313, WGSS 318, WGSS 401

Note: SW 221 is only open to Social Work Majors.

Note: KIN 332 and KIN 335 are only open to Kinesiology majors.

Note: ENGL 683I is only open to English Masters Students.

American Indian Studies Courses (AIS)

LOWER DIVISION

101. Introduction to the Study of Native American People (3)

Corequisite/Prerequisite: Any GE Foundation course.

Examines history, culture, religion, art and societies of American Indian. Introduction to historical aspects of Native American experience and discuss these aspects of Native life as applied to contemporary American Indian issues.

Letter grade only (A-F).

105. American Indian History – Pre 1871 (3)

Prerequisite/Corequisite: One course from GE category A1.

Survey of histories and cultures of American Indian Peoples in North America from pre-contact to 1871 and analysis of political, cultural, legal and military relationships that developed between American Indians and foreign nations.

106. American Indian History – Post 1871 (3)

Prerequisite/Corequisite: One course from GE category A1.

Survey of histories and cultures of American Indian Peoples in North America from 1871 to present.

200. Contemporary Issues in American Indian Studies (3)

Analysis of major issues in contemporary American Indian affairs, politics, art, philosophy, education, reservations life, economics, government relations, Indian organizations, Indian-white relations, legal issues, land rights, media issues, Indian activist movements, and community concerns.

215. U.S. Diversity and the Ethnic Experience (3)

Prerequisites: Open only to Integrated Teacher Education Program students.

Survey of American Indian, African American, Latino American, and Asian Americans in American society from the colonial era to present. Special attention to the formation and transformation of each ethnic group and their roles in the development of the United States.

Letter grade only (A-F). Same course as AFRS 215, CHLS 215. Not open for credit to student with credit in AFRS 215, ASAM 215, CHLS 215. Departments take turn offering the course in the Fall semester.

222. American Indian Museum Studies (3)

Prerequisite: One G.E. Foundation course.

Designed as a hybrid, online and face-to-face introduction to the meaning and significance of American Indian Art in the display and exhibition of American Indian culture. Includes fieldtrips to museums, online discussions and activities.

Letter grade only (A-F).

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. American Indians in Cinema (3)

Examines the creation of stereotypical, both positive and negative images of American Indians in cinema utilizing silent cinema through the contemporary era. Discusses representations of American Indians in American cinema from an American Indian perspective.

Class content will vary dependent on films available for instruction. Letter grade only (A-F).

308. California Indian History (3)

Prerequisite: GE Foundation requirements.

Study of relationship between Indian people and various European powers that influenced the settlement of the State of California. Areas to be explored include: indigenous people of California, Spanish invasion of 1769, Mexican secularization in 1834, and seizure by U.S. in 1846.

Letter grade only (A-F). Not open for credit to students with credit in AIS 208.

313. American Indian Genders and Sexualities (3)

Analysis of popular, feminist, queer and tribally specific theories and representations of American Indian genders and sexualities with a focus on literatures by American Indian women, men and two-spirit peoples.

Same course as WGSS 313. Not open for credit to students with credit in WGSS 313.

319. The Ethnic Experience in the U.S. (3)

Prerequisite: GE Foundation requirements.

Examination of dynamics of development of our multicultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in maintenance of cultural diversity in United States.

Same course as AFRS 319, ASAM 319, CHLS 319, WGSS 319. Not open for credit to student with credit in AFRS 319, ASAM 319, B/ST 319, CHLS 319, WGSS 319. (Lecture/Discussion)

320. American Indian Art and Material Culture (3)

Survey of North American Indian art; emphasis on art forms of the U.S., Alaska, and Canada. Traditional and contemporary art and artists will be explored, focusing on aesthetic, theoretical, historical, religious, and philosophical aspects as they relate to American Indian culture.

335. American Indian Philosophies (3)

Detailed examination of American Indian tribal cultures and worldviews. Comparison of tribal philosophy and beliefs with that of western society. Special emphasis placed on traditional philosophical traditions as practiced in the cultural regions of North America and the sub-Arctic.

Letter grade only (A-F).

336. Indigenous Philosophies of Sustainability (3)

Prerequisite: Completion of GE Foundation, one or more Explorations courses and upper-division standing.

Detailed examination and comparison of Indigenous philosophies of sustainability, worldviews, and life experiences of American Indians in the United States compared to western society. Emphasis on American Indian philosophical traditions and applied sustainability practices.

Letter grade only (A-F).

340. American Indian Literature (3)

Prerequisite: GE Foundation requirements.

Analysis of the written and oral literacy traditions developed by American Indians. Range of works studied: oral history, tales, myths, song, prayer, poetry, short story, and novel.

Same course as ENGL 340. Not open for credit to student with credit in ENGL 340.

345. Working with American Indian and Indigenous Families (3)

Prerequisites: Completion of General Education Foundation, one or more Explorations courses and upper-division standing.

Systematic study and analysis of the structure and function of American Indian and Indigenous families in the United States. Examine the socioeconomic, political, and cultural factors that influence the family system and explore approaches to working with American Indian and Indigenous families.

Letter grade only (A-F).

400. Advanced Historiography of American Indian People (3)

Introduction to historical writings relating to American Indians. Analyze the attitudes, assumptions, and evidence that have been used to portray American Indian people and the settling of America. Provides a foundation for understanding of how history has been shaped and will advance research skills.

Letter grade only (A-F).

420. American Indian Traditional Material Culture, Arts and Crafts (3)

Prerequisites: AIS 320, or consent of instructor.

Techniques, materials, concepts and processes in the creation of American Indian traditional arts and crafts. Selected artistic projects in the creation of tribal arts.

(Lecture-activity 6 hours.)

450. American Indian and Indigenous Cinema (3)

Prerequisite: Completion of GE Foundation, one or more Explorations courses and upper-division standing.

Examines American Indian and Indigenous self-representation in film. Focus on the history and theory of "Fourth World" cinema production.

Letter grade only (A-F).

Same course as FEA 450. Not open for credit to students with credit in FEA 450.

485. American Indians and the Law (3)

Prerequisites: Completion of the GE Foundation requirement, completion of one or more Exploration courses and upper-division status. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

Provides an in-depth study of the legal relationships between the United States, individual states, Indian people, and Indian Nations. Begins with first contact between Indian people and English colonists and continues to the present time.

Letter grade only (A-F).

490. Selected Topics in American Indian Studies (1-3)

Prerequisite: Consent of instructor.

Topics of current interest in American Indian studies selected for intensive development.

May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*.

497. Fieldwork in American Indian Studies (1-3)

Prerequisites: Upper-division standing, consent of instructor.

Supervised experience relevant to specific aspects of American Indian community in off-campus setting. Project must be related to student's major or certificate program. Regular meetings with faculty supervisor and written reports required.

May be repeated to a maximum of 6 units.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed Studies to permit individual students to pursue topics of special interest.

May be repeated to a maximum of 6 units.

For more information, see www.careers.csulb.edu.)

What is an American? How and why is culture important to our lives and identities? How do we represent the past and what importance—and limitations—do these representations have? How and why does culture—including popular culture, the arts, and literature—serve as a site of social struggle? How do diverse groups within the Americas imagine their identities and their relation to the United States? What happens when we look at our world(s) from a variety of perspectives? These are some of the questions that are addressed in American Studies, an interdisciplinary approach to American history, life, and culture.

American Studies is a vital, malleable, and growing academic enterprise, one known for the new questions it has posed, the new perspectives it has brought to the study of the cultures of the United States, and the new information it has introduced into scholarly and public conversations about national identity and experience. Students in this interdisciplinary program play an active role in their own education, working with the program director to design their own plan of inquiry into various aspects of American society and culture.

The American Studies Program offers a major leading to the bachelor's degree and a minor. Students are strongly

encouraged to meet with the program director at an early stage in their studies for general education and preparatory course recommendations. The program director also provides ongoing advising and career information for American Studies students.

Bachelor of Arts in American Studies (120 units)

Requirements

A minimum of 36 units distributed as follows:

Core courses (21 units):

Take the following courses:

AMST 300 Introduction to American Studies (3)
Prerequisites: None

AMST 350 California Culture (3)
Prerequisites: GE Foundation requirement requirement; upper-division standing
Interdisciplinary examination of the culture of California.

AMST 498 Senior Seminar in American Studies (3)
Prerequisites: Completion of AMST 300 and 18 units of upper-division work in American Studies or affiliated fields.

Take 6 additional units in AMST-designated courses, which include AMST 351, AMST 360, AMST 421 and AMST 495.

Take 3 units from the following courses:

HIST 477A American Cultural History (3)
Prerequisites: None

HIST 477B American Cultural History (3)
Prerequisites: None

Take 3 units from the following courses:

ENGL 372 Comedy in the United States (3)
Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

ENGL 375 U.S. Ethnic Writers (3)
Prerequisites: ENGL 100; GE Foundation requirements.

Elective pattern (15 units):

Students choose a five-course elective pattern in consultation with the program advisor in one of the following areas of concentration. No more than two courses in this elective pattern can come from any one academic department.

1. American Institutions, Ideas, and Experiences
2. Diversity and Difference
3. Popular Culture, Media, and Consumerism
4. Public Culture and Civic Engagement
5. America and the World
6. Student Designed Area of Concentration

Minor in American Studies

Minimum of 18 units.

Take both of the following courses:

AMST 300 Introduction to American Studies (3)
Prerequisites: None

AMST 350 California Culture (3)
Prerequisites: GE Foundation requirement requirement; upper-division standing.

Take one additional AMST-designated course.

Take 9 units chosen in consultation with faculty advisor.

American Studies Courses (AMST)

UPPER DIVISION

300. Introduction to American Studies (3)

Interdisciplinary approaches to study of American civilization from colonial period through twentieth century. Significant issues and problems in American life examined from perspectives of several disciplines.

310. Foodways in Contemporary America (3)

Prerequisites: Completion of GE Foundation Courses

Examines the production and consumption of food in the U.S. after 1945, comparatively exploring issues of race, class, gender, and inter-ethnic relations. Themes include food as "Americanization," "authentic" cuisine, politics of sustainability, and social justice in the food industry.

Letter grade only (A-F).

350. California Culture (3)

Prerequisites: GE Foundation requirement requirement; upper-division standing.

Interdisciplinary examination of California culture. Emphasis on how California's history, politics, environment, social movements, art, and literature produce a contested and always changing culture.

351. Celebrity in American Culture (3)

Prerequisites: GE Foundation requirement; upper-division standing

Interdisciplinary examination of the changing meanings of fame in American society, addressing the production, consumption and cultural work of celebrity.

360. Explorations in American Popular Culture (3)

Prerequisites: GE Foundation requirement; upper-division standing.

Examines broad terrain of American popular culture from multiple disciplinary perspectives, interrogating both the form and content of cultural production and reception in the past and present.

Not open for credit to students with credit in AMST 200.

421. Animals in American Culture (3)

Prerequisites: GE Foundation requirement; upper-division standing

Interdisciplinary examination of the role of non-human animals in making cultural meaning. Traces the many ways in which animals, not just humans, have shaped American history and culture.

495. Selected Topics in American Studies (3)

Prerequisites: GE Foundation; upper-division status.

Topics of current interest in American Studies selected for intensive development.

May be repeated to a maximum of 6 units with different topics in different semesters. Topics announced in *Schedule of Classes*.

498. Senior Seminar in American Studies (3)

Prerequisites: Completion of AMST 300 and 18 units of upper-division work in American Studies or affiliated fields.

Capstone research course for American Studies majors

Letter grade only (A-F).

ANTHROPOLOGY

College of Liberal Arts

Department Chair: Karen Quintiliani

Department Office: Faculty Office FO3-305

Telephone: (562) 985-5171

FAX: (562) 985-4379

Website: <http://www.csulb.edu/depts/anthro>

Faculty: Jayne Howell, Alexandra Jaffe, Wendy Klein, Barbara LeMaster, Carl P. Lipo, Ron Loewe, Hector Neff, Karen Quintiliani, Steven M. Rousso-Schindler, George M. Scott, R. Scott Wilson, Marcus Young Owl

Administrative Coordinator: Mitra Baghdadi

Career Possibilities

Anthropologist • Archaeologist • Archivist • Attorney • Physician Lawyer • Curator • Writer • Researcher • Linguist • Social Worker • Tour Guide • Cultural Resource Manager • Urban Planner • Foreign Service Officer • Personnel Manager • Health Researcher • Immigration Inspector • Teacher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The undergraduate major in Anthropology is designed to provide students with knowledge of the various fields of Anthropology and with opportunities for emphasis in particular topical and geographical interests. The undergraduate minor in Anthropology is recommended for students preparing for careers which will require practical knowledge of different cultural and linguistic backgrounds. The graduate program is designed to meet the needs of students who are seeking to expand their knowledge and increase their competence in anthropology. Graduate students are responsible for observing the general requirements for the M.A. degree as stated in this catalog. It is also recommended that prospective students consult with the Graduate Advisor at their earliest opportunity.

Undergraduate Programs

Bachelor of Arts in Anthropology (120 units)

Lower Division:

Take all of the following courses:

ANTH 110 Introduction to Physical Anthropology (3)
Prerequisites/Corequisites: Any B.2 GE Foundation course.

ANTH 120 Introduction to Cultural Anthropology (3)
Prerequisite/Corequisite: Any GE Foundation course.

ANTH 140 Pyramids, Tombs and Treasure: Wonders of the Past (3)
Prerequisite/Corequisite: Any GE Foundation course.

ANTH 170 Introduction to Linguistics (3)
Prerequisite/Corequisite: Any GE Foundation course.

Take an approved introductory statistics course.

Upper Division (total of 33 units):

Required Core Courses (15 units):

Take all of the following courses:

ANTH 313 World Prehistory (3)

**C" or better required.

Prerequisite: GE Foundation requirement.

ANTH 314 Global Ethnography (3)

**C" or better required.

Prerequisites: GE Foundation requirement.

ANTH 401 Foundations of Anthropology (3)

Prerequisites: ANTH 313 and ANTH 314 with grade of "C" or better, or consent of instructor.

ANTH 435 Human Evolution (3)

Prerequisites: ANTH 110.

Take one of the following:

ANTH 413 Language and Culture (3)

Prerequisite: ANTH 170 or LING 170 or consent of instructor.

ANTH 475 Language and Gender in Cross-Cultural Perspective (3)

Prerequisites: None

An additional 18 units will be selected from the courses listed below. The major allows students to be generalists picking upper-division electives from differing subfields, or to specialize in one or more subfields depending on class availability. Courses are grouped by topic/subfield as a guide for students.

Archaeology:

ANTH 405, ANTH 448, ANTH 449, ANTH 450, ANTH 451, ANTH 473, ANTH 487

Biological Anthropology:

ANTH 315, ANTH 319, ANTH 363, ANTH 402, ANTH 434, ANTH 436, ANTH 437, ANTH 480A

Cultural Anthropology:

ANTH 305, ANTH 307, ANTH 311, ANTH 321, ANTH 322, ANTH 329, ANTH 332, ANTH 448, ANTH 351, ANTH 353, ANTH 412, ANTH 414, ANTH 416, ANTH 417, ANTH 419, ANTH 421, ANTH 422, ANTH 427, ANTH 428, ANTH 431, ANTH 432, ANTH 436, ANTH 440, ANTH 441, ANTH 442, ANTH 444, ANTH 454, ANTH 478

Linguistic Anthropology:

ANTH 412, ANTH 413, ANTH 421, ANTH 475

Students may apply a maximum of 2 Anthropology Capstone courses to the major. Students may apply Anthropology Human Diversity classes to the major.

Students may take a total of 6 units of ANTH 490 and, with approval of the undergraduate advisor and sponsoring faculty members, up to 6 units of ANTH 496, ANTH 498, or ANTH 499.

Minor in Anthropology

A minimum of 21 units in a program approved by the major advisor.

Lower Division Required:

Take all of the following courses:

ANTH 110 Introduction to Physical Anthropology (3)

Prerequisites/Corequisites: Any B.2 GE Foundation course.

ANTH 120 Introduction to Cultural Anthropology (3)

Prerequisite/Corequisite: Any GE Foundation course

ANTH 140 Pyramids, Tombs and Treasure: Wonders of the Past (3)

Prerequisite/Corequisite: Any GE Foundation course.

ANTH 170 Introduction to Linguistics (3)

Prerequisite/Corequisite: Any GE Foundation course.

Upper Division Electives:

Take 9 units of anthropology courses in consultation with the major advisor.

Interdisciplinary Minor in Crosscultural Language and Academic Development Studies

For requirements, see description in the Advanced Studies in Education and Counseling section of this catalog.

Graduate Programs

The department offers a master's degree in anthropology and an option in applied anthropology.

Master of Arts in Anthropology

This a general degree in anthropology comprised of a 9-unit core, 6-unit thesis, and 18-unit elective from courses offered each semester.

Prerequisites

1. A bachelor's degree in anthropology; or
2. A bachelor's degree with 24 units of upper-division courses in anthropology, comparable to those required of anthropology majors at this University;
3. A B.A. degree in any field and other background appropriate to graduate study in anthropology. Students whose background in anthropology seems inadequate may be required to fulfill specific undergraduate deficiencies before admission to candidacy. Deficiencies will be determined by the departmental graduate advisor after consultation with the student and a review of the student's transcript records.

Advancement to Candidacy

1. Acceptance into the M.A. program by the department;
2. Satisfaction of the general University requirements for advancement to candidacy (including fulfilling the GVAR);
3. Approval of the candidate's graduate program by the departmental graduate advisor;
4. The candidate must have taken:
ANTH 501, ANTH 510, and ANTH 560 or ANTH 561 totalling 9 core units.

Requirements

1. A minimum of 33 units of 400-level upper-division and graduate courses, of which 24 units must be at the 500-600 level in a program approved by the Graduate Advisor. These 33 units must include the following courses:

Take all of the following courses:

ANTH 501 Current Trends in Anthropological Theory (3)

Prerequisites: ANTH 401 or equivalent, and graduate standing.

ANTH 510 Proseminar (3)

Prerequisites: Six units of upper-division anthropology courses or consent of instructor.

Take one of the following courses:

ANTH 560 Ethnographic Research Methods (3)

Prerequisite: Graduate standing or consent of instructor.

ANTH 561 Basic Computer Research Applications in Anthropology (3)

Prerequisite: ANTH 560 or consent of instructor.

2. Up to 6 units of course work outside the Department of Anthropology may be included in the 33 unit total;
3. Competence in appropriate research skills. These may include: familiarity with computer languages and use of computers, or statistical training and facility, or a reading knowledge of a foreign language;
4. M.A. Thesis.

Option in Applied Anthropology

This is a 36-unit M.A. option comprised of a 9-unit core, a 15-unit applied core, a 6-unit thesis/project, and 6 elective units.

Within the global context of urban and regional cultural change, the program offers three concentrations: multicultural education, medical/health care, and community/organizations. Regional emphasis begins with the languages, cultures, and organizations of southern California and the Southwest and extends globally.

Prerequisites

1. A bachelor's degree in anthropology; or
2. A bachelor's degree with 24 units of upper-division courses in anthropology, comparable to those required of anthropology majors at this University; or
3. A bachelor's degree in another field, either a social science, humanity, education, or medical science one, with fewer than 24 units of upper-division course work in anthropology, showing evidence of strong potential skills in applied anthropology.

Students under category (3) should submit a petition together with whatever supporting materials as recommended by the Graduate Advisor. If the Graduate Student Committee considers an applicant to lack a basic understanding of anthropological theories and methods, such an applicant will be accepted provisionally into the program (as an unclassified post-baccalaureate student), in which case he/she will be advised to enroll in courses during the first semester recommended by the Committee. Providing that the student performs satisfactorily in these courses, he/she will be admitted into the program the following semester, gaining classified status, and credit will be given for those courses completed the previous semester that are required for the Master of Arts degree.

Advancement to Candidacy

1. Classified status;
2. Satisfaction of the general University requirements for advancement to candidacy (including fulfilling the GVAR);
3. Approval of the candidate's graduate program by the departmental graduate advisor.

Requirements

Students must complete a minimum of 36 units of 400 upper level upper division and graduate courses in a program approved by the Graduate Advisor, including:

1. ANTH 501, ANTH 503, ANTH 505, ANTH 510, ANTH 517, ANTH 530, ANTH 560, ANTH 561 and 6 units of ANTH 698
2. Two upper division/graduate elective courses selected in consultation with the Graduate Advisor
3. Up to 3 units of course work outside the Department of Anthropology may be included in the 36 unit total. Students may substitute other courses for those normally required, but only with the approval of the Graduate Advisor.
4. Students must undertake and satisfactorily complete, under the supervision of the committee, a Thesis or Project.

Anthropology Courses (ANTH)

LOWER DIVISION

110. Introduction to Physical Anthropology (3)

Prerequisites/Corequisites: Any B.2 GE Foundation course.

Physical nature of human beings: relation of humans to other animals: heredity and principles of biological evolution: human fossils: significance of physical variation in modern populations: the origin and adaptive value of technology.

120. Introduction to Cultural Anthropology (3)

Prerequisite/Corequisite: Any GE Foundation course.

Nature of culture; comparative and historical approach to religion, social organization, subsistence patterns and other aspects of cultures around the world; meanings of human nature, cultural universals and cultural differences.

140. Pyramids, Tombs and Treasure: Wonders of the Past (3)

Prerequisite/Corequisite: Any GE Foundation course.

Exploration into the many enigmas that remain in the study of the human past. Investigates how archaeologists are able to produce answers to many enduring problems using a scientific understanding of the archaeological record and material remains.

170. Introduction to Linguistics (3)

Prerequisite/Corequisite: Any GE Foundation course.

Nature of language; its relation to culture; language structure and processes of change; language universals, contrasts and relationships.

Same course as LING 170. Not open for credit to student with credit in LING 170.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

305. Radical Social Analysis (3)

Prerequisite: GE Foundation requirement, one or more Explorations courses and upper-division standing.

Radical examination of society and culture, focusing on classic Marxian texts as well as current critical theory and analysis.

Special emphasis on critiques of capitalism and the effects of global inequality on humanity.

307. Modernization in Global Perspective (3)

Prerequisites: GE Foundation requirement, one or more Explorations courses, and upper-division standing.

Exploration of psychological and material problems in modern society (both western and Third World) due to accelerating change beginning with advance of technology, rise of capitalism, abandonment of "old values," increasing complexity of bureaucracy, and lowering of social barriers.

311. Human Adventure (3)

Prerequisite: GE Foundation requirement, one or more Explorations courses, and upper-division standing.

Exploration of the evolution of key features of humanity from our origins through the present and into the future.

313. World Prehistory (3)

Prerequisite: GE Foundation requirement.

Origin of human beings and their cultures, development of agriculture, growth of city life, and the rise of civilization; a survey of world-wide prehistory from the Old Stone Age to the Iron Age.

314. Global Ethnography (3)

Prerequisites: GE Foundation requirement.

Recent and contemporary cultures around the world; a comparative survey of their ecological adaptations, social institutions, technology, subsistence strategies, degrees of complexity, and patterns of change.

315. Human Variation (3)

Prerequisite: GE Foundation requirement.

Biological variation and differences in modern humans. Biological concepts of biospecies and subspecies. Biological adaptations. Racism and genocide. Rise of the race concept and the social meaning of this concept. Biology of several American ethnic groups.

319. Human Growth and Development (3)

Analysis of the sequence of events in the development of people from conception to death; organ development; rapid and retarded growth patterns; the processes of aging and death from a broad ethnic and ecological perspective.

321. North American Indians (3)

Comparative study of traditional Native American societies, social organization, belief systems and religions, crafts and adaptation to varied environments; cultural changes in response to European contacts.

322. California Indians (3)

Survey of native Californian groups; discussion of the diversity of aboriginal culture prior to western contact as background for analysis of the impact of Europeans; problems of intercultural relations; and the current status of native Californians.

329. Cultural Diversity in California (3)

Prerequisite: GE Foundation requirement. Students must have scored 11 or higher on the GEAR Placement Examination or successfully completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Examination of current cultural diversity in California, including ethnicity, nationality, class, gender, religion, and region; and the impact of this diversity on public institutions will be covered.

Letter grade only (A-F).

332. Chinese Culture and Society (3)

Anthropological perspectives on revolution, socialism, and institutional change in China, ethnic diversity, family and kinship patterns, politics, economy, international relations, and religion in premodern and modern times.

351. Sex Roles and Culture (3)

Interaction of biological, cultural and historical factors on male/female roles and status in traditional and contemporary cultures and societies.

353. Health and Healing (3)

Prerequisite: GE Foundation requirement.

Cultural perspective of health and health care delivery; coverage of diverse cultures in the United States and abroad; emphasis on increasing personal awareness through exposure to diverse perceptions of illness and treatment.

363. Natural History of Primates (3) Prerequisites: ANTH 110.

Relationship of primates to other mammals; adaptation of arboreal mammals; functional and evolutionary aspects of primate anatomy and physiology; effects of size; primate ecology; survey of the Order Primates: Prosimii, Tarsioidea, New World and Old World Monkeys, and Hominoids.

401. Foundations of Anthropology (3)

Prerequisites: ANTH 313 and ANTH 314 with grade of "C" or better, or consent of instructor.

Introduction to history of anthropological theory from inception to current approaches; frames theories in the social context in which they emerged.

Letter grade only (A-F).

402. Evolutionary Theory (3)

Prerequisites: Upper-division standing and ANTH 110 with a grade of "C" or better.

Development of evolutionary thought and its impact on Anthropology; origins of physical anthropology; Mendelian genetics, transmutationalism, populational genetics, Hardy-Weinberg equilibrium, non-Darwinian evolution, and modern synthesis; scientific method, the application of evolutionary theory to human origins, primate biology, and behavioral biology. Current theoretical perspectives.

Letter grade only (A-F).

405. Principles of Archaeology (4)

Prerequisites: ANTH 140 and GE Foundation requirement.

Exploration of the techniques, methods, and goals of archaeological research. Study of ceramics, lithics and other parts of the archaeological record. Examination of issues in sampling, survey, excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena.

Letter grade only (A-F). Not open for credit to students with credit in ANTH 205. Not open for credit to students with credit in ANTH 301. (3 hours lecture, 2 hours activity)

412. Culture and Communication (3)

Prerequisites: GE Foundation requirement, one or more Explorations courses, and upper-division standing.

Culture and its influence on the communication process; practical application to intercultural and multicultural situations; cultural patterns in America and abroad and their effect on verbal and nonverbal communicative behavior; cultural dimensions of ethnocentrism, stereotypes, and prejudices and their effect on communication; multicultural approaches to human interaction.

413. Language and Culture (3)

Prerequisites: ANTH 170 or LING 170 or consent of instructor.

Relation of language to social and cultural practices and processes; issues of meaning, identity and power within and across cultures.

Same course as LING 413. Not open for credit to students with credit in LING 413.

414./514. Anthropology of Religion (3)

Prerequisites: ANTH 120 and upper-division/graduate standing or consent of instructor.

Anthropological examination of religious behavior and beliefs, which focuses on these phenomena in sociocultural and adaptive contexts. Using the cross-cultural and cultural evolutionary approach, hunter-gatherer religions through civilized ones will be covered.

Letter grade only (A-F).

416./516. Urban Anthropology (3)

Comparative analysis of development and role of urban centers in ancient and modern cultures; interrelationships of urban and rural populations; patterns of similarity and difference in urbanism of contrasting cultures; implications for a multi-national world.

417./517. Applied Anthropology (3)

Prerequisites: ANTH 120 and upper-division/graduate standing or consent of instructor.

Brief orientation to applied anthropology, its history and ethics; policy and applied anthropology domains (needs assessment, program evaluation, social impact assessment, environmental, advocacy); applied research methods; student proposals for internship research.

419./519. Encounters and Identities (3)

Prerequisite: Graduate and advanced undergraduate students.

Examination of how cultural anthropologists have dealt, theoretically, with the concept of identity; concentrates more on theories than geographic regions, emphasis on recent theoretical developments such as post-modern and post-colonial approaches to the study of contemporary subjectivities.

Letter grade only (A-F).

421. Education Across Cultures (3)

Prerequisites: GE Foundation requirements, one or more Exploration, and upper-division standing.

Cross cultural perspectives on formal and informal education and socialization, using theory and methods from anthropology and linguistics. Cultural variation in schooling and multiculturalism in U.S. American classrooms. Cultural, linguistic and educational issues facing indigenous, minority and immigrant populations in schools.

Same course as LING 425. Not open for credit to students with credit in LING 425.

422./522. The Anthropology of Gender (3)

Prerequisites: Upper-division standing and ANTH 351 or consent of instructor.

Examines anthropological perspectives on gender and how these perspectives have challenged and transformed anthropology and feminism; class will locate gender relations in the production of anthropological knowledge, in colonial and postcolonial social fields, and in the movement of global capitalism.

Letter grade only (A-F).

427./527. Global East Asia (3)

Prerequisites: Graduate and advanced undergraduate students.

Examine of how socio-cultural formations in an East Asian context articulate with global flows of capital, people, and ideas.

Letter grade only (A-F).

428./528. Historical Ethnography (3)

Prerequisite: Consent of instructor.

Development of the specialization of historical ethnography in anthropology, combined ethnographic and historical approaches to ethnographic questions, methodological and theoretical issues in historical ethnography.

Letter grade only (A-F).

431./531. New Media Ethnography (3)

Prerequisite: ANTH 120 or consent of instructor.

Theory and techniques in the planning, production and presentation of multimedia and hypermedia ethnography. Students will work in production teams to produce an ethnography that takes advantage of different modes of ethnographic research and presentation (i.e., interactive video, photography, print, sound).

Letter grade only (A-F). Course fee may be required. (Lecture 2 hours; Lab 2 hours)

432. Peoples of Mexico and Central America (3)

Survey of present-day peoples of Mexico and Central America; indigenous and mestizo cultures and their heritage; examination of recent change.

Not open for credit to students with credit in ANTH 323.

434. Primate Evolution (3)

Prerequisite: ANTH 110. Recommended: ANTH 363, upper-division physical anthropology, biology, or anatomy/physiology course.

Primate evolutionary biology, minus the sub-family hominidae; fossil record and analysis of fossils (through the use of fossil casts); detailed cranial anatomy (particularly teeth) examined in the laboratory section; literature on primate evolution surveyed.

(Lecture 2 hours, Lab 3 hours)

435. Human Evolution (3)

Prerequisites: ANTH 110.

Fossil and molecular evidence for human evolution with a consideration of the importance of cultural factors.

436. Medical Anthropology (3)

Prerequisites: ANTH 353 recommended.

Interaction of cultural, biological and environmental elements in human response to disease; emphasis on an ecosystem approach with evolutionary and comparative perspectives.

437. Primate Ecology (3)

Prerequisite: ANTH 110 or a comparable biology course with a grade of "C" or better; ANTH 363 recommended.

Survey of interaction of primates with their environment. Focus on physiological ecology, nutritional ecology, chemical ecology, population ecology and behavioral ecology of primate species.

Letter grade only (A-F). (Lecture 3 hours)

440. Ethnographic Field School (3-6)

Prerequisite: Consent of instructor.

Experiential course gives opportunity to apply standard ethnographic methods to study, observe, and learn about a non-U.S. culture. Analysis of methodology and data collection will occur throughout the course. Location, topics and activities will vary.

Letter grade only (A-F).

441./541. Ethnographic Film Production I (3)

Prerequisite: ANTH 120 or consent of instructor

Intermediate-level theory and methodology for ethnographic/documentary film production. Students will work in teams and learn the fundamentals of how to produce an ethnographic film from conception through completion using professional-quality production and post-production equipment.

Letter grade only (A-F). Course fee may be required. (Lecture 2 hours; Lab 2 hours)

442./542. Ethnographic Film Production II (4)

Prerequisite: ANTH 120 and ANTH 441/541 or consent of instructor

Advanced-level theory and methodology for ethnographic/documentary film production. Students will work in teams and learn the fundamentals of how to produce an ethnographic film from conception through completion using professional-quality production and post-production equipment.

Letter grade only (A-F). Course fee may be required. (Lecture 3 hours; Lab 2 hours)

444./544. Transnational Migrants (3)

Prerequisites: ANTH 120 and upper-division/graduate standing or consent of instructor.

Anthropological examination of the lives of immigrants and refugees. Explores the way studies of migration challenge

our understanding of the local context of globalization and transnationalism. Focus on theories of culture, ethnicity, and identity as well as theories of incorporation, adaptation and nativism and the relevance of applied anthropology through research and advocacy.

Letter grade only (A-F).

448. Ancient Civilizations of Mexico and Central America (3)

Origin and growth of the Aztec, Maya and other civilizations of Mexico and Central America.

Not open for credit to students with credit in ANTH 345.

449. Prehistoric Cultures of North America (3)

Archaeological evidence of origin and growth of the native American cultures north of Mexico; regional cultures and broad continental patterns of development.

Not open for credit to students with credit in ANTH 347.

450. Archaeological Field Research (1-10)

Prerequisite: Consent of instructor.

Introduction to field acquisition of archaeological data through remote sensing, geophysics, survey, and excavation; instructional emphasis is on recovery, recording techniques, and the management of field projects; locations will vary and may be offered on Saturdays.

May be repeated to a maximum of 10 units in different semesters. Course fee may be required.

451. Archaeological Artifacts Analyses (4)

Prerequisite: ANTH 140 or equivalent.

Study of the products of human activity; nature of measurement and observation within the archaeological record; explanations of artifact variability. Study of lithics, ceramics, and other types of archaeological materials. Practical experience in the study of materials, sampling, and errors.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters, with different instructors. (Lec 3 hrs, Lab 2 hrs)

454. Culture and Aging (3)

Cultural perspectives on aging and the aged in America and elsewhere. Attention to insider views from specific societies and to comparison of aging concerns in diverse settings.

458. Ethnographic Methods (3)

Prerequisites: ANTH 110, ANTH 120, ANTH 140, and ANTH 170 or consent of instructor.

Introduction to purposes of cultural anthropology fieldwork, methodology used to collect ethnographic data, and ways of analyzing and reporting data collected; focus on identifying and defining research problems and populations, and ethical issues that arise when conducting research.

473. Archaeology of California (3)

Prerequisites: ANTH 140 or ANTH 313 or ANTH 405.

Overview of the archaeology of California, from initial human colonization through European contact. Emphasis on environmental change, human-environment interactions, the development of social complexity, and the consequences of European colonization.

Letter grade only (A-F).

475. Language and Gender in Cross-Cultural Perspective (3)

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions of perceptions and stereotypes and their effect on communication.

Same course as LING 470, WGSS 475. Not open for credit to students with credit in LING 470, WGSS 475.

478. Anthropology and Film (3)

Prerequisite: One lower-division anthropology course or consent of instructor.

This seminar critically analyzes issues of an anthropological nature as presented in ethnographic and commercial films. Representations of anthropologists, anthropological theories and methods, and populations and concerns of anthropological interest are contrasted with scholarship published on the same issues.

Letter grade only (A-F) for majors/minors.

480A. Osteology I (3)

Introduction to skeletal anatomy, measurement and analysis of osteological collections, applied anthropometrics and morphometrics.

(Lecture 2 hours, Lab 3 hours)

487. Cultural Resource Management (3)

Prerequisite: ANTH 405.

Introduction to the practice of public archaeology in the United States: historical and legal background; federal, state, and local programs; archaeology and Native Americans; contract archaeology; survey, evaluation, and mitigation projects; professional employment in U.S. cultural resource management.

Letter grade only (A-F).

490. Selected Topics in Anthropology (3)

Topics of current interest in anthropology selected for intensive development.

May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*. Course fee may be required.

496. Internship (3)

Prerequisites: Upper-division standing, approval of faculty mentor.

Supervised internship in an area of anthropology within or outside the University; field experience of 90 hours in which the student gains practical experience in an area of anthropology.

Credit /No Credit grading only.

498. Senior Thesis (1-6)

Prerequisites: Open only to Anthropology major, senior standing, and consent of a faculty mentor.

Research for and writing of a senior thesis under the direction and guidance of an Anthropology Department faculty mentor.

Letter grade only (A-F).

499. Guided Studies in Anthropology (1-3)

Prerequisite: Consent of department.

Selected topics in anthropology and preparation of a research report.

May be repeated to a maximum of 6 units.

GRADUATE LEVEL

501. Current Trends in Anthropological Theory (3)

Prerequisites: ANTH 401 or equivalent, and graduate standing.

Examination of current themes used by leading anthropologists in the areas of our graduate program, i.e., Applied Anthropology, Linguistic Anthropology, and Archaeology. Investigation of how theories shape problems and analytic techniques, and what makes theory 'cutting edge'.

Letter grade only (A-F).

503. The Anthropological Perspective (3)

Prerequisite: Graduate standing or consent of instructor.

Through reading and discussion of ethnographies; reports of applied anthropological work; reviews of the scientific understanding of the process of inquiry and action in the human sciences; leading to the identification of a common core perspective within anthropology.

Letter grade only (A-F).

505. Practicing Anthropology (3)

Prerequisite: Graduate standing or consent of instructor.

Review of practical contributions by anthropologists in non-academic settings; attention to specific skills used by practicing anthropologists; business writing including resumes, contracts; oral presentations using audiovisual aides; internal and external contracting; time management; project management; working across disciplines; and ethics.

Letter grade only (A-F).

510. Proseminar (3)

Prerequisites: Six units of upper-division anthropology courses or consent of instructor.

Development of proposal planning, budgeting, and writing skills, particularly in applied anthropology, linguistics, and archaeology; both academic and contract/consulting types of proposals will be covered.

Letter grade only (A-F).

514./414. Anthropology of Religion (3)

Prerequisite: ANTH 120 and upper-division/graduate standing or consent of instructor.

Anthropological examination of religious behavior and beliefs, which will focus on these phenomena in their sociocultural and adaptive contexts using cross-cultural and cultural evolutionary approaches of hunter-gatherer religions through current ones.

Letter grade only (A-F).

516./416. Urban Anthropology (3)

Comparative analysis of development and role of urban centers in ancient and modern cultures; interrelationships of urban and rural populations; patterns of similarity and difference in urbanism of contrasting cultures; implications for a multi-national world.

Letter grade only (A-F).

517./417. Applied Anthropology (3)

Prerequisites: ANTH 120 and upper-division/graduate standing or consent of instructor.

Brief orientation to applied anthropology, its history and ethics; policy and applied anthropology domains (needs assessment, program evaluation, social impact assessment, environmental, advocacy); applied research methods; student proposals for internship research.

Letter grade only (A-F).

519./419. Encounters and Identities (3)

Prerequisite: Graduate and advanced undergraduate students.

Examination of how cultural anthropologists have dealt, theoretically, with the concept of identity; concentrates more on theories than geographic regions, emphasis on recent theoretical developments such as post-modern and post-colonial approaches to the study of contemporary subjectivities.

Letter grade only (A-F).

522./422. The Anthropology of Gender (3)

Prerequisite: Graduate standing or consent of instructor (ANTH 351 recommended).

Examines anthropological perspectives on gender and how these perspectives have challenged and transformed anthropology and feminism; class will locate gender relations in the production of anthropological knowledge, in colonial and postcolonial social fields, and in the movement of global capitalism.

Letter grade only (A-F).

527./427. Global East Asia (3)

Prerequisites: Graduate and advanced undergraduate students.

Examine how socio-cultural formations in an East Asian context articulate with global flows of capital, people, and ideas.

Letter grade only (A-F).

528./428. Historical Ethnography (3)

Prerequisite: Graduate standing or consent of instructor.

Development of the specialization of historical ethnography in anthropology, combined ethnographic and historical approaches to ethnographic questions, methodological and theoretical issues in historical ethnography.

Letter grade only (A-F).

530. Ethnography of Communication (3)

Prerequisite: Graduate standing.

Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Among the major topics presented from this perspective are language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy.

Letter grade only (A-F). Same course as LING 533. Not open for credit to student with credit in LING 533.

531./431. New Media Ethnography (3)

Prerequisite: Graduate standing or consent of instructor.

Theory and techniques in the planning, production and presentation of multimedia and hypermedia ethnography. Students will work in production teams to produce an ethnography that takes advantage of different modes of ethnographic research and presentation (i.e., interactive video, photography, print, sound).

Letter grade only (A-F). Course fee may be required. (Lecture 2 hours; Lab 2 hours)

540. Ethnographic Field School (3-6)

Prerequisite: Consent of instructor.

This experiential course gives students an opportunity to apply standard ethnographic methods to study, observe, and learn about a non-U.S. culture. Analysis of methodology and data collection will occur throughout the course. Location, topics and activities will vary.

Letter grade only (A-F).

541./441. Ethnographic Film Production I (3)

Prerequisite: Consent of instructor

Intermediate-level theory and methodology for ethnographic/documentary film production. Students will work in teams and learn the fundamentals of how to produce an ethnographic film from conception through completion using professional-quality production and post-production equipment.

Letter grade only (A-F). Course fee may be required. (Lecture 2 hours; Lab 2 hours)

542./442. Ethnographic Film Production II (4)

Prerequisite: Consent of instructor

Advanced-level theory and methodology for ethnographic/documentary film production. Students will work in teams and learn the fundamentals of how to produce an ethnographic film from conception through completion using professional-quality production and post-production equipment.

Letter grade only (A-F). Course fee may be required. (Lecture 3 hours; Lab 2 hours)

544./444. Transnational Migrants (3)

Prerequisites: Graduate standing or consent of instructor

Anthropological examination of the lives of immigrants and refugees. Explores the way studies of migration challenge our understanding of the local context of globalization and transnationalism. Focus on theories of culture, ethnicity, and identity as well as theories of incorporation, adaptation and nativism and the relevance of applied anthropology through research and advocacy.

Letter grade only (A-F).

560. Ethnographic Research Methods (3)

Prerequisite: Graduate standing or consent of instructor.

A practice-oriented seminar in ethnographic research methodology, emphasizing techniques, methods, and concepts of ethnographic research. The course examines several qualitative, in-depth methods used by anthropologists as well as research design and research ethics.

561. Basic Computer Research Applications in Anthropology (3)

Prerequisite: ANTH 560 or consent of instructor.

Basic qualitative and quantitative computer methods employing currently appropriate software and statistical techniques. Methods covered will be specifically related to research in archaeology and applied anthropology; and the presentation of results, as well as various research problems, will be addressed.

Letter grade only (A-F).

570. Linguistic Field Methods (3)

Prerequisite: LING 420 and LING 421, or consent of instructor.

Introduction to linguistic field work with a native speaker of an unfamiliar non-European language. Phonetic transcription and investigation of phonological, morphological, and syntactic structures of the selected language within the context of linguistic universals.

Letter grade only (A-F). Same course as LING 580. Not open for credit to students with credit in LING 580. May be repeated for a maximum of 6 units with different topics in different semesters. May be taken more than once if the language under investigation differs.

597. Directed Readings in Anthropology (1-3)

Prerequisites: Senior or graduate standing and consent of instructor.

Selected topics in anthropology will be studied in depth. A written report will be prepared.

Letter grade only (A-F).

600. Seminar in Ethnology and Social Anthropology (3)

Topics of substantive and theoretical importance and their application to research problems.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*. Course fee may be required.

620. Seminar in Archaeology (3)

Prerequisites: Six upper-division units in archaeological courses or consent of instructor.

Important recent discoveries; contemporary ideas, trends and problems.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

630. Seminar in Anthropological Linguistics (3)

Prerequisite: Consent of instructor.

Areas and methods of linguistic study and research; evaluation and intensive scrutiny.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

697. Directed Research (1-3)

Prerequisite: Consent of department.

Research in anthropology on an individual basis.

Letter grade only (A-F).

698. Thesis or Applied Project (3)

Prerequisite: Consent of department.

Planning, preparation, and completion of a thesis or an applied project in anthropology.

Letter grade only (A-F). May be repeated to a maximum of 6 units with the same topic in the same semester.

SCHOOL OF ART

College of the Arts

School Director: Dr. Karen Klienfeldert

School Telephone / FAX: (562) 985-4376 / 985-1650

Administrative Office: Fine Arts (FA) 4, Room 106

Administrative Coordinator: Karen Warner, (562) 985-7907

School of Art Advising Center and Student Services:
Fine Arts (FA) 4, Room 102, (562) 985-7819

Director, Undergraduate Advising: Melissa Ledesma

Undergraduate Advisors: Kristen Sumpter

Graduate Advisor: Rebecca Sittler-SCHrock (562) 985-7910

Advising Center Support Coordinator: Michael Nannery

Undergraduate Advisor: Nancy De Rosa

Faculty: Jeffery Atherton, Margaret Black, Kendall Brown, Andrew Byrom, Bryan Crockett, Tanya Cummings, Laurie Gatlin, Todd Gray, Peter Holliday, Tor Hovind, Yu Ji, Karen Kleinfelder, Thomas J. Krumpak, Jay Kvapil, Anthony Marsh, Mark Michelon, Christopher Miles, Chris Miller, Aubry Mintz, Kimiko Miyoshi, Catha Paquette, Sunook Park, Mariah Proctor-Tiffany, Robin Richesson, Kyle Riedel, Mark Ruwedel, Roxanne Sexauer, Nizan Shaked, Fran Siegel, Carlos Silveira, Matthew Simms, Rebecca Sittler Schrock, Marian Stewart, Craig C. Stone, Ryan Taber, Marie Thibeault, Michael Whitlow, B. Shimbe Shim

Career Possibilities

Advertising Consultant or Designer • Animator • Architectural Blacksmith • Architectural Illustrator • Art Advisor • Art Appraiser • Art Buyer • Art Consultant • Art Critic • Art Director • Art Educator • Art Fabricator • Art Historian • Art Journalist • Artist • Art Librarian • Art Publicist • Art Therapist • Author • Backdrop Designer • Billboard Artist • CAD Designer • Caricaturist • Cartographer • Cartoonist • Ceramic Artist • Ceramic Designer • Commercial Artist • Commercial Photographer • Community Activist • Community Artist • Community Arts Instructor • Concept Illustrator • Conservator • Digital Fabrication • Digital/new media artist • Director • Display Designer Commercial • Display Designer Retail • Documentarian • Drawer • Editor • Fashion Illustrator • Fiber Artist • Fine Art Photographer • Gallery Director • Graphic Designer • Illustrator • Information Architect • Interactive Media Designer • Installation Artist • Jewelry Designer • Master Printer • Medical Illustrator • Metalsmith • Metals Artist • Muralist • Museum Curator • Museum Educator • Museum Registrar • Museum Staff • Painter • Performance Artist • Photographer • Photo Journalist • Police Sketch Artist • Preparator • Printmaker • Prop Fabricator • Public Artist • Renderer • Sculptor • Set Decorator • Set Designer • Storyboard Artist • Technical Illustrator • Textile Designer • Video Artist • Videographer • Web Designer • Wood Artist • Wood Worker

(Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The diversity of the School of Art programs, the quality of instruction, and the professional caliber of its faculty all combine to provide an exceptional opportunity and challenge to students seeking meaningful educational experiences and careers in the visual arts.

The School of Art may request projects completed by students for class credit be retained by the School of Art for a short specified period for the purposes of promotion and exhibition.

Ceramics, Drawing and Painting, Fibers, Illustration/Animation, Metals, Photography, Printmaking, Sculpture/4D, Visual Communication Design, and Wood

Certificates

Museum and Curatorial Studies
Biomedical Art

Accreditation

The University is an accredited institutional member of the National Association of Schools of Art and Design (National Association of Schools of Art and Design, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

Admission Under Impaction

Bachelor of Arts in Studio Art

Bachelor of Fine Arts

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html

Admission to Baccalaureate Degree Options in Art Education, Art History, Studio Art or Bachelor of Fine Arts

The number of applicants to programs in Art usually exceeds the number that can be accommodated. For this reason, the school has been authorized by the California State University to apply supplemental admission criteria. Admission is on a competitive basis, and continuing CSULB students and transfer applicants will be considered equally.

Freshmen applying to the university as Art Education or Art History majors will be admitted as Pre-Art Education or Pre-Art History majors. Students applying to the B.A. in the

Option in Studio Art or to one of the BFA degree options will be admitted as pre-Studio Art majors. Admission as a pre-Art Education, pre-Art History, or pre- Studio Art major does not guarantee admission to the major.

Continuing students must apply for admission to an option (Art Education, Art History or Studio Art) during the semester they have earned 45 units after all supplemental admission criteria has been met. Applications must be submitted at such a date so that students can be admitted to an option by the time they reach 60 units.

Transfer applicants must apply during the initial filing period and must designate the major on the application. Students who are not admitted to the major may be admitted to an alternate major if they have listed one on the application. (See CSULB Enrollment Services Website)

Transfer students who qualify for admission to the university may be admitted to the B.A. in the Option in Art Education, Art History or Studio Art, if they meet the supplemental admissions criteria for admission to the major. Students applying to a B.F.A. option must supply a portfolio of their creative work to the School of Art as part of the application process. (See CSULB Enrollment Services Website)

Students interested in a BFA program may apply to the BFA program (Art Photography, Ceramics, Drawing and Painting, Illustration, 3-D Media: Fiber, Metal or Wood, Printmaking, Sculpture, or Graphic Design Options) when they have completed a minimum of 60 units, but may not apply after they have completed more than a maximum of 96 units.

Admission Procedures for Change of Major

Currently enrolled students who are undeclared or majors in other departments and who wish to apply for admission to any of the degree option programs in Art must meet the current supplemental criteria for admission to major. (See CSULB Enrollment Services Website)

Students applying for the B.F.A. degree programs in Art must also submit a portfolio of their creative work.

Undergraduate Programs

Bachelor of Arts in Art

Option in Studio Art (120 units)

Requirements

Lower Division:

Take the following courses:

ART 101 Artists in Their Own Words (3)
Prerequisite: None

AH 111A Foundation Art History I (3)
**C" or better
Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)
**C" or better
Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

Take 3 units of the following:
100-level AH (3)

Take one of the following courses:

ART 101 Artists in Their Own Words (3)
Prerequisite: None

DESN 300 Designers in Their Own Words (3)
Prerequisites: AH 111A and AH 111B or consent of instructor.

Take all the following courses:

ART 130 Foundation Two-Dimensional (3)
**C" or better
Prerequisite: None

ART 131 Foundation Three Dimensional (3)
**C" or better
Prerequisite: None

ART 181 Foundation Drawing (3)
Prerequisite: None

ART 184 Foundation Life Drawing (3)
Prerequisite: ART 181

Take one of the following courses:

ART 221 Shop Orientation (1)
Prerequisite: None

ART 254 Introduction to Wood (3)
Prerequisites: ART 130, ART 131, AH 111A or AH 111B, or consent of instructor.

Take one of the following courses:

ART 132 Foundation Color Theory (3)
Prerequisite/Corequisite: ART 130

ART 287 Introduction to Painting (3)
Prerequisites: ART 130, ART 181

Take one course from the following:

ART 132, ART 149, ART 223, ART 241, ART 270, ART 271, ART 287, ART 291

Take one course from the following:

ART 251A, ART 251B, ART 254, ART 257, ART 261, ART 263, ART 265

Take one course from the following:

ART 132, ART 149, ART 223, ART 241, ART 251A, ART 251B, ART 254, ART 257, ART 261, ART 263, ART 265, ART 270, ART 271, ART 287, ART 291

Upper Division:

Take 9 units of Art History;

Take one course from two of the following programs:
Drawing and Painting, Printmaking, Illustration, Photography, Graphic Design;

Take one course from two of the following programs:
Ceramics, Fiber, Metal, Sculpture/4D, or Wood;

Take 12 upper division units from one of the following programs:

Art History, Art Education, Ceramics, Drawing and Painting, Fiber, Graphic Design, Illustration, Metal, Photography, Printmaking, Sculpture/4D, Wood.

Option in Art History (120 units)

Requirements

Lower Division:

Take all the following:

AH 111A Foundation Art History I (3)
**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)
**C" or better

Prerequisites: Completion/current enrollment in GE A1

(Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

Take one of the following:

HIST 131 Early Western Civilization (3)

Corequisite: ENGL 100

HIST 132 Modern Western Civilization (3)

Corequisite: ENGL 100

Take 3 courses from the following:

AH 112; either AH 113A or AH 113B; and either AH 114 or AH 116

Take one course from the following:

ART 181, ART 184, ART 263, ART 287

Upper Division Art History:

Take the following:

AH 447 Historiography of Art History (3)

Prerequisites: Undergraduate Art History major with senior standing or consent of instructor

Take one of the following:

ART 311 Writing about Art (3)

Prerequisites: BA or BFA student or consent of instructor. GE Foundation completed, upper division standing. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

AH 446 Art History Methodologies and Writing (3)

Prerequisites: Undergraduate Art History major with senior standing or consent of instructor.

Take one course from the following:

AH 415, AH 448, AH 449, AH 450

Take 3 courses from one of the following 6 groups, plus one course from each of the remaining 5 groups:

1. AH 416, AH 417, AH 465, AH 408, AH 409, AH 497
2. AH 410, AH 423, AH 424, AH 425, AH 426, AH 427, AH 497
3. AH 400, AH 401, AH 402, AH 431, AH 436, AH 437, AH 455, AH 456, AH 497
4. AH 411, AH 430, AH 438, AH 439, AH 441, AH 497
5. AH 466, AH 467, AH 468, AH 469, AH 470A, AH 470B, AH 471A, AH 471B, AH 471C, AH 497
6. AH 457A, AH 457B, AH 457C, AH 458, AH 459, AH 460, AH 497

One of the 8 courses from these groups should be: AH 497

Foreign Language Requirement:

Complete three semesters of French or German (or other pre-approved foreign language) with a GPA of 2.75 or better.

Option in Art Education (120 units)

Requirements

Lower Division:

Take all of the following:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional Design (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 251A Introduction to Ceramics: Hand-building (3)

Prerequisites/Corequisites: ART 131

ART 251B Intro to Ceramics: Wheel Throwing (3)

Prerequisites/Corequisites: ART 131

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Take 3 units of the following:

100-level AH (Non-West)

Upper Division:

Take all of the following:

ART 305 Art Disciplines and New Technology (3)

Prerequisites: Completion of 12 units of Art Foundation

ART 401 Cross-Cultural Perspective in Art Education (3)

Prerequisites: Completion of 12 units of Art Foundation

ART 407 Art Practicum (3)

Prerequisite: Completion of 12 units of Art Foundation

ART 408 Perspectives in Contemporary Art Education (3)

Prerequisite: None

ART 412 Aesthetic Theories in Art Education (3)

Prerequisite: None

ART 415 On-Site Studies in Art Education (3)

Prerequisite: None

Take one of the following:

AH 438 Art of Early to Mid Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor

AH 439 Art of Mid to Late Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor

Take one course from the following:

AH 455, AH 456, AH 457C, AH 458, AH 466, AH 467, AH

468, AH 469, AH 470A, AH 470B, AH 471A, AH 471B

Take five courses from the following:

ART 317, ART 328A, ART 340, ART 341A, ART 341B, ART 342A, ART 349, ART 355, ART 356, ART 357A, ART 357B, ART 358A, ART 359A, ART 367A, ART 363A, ART 370, ART 371A, ART 371B, ART 376, ART 377, ART 381, ART 383, ART 384, ART 385, ART 387, ART 408, ART 450A

Single Subject Teaching Credential in Art

In addition to meeting the subject matter competence requirement for the Single Subject Teaching Credential in Art through the Option in Art Education major, prospective art teachers are also required to complete 45 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses in their junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this catalog or the Single Subject Credential Program website (www.ced.csulb.edu/)

single-subject) for a description of the professional preparation requirements, courses, and application procedures. Before student teaching in art, students must pass a portfolio review. A passing score on the CBEST is also required. For information concerning requirements for the B.A. program, teacher preparation, as well as the fifth year for the credential, consult the art education advisor.

Bachelor of Fine Arts

The Bachelor of Fine Arts degree is offered for the student eventually seeking a Master of Fine Arts degree, the position of a professional artist or designer, and for teaching studio art within a selected specialization. The B.F.A. degree program is demanding, requiring high quality performance in order to develop the professional competence of talented students toward successful entrance into the professional art field.

To remain a B.F.A. candidate, a successful student must maintain a specified minimum GPA in their discipline. See Program Options for specific GPA requirements.

Option in 3-D Media (Fiber, Metal or Wood) (132 units)

Students who fall below a GPA of 3.0 in upper division courses in their area for two consecutive semesters will be removed from this B.F.A .

Requirements

Lower Division:

Take all of the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisite: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 263 Introduction to Sculpture/4D (3)

Prerequisites: ART 131 or consent of instructor

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

For Fiber and Metals Specialization, take the following course:

ART 221 Shop Orientation (1)

Prerequisite: None

For Wood Specialization Take:

ART 254 Introduction to Wood (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B; or consent of instructor

Take 3 units of the following:

100-level AH

Take one of the following courses:

ART 251A Introduction to Beginning Ceramics:

Handbuilding (3)

Prerequisites/Corequisites: ART 131

ART 251B Introduction to Beginning Ceramics: Wheel Throwing (3)

Prerequisites/Corequisites: ART 131

ART 254 Introduction to Wood (3)

Prerequisites: ART 130, ART 131, AH 111A or AH 111B; or consent of instructor.

ART 257 Introduction to Metals (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B

ART 265 Introduction to Fiber (3)

Prerequisites: ART 130, ART 131

Take one of the following courses:

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 261 Introduction to Life Sculpture (3)

Prerequisite/Corequisite: ART 131 or ART 181; AH 111A or AH 111B, or consent of instructor.

Upper Division:

Take one of the following specializations:

Fiber

Take all of the following courses:

ART 316 Fiber: Pattern Design and Printing (3)

Prerequisites: ART 130, ART 131, ART 287; AH 111A, AH 111B.

ART 317 Fiber: Textile Dyeing (3)

Prerequisites: ART 130, ART 131, ART 287; AH 111A, AH 111B.

ART 328A Fiber and Mixed Media: Sculptural Forms (3)

Prerequisites: ART 130, ART 131, AH 111A, AH 111B

ART 388 Advanced Studies in Color (3)

Prerequisites/Corequisites: ART 130, ART 287; AH 111A, AH 111B.

ART 428A Fiber: Weaving, Dyeing, Woven Structures (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B.

ART 430. Artist Books and Paper (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B

ART 432 Fiber and Mixed Media: Advanced (3)

Prerequisites: ART 130, ART 131, ART 181; ART 132 or ART 287; ART 317 or ART 328A; ART 428A or ART 430.

ART 491B 3-D Media: Senior Project (1)

Prerequisite: 3-D Media major or consent of instructor

ART 499N Special Studies in Fiber and Mixed Media (3)

Prerequisite: 3-D Media major or consent of instructor

Take one of the following courses:

ART 328B, ART 428B.

Take 9 units of AH

Take 6 units ART outside the specialization.

Metal

Take all of the following courses:

ART 357A Metals and Jewelry (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B or consent of instructor

ART 357B Metal and Jewelry Design (3)

Prerequisite: ART 130, ART 131; AH 111A or AH 111B; or consent of instructor

ART 358A Metalsmithing (3)

Prerequisite: ART 357A

ART 358B Intermediate Metalsmithing (3)

Prerequisite: ART 357A

ART 458A Adv Metalsmithing/Jewelry & Enameling (3)

Prerequisites: ART 357B, ART 358B or consent of instructor

ART 458B Adv Metalsmithing/Jewelry & Enameling (3)

Prerequisites: ART 357B, ART 358B or consent of instructor

ART 491B 3-D Media: Senior Project (1)

Prerequisite: 3-D Media major or consent of instructor

Take 9 units from the following courses:

ART 355, ART 356, ART 359A, ART 359B, or ART 499J

Take 9 units AH

Take 6 units ART outside the specialization

Wood

Take all of the following courses:

ART 353 Drafting and Model Making for 3D Art Objects (3)

Prerequisites: ART 130, ART 131, ART 181; ART 221 or ART 254; AH 111B or consent of instructor.

ART 354A Intermediate Wood A (3)

Prerequisites: ART 130, ART 131, ART 181; ART 221 or ART 254; AH 111A or AH 111B.

ART 354B Intermediate Wood B (3)

Prerequisites: ART 354A or consent of instructor

ART 381 Intermediate Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B

ART 454A Advanced Wood (3)

Prerequisites: ART 354A and ART 354B

ART 454B Advanced Wood (3)

Prerequisites: ART 354A and ART 354B

ART 491B 3-D Media: Senior Project (1)

Prerequisite: 3-D Media major or consent of instructor

Take the following course for 9 units:

ART 499B Special Studies in Wood (9)

Prerequisite: ART 354B or consent of instructor

Take 9 units of AH

Take 6 units of ART outside the specialization

Option in Ceramics (132 units)

Students who fall below a GPA of 3.0 in upper division courses in Ceramics for two consecutive semesters will be removed from this B.F.A. program.

Requirements

Lower Division:

Take all of the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 251A Introduction to Ceramics: Handbuilding (3)

Prerequisites/Corequisites: ART 131

ART 251B Intro to Ceramics: Wheel Throwing (3)

Prerequisites/Corequisites: ART 131

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Take 3 units of the following:

100-level AH

Take one of the following courses:

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 261 Introduction to Life Sculpture (3)

Prerequisite/Corequisite: ART 131 or ART 181; AH 111A or AH 111B, or consent of instructor.

Upper Division:

Take all of the following courses:

ART 311 Writing about Art (3).

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GWAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GWAR Writing Intensive Capstone.

ART 341A Intermediate Ceramics: Handbuilding (3)

Prerequisites: ART 131, ART 251A; AH 111A or AH 111B.

ART 341B Intermediate Ceramics: Wheel Throwing (3)

Prerequisites: ART 131, ART 251B; AH 111A or AH 111B.

ART 343A Ceramics Sculpture (3)

Prerequisites: ART 341A

ART 343B Advanced Wheel Throwing (3)

Prerequisites: ART 341B

ART 352A Ceramics: Glaze Technology (3)

Prerequisites: ART 131, ART 251A or ART 251B; AH 111A or AH 111B.

ART 352B Ceramics Plaster Shop (3)

Prerequisites: ART 251A or ART 251B; AH 111A or AH 111B.

ART 451A Advanced Ceramics (3)

Prerequisite: ART 343A or ART 343B

ART 451B Advanced Ceramics (3)

Prerequisite: ART 451A

ART 491A Ceramics: Senior Project (1)

Prerequisite: ART 451A or ART 451B or consent of instructor

Take 9 units of AH. Only 3 units may be AH 438, AH 439 or AH 441

Take 3 units Upper Division ART.

Take 6 units ART outside the specialization

Option in Drawing and Painting (132 units)

Students who fall below a GPA of 3.0 in upper division courses in Drawing and Painting for two consecutive semesters will be removed from this B.F.A. program.

Requirements

Lower Division:

Take all of the following course:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two-Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Take 3 units of the following:

100-level AH

Take one course selected from:

ART 251A Introduction to Ceramics: Handbuilding (3)

Prerequisites/Corequisites: ART 131

ART 251B Introduction to Ceramics: Wheel

Throwing (3)

Prerequisites/Corequisites: ART 131

ART 261 Introduction to Life Sculpture (3)

Prerequisite/Corequisite: ART 131 or ART 181; AH 111A or AH 111B, or consent of instructor.

ART 263 Introduction to Sculpture/4D (3)

Prerequisites: ART 131 or consent of instructor

Upper Division:

Take 3 units from the following courses:

ART 311 Writing about Art (3)

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

ART 333 Global Art Scenes (3)

Prerequisites: Completion of GE Foundation and Upper Division standing.

Take all of the following courses:

ART 381 Intermediate Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B

ART 383 Life Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B

ART 384 Intermediate Life Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B

ART 387 Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B

ART 388 Advanced Studies in Color (3)

Prerequisites/Corequisites: ART 130, ART 287, AH 111A, AH 111B.

ART 491G Drawing and Painting Senior Project (1)

Prerequisite: ART 496A. Corequisite: ART 496B.

ART 496A BFA Capstone: Drawing and Painting (3)

Prerequisites: Drawing and Painting major. Completion of 6 to 12 units of required 400 level classes in Drawing and Painting including (but not limited to) ART 481 or ART 487 and ART 483 or ART 484

ART 496B BFA Capstone: Drawing and Painting (3)

Prerequisite: ART 496A. Corequisite: ART 491G

Contemporary Practices Track

Take all of the following courses:

ART 481 Advanced Drawing (3)

Prerequisite: ART 381

ART 487 Advanced Painting (3)

Prerequisite: ART 387

ART 492G Concentrated Studies in Abstract Painting (3)

Prerequisites/Corequisites: ART 387 or consent of instructor

Take one of the following courses:

ART 483 Advanced Life Painting (3)

Prerequisite: ART 383

ART 484 Advanced Life Drawing (3)

Prerequisites: ART 384 or consent of instructor.

Take 9 units of AH

Take 6 units ART outside the specialization

Figurative Track

Take all of the following courses:

ART 483 Advanced Life Painting (3)

Prerequisite: ART 383

ART 484 Advanced Life Drawing (3)

Prerequisites: ART 384 or consent of instructor.

ART 492F Concentrated Studies in Life Drawing (3)

Prerequisites/Corequisites: ART 384 or consent of instructor

ART 492Z Concentrated Studies in Life Painting (3)

Prerequisite: ART 383 or consent of instructor.

Take one of the following courses

ART 481 Advanced Drawing (3)

Prerequisite: ART 381

ART 487 Advanced Painting (3)

Prerequisite: ART 387

Take 9 units of AH

Take 3 units ART outside the specialization

Option in Graphic Design (132 units)

Students who fall below a GPA of 3.2 in upper division courses in Graphic Design for two consecutive semesters will be removed from this B.F.A. program.

Requirements

Lower Division:

Take all of the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 223 Introduction to Typography (3)

Prerequisite: For Art majors: ART 130, ART 181. For Design majors: DESN 120A and DESN 132A.

Take 3 units of the following:

100-level AH

Take one of the following courses:

ART 132 Foundation Color Theory (3)

Prerequisite/Corequisite: ART 130

ART 241 Introduction to Photography (3)

Prerequisite: One G.E. Foundation Course

ART 270 Introduction to Printmaking (3)

Prerequisite: ART 181

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Upper Division:

Take all of the following courses:

ART 318 Type II: Intermediate Typography (3)

Prerequisites: For Art Majors: ART 130, ART 131, ART 181, ART 184, ART 223; ART 132, ART 241, ART 270 or ART 287; AH 111A, AH 111B or consent of instructor. For Design Majors: DESN 120A, DESN 132A, and ART 223.

ART 321 Graphic Design I: Introduction to Graphic

Design (3)

Prerequisites: For Art Majors: ART 130, ART 131, ART 181, ART 184, ART 223; ART 132, ART 241, ART 270, or ART 287; AH 111A, AH 111B. For Design Majors: ART 223; DESN 120A, DESN 120B, DESN 132A, DESN 132B; AH 111A, AH 111B.

ART 327 Graphic Design II: Intermediate Graphic Design

(3)

Prerequisites: ART 223, ART 318, ART 321

ART 331 Advertising I: Introduction to Concept

Development (3)

Prerequisites: ART 130, ART 131, ART 181, ART 184, ART 223, ART 318, ART 321; ART 132, ART 241, ART 270, or ART 287; AH 111A, AH 111B

ART 334 Graphic Design III: Exploration and

Experimentation (3)

Prerequisites: ART 327 and 331, BFA Graphic Design Major or consent of instructor.

ART 335 Advertising II: Intermediate Concept

Development and Art Direction (3)

Prerequisites: ART 327 and 331, BFA Graphic Design Major or consent of instructor.

ART 336 Graphic Design IV: Development and Analysis

(3)

Prerequisites: ART 334, ART 335 or consent of instructor

ART 337 Graphic Design V: Packaging Design (3)

Prerequisites: BFA Graphic Design Major and ART 321, ART 334, ART 335, or consent of instructor

ART 419 Media Design: 5D; Designing the Future (3)

Prerequisite: BFA Graphic Design Major or consent of instructor

ART 423 Graphic Design VI: Advanced Topics (3)

Prerequisites: ART 334, ART 335, ART 336, ART 337

ART 424 Advertising III: Advanced Topics (3)

Prerequisites: ART 335, ART 423

Take 6 units from the following courses:

ART 365, ART 366, ART 420, ART 421, ART 442, ART 486, ART 499S

Take 3 units from the following courses:

ART 311 Writing about Art (3)

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

ART 333 Global Art Scenes (3)

Prerequisites: Completion of GE Foundation and Upper Division standing

Take AH 444 History of Graphic Design (3)

Take 3 units of Art History (AH)

Take 3 units ART outside the specialization

Option in Illustration/ Animation (132 units)

Students who fall below a GPA of 3.0 in upper division courses in Illustration/Animation for two consecutive semesters

will be removed from this B.F.A. program.

Requirements

Lower Division:

Take all the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

ART 271 Introduction to Rendering (3)

Prerequisite: ART 130, ART 181.

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Take (3) units of the following:

100-level AH

For Illustration Track also take:

ART 223 Introduction to Typography (3)

Prerequisites: For Art majors: ART 130, ART 181. For Design majors: DESN 120A and DESN 132A

For Animation Track also take:

ART 291 Introduction to Animation (3)

Prerequisites: ART 130, ART 181

Upper Division:

Take all of the following:

ART 371A Illustration (3)

Prerequisites/Corequisites: ART 130, ART 131, ART 181, ART 184, ART 287; AH 111A, AH 111B.

ART 372 Anatomy for Artists (3)

Prerequisites: ART 130, ART 131, ART 181, ART 184; AH 111A, AH 111B.

ART 491E Illustration/Animation Senior Project (1)

Prerequisites: Senior Illustration/Animation Major

Prerequisite(s)/Corequisite(s): For Illustration Track Majors: ART 471B. For Animation Track Majors: ART 499E

ART 311 Writing about Art (3)

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Take 6 units AH

Animation Track

Take all the following courses:

ART 390 Drawing: Figures in Context (3)

Prerequisites: ART 371A or consent of instructor

ART 391 Animation 1 (3)

Prerequisites: ART 130, ART 181, ART 291 or consent of instructor.

Prerequisite(s)/Corequisite(s): ART 131, ART 184, ART 287; AH 111A, AH 111B

ART 472 Storyboarding for Film and Television (3)
Prerequisites: ART 130, ART 181, ART 184, ART 271 or consent of instructor

ART 499E Special Studies in Animation (3)
Prerequisite: Illustration /Animation Major or consent of instructor

Take 3 units from the following courses:

ART 392 Animation 2 (3)
Prerequisite: ART 391

ART 476 Experimental Animation 1 (3)
Prerequisites: ART 130, ART 131, ART 181, ART 184

Take 3 units from the following courses:

ART 393 Character Design (3)
Prerequisites/corequisites: ART 371A or consent of instructor

ART 418 Visual Development (3)
Prerequisites: ART 371B or ART 391 or consent of instructor

Take 6 units from the following courses:

ART 392, ART 393, ART 426, ART 476, ART 482

Take 9 units from the following courses:

ART 371B, ART 373, ART 382, ART 383, ART 384,
ART 385, ART 416, ART 417, ART 418, ART 427,
ART 478, ART 499E

Illustration Track

Take all the following courses:

ART 371B Illustration (3)
Prerequisite: ART 371A. Prerequisites/Corequisites: ART 223 or 291 and ART 271.

ART 382 Production for Fine Arts (3)
Prerequisites: ART 223 or consent of instructor

ART 383 Life Painting (3)
Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B

ART 471A Advanced Illustration (3)
Prerequisite: ART 371B

ART 471B Advanced Illustration (3)
Prerequisite: ART 471A

ART 482 Sequential Imagery (3)
Prerequisite: For Illustration Track majors: ART 223, ART 371B. For Animation Track majors: ART 371A.

Take one of the following courses:

ART 374A Biomedical Rendering (3)
Prerequisites: ART 130, ART 184, ART 287; AH 111A, AH 111B; or consent of instructor

ART 499F Special Studies in Illustration (3)
Prerequisite: Illustration major or consent of instructor

Take 9 units from the following courses:

ART 321, ART 373, ART 385, ART 391, ART 418, ART 472, ART 476, ART 483

Take 3 units ART outside the specialization

Option in Art Photography (132 units)

B.F.A. students who fall below a GPA of 3.0 in upper division courses in Photography for two consecutive semesters will be removed from this BFA program.

Requirements

Lower Division:

Take all the following courses:

AH 111A Foundation Art History I (3)
**C" or better

Prerequisites: Completion/current enrollment in GE A1

(Written Communication) requirement.

AH 111B Foundation Art History II (3)
**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

Take 3 units of the following:

100-level AH

Take 3 units of the following:

ART 101 Artists in Their Own Words (3)
Prerequisite: None

Take all the following courses:

ART 130 Foundation Two Dimensional (3)
**C" or better
Prerequisite: None

ART 131 Foundation Three Dimensional (3)
**C" or better
Prerequisite: None

ART 149 Introduction to Computer Art (3)
Prerequisites: ART 130

ART 181 Foundation Drawing (3)
Prerequisite: None

ART 241 Introduction to Photography (3)
Prerequisite: One G.E. Foundation Course

Upper Division:

Take all the following courses:

AH 400 19th Century Photography (3)
Prerequisites: AH 111B or consent of instructor

ART 340 Intermediate Photography (3)
Prerequisites: ART 130, 181, 241, and AH 111A or 111B

ART 342A Color Photography (3)
Prerequisite/Corequisite: ART 130, ART 181, ART 241, and AH 111A or AH 111B.

ART 406A Digital Imagery for the Arts (3)
Prerequisites: ART 149, ART 340, or consent of instructor

ART 414 Documentary Photography (3)
Prerequisites: ART 340, ART 444, or consent of instructor

ART 444 Advanced Black and White Photography (3)
Prerequisite: ART 340

ART 447A Photography Studio Specialties (3)
Prerequisites: ART 340

ART 447B Advanced Studio Lighting (3)
Prerequisites: ART 241, ART 340, and ART 447A
ART 448 The Moving Image (3)

Prerequisites: ART 406A or consent of instructor

ART 449 Experimental Practices in Photography (3)
Prerequisites: ART 340

ART 473 Seminar in Photo-Based Art (3)
Prerequisite: for ART 473: ART 406A, or ART 444, or consent of instructor.

ART 491C Senior Project (1)
Prerequisite: None

ART 499V Special Studies in Art Photography (3)
Prerequisites: ART 406A, or ART 444, or consent of instructor

Take 3 units from the following courses:

AH 438, AH 439, AH 441

Take 3 units upper-division AH

Take 6 units ART outside specialization (lower or upper division)

Option in Printmaking (132 units)

Students who fall below a GPA of 3.0 in upper division courses in Printmaking for two consecutive semesters will be removed from this B.F.A. program.

Requirements

Lower Division:

Take all of the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)

Prerequisites: ART 181

Take one course from the following:

ART 132 Foundation Color Theory (3)

Prerequisite/Corequisite: ART 130

ART 270 Introduction to Printmaking (3)

Prerequisites: ART 181

ART 287 Introduction to Painting (3)

Prerequisites: ART 130, ART 181

Take 3 units of the following:

100-level AH

Take one of the following:

ART 149 Introduction to Computer Art (3)

Prerequisites: ART 130

ART 241 Introduction to Photography (3)

Prerequisites: One G.E. Foundation Course

Upper Division:

Take 3 units from the following courses:

ART 311 Writing about Art (3)

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

ART 333 Global Art Scenes (3)

Prerequisites: Completion of GE Foundation and Upper Division standing

Take all of the following courses:

ART 370 Printmaking (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 376 Printmaking: Relief Printing (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 377 Printmaking: Silkscreen (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 378 Printmaking: Etching (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH

111B

ART 379 Printmaking: Lithography (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 381 Intermediate Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B

ART 475 Printmaking: Photo and Digital Processes (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 480 Printmaking: Monotype/Monoprint (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B

ART 491P Printmaking: Senior Project (1)

Prerequisites: None

ART 499R Special Studies in Printmaking (6)

Prerequisite: Printmaking major or consent of instructor

AH 365 History of Prints and Drawings (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor

AH 439 Twentieth Century Art from 1945 (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor

Take 3 units elective upper division Art History (AH)

Take 9 units ART outside the specialization

Option in Sculpture (132 units)

Students who fall below a GPA of 3.0 in upper division courses in Sculpture for two consecutive semesters will be removed from this B.F.A. program.

Requirements

Take all of the following courses:

AH 111A Foundation Art History I (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

AH 111B Foundation Art History II (3)

**C" or better

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

ART 101 Artists in Their Own Words (3)

Prerequisite: None

ART 130 Foundation Two Dimensional (3)

**C" or better

Prerequisite: None

ART 131 Foundation Three Dimensional (3)

**C" or better

Prerequisite: None

ART 221 Shop Orientation (1)

Prerequisite: None

ART 261 Introduction to Life Sculpture (3)

Prerequisite/Corequisite: ART 131 or ART 181; AH 111A or AH 111B, or consent of instructor.

ART 263 Introduction to Sculpture/4D (3)

Prerequisites: ART 131 or consent of instructor.

Take 3 units of the following:

100-level AH

Take one of the following courses:

ART 149 Foundation Computer Art (3)

Prerequisites: ART 130

ART 241 Introduction to Photography (3)

Prerequisites: One G.E. Foundation Course

Take one of the following courses:

ART 181 Foundation Drawing (3)

Prerequisite: None

ART 184 Foundation Life Drawing (3)
Prerequisites: ART 181

Take 6 units from the following courses:
ART 132, ART 149, ART 181, ART 184, ART 223, ART 241, ART 251A, ART 251B, ART 265, ART 270, ART 271, ART 287

Upper Division:

Take 3 units from the following courses:

ART 311 Writing about Art (3)
Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. You must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

ART 333 Global Art Scenes (3)
Prerequisites: Completion of GE Foundation and Upper Division standing

Take all of the following courses:

ART 360A Sculpture/4D: Intermediate (3)
Prerequisites: ART 130, ART 131, ART 263; AH 111A or AH 111B, or consent of instructor.

ART 360B Sculpture/4D: Intermediate (3)
Prerequisites: ART 360A or consent of instructor

ART 363A Sculpture/4D: Fabrication Lab A (3)
Prerequisites/Corequisites: ART 131; AH 111A or AH 111B, or consent of instructor.

ART 474 Seminar in Sculpture and Time-Based Art (3)
Prerequisites: ART 261 or ART 263, or consent of instructor.

ART 491F Sculpture/4D Senior Project (1)
Prerequisites: Senior Sculpture major; consent of instructor

Take 6 units from the following courses:

AH 438, AH 439, AH 441

Take 6 units from the following courses:

ART 354A, ART 361, ART 363B, ART 363C, ART 364, ART 367A, ART 367B, ART 436A, ART 436B, ART 450A, ART 450B, ART 460A, ART 460B, ART 461, ART 499O.

Take 3 units of any upper division ART course.

Track A

Take 3 of the following Sculpture/4D courses:

ART 363B Sculpture/4D: Fabrication Lab B (3)
Prerequisite: ART 131; AH 111A or AH 111B, or consent of instructor.

ART 363C Digital Fabrication Lab (3)
Prerequisite: ART 131; AH 111A or AH 111B, or consent of instructor.

ART 367A Sculpture/4D: Mold Making Lab (3)
Prerequisites: ART 130, ART 131; AH 111A or AH 111B.

ART 367B Sculpture/4D: Foundry Lab (3)
Prerequisites: ART 130, ART 131; AH 111A or AH 111B, or consent of instructor.

Track B

Take 3 of the following Sculpture/4D courses;

ART 363C Digital Fabrication Lab (3)

Prerequisite: ART 131; AH 111A or AH 111B, or consent of instructor.

ART 364 Sculpture/4D: Electronics, Mechanics, Kinetics (3)
Prerequisites: AH 111A, AH 111B; ART 130, ART 131; ART 261 or ART 263; or consent of instructor.

ART 436A Video Art (3)
Prerequisites: None

ART 450A Sculpture/4D: Intermedia/New Genres (3)
Prerequisites: ART 241 or ART 263, or consent of instructor.

Certificate in Biomedical Art

This is an interdisciplinary program sponsored by the Art and Biological Sciences departments. Special permission is not required for a student to pursue the Certificate in Biomedical Art, however it is only available to students who are presently enrolled in a degree program in the biological sciences or in art at CSULB.

The student may apply for certification upon completion of the following:

Requirements

1. A major in art or biological sciences;
2. A 2.75 overall GPA and 3.25 in the major:

Take all the following courses (38 units):

ART 149 Foundation Computer Art (3)
Prerequisite: ART 130

ART 181 Foundation Drawing (3)
Prerequisite: None

ART 184 Foundation Life Drawing (3)
Prerequisite: ART 181

ART 271 Introduction to Rendering (3)
Prerequisites: ART 130, ART 181

ART 372 Anatomy for Artists (3)
Prerequisites: ART 130, ART 131, ART 181, ART 184; AH 111A, AH 111B

ART 374A Biomedical Rendering (3)
Prerequisites: ART 130, ART 184, ART 287; AH 111A, AH 111B; or consent of instructor

ART 374B Biomedical Rendering (3)
Prerequisites: ART 130, ART 184, ART 287; AH 111A, AH 111B; or consent of instructor

ART 426 Computer Animation 1 (3)
Prerequisite: ART 391 or ART 476 or consent of instructor

ART 476 Experimental Animation 1 (3)
Prerequisites: For ART 476: ART 130, ART 131, ART 181, ART 184. For ART 576: graduate student in Art or consent of instructor

ART 499F Special Studies in Illustration (3)
Prerequisite: Illustration major or consent of instructor

BIOL 200 General Biology (4)
Prerequisites: GE Foundation requirements

BIOL 208 Human Anatomy (4)
Prerequisites: Grade of "C" or better in one of the following: ART 372, BIOL 205, BIOL 207, BIOL 212, CHEM 140, DANC 261, or MICR 200.

Note: BIOL 200 waived for Biology majors.

Questions may be addressed to: Robin Richesson, School of Art, robin.richesson@csulb.edu (562) 985-9068 or Kelly Young, Department of Biological Sciences, kelly.young@csulb.edu (562) 985-4859.

Graduate Programs

Master of Arts in Art

Master of Fine Arts in Art

School Review Process

Admission to a degree program at CSULB is a two-part process that requires application to and acceptance by both the University and the School of Art into a specific degree program. (See the detailed information on CSULB graduate application and admission requirements earlier in this catalog.)

For graduate programs, the School of Art accepts applications for Fall admission only, with applications being accepted December 1 through January 15. Application forms are available on the web (www.art.csulb.edu).

School of Art application materials must be sent to the School of Art Advising Center, FA4 - 102.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

There is a \$55.00 fee for the University application process. (Do not send the School of Art this fee.)

Some art programs may conduct applicant interviews, in which case program faculty will contact the applicant directly. Acceptance decisions are normally sent out by April 8th.

Acceptance to Degree Program in Art

Graduate applications are reviewed within the School of Art by appropriate faculty. The admissions process for all graduate programs is highly competitive, and only those applicants who are recommended by the reviewing faculty may be admitted. Applicants are admitted as either Classified or Conditionally Classified. A Classified Graduate Student has been recommended for admission, and has satisfied all prerequisites. A Conditionally Classified Graduate Student has been recommended for admission, but has outstanding prerequisites to complete.

Acceptance is not complete until the applicant has received both notification of acceptance from the School of Art and official notification from the CSULB Office of Enrollment Services.

All applicants must be accepted by the School of Art in order to be officially accepted by the University. There is no fee for the school's application process.

International Students must be accepted by the School of Art and pass the TOEFL examination (minimum score of 550) before they can be admitted to the University. International students must apply to CSULB through the Center for International Education at (562) 985-5476.

CSU general requirements include: a bachelor's degree from a regionally accredited institution; a grade point average of at least 2.5 in the last 60 semester units taken; and good standing at the last college attended.

MA and MFA Prerequisites

An applicant may be accepted if, in addition to having satisfied specific prerequisites set by the School of Art for each degree concentration, the applicant has satisfied the minimum university standards found in the Admission section of this catalog.

The School of Art requires a minimum GPA of 3.0 in upper-division (junior and senior level) art prerequisite units.

Special Action: In rare and compelling circumstances, an applicant who does not qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the school/college concerned and in the judgment of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to her/his educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.

Concentrations Prerequisites

An applicant who has deficiencies in prerequisites for a concentration, but who in the judgment of the School of Art can meet these prerequisites with additional preparation specified at time of admission, may be admitted with conditionally classified graduate standing. Students who have deficiencies in prerequisites for a concentration, but who are willing to engage in additional preparation to meet prerequisites, may apply.

NOTE: Courses taken as prerequisites for a graduate degree may not be counted toward the graduate degree program of study.

Art Education Prerequisites

Applicants must complete 36 units of coursework approved by the Art Education faculty and must have a minimum 3.0 GPA in prerequisite courses.

Take 15 units upper-division units approved by the Art Education faculty

Take 9 upper-division units of Art or Education electives

Take 12 units AH (6 may be lower division, 6 must be upper division)

Art History Prerequisites

Applicants must complete the following prerequisite coursework. Equivalents to listed prerequisites must be approved by the Art History faculty.

Take 3 units from the following courses: AH 447 or AH 547 or the equivalent

Take 3 units from the following courses: AH 448, AH 449, AH 450, AH 548, AH 549 or AH 550 (theory/criticism) or the equivalent

Take 9 units additional upper-division Art History

Take 9 units upper-division Art or Art History

Take four sequential semesters (or the equivalent) of college-level French, German, or a language appropriate to the applicant's intended area of research with a 3.0 grade point average or better in the language courses.

MA Art History applicants should have completed prerequisite coursework prior to beginning coursework in the MA program. Applicants must have maintained a 3.0 GPA or better in all prerequisite coursework. Prerequisite coursework with grades lower than a C or grades of "pass" or "credit" will

not be considered as having satisfied stated prerequisites.

The core Art History faculty functions as a committee of the whole in reviewing all materials and information in the application file. Applicants who have been recommended for admission by the Art History faculty, and who have met all university entrance requirements and have fulfilled all MA Art History prerequisites, shall be admitted with classified status.

In some instances, applicants who have not met all prerequisites may, upon the recommendation of the Art History faculty, be admitted to the MA program on a conditional basis, but must complete all prerequisites by the end of the second semester in the MA program. Students may complete the foreign language prerequisite by completing the required coursework, or by passing a departmentally administered foreign language exam in French, German, or other pre-approved language. Completion of all prerequisites by the end of the second semester is a requirement for the student to advance to candidacy and continue study in the MA program.

Studio Art Prerequisites

The School of Art prefers, but does not require, that Studio Art applicants have undergraduate degrees in art. Application to our graduate programs is competitive and most applicants to the studio programs will have an undergraduate degree in art, many with a BFA in their chosen media. For Studio Art admissions, all required application materials are mandatory in order for the applicant to be considered, but the part of the application that is given the most weight is the portfolio of work. The School of Art invites all applicants who feel they have strong portfolios to apply. If faculty feel the application is strong, but the applicant needs additional preparatory work, the School of Art may admit the applicant with conditionally classified graduate standing, with specific prerequisites stated on a case-by-case basis at the time of admission.

The School's Application Requirements

December 1 through January 15 prior to the fall term for which the applicant seeks admission, applicant must submit the school's application materials as follows:

Art Education: School of Art application, statement of purpose, writing sample, portfolio of studio work, transcripts, and two letters of recommendation

Art History: School of Art application, statement of purpose, writing sample, transcripts, and two letters of recommendation

Studio Art: School of Art application, statement of purpose, portfolio of studio work, transcripts, and two letters of recommendation

Applicants may contact the School of Art Graduate Advisor for additional information about applying. Additionally, faculty contacts for each of the programs can be found on the school website.

Transcripts

When you formally apply to the University, one official (sealed) set is required; send to Enrollment Services.

Transfer Units

Transfer units are allowed on a case-by-case basis. With faculty approval, up to 12 post-baccalaureate units from

another university may be accepted into the MA degree program and up to 24 units (for example, from a previous MA degree) into the MFA degree program. In the case of an existing MA degree from CSULB with a concentration in Studio Art, up to 30 units may be accepted into the MFA degree.

MA and MFA Degree Requirements

1. A minimum overall GPA of 3.0, with no grade below a "C".
2. Successful fulfillment of the Graduation Writing Assessment Requirement (GWAR) by passing the Writing Proficiency Examination (WPE), usually completed in the first semester in residence at CSULB and required to be fulfilled prior to Advancement to Candidacy. Students unable to pass the WPE may be able to fulfill the requirement by completing a special GWAR course.
3. Successful completion of an Advancement to Candidacy review. Reviews generally occur when a student has completed between one third and one half of the units required for the degree, and require the submission of a complete list of coursework for the degree. Additional advancement requirements:
 - Art Education majors satisfy assigned written topics and prepare an oral defense of their research.
 - Art History majors present a qualifying paper and satisfy the language requirement in either French or German (or an approved substitution).
 - Studio Art majors participate in a group exhibition in the School of Art galleries and present an oral defense of their work.

If all scheduled units for the MA or MFA degree have been completed but the final written component has not been approved and submitted, registration in GS-700 (0 unit, no credit) through CCPE is required in order to maintain enrollment until the semester of graduation. Care should be taken not to exceed the University limit of seven years for all masters' degrees.

Additional information may be found in the "School of Art Graduate Guidelines," given to each student accepted into a master's program.

Art Education Concentration for the MA

32 approved units to include:

Take one of the following:

ART 509A Research in Art Education (2)

Prerequisites: Graduate student in Art or consent of instructor.

ART 509B Research in Art Education (2)

Prerequisites: Graduate student in Art or consent of instructor.

Take both of the following:

ART 601A Seminar in Art Education (3)

Prerequisite: Graduate student in Art Education or consent of instructor.

ART 601B Seminar in Art Education (3)

Prerequisite: Graduate student in Art Education or consent of instructor.

Take one of the following:

ART 695 Graduate Studies: Field Problems (6)

Prerequisites: None

ART 697 Graduate Studies: Directed (6)

Prerequisites: None

Take 3 units of graduate level Art History

Take 3 units of approved graduate or upper-division

coursework

Take 6 units elective Art, Art Education, or Art History

Take the following:

Take 6 units ART 698A Thesis or Project, with student completing a Thesis, or combination of Project with Project Report or Comprehensive Exam, as culminating experience within degree program.

Transferred units are allowed on a case-by-case basis. A minimum of 70% of units applied to degree must be 500/600 level courses taken at CSULB.

Undergraduate coursework applied to degree must be upper-division (300 or 400 level). Undergraduate courses may not be used as substitutes for any course specifically required by course number for degree. All double-numbered (400-level/500-level) courses applied to degree must be taken at the 500 level. All coursework applied to degree must be approved.

Art History Concentration for the MA

36 approved units to include:

Take both of the following courses:

AH 546 Art History Methodologies and Writing (3)

Prerequisites: Graduate standing in Art History or consent of instructor.

AH 547 Historiography of Art History (3)

Prerequisites: Graduate standing in Art History or consent of instructor

Take 6 units of the following:

AH 597 Seminar in Art History (3)

Prerequisite: Consent of instructor.

Take 9 units in graduate-level Art History in area of specialization

Take 6 units Art or Art History

Take 3 units of the following:

AH 694 Graduate Studies: Directed Research in Thesis Topic (3)

Prerequisites: Art History MA Student and Consent of Thesis Committee Chair.

Take 6 units AH 698 Thesis as culminating experience within degree program.

Twenty-four of the 36 required units must be 500/600 level courses taken at CSULB.

Graduate-level or upper-division courses in other CSULB departments may be approved as course substitutions with approval of student's Thesis Committee.

Transferred units are allowed on a case-by-case basis. A minimum of 70% of units applied to degree must be 500/600 level courses taken at CSULB.

Undergraduate coursework applied to degree must be upper-division (300 or 400 level). Undergraduate courses may not be used as substitutes for any course specifically required by course number for degree. All double-numbered (400-level/500-level) courses applied to degree must be taken at the 500 level. All coursework applied to degree must be approved.

In addition to fulfilling university requirements for advancement to candidacy, MA Art History students must also complete the Writing Proficiency Exam (WPE), an approved qualifying research paper, and all unfinished degree program prerequisites. Advancement to candidacy signifies approval of a plan of study for completion of coursework and the production and supervision of the student's thesis. Students in the MA program are expected to complete all requirements for

advancement by the end of the second semester of study in the program.

Studio Art Concentration for the MA

33 approved units to include:

Take 21 units of Art

Take 6 units of graduate-level Art History

Take 6 units of the following:

ART 698B Project (culminating degree experience)

Prerequisite: Advancement to Candidacy and an approved project statement. Execution and completion of an approved Studio Project and Project Report for the MA degree.

Transferred units are allowed on a case-by-case basis. A minimum of 70% of units applied to degree must be 500 and 600 level courses taken at CSULB, including double-numbered courses (400/500). Undergraduate coursework applied to degree must be upper-division (300 or 400 level). Undergraduate courses may not be used as substitutes for any course specifically required by course number for degree. All double-numbered (400-level/500-level) courses applied to degree must be taken at the 500 level. All coursework applied to degree must be approved.

Studio Art Concentration for the MFA

60 units of approved graduate units.

Transferred units are allowed on a case-by-case basis. A minimum of 70% of units applied to degree must be 500 and 600 level courses taken at CSULB, including double-numbered courses (400/500).

Undergraduate coursework applied to degree must be upper-division (300 or 400 level). Undergraduate courses may not be used as substitutes for any course specifically required by course number for degree. All double-numbered (400-level/500-level) courses applied to degree must be taken at the 500 level. All coursework applied to degree must be approved.

At least 39 units must be in studio courses. No more than 3 units of ART 693 (teaching internship) may be applied to degree.

Students are admitted into discipline-specific tracks. All students take a core of 21 units. Each student takes an additional 39 units of approved coursework according to the track into which the student was admitted.

Additional information, expectations, recommendations and guidelines for each track are included in the "School of Art Graduate Guidelines" and are available on the School of Art web-site. www.art.csulb.edu.

MFA Core Requirements

3 units of graduate-level Art History.

12 units of ART 694 (Graduate Studies: Directed Studio) taken with members of student's Project Committee beginning five semesters prior to completion of degree, or semester prior to advancement, whichever ever comes first. (Student must continue to enroll in 3 units of ART 694 per semester for all semesters between advancement and semester of MFA project.)

6 units of ART 699 (Graduate Studies: MFA Project) taken in the final semester with members of student's Project Committee.

MFA Tracks

In addition to the MFA Core requirements, each MFA student takes 39 additional approved units according to the following discipline-based tracks into which students are admitted.

NOTE: All 597, 598 and 599-numbered courses are studio-oriented variable-topic graduate courses, each with a discipline-specific focus, but with specific topic and structure varying from term to term.

Ceramics Track:

Take 12 units from the following:

ART 597A, ART 598A, ART 599A

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Drawing and Painting Contemporary Practices Track:

Take 12 units from the following:

ART 597K, ART 598K, ART 599K

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Drawing and Painting Figurative Track:

Take 12 units from the following:

ART 597L, ART 598L, ART 599L (recommended in the first 3 semesters)

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Fiber Track:

Take 12 units from the following:

ART 597N, ART 598N, ART 599N

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Graphic Design Track:

Take 12 units from the following:

ART 597S, ART 598S, ART 599S

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 683, ART 684

Take 15 units additional coursework.

Illustration/Animation Track:

Take 12 units from the following:

ART 597F, ART 598F, ART 599F

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 683, ART 684

Take 15 units additional coursework.

Metal Track:

Take 12 units from the following:

ART 597J, ART 598J, ART 599J

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Photography Track:

Take 12 units from the following:

ART 597V, ART 598V, ART 599V

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take 6 units of the following:

ART 680

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 3 units from the following:

ART 536A, ART 550, ART 680

Take 6 units additional coursework.

Printmaking Track A:

Take 12 units from the following:

ART 597R, ART 598R, ART 599R

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 15 units additional coursework.

Printmaking Track B:

Take 12 units from the following:

ART 597R, ART 598R, ART 599R

Take 6 units from any of the following:

ART 597, ART 598 or ART 599 courses

Take 3 units from the following:

ART 597D, ART 597L, ART 597F

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take 3 units from the following:

ART 373, ART 384, ART 481

Take one of the following:

ART 481, ART 484

Take 3 units from the following:

ART 492F, ART 499F, ART 693

Take 3 units additional coursework.

Printmaking Track C:

Take 12 units from the following:

ART 597R, ART 598R, ART 599R

Take 6 units from any of the following:

ART 597, 598 or 599 courses

Take the following:

ART 681 in the first semester

ART 685 in the second semester

Take the following:

ART 575

Take one of the following:

ART 340, ART 349

Take 3 units from the following:
ART 449, ART 506A, ART 693

Take 3 units from the following:
ART 506B, ART 573, ART 693

Take 3 units from the following:
ART 499, ART 514, ART 680

Sculpture/4D Track:

Take 12 units from the following:
ART 597O, ART 598O, ART 599O

Take 6 units from any of the following:
ART 597, ART 598 or ART 599 courses

Take the following:
ART 681 in the first semester
ART 680 Graduate Interdisciplinary Critique (3)
Prerequisites: None

ART 685 in the second semester

Take 3 units from the following:
ART 536A, ART 550, or ART 680

Take 9 units additional coursework.

Wood Track:

Take 12 units from the following:
ART 597B, ART 598B, ART 599B

Take 6 units from any of the following:
ART 597, ART 598 or ART 599 courses

Take the following:
ART 681 in the first semester
ART 685 in the second semester

Take 15 units additional coursework.

Graduate Certificate in Museum Studies

This certificate is primarily directed toward graduate students in Art History and the visual arts, but does not exclude students in other fields. The specifically tracked course of study has an emphasis placed primarily on contemporary art.

A student may pursue the Certificate in Museum Studies as a program of study in itself, or in combination with a program of study directed toward the achievement of one of the school's degrees. A student may, with approval of both the Museum Studies Program and the student's Project or Thesis Committee, count up to 15 units of coursework toward both the degree and the certificate.

Admission to the program is by permission of the Museum Studies faculty and the head of the Art History Program. Applicants wishing to pursue the Certificate Program in Museum Studies should apply for the desired degree program during the regular School of Art graduate application window of December 1 through January 15, and should indicate interest in pursuing the Certificate Program in Museum Studies concurrently.

Applicants wishing to pursue the Certificate Program in Museum Studies separate from a degree program should contact the School of Art Graduate Advisor.

This certificate program is eligible for Financial Aid. Please see the school website for required Federal disclosure information.

Requirements

A total of 30 units to include:

Take all of the following courses:

AH 530 Introduction to Curatorial Practices (3)
Prerequisites: AH 111A, AH 111B, or consent of instructor

AH 531 History of Museums and Exhibition (3)
Prerequisites: AH 111A, AH 111B or consent of advisor and instructor

AH 542 Internship in Museum Studies (3)
Prerequisites: AH 430/530 or consent of instructor

AH 539 Art of Mid to Late Twentieth Century (3)
Prerequisites: AH 111A, AH 111B, or consent of instructor

AH 545A Museum-Gallery Practices (3)
Prerequisites: AH 431 or AH 531 or consent of instructor. First in a four-course sequence

AH 545B Museum-Gallery Practices (3)
Prerequisites: AH 545A or consent of instructor

AH 545C Museum-Gallery Practices (3)
Prerequisites: AH 545B or consent of instructor. Third in a four-course sequence

AH 545D Museum-Gallery Practices (3)
Prerequisites: AH 545C or consent of instructor. Fourth in a four-course sequence

AH 597 Seminar in Art History (3)
Prerequisite: Consent of instructor

Take one of the following courses:

AH 547 Historiography of Art History (3)
Prerequisite: ART 340

AH 550 Western Art Theory and Criticism Mid-Twentieth Century to Present (3) (or approved substitution)
Prerequisite: None

Single Subject Teaching Credential in Art

For information, refer to the undergraduate section in this school.

Foundation Art

Foundation Art

The classes listed below are the foundation art classes that are required of most studio art majors. When foundation studio classes are chosen, be aware of the prerequisites; do not take the studio classes out of order.

AH 111A,B. Foundation Art History I, II

ART 130. Foundation Two-Dimensional

ART 131. Foundation Three-Dimensional

ART 132. Foundation Color Theory

ART 149. Foundation Computer Art

ART 181. Foundation Drawing

ART 184. Foundation Life Drawing

Art Courses (ART)

LOWER DIVISION

101. Artists in Their Own Words (3)

Forum for students to hear first hand from artists and arts scholars discussing and contextualizing their work within their contemporary field. Includes multiple lecturers by visitors and additional class lectures providing further context.

Credit/No Credit grading only. May be repeated to a maximum of 12 units in different semesters.

110. Introduction to the Visual Arts (3)

Prerequisite/Corequisite: One GE Foundation course.

Exploration of meanings, purposes, styles, materials and forms of art and architecture. Multicultural perspective. Development of awareness through examination and comparison of art and artifacts, past and present.

130. Foundation Two-Dimensional (3)

Foundation course required to be taken by all majors within the School of Art prior to 200-level or above art courses. Exploration and application of principles, components and terminology of two-dimensional design via relational, problem-solving and visual-vocabulary exercises.

Letter grade only (A-F). (6 hours lab)

131. Foundation Three Dimensional (3)

Foundation course required to be taken by all studio and art education majors within the School of Art prior to 200-level or above art courses. Focus on structural, material, and compositional concerns involved in dealing with three-dimensional form.

Letter grade only (A-F). (6 hours lab)

132. Foundation Color Theory (3)

Prerequisite/Corequisite: ART 130

Foundation course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Focus on visual and aesthetic interactions of color. (Not open to students with credit for ART 182.)

Letter grade only (A-F). (6 hours lab)

149. Foundation Computer Art (3)

Prerequisites: ART 130.

Foundation course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Project-based exploration of art-related digital imaging, layout, and vector software, and introduction to interactive and web-based media.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)
Not open for credit to students with credit in ART 349A.

181. Foundation Drawing (3)

Foundation course intended to be taken by all majors within the School of Art prior to 200-level or above art courses. Introduction to drawing with emphasis on perspective, light, shadow, and volume in composition using a variety of media.

Letter grade only (A-F). (6 hrs. lab.)

184. Foundation Life Drawing (3)

Prerequisites: ART 181.

Foundation course required in the BA Studio Art. Also satisfies requirements or choices in all other undergraduate degrees in the School of Art. Introduction to drawing from the human figure.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

221. Shop Orientation (1)

Familiarization with student workshop facilities, specific instruction on safety procedures and methods in use of tools and equipment. Safety lectures and technical demonstrations followed by hands-on experience. Projects familiarize students with machinery and facilitate the acquisition of basic woodworking skills.

Credit/No Credit grading only. (2 hours activity)

223. Introduction to Typography (3)

Prerequisite: For Art majors: ART 130, ART 181. For Design

majors: DESN 120A and DESN 132A.

Introductory course in the fundamentals of typographic form. Close examination of the architecture of letterforms and alphabet construction.

Letter grade only (A-F). (6 hours lab) Student-owned laptop computer is required. See School website for current hardware and software specifications.

227. History of Animation (3)

Prerequisites: Completion of GE A1 requirement; sophomore standing

Historical, theoretical and aesthetic developments of animation since its beginnings across cultures and within global contexts with consideration of cultural, social, political and technological influences.

Letter grade only (A-F). Same course as FEA 227. Not open for credit to students with credit in FEA 227.

241. Introduction to Photography (3)

Prerequisite(s): One G.E. Foundation Course

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Fundamentals of digital photography: cameras, digital darkroom techniques, photographic vision, critical issues.

Letter grade only (A-F). Course fee and digital camera (DSLR) may be required. Information on fees related to this course can be found here. (6 hrs. lab.)

251A. Introduction to Ceramics: Handbuilding (3)

Prerequisites/Corequisites: ART 131.

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art Education and some BFA degrees. Includes slab, coil, and molding techniques; glazing, firing.

Letter grade only (A-F). (6 hrs. lab.)

251B. Introduction to Ceramics: Wheel Throwing (3)

Prerequisites/Corequisites: ART 131.

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Satisfies requirements or choices in BA Art Education and some BFA degrees. Development of forms with potters wheel, glazing and firing.

Letter grade only (A-F). (6 hrs. lab.)

254. Introduction to Wood (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B; or consent of instructor.

Introduction to concepts, tools and techniques used in the creation of handcrafted, wooden objects. Basic construction and reductive shaping techniques including, lamination, milling, woodturning, carving, and joinery.

Letter grade only (A-F). (6 hours lab)

257. Introduction to Metals (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B.

Introduction to metal and jewelry processes; approaches include enameling, casting, forging, and fabrication.

Letter grade only (A-F). (6 hours activity)

261. Introduction to Life Sculpture (3)

Prerequisite/Corequisite: ART 131 or ART 181; AH 111A or AH 111B, or consent of instructor.

Introduction to modeling from the human figure with emphasis on a range of approaches and techniques to figurative sculpture.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

263. Introduction to Sculpture/4D (3)

Prerequisites: ART 131 or consent of instructor.

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art History and most BFA degrees. Exploration of art in three and four dimensions.

Letter grade only (A-F). (6 hrs lab)

265. Introduction to Fiber (3)

Prerequisites: ART 130, ART 131

Introductory course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees. Introduction to mixed media and fiber/fabric materials, processes and approaches including surface design, papermaking, weaving, hand-construction.

Letter grade only (A-F). (6 hours lab)

270. Introduction to Printmaking (3)

Prerequisites: ART 181

Introductory course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees. Exploration of multiple printmaking processes and possibilities for producing art in multiples, variations, and unique works. Focus on non-toxic approaches.

Letter grade only (A-F).(6 hours lab.)

271. Introduction to Rendering (3)

Prerequisite: ART 130, ART 181.

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Satisfies requirements or choices in some BFA degrees. Graphic visualization for convincing representation.

Letter grade only (A-F). (6 hrs. lab.)

287. Introduction to Painting (3)

Prerequisites: ART 130, ART 181.

Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Satisfies requirements or choices in BA Art Education, BA Art History, and most BFA degrees. Introduction to painting problems using opaque media.

Letter grade only (A-F). (6 hrs. lab.)

291. Introduction to Animation (3)

Prerequisites: ART 130, ART 181

Introduction to frame-by-frame manipulation, including traditional, experimental, and digital animation, pre-production work, motion graphics, and brief history of animation. Survey course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees.

Letter grade only (A-F). (6 hours lab)

Art Courses (ART)

UPPER DIVISION

300. Art, Adolescence, and the Child (3)

Experiences in self-expression from the California Visual and Performing Arts Framework while addressing children's artistic and aesthetic development. Following state content standards, students develop aesthetic perception, learn skills for talking about art, and gain understanding in historical and cultural contexts.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

301. Cross Cultural Perspectives in Art Education (3)

Prerequisites: Completion of 12 units of Art Foundation.

Theory and practice as understood in and across cultures. Application of the state content standards as written in the California Visual and Performing Arts Framework and reflecting racial, ethnic, linguistic, gender, sexual, cultural and cross-cultural perspectives.

Letter grade only (A-F). A minimum of 15 hours of community service learning required. (6 hrs. lab.)

305. Art Disciplines and New Technology (3)

Prerequisites: Completion of 12 units of Art Foundation.

Develops skills in making and talking about art through interrelating art production with art criticism, cultural-historical connections, and philosophical aesthetics. Emphasizes newer

art forms and technology, including video and computer, providing additional approaches for the artist and art educator.

Letter grade only (A-F). (6 hrs. lab.)

311. Writing about Visual Art (3)

Prerequisites: Art Major or consent of instructor. GE Foundation completed, upper division standing. Students must have scored 11 or higher on the GWAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GWAR Writing Intensive Capstone.

Writing Intensive and Integrative Learning Capstone course emphasizing writing for a visual arts audience. Includes reading critically, analysis of research, organizing and developing arguments, clarity, self-editing, and appropriate use of vocabulary/style. Extensive writing, editing and peer review.

Letter grade only (A-F).

316. Fiber: Pattern Design and Printing (3)

Prerequisites: ART 130, ART 131, ART 287; 6 units from AH 111A, AH 111B.

Variety of design concepts for both hand and commercial application of pattern to textiles and other surfaces. To include pattern system design, stamping, and silkscreen printing.

Letter grade only (A-F). (6 hrs. lab)

317. Fiber: Textile Dyeing (3)

Prerequisites: ART 130, ART 131, ART 287; AH 111A, AH 111B.

Exploration of a variety of design concepts and dye processes to include natural and chemical (acid and fiber reactive) dye technology using discharge, shaped resists, batik, and direct painting techniques.

Letter grade only (A-F). Not open for credit to students with credit in ART 327B. (6 hrs. lab.)

318. TYPE II: Intermediate Typography (3)

Prerequisites: For Art Majors: ART 130, ART 131, ART 181, ART 184, ART 223; ART 132, ART 241, ART 270 or ART 287; AH 111A, AH 111B or consent of instructor. For Design Majors: DESN 120A, DESN 132A, and ART 223.

Focus on the compositional use of type and its relationship to issues of visual hierarchy, readability and page structure. Students continue their exploration of typography as an expressive visual form.

Letter grade only (A-F). (6 hrs. lab.) Student-owned laptop computer is required. See School website for current hardware and software specifications.

321. Graphic Design I: Introduction to Graphic Design (3)

Prerequisites: For Art Majors: ART 130, ART 131, ART 181, ART 184, ART 223; ART 132, ART 241, ART 270, or ART 287; AH 111A, AH 111B. For Design Majors: ART 223; DESN 120A, DESN 120B, DESN 132A, DESN 132B; AH 111A, AH 111B.

Introductory course, exploring formal constructs of combining type and image and of image creation. Enhance understanding of problem definition and concept development. Explore the relationships of form to content.

Letter grade only (A-F). (6 hours lab) Student-owned laptop computer is required. See School website for current hardware and software specifications.

327. Graphic Design II: Intermediate Graphic Design (3)

Prerequisites: ART 223, ART 318, ART 321

Intermediate course, developing formal and conceptual skills using type and image, learning fundamentals of preparing art for print.

Letter grade only (A-F). (6 hours lab) Student-owned laptop computer is required. See School website for current hardware and software specifications.

328A. Fiber and Mixed Media: Sculptural Forms (3)

Prerequisites: ART 130, ART 131, AH 111A, AH 111B.

Exploration of concepts and materials using non-loom textile techniques. Development from 2-D relief surfaces to full 3-D forms. May include basic fiber structures of stitching, wrapping, feltmaking, papermaking, twining, knitting, crochet, and coiling.

Letter grade only (A-F). (6 hrs. lab.)

328B. Fiber and Mixed Media: Sculptural Forms (3)

Prerequisites: ART 328A.

Designed to strengthen a working understanding on non-loom fiber structures. Emphasis on development of personal expression within media.

Letter grade only (A-F). (6 hrs. lab.)

331. Advertising I: Introduction to Concept Development (3)

Prerequisites: ART 130, ART 131, ART 181, ART 184, ART 223, ART 318, ART 321; ART 132, ART 241, ART 270, or ART 287; AH 111A, AH 111B

Introduction to learning how to think more conceptually through creating print ads primarily by understanding the foundations of setting an objective, planning a creative strategy, identifying a target; and by learning various ways to think creatively.

Letter grade only (A-F). (6 hrs. lab.)

332. Graphic Design: Professional Preparation (3)

Prerequisites: ART 318, ART 321, ART 327, ART 331.

Engages topics regarding the profession of Graphic Design, including portfolio and resume development, presentations, interview skills, pricing and negotiating, ethical guidelines, and project organizational skills.

Letter grade only (A-F). (6 hrs. lab.)

333. Global Art Scenes (3)

Prerequisites: Completion of GE Foundation and upper-division standing.

Examination of the global field of contemporary art with emphasis on issues and structures that shape art scenes in different cultural contexts.

Letter grade only (A-F).

334. Graphic Design III: Exploration and Experimentation (3)

Prerequisite: ART 327 and 331, BFA Graphic Design Major or consent of instructor.

Advanced design course, examining and creating traditional, alternative and experimental solutions across a variety of media.

Letter grade only (A-F). (6 hrs. lab.) Student-owned laptop computer is required. See School website for current hardware and software specifications.

335. Advertising II: Intermediate Concept Development and Art Direction (3)

Prerequisite: ART 327 and 331, BFA Graphic Design Major or consent of instructor.

Development of concept and design advertising projects that are strategically sound, creatively unexpected, innovative and of portfolio quality.

Letter grade only (A-F). (6 hrs. lab.) Student-owned laptop computer is required. See School website for current hardware and software specifications.

336. Graphic Design IV: Development and Analysis (3)

Prerequisites: ART 334, ART 335 or consent of instructor.

Learn and practice in-depth research and analytical procedures that establish visual concept development and create systematic applications design.

Letter grade only (A-F). (6 hours lab) Student-owned laptop

computer is required. See School website for current hardware and software specifications.

337. Graphic Design V: Packaging Design (3)

Prerequisites: BFA Graphic Design Major and ART 321, ART 334, ART 335, or consent of Instructor

Materials, processes and the design of packaging.

Letter grade only (A-F). (6 hours lab) Student-owned laptop computer is required. See School website for current hardware and software specifications.

340. Intermediate Photography (3)

Prerequisites: ART 130, 181, 241, and AH 111A or 111B

Introduction to black and white darkroom and camera work. Continuing study of photographic vision, and critical issues. Development of series and bodies of work.

Letter grade only (A-F). Course fee and 35mm camera may be required. Information on fees related to this course can be found here. (6 hrs. lab.)

341A. Intermediate Ceramics: Handbuilding (3)

Prerequisites: ART 131, ART 251A; AH 111A or AH 111B.

Design problems with handbuilt ceramic forms with emphasis on surface.

Letter grade only (A-F). (6 hrs. lab.)

341B. Intermediate Ceramics: Wheel Throwing (3)

Prerequisites: ART 131, ART 251B; AH 111A or AH 111B.

Design problems with wheel-thrown ceramic forms with emphasis on surface.

Letter grade only (A-F). (6 hrs. lab.)

342A. Color Photography (3)

Prerequisite/Corequisite: ART 130, ART 181, ART 241, and AH 111A or AH 111B.

Use and control of color, primarily within digital photographic processes. Contemporary approaches to art-based color photography will be emphasized.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

343A. Ceramics Sculpture (3)

Prerequisites: ART 341A.

Advanced studies in ceramic sculpture.

Letter grade only (A-F). (6 hrs. lab.)

343B. Advanced Wheel Throwing (3)

Prerequisites: ART 341B.

Advanced studies in ceramic form employing the potters wheel.

Letter grade only (A-F). (6 hrs. lab.)

349. Computer Art (3)

Prerequisites: ART 149, 6 units from AH 113A, AH 113B, AH 111A, AH 111B.

Basic theory and hands-on use of microcomputers employing graphics in "Paint Programs" with color hardcopy output and animation production on video tape. Emphasis on computer graphic applications in students' individual studio art disciplines.

Letter grade only (A-F). Course fee may be required. Not open for credit to students with credit in ART 349B. (6 hrs. lab)

352A. Ceramics: Glaze Technology (3)

Prerequisites: ART 131, ART 251A or ART 251B; AH 111A or AH 111B.

Nature of raw materials as they relate to the development of clay bodies and ceramic glazes.

Letter Grade only (A-F). (6 Hrs. Lab)

352B. Ceramics Plaster Shop (3)

Prerequisites: ART 251A or ART 251B; AH 111A or AH 111B.

Use of plaster molds for making ceramic art including press molds, slip casting, and jiggering.

Letter grade only (A-F). (6 hrs. lab.)

353. Drafting and Model Making for 3D Art Objects (3)

Prerequisites: Art 130, ART 131, ART 181; ART 221 or ART 254; AH 111B or consent of instructor.

Techniques and conventions of technical drawing by hand, 3-D model making, 2D and 3D digital rendering central to the generation, evaluation and communication of design concepts in the preliminary stages of 3-D art object making. (6 hours activity)

Letter grade only (A-F).

354A. Intermediate Wood A (3)

Prerequisites: ART 130, ART 131, ART 181; ART 221 or ART 254; AH 111A or AH 111B.

Intermediate study of tools and processes common in the production of wooden objects and structures. Hand tools and layout techniques are emphasized through the practice of historical joinery methods pertaining to furniture and architecture. Woodturning and milling are continued.

Letter grade only (A-F). (6 hrs. lab)

354B. Intermediate Wood B (3)

Prerequisite: ART 354A or consent of instructor.

Intermediate study of machines and processes used to create complex wooden structures with an emphasis on non-rectilinear forms and modern techniques. Bending, forming, and advanced lamination techniques will be introduced.

Letter grade only (A-F). (6 hrs. lab)

355. Enameling (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B; or consent of instructor.

Techniques, materials, and concepts of enameling on metals. Introduction to tools and metalworking techniques associated with making enameled metal objects. Emphasis on exploration of characteristics of enamels and metals, stressing individual advancement of interest and expression.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 6 units. (6 hrs. lab.) Not open for credit to students with credit in ART 355A.

356. Jewelry Casting (3)

Prerequisite: ART 130, ART 131, ART 181; AH 111A, AH 111B; or consent of instructor.

Design and creation of jewelry through lost-wax casting techniques and processes. Exploration of wax-working techniques, mold making, found object casting, metal melting, and finishing techniques.

Course fee may be required. May be repeated to a maximum of 6 units. (6 hrs. lab.)

357A. Metals and Jewelry (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B; or consent of instructor.

Exploration of small-scale metal forming and techniques used in the creation of jewelry, sculptural forms, and utilitarian objects. Concepts and experiences are designed to familiarize the student with basic metalworking, joining, and finishing techniques.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

357B. Metal and Jewelry Design (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B; or consent of instructor.

Further exploration of small-scale metal forming and techniques used in the creation of jewelry, sculptural forms and utilitarian objects. With an emphasis on design methodology and fabrication

techniques.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

358A. Metalsmithing (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B; or consent of instructor.

Introduction to large-scale metalsmithing processes, design concepts and techniques used in the creation of flatware and hollowware. Experiences are intended to familiarize the student with the design and creation of sculptural forms, vessels and utilitarian objects.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

358B. Intermediate Metalsmithing (3)

Prerequisite: ART 358A.

Exploration and refinement of large-scale metalsmithing processes, design concepts and techniques used in the creation of flatware and hollowware. Students will design and create complex sculptural forms, vessels, and utilitarian objects.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

359A. Architectural Metalwork and Blacksmithing (3)

Prerequisites: ART 130, ART 131, ART 181; AH 111A, AH 111B.

Techniques, materials and concepts of metal craft for developing art forms in larger scale and in architectural context. Hot forging and fabricating with ferrous metals. Basic techniques of cutting, forming, joining welding and surface design of metals. Making of tools.

May be repeated to a maximum of 6 units. Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

359B. Sculptural Metalwork (3)

Prerequisites: ART 130, ART 131, ART 181; AH 111A, AH 111B.

Introduction to metalforming and construction techniques in the design and creation of sculptural form and composition in metal on an architectural scale.

May be repeated to a maximum of 6 units. Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

360A. Sculpture/4D: Intermediate (3)

Prerequisites: ART 130, ART 131, ART 263; AH 111A or AH 111B, or consent of instructor.

Exploration of a broad range of sculptural techniques and approaches from traditional 3D media to installation, site-specific and time-based practices.

(6 hrs. lab.) Letter grade only (A-F).

360B. Sculpture/4D: Intermediate (3)

Prerequisites: ART 360A or consent of instructor.

Exploration and refinement in a wide range of sculptural techniques and strategies. Introduction to installations and public work. Some work will be with time based kinetic art. Will include introduction to 3-D art theory.

(6 hrs. lab.) Letter grade only (A-F).

361. Sculpture/4D: Observation (3)

Prerequisites: ART 130, ART 131, ART 181, ART 261; AH 111A, AH 111B.

Historical, theoretical and technical emphasis on a range of approaches to observation-based art. Emphasis on figurative traditions, interpretive abstraction, in addition to considering the role of observational study in science and the broader social field. Non-medium specific.

Course fee may be required. (6 hours lab) Letter grade only (A-F).

363A. Sculpture/4D: Fabrication Lab A (3)

Prerequisites/Corequisites: ART 131; AH 111A or AH 111B, or consent of instructor.

Introduction to basic fabrication techniques, tools, building concepts and design principles using wood, metal and construction materials.

(6 hrs. lab.) Letter grade only (A-F). Not open for credit for students with credit in ART 363.

363B. Sculpture/4D: Fabrication Lab B (3)

Prerequisite: ART 131; AH 111A or AH 111B, or consent of instructor.

Exploration of advanced techniques in dimensional fabrication, from building in architectural scale to model making. Emphasis is on complex structures, installation building and formal issues related to traditional and construction materials.

Letter grade only (A-F) (6 hrs. lab)

363C. Digital Fabrication Lab (3)

Prerequisite: ART 131; AH 111A or AH 111B, or consent of instructor.

Exploration of advanced fabrication processes with plastics, subtractive tooling and Computer Aided Manufacturing. Synthesis of a broad range of techniques and technologies of manufacturing with emphasis on the production of art works.

Letter grade only (A-F) (6 hrs. Lab)

364. Sculpture/4D: Electronics, Mechanics, Kinetics (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B, or consent of instructor.

Exploration of basic electronics, mechanics, microcontroller interface, and simple software coding for the creation of works of art. Consideration of form, movement, light, sound, behavior, and interactivity.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

365. Media Design: Motion Graphics (3)

Prerequisite: ART 223, ART 321; or consent of instructor.

Learning the essentials of theory, practice, visual and verbal vocabulary of moving forms. Time, space, image and audio will be emphasized within the context of concept development and design aesthetics.

Not open for credit to students with credit in ART 386A. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

366. Media Design: Web and Interactive Design (3)

Prerequisite: ART 223, ART 321; or consent of instructor.

Develop skills and principles to design for non-linear environments. Students learn how to, conceptually, theoretically, and aesthetically, design for web standards, information progression, usability, and accessibility.

Not open for credit to students with credit in ART 386B. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

367A. Sculpture/4D: Mold Making Lab (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B.

Technical and historical introduction to all forms of mold making: rubber molds, rigid molds, vacuum forming, life casting, in addition to covering a broad range of casting materials such as resins, foams and composites.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

367B. Sculpture/4D: Foundry Lab (3)

Prerequisites: ART 130, ART 131; AH 111A or AH 111B, or consent of instructor.

Exploration of modeling positive forms, creating ceramic-shell molds and sand molds, and casting, finishing and patinating works in metal.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

370. Printmaking (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Studio course exploring a range of printmaking techniques and imagery, selected from the areas of etching, lithography, silkscreen, relief and monoprinting.

(6 hrs. lab.) Letter grade only (A-F).

371A,B. Illustration (3,3)

For ART 371A: Prerequisites/Corequisites: ART 130, ART 131, ART 181, ART 184, ART 287; AH 111A, AH 111B.

For ART 371B: Prerequisite: ART 371A. Prerequisites/Corequisites: ART 223 or 291 and ART 271.

Editorial and advertising drawing, professional media, skills and techniques survey.

(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

372. Anatomy for Artists (3)

Prerequisites: ART 130, ART 131, ART 181, ART 184; AH 111A, AH 111B.

Skeletal and muscle structure emphasizing the development of skill in depicting the human figure. Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

373. Costumed Figure Drawing (3)

Prerequisites: ART 371A, ART 372; AH 111A, AH 111B.

Drawing from costumed models with props and controlled lighting. Emphasis on development of "staging." Manipulation of composition, light, shadow, value, color, proportion, and scale are explored to achieve mood, gesture, drama, and attitudes related to human reactions, situations and character.

(6 hrs. lab.) Course fee may be required. Letter grade only (A-F).

374A,B. Biomedical Rendering (3,3)

Prerequisites: ART 130, ART 184, ART 287; AH 111A, AH 111B; or consent of instructor.

Introduction to and practice in techniques of descriptive drawing and press reproduction of drawing. Emphasis on skill.

(6 hrs. lab.) Letter grade only (A-F).

375. Art and Social Action: A Global Perspective (3)

Prerequisite: Upper-division standing.

Examines the interconnections among global processes and global social problems from the perspectives of art and sociology. Analyzes historical, geographical, class and status components of these problems, and the role of art to promote social change.

Same course as SOC 375. Not open for credit to students with credit in SOC 375.

376. Printmaking: Relief Printing (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in relief printing techniques and image development, including woodcut, wood engraving, linocut, collagraphs and alternative print surfaces. In black and white and color.

(6 hrs. lab.) Letter grade only (A-F).

377. Printmaking: Silkscreen (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in fine art screen printing techniques and image development, including resist, paper, film, emulsion and alternative stencil methods.

(6 hrs. lab.) Letter grade only (A-F).

378. Printmaking: Etching (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in intaglio printing techniques and image development, including etching, engraving, dry-point, aquatint and alternative platemaking methods. In black and white and color.

(6 hrs. lab.) Letter grade only (A-F).

379. Printmaking: Lithography (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in stone lithography techniques and image development, including crayon drawing, flats, washes, transfers and alternative drawing methods. In black and white and color.

(6 hrs. lab.) Letter grade only (A-F).

381. Intermediate Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B.

Problems and concepts in drawing using a variety of media.

(6 hrs. lab.) Letter grade only (A-F).

382. Production for Fine Art (3)

Prerequisites: ART 223 or consent of instructor.

Exploration of printing and reproduction process related to needs of artist, illustrator, and museum professional. Introduction to skills and vocabulary necessary for preparation of art for print and electronic media. Emphasis on interaction with various commercial production professionals.

(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

383. Life Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B.

Painting from the human figure with emphasis on representing form in space, structure, color, value, and composition.

Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

384. Intermediate Life Drawing (3)

Prerequisites: ART 130, ART 181, ART 184; AH 111A, AH 111B.

Continued study in drawing from the human figure from direct observation.

Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

385. Watercolor Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B.

Nature and use of the watercolor media.

(6 hrs. lab.) Letter grade only (A-F).

387. Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B.

Problems and concepts in space, form, structure, color and content in studio painting.

(6 hrs. lab.) Letter grade only (A-F).

388. Advanced Studies in Color (3)

Prerequisites/Corequisites: ART 130, ART 287, AH 111A, AH 111B.

Visual and aesthetic interactions of color in painting. Application of color theory including color properties, functions, and meaning. Combines lecture, demonstration, and critique with hands-on exploration, problem solving.

Not open for degree credit to students with credit in ART 132. Letter grade only (A-F). (6 hours lab)

389. Materials and Techniques of Drawing and Painting (3)

Prerequisites: ART 130, ART 181, ART 184, ART 287; AH 111A, AH 111B.

Theory and practice in the craft of drawing and painting.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hrs. lab.)

390. Drawing: Figures in Context (3)

Prerequisites: ART 371A or consent of instructor

Drawing from life based on the nude and draped human form and animal forms. Focus on short pose gestural drawing, emphasizing dramatic exaggeration of form and shape, movement, body language and character.

(6 hours lab) Course fee may be required. Letter grade only (A-F).

391. Animation 1 (3)

Prerequisite(s): ART 130, ART 181, ART 291 or consent of instructor.

Prerequisite(s)/Corequisite(s): ART 131, ART 184, ART 287; AH

111A, AH 111B.

Introduction to basic principles of traditional hand-drawn animation and creation of basic movement cycles using specific coordinating computer software. Focus on elements of weight, movement, timing and exaggeration. Provides an overview of alternative approaches to animation.

Not open to students with credit in ART 391A. Letter grade only (A-F). (6 hours lab) Course fee may be required.

392. Animation 2 (3)

Prerequisite: ART 391.

Continued study of basic principles of traditional hand drawn animation and alternative approaches learned in ART 391. Focus on weight, movement, timing, exaggeration, dramatic staging, and narrative structure. Provides further development of animating skills. Specific coordinating computer software is used.

Not open for credit to students with credit in ART 391B. Letter grade only (A-F). (6 hours lab) Course fee may be required.

393. Character Design (3)

Prerequisite/Corequisite: ART 371A or consent of instructor.

Introduction to basic principles of character design. Overview of stylistic approaches for commercial and alternative applications. Focus on creating original and believable characters with drawing and use of relevant computer software.

(6 hours lab) Course fee may be required. Letter grade only (A-F).

401./501. Cross-cultural and Community-based Practices in Art (3)

Prerequisites: Completion of 12 units of Art Foundation.

Study of theory and practice in art within a cross-cultural and social justice framework. Applies pedagogical and experiential methodologies to art education practices in a community-based setting. A minimum of 15 hours of community service learning required.

Letter grade only (A-F). (6 hrs. lab.)

406A./506A. Digital Imagery for the Arts (3)

Prerequisites: ART 149, ART 340, or consent of instructor.

Examination of digital imaging through Adobe Photoshop software. Emphasis on relationship of digital imaging to photography. Exercises to develop skills, strategies and fluency for working in digital media. Concentration on theory of media and representation as well as individual projects.

(6 hrs lab.) Letter grade only (A-F). Course fee may be required.

406B./506B. Advanced Digital Imagery for the Arts (3)

Prerequisites: ART 406A.

Exploration of theory and practice of digital imaging and advanced techniques. Emphasis on multimedia and individual projects.

(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

407. Art Practicum (3)

Prerequisite: Completion of 12 units of Art Foundation.

Attitude and skill development for production, evaluation, and appreciation of visual arts. Consideration for art processes and product in ethnically diverse societies. Inquiry methods of artists, critics, historians, and aestheticians examined for active learning. Art Education Bound Portfolio addressed.

Course fee may be required. (6 hrs lab) Letter grade only (A-F).

408./508. Perspectives in Contemporary Art Education (3)

Examines historical and philosophical foundations of art education globally from antiquity to the present, emphasizing developments in America. Social, political, and economic factors; theoretical developments; notable theoreticians are explored in relation to contemporary art educational practice.

Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters.

409. Educational Practices in the Art Museum. (3)

Prerequisites: 12 units of art foundation or Permission of Instructor.

History, theory, and application of art museum education practices with a significant museum fieldwork component. Designed for art students interested in learning about and working in the field of art museum education.

Letter grade only (A-F).

412./512. Aesthetic Theories and Art Education (3)

Prerequisites: Completion of 12 units of Art Foundation.

Past and current philosophical writings of aestheticians, critics, artists, and art educators will be investigated with theoretical, practical, and cross-cultural implications for the arts educator.

Letter grade only (A-F).

414./514. Documentary Photography (3)

Prerequisites: ART 340, ART 444, or consent of instructor.

History, theory, practice, and production of still documentary photographic works with emphasis on the photograph as an instrument for social influence and change.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

415. On-Site Studies in Art Education (3)

Prerequisites: Completion of 12 units of Art Foundation.

Theory generated and practiced during study and participation at approved sites including The Art Workshop for Youth and Art to Schools Program. Consideration to state and national standards involving multifaceted, cross-cultural, and interdisciplinary experiences with art.

(6 hrs lab) Letter grade only (A-F).

416./516. Animation 3 (3)

Prerequisites: ART 392.

Pursuit of advanced skills in traditional hand-drawn 2D animation principles and techniques that allow students to develop towards professional standards. Emphasis will be on character performance and acting, directing and film making, and creating a professional reel.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

417./517. Animation 4 (3)

Prerequisites: ART 416.

Further development in advanced traditional hand-drawn 2D animation principles and techniques that allow students to continue towards professional standards. Focus will be on completion of short animated projects for inclusion on a professional animation reel.

Letter grade only (A-F). (6 hrs. lab.)

418. Visual Development (3)

Prerequisite: ART 371B or ART 391 or consent of instructor.

Visual development of environments, backgrounds, architecture, and props using research, sketching, editing, lighting, and color to create dramatic, stylized designs for animation, live action, and gaming. Primary goal is to provide a clear methodology to generate original inventive work.

Letter grade only (A-F). (6 hours lab)

419./519. Media Design: 5D; Designing the Future (3)

BFA Graphic Design Major or consent of instructor.

Advanced Media Design Course, emphasizing the invention of new design paradigms in the evolving landscape of immersive technologies.

Letter grade only (A-F). (6 hours lab)

420. Graphic Design Workshop (3)

Prerequisite: Consent of instructor and portfolio review; majors only.

On-campus design studio experience oriented toward development of printed portfolio-quality design work. Professional designer/art director environment with involvement in actual projects with clients,

budgets and deadlines. Students responsible for all project phases from design to production, print supervision and completion.

May be repeated to a maximum of 9 units. (6 hrs. lab.) Letter grade only (A-F).

421. Advanced Typography (3)

Prerequisite(s): ART 223 and 318, BFA Graphic Design Major or consent of instructor.

Emphasis on advanced/highly-detailed informational layout, traditional and experimental typeface design and exploration of historical and contemporary typographic forms.

Letter grade only (A-F). Course fee may be required. (6 hours activity)

423. Graphic Design VI: Advanced Topics (3)

Prerequisites: ART 334, ART 335, ART 336, ART 337

Advanced projects in areas such as branding, design systems development and cross-media work.

Letter grade only (A-F). (6 hrs. lab.) Student-owned laptop computer is required. See School website for current hardware and software specifications.

424. Advertising III: Advanced Topics (3)

Prerequisites: ART 335, ART 423

Advanced advertising course allowing students to produce work based on their area of interest. It is public service oriented.

Letter grade only (A-F). (6 hrs. lab.) Student-owned laptop computer is required. See School website for current hardware/software specifications.

426./526. Computer Animation 1 (3)

Prerequisites: ART 391 or ART 476 or consent of instructor.

Introduction to animating with 3D computer animation software. Explores basic three-dimensional computer generated animation, including modeling, rigging, lighting, texturing and camera set-up with emphasis on character animation. Integration of elements within the animation process will be investigated.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

427./527. Computer Animation 2 (3)

Prerequisite: ART 426.

Continued investigation of 3D computer generated animation using industry standard computer software. Focus will be on advanced character animation with an emphasis on character performance and advanced computer animation techniques.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

428A. Fiber: Weaving, Dyeing, Woven Structures (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B.

Exploration of weaving and dyeing methods using a wide variety of techniques and materials. Emphasis on personal expression within the contemporary idiom.

Letter grade only (A-F). (6 hrs. lab.)

428B. Fiber: Weaving, Dyeing, Woven Structures (3)

Prerequisites: ART 428A.

Focus on woven structural textiles of greater complexity. Includes dyed and woven Ikat, multi-layered construction, and use of the Compu-doby loom.

Letter grade only (A-F). (6 hrs. lab.)

430. Fiber: Artist Books and Papermaking (3)

Prerequisites: ART 130, ART 131; AH 111A, AH 111B.

Basic materials and techniques of papermaking and handmade artist books with an emphasis on concept and form development.

May be repeated to a maximum of 6 units in different semesters.

Letter grade only (A-F). (6 hrs. lab.)

432. Fiber and Mixed Media: Advanced (3)

Prerequisites: ART 130, ART 131, ART 181; ART 132 or ART 287; ART 317 or ART 328A; ART 428A or ART 430.

Designed for the advanced Fiber students. Conceptual assignments use materials and media from a wide range of fiber processes. Reading assignments and group discussions.

May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F). (6 hrs. lab.)

436A./536A. Sculpture/4D: Video Art (3)

Prerequisites: ART 130 or ART 131; AH 111A or AH 111B, or consent of instructor.

Historical/theoretical and practical/technical introduction to digital video and other art practices involving digital media.

Letter grade only (A-F). (6 hrs. lab.)

Course fee may be required.

436B./536B. Sculpture/4D: Video Art (3)

Prerequisite: ART 436A.

Continuation of ART 436A with more advanced projects, introduction of more specialized software and equipment, and alternative modes of display.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required.

440./540. Art in Public Places: Theory and Practice (3)

Prerequisites: ART 130, ART 131, and 6 units selected from AH 111A, AH 111B, or consent of instructor.

Exploration of theory and practice of developing, proposing and producing artist-initiated and commissioned temporary and permanent works for the public sphere. Historical overview of the field of public art. Consideration of viewpoints influencing evaluation, production, selection, and commissioning of works.

(6 hrs. lab.) Letter grade only (A-F).

442. Internship in Graphic Design (3)

Prerequisite: Graphic Design Major or consent of instructor.

Student internship experience in selected studios, advertising agencies and in-house creative departments. Opportunity to work under supervision of professionals in the field for 6 hrs. per week.

(6 hrs. lab.)

444./544. Advanced Black and White Photography (3)

Prerequisite: ART 340.

Presentation of advanced printing techniques and darkroom skills. Including printing chemistry, refined negative making, printing materials and supports. Extensive exploration of the view camera.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

447A. Photography Studio Specialties (3)

Prerequisites: ART 340.

Designed to explore camera, laboratory techniques and professional practices as applied to studio work in photography.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.) Not open for credit to students with credit in: ART 447. Course fee may be required.

447B. Advanced Studio Lighting (3)

Prerequisites: ART 241, ART 340, and ART 447A

Continuation of ART 447A. Advanced lighting, camera, laboratory techniques and professional practices as applied to studio and editorial work in photography.

Letter grade only (A-F). (6 hours lab) Course fee may be required.

448. The Moving Image (3)

Prerequisite(s) ART 406A or consent of instructor.

Studio course examines relationship between photography and the moving image within the broader context of art. Students produce their own time-based projects through an exploration of cinema, video art, nonfiction, and new media forms. (6 hours activity)

Letter grade only (A-F).

449. Experimental Practices in Photography (3)

Prerequisites: ART 340.

Course work to generate experimental solutions to conceptual problems. Emphasis placed on contemporary approaches to the photograph and the exploration of new ideas for the development of photographic art.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

450A. Sculpture/4D: Intermedia/New Genres (3)

Prerequisites: ART 241 or ART 263, or consent of instructor.

Exploration of media and strategies including performance, installation, video, electronic and other time-based practice with emphasis on participatory, relational, installation and presentational concerns.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

450B. Sculpture/4D: Intermedia/New Media (3)

Prerequisite: ART 450A or consent of instructor.

Continuation of ART 450A. Exploration of media and strategies including performance, installation, video, electronic and other time-based practice with emphasis on newly developed and emergent media.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

451A-B. Advanced Ceramics (3-3)

Prerequisite: A: ART 343A or ART 343B. B: ART 451A.

Individual problems in ceramics.

(6 hrs. lab.) Letter grade only (A-F).

453. Seminar in Ceramic Arts (3)

Prerequisite: Senior Ceramics major or consent of instructor.

Critical analysis of work of historical and contemporary ceramic artists; the changing role of ceramic art as it becomes part of the contemporary art mainstream.

May be repeated to a maximum of 6 units with different artists in different semesters. Letter grade only (A-F).

454A,B. Advanced Wood (3,3)

Prerequisites: ART 354A and ART 354B.

Development of individual problems and expression in creation of wooden art/craft structures. Emphasis on exploring personal expression through focused study of chosen techniques and discussion of related wood issues and aesthetics.

(6 hrs. lab) Letter grade only (A-F).

458A,B. Advanced Metalsmithing/ Jewelry and Enameling (3,3)

Prerequisites: ART 357B, ART 358B or consent of instructor.

Individual problems in metalsmithing, jewelry, enameling and architectural metalwork and blacksmithing.

Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

460A. Sculpture/4D: Advanced (3)

Prerequisite: ART 360A or consent of instructor.

Within problem-solving assignments, students work with media and content of choice, exploring new material. Utilizes strategies such as installations, site work, time-based art, and includes some theory and discussions on art-related issues.

(6 hrs. lab) Letter grade only (A-F).

460B. Sculpture/4D: Advanced (3)

Prerequisite: ART 460A or consent of instructor.

Within problem-solving assignments, students work with media and content of choice, exploring new materia. Utilize strategies such as installations, site work, time-based art, includes some theory and discussions on art-related issues.

(6 hrs. lab) Letter grade only (A-F).

461. Sculpture/4D: Advanced Sculpture from Observation (3)

Prerequisites: ART 361 or consent of instructor.

Historical, theoretical and technical emphasis on a wide array of approaches in observational study: from figurative traditions, to interpretive abstraction, as well as observational study as an exploration of the social field. Non-medium specific.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

471A,B. Advanced Illustration (3,3)

Prerequisites: For ART 471A: ART 371B: For ART 471B: ART 471A.

Illustration in part from live models.

ART 471B is open only to students in the Illustration option. Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

472./572. Storyboarding for Film and Television (3)

Prerequisites: ART 130, ART 181, ART 184, ART 271 or consent of instructor.

Storyboarding for television and feature films application. Focus on sequential structure of film including pacing and continuity related to storytelling. Discussion of camera movement, uses of storyboards. Emphasis on drawing skills needed to visually communicate ideas for entertainment industry.

(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

473./573. Seminar in Photo-Based Art (3)

Prerequisite: ART 406A, or ART 444, or consent of instructor.

Critical analysis of work by contemporary photo-based artists and investigation of relevant theoretical issues.

May be repeated to a maximum of 6 units with rotating topics in different semesters. Letter grade only (A-F).

474./574. Seminar in Sculpture and Time-Based Art (3)

Prerequisites: ART 261 or ART 263, or consent of instructor.

Critical analysis of contemporary sculpture and time-based art practice, and investigation of key theoretical, historical and contemporary issues.

Letter grade only. May be repeated to a maximum of 6 units in different semesters.

475./575. Printmaking: Photo and Digital Processes (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in the photo printmaking processes for lithography, etching, and silkscreen using digital and analog techniques to explore photographic and non-photographic imagery.

(6 hrs. lab.) Letter grade only (A-F).

476./576. Experimental Animation 1 (3)

Prerequisites: ART 130, ART 131, ART 181, ART 184.

Investigation of a variety of basic animation techniques as alternatives to traditional hand-drawn character animation with emphasis on understanding movement, weight, timing, and sequential aesthetics.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

478./578. Experimental Animation 2 (3)

Prerequisite: For ART 478: ART 476. For ART 578: ART 576.

Further investigation of principles and techniques of alternative approaches to traditional hand-drawn character animation learned in ART 476. Focus on weight, movement, timing, and time-based aesthetic strategies. Provides continued development of animating skills. Specific coordinating computer software is used.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

480./580. Printmaking: Monotype/Monoprint (3)

Prerequisites: ART 130, ART 181; 3 units from AH 111A, AH 111B.

Instruction in all aspects of monotype and monoprint form of

printmaking as expansive medium capable of diverse applications and linkages with other procedures and disciplines. Emphasis on extension and refinement of individual expression. Black and white and color.

(6 hrs. lab.) Letter grade only (A-F).

481. Advanced Drawing (3)

Prerequisite: ART 381.

Advanced problems and concepts in drawing designed to explore modes of representation and issues pertaining to contemporary drawing.

(6 hrs. lab.) Letter grade only (A-F).

482./582. Sequential Imagery (3)

Prerequisites: For Illustration Track majors: ART 223, ART 371B. For Animation Track majors: ART 371A.

Focuses on the book or magazine (electronic or print) as an art form and the image/word relationship within the context of sequential aesthetics. Addresses the editorial and visual issues of pacing, continuity, and closure.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

483. Advanced Life Painting (3)

Prerequisite: ART 383.

Continued study in painting from the human figure with emphasis on pictorial structure, color and individual expression.

Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

484. Advanced Life Drawing (3)

Prerequisites: ART 384 or consent of instructor.

Continued study in drawing the human figure from observation with emphasis on structure, form and composition, as well as individual expression.

Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

486. Media Design: Advanced Topics (3)

Prerequisites: ART 365 or ART 366 or equivalent, or consent of instructor.

Advanced course developing student's ability to create interactive experiences. Students start building smart interactions within non-linear environments and/or narrative structures.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

487. Advanced Painting (3)

Prerequisite: ART 387.

Continued study in studio painting, exploring advanced modes of pictorial structure with emphasis on individual expression.

(6 hrs. lab.) Letter grade only (A-F).

489. Selected Topics in Visual Art (1-3)

Prerequisite: Consent of instructor.

Topics of current interest in the visual arts selected for intensive study.

May be repeated to a maximum of 12 units with different topics. Topics announced in the *Schedule of Classes*.

490. Selected Topics in Studio Art (1-3)

Prerequisites: Consent of instructor.

Topics of current interest in the visual arts selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics. Topics announced in the *Schedule of Classes*. (6 hrs. lab.)

491A. Ceramics: Senior Project (1)

Prerequisite: ART 451A or ART 451B or consent of instructor.

Planning, preparation, completion, and photographic slide documentation of a creative exhibition and written thesis as approved by faculty.

Should be taken in last semester before graduation. Required of all BFA ceramics majors. Letter grade only (A-F). May be repeated to a maximum of 2 units.

491B. 3-D Media-Senior Project (1)

Prerequisite: 3-D Media major or consent of instructor.

Organizing, completing, and photographing (35mm slides) a creative exhibition of their work. Exhibition culminates with written thesis with faculty approval.

Should be taken in the last semester before graduation. Required of all 3-D Fiber, Wood, Metal and Integrated Media majors. Credit/No Credit grading only. May be repeated to a maximum of 2 units in the same semester.

491C. Photography - Senior Project (1) F,S

Planning, preparation, completion, and photographic slide documentation of a creative exhibition and written thesis as approved by faculty.

Should be taken in the last semester before graduation. Required of all Photography majors. Credit/No Credit grading only. May be repeated to a maximum of 2 units.

491E. Illustration/Animation Senior Project (1)

Prerequisites: Senior Illustration/Animation Major.

Prerequisite(s)/Corequisite(s): For Illustration Track Majors: ART 471B. For Animation Track Majors: ART 499E

Planning, preparation, and participation in program group exhibition. Submission of digital files of artwork from exhibition to program head. Required by all Illustration/Animation majors. Should be taken in the final semester of student's BFA program.

Credit/No Credit grading only. (2 hrs. lab)

491F. Sculpture/4D Senior Project (1)

Prerequisites: Senior Sculpture major; consent of instructor.

Students complete work, organize exhibition and write an Artist's Statement.

Required by all Sculpture majors. Should be taken in the final semester of a student's BFA program. Credit/No Credit grading only.

491G. Drawing and Painting: Senior Project (1)

Prerequisite: ART 496A. Corequisite: ART 496B.

Planning and installation of a public exhibition of creative work completed in ART 496 A-B.

Credit/No credit grading only. (2 hours lab.)

491P. Printmaking: Senior Project (1)

Planning, preparation, completion, and photographic slide documentation of a creative exhibition and a written expanded artist's statement as approved by faculty.

Should be taken in the last semester before graduation. Required of all Printmaking majors. Credit/No Credit grading only. May be repeated to a maximum of 2 units.

492F. Concentrated Studies in Life Drawing (3)

Prerequisites/Corequisites: ART 384 or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in life drawing.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

492G. Concentrated Studies in Abstract Painting (3)

Prerequisites/Corequisites: ART 387 or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in abstract and nonobjective painting and drawing.

May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Letter grade only (A-F).

492Z./592Z. Concentrated Studies in Life Painting (3)

Prerequisite: ART 383 or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in painting the human figure. A more open relationship in attitudes and processes of working from the figure in class and total self-direction on work done outside the class.

Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

495. Field Studies in Art (1-6)

Independent work with an instructor of student's choice, usually outside area of specialization.

School Chair or Undergraduate/Graduate Advisor approval, restricted to undergraduate and graduate art majors. (2-12 hrs. lab.) Letter grade only (A-F).

496A. BFA Capstone: Drawing and Painting (3)

Prerequisites: Drawing and Painting major. Completion of 6 to 12 units of required 400 level classes in Drawing and Painting including (but not limited to) ART 481 or ART 487 and ART 483 or ART 484.

Extensive work with faculty supervision on individual problems in drawing and/or painting. First of two sequential semesters, limited to three units each semester, totaling 6 units as the culmination of a student's BFA degree program in Drawing and Painting. Letter grade only (A-F) (6 hours lab.)

496B. BFA Capstone: Drawing and Painting (3)

Prerequisite: ART 496A. Corequisite: ART 491G.

Extensive work with faculty supervision on individual problems in drawing and/or painting. Second of two sequential semesters, limited to three units each semester, totaling 6 units as the culmination of a student's BFA degree program in Drawing and Painting.

Letter grade only. (6 hours lab.)

499A. Special Studies in Ceramics (3)

Prerequisite: Ceramics major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in ceramics.

May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Letter grade only (A-F).

499B. Special Studies in Wood (3)

Prerequisite: ART 354B or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems using wood as the media.

May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499D. Special Studies in Drawing (3)

Prerequisite: ART 381; Drawing and Painting Major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in drawing.

May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499E. Special Studies in Animation (3)

Prerequisite: Illustration /Animation Major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems

related to animation.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499F. Special Studies in Illustration (3)

Prerequisite: Illustration major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in illustration or biomedical art.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499J. Special Studies in Metalsmithing and Jewelry (3)

Prerequisite: 3-D Media major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual projects in metalsmithing and jewelry.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499K. Special Studies in Painting (3)

Prerequisites: ART 387, Drawing and Painting Major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in drawing and/or painting.

Letter grade only (A-F). May be taken for a maximum of 3 units in the same semester and a maximum of 9 units in different semesters. 6 hours lab.)

499M. Special Studies in Life Sculpture (3)

Prerequisite: Sculpture major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in sculpture.

Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Course fee may be required.

499N. Special Studies in Fiber and Mixed Media (3)

Prerequisite: 3-D Media major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in textile design.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499O. Special Studies in Sculpture/4D (3)

Prerequisites: Sculpture major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in sculpture.

May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Letter grade only (A-F). (6 hours lab.)

499P. Special Studies in Art Education (3)

Prerequisite: Art Education major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in art education.

May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Letter grade only (A-F). (6 hrs. lab.)

499R. Special Studies in Printmaking (3)

Prerequisite: Printmaking major or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in printmaking.

May be repeated to a maximum of 6 units in the same semester and

a total of 9 units in different semesters. Letter grade only (A-F). (6 hrs. lab.)

499S. Special Studies in Graphic Design (3)

Prerequisite: Graphic Design major or consent of instructor.

Opportunity for extensive contract work with faculty supervision on problems in visual communications design.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. (6 hrs. lab.)

499V. Special Studies in Art Photography (3)

Prerequisites: ART 406A, or ART 444, or consent of instructor.

Opportunity for extensive work, with faculty supervision, on individual problems in photography as an art form.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

GRADUATE LEVEL**501./401. Cross-cultural and Community-based Practices in Art (3)**

Prerequisites: Graduate student in Art or consent of instructor.

Study of theory and practice in art within a cross-cultural and social justice framework. Applies pedagogical and experiential methodologies to art education practices in a community-based setting. A minimum of 15 hours of community service learning required.

Letter grade only (A-F). (6 hrs. lab.)

506A./406A. Digital Imagery for the Arts (3)

Prerequisites: Graduate student in Art or consent of instructor.

Examination of digital imaging through Adobe Photoshop software. Emphasis on relationship of digital imaging to photography. Exercises to develop skills, strategies and fluency for working in digital media. Concentration on theory of media and representation as well as individual projects.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

506B./406B. Advanced Digital Imagery for the Arts (3)

Prerequisites: Graduate student in Art or consent of instructor.

Exploration of theory and practice of digital imaging and advanced techniques. Emphasis on multimedia and individual projects.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

508./408. Perspectives in Contemporary Art Education (3)

Examines historical and philosophical foundations of art education globally from antiquity to the present, emphasizing developments in America. Social, political, and economic factors; theoretical developments; notable theoreticians are explored in relation to contemporary art educational practice.

Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters.

509. Educational Practices in the Art Museum. (3)

History, theory, and application of art museum education practices with a significant museum fieldwork component. Designed for art students interested in learning about and working in the field of art museum education.

Letter grade only (A-F).

509A-B. Research in Art Education (2-2)

Prerequisites: Graduate student in Art or consent of instructor.

Advanced individual graduate problems in art education with projects related to specific learning situations.

Letter grade only (A-F) May be repeated to a maximum of 9 units in different semesters.

512./412. Aesthetic Theories and Art Education (3)

Past and current philosophical writings of aestheticians, critics, artists, and art educators will be investigated with theoretical, practical, and cross-cultural implications for the arts educator. Letter grade only (A-F).

514./414. Documentary Photography (3)

Prerequisite: Graduate student in Art or consent of instructor. History, theory, practice, and production of still documentary photographic works with emphasis on the photograph as an instrument for social influence and change.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

516./416. Animation 3 (3)

Prerequisite: Graduate student in Art or consent of instructor. Pursuit of advanced skills in traditional hand-drawn 2D animation principles and techniques that allow students to develop towards professional standards. Emphasis will be on character performance and acting, directing and film making, and creating a professional reel.

Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

519./419 Media Design: 5D; Designing the Future (3)

Advanced Media Design Course, emphasizing the invention of new design paradigms in the evolving landscape of immersive technologies.

Letter grade only (A-F). (6 hours lab)

517./417. Animation 4 (3)

Prerequisites: ART 516 or consent of instructor. Further development in advanced traditional hand-drawn 2D animation principles and techniques that allow students to continue towards professional standards. Focus will be on completion of short animated projects for inclusion on a professional animation reel.

Letter grade only (A-F). (6 hrs. lab.)

526./426. Computer Animation 1 (3)

Prerequisites: Graduate Student in Art or consent of instructor. Introduction to animating with 3D computer animation software. Explore basic three-dimensional computer generated animation, including modeling, rigging, lighting, texturing and camera set-up with emphasis on character animation. Integration of elements within the animation process will be investigated.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

527./427. Computer Animation 2 (3)

Prerequisite: ART 526. Continued investigation of 3D computer generated animation using industry standard computer software. Focus will be on advanced character animation with an emphasis on character performance and advanced computer animation techniques.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

536A./436A. Sculpture/4D: Video Art (3)

Prerequisites: Graduate student in Art or consent of instructor. Historical/theoretical and practical/technical introduction to digital video and other art practices involving digital media.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required.

536B./436B. Sculpture/4D: Video Art (3)

Prerequisites: ART 536A. Continuation of ART 536A with more advanced projects, introduction of more specialized software and equipment, and alternative modes of display.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

540./440. Art in Public Places: Theory and Practice (3)

Prerequisites: Graduate student in Art or consent of instructor. Exploration of theory and practice of developing, proposing and producing artist-initiated and commissioned temporary and permanent works for the public sphere. Historical overview of the field of public art. Consideration of viewpoints influencing evaluation, production, selection, and commissioning of works.

Letter grade only (A-F). (6 Hrs. Lab.) May be repeated to a maximum of 9 units in different semesters.

544./444. Fine Print Photography (3)

Prerequisites: Graduate student in Art or consent of instructor. Presentation of advanced printing techniques and darkroom skills. Including printing chemistry, refined negative making, printing materials and supports. Extensive exploration of the view camera.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

547./447. Photo Studio Specialties (3)

Prerequisites: Graduate student in Art or consent of instructor. Designed to give exploration of camera and laboratory techniques as applied to studio work in photography. Related photo assignments of studio and location problems will be given

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

549./449. Experimental/Alternative Practices in Photography (3)

Prerequisites: Graduate student in Art or consent of instructor. Experimental solutions to conceptual problems. Emphasis on Alternative Processes, non-traditional photographic processes, exploration of new ideas and procedures for the development of art work and meaning significant to each individual student.

Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

550. Sculpture/4D: Intermedia/New Genres/New Media (3)

Prerequisites: Graduate student in Art or consent of instructor. Exploration of media and strategies including performance, installation, video, electronic and other time-based practice with emphasis on participatory, relational, installational and presentational concerns and newly developed and emergent media.

Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters. Course fee may be required. (6 hours lab)

551A. Advanced Ceramics - Graduate (3)

Prerequisites: Graduate student in Art or consent of instructor. Opportunity for beginning graduate students to do research employing various ceramics materials, processes and visual solutions in preparation for a more narrow and concentrated study. Letter grade only (A-F).(6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

551B. Advanced Ceramics - Graduate (3)

Prerequisite: ART 551A. Selection of a specific area of concentration in ceramics, limiting the materials and processes to develop a project which will reflect a predetermined statement. Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

554A,B. Wood - Graduate (3,3)

Prerequisite: Graduate student in Art or consent of instructor. Development of individual problems and expression in the creation of wooden art/craft structures. Emphasis on exploring personal expression through focused study of chosen techniques and the discussion of related wood issues and aesthetics. Letter grade only (A-F). (6 hrs. lab) May be repeated to a maximum of 9 units in different semesters.

558A. Metalsmithing, Jewelry and Enameling (3)

Prerequisite: 3-D Media major or consent of instructor.

Individual graduate level studio projects involving investigation of materials, processes and visual solutions in preparation for more concentrated study in metalsmithing, jewelry, enameling, or architectural metalwork and blacksmithing.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

558B. Metalsmithing, Jewelry and Enameling (3)

Prerequisite: 3-D Media major or consent of instructor.

Selection of a specific area of concentration in metalsmithing and jewelry, enameling, or architectural metalwork and blacksmithing; focus on creative objectives based on a projected theme.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

564A,B. Advanced Wood Studio - Graduate (3,3)

Prerequisites: Graduate student in Art or consent of instructor.

Development of individual skill, technique, and concept through the exploration of a unique and personal language in wood. Creation of body of work supported by research projects on related work and concepts in the field.

Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

572./472. Storyboarding for Film and Television (3)

Prerequisites: Graduate student in Art or consent of instructor.

Storyboarding for television and feature films application. Focus on sequential structure of film including pacing and continuity related to storytelling. Discussion of camera movement, uses of storyboards. Emphasis on drawing skills needed to visually communicate ideas for entertainment industry.

Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

573./473. Seminar in Photo-Based Art (3)

Prerequisite: Graduate student in Art.

Critical analysis of work by contemporary photo-based artists and investigation of relevant theoretical issues.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different artists in different semesters.

574./474. Seminar in Sculpture and Time-Based Art (3)

Prerequisites: Graduate student in Art or consent of instructor.

Critical Analysis of contemporary sculpture and time-based art practice, and investigation of key theoretical, historical and contemporary issues.

Letter grade only (A-F).

575./475. Printmaking: Photo and Digital Processes (3)

Prerequisites: Graduate student in Art or consent of instructor.

Instruction in the photo printmaking processes for lithography, etching, and silkscreen using digital and analog techniques to explore photographic and non-photographic imagery.

Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

576./476. Experimental Animation 1 (3)

Prerequisites: Graduate student in Art or consent of instructor.

Investigation of a variety of basic animation techniques as alternatives to traditional hand-drawn character animation with emphasis on understanding movement, weight, timing, and sequential aesthetics.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

578./478. Experimental Animation 2 (3)

Prerequisite: ART 576.

Further investigation of principles and techniques of alternative approaches to traditional hand-drawn character animation learned in Art 576. Focus on weight, movement, timing, and time-based aesthetic strategies. Provides continued development of animating skills. Specific coordinating computer software is used.

Letter grade only (A-F). Course fee may be required. (6 hours lab)

580./480. Printmaking: Monotype/Monoprint (3)

Prerequisites: Graduate student in Art or consent of instructor.

Instruction in all the aspects of the monotype and monoprint form of printmaking as an expansive medium capable of diverse applications and linkages with other procedures and disciplines. Emphasis will be on the extension and refinement of individual expression. In black and white and color.

Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

582./482. Sequential Imagery (3)

Prerequisites: Graduate student in Art or consent of instructor.

Focuses on the book or magazine (electronic or print) as an art form and the image/word relationship within the context of sequential aesthetics. Addresses the editorial and visual issues of pacing, continuity, and closure.

Letter grade only (A-F). (6 hrs lab) May be repeated to a maximum of 9 units in different semesters. Course fee may be required.

583. Advanced Life Graduate Painting (3)

Prerequisites: Graduate student in Art or consent of instructor.

Intensive studio course in painting from the model for graduate students.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

589. Selected Topics in Visual Art (1-3)

Prerequisites: Consent of instructor.

Topics of current interest in the visual arts selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics. Topics announced in the *Schedule of Classes*.

590. Selected Topics in Studio Art (1-3)

Prerequisites: Consent of instructor.

Special topics of current interest in studio art will be selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics. Topics announced in the *Schedule of Classes*. (2-6 hrs. lab.)

A. Visiting Artists

592Z./492Z. Graduate Concentrated Studies in Life Painting (3)

Prerequisites: Graduate student in Art or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in painting the human figure. A more open relationship in attitudes and processes of working from the figure in class and total self-direction on work done outside class.

Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

597A. Graduate Studies: Ceramics (3)

Prerequisites: Graduate M.F.A student or consent of instructor.

Variable topics course within discipline of Ceramics. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597B. Graduate Studies: Wood (3)

Prerequisites: Graduate M.F.A student or consent of instructor.

Variable topics course within discipline of Wood. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597D. Graduate Studies: Drawing (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Drawing. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597F. Graduate Studies: Illustration/Animation (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Illustration/Animation. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597J. Graduate Studies: Metal (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Metal. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597K. Graduate Studies: Painting (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6hrs. lab)

597L. Graduate Studies: Life Drawing and Painting (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Life Drawing and Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. Course fee may be required. (6 hrs. lab)

597M. Graduate Studies: Life Sculpture (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Life Sculpture. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597N. Graduate Studies: Fiber (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Fiber. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597O. Graduate Studies: Sculpture/4D (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Sculpture/4D. Studio, activity, critique, and discussion course with focus and assignments

changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597R. Graduate Studies: Printmaking (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Printmaking. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597S. Graduate Studies: Visual Communication Design (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Variable topics course within discipline of Visual Communication Design. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597V. Graduate Studies: Photography (3)

Prerequisites: Graduate M.F.A student or consent of instructor.

Variable topics course within discipline of Photography. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598A. Graduate Studies: Advanced Ceramics (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597A.

Variable topics course for advanced graduate study within discipline of Ceramics. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598B. Graduate Studies: Advanced Wood (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597B.

Variable topics course for advanced graduate study within discipline of Wood. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598D. Graduate Studies: Advanced Drawing (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597D.

Variable topics course for advanced graduate study within discipline of Drawing. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598F. Graduate Studies: Advanced Illustration/Animation (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597F.

Variable topics course for advanced graduate study within discipline of Illustration/Animation. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598J. Graduate Studies: Advanced Metal (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597J.

Variable topics course for advanced graduate study within discipline of Metal. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598K. Graduate Studies: Advanced Painting (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597K.

Variable topics course for advanced graduate study within discipline of Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598L. Graduate Studies: Advanced Life Drawing and Painting (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597L.

Variable topics course for advanced graduate study within discipline of Life Drawing and Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. Course fee may be required. (6 hrs. lab)

598M. Graduate Studies: Advanced Life Sculpture (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597M.

Variable topics course for advanced graduate study within discipline of Life Sculpture. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598N. Graduate Studies: Advanced Fiber (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597N.

Variable topics course for advanced graduate study within discipline of Fiber. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598O. Graduate Studies: Advanced Sculpture/4D (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597O.

Variable topics course for advanced graduate study within discipline of Sculpture/4D. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6hrs. lab).

598R. Graduate Studies: Advanced Printmaking (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597R.

Variable topics course for advanced graduate study within discipline of Printmaking. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6hrs. lab).

598S. Graduate Studies: Advanced Visual Communication Design (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597S.

Variable topics course for advanced graduate study within discipline of Visual Communication Design. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598V. Graduate Studies: Advanced Photography (3)

Prerequisites: Graduate M.F.A. student and 12 units ART 597V.

Variable topics course for advanced graduate study within discipline of Photography. Studio, activity, critique, and discussion course with focus and assignments changing each semester.

Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

599. Graduate Studies: Special Studio (3)

Prerequisites: Graduate MFA Student and consent of Instructor and consent of School of Art Graduate Advisor

Specialized graduate studio projects, with faculty supervision, in a specific discipline.

Letter grade only (A-F). May be repeated to a maximum of 9 units with same topic in the same semester. Area will be designated by letter at time of registration. (6 hrs lab)

F. Illustration/Animation

601A-B. Seminar in Art Education (3-3)

Prerequisite: Graduate student in Art Education or consent of instructor.

Special studies, research and evaluation of the role of the art teacher.

ART 601A is required for the M.A. in Art Education; ART 601B may be required by the student's M.A. committee. Letter grade only (A-F).

651. Seminar in Ceramic Art (3)

Prerequisite: Graduate student in Ceramics or consent of instructor.

Critical analysis of work of historical and contemporary ceramic artists; the changing role of ceramic art as it becomes part of the contemporary art mainstream.

May be repeated to a maximum of 12 units with different artists in different semester. Letter grade only (A-F).

680. Graduate Interdisciplinary Critique (3)

Critique and discussion forum for graduate students in all areas of studio practice, and from all School of Art programs. Emphasis on development of critical discussion and writing skills. Group meetings and individual meetings with instructor.

Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters. Not open for credit to students with credit in ART 591.

681. Graduate Studies: Art Theory/Criticism (3)

Prerequisite: Graduate M.F.A. student or consent of instructor

Seminar involving selected reading and writing concerning topics relevant to student's specific disciplines on the visual arts with an opportunity for interdisciplinary discussion.

Letter grade only (A-F). Not open for credit to students with credit in ART 690A. May be repeated to a maximum of 6 units in different semesters.

682. Graduate Studies: Professional Practices for Studio Art (3)

Prerequisite: Graduate M.F.A. student or consent of instructor.

Seminar involving professional preparation for studio artists stressing practical concerns as well as current trends in art practices, theory and criticism.

Letter grade only (A-F). Not open for credit to students with credit in ART 690B.

683. Graduate Studies: Image as Text (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Seminar focusing on issues of readability, signification meaning and ramifications of the construction and organization of visual imagery with emphasis on visual communications applications.

Letter grade only (A-F).

684. Graduate Studies: Professional Practices for Visual Communication (3)

Prerequisites: Graduate M.F.A. student or consent of instructor.

Seminar involving professional preparation for illustrators, graphic designers, and individuals interested in entering visual communications fields.

Letter grade only (A-F).

685. Writing for Artists (3)

Prerequisite: Graduate MFA student or consent of instructor.

Graduate-level writing course from the artist's point of view. Topics include writing artist's statements, reading critically, analysis of research reflective of a studio practice, organizing and developing thoughts and arguments, self-editing and exploration of writing styles.

Letter grade only (A-F).

690M. 3-D Graduate Seminar (3)

Graduate seminar for 3D students. Examination of media, concerns, strategies relevant to the spectrum of contemporary three-dimensional art production. Includes critique of student work, readings, discussion and written assignments.

May be repeated to a maximum of 3 units in one semester and 9 units in different semesters. Letter grade only (A-F).

692. Project Exhibition (3)

Prerequisite: Advancement to Candidacy and a registration in ART 698 or ART 699. Open only to M.A. and M.F.A. candidates with Project Statement approval, consent of their graduate committee and an assigned exhibition date.

Planning, preparation, and installation of a public exhibition of creative work done for ART 698 or 699.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

693. Teaching Internship (3)

Opportunity to work with full-time Art faculty mentor on course preparation and instruction. Required for eligibility for Graduate Teaching Associate positions.

Restricted to graduate art majors. Letter grade only (A-F). May be repeated to a maximum 6 units. Only 3 units may be counted toward degree. (6 hrs. lab.)

694. Graduate Studies: Directed Studio (1)

Independent studies in creative studio.

School Chair or Graduate Advisor approval, restricted to graduate art majors. Student must enroll in three sections concurrently. Nine units required for MFA degree. No more than 9 units may be applied to MFA degree.

Letter grade only (A-F). May be repeated to a maximum of 12 units in the same semester.

695. Graduate Studies: Field Problems (1-6)

Opportunity to study artistic monuments, objects, theories, techniques or literature at appropriate off campus locations.

School Chair or Graduate Advisor approval, restricted to graduate art majors. Letter grade only (A-F). May be repeated to a maximum of 12 units in different semesters. (2-12 hrs. lab.)

697. Graduate Studies: Directed (1-3)

Independent studies in technical and/or historical aspects of art.

School Chair or Graduate Advisor approval, restricted to graduate art majors. Letter grade only (A-F). May be repeated to a maximum of 12 units in the same semester. (2-6) hrs. lab.

698A. Art Education Thesis or Project (1-6)

Prerequisite: Advancement to Candidacy and an approved Thesis or Project Statement.

Execution and completion of an approved thesis, or project, project report, documentation, orals and comprehensive exam. Open only to Art Education students. Required of all candidates for the MA in Art, specialization in Art Education.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

698B. Studio Project (1-6)

Prerequisite: Advancement to Candidacy and an approved project statement. Execution and completion of an approved Studio Project and Project Report for the MA degree.

Open only to Studio Art students. Required of all candidates for the MA in Art, specialization in Studio Art.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

699. Graduate Studies: MFA Project (2)

Prerequisite: MFA Art Student, Advancement to Candidacy and an approved Project Statement.

Execution and completion of a Studio Project and Project Report for the M.F.A. degree. Student must enroll in three sections concurrently. To be taken with each of three M.F.A. committee members for a total of 6 units in the final semester of study. No more than 6 units may be applied to the M.F.A. degree.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

Art History Courses (AH)

LOWER DIVISION

111A. Foundation Art History I (3)

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

Chronological survey of art as an integral part of Western Culture from pre-History through the Middle Ages.

Not open for credit to students with credit in AH 115B.

111B. Foundation Art History II (3)

Prerequisite: Completion/current enrollment in GE A1 (Written Communication) requirement

Chronological survey of art as an integral part of Western Culture from Proto-Renaissance to contemporary.

Not open for credit to students with credit in AH 115C.

112. Foundation Art History: Latin American Arts and Architecture (3)

Prerequisite: Completion/current enrollment in GE A1 (Written Communication) requirement

Survey of arts and architecture of Mexico, Central America, and South America from 1200 BC to the late 20th century.

Letter grade only (A-F).

113A. Survey Asian Art: Early Sacred Cultures (3)

Prerequisite/Corequisite: Completion/current enrollment in GE A1 (Written Communication) requirement.

Survey of art as an integral part of Asian culture: India and SE Asia, China, and Japan from earliest times to c. 1000.

Not open for credit to students with credit in ART 113A.

113B. Survey Asian Art: Later Traditions (3)

Prerequisite/Corequisite: One GE Foundation course.

Survey of art as an integral part of Asian culture: India and SE Asia, China, and Japan from earliest times from c. 1000 to 1900.

Not open for credit to students with credit in ART 113B.

114. Foundation Art History: Arts of Africa, Oceania, and Indigenous North America (3)

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

Survey of architecture, urban planning, art, and other aspects of visual culture in Africa, Oceania, and indigenous North America.

Letter grade only (A-F).

116. Foundation Art History: Arts of Islamic Regions (3)

Prerequisites: Completion/current enrollment in GE A1 (Written Communication) requirement.

Survey of architecture and visual culture in Islamic cultures from the 7th century to the present in North Africa, Spain, Southeast Asia, and the Islamic diaspora.

Letter grade only (A-F).

UPPER DIVISION

364. History of Ceramics 1900 to Present (3)

Survey of ceramic art in the United States from 1900 to the present. Consideration of American ceramic art within the context of contemporary art history, and of significant ceramic works in relation to modern and postmodern movements in art.

Letter grade only (A-F).

365. History of Prints and Drawings (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Historical survey of prints and drawings, with emphasis on technical and stylistic developments and on the role played by these media in relation to other arts through the 20th century.

Not open for credit to students with credit in ART 365. Letter grade only (A-F).

400./500. 19th Century Photography (3)

Prerequisite: AH 111B or consent of instructor.

Examination of 19th century photography.

Letter grade only (A-F).

401./501. American Art to 1900 (3)

Prerequisites: AH 111A, AH 111B or consent of instructor.

Survey of American art from the time of European settlement to roughly 1900 with special focus on cultural, political, and historical contexts. Combines slide lecture with discussion of primary and secondary readings.

Letter grade only (A-F).

408./508. Early Christian and Byzantine Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Architecture, mosaics and sculpture of Rome, Ravenna and Constantinople from the decline of the Roman Empire to the end of the Byzantine era.

Not open for credit to students with credit in ART 408 or 598B.

Letter grade only (A-F).

409./509. Romanesque Art (3)

Prerequisites: AH 111A, or consent of instructor.

Arts of Northern Europe from Merovingian through the Romanesque periods.

Not open for credit to students with credit in ART 409 or ART 598C.

Letter grade only (A-F).

410./510. Gothic Art (3)

Architecture, sculpture, and painting in western Europe from the 12th through the 14th centuries, with special attention to the construction and decoration of the great cathedrals, and to the development of new approaches to style and content in the figural art of the 14th-century Italy.

Not open for credit to students with credit in ART 410 or ART 598D.

Letter grade only (A-F).

411./511. 20th Century Photography to the Present (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

History of 20th and 21st c. photography. Emphasis on critical issues ranging from the fine art print to photo-based arts, from the "truth" of documentary to constructed realities. Study of the camera's impact on modern and postmodern visual culture.

Not open for credit to students with credit in ART 411 or ART 511.

Letter grade only (A-F).

415./515. Issues in Art History: Theory and Practice (3)

Prerequisites: AH 111A or AH 11B, Art Major or consent of instructor

Theoretical and practical considerations in the discipline of art history, specifically issues relating to art interpretation, classification, valuation, and circulation.

Letter grade only (A-F).

416./516. Greek Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Survey of Greek Art from beginnings in Aegean period through late Hellenistic period. Key monuments of architecture, sculpture, painting, vase-painting, and so-called minor arts discussed relative to contemporary theories, criticism, and history. Focus on techniques and materials of various arts.

Not open for credit to students with credit in ART 416 or ART 598E.

Letter grade only (A-F).

417./517. Roman Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Survey of Italian arts before the Romans, including indigenous art of the Italic peoples and the Etruscans, and Roman Art from early Republic to Age of Constantine. Discussion of major art forms of architecture, painting, sculpture and so-called minor arts.

Not open for credit to students with credit in ART 417 or ART 598L.

Letter grade only (A-F).

423./523. Early Renaissance Art in Italy (3)

Examination of stylistic and technical developments of fifteenth-century Italian painting, sculpture, and architecture, as well as interaction of cultural, social, and religious developments with visual arts. Special attention to the revival of classicism, and influence of private patrons.

Not open for credit to students with credit in ART 423 or ART 598F.

Letter grade only (A-F). Course fee may be required.

424./524. High Renaissance Art in Italy (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of 16th-century Italian painting, sculpture, and architecture, emphasizing that of Florence, Venice, and Rome. Historical, cultural, religious, and theoretical framework. Special attention to works by a handful of major artists (Leonardo da Vinci, Michelangelo, Raphael, Titian, and the Mannerists).

Not open for credit to students with credit in ART 424 or ART 598G.

Letter grade only (A-F).

425./525. Northern Renaissance Painting (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of artistic developments in Northern Europe, particularly Flanders, France, and Germany, from the 14th century through 16th century. Historical, cultural, and religious and theoretical framework. Special attention to iconography, and the changing role of the artist in society.

Not open for credit to students with credit in ART 425 or ART 598H.

Letter grade only (A-F).

426./526. Baroque Art in Spain, the Netherlands, and England (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of intertwined political and artistic situations in Netherlands (Flanders and Holland), England and Spain during seventeenth and early eighteenth centuries. Emphasis on relationship between Rubens and Velasquez, contrast between Rubens and Rembrandt, and Flemish influence in England.

Not open for credit to students with credit in ART 426 or ART 598J.

Letter grade only (A-F).

427./527. Baroque Art in Italy, France, and Germany (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Explores birth of Baroque in Rome, and role of Counter-Reformation in shaping artistic genres in Italy and France in early 17th century. Covers influence of Versailles court of "Sun King," Louis XIV, in late 17th and early 18th centuries, especially in independent Teutonic states.

Not open for credit to students with credit in ART 427 or ART 598K. Letter grade only (A-F).

430./530. Introduction to Curatorial Practices (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Study of contemporary art display theory/practice including exhibition typologies, curatorial models, and recent transformations in museums, galleries and the art market. Designed for Museum and Curatorial Studies Certificate students and others interested in studying museum practices within a broader context. Not open for credit to students with credit in AH 435B/535B.

Letter grade only (A-F).

431./531. History of Museums and Exhibitions (3)

Prerequisites: AH 111A, AH 111B or consent of advisor and instructor.

Study of history of art museums and how displays reflect social and cultural conditions and political ideologies. Attention to controversial exhibitions, and recent transformations in the field.

Class is required of students seeking Museum Studies Certificate and those pursuing MA with emphasis in Museum Studies. Not open for credit to students with credit in ART 435; AH 435, AH 435A, or AH 535A. Letter grade only (A-F).

436./536. Neo-Classicism to Romanticism, 1789-1850 (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of Neo-Classicism, Realism, Romanticism, photography and the academic tradition in art and culture of Europe from 1789-1850.

Not open for credit to students with credit in ART 436 or ART 598M. Letter grade only (A-F).

437./537. Impressionism to Post-Impressionism, 1850-1900 (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Analysis of the development of Impressionism and Post-Impressionism in France from 1850 to 1900.

Not open for credit to students with credit in ART 437 or ART 598N. Letter grade only (A-F).

438./538. Art of Early to Mid Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of key developments, trends, movements of the period including Abstraction, Non-Objective art, Expressionism, Dada, and Surrealism.

Letter grade only (A-F). Not open for credit to students with credit in ART 438 or ART 598P.

439./539. Art of Mid to Late Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of key developments, trends, movements of the period including Pop Art, Happenings, Minimal Art, Art and Technology, Environmental, Concept, Performance and Video Art.

Letter grade only (A-F). Not open for credit to students with credit in ART 439 or ART 598Q.

441./541. Contemporary Art in Context (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

International survey focusing on developments in art from late twentieth century to present. Examination of precedents, traditions, legacies behind current art. Consideration of critical/

theoretical issues and factors influencing production and reception of current art.

Letter grade only (A-F).

444./544. History of Graphic Design (3)

Prerequisites: AH 111A and 111B, or consent of instructor.

Thematic approach to Graphic Design history, with consideration of pioneering designers, movements, and cultural, social, political and technological influences in the evolution of graphic design.

Not open for credit to students with credit in AH 366. Letter grade only (A-F).

446./546. Art History Methodologies and Writing (3)

Prerequisites: Undergraduate Art History major with senior standing or consent of instructor.

Practice in writing and conducting research in art history, and introduction to various methodologies and debates within the discipline, including biography, formalism, semiotics, gender studies, psychoanalysis, Marxism, post-colonialism, and visual culture studies.

Letter grade only (A-F).

447./547. Historiography of Art History (3)

Prerequisites: Undergraduate Art History major with senior standing or consent of instructor.

Study of the history of art history as intellectual discipline. Reading- and writing-intensive seminar designed specifically for undergraduate art history majors in final year of study and for graduate students in M.A. in Art History program.

Letter grade only (A-F). Not open for credit to students with credit in ART 307 or AH 307.

448./548. Western Art Theory and Criticism to the Mid-Nineteenth Century (3)

Prerequisites: Undergraduate School of Art major and AH 111A and AH 111B, or consent of instructor.

A text-based examination of western art theory and criticism up to the mid-nineteenth century.

Letter grade only (A-F). Not open for credit to students with credit in AH 308.

449./549. Western Art Theory and Criticism Mid-Nineteenth to Mid-Twentieth Century (3)

Prerequisites: Undergraduate School of Art major and AH 111A and AH 111B, or consent of instructor.

A text-based examination of western art theory and criticism from the mid-nineteenth to mid-twentieth centuries. Not open for credit to students with credit in AH 309.

Letter grade only (A-F).

450./550. Western Art Theory and Criticism Mid-Twentieth Century to Present (3)

Prerequisites: Undergraduate School of Art major and AH 111A and AH 111B, or consent of instructor.

A text-based examination of western art theory and criticism from the mid-twentieth century to the present.

Letter grade only (A-F). Not open for credit to students with credit in AH 310.

455./555. Traditional Art of Africa: A Thematic Approach (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Exploration from a Western perspective of the conceptual, expressive, and aesthetic aspects of traditional African art as related to its cultural context and to Western concepts of art. Focus on West Africa.

Not open for credit to students with credit in ART 455 or ART 598R. Letter grade only (A-F).

456./556. American Indian Art: Western Perspectives (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Exploration from a Western perspective of the historically various and changing frames of reference surrounding perception, interpretation, and consideration of Native American art through focus on selected traditions.

Not open for credit to students with credit in ART 456 or ART 598S. Letter grade only (A-F).

457A./557A. Pre-Columbian Art: Mesoamerica (3)

Prerequisites: AH 112 or consent of instructor.

Art, architecture, and urban planning in Mesoamerica from 1200 BCE to the Spanish conquest of 1519-1521, with emphasis on religious, political, and economic functions, as well as interpretive assumptions and methods of scholars in the field.

Letter grade only (A-F).

457B./557B. Pre-Columbian Art: The Andes (3)

Prerequisites: AH 112 or consent of instructor.

Art, architecture, and urban planning in the Andean region from 1200 BCE to the Spanish conquest of 1532, with emphasis on religious, political, and economic functions, as well as interpretive assumptions and research methods of scholars in the field.

Letter grade only (A-F).

457C./557C. Pre-Columbian Art (3)

Prerequisites: AH 111A, AH 111B, AH 112 or consent of instructor.

A survey of art and architecture in Mesoamerica and the Andean region of South America from about 1000 BC to the Spanish conquest. Special attention will be focused on the social, political and economic contexts of objects and architecture from this period, as well as on the research methods and theoretical assumptions of scholars investigating this field.

Letter grade only (A-F). Not open for credit to students with credit in AH 457.

458./558. Art of Latin America: 1800-1940 (3)

Prerequisite: AH 111A, AH 111B, AH 112, or consent of instructor.

Investigation of developments in visual culture in Latin America from the late-18th century to the mid-20th century, with special emphasis on artists in Argentina, Brazil, Colombia, Mexico, Uruguay, and Venezuela.

Letter grade only (A-F).

459./559. Art of Latin America: 1940-Present (3)

Prerequisite: AH 111A, AH 111B, AH 112, or consent of instructor.

Investigation of developments in visual culture in Latin America from the mid-20th century to the present, with special emphasis on artists in Argentina, Brazil, Chile, Colombia, Cuba, Mexico, and Venezuela, as well as Latino/Latina artists.

Letter grade only (A-F).

460./560. Art of Mexico: 1780 to Present (3)

Prerequisite: AH 111A, AH 111B, AH 112, or consent of instructor.

Fine art, graphic art, photography, popular art, and architecture produced by artists of/in Mexico from 1780 to the present, with emphasis on historical contexts, the varied functions objects were made to serve, and debates concerning production, circulation, and/or reception.

Letter grade only (A-F).

465./565. Ancient Art of the Near East (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Near Eastern, Egyptian and Aegean art.

Not open for credit to students with credit in ART 465 or ART 598U. Letter grade only (A-F).

466./566. Buddhist Art of India and S.E. Asia (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Formation and development of Buddhist art in India and subsequent metamorphoses in Cambodia, Thailand and Indonesia examined.

Not open for credit to students with credit in ART 466 or ART 598V. Letter grade only (A-F).

467./567. Hindu and Islamic Art of India (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Formation and development of Hindu art in India and the genesis, as well as transformation, of Islamic art of India compared to pan-Islamic characteristics will be examined.

Not open for credit to students with credit in ART 467 or ART 598W. Letter grade only (A-F).

468./568. Early Chinese Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Formation and development of Chinese art from third millennium to 10th century A.D.

Not open for credit to students with credit in ART 468 or ART 598X. Letter grade only (A-F).

469./569. Later Chinese Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Development of Chinese art from the 11th century A.D. through the culmination of the tradition and its transformation in the 20th century will be explored.

Not open for credit to students with credit in ART 469 or ART 598Y. Letter grade only (A-F).

470A./570A. Japanese Buddhist Art to 1500 (3)

Prerequisite: One of the following: AH 113A, AH 113B, AH 111A, AH 111B, A/ST 393, A/ST 451, consent of instructor.

Survey of sacred architecture, sculpture, painting, gardens and decorative art from neolithic culture through Zen Buddhism, reading images in regard to religious, political and social values.

Not open for credit to students with credit in AH 470. Letter grade only (A-F).

470B./570B. Japanese Art 1500-1868 (3)

Prerequisites: AH 113A, AH 113B, AH 111A, AH 111B, A/ST 393, A/ST 451, or consent of instructor.

Analysis of secular painting, architecture, ceramics and garden design in the Momoyama and Edo periods, linking the wide variety of subjects and styles to the competing values of samurai, priest, aristocrat or merchant class patrons.

Not open for credit to students with credit in AH 470. Letter grade only (A-F).

471A./571A. Modern Japanese Graphic Art (3)

Prerequisite: One of the following: AH 113A, AH 113B, AH 111A, AH 111B, A/ST 393, A/ST 451, or consent of instructor.

Examination of painting, prints, photography and graphic design in regard to the issues of individualism or national identity in an era when being modern was often linked to being Western. We also consider manga in regard to earlier modern adaptations of traditional design.

Not open for credit to students with credit in AH 471. Letter grade only (A-F).

471B./571B. Modern Japanese Plastic Art (3)

Prerequisite: One of the following: AH 113A, AH 113B, AH 111A, AH 111B, A/ST 393, A/ST 451, or consent of the instructor.

Investigation of architecture, gardens, sculpture and ceramics in light of debates over internationalism or nationalism, modernity or tradition. The political and economic implications of design choices will be highlighted.

Not open for credit to students with credit in AH 471. Letter grade only (A-F).

471C./571C. Modern Japanese Architecture (3)

Prerequisites: AH 113A or AH 113B or AH 111A; AH 111B.

Analysis of "Japaneseness" and "foreign-ness" in Japan between 1868 and 1970. Examination of Japanese creations of and reactions to "modernity" in regard to national identity as expressed in architecture and gardens. Related consideration of urbanism and nationalism.

Letter grade only (A-F).

495. Independent Study In Art History (1-6)

Independent research conducted under supervision of faculty member. Student and instructor must have on file in School of Art office signed written agreement, established at beginning of course, outlining description of work, specific tasks required, nature of final report, and basis for determining final grade.

Letter grade only (A-F).

496. Special Studies in Art History (3)

Prerequisite: AH 447 or consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in art history.

Topics announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units. Not open for credit to students with credit in ART 496. Letter grade only (A-F).

497./597. Seminar in Art History (3)

Prerequisite: Consent of instructor.

Directed individual research and group discussion concerning a topic in art history.

Topics announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. Not open for credit to students with credit in ART 497 or 611 beyond combined maximum units. Letter grade only (A-F).

498. Selected Topics in Art History (3)

Prerequisite: Consent of instructor.

Topics from selected areas of Art History. Content may vary each semester.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 12 units in different semesters. Topics announced in the *Schedule of Classes*.

499Q. Special Studies in Museum Studies (3)

Prerequisites: AH 431 or consent of instructor.

Opportunity for extensive individual work with faculty supervision on problems in museum studies, including utilizing the resources of The Center for Southern California Studies in the Visual Arts.

Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Not open for credit to students with credit in ART 499Q.

GRADUATE LEVEL

500./400. 19th Century Photography (3)

Prerequisites: AH or ART graduate student, or consent of instructor.

Examination of 19th century photography.

Letter grade only (A-F).

501./401. American Art to 1900 (3)

Prerequisites: AH 111A, AH 111B or consent of instructor.

Survey of American art from the time of European settlement to roughly 1900 with special focus on cultural, political, and historical contexts. Combines slide lecture with discussion of primary and secondary readings.

Letter grade only (A-F).

508./408. Early Christian and Byzantine Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Architecture, mosaics and sculpture of Rome, Ravenna and Constantinople from the decline of the Roman Empire to the end of the Byzantine era.

Not open for credit to students with credit in ART 408 or ART 598B. Letter grade only (A-F).

509./409. Romanesque Art (3)

Prerequisites: AH 111A, or consent of instructor.

Arts of Northern Europe from Merovingian through the Romanesque periods.

Not open for credit to students with credit in ART 409 or ART 598C. Letter grade only (A-F).

510./410. Gothic Art (3)

Architecture, sculpture, and painting in western Europe from the 12th through the 14th centuries, with special attention to the construction and decoration of the great cathedrals, and to the development of new approaches to style and content in the figural art of the 14th-century Italy.

Not open for credit to students with credit in ART 410 or ART 598D. Letter grade only (A-F).

511./411. 20th Century Photography to the Present (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

History of 20th and 21st c. photography. Emphasis on critical issues ranging from the fine art print to photo-based arts, from the "truth" of documentary to constructed realities. Study of the camera's impact on modern and postmodern visual culture.

Not open for credit to students with credit in ART 411 or ART 511. Letter grade only (A-F).

515./415. Issues in Art History: Theory and Practice (3)

Prerequisites: Graduate standing in Art History, Art Studio, or Art Education or consent of instructor

Theoretical and practical considerations in the discipline of art history, specifically issues relating to art interpretation, classification, valuation, and circulation.

Letter grade only (A-F).

516./416. Greek Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Survey of Greek Art from beginnings in Aegean period through late Hellenistic period. Key monuments of architecture, sculpture, painting, vase-painting, and so-called minor arts discussed relative to contemporary theories, criticism, and history. Focus on techniques and materials of various arts.

Not open for credit to students with credit in ART 416 or ART 598E. Letter grade only (A-F).

517./417. Roman Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Survey of Italian arts before the Romans, including indigenous art of the Italic peoples and the Etruscans, and Roman Art from early Republic to Age of Constantine. Discussion of major art forms of architecture, painting, sculpture and so-called minor arts.

Not open for credit to students with credit in ART 417 or ART 598L. Letter grade only (A-F).

523./423. Early Renaissance Art in Italy (3)

Examination of stylistic and technical developments of fifteenth-century Italian painting, sculpture, and architecture, as well as interaction of cultural, social, and religious developments with visual arts. Special attention to the revival of classicism, and influence of private patrons.

Not open for credit to students with credit in ART 423 or ART 598F. Letter grade only (A-F). Course fee may be required.

524./424. High Renaissance Art in Italy (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of sixteenth-century Italian painting, sculpture, and architecture, emphasizing that of Florence, Venice, and Rome. Historical, cultural, religious, and theoretical framework. Special attention to works by a handful of major artists (Leonardo da Vinci, Michelangelo, Raphael, Titian, and the Mannerists).

Not open for credit to students with credit in ART 424 or ART 598G. Letter grade only (A-F).

525./425. Northern Renaissance Painting (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of artistic developments in Northern Europe, particularly Flanders, France, and Germany, from the 14th century through 16th century. Historical, cultural, and religious and theoretical framework. Special attention to iconography, and the changing role of the artist in society.

Not open for credit to students with credit in ART 425 or ART 598H. Letter grade only (A-F).

526./426. Baroque Art in Spain, the Netherlands, and England (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examines the closely intertwined political and artistic situations in the Netherlands (Flanders and Holland), England and Spain during the 17th and early 18th centuries. Emphasis on the relationship between Rubens and Velasquez, and the contrast between Rubens and Rembrandt; also Flemish influence in England, due especially to Anthony van Dyck.

Not open for credit to students with credit in ART 426 or ART 598J. Letter grade only (A-F).

527./427. Baroque Art in Italy, France, and Germany (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Explores the birth of the Baroque in Rome, and the role of the Counter-Reformation in shaping artistic genres in Italy and France in the early 17th century. Also covers the influence of the Versailles court of the "Sun King," Louis XIV, in the late 17th and early 18th centuries, especially in the independent Teutonic states.

Not open for credit to students with credit in ART 427 or ART 598K. Letter grade only (A-F).

530./430. Introduction to Curatorial Practices (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Study of contemporary art display theory/practice including exhibition typologies, curatorial models, and recent transformations in museums, galleries and the art market. Designed for Museum and Curatorial Studies Certificate students and others interested in studying museum practices within a broader context.

Letter grade only (A-F). Not open for credit to students with credit in AH 435B./535B.

531./431. History of Museums and Exhibitions (3)

Prerequisites: AH 111A, AH 111B or consent of advisor and instructor.

Study of history of art museums and how displays reflect social and cultural conditions and political ideologies. Attention to controversial exhibitions, and recent transformations in the field.

Letter grade only (A-F). Not open for credit to students with credit in ART 435, AH 435, AH 435A, or AH 535A.

536./436. Neo-Classicism to Romanticism, 1789-1850 (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of Neo-Classicism, Realism, Romanticism, photography and the academic tradition in art and culture of Europe from 1789-1850.

Not open for credit to students with credit in ART 436 or ART 598M. Letter grade only (A-F).

537./437. Impressionism to Post-Impressionism, 1850-1900 (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Analysis of the development of Impressionism and Post-Impressionism in France from 1850 to 1900.

Not open for credit to students with credit in ART 437 or ART 598N. Letter grade only (A-F).

538./438. Art of Early to Mid Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of key developments, trends, movements of the period including Abstraction, Non-Objective art, Expressionism, Dada, and Surrealism.

Letter grade only (A-F). Not open for credit to students with credit in ART 438 or ART 598P.

539./439. Art of Mid to Late Twentieth Century (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of key developments, trends, movements of the period including Pop Art, Happenings, Minimal Art, Art and Technology, Environmental, Concept, Performance and Video Art.

Letter grade only (A-F). Not open for credit to students with credit in ART 439 or ART 598Q.

541./441. Contemporary Art in Context (3)

Prerequisites: Graduate standing in Art History or consent of instructor.

International survey focusing on developments in art from late twentieth century to present. Examination of precedents, traditions, legacies behind current art. Consideration of critical/theoretical issues and factors influencing production and reception of current art.

Letter grade only (A-F)

542. Internship in Museum Studies (3)

Prerequisites: AH 430/530 or consent of instructor.

Supervised internship in selected museums, college and community art centers appropriate to student's particular academic interest. Opportunity to work with museum professionals in the field to expand student understanding of the complexities, discipline and challenges in the profession.

Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Not open for credit to students with credit in ART 542.

544./444. History of Graphic Design (3)

Prerequisites: Graduate standing in School of Art, or consent of instructor.

Thematic approach to Graphic Design history, with consideration of pioneering designers, movements, and cultural, social, political and technological influences in the evolution of graphic design.

Not open for credit to students with credit in AH 366. Letter grade only (A-F).

545A. Museum-Gallery Practices (3)

Prerequisites: AH 431 or AH 531 or consent of instructor. First in a four-course sequence.

Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.

Letter grade only (A-F).

545B. Museum-Gallery Practices (3)

Prerequisites: AH 545A or consent of instructor.

Second in a four-course sequence. Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.

Letter grade only (A-F).

545C. Museum-Gallery Practices (3)

Prerequisites: AH 545B or consent of instructor. Third in a four-course sequence.

Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.

Letter grade only (A-F).

545D. Museum-Gallery Practices (3)

Prerequisites: AH 545C or consent of instructor. Fourth in a four-course sequence.

Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.

Letter grade only (A-F).

546./446. Art History Methodologies and Writing (3)

Prerequisites: Graduate standing in Art History or consent of instructor.

Practice in writing and conducting research in art history, and introduction to various methodologies and debates within the discipline, including biography, formalism, semiotics, gender studies, psychoanalysis, Marxism, post-colonialism, and visual culture studies.

Letter grade only (A-F).

547./447. Historiography of Art History (3)

Prerequisites: Graduate student in Art History or consent of instructor.

Study of the history of art history as intellectual discipline. Reading- and writing-intensive seminar designed specifically for undergraduate art history majors in final year of study and for graduate students in M.A. in Art History program.

Letter grade only (A-F). Not open for credit to students with credit in ART 307 or AH 307.

548./448. Western Art Theory and Criticism to the Mid-Nineteenth Century (3)

Prerequisites: Graduate student in Art History or consent of instructor.

A text-based examination of western art theory and criticism up to the mid-nineteenth century.

Letter grade only (A-F). Not open for credit to students with credit in AH 308.

549./449. Western Art Theory and Criticism Mid-Nineteenth to Mid-Twentieth Century (3)

Prerequisites: Graduate student in Art History or consent of instructor. A text-based examination of western art theory and criticism from the mid-nineteenth to mid-twentieth centuries.

Letter grade only (A-F). Not open for credit to students with credit in AH 309.

550./450. Western Art Theory and Criticism Mid-Twentieth Century to Present (3)

Prerequisites: Graduate Student in Art or Art History or consent of instructor.

A text-based examination of western art theory and criticism from the mid-twentieth century to the present.

Letter grade only (A-F).

555./455. Traditional Art of Africa: A Thematic Approach (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Exploration from a Western perspective of the conceptual, expressive, and aesthetic aspects of traditional African art as related to its cultural context and to Western concepts of art. Focus on West Africa.

Not open for credit to students with credit in ART 455 or 598R. Letter grade only (A-F).

556./456. American Indian Art: Western Perspectives (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Exploration from a Western perspective of the historically various and changing frames of reference surrounding perception, interpretation, and consideration of Native American art through focus on selected traditions.

Not open for credit to students with credit in ART 456 or 598S. Letter grade only (A-F).

557A./457A. Pre-Columbian Art: Mesoamerica (3)

Prerequisites: Graduate Standing in Art or Art History or consent of instructor.

Art, architecture, and urban planning in Mesoamerica from 1200 BCE to the Spanish conquest of 1519-1521, with emphasis on religious, political, and economic functions, as well as interpretive assumptions and methods of scholars in the field.

Letter grade only (A-F).

557B./457B. Pre-Columbian Art: The Andes (3)

Prerequisites: Graduate Standing in Art or Art History or consent of instructor.

Art, architecture, and urban planning in the Andean region from 1200 BCE to the Spanish conquest of 1532, with emphasis on religious, political, and economic functions, as well as interpretive assumptions and research methods of scholars in the field.

Letter grade only (A-F).

557C./457C. Pre-Columbian Art (3)

Prerequisite: Graduate standing in Art or Art History or consent of instructor.

Survey of art and architecture in Mesoamerica and Andean region of South America from 1000BC to Spanish conquest. Special attention to social, political and economic contexts, as well as research methods and theoretical assumptions of scholars investigating this field.

Letter grade only (A-F). Not open for credit to students with credit in AH 557.

558./458. Art of Latin America: 1800-1940 (3)

Prerequisite: Graduate standing in Art or Art History or consent of instructor.

An investigation of developments in visual culture in Latin America from the late-18th century to the mid-20th century, with special emphasis on artists in Argentina, Brazil, Colombia, Mexico, Uruguay, and Venezuela.

Letter grade only (A-F).

559./459. Art of Latin America: 1940-Present (3)

Prerequisite: Graduate standing in Art or Art History or consent of instructor.

An investigation of developments in visual culture in Latin America from the mid-20th century to the present, with special emphasis on artists in Argentina, Brazil, Chile, Colombia, Cuba, Mexico, and Venezuela, as well as Latino/Latina artists.

Letter grade only (A-F).

560./460. Art of Mexico: 1780 to Present (3)

Prerequisites: Graduate Standing in Art or Art History or consent of instructor.

Fine art, graphic art, photography, popular art, and architecture produced by artists of/in Mexico from 1780 to the present, with emphasis on historical contexts, the varied functions objects were made to serve, and debates concerning production, circulation, and/or reception.

Letter grade only (A-F).

565./465. Ancient Art of the Near East (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Prehistoric, Near Eastern, Egyptian and Aegean art.

Not open for credit to students with credit in ART 465 or 598U.

Letter grade only (A-F).

566./466. Buddhist Art of India and S.E. Asia (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of formation and development of Buddhist art in India and its subsequent metamorphoses in Cambodia, Thailand and Indonesia.

Not open for credit to students with credit in ART 466 or ART 598V.

Letter grade only (A-F).

567./467. Hindu and Islamic Art of India (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Examination of formation and development of Hindu art in India and the genesis; transformation, of Islamic art of India compared to pan-Islamic characteristics.

Not open for credit to students with credit in ART 467 or ART 598W. Letter grade only (A-F).

568./468. Early Chinese Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

The formation and development of Chinese art from the third millennium to the 10th century A.D.

Not open for credit to students with credit in ART 468 or ART 598X. Letter grade only (A-F).

569./469. Later Chinese Art (3)

Prerequisites: AH 111A, AH 111B, or consent of instructor.

Development of Chinese art from the 11th century A.D. through the culmination of the tradition and its transformation in the 20th century will be explored.

Not open for credit to students with credit in ART 469 or ART 598Y. Letter grade only (A-F).

570A./470A. Japanese Buddhist Art to 1500 (3)

Prerequisite: One of the following: AH 113A, AH 113B, AH 111A, AH 111B, A/ST 393, A/ST 451, or consent of instructor.

Survey of sacred architecture, sculpture, painting, gardens and decorative art from neolithic culture through Zen Buddhism, reading images in regard to religious, political and social values.

Not open for credit to students with credit in AH 470. Letter grade only (A-F).

570B./470B. Japanese Art 1500-1868 (3)

Prerequisite: Graduate student in Art or Art History or consent of instructor.

Analysis of secular painting, architecture, ceramics and garden design in the Momoyama and Edo periods, linking the wide variety of subjects and styles to the competing values of samurai, priest, aristocrat or merchant class patrons.

Not open for credit to students with credit in AH 470. Letter grade only (A-F).

571A./471A. Modern Japanese Graphic Art (3)

Prerequisite: Graduate student in Art or Art History or consent of instructor.

Examination of painting, prints, photography and graphic design in regard to the issues of individual and national identity in an era when being modern was often linked to being Western. We also consider manga in regard to earlier modern adaptations of traditional design.

Not open for credit to students with credit in AH 471. Letter grade only (A-F).

571B./471B. Modern Japanese Plastic Art (3)

Prerequisite: Graduate student in Art or Art History or consent of instructor.

Investigation of architecture, gardens, sculpture and ceramics in light of debates over internationalism or nationalism, modernity or tradition. The political and economic implications of design choices will be highlighted.

Not open for credit to students with credit in AH 471. Letter grade only (A-F).

571C./471C. Modern Japanese Architecture (3)

Prerequisites: Graduate standing in Art History.

Analysis of "Japaneseness" and "foreign-ness" in Japan between 1868 and 1970. Examination of Japanese creations of and reactions to "modernity" in regard to national identity as expressed in architecture and gardens. Related consideration of urbanism and nationalism.

Letter grade only (A-F).

595. Independent Study in Art History (1-6)

Independent, in-depth research projects to be conducted by students under the supervision of a faculty member.

As per university policy on independent studies courses, students enrolled in this course must have an agreement, or contract on file in the school office. Agreement is made between student and instructor at the beginning of course, and must include: a description of work to be accomplished, specific information on tasks required; nature of final report, and basis for determining final grade. Agreement must be signed by both instructor and student.

Letter grade only (A-F). May be repeated to maximum of 12 units in the same semester.

596. Special Studies in Art History (3)

Graduate level variable directed study projects providing a way for students to independently pursue special research topics in art history under instructor supervision.

Letter grade only (A-F). Topics announced in the *Schedule of Classes*. May be repeated to a maximum of 12 units in the same semester.

597./497. Seminar in Art History (3)

Prerequisite: Consent of instructor.

Directed individual research and group discussion concerning a topic in art history.

Letter grade only (A-F). Topics announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. Not open for credit to students with credit in ART 497 or ART 611 beyond combined maximum units.

598. Selected Topics in Art History (3)

Prerequisite: Consent of instructor.

Topics from selected areas of Art History. Content may vary each semester.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 12 units in different semesters. Topics announced in the *Schedule of Classes*.

599Q. Special Studies in Museum Studies (3)

Prerequisite: Consent of instructor.

Advanced individual graduate projects, with faculty supervision, in museum studies.

Letter grade only (A-F). May be repeated to a maximum of 6 units in same semester and a total of 12 units in different semesters. (6 hrs. lab.)

693. Teaching Internship (3)

Opportunity to work with a full time faculty mentor on course preparation and

instruction. Required for eligibility for Graduate Teaching Associate positions.

Restricted to graduate art history majors.

Letter grade only (A-F). May be repeated to a maximum of 6 units

694. Graduate Studies: Directed Research (3)

Prerequisites: Art History MA Student and Consent of Thesis Committee Chair.

Preliminary research and writing relating to Masters Thesis topic.

Three units required for MA in Art History degree. Letter grade only (A-F).

698. Thesis (1)

Prerequisite: Art History MA student, advancement to Candidacy and an approved Thesis Statement.

Execution and completion of an approved thesis. Student must enroll in three sections concurrently. To be taken with each of student's three MA Thesis Committee members over two semesters for a total of 6 units.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

Introduction

The mission of the College of the Arts is to provide a dynamic, contemporary learning environment that honors tradition, embraces diversity, inspires innovation, and strives for excellence. Our faculty of artists, educators, and scholars is committed to challenging students intellectually, creatively, and professionally, while encouraging them to find their individual artistic voices. The College produces and brings the highest level of art, teaching, and scholarship to our community in the form of concerts, exhibitions and installations, films, performances, publications, and emerging media.

Programs at a Glance

Bachelor of Arts:

Art
Options in: Studio Art, Art History, Art Education

Dance
Dance
Option in Dance Science

Design
Film and Electronic Arts
Options in: Theory and Practice of Cinema, Narrative Production

Music
Theatre Arts
Options in: Performance, Technical Theatre

Bachelor of Fine Arts:

Art
Options in: Art Photography, Ceramics, Drawing and Painting, Graphic Design, Illustration/Animation, 3-D Media (Fiber, Metal or Wood), Printmaking, Sculpture
Dance
Interior Design

Bachelor of Music:

Options in: Choral-Vocal Music, Composition, History and Literature, Instrumental Music, Performance

Bachelor of Science:

Industrial Design

Certificates:

Biomedical Illustration (undergraduate) (Art)
Museum Studies (graduate) (Art)

Minors:

Dance
Film and Electronic Arts
Music
Theatre Arts

Single Subject Teaching Credentials:

Art
Music

Master of Arts:

Art
Dance
Music

Master of Fine Arts:

Art
Dance
Theatre Arts
Options in: Theatre Management, Technical Theatre, Acting

Master of Music

MBA/MFA in Theatre Management

Accreditation

The following disciplines are accredited by the noted specialized accrediting agency:

School of Art
The National Association of Schools of Art and Design
Department of Dance
The National Association of Schools of Dance
Department of Design
The National Association of Schools of Art and Design
The Bob Cole Conservatory of Music
The National Association of Schools of Music

Career Possibilities

Social Scientist • Archivist • Social Worker • Journalist • Counselor • Teacher • Public Relations Consultant • Mass Media • Foreign Business and Trade • Community Organizer • School Administrator • Linguist • Parole Officer • Probation Officer • Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • NSA, FBI Interpreter • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The Department of Asian and Asian American Studies fosters multi-ethnic and cross-cultural understanding from a global, multi-disciplinary perspective and pursues an active language education program to promote cross-cultural awareness and intercultural understanding.

Through courses of its own and those of cooperating departments, the Department of Asian and Asian American Studies offers a B.A. in Asian American Studies, a B.A. and M.A. in Asian Studies, a B.A. in Chinese Studies, a Single Subject Teaching Credential in Japanese, a B.A. in Japanese, a Minor in Asian American Studies, and a Certificate in Asian Studies. Information and advice relative to the programs are available through the department office, FO3-340.

Undergraduate Programs

Bachelor of Arts in Asian Studies (120 units)

The Bachelor of Arts in Asian Studies is an interdisciplinary degree program that combines the study of Asian culture and identity with a choice of three concentrations: Asia and Business; Asia and Globalization; Chinese or Japanese Studies. Students are encouraged to study abroad in Asia as a means to partially fulfill their language requirement. Information about these study-abroad programs can be obtained at the AAAS office (FO3-340) or the Center for International Education (BH 201).

Asian Studies students are interested in a wide range of professions in both the Liberal Arts and Sciences that require a cultural knowledge of Asia, trade in the region, and globalization. The core program provides students with the tools to understand the complex cultures of Asia, and the guidance to focus their interest and accomplish their goals. It prepares CSULB graduates for good jobs in international trade and business, non-profit work, international affairs, diplomacy, policy and public relations, and education. Students should select their concentration, foreign language study, and senior research project with their career objectives in mind.

Asian Studies uses an outcomes-based approach to education and incorporates the use of technology in the classroom. The pedagogical focus is on collaborative, project-based learning and communication associated with a twenty-first century skill set. Since both statistics and economics are important for this major, students are advised to take either ECON 101 or STAT 108 as part of their under-division GE requirements.

Requirements

A minimum of 39 units distributed as follows:

Major Requirements

Foreign Language (12 units)

Take at least three semesters (or the equivalent) of a single Asian language. Language choices are Chinese, Japanese, or an Asian language approved by the AAAS undergraduate advisor (typically Korean, Vietnamese or Cambodian). Students are encouraged to take their language courses early in their academic career and plan to study one or more semesters abroad in Asia to meet this requirement. Those with an Asian language competency may test out of this requirement. Visit the Department for further information.

Lower-Division:

Core courses - 6 units

Take the following course:

AAAS 100 Asian Eats (3)

Prerequisites: None

Take one of the following (3 units):

ASAM 120 Asian American History (3)

Prerequisite/Co-requisite: One GE Foundation course.

AST 200 Popular Culture in East Asia (3)

Prerequisite: ENGL 100 or its equivalent.

CHIN 260 Introduction to Chinese Civilization (3)

Prerequisites: GE Foundation requirements.

Upper-Division (Minimum of 21 units: 9 units of core courses and 12 units of upper division electives):

Core courses - 9 units

Take one of the following (3 units):

ASAM 340 Asian American Family (3)

Prerequisites: GE Foundation requirements and upper-division standing.

AST 306 Traditional Asia (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Take one of the following (3 units):

AST 307 Modern Asia (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

AST 309 Asia and Globalization (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Take the following course:

AAAS 492 Senior Research Seminar (3)

Prerequisites: Upper-division standing in Asian Studies, Japanese, Chinese Studies, Asian American Studies or consent of the instructor.

Concentrations

Take a minimum of 12 units of upper-division electives from one of the following three concentrations:

Asia and Business concentration (any four courses below):

Economics and Finance:

A/ST 490, A/ST 499; ECON 300; ECON 310, ECON 311, ECON 341, ECON 366, ECON 372, ECON 465, ECON 470, ECON 471; FIN 300, FIN 360, FIN 460

Management and Information Systems:

A/ST 490, A/ST 499; CBA 300; HRM 360; MGMT 300; IS 300, IS 301, IS 310; I/ST 319, I/ST 350, I/ST 419

Design and Marketing:

A/ST 490, A/ST 499; DESN 368, DESN 370; GEOG 319; MKTG 300; BLAW 320; I/ST 333

Asia and Globalization concentration (any four courses below):

ANTH 307; ASAM 335, ASAM 407; A/ST 320, A/ST 336; A/ST 490, A/ST 499; HIST 412, HIST 440; I/ST 320, I/ST 333, I/ST 355, I/ST 463; JOUR 312; POSC 371, POSC 463; SOC 317, SOC 318, SOC 350, SOC 375, SOC 430

China or Japan concentration (any four courses below):

Certificate in Asian Studies

Certificate in Asian Studies (31 units)

A student may earn a Certificate in Asian Studies with

a focus on Asian language and global issues. Where applicable, courses used to meet the certificate requirements also may be used to satisfy the General Education requirements, and the major or minor degree requirements of the other departments whose courses are listed as electives for this Certificate.

Requirements

1. A bachelor's degree, with a major in a discipline other than Asian Studies. May be completed concurrently;
2. A minimum of four semesters or its equivalent of one of the following Asian languages at CSU Long Beach: Chinese, Khmer, Japanese, Korean, Tagalog, or Vietnamese. Lower division units (16) for this Certificate must be fulfilled by language courses in one Asian language. Students may fulfill lower division language units in their selected Asian language through community college transfer, AP credit, or study abroad language courses;
3. Upper division electives (15 units): Select five courses from the following options.

Up to six units of upper division electives may be filled from the following language courses: A/ST 499 (for study abroad upper division language courses); CHIN 301: JAPN 301, JAPN 311

Select electives from the following courses:

GE Category C (Capstone and WI)
A/ST 320, A/ST 336, A/ST 393

GE Category C (Capstone)
HIST 407; R/ST 331, R/ST 337, R/ST 341

GE Category C (Explorations)
CHIN 370; R/ST 344, R/ST 351, R/ST 352

GE Category D (Capstone)
A/ST 306, A/ST 307, A/ST 309, A/ST 495;
I/ST 317, I/ST 319, I/ST 320, I/ST 355

GE Category E
ASAM 340, BLAW 309; CAFF 388; FIN 309; IST 350;
LING 329; NSCI 308; SOC 462

Other Electives

A/ST 490; CBA 300; ECON 300; FIN 300; IS 300

Bachelor of Arts in Asian American Studies (120 units)

This program provides an interdisciplinary approach to explore the diverse histories, cultures, communities, and contemporary realities in Asian America. Admission to the program requires completion of the GE Foundation courses.

Requirements

A major in Asian American Studies requires a minimum of 36 units.

Lower-Division Core Courses (9 units):

Take all of the following:

AAAS 100 Asian Eats (3)

Prerequisites: None

ASAM 120 Asian American History (3)

Prerequisite/Corequisite: One GE Foundation course.

Take one of the following courses:

ASAM 121 Contemporary Issues in Asian America (3)

Prerequisite/Corequisite: One GE Foundation course.

ASAM 200 Asian American Interethnic Relations (3)

Prerequisite: Completion of at least one GE Foundation course.

Upper-Division Core Courses (12 units):

Take all of the following courses:

A/ST 307 Modern Asia (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

ASAM 309 Asia and Globalization (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

ASAM 335 Asian and Latino Immigration Since World War II (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

AAAS 492 Senior Research Seminar (3)

Prerequisites: Upper-division standing in A/ST, ASAM, CHIN, or JAPN, or consent of the instructor.

Upper-Division Electives (15 units)

Selected from at least two (2) of the following areas, with no more than six (6) units from Group 4, Asia and Globalization:

Group 1. Specific Ethnic Group Focus:

ASAM 330, ASAM 331, ASAM 332, ASAM 333, ASAM 334, ASAM 352, ASAM 353, ASAM 354

Group 2. Gender Studies:

ASAM 340, ASAM 345, ASAM 370, ASAM 381

Group 3. Asian Americans in Comparative Perspectives:

ASAM 305, ASAM 319, ASAM 341, ASAM 346, ASAM 350, ASAM 407, ASAM 490, ASAM 499

Group 4. Asia and Globalization:

A/ST 306, A/ST 320, A/ST 336, A/ST 393, A/ST 495, CHIN 370, CHIN 390, CHIN 421, JAPN 350

Minor in Asian American Studies

Requirements

The Minor in Asian American Studies is available to all majors except those in ASAM. A minimum of 18 units which must include:

1. Take the following course:

ASAM 120 Asian American History (3)

Prerequisite/Corequisite: One GE Foundation course

Take one of the following courses:

ASAM 121 Contemporary Issues in Asian America (3)

Prerequisites: One GE Foundation requirement.

ASAM 200 Asian American Interethnic Relations (3)

Prerequisite: Completion of at least one GE Foundation course.

2. 12 units selected from among the following:

AAAS 492, ASAM 260, ASAM 305, ASAM 319, ASAM 330, ASAM 331, ASAM 332, ASAM 333, ASAM 334, ASAM 335, ASAM 340, ASAM 341, ASAM 342, ASAM 345, ASAM 346, ASAM 350, ASAM 352, ASAM 353, ASAM 354, ASAM 370, ASAM 381, ASAM 490.

Graduate Programs

Master of Arts in Asian Studies

The Master of Arts (MA) in Asian Studies provides a comparative understanding of the cultural, economic, and socio-political significance of Asia in the 21st century. It requires competency in one or more Asian languages. To achieve this, MA students are encouraged to study abroad for part of their course work. Graduates from the MA program in Asian Studies can expect to be much more competitive for positions in the Foreign Service, State Department, K-12 and community college education and administration, international finance and industry, non-governmental organizations, academic publishing, professional translation work, and Ph.D. programs in Chinese, Japanese, or Asian Studies.

Admission Requirements

1. A Bachelor's degree in a major in Asian Studies, or a field with an emphasis on Asia, including Cultural Geography, International Business, and International Studies and Linguistics.
2. A 3.0 ("B") GPA in Asia and Asian language related courses taken as an undergraduate. (A student whose GPA is less than 3.0 may appeal to the Department's Graduate Committee for a possible waiver of this requirement.)
3. English language competency: International students must take either the TOEFL or the IELTS exam. For admission to graduate study, a minimum score of 80 on the iBT TOEFL is required. TOEFL official score results must be submitted from the Educational Testing Service (ETS). The CSULB institution code for TOEFL reporting is 4389. If you choose to take the IELTS, a minimum score of 6.0 in each sub-section is required. Upon admission, your English competency will be assessed by the AAAS Department and an additional two English language courses may be required (English 301A, 301B).
4. Asian language requirement: For the MA in Asian Studies and the Chinese Studies option, non-native speakers should be competent in an Asian language to the Intermediate-low level according to the 2012 ACTFL Proficiency Guidelines.* Non-native speakers who have lived abroad may be tested for this competency and should contact the Department for further information.
5. Two letters of recommendation (preferably from academic sources).
6. A short statement of the candidate's objectives in pursuing the A/ST MA degree.

Requirements for the MA:

1. By the completion of his or her A/ST MA program, the language competency of a non-native speaker is expected to be at least equivalent to the Intermediate-High level according to the ACTFL Proficiency Guidelines.
2. A minimum of 30 units of 400-level upper-division and graduate courses, of which 70% must be at the 500-600

level in a program approved by the Graduate Advisor and 50% must be in courses organized primarily for graduate students.

3. A graduate student must obtain a B or better grade in core courses to continue in the program.

MA in Asian Studies (30-42 units)

The MA in Asian Studies provides a comparative understanding of the cultural, economic, and socio-political significance of Asia in the 21st century. It requires competency in one or more Asian languages. It culminates with an MA comprehensive exam and a project in A/ST 697 that demonstrates the knowledge and skills which students have both brought to and acquired through the core curriculum.

The Asian Studies four core courses are required for all students.

MA in Asian Studies course requirements: 12 units of A/ST core courses and 18 units of electives, selected with consultation of the graduate advisor:

Required Core Courses (12 units):

A/ST 600. Asian Studies and Languages: Research and Methodologies (3)

Prerequisite: Graduate standing in Asian Studies or consent of instructor.

A/ST 620. Comparative Traditional Cultures of Asia (3)

Prerequisite: Graduate standing in Asian Studies or consent of instructor.

A/ST 630. Asia and Globalization (3)

Prerequisite: A/ST 600 or consent of instructor.

A/ST 697. Research Capstone and Practicum (3)

Prerequisites: A/ST 600; A/ST 620 or A/ST 630.

Electives (18 units).

From six-twelve units of electives from 400-level or graduate language courses in Chinese or Japanese.

Students are required to bring their Asian language competency in Japanese or Chinese to the Intermediate-High level or above according to the ACTFL Proficiency Guidelines. They are also encouraged to study two Asian languages. Asian languages, other than Chinese and Japanese, may meet this requirement in consultation with the graduate advisor.

Chinese

CHIN 410./510. Chinese Information Processing (3)

Prerequisite: CHIN 202, or equivalent, or consent of instructor.

CHIN 421. Current Affairs in China (3)

Prerequisite: Consent of instructor.

CHIN 451./551. Chinese Culture and Tradition (3)

Prerequisite: Consent of instructor.

CHIN 462/562. Contrastive Analysis of Chinese and English (3)

Prerequisite: CHIN 201, Consent of instructor.

CHIN 485./585. Masterpieces from China

Prerequisites: Consent of instructor.

CHIN 490./590. Selected Topics in Chinese Studies (3)

Prerequisite: Consent of instructor.

Japanese

(All Japanese courses, including content courses, are taught in Japanese.)

JAPN 421/521. Selected Readings/Writing in Japanese (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 422/522. Technical Japanese (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 451/551. Japanese Civilization (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 452. Japan: Its Land, People and Culture (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 453 Japanese Culture as Social Process (3)

Prerequisites: JAPN 302 and 350, or consent of instructor.

JAPN 461/561. The Structure of the Japanese Language (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 462/562. Contrastive Analysis of English and Japanese (3)

Prerequisites JAPN 302 and 312 or equivalent as determined by instructor.

JAPN 471. Readings in Modern and Contemporary Japanese Literature (3)

Prerequisite: JAPN 371 or equivalent as determined by instructor.

JAPN 482/582. Pedagogical Grammar (3)

Prerequisites: JAPN 302 and 312, or consent of instructor.

JAPN 490. Selected Topics in Japanese (3-6)

Prerequisite: Consent of Instructor.

Remaining elective units may be fulfilled from the following courses*:

ANTH 501. Current Trends in Anthropological Theory (3)

Prerequisites: ANTH 401 or equivalent, and graduate standing.

ANTH 560. Ethnographic Research Methods (3)

Prerequisite: Graduate standing or consent of instructor.

A/ST 610. Seminar in Asian Studies (3)

Prerequisite: Graduate Standing in Asian Studies.

A/ST 695. Directed Readings (3)

Prerequisite: Graduate standing in Asian Studies and consent of graduate advisor.

GEOG 596. Geographic Thought and Literature (3)

Prerequisite: Consent of instructor.

GEOG 650. Seminar in Cultural Geography (3)

Prerequisite: Consent of instructor.

GEOG 666. Seminar in Urban Geography (3)

Prerequisite: Consent of instructor.

GEOG 696. Seminar in Geographical Research Methods (3)

Prerequisites: GEOG 596, graduate standing in geography, and consent of instructor.

HIST 440/550. The Silk Roads (3)

Prerequisite: HIST 211 or HIST 131 or consent of undergraduate/graduate advisor.

HIST 442/552. The Indian Ocean in World History

(3) Prerequisite: HIST 211 or HIST 131 or consent of undergraduate/graduate advisor.

- HIST 501. Theories and Methodologies of History (3)
Prerequisite: Graduate standing in History.
- HIST 512. Chinese Emigration and Migration in the Modern Period (3)
Prerequisite: Graduate standing.
- HIST 518. Central Asia and Afghanistan, Twentieth Century (3)
Prerequisite: Upper Division Standing.
- HIST 590. Selected Topics in Comparative History (3)
Prerequisite: Graduate standing in History.
- HIST 682. Seminars in Asian History (3)
Prerequisites: Six units of upper division Asian history or consent of instructor.
- SOC 430. Sociology of Globalization (3)
Prerequisites: SOC 100 and upper division standing.
- SOC 536. Sociology of Race, Racism, and Racial Relations (3)
Prerequisite: SOC 656 and SOC 696 or consent of instructor.
- SOC 540. Urban Sociology (3)
Prerequisites: SOC 356, SOC 357 or consent of instructor.

*Courses in other disciplines, such as the MBA program, may be substituted as electives in consultation with the graduate advisor.

Advancement to Candidacy

Students should see the Graduate Advisor to file Advancement to Candidacy after at least 6 units but no more than 15 units of graduate coursework are completed. We encourage students to complete their MA within two-three years.

Students must have taken A/ST 600 as well as have fulfilled the Graduation Writing Assessment Requirement (GWAR). For the GWAR requirement see <http://www.csulb.edu/divisions/aa/gwar/>.

Advancement must take place at least two semesters prior to taking the Comprehensive Exams. The Comprehensive Examination Approval Form must be filed with the department at the time of Advancement. Advancement to Candidacy is a formal contract listing courses the student has taken, is taking, and will take. Changes to contract may be made in consultation with the Graduate Advisor.

The comprehensive examination is two questions selected from a set of five questions established by the candidate's comprehensive examination committee of three faculty members. The candidate has six hours to complete the comprehensive exam.

Asian and Asian American Studies Courses (AAAS)

LOWER DIVISION

100. Asian Eats (3)

A survey of Asian foodways that explores the political, economic, religious, social and cultural context of food in Asia and its globalization. This exploration also focuses on specific foods, such as rice and spices, in the context of ethnic and national identities.

UPPER DIVISION

492. Senior Research Seminar (3)

Prerequisites: Upper-division standing in Asian Studies, Japanese, Chinese Studies, Asian American Studies, or consent of the instructor.

Letter grade only (A-F).

Asian Studies Courses (A/ST)

LOWER DIVISION

190. Introduction to Eastern Ways of Thinking (3)

Prerequisites/Corequisite: ENGL 100 or GE Composition (Area A1).

Explores how reasoning in Buddhism, Confucianism, and Daoism compares with traditional Western concepts of logic.

200. Popular Culture in East Asia (3)

Prerequisite: ENGL 100 or its equivalent.

Introduction to popular culture in East Asia (such as television dramas, music, films, and comics) and how it is shaped by, reflects, and in turn shapes broader social, cultural, political, and economic processes in Asia and the wider world.

Letter grade only (A-F).

290. Selected Topics in Asian Studies (3)

Prerequisite: Consent of instructor.

Topics of special interest in Asian Studies selected for intensive study.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

299. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units. Letter grade only (A-F).

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

306. Traditional Asia (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

An interdisciplinary examination of the traditional civilizations of Asia focusing on the transfer of culture and technology along the Spice Route, Silk and Tea Roads linking the region to the wider world prior to 1500 CE.

Not open to students with credit in Asian Studies 300I.

307. Modern Asia (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

An interdisciplinary examination of cultural change and globalization of Asia through the exchange of ideas, commodities, and technology since 1500 CE.

Not open to students with credit in Asian Studies 3011.

309. Asia and Globalization (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

A comparative analysis of the political and economic systems of Asia, with a focus on East Asian sphere of influence and its contribution to globalization.

Letter grade only (A-F).

310. United States and Asia (3)

Prerequisite: GE Foundation requirements.

Examines themes including key religious, social and political movements, patterns of migrations, transnational cultural productions, and Asian-U.S. global economic relations since 1945.

320. East Asian Fiction and Film (3)

Prerequisite: Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

Introduces the historical background and cultural context of fiction and film in East Asia and how they reflect changes in individual and national identities since the twentieth century.

Letter grade only (A-F).

336. Southeast Asian Literature and Political Culture (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

The course introduces the historical background and political context of Southeast Asian modern literature during the twentieth century.

393. Continuities and Transformations (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division status; students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone (subject to approval by the General Education Governing Committee (GEGC)).

Introduction to the cultural legacies of Japan's historical development, including the emergence of social classes and contacts with other cultures, as evidenced in religion, visual and performing arts. Lecture 3 hours, or blended learning.

Letter grade only (A-F).

490. Selected Topics in Asian Studies (1-5)

Topics of special interest in Asian Studies selected for intensive study.

May be repeated to a maximum of 10 units with different topics in different semesters. Topics announced in the *Schedule of Classes*.

495. China Heritage (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses; upper-division standing.

Cultural heritage explored through history, philosophy, religion and science, side by side with the fine arts; seen as the totality of a people's humanistic experience. (Lecture, discussion and film)

(Lecture, discussion, film.)

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units. Letter grade only (A-F).

GRADUATE LEVEL

Graduate course descriptions are found in the departmental listings in which they are offered. Graduate courses applicable for the degree (only when the focus is on Asia) are: AH 566, AH 567, AH 568, AH 569, AH 570, AH 571, AH *596, AH *597; A/ST 610, A/ST 695, A/ST 697, A/ST 698; ANTH 516, ANTH 517, ANTH 519, ANTH 597, ANTH 697; ART 611; ASAM 595; CHIN 530A,B,C, CHIN 551, CHIN 590, CHIN 592; CWL 503, CWL 522, CWL 548, CWL 550; ECON 690; GEOG 650, GEOG 697; HIST 505, HIST 509, HIST 510(G), HIST 682, HIST 695, HIST 697; JAPN 551, JAPN 562, JAPN 581, JAPN 592, JAPN 695, JAPN 697; PHIL 697; POSC 590, POSC 599, POSC 600, POSC 610, POSC 670, POSC 697; R/ST 646, R/ST *690, R/ST *697.

600. Asian Studies and Languages: Research and Methodologies (3)

Prerequisite: Graduate standing in Asian Studies or consent of instructor.

This course introduces the current trends in research for Asian Studies and languages. It also examines the basic qualitative and quantitative research methods for the disciplines associated with these fields. It requires the development of a concept for the culminating project in A/ST 697.

Letter grade only (A-F).

610. Seminar in Asian Studies (3)

Prerequisite: Graduate standing in Asian Studies.

Selected topics in Asian Studies. Area and discipline of emphasis will vary from year to year. Open to graduate students of Asian Studies. Graduate students in other disciplines may enroll with consent of instructor.

May be repeated to a maximum of 6 units. Letter grade only (A-F).

620. Comparative Traditional Cultures of Asia (3)

Prerequisite: Graduate standing in Asian Studies or consent of instructor

A comparative analysis of traditional Asian cultures—religion and values, social class and caste, family structure and gender roles, political organization and economics—and how these have either changed or still influence opportunities in contemporary Asia.

Letter grade only (A-F).

630. Asia and Globalization (3)

Prerequisites: A/ST 600 or consent of instructor

This course focuses on an analysis of the economic and cultural impact of the inter-regional trade zone (ASEAN) being established in Asia as well as the cultural, social, and economic consequences and trends of globalization on various Asian countries.

Letter grade only (A-F).

695. Directed Readings (3)

Prerequisites: Graduate standing in Asian Studies and consent of graduate advisor.

Prerequisites: A/ST 610, or consent of graduate advisor and faculty member supervising the readings.

Directed studies to permit individual students to pursue topics of special interest in Asian Studies.

Letter grade only (A-F). May be repeated for a maximum of 6 units with different topics in different semesters.

697. Research Capstone and Practicum (1-3)

Prerequisites: A/ST 600; A/ST 620 or A/ST 630.

This course prepares the MA student for the presentation of his or her culminating project at the end of this course and for academic conferences. It also informs students about the publication process for scholarly journals and insures that their culminating project is academically rigorous. It guides the student in job searches and prepares the student for interviews across professional fields.

Letter grade only (A-F).

698. Thesis (3)

Prerequisite: Advancement to candidacy, consent of graduate advisor and faculty member supervising the thesis.

Planning, preparation, and completion of a thesis in Asian Studies.

May be repeated for a maximum of 6 units with same topic in different semesters.

Asian American Studies Courses (ASAM)

LOWER DIVISION

100. Composition II (3)

Prerequisites: Students who score 147 or above on the English Placement Test, credit in ASAM 100S (or its equivalent), are exempt from the EPT, or consent of the instructor.

Composition II does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA.

Expository writing course designed for first-year students. Satisfies one of the writing requirements for general education at CSULB. Emphasizes academic writing, focusing primarily on analytical reading and thesis-driven writing.

Same course as ENGL 100, AFRS 100, CHLS 104. Not open for credit to students with credit in: ENGL 100, AFRS 100, CHLS 104.

100S. Composition I (3)

Prerequisites: Students who score 146 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course.

Composition I does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA. Must have a "C" or better to earn credit in GE.

Basic course in writing, offering intensive practice in every stage of writing process from generating ideas to final proofreading, as well as to developing stronger reading comprehension for specific writing tasks.

Same course as AFRS 100S, CHLS 104S, ENGL 100S. Not open for credit to students with credit in ASAM 1, AFRS 1, CHLS 1, ENGL 1, AFRS 100S, CHLS 104S, ENGL 100S, ESW 100S.

120. Asian American History (3)

Prerequisite/Corequisite: One GE Foundation course.

Overview of experiences of people of Asian ancestry in the United States. Major themes include: immigration (labor migration and refugee resettlement), racism and economic conflict, resistance to discrimination, and community building.

Not open for credit to students with credit in ASAM 220.

121. Contemporary Issues in Asian America (3)

Prerequisite/Corequisite: One GE Foundation requirement.

Examination of contemporary issues, including immigration, labor, family, public policy, popular culture, the media, and political activism in Asian America. Focuses on the U.S. in the context of the global economy and Asian diasporas.

Letter grade only (A-F). Not open for credit to students with credit in ASAM 221.

200. Asian American Interethnic Relations (3)

Prerequisites: Completion of at least one GE Foundation course.

Introduction to a comparative survey of racial/ethnic experiences in the U.S., with a focus on Asian Americans.

Not open for credit to students with credit in AFRS 319, AIS 319, ASAM 319, B/ST 319, CHLS 319, C/LA 319, WGSS 319, W/ST 319. Letter grade only (A-F).

260. Introduction to Asian American Literature (3)

Prerequisites: Completion of at least one Foundation course.

Introduction to representative works by Asian Pacific American authors. Emphasizes interpretation of historical and contemporary Asian American experiences in various literary genres.

Letter grade only (A-F).

290. Selected Topics in Asian American Studies (3)

Prerequisite: Consent of instructor.

Topics of current interest in Asian American Studies selected for intensive development.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

299. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units. Letter grade only (A-F).

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

305. Theories and Methods in Asian Studies and Asian American Studies (3)

Prerequisites: Upper-division standing or consent of instructor, GE Foundation requirements; ASAM 120 or ASAM 200.

Explores theories and interdisciplinary methodologies employed in Asian Studies and Asian American Studies. Students will have opportunities to conduct research on topics of their interest.

Letter grade only (A-F).

319. The Ethnic Experience in the U.S. (3)

Prerequisite: GE Foundation requirements.

Examines the dynamics of our multicultural society, emphasizing ways in which Asian American, Black American, Mexican American, and American Indian experiences have shaped cultural diversity in the U.S.

Same course as AIS 319, AFRS 319, CHLS 319, WGSS 319. Not open for credit to student with credit in AFRS 319, AIS 319, CHLS 319, WGSS 319. (Lecture/Discussion.)

330. Japanese American Experience (3)

A study of the culture, history, and literature of Japanese in America, emphasizing immigrant experience, agricultural contributions, World War II, generational issues, women in transition and family.

331. Chinese American Experience (3)

A study of the culture, history, and literature of Chinese in America, emphasizing immigrant experience, generational issues, women in transition and family.

332. Korean American Experience (3)

Examines major historical, social, political, and cultural themes that have shaped Korean American experiences, with attention to intersections of race, ethnicity, gender, and class in the U.S. Emphasizes contemporary issues in local communities and transnational connections in the Korean diaspora.

333. Vietnamese American Experience (3)

A study of the culture, history, and literature of Vietnamese in America, emphasizing refugee and immigrant experience, generational issues, women in transition and family.

334. Cambodian American Experience (3)

A study of the culture, history, and literature of Cambodians in America, emphasizing refugee and immigrant experiences, generational issues, women in transition and family.

335. Asian and Latino Immigration Since World War II (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Examines the causes of massive Asian and Latino immigration as well as major contemporary issues in the Asian and Latino communities.

Same course as CHLS 335. Not open for credit to student with credit in CHLS 335. (Lecture and discussion, 3 hours)

340. Asian American Family (3)

Prerequisites: GE Foundation requirements and upper-division standing.

Provides perspectives on the varieties of Asian American families by examining the social, economic, political, and cultural factors crucial in the development of conventional as well as alternative familial units.

341. Asian American/Chicano and Latino Cinema (3)

Prerequisites: GE Foundation requirements.

A team-taught course that explores connections between Asian American and Chicano/Latino cinema, with emphases given to grounding issues presented in films within historical, literary, and cultural studies frameworks.

Same course as CHLS 341. Not open for credit to students with credit in ASAM 403 or CHLS 403 or CHLS 341.

345. Asian American Community Analysis (4)

Examines socioeconomic, political and cultural profile of Asian American communities, as well as role and function of community organizations. Training in community surveys and service.

(Lecture, activity)

346. Asian Americans and the Law (3)

Examines how laws have been used to restrict Asian Americans' social, political, educational, and economic activities, as well as how this ethnic group has utilized the legal system to fight discrimination and seek justice.

350. Environmental Justice (3)

Prerequisite: Completion of GE Foundation

Examines social justice aspects of environmental issues (e.g., exposure to environmental hazards and burdens), and the ability and opportunities to cope with and mitigate such problems, as influenced by race, ethnicity, gender, and class.

Letter grade only (A-F).

352. Filipino/a American Experiences (3)

Focusing on social, economic, political, and cultural dimensions of Filipino/a experiences in the United States, this course examines major issues, including legacies of imperialism, transnational patterns of capital and labor, colonial and post-colonial identities, resistance to oppression, and literary expressions.

353. Contemporary Issues in Filipino/a American Experiences (3)

Prerequisite: Upper-division standing. Recommended: ASAM 352

Interdisciplinary approach used to examine the social, economic, political, and cultural dimensions of Filipino/a experiences in the United States from 1965 to the contemporary period. Emphases on issues of post-colonial identities, the Philippine Diaspora, patterns of labor, strategies of resistance, and cultural practices.

354. Transnational Filipino Communities (3)

Prerequisite: Upper-division standing. Recommended: ASAM 352.

Examines the social, economic, political, and cultural realities in the Philippines and their relationship with the formation of transnational Filipino/a communities.

370. Gender and Sexuality in Asian America (3)

Prerequisites: GE Foundation requirements and upper-division standing.

Explores the diverse historical and contemporary experiences of Asian Americans with respect to gender roles and relationships, family, expressions of desire, as well as the relationships among gender, sexuality, and racial/ethnic identity.

381. Asian American Women (3)

Reconstructs and examines Asian American women's history and contemporary experiences. Assesses the complexities of intersecting social categories of oppression and Asian American women's active pursuit of equality and dignity.

Not open for credit to student with credit in HIST 381, WGSS 381. (Lecture)

407. Asians in Latin America (3)

Prerequisites: Upper-division standing or consent of instructor. Recommended: HIST 161.

Examines the diverse histories and experiences of Asians in Latin America. Emphases placed on patterns of labor and settlement, socio-economic development of local and transnational communities, formation of ethnic identities, and expressive cultures.

Letter grade only (A-F).

490. Selected Topics in Asian American Studies (3)

Prerequisite: Consent of instructor.

Topics of current interest in Asian American Studies selected for intensive development.

May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units.

GRADUATE LEVEL

595. Seminar in Asian American Studies (3)

Selected topics in Asian American Studies. Area and topics of emphasis will vary from year to year.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

599. Directed Studies (1-3)

Prerequisite: Consent of instructor

Directed studies to permit individual students to pursue topics of special research interest.

May be repeated to a maximum of 6 units in different semesters.

Letter grade only (A-F).

ASIAN LANGUAGES

College of Liberal Arts
Department of Asian and Asian American Studies

Department Chair: Teri Yamada

Vice Chair: Barbara W. Kim

Department Office: Faculty Offices FO3-340

Telephone: (562) 985-4645

FAX: (562) 985-1535

Faculty: Ruixi Ai, Kiyomi Chinen, Masako O. Douglas, Linda N. España-Maram, Hiroko Kataoka, Hsin-sheng C. Kao (Emerita), Barbara W. Kim, Yoko Pusavant (Emerita), San-Pao Li (Emeritus), Dean S. Toji, John N. Tsuchida, Tianwei (Tim) Xie (Emeritus), Teri Yamada

Advisors:

Graduate: Teri Yamada and Barbara Kim

Undergraduate: Barbara Kim

Undergraduate: Dean Toji (Asian American Studies)

Undergraduate: Teri Yamada (Asian Studies)

Undergraduate: Ruixi Ai (Chinese Studies)

Undergraduate: Hiroko Kataoka (Japanese)

Associate Faculty: Christine Bhat (Educational Psychology, Administration and Counseling), Jeffrey Broughton (Religious Studies), Kendall Brown (Art History), Chi-Ah Chun (Psychology), Frank Gossette (Geography), Lisa Grobar (Economics), Jack W. Hou (Economics), Margaret Kuo (History), Tomotaka Ishimine (Economics), Guotong Li (History), Jyotsna Pattnaik (Teacher Education), Xiaoping Liang (Linguistics), William Mulligan (Journalism), Karen Quintiliani (Anthropology), George Scott (Anthropology), Michiko Takeuchi (History), Teresa Wright (Political Science), Oliver Wang (Sociology), R. Scott Wilson (Anthropology)

Administrative Support Coordinator: Ann Chau

Students desiring information should contact the department office for referral to one of the faculty advisors.

Career Possibilities

Customs Inspector • Immigration Officer • Importer/Exporter • Foreign Service Officer • International Marketing Representative • Travel Guide • Social Worker • Linguist • Foreign Correspondent • Community Organization Worker • Lawyer • Librarian • International Student Advisor • Educator • Peace Corps Worker • Interpreter • Translator • Foreign Business and Trade • CIA/FBI Agent (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The Department of Asian and Asian American Studies fosters multi-ethnic and cross-cultural understanding from a global, multi-disciplinary perspective and pursues an active language education program to promote cross-cultural awareness and intercultural understanding.

Through courses of its own and those of cooperating departments, the Department of Asian and Asian American Studies offers a B.A. in Asian American Studies, a B.A. and M.A. in Asian Studies, a B.A. in Chinese Studies, a Single Subject Teaching Credential in Japanese, a B.A. in Japanese, a Minor in Asian American Studies, Certificate in Asian Studies, and a Certificate in Asian American Studies. Information and advice relative to the programs are available through the department office, FO3-340.

Cambodian Courses (KHMR)

LOWER DIVISION

111. Accelerated Study of Khmer for Heritage Speakers I (4)

Prerequisites: Linguistic competency equivalent of a beginning Khmer speaker; one GE Foundation course that may be taken concurrently.

Linguistic and cultural aspects of Khmer language for heritage speakers. Oral and written communication skills in Khmer. Intensive study of literary, historical, social, and aesthetic traditions of Cambodia as seen through Khmer language and literary texts.

Letter grade only (A-F).

211. Accelerated Study of Khmer for Heritage Speakers II (4)

Prerequisites: KHMR 111 linguistic competency or equivalent.

Intermediate level linguistic study and cultural aspects of Khmer for heritage speakers. Oral and written communication skills and intensive study of literary, historical, social, and aesthetic traditions of Cambodia through the Khmer language and literary texts.

Letter grade only (A-F).

Korean Courses (KOR)

101. Fundamentals of Korean (4)

Prerequisite/Corequisite: One GE Foundation course.

Introduction to the writing system, pronunciation, vocabulary, and grammar of the Korean language and Korean culture.

Students with previous training or native speakers of Korean may not enroll.

102. Fundamentals of Korean (4)

Prerequisites/Corequisites: One GE Foundation course.

Completion of KOR 101 or competency equivalent to KOR 101.

Introduction to the Korean grammar, reading, writing, and conversation and Korean culture.

Students with previous training or native speakers of Korean may not enroll.

201. Intermediate Korean (4)

Prerequisite: KOR 102 or competency equivalent to KOR 102.

Continuation of fundamentals of Korean. Further development of the grammar, reading, writing, and conversation skills.

Exploration of Korean culture and contemporary society. Not open to native speakers of Korean.

Letter grade only (A-F).

202. Intermediate Korean (4)

Prerequisite: KOR 201 or competency equivalent to KOR 201.

Continuation of fundamentals of Korean. Further development of the grammar, reading, writing, and conversation skills.

Exploration of Korean culture and contemporary society. Not open to native speakers of Korean.

Letter grade only (A-F).

Tagalog (Filipino Language) Courses (TGLG)

LOWER DIVISION

101. Fundamentals of Tagalog (4)

Prerequisite/Corequisite: One GE Foundation course.

Introduction to the pronunciation, grammar, essential vocabulary, reading, and conversation of modern standard Tagalog (Filipino).

Vietnamese Courses (VIET)

LOWER DIVISION

111. Accelerated Vietnamese for Heritage Students I (4)

Prerequisites: One GE Foundation course that may be taken concurrently. Conversational ability of Vietnamese.

Designed for students who have listening and speaking ability of Vietnamese. Focuses on Vietnamese literacy and culture, including developing reading and writing skills in context.

Letter grade only (A-F).

211. Accelerated Vietnamese for Heritage Students II (4)

Prerequisites: VIET 111. Ability to speak and comprehend Vietnamese oral and written language at the interpersonal communicative level.

Designed for students who have intermediate listening and speaking ability of Vietnamese and the ability to comprehend simple written Vietnamese texts. Focuses on Vietnamese literacy and culture, including developing reading and writing skills in context.

Letter grade only (A-F).

ATHLETICS

University Programs

Director

Victor Cegles

Telephone

(562) 985-4655

Introduction

The University sponsors a diverse program of 9 intercollegiate athletic teams and is supervised by the Department of Athletics.

The teams compete under the rules of the National Collegiate Athletic Association, the Big West Conference, and the Mountain Pacific Sports Federation, maintaining membership in each organization. Women's varsity sports are basketball, golf, cross-country, sand volleyball, soccer, tennis, indoor/outdoor track and field, volleyball, water polo and softball. Men's varsity sports are basketball, baseball, indoor/outdoor track and field, cross-country, water polo, volleyball, and golf. Students enrolling in intercollegiate athletic programs must meet all NCAA eligibility requirements. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, Department of Athletics, (562) 985-7751.

Students may apply no more than four (4) semester units of lower-division ATHL courses toward the baccalaureate degree within the 20-unit maximum on activity units generally, except that the combined total of lower-division ATHL activity units must not exceed four (4) units and the total of lower-division KIN activity units must not exceed eight (8) units. Upper-division ATHL courses, with the exception of ATHL 325, may be taken one time only and not in conjunction with the lower-division ATHL courses. ATHL 325 may be repeated to a maximum of four (4) semester units and may be taken in conjunction with any other ATHL course.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

Athletics Courses (ATHL)

LOWER DIVISION

Intercollegiate Sports (1)

Enrollment subject to approval of the coach of the sport.

Competition in NCAA-regulated sports. Athletes enrolled who fail to qualify for squad must withdraw from course.

May be repeated to a maximum of 4 units, including previously earned credits from SAR 1. Credit/No Credit grading only.

- 261. Women's Softball
- 262. Men's Baseball
- 263. Women's Basketball
- 264. Men's Basketball
- 265. Women's Track and Field
- 266. Men's Track and Field
- 269. Women's Volleyball
- 270. Women's Water Polo
- 271. Men's Water Polo
- 272. Men's Volleyball
- 275. Women's Golf
- 276. Men's Golf
- 277. Women's Tennis
- 281. Women's Cross-Country
- 282. Men's Cross-Country
- 284. Women's Soccer

UPPER DIVISION

319. Theory and Practice of Minor Intercollegiate Sports (2)

Repeatable credits include previous credits from SAR 319.

320. Theory and Practice of Major Intercollegiate Sports (2)

Repeatable credits include previous credits from SAR 320. Credit/No Credit grading only.

325. Student-Athlete Leadership Development and University Service (1)

Prerequisites: Upper-division division standing, consent of instructor. Must be an official member of an NCAA Intercollegiate team at CSULB.

Juniors/seniors hone communication and facilitation abilities to better function within groups, community, and careers. Emphasis on experiential learning component with people dynamic and group process skills, academic and athletic information, and how a peer mentor can positively impact that development.

May be repeated to a maximum of 4 units, including previously earned credits from SAR 325. May be taken in conjunction with any other ATHL course. Credit/No Credit grading only.

BIOLOGICAL SCIENCES

College of Natural Sciences and Mathematics

Department Chair: Brian T. Livingston

Department Office: Hall of Science (HSCI) 104

Telephone / FAX: (562) 985-4806 / (562) 985-8878

Website: www.csulb.edu/depts/biology

Faculty: Bengt J. Allen, James W. Archie, Flora Banuett, Judith A. Brusslan, Ashley Carter, Jesse G. Dillon, Elizabeth D. Eldon, Deborah Fraser, Henry C. Fung, Editte Gharakhanian, Gwen Goodmanlowe, Eric J. Haas-Stapleton, David G. Huckaby Kevin M. Kelley, Balwant S. Khatra, Laura Kingsford, Lisa S. Klig, Kay K. Lee-Fruman, Brian T. Livingston, Christopher G. Lowe, Steven L. Manley, Douglass Pace, Jacqueline Pal, Bruno G. Pernet, Shenaz Rehmat, Bryan C. Rourke, Gary Shin, Kevin Sinchak, Theodore Stankowich, Houg-Wei Tsai, Dessie L. A. Underwood, Christine Whitcraft, Raymond R. Wilson, Jr., Kelly A. Young, Mason X. Zhang

Administrative Support Coordinator: Catherine Durham

Credential: James Kisiel, Tim Williamson

Undergraduate:

General Biology – Kay K. Lee-Fruman and Ashley Carter

Biology Education – Gwen Goodmanlowe

Cell and Molecular Biology and Physiology – Kay K. Lee-Fruman

Marine Biology – Gwen Goodmanlowe

Microbiology – Jesse Dillon

Organismal Biology – Gwen Goodmanlowe

Graduate: Kevin Sinchak, Kay Bellitti

Health Professions Advising Office (HSCI 164)

Biotechnology Certificate Advisor: Lisa S. Klig

Students desiring information should contact the department office for referral to one of the faculty advisors.

Career Possibilities

Biologist • Lab Technician • Biological Aide • Technical Writer • Biological Illustrator • Forester • Quality Control Technician • Biomedical Engineer • Pharmaceutical Sales Representative • Fish and Wildlife Biologist • Food Technologist • Microbiologist • Criminologist • Dietitian • Medical Technologist • Health Planner • Physician's Assistant • Medical Librarian • Respiratory Therapist • Curator • Ecologist • Environmental Specialist • Sanitarian (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.) Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Introduction

The biological sciences include all of the areas of scientific endeavor centered around the general question of the nature of life. Such diverse areas as biochemistry, ecology, paleontology, and animal behavior are all part of the biological sciences. The discipline of biochemistry is located in the Department of Chemistry and Biochemistry and the discipline of paleontology is located in the Department of Geological Sciences. For information about the programs in these disciplines, consult the appropriate section of this catalog. The remaining disciplines of the

biological sciences represented in the College of Natural Sciences and Mathematics are located in the Department of Biological Sciences, which offers five degrees: a Bachelor of Science in Biology, a Bachelor of Science in Marine Biology, a Bachelor of Science in Microbiology, a Master of Science in Biology, and a Master of Science in Microbiology. The B.S. in Biology has, in addition to a general option, three specialized options in Biology Education, Organismal Biology, and Molecular Cell Biology and Physiology. See below for the specific requirements for each of these degrees and options. The Department of Biological Sciences also participates in the Desert Studies Consortium and the Ocean Studies Institute. Information on the latter program is listed in this catalog under Ocean Studies Institute.

Academic Advising and Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this department need to contact the College of Natural Sciences and Mathematics' Academic Advising Center (HSCI 164) and participate in the College's Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June/July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the CNSM Academic Advising Center (HSCI 164), Jensen Student Access to Sciences and Mathematics Center (HSCI 164), or department office for additional information.

The Richard B. Loomis Research Award

This annual departmental award provides supply and travel support for thesis research projects. Graduate students submit research proposals to the department's Graduate Studies Committee, which grants funding to the more meritorious proposals.

Handloser Graduate Student Tuition Grant

The Handloser Graduate Student Tuition Grant is offered to an outstanding M.S. Biology applicant interested in pursuing master's thesis research in the area of marine biology.

Frank Schatzlein Scholarship Award

The Frank Schatzlein Scholarship Award is available to an outstanding undergraduate student in biological sciences, with upper division standing, studying in the area of cellular physiology. Applications can be obtained from the Biological Sciences Department Office during the month of March.

Linda Warren Graham Medical Technology Scholarship

The Linda Warren Graham Medical Technology Scholarship is available to senior microbiology majors who have applied/ been accepted into a Clinical Laboratory Scientist (or a Medical Technology) Internship program. Scholarship applications can be obtained from the Biological Sciences Department Office during the month of November prior to graduation.

Financial Support, Assistantships

The Department of Biological Sciences offers to graduate students a limited number of teaching associate and graduate assistant appointments. Forms requesting consideration for these appointments are available in the department's Graduate Office. Duties consist of approximately 20 hours per week devoted to preparation and/or instruction in general undergraduate laboratory classes. These appointments are limited to a maximum of six semesters per individual.

The department also has a limited number of technical assistant positions as well as some hourly employment. Several members of the faculty have grants that provide for research assistantships. A number of scholarships are available through the university.

Graduate and Health Professional Preparation

The department provides preparation for advanced study at the graduate level and for entry into various health professional schools. Students should consider the degree requirements listed in the catalog as minimal; some graduate schools, professional schools, or careers may require additional coursework in mathematics, physics, chemistry, or biological sciences.

Students desiring entrance into a graduate school to obtain a master's or doctoral degree in some area of the biological sciences should determine the entrance requirements for the school(s) of interest early in their undergraduate years. Specifically, students contemplating graduate work in mathematically oriented areas of the biological sciences should consider taking more calculus (MATH 122, 123, 224, and 364A or 370A will substitute for MATH 119A and 119B) and those contemplating graduate work in chemically oriented areas should consider taking additional chemistry (CHEM 220A,B; 251; 377A,B; 441A,B).

Students desiring entrance into one of the various health-related professional schools should consult with the Health Professions Advising Office in the College of Natural Sciences and Mathematics' Jensen Student Access to Science and Mathematics (SAS) Center (HSCI 164) for more information. Most of these schools do not require students to major in any particular discipline but favor holders of a bachelor's degree; and want students who have done well in their major and who also took the prerequisite courses required by that particular school.

Undergraduate Programs

Bachelor of Science in Biology

This degree includes a general option in biology and three additional options for those desiring a more specialized program.

Admission Under Impaction

Refer to the following website for additional impaction criteria: <http://www.csulb.edu/depts/enrollment/admissions/>.

Biology (120 units)

This degree major is designed for students pursuing careers that involve the study of life. This general option is designed to expose students to a wide range of biological topics and is the most flexible option in terms of courses required. With the right elective choices, this option can work for students planning on future careers in health professions or graduate and professional studies in Biological Sciences. Students may not combine this option with any other in the B.S. in Biology nor with the B.S. in Marine Biology or Microbiology as part of a dual major. This option requires approximately 80-84 units in the major, of which 39-41 are in lower division and 41-43 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major.

In addition students must receive a C or better in all upper division major courses.

Degree Progress

Pre-Biology majors must complete the following requirements within the specified time of declaring the pre-major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Freshmen: A grade "C" or better must be achieved in CHEM 111A, BIOL 211, and MATH 119A (or 122) within one and a half calendar years.

Lower Division:

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Intro to Ecology and Physiology (4)
Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)
Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a

grade of "C" or better.

CHEM 111A General Chemistry (5)

Prerequisite: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 220A Organic Chemistry I (3)

Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)

Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)

Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better.
Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Take one course from the following:

MATH 119A Survey of Calculus I (3)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Take one of the following courses:

MATH 119B Survey of Calculus II (3)

Prerequisite: A grade of "C" or better in MATH 119A or MATH 122.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

Take one of the following courses:

PHYS 100A General Physics (4)

Prerequisite: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

PHYS 100B General Physics (4)

Prerequisite: PHYS 100A.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151;
Prerequisite/Corequisite: MATH 123.

The following courses do not meet any specific or elective requirements for this major: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

Upper Division:

Take all of the following courses:

BIOL 312 Evolutionary Biology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with a grade of "C" or better.

BIOL 340 Molecular Cell Biology (3)

Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

BIOL 350 General Ecology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260; MATH 119A or MATH 122 all with a grade of "C" or better.

BIOL 370 General Genetics (4)

Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or CHEM 251 all with a grade of "C" or better.

BIOL 480 Seminars (1)

Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

Take at least one of the following courses/course pairs in physiology:

BIOL 342 Human/Mammalian Phys (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

and

BIOL 342L Lab in Human/Mammalian Phys (1)

Prerequisite/Corequisite: BIOL 342 with a grade of "C" or better.

or

BIOL 345 Comparative Animal Phys(3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

and

BIOL 345L Lab in Comp Animal Phys (1)

Prerequisite/Corequisite: BIOL 345 with a grade of "C" or better.

or

BIOL 447 Molecular Plant Physiology (3)

Prerequisites: BIOL 340, BIOL 370, both with grade of "C" or better.

Take two of the following courses in animal and plant diversity. One of the courses must be BIOL 313, BIOL 316, BIOL 324, BIOL 427, or BIOL 439:

BIOL 313 Invertebrate Zoology (4)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor.

BIOL 316 General Entomology (4)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

BIOL 324 Vertebrate Zoology (4)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

BIOL 419, Ichthyology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and at least 6 additional units of upper division biological science, all with a grade of "C" or better. Recommended: BIOL 350, BIOL 353, and BIOL 370.

BIOL 421 Herpetology (3)

Prerequisites: BIOL 260, BIOL 350, and one additional upper division biology course, all with a grade of "C" or better. Recommended: BIOL 312, BIOL 324, or BIOL 370.

BIOL 423 Mammalogy (3)

Prerequisites: At least one of BIOL 312, BIOL 324, or BIOL 350, with a grade of "C" or better.

BIOL 424 Ornithology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and three units of upper division BIOL, all with a grade of "C" or better. Recommended: BIOL 350.

BIOL 427 Vascular Plant Systematics (4)

Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.

BIOL 439 Plant Morphology (4)

Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.

Take three additional upper division courses in the Department of Biological Sciences totaling a minimum of nine units. At least six of these units must be at the 400 level. Courses outside of BIOL that can also count toward these units include GEOG 481, CHEM 441A, and CHEM 448.

Courses that will not count towards these units are BIOL 301, BIOL 304, BIOL 305; MICR 300.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 211, BIOL 212, BIOL 213, BIOL 260, BIOL 340, BIOL 342/BIOL 345, BIOL 370, CHEM 111A, CHEM 111B, CHEM 220A, CHEM 223A, MATH 119A, MATH 122.

Students contemplating graduate or professional school should consider taking 1-3 units of BIOL 496 in addition to the requirements listed above. With prior permission of the advisor for this option, students may use 3 units of BIOL 496 as an elective.

Option in Biology Education (120 units)

This option is designed solely for students who wish to become secondary school Biology teachers. Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major.

In addition, students must receive a "C" or better in all upper division major courses.

Degree Progress

Pre-Biology majors must complete the following requirements within the specified time of declaring the pre-major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Freshmen: A grade "C" or better must be achieved in CHEM 111A, BIOL 211, and MATH 119A (or 122) within one and a half calendar years.

Requirements

Lower Division:

Take all of the following:

- BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.
- BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B.
- BIOL 213 Intro to Ecology and Physiology (4)
Prerequisites: BIOL 211, 212, CHEM 111B, each with a

grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)

Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

ASTR 100 Astronomy (3)

Corequisites: One course from General Education Category B.2 and ASTR 100L.

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

Choose either:

GEOL 106 Earth Science for Teachers (4)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics, including algebra, geometry, and intermediate algebra or the equivalent.

or both of the following:

GEOL 102 General Geology (3)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.

GEOL 104 Geology Laboratory (1)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent, and concurrent or prior enrollment in GEOL 102.

Take one of the following courses:

MATH 119A Survey of Calculus I (3)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Take one of the following courses:

MICR 200 General Microbiology for Health Professionals (4)

Prerequisites: CHEM 111A or CHEM 140 with a grade of "C" or better and GE Foundation requirements.

MICR 211 General Microbiology (5)

Prerequisites: BIOL 211, BIOL 212; CHEM 111B, all with a grade of "C" or better.

Take one of the following courses:

PHYS 100A General Physics (4)

Prerequisite: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

PHYS 100B General Physics (4)

Prerequisite: PHYS 100A.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151

Prerequisite/Corequisite: MATH 123.

These courses do not meet any specific or elective requirements for this major: BIOL 100, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101.

Take either:

CHEM 227 Organic Chemistry (3)
Prerequisite: CHEM 111A with a grade of "C" or better;
CHEM 111B is recommended.

Or all four of the following courses lower-division courses:

CHEM 220A Organic Chemistry I (3)
Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating
course. CHEM 223A must be taken concurrently if required
by a degree plan.

CHEM 220B Organic Chemistry II (3)
Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students
who previously earned a "C" or better in CHEM 223B or
CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)
Corequisite: CHEM 220A, except for students who have
previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)
Prerequisites: CHEM 220A and CHEM 223A, both with a
grade of "C" or better.
Corequisite: CHEM 220B, except for students who have
previously earned a "C" or better in CHEM 220B.

Upper Division:

Take the following course:

SCED 404 The Nature of Science and Scientific
Reasoning for Teachers (3)
Prerequisites: At least three-fourths of the credential
specialization courses for Single Subject Teaching
Credential in science and consent of instructor. Enrollment
limited to students who intend to pursue a Single Subject
Credential in Science.

Take at least nine courses totaling at least 26-29 units in
the biological sciences including:

All of the following courses:

BIOL 312 Evolutionary Biology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all
with a grade of "C" or better.

BIOL 340 Molecular Cell Biology (3)
Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or
better.

BIOL 350 General Ecology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260;
MATH 119A or MATH 122 all with a grade of "C" or better.

BIOL 370 General Genetics (4)
Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or
CHEM 251 all with a grade of "C" or better.

BIOL 480 Seminars (1)
Prerequisites: Consent of Department of Biological
Sciences. (Undergraduates and classified post-
baccalaureates enroll in BIOL 480; graduates enroll in
BIOL 580). Undergraduates must have filed for graduation
and be in their last semester. Graduates must have been
admitted to the department as a graduate student. Classified
post-baccalaureates must have been admitted to a second
baccalaureate or a certificate.

One of the following courses in physiology:

BIOL 345 Comparative Animal Physiology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade
of "C" or better.

BIOL 447 Molecular Plant Physiology (3)
Prerequisites: BIOL 340, BIOL 370, both with grade of "C"
or better.

One of the following courses in plant diversity:

BIOL 427 Vascular Plant Systematics (4)
Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or
better.

BIOL 439 Plant Morphology (4)
Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or
better.

One of the following courses in animal diversity:

BIOL 313 Invertebrate Zoology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a
grade of "C" or better, and consent of instructor.

BIOL 316 General Entomology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade
of "C" or better.

BIOL 324 Vertebrate Zoology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade
of "C" or better.

The remaining biological sciences course should be
chosen in consultation with an advisor; BIOL 495/
MICR 495 is highly recommended. Either CHEM
441A, CHEM 441B or CHEM 448 will count toward
this additional required course. With prior permission
of the advisor for this option, students may use a total
of 3 units of any combination of BIOL/MICR 495 (2
units max) and/or BIOL/MICR 496 (3 units max) as an
elective.

These courses do not meet any specific or elective requirements
for this major: BIOL 301, BIOL 304, BIOL 305; MICR 300; and NSCI
492.

To meet prerequisite standards for courses in this
program's requirements, a "C" or better is necessary in the
following: BIOL 211, BIOL 212, BIOL 213, BIOL 260, BIOL
312, BIOL 370, CHEM 111A, CHEM 111B, CHEM 220A,
CHEM 223A, MATH 119A, MATH 122.

Although SCED 403 and EDSS 300C are not required
in the major, the credential does require these courses.
Students may want to take some or all of them prior to
graduation.

Single Subject Teaching Credential in Biology

The Biological Sciences Concentration meets the subject
matter competence requirement for the Single Subject
Teaching Credential in Biology. In addition to meeting the
subject matter competence requirement for the Teaching
Credential, prospective Biology teachers are also required
to complete 45 units of professional preparation in the
Single Subject Credential Program, including student
teaching. Students may begin the professional preparation
courses as early as the junior year. With careful planning,
it is possible to complete many of the credential program
courses as an undergraduate. Courses may also be started
as a post-baccalaureate student. Refer to the Single
Subject Teacher Education section of this catalog or the
Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional
preparation requirements, courses, and application
procedures.

The Biological Sciences Subject Matter Program is being
revised to meet new state standards. When the revised
program has been approved by the Commission on Teacher
Credentialing, the new course requirements will be in effect
and supersede current requirements.

Option in Organismal Biology (120 units)

This option is designed primarily for those interested
in careers that involve the biology of animals, plants and
the study of organisms in relation to their environment. It
is particularly appropriate for those seeking employment in
private industry (such as environmental consulting firms),
or government service (such as fish and game agencies),

as well as those students contemplating graduate work in these fields. This option requires approximately 81-84 units in the major, of which 39-41 units are in lower division and 42-43 units are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major.

In addition students must receive a C or better in all upper division major courses.

Degree Progress

Pre-Biology majors must complete the following requirements within the specified time of declaring the pre-major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Freshmen: A grade "C" or better must be achieved in CHEM 111A, BIOL 211, and MATH 119A (or 122) within one and a half calendar years.

Requirements

Lower Division:

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Intro to Ecology and Physiology (4)
Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)
Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 111A General Chemistry (5)
Prerequisite: A passing score on the Chemistry Placement Examination.
Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)
Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

Take one of the following courses:

MATH 119A Survey of Calculus I (3)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Take one of the following courses:

MATH 119B Survey of Calculus II (3)
Prerequisite: A grade of "C" or better in MATH 119A or MATH 122.

MATH 123 Calculus II (4)
Prerequisite: A grade of "C" or better in MATH 122.

Take one of the following courses:

PHYS 100A General Physics (4)

Prerequisites: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)
Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

PHYS 100B General Physics (4)
Prerequisite: PHYS 100A.

PHYS 152 Electricity and Magnetism (4)
Prerequisite: PHYS 151;
Prerequisite/Corequisite: MATH 123

These courses do not meet any specific or elective requirements for this major: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

Take one of the following course combinations in Organic Chemistry or Biochemistry (Groups A or B):

Group A

CHEM 220A Organic Chemistry I (3)
Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)
Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)
Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)
Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better. Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Group B

CHEM 227 Fundamentals of Organic Chemistry (3)
Prerequisite: CHEM 111A with a grade of "C" or better; CHEM 111B is recommended.

CHEM 448 Fundamentals of Biological Chemistry (3)
Prerequisites: CHEM 220B or CHEM 227 either with a grade of "C" or better.

Few, if any, health-related professional schools (e.g. veterinary medicine) will accept CHEM 227. Some graduate programs with masters or doctorates in biology and/or ecology may also not accept CHEM 227. Students interested in these programs might consider taking CHEM 220A,B and CHEM 223A,B. CHEM 227 is not acceptable as a prerequisite for CHEM 441A. CHEM 227 is acceptable toward the Minor in Chemistry.

Upper Division:

Take a minimum of 36 upper division units to include the following:

Take all of the following courses: (11 units)

BIOL 312 Evolutionary Biology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with a grade of "C" or better.

BIOL 350 General Ecology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260; MATH 119A or MATH 122 all with a grade of "C" or better.

BIOL 370 General Genetics (4)
Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or CHEM 251 all with a grade of "C" or better.

BIOL 480 Seminars (1)
Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester.

Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

Although BIOL 340 is not required for this option, it is a prerequisite for many 400-level courses and may be used as an elective.

Take at least one of the following courses/course pairs: 3-4 units

- BIOL 345 Comparative Animal Physiology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.
- BIOL 345L Lab in Comparative Animal Physiology (1)
Prerequisite/Corequisite: BIOL 345 with a grade of "C" or better.

Or

- BIOL 447 Molecular Plant Physiology (3)
Prerequisites: BIOL 340, BIOL 370, both with grade of "C" or better.

Take at least two of the following courses in organismal diversity, one of which must be BIOL 313, BIOL 316, BIOL 324, BIOL 427, or BIOL 439:

- BIOL 313 Invertebrate Zoology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor.
- BIOL 316 General Entomology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.
- BIOL 324 Vertebrate Zoology (4)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.
- BIOL 419, Ichthyology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and at least 6 additional units of upper division biological science, all with a grade of "C" or better. Recommended: BIOL 350, BIOL 353, and BIOL 370.
- BIOL 421 Herpetology (3)
Prerequisites: BIOL 260, BIOL 350, and one additional upper division biology course, all with a grade of "C" or better. Recommended: BIOL 312, BIOL 324, or BIOL 370.
- BIOL 423 Mammalogy (3)
Prerequisite: At least one of BIOL 312, BIOL 324, or BIOL 350, with a grade of "C" or better.
- BIOL 424 Ornithology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and three units of upper division BIOL, all with a grade of "C" or better. Recommended: BIOL 350.
- BIOL 427 Vascular Plant Systematics (4)
Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.
- BIOL 439 Plant Morphology (4)
Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.

Select a minimum of two courses from the following (any combination of courses from the two groups is acceptable):

Ecology and Evolution Courses

- BIOL/MICR 355 Microbial Ecology (3)
Prerequisites: MICR 211 or BIOL 211, BIOL 212, BIOL 213; BIOL 260, all with a grade of "C" or better.
- BIOL 412 Advanced Evolutionary Biology (3)
Prerequisite: BIOL 312 with a grade of "C" or better.
- BIOL 450 Plant Ecology (3)
Prerequisites: BIOL 260, BIOL 350 with a grade of "C" or better. Recommended: BIOL 427, BIOL 447.
- BIOL 451 Wetlands and Mangrove Ecology (3)
Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better.

- BIOL 452 Behavioral Ecology (3)
Prerequisites: BIOL 312 or BIOL 350. (Undergraduates enroll in BIOL 452; graduates enroll in BIOL 552.)

- BIOL 454B Research in Tropical Terrestrial Ecology (3)
Prerequisites: BIOL 350 with a grade of "C" or better; and consent of instructor. (Undergraduates enroll in BIOL 454B; graduates enroll in BIOL 554B.)

- BIOL 456 Population Ecology (3)
Prerequisites: BIOL 350, MATH 119B or MATH 123 all with a grade of "C" or better.

- BIOL 457 Field Methods in Ecology (3)
Prerequisites: BIOL 260, BIOL 350 both all with a grade of "C" or better.

- BIOL 459 Conservation Biology (3)
Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. Recommended: BIOL 370.

- BIOL 472 Molecular Evolution (3)
Prerequisite: BIOL 370 with a grade of "C" or better. Recommended: BIOL 312.

Physiology Courses

- BIOL 442 Physiology at the Limit (3)
Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better.
- BIOL 443 Endocrinology (3)
Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)
- BIOL 444 Reproductive Biology (3)
Prerequisite: BIOL 342 or BIOL 345 with a grade of "C" or better.
- BIOL 449 Fish Physio and Endocrinology (3)
Prerequisite: BIOL 345 with grade of "C" or better.
- BIOL 464 Aquatic Toxicology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 340; CHEM 220A or CHEM 227, all with a grade of "C" or better. Recommended: BIOL 353 and CHEM 448 or CHEM 441A,B.

Take 2-3 additional upper division courses totaling 6-9 units in the Department of Biological Sciences so that a minimum number of 36 upper division units are completed. At least three of these units must be at the 400 level. Note that many 400 numbered courses require BIOL 340, which can also count as one of these elective courses. Courses outside of BIOL that can also count toward these units include GEOG 481, CHEM 441A, and CHEM 448.

Courses that will not count towards these units are BIOL 301, BIOL 304, BIOL 305; MICR 300.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 211, BIOL 212, BIOL 213, BIOL 260, BIOL 345, CHEM 111A, CHEM 111B, (CHEM 220A, CHEM 223A/ CHEM 227), MATH 119A, MATH 122.

Students contemplating graduate or professional school should consider taking 1-3 units of BIOL 496 in addition to the requirements listed above. With prior permission of the advisor for this option, students may use 3 units of BIOL 496 as an elective.

Option in Molecular Cell Biology and Physiology (120 units)

This option is designed primarily for those interested in careers that involve biology at the cell, molecular and organ system levels and is particularly appropriate for those contemplating graduate work in these fields or entering one of the health professions, such as medicine and physical therapy. Students in this option might also want to pursue

the Certificate in Biotechnology described elsewhere in this Catalog. This option requires approximately 79-82 units in the major, of which 47-49 are in lower division and 32-33 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major.

In addition, students must receive a "C" or better in all upper division major courses.

Degree Progress

Pre-Biology majors must complete the following requirements within the specified time of declaring the pre-major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Freshmen: A grade "C" or better must be achieved in CHEM 111A, BIOL 211, and MATH 119A (or 122) within one and a half calendar years.

Requirements

Lower Division:

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Intro to Ecology and Physiology (4)
Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)
Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 111A General Chemistry (5)
Prerequisite: A passing score on the Chemistry Placement Examination.
Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)
Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 220A Organic Chemistry I (3)
Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)
Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)

Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)
Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better.

Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Take one of the following courses:

MATH 119A Survey of Calculus I (3)
Prerequisites: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus I (4)
Prerequisites: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Take one of the following courses:

MATH 119B Survey of Calculus II (3)
Prerequisites: A grade of "C" or better in MATH 119A or MATH 122.

MATH 123 Calculus II (4)
Prerequisite: A grade of "C" or better in MATH 122.

Take one of the following courses:

PHYS 100A General Physics (4)
Prerequisites: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)
Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

PHYS 100B General Physics (4)
Prerequisite: PHYS 100A.

PHYS 152 Electricity and Magnetism (4)
Prerequisite: PHYS 151;
Prerequisite/Corequisite: MATH 123.

Upper Division:

Take all of the following courses:

BIOL 340 Molecular Cell Biology (3)
Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

BIOL 370 General Genetics (4)
Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or CHEM 251 all with a grade of "C" or better.

BIOL 480 Seminars (1)
Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

CHEM 441A Biological Chemistry (3)
Prerequisites: Either CHEM 220B or CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

CHEM 441B Biological Chemistry (3)
Prerequisite: CHEM 441A with a grade of "C" or better.

Take one of the following:

BIOL 312 Evolutionary Biology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with a grade of "C" or better.

BIOL 350 General Ecology (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260; MATH 119A or MATH 122 all with a grade of "C" or better.

Take at least one of the following courses/course pairs:

BIOL 342 Human/Mammalian Phys (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

And

BIOL 342L Lab in Human/Mammalian Phys (1)
Prerequisite/Corequisite: BIOL 342 with a grade of "C" or better.

Or

BIOL 345 Comparative Animal Phys (3)
Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

And

BIOL 345L Lab in Comp Animal Phys (1)
Prerequisite/Corequisite: BIOL 345 with a grade of "C" or better.

Or

BIOL 440L Molecular Cell Biology Lab (3)
Prerequisites: BIOL 340, BIOL 370, both with a grade of "C" or better, and consent of instructor.

Take four additional courses totaling at least 12 units selected from the following:

BIOL 431 Biology of Cancer (3)
Prerequisites: BIOL 340, 370 with a grade of "C" or better.

BIOL 432 Stem Cell Biology (3)
Prerequisite: BIOL 433 with a grade of "C" or better.

BIOL 433 Developmental Biology (3)
Prerequisites: BIOL 340, and either BIOL 370 or MICR 371, both with a grade of "C" or better.

BIOL 440L Molecular Cell Biology Lab (3)
Prerequisites: BIOL 340, BIOL 370, both with a grade of "C" or better, and consent of instructor.

BIOL 442 Physiology at the Limit (3)
Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better.

BIOL 443 Endocrinology (3)
Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)

BIOL 444 Reproductive Biology (3)
Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better.

BIOL 445 Metabolic Regulation (3)
Prerequisites: BIOL 340, BIOL 342 or BIOL 345; CHEM 441A with grade of "C" or better.

BIOL 447 Molecular Plant Physiology (3)
Prerequisites: BIOL 340, BIOL 370, both with grade of "C" or better.

BIOL 448 Principles of Neurobiology (3)
Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 448; graduates enroll in BIOL 548.)

BIOL 449 Fish Physiology and Endocrinology (3)
Prerequisite: BIOL 345 with grade of "C" or better.

BIOL 472 Molecular Evolution (3)
Prerequisite: BIOL 370 with a grade of "C" or better.

BIOL 473 Molecular Genetics (3)
Prerequisites: BIOL 370 or MICR 371; CHEM 220A,B and 223A,B, or CHEM 227, all with a grade of "C" or better.

BIOL 474 Bioinformatics (3)
Prerequisites: BIOL 260; BIOL 370 or MICR 371, all with a grade of "C" or better.

BIOL 477 Biotechnology & Bioinformatics (4)
Prerequisite: BIOL 340 or 370 or CHEM 441A,B; all with a grade of "C" or better.

BIOL/MICR 416 Virology (3)
Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better.

BIOL/MICR 430 Immunology (3)
Prerequisite: BIOL 340 with a grade of "C" or better.

With permission of the appropriate advisor, students may substitute one course in the biological sciences that is not on the above list for one of these four courses.

These courses do not meet any specific or elective requirements for this major: BIOL 301, BIOL 304, BIOL 305, 309; MICR 300; and NSCI 492.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 211, BIOL 212, BIOL 213, BIOL 260, BIOL 340, BIOL 342, BIOL 345, BIOL 370, CHEM 111A, CHEM 111B, CHEM 220A, CHEM 223A, CHEM 220B/CHEM 223B, CHEM 441A, MATH 119A /MATH 122.

Students contemplating graduate or professional school should consider taking 1-3 units of BIOL 496 in addition to the requirements listed above. With prior permission of the advisor for this option, students may use 3 units of BIOL 496 as an elective.

Bachelor of Science in Marine Biology (120 units)

This degree program requires approximately 79-85 units in the major, of which 38-44 are in lower division and 41 are in upper division. The number of units and particular blend of science and mathematics makes this a very challenging learning experience. However, the depth and strength of this degree provides a strong and flexible base to pursue a variety of careers. Obtaining a minor in another discipline, such as chemistry, microbiology, engineering, business, or computer science, may enhance one's marketability. All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

Lower Division:

Take all of the following courses:

BIOL 153 Introduction to Marine Biology (3)
Prerequisites/Corequisites: Courses that fulfill the A.1 and B.2 GE requirements.

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Intro to Ecology and Physiology (4)
Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)
Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 111A General Chemistry (5)
Prerequisite: A passing score on the Chemistry Placement Examination.
Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

Take one of the following courses:

PHYS 100A General Physics (4)

Prerequisites: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

MATH 119A Survey of Calculus I (3)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

These courses do not meet any specific or elective requirements for this major: BIOL 100, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and 200

Take either:

CHEM 227 Fundamentals of Organic Chemistry (3)

Prerequisite: CHEM 111A with a grade of "C" or better; CHEM 111B is recommended.

or all four of the following courses lower-division courses:

CHEM 220A Organic Chemistry I (3)

Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)

Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)

Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better.
Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Upper Division:

Take all of the following courses:

BIOL 312 Evolutionary Biology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with a grade of "C" or better.

BIOL 313 Invertebrate Zoology (4)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor.

BIOL 340 Molecular Cell Biology (3)

Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

BIOL 345 Comparative Animal Physiology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

BIOL 345L Lab in Comparative Animal Physiology (1)

Prerequisite/Corequisite: BIOL 345 with a grade of "C" or better.

BIOL 350 General Ecology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260; MATH 119A or MATH 122 all with a grade of "C" or better.

BIOL 353 Marine Biology (3)

Prerequisites: BIOL 153, BIOL 211, BIOL 212, BIOL 213,

BIOL 260 all with grade of "C" or better.

BIOL 370 General Genetics (4)

Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or CHEM 251 all with a grade of "C" or better.

BIOL 419 Ichthyology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and at least 6 additional units of upper division biological science, all with a grade of "C" or better.

Recommended: BIOL 350, BIOL 353, and BIOL 370.

BIOL 425 Phycology (4)

Prerequisite: BIOL 353 with a grade of "C" or better.

BIOL 480 Seminars (1)

Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

Take a minimum of three courses or course sets from the following:

BIOL 411, BIOL 420, BIOL 449, BIOL 451, BIOL 454A, BIOL 455, BIOL 457, BIOL 463, BIOL 464; BIOL/MICR 415; GEOG 481; GEOL 465 and 466; PHYS 100B or PHYS 152; MATH 119B or MATH 123; and, with prior consent of marine biology advisor for both BIOL 490, and 3 units of BIOL 496.

These courses do not meet any specific or elective requirements for this major: BIOL 301, BIOL 304, BIOL 305; MICR 300; and NSCI 492.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 153, BIOL 211, BIOL 212, BIOL 213, BIOL 260, BIOL 345, BIOL 353, CHEM 111A, CHEM 111B, CHEM 220A, CHEM 223A, MATH 119A/MATH 122.

Few, if any, health-related professional schools (e.g. veterinary medicine) will accept CHEM 227. Some graduate programs with masters or doctorates in biology and/or marine biology may also not accept CHEM 227. Students interested in these programs might consider taking PHYS 100B or PHYS 152; MATH 119B or MATH 122; CHEM 220A,B and CHEM 223A,B. CHEM 227 is not acceptable as a prerequisite for CHEM 441A. CHEM 227 is acceptable toward the Minor in Chemistry.

Bachelor of Science in Microbiology (120 units)

Microbiology is the study of microorganisms and their interactions with humans, other organisms, and the environment. This degree is appropriate for those contemplating graduate work in microbiology or, with the inclusion of appropriate classes, may be utilized by pre-professional students. Students in this option might also want to pursue the Certificate in Biotechnology described elsewhere in this Catalog. This undergraduate major is recognized by the American Society for Microbiology as meeting their core curriculum for the baccalaureate degree program in microbiology. This major requires 83-84 units in the major, of which 37-38 are lower division and 46 are upper division. All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, and 3. all courses in the major. In addition, students must receive a "C" or better in all upper division major courses.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Degree Progress

Pre-Microbiology majors must complete the following requirements within the specified time of declaring the pre-major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Freshmen: A grade "C" or better must be achieved in CHEM 111A, BIOL 211, and MATH 119A (or MATH 122) within one and a half calendar years.

Requirements

Lower Division:

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Introduction to Cell & Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.
Prerequisite/Corequisite: CHEM 111B..

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

BIOL 260 Biostatistics (3)
Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 111A General Chemistry (5)
Prerequisite: A passing score on the Chemistry Placement Examination.
Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)
Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

CHEM 220A Organic Chemistry I (3)
Prerequisite: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)
Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 223A Organic Chemistry Laboratory I (1)
Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

CHEM 223B Organic Chemistry Laboratory II (1)
Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better.
Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

MICR 211 General Microbiology (5)
Prerequisites: BIOL 211, BIOL 212; CHEM 111B, all with a grade of "C" or better.

Take one of the following courses:

PHYS 100A General Physics (4)
Prerequisite: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 151 Mechanics and Heat (4)
Prerequisite/Corequisite: MATH 122.

Take one of the following courses:

PHYS 100B General Physics (4)
Prerequisite: PHYS 100A.

PHYS 152 Electricity and Magnetism (4)
Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Take one of the following courses:

MATH 119A Survey of Calculus I (3)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 122 Calculus I (4)
Prerequisites: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

These courses do not meet any specific or elective requirements for this major: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

Upper Division:

Take all of the following courses:

CHEM 441A Biological Chemistry (3)
Prerequisites: Either CHEM 220B or CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

CHEM 441B Biological Chemistry (3)
Prerequisite: CHEM 441A with a grade of "C" or better.

BIOL 340 Molecular Cell Biology (3)
Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

BIOL 480 Seminars (1)
Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

MICR 320 Bacterial Pathogenesis (3)
Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 320L.

MICR 355 Microbial Ecology (3)
Prerequisites: MICR 211 or BIOL 211, BIOL 212, BIOL 213; BIOL 260, all with a grade of "C" or better.

MICR 371 Microbial Genetics (3)
Prerequisite: MICR 211 with a grade of "C" or better.

MICR 372 Methods in Microbial Genetics (2)
Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 371.

MICR 430 Immunology (3)
Prerequisite: BIOL 340 with a grade of "C" or better.

MICR 471 Bacterial Physiology (3)
Prerequisites: MICR 320, CHEM 441A; both with a grade of "C" or better.

Take a minimum of 11 elective units chosen from the following:

BIOL 473, BIOL 474, BIOL 477; MICR 320L, MICR 322, MICR 325, MICR 355L, MICR 415, MICR 416, MICR 423, MICR 429, MICR 490, and MICR 495.

Students may use MICR 496 towards the additional units but only with prior permission of the advisor for this degree. Those students seeking a career as a Clinical Laboratory Scientist/Medical Technologist are encouraged to take MICR 320L, MICR 416, and MICR 423.

These courses do not meet any specific or elective requirements for this major: BIOL 301, BIOL 304, BIOL 305; MICR 300; and NSCI 492.

To meet prerequisite standards for courses in this program's

requirements, a "C" or better is necessary in the following: BIOL 211, BIOL 212, BIOL 260, BIOL 340, CHEM 111A, CHEM 111B, CHEM 220A, CHEM 223A, CHEM 220B/ CHEM 223B, CHEM 441A, MATH 119A/MATH 122, MICR 211, MICR 320.

Bachelor of Science Degree with Honors in Biology, Marine Biology, or Microbiology

Students majoring in the B. S. in Biology (all options), B. S. in Marine Biology, or B. S. in Microbiology who would like an enriched academic program, including an intensive research experience, may be eligible to graduate with Honors in the Major through the University Honors Program. Students may also complete General Honors through the University Honors Program, in which case the General Honors thesis requirement is met through Honors in the Major (see University Honors in this catalog).

Students interested in graduating with Honors in the Major should participate in a series of courses designed to introduce central concepts in biology, develop critical thinking and communication skills (special section of UHP 100), and introduce the newly emerging field of bioinformatics. In addition, they may join a learning community of students with similar interests and benefit from mentoring by faculty members.

This Honors in the Major program was created with the support of a grant from the Howard Hughes Medical Institute. Students admitted to Honors in the Major may be eligible to receive monetary support from a variety of sources for completion of their honors research and thesis.

Students who have successfully completed the lower division Honors in the Major curriculum will receive priority for research fellowship support to the extent that it is available.

Additional details about this program, including availability of fellowship support, are available from the Honors in the Major Program Advisor.

Requirements for Admission

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B. S. in Biology (any option), B. S. in Marine Biology, or B. S. in Microbiology.
3. Complete BIOL 211, BIOL 212, and BIOL 213 (BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11) (or BIOL 211A,B), BIOL 260; CHEM 220A,B and CHEM 223A,B at time of entry with grades of at least a "C" in each course. Students may apply during the semester in which they expect to complete these courses.
4. GPAs of at least 3.000 in all courses in the major and in all upper division courses in the major at the time of application.
5. Submission of an application describing the student's academic background, reasons for applying (including a description of any previous research experience), and willingness to commit to a year-long research experience.
6. Letter of recommendation from a CSULB faculty member

familiar with the student's work and abilities.

Requirements for Graduation

1. GPA of at least 3.300 in all upper division courses in the major and in Honors courses.
2. Complete all requirements for the chosen degree in the Biological Sciences.
3. Complete BIOL 466 Research Design and Methods (3)
4. Complete BIOL 496 Undergraduate Directed Research (3)
5. Completion of Biology Thesis (3)
6. Presentation of research results in a public forum. This requirement may be met by presentation at a scientific conference or at a local venue; consult the Program Director for additional information

Substitutions to this program must be approved by the Honors in the Major Program Advisor.

Minor in Biology

This minor may be combined with any major at CSULB except the B.S. in Biology (all options), B.S. in Microbiology, and B.S. in Marine Biology. A minimum of 21 units is required for this minor.

Lower Division:

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)

*C or better required.

Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)

*C or better required.

Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.

Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Intro to Ecology and Physiology (4)

Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

CHEM 111A and 111B are required if the courses are taken at CSULB.

These courses do not meet any specific or elective requirements for this minor: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

Upper Division:

Take a minimum of nine units selected from upper division biology courses with at least one course selected from the 400 series. The nine units must include at least one course chosen from BIOL 312, BIOL 340, BIOL 350, and BIOL 370. Many of the upper division courses in biology also require either BIOL 260 or organic chemistry.

These courses do not meet any specific or elective requirements for this minor: BIOL 301, BIOL 304, BIOL 305; MICR 300, and NSCI 492.

Minor in Physiology

This minor may be combined with any major at CSULB except the B.S. in Biology, Option in Physiology.

A minimum of 18 upper division units.

Twelve units must be selected from the following:

BIOL 341, BIOL 342, BIOL 342L, BIOL 345, BIOL 345L, BIOL 443, BIOL 445, BIOL 448, BIOL 490.

Six units must be selected from other courses in the above list or from the following:

BIOL 473; CHEM 441A,B, CHEM 443, or CHEM 448.

At least one of the upper division courses taken for this minor must have a laboratory. Most of these upper-division courses require CHEM 111A,B and BIOL 211, BIOL 212, BIOL 213 as prerequisites; some have other prerequisites in addition.

These courses do not meet any specific or elective requirements for this minor: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

These courses do not meet any specific or elective requirements for this minor: BIOL 301, BIOL 304, BIOL 305, 309; MICR 300; and NSCI 492.

Minor in Microbiology

This minor may be combined with any major at CSULB except the B.S. in Microbiology. A minimum of 19 units.

Lower Division:

Take the following:

MICR 211 General Microbiology (5)

*C or better required.

Prerequisites: BIOL 211, BIOL 212; CHEM 111B, all with a grade of "C" or better.

Upper Division:

Take all of the following courses:

MICR 320 Bacterial Pathogenesis (3)

*C or better required.

Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 320L.

MICR 416 Virology (3)

Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better.

MICR 430 Immunology (3)

Prerequisite: BIOL 340 with a grade of "C" or better.

Take a minimum of five units from the following:

MICR 322, MICR 371, MICR 471,

These courses do not meet any specific or elective requirements for this minor: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

These courses do not meet any specific or elective requirements for this major: BIOL 301, BIOL 304, BIOL 305; MICR 300, and NSCI 492

Certificate Program in Biomedical Art

This is an interdisciplinary program sponsored by the Art and Biological Sciences departments. For requirements, see the Art section of this catalog.

Certificate in Biotechnology

Biotechnology refers to a process which ultimately yields a product that can be loosely subdivided into five categories; biological organisms with novel traits, DNAs, RNAs, proteins, and compounds. The certificate may be earned in conjunction with or subsequent to a baccalaureate degree. Courses offered for the certificate may be used to satisfy, as appropriate, major or minor requirements.

This certificate program is eligible for Financial Aid. Please see the department web site for required Federal disclosure information.

Prerequisites for Admission

Completion of the following courses with a grade of "C" or better (or consent of the biotechnology certificate program director): CHEM 111A,B; CHEM 220A,B and CHEM 223A,B; CHEM 441A,B; BIOL 340; BIOL 370; MICR 211.

These courses do not meet any specific or elective requirements for this certificate: BIOL 100, BIOL 153, BIOL 153L, BIOL 200, BIOL 200L, BIOL 205, BIOL 205L, BIOL 207, BIOL 208; MICR 101 and MICR 200.

Requirements

1. A baccalaureate degree (can be concurrent);
2. Completion of prerequisites;
3. Approval by the program director;
4. Completion of the core curriculum:

BIOL 473/573 Molecular Genetics (3)

Prerequisites: BIOL 370 or MICR 371; CHEM 220A,B and CHEM 223A,B, or CHEM 227, all with a grade of "C" or better. (Undergraduates enroll in BIOL 473; graduates enroll in BIOL 573.)

BIOL 477/577 Biotechnology: Applications of Molecular Techniques and Bioinformatics (4)

Prerequisites: BIOL 340 or 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in BIOL 477; graduates enroll in BIOL 577.)

BIOL 480/580 Seminars (1)

Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

NSCI 492 Internships In Natural Science (3)

Prerequisites: Major in the College of Natural Sciences and Mathematics, completion of 9 units of upper division science coursework, a 2.5 GPA overall or 2.75 GPA in the student's major, and consent of instructor prior to registration.

Take an additional 3 units selected in consultation with program director;

5. Completion of 3 units consisting of an approved research project in biotechnology to be taken from one or more of the following:
BIOL 496; CHEM 496; or MICR 496 (undergraduate students); BIOL 697; CHEM 697; or MICR 697 (graduate students);
6. BIOL 301, BIOL 304; MICR 300 do not meet any specific or elective requirements for this certificate.
7. Total 18 units required.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take coursework in a community or another college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to enroll in specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be met; see 'Concurrent Enrollment' and 'Transfer of Undergraduate Credit' in this catalog. Courses not receiving prior approval will not be accepted for credit by the department.

GRADUATE PROGRAMS

Master of Science in Biology

This degree is available to qualified students preparing for professional careers in industry and government and for further studies at the doctoral level. In addition, a master's degree in biology, combined with appropriate courses in education, can be utilized for a community college teaching credential. This degree requires a thesis based on original scientific research; a list of research areas with the names of faculty specializing in these areas can be obtained from the department's website.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student, stated previously in this catalog under Graduate Degrees and Post Baccalaureate Studies, the Department of Biological Sciences requires:

1. A faculty member in the department must agree to serve as the thesis advisor to the student prior to her/his acceptance into the M.S. program;
2. A bachelor's degree in the biological or related sciences from an accredited institution. Students with alternative undergraduate degrees will be considered;
3. An undergraduate GPA in all completed science and mathematics courses of at least 2.70 OR a GPA of at least 3.00 in the last 40 semester (or 60 quarter) units of science and mathematics courses completed;
4. The GRE General Test must have been taken prior to applying to the Department. The applicant should score in the 50th percentile or better in Verbal and Quantitative sections. If either the GRE Verbal or Quantitative score (but not both) is below the 50th percentile, the student may be considered for acceptance if their respective undergraduate grades in English or Math are a B average or better. The GRE must have been taken within five years prior to the intended admission date.
5. Applicants without a degree within a field of the biological sciences must also take the GRE Biology or Biochemistry, Cell and Molecular Biology Subject Test. A score of 50th percentile or better on the GRE Subject Test in Biology, or Biochemistry, Cell and Molecular Biology must be achieved.

Students who do not meet the minimum required criteria for acceptance are encouraged to take post-baccalaureate courses to bring up their GPA or GRE scores.

Application

Prospective graduate students in M.S. in Biology, including CSULB graduates, must formally apply for admission to CSULB as described previously in this catalog and must also apply directly to the Department of Biological Sciences. All applicants must submit the following documents directly to the Department no later than February 15 for the fall semester to receive consideration for admission:

1. Departmental Application Form, also available from the Department's Graduate Office;

2. A one page essay describing why the applicant wishes to obtain an M.S. degree in Biology at CSULB and how this relates to her/his career objectives;
3. Unofficial transcripts of all college level academic work, including those completed at CSULB (these are in addition to those transcripts required for general graduate admission to CSULB);
4. Three letters of recommendation from persons familiar with the applicant's academic performance, as well as research and teaching potential; and
5. Official report of the GRE General Test scores. The applicant should have taken this examination prior to applying to the Department, because the official scores must reach the Department by the deadline above.

These materials must be submitted to the Graduate Office, Department of Biological Sciences, California State University, Long Beach, 1250 Bellflower Blvd., Long Beach, CA 90840-9502.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all completed applications received by the deadlines. Admission into the M.S. Program in Biology is competitive, with an applicant's college GPA, GRE Test scores, one-page essay, and letters of recommendation weighed in the decision to accept or decline. Applicants who are admitted into the program will enter as a Classified Graduate Student, as described below.

Admission to the Department of Biological Sciences as a Classified Graduate Student

The Department of Biological Sciences may admit as a Classified Graduate Student any applicant who:

1. has met all prerequisites,
2. has a complete application folder, and
3. has obtained acceptance by a faculty member to serve as her/his Thesis Advisor.

The Thesis Proposal

After admission to the Department as a Classified Graduate Student, the student in consultation with the Thesis Advisor, must prepare her/his Thesis Proposal and Program of Study, which includes all coursework to be taken. The Thesis Proposal must include a thorough review of relevant primary literature that demonstrates the context of the proposed research, it must clearly define the experiments proposed for the research to be undertaken, and should include preliminary data, if available. The student and her/his Thesis Advisor will select at least two additional members to serve on the Thesis Committee. In most cases, the Thesis Advisor will serve as Chair of the Thesis Committee. However, if the Thesis Advisor is not eligible, another member of the Thesis Committee will serve as Thesis Committee Chair. The student will then have a formal meeting with the Thesis Committee, at which the student's Thesis Proposal and Program of Study will be presented and evaluated. At this meeting, the Thesis Committee will question the student about her/his Thesis Proposal. At the completion of this meeting, the Thesis Committee will meet briefly, without the student present, to evaluate the Thesis Proposal. Approval is based on whether the student has demonstrated a solid understanding of her/his thesis project. The Thesis Proposal must be prepared, presented to, and approved by the Thesis Committee before

the end of the second semester after admission to the Department. Failure to meet this requirement will result in dismissal from the M.S. in Biology program.

The Program of Study

The Program of Study must include six units of Thesis (BIOL 698), one to three units of Directed Research (BIOL 697), two units of Experimental Design (BIOL 696A), two units of Scientific Communication (BIOL 696B), one unit of Seminar (BIOL 580), and four units from: BIOL 663, BIOL 664, BIOL 665, BIOL 666; MICR 661; or CHEM 595A; BIOL 663-666 and MICR 661 topics must be different. Of the minimum 30 units, no more than six may come from BIOL 663-666 and no more than two units of CHEM 595A; no more than nine may come from transfer credit; and no more than one 300-level course may be included. Any 300-level course on a graduate program of study must be approved by the Thesis Advisor and the Graduate Advisor. BIOL 696A will be taken during the student's initial fall semester; the course will cover experimental design, statistics, and literature research, and help students in preparing their Thesis Proposal. BIOL 696B will be taken during the first spring semester in the program, and will cover both oral and written scientific presentation. BIOL 696B is intended to facilitate manuscript and thesis writing and to help students learn to articulate their findings for their thesis defense. The Program of Study must be prepared, presented to, and approved by the Thesis Committee before the end of the second semester after admission to the Department. Failure to meet this requirement will result in dismissal from the M.S. in Biology program.

Advancement to Candidacy

In addition to the general University requirements stated previously under Post-Baccalaureate and Graduate Degrees in this catalog, the student must complete the following steps before receiving Master's Candidate status in the Department of Biological Sciences:

1. Admission to the Master's Degree program in Biology as a Classified Graduate Student (see above);
2. Acceptance of the Thesis Proposal and Program of Study by the Thesis Committee;
3. Satisfactory academic progress;
4. Satisfactory fulfillment of the Graduation Writing Assessment Requirement (GWAR).

The Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the Department Graduate Advisor. This should occur at end of second semester after admission. Upon approval by the College's Associate Dean or designee, the student will attain Master's Candidate status.

Requirements for the Master of Science in Biology

In addition to the general University requirements stated previously in this catalog, the student must meet the following requirements before receiving the degree of Master of Science in Biology. The requirements are:

1. Advancement to Master's Candidate status (see above);
2. Maintenance of a 3.00 ("B" average) or better, overall GPA (includes all upper-division and graduate level courses taken since admission to this University and after completion of the baccalaureate degree) and graduate

program GPA. If either GPA falls below 3.00, it must be elevated to a 3.00 by the end of the following semester or the student will be dismissed from the M.S. program in Biology;

3. Successful completion of the following: written thesis and public defense followed by a private defense with the Thesis Committee; and
4. Service as a Teaching Assistant or Graduate Assistant. Under some circumstances, this requirement may be waived.

Requests to graduate must be received by Enrollment Services approximately 6 months in advance of the expected graduation date (Check the Schedule of Classes for the date).

These degree requirements must be completed within 7 years from when the first course on the Program of Study was completed, including academic leaves, or the student's degree program will be terminated.

Master of Science in Microbiology

This degree is available to qualified students preparing for professional careers in industry and government and for further studies at the doctoral level. In addition, a master's degree in microbiology, combined with appropriate courses in education, can be utilized for a community college teaching credential. This degree requires a thesis based on original scientific research; a list of research areas with the names of faculty specializing in these areas can be obtained from the department's website.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student, stated previously in this catalog under Graduate Degrees and Post Baccalaureate Studies, the Department of Biological Sciences requires:

1. A faculty member in the department must agree to serve as the thesis advisor for the student prior to her/his acceptance into the M.S. program;
2. A bachelor's degree in the biological or related sciences from an accredited institution. Students with alternative undergraduate degrees will be considered, but they will likely be assigned deficiency courses by the Thesis Advisor in consultation with the Graduate Advisor;
3. An undergraduate GPA in all completed science and mathematics courses of at least 2.70 OR a GPA of at least 3.00 in the last 40 semester (60 quarter) units of science and mathematics courses completed;
4. The GRE General Test must have been taken prior to applying to the Department. The applicant should score in the 50th percentile or better in Verbal and Quantitative sections. If either the GRE Verbal or Quantitative score (but not both) is below the 50th percentile, the student may be considered for acceptance if their respective undergraduate grades in English or Math are a B average or better. The GRE must have been taken within five years prior to the intended admission date.
5. Applicants without a degree within a field of the biological sciences must also take the GRE Biology or Biochemistry, Cell and Molecular Biology Subject Test. A score of 50th percentile or better on the GRE Subject Test in Biology,

or Biochemistry, Cell and Molecular Biology must be achieved.

Students who do not meet the minimum required criteria for acceptance are encouraged to take post-baccalaureate courses to bring up their GPA or GRE scores.

Application

Prospective graduate students in M.S. in Microbiology, including CSULB graduates, must formally apply for admission to CSULB as described previously in this catalog and must also apply directly to the Department of Biological Sciences. All applicants must submit the following documents directly to the Department no later than February 15 for the fall semester to receive consideration for admission:

1. Departmental Application Form, also available from the Department's Graduate Office;
2. A one page essay describing why the applicant wishes to obtain an M.S. degree in Microbiology at CSULB and how this relates to her/his career objectives;
3. Unofficial transcripts of all college level academic work, including those completed at CSULB (these are in addition to those transcripts required for general graduate admission to CSULB);
4. Three letters of recommendation from persons familiar with the applicant's academic performance, as well as research and teaching potential; and
5. Official report of the GRE General Test scores. The applicant should have taken this examination prior to applying to the Department, because the official scores must reach the Department by the deadline above.

These materials must be submitted to the Graduate Office, Department of Biological Sciences, California State University, Long Beach, 1250 Bellflower Blvd., Long Beach, CA 90840-9502.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all completed applications received by the deadlines. Admission into the M.S. Program in Microbiology is competitive, with an applicant's college GPA, GRE Test scores, one-page essay, and letters of recommendation weighed in the decision to accept or decline. Applicants who are admitted into the program will enter as a Classified Graduate Student, as described below.

Admission to the Department of Biological Sciences as a Classified Graduate Student

The Department of Biological Sciences may admit as a Classified Graduate Student any applicant who:

1. has met all prerequisites,
2. has a complete application folder, and
3. has obtained acceptance by a faculty member to serve as her/his Thesis Advisor.

The Thesis Proposal

After admission to the Department as a Classified Graduate Student, the student in consultation with the Thesis Advisor, must prepare her/his Thesis Proposal and Program of Study, which includes all coursework to be taken. The Thesis Proposal must include a thorough review of relevant primary literature that demonstrates the context of the proposed research, it must clearly define the

experiments proposed for the research to be undertaken, and should include preliminary data, if available. The student and her/his Thesis Advisor will select at least two additional members to serve on the Thesis Committee. In most cases, the Thesis Advisor will serve as Chair of the Thesis Committee. However, if the Thesis Advisor is not eligible, another member of the Thesis Committee will serve as Thesis Committee Chair. The student will then have a formal meeting with the Thesis Committee, at which the student's Thesis Proposal and Program of Study will be presented and evaluated. At this meeting, the Thesis Committee will question the student about her/his Thesis Proposal. At the completion of this meeting, the Thesis Committee will meet briefly, without the student present, to evaluate the Thesis Proposal. Approval is based on whether the student has demonstrated a solid understanding of her/his thesis project. The Thesis Proposal must be prepared, presented to, and approved by the Thesis Committee before the end of the second semester after admission to the Department. Failure to meet this requirement will result in dismissal from the M.S. in Microbiology program.

The Program of Study

The Program of Study must include completion of a minimum of 30 semester units. At least 21 of these units must be in the 500-600 level courses of which a minimum of 16 units must be in the Microbiology or Biology 500-600 series. If not taken previously, MICR 371 or an upper division/graduate course in genetics, and MICR 471 or an upper division/graduate course in cell physiology are required courses for your Program of Study. The rest of your required courses for your Program of Study include: BIOL 580 (1 unit), MICR 661 (two enrollments with different topics for a total of 4 units is required), or MICR 661 and BIOL 663; BIOL 696A (2 units), BIOL 696B (2 units), MICR 697 (maximum 3 units); and MICR 698 (6 units). Other elective units included in the graduate program must be 400-600 level courses acceptable to the University and microbiology degree program, no more than nine may come from transfer credit. Up to 5 units of 300-level courses may be included with an approval from the Thesis Chair and Graduate Advisor. BIOL 696A will be taken during the student's initial fall semester; the course will cover experimental design, statistics, and literature research, and help students in preparing their Thesis Proposal. BIOL 696B will be taken during the first spring semester in the program, and will cover both oral and written scientific presentation. BIOL 696B is intended to facilitate manuscript and thesis writing and to help students learn to articulate their findings for their thesis defense.

Advancement to Candidacy

In addition to the general university requirements stated previously under Post-Baccalaureate and Graduate Degrees in this catalog, the student must complete the following steps before receiving Candidate status in the Department of Biological Sciences:

1. Admission to the Department of Biological Sciences' Master's Degree program as a Classified Graduate Student (see above);
2. Acceptance of the Thesis Proposal and Program of Study by the Thesis Committee;
3. Satisfactory academic progress;

4. Satisfactory fulfillment of the Graduate Writing Assessment Requirement (GWAR).

The Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the department Graduate Advisor. This should occur at end of second semester after admission. Upon approval by the College's Associate Dean or designee, the student will attain Master's Candidate status.

Requirements for the Master of Science in Microbiology

In addition to the general University requirements stated previously in this catalog, the student must meet the following requirements before receiving the degree of Master of Science in Microbiology. The requirements are:

1. Advancement to Master's Candidate status (see above);
2. Maintenance of a 3.00 ("B" average) or better, overall GPA (includes all upper-division and graduate level courses taken since admission to this University and after completion of the baccalaureate degree) and graduate program GPA. If either GPA falls below 3.00, it must be elevated to a 3.00 by the end of the following semester or the student will be dropped from the M.S. in Microbiology program;
3. Successful completion of the following: written thesis and public defense followed by a private defense with the Thesis Committee; and
4. Service as a Teaching Associate or Graduate Assistant. Under some circumstances, this requirement may be waived.

Requests to graduate must be received by Enrollment Services approximately 6 months in advance of the expected graduation date (check the *Schedule of Classes* for the date).

These degree requirements must be completed within 7 years from when the first course on the Program of Study was completed, including academic leaves, or the student's degree program will be terminated.

Single Subject Teaching Credential in Biology

For information, refer to the undergraduate section in this department..

Biology Courses (BIOL)

Students pursuing a major and/or a minor in this department may receive unit credit for courses marked with the symbol '##' as a general elective but may not apply the units toward the specific or elective requirements for any degree or option in this department. Majors in this department may, however, take, for general education purposes, interdisciplinary courses offered by this department. All other courses in this department are open to majors and minors but by letter grade only (A-F).

LOWER DIVISION

100.## Biology of the Human Environment (3) F,S

Prerequisite/Corequisite: One GE Foundation course.

Biological perspective on the interaction between humans and their environment. Specifically designed for non-science majors.

(Lecture 3 hrs.)

153. Introduction to Marine Biology (3) F,S

Prerequisites/Corequisites: Courses that fulfill the A.1 and B.2 GE requirements.

Scientific approach to the study of marine organisms and their relationships to the environment. Emphasis on human interaction with marine ecosystems.

(Lecture 2 hrs., laboratory and field 3 hrs.) Field trips may be required outside of scheduled class time. Not open for credit to students with credit in BIOL 201.

153L. Introduction to Marine Biology Laboratory (1) F,S

Prerequisite: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 153 at another accredited institution and have consent of the Department of Biological Sciences.

Identical to the laboratory portion of BIOL 153. Students enrolled in BIOL 153L will take it in the same room and at the same time as students enrolled in BIOL 153. Not open for credit to students with credit in BIOL 153. (Laboratory 3 hrs.)

200.## General Biology (4) F,S

Prerequisite: GE Foundation requirements.

Brief survey of major areas of biology including cell biology, genetics, evolution, phylogeny, plant and animal anatomy and physiology, ecology, and behavior. Specially designed for non-science majors.

Course fee may be required. (Lecture 3 hrs., laboratory 3 hrs.)

200L.## General Biology Laboratory (1) F,S

Prerequisite: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 200 at another accredited institution and have consent of the Department of Biological Sciences.

BIOL 200L is identical to the laboratory component of BIOL 200. Students enrolled in BIOL 200L will take it in the same room and at the same time as students enrolled in BIOL 200.

Not open for credit to students with credit in BIOL 200. Course fee may be required. (Laboratory 3 hrs.)

205.## Human Biology (4) F,S

Prerequisites: GE Foundation requirements.

Brief survey of human biology focusing on anatomy, physiology, and development of cells, tissues, organs, and organ systems; including molecular biology, genetics, ecology, evolution, and diversity. Specially designed for non-science majors.

Course fee may be required. (Lecture 3 hrs., laboratory 3 hrs.)

205L.## Human Biology Laboratory (1) F,S

Prerequisites: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 205 at another accredited institution and have consent of the Department of Biological Sciences. Identical to the laboratory portion of BIOL 205. Students enrolled in BIOL 205L will take it in the same room and at the same time as students enrolled in BIOL 205.

Not open for credit to students with credit in BIOL 205. Course fee may be required. (Laboratory 3 hrs.)

207.## Human Physiology (4) F,S

Prerequisites: GE Foundation requirements.

General introduction to the functional integration of human body systems. Designed for majors in biomedical engineering, physical education, and the allied health fields.

(Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

208.## Human Anatomy (4) F,S

Prerequisites: Grade of "C" or better in one of the following: ART 372, BIOL 205, BIOL 207, BIOL 212, CHEM 140, DANC 261, or MICR 200.

Gross anatomy of humans from the cellular to the systemic levels. Intensive laboratory experience including the use of human cadavers. Designed for majors in kinesiology and the allied health fields. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

Not open for credit to students with credit in A/P 202 or A/P 208. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

211. Introduction to Evolution and Diversity (4) F,S

Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

Intended for natural science majors. First of three semester introductory sequence. Evolution as a process responsible for biological diversity at all levels: molecular, cellular, organismal, population, and community. Phylogenetic and taxonomic survey of life. Science as method of inquiry. Failure of either the lecture or the laboratory component will result in a failing grade for the entire course.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

211L. Introduction to Evolution and Diversity Laboratory (1) F,S

Prerequisites: Open only to students who have successfully completed the equivalent of the lecture component of BIOL 211 at another accredited institution and have consent of the Department of Biological Sciences.

Phylogenetic and taxonomic survey of life emphasizing the principles of evolution and science as a method of inquiry. Identical to the laboratory component of BIOL 211. Students enrolled in BIOL 211L will take it in the same room and at the same time as students enrolled in BIOL 211. Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

212. Introduction to Cell and Molecular Biology (4) F,S

Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better.

Prerequisite/Corequisite: CHEM 111B.

The second of a three semester introductory sequence. Introduction to macromolecular and cellular structure and function and to fundamental genetic principles. Failure of either the lecture or laboratory component will result in a failing grade for the entire course. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

212L. Introduction to Cell and Molecular Biology Laboratory (1) F,S

Prerequisites: Open only to students who have successfully completed the equivalent of the lecture component of BIOL 212 at another institution and have consent of the Department of Biological Sciences.

Introduction to methods for studying macromolecular and cellular structure and function and fundamental genetic analyses. Identical to the laboratory component of BIOL 212. Students enrolled in BIOL 212L will take it in the same room and at the same time as students enrolled in BIOL 212.

Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

213. Introduction to Ecology and Physiology (4) F,S

Prerequisites: BIOL 211, 212, CHEM 111B, each with a grade of "C" or better.

Introduction to the structure and function of organ systems across a variety of taxa, and the ecological interactions among organisms and their environment. Failure of either the lecture or the laboratory component will result in failing grade for the entire course.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

Course fee may be required.

213L. Introduction to Ecology and Physiology Laboratory (1) F,S

Prerequisites: Open only to students who have successfully completed the equivalent of the lecture component of BIOL 213 at another institution and have consent of the Department of Biological Sciences.

Introduction to methods for studying plant and animal structure and function and the interactions among organisms and their environments. Identical to the laboratory component of BIOL 213. Students enrolled in BIOL 213L will take it in the same room and at the same time as students enrolled in BIOL 213.

Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

260. Biostatistics (3) F,S

Prerequisites: BIOL 211 or BIOL 207 or MICR 200; MATH 111 or MATH 113 or MATH 119A or MATH 122 all with a grade of "C" or better.

Probability and statistics used in the description and analysis of biological data.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

296. Introduction to Undergraduate Directed Research (1) F,S

Prerequisite: Consent of instructor.

Introduction to research in biology approved and directed by a faculty member in the Department of Biological Sciences. Designed primarily to introduce lower division students to research before taking MICR/BIOL 496.

Credit/No Credit only. May be repeated to a maximum of 3 units in different semesters. Same course as MICR 296. Not open for credit to students with credit in MICR 296. Students who have completed one or more units of MICR/BIOL 496 may not enroll in this course. (Conference 1 hr., laboratory 3 hrs.)

UPPER DIVISION

301.## Biology of Human Aging (3)

Prerequisites: BIOL 200 or BIOL 205 or BIOL 207 all with a grade of "C" or better.

Biological processes associated with aging in humans. Emphasis on both cellular and organ aging.

Specifically designed for the gerontology program. Not open to students with "C" or better in BIOL 401. (Lecture 3 hrs.)

304.## Pathophysiology (3) F,S

Prerequisites: BIOL 207, BIOL 208; CHEM 140; MICR 200, all with a grade of "C" or better.

Pathogenesis and pathophysiology of common disorders of human nervous, musculoskeletal, endocrine, cardiovascular, respiratory, excretory, digestive, and reproductive systems with emphasis on the physiological basis of the disease process and clinical correlations.

Not designed for majors in the College of Natural Sciences and Mathematics. Priority registration given to students who have been accepted into CSULB nursing programs.

(Lecture 3 hrs.)

305.## Pharmacology (2) F,S

Prerequisite/Corequisite: BIOL 304, with a grade of "C" or better.

Systematic study of drugs, their classification, methods and routes of administration, therapeutic and toxic effects with emphasis on nursing implications.

Not designed for majors in the College of Natural Sciences and Mathematics. Not open for credit to students with a "C" or better in BIOL 204. Priority registration given to students who have been accepted into CSULB nursing programs. (Lecture 2 hrs.)

312. Evolutionary Biology (3) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with a grade of "C" or better.

Survey of evolutionary biology including population genetics, speciation, origin of life, and phylogenetic analysis. Main emphasis is evolutionary mechanisms and methods of analysis on specific of the evolutionary history of life.

Letter grade only (A-F). (Lecture 3 hrs.)

313. Invertebrate Zoology (4) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor.

Systematics, morphology, and natural history of invertebrate animals, with emphasis on local marine forms.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.; weekend field trips may be required.) Course fee may be required.

316. General Entomology (4) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

Characteristics, structure, habits, and life cycles of insects; importance of insects to humans and other organisms.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

324. Vertebrate Zoology (4) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

Phylogenetic survey of vertebrates (craniates). Lecture concentrates on origin and radiation of vertebrates and their functional morphology. Laboratory concentrates on skeletal and internal anatomy and taxonomy to the ordinal and familial level of living vertebrates.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

340. Molecular Cell Biology (3) F,S

Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

Detailed study of the organization and functioning of cells and cellular organelles at the molecular level; emphasis on experimental approaches and structural/functional relationships.

Letter grade only (A-F). (Lecture 3 hrs.)

341. Physiology for Therapists I (4) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213; CHEM 111A,B; PHYS 100A,B all with grade of "C" or better; 100 hours of documented exposure to the practice of physical therapy in a variety of settings; and consent of instructor.

Mechanisms of action and interaction of physiological body systems with emphasis on nervous and endocrine systems and skeletal and smooth muscle. Pathological and clinical considerations presented.

Letter grade only (A-F). Course fee may be required. (Lecture 3 hrs., laboratory 3 hrs.)

342. Human/Mammalian Physiology (3) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

Function of various mammalian body systems, primarily of humans. Emphasis on integration of homeostatic mechanisms of nervous, muscular, endocrine, cardiovascular, respiratory, renal, digestive, and reproductive systems.

Letter grade only (A-F). (Lecture 3 hrs.)

342L. Laboratory in Human/Mammalian Physiology (1) F,S

Prerequisite/Corequisite: BIOL 342 with a grade of "C" or better.

Experiments and exercises designed to provide experience in, and illustration of, physiological principles and mechanisms of

interaction among various body systems.

Letter grade only (A-F). Course fee may be required. (Laboratory 3 hrs.)

345. Comparative Animal Physiology (3) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with grade of "C" or better.

Comparison of fundamental physiological processes of major animal phyla.

Letter grade only (A-F). (Lecture 3 hrs.)

345L. Laboratory in Comparative Animal Physiology (1) F,S

Prerequisite/Corequisite: BIOL 345 with a grade of "C" or better.

Laboratory course acquaints students with direct observation and measurement of physiological processes in various animal groups, both invertebrate and vertebrate.

Letter grade only (A-F). Course fee may be required. (Laboratory 3 hrs.)

350. General Ecology (3) F,S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260; MATH 119A or MATH 122 all with a grade of "C" or better.

Relationships of plants and animals to their physical and biological environment; structure and function of populations, communities and ecosystems.

Letter grade only (A-F). (Lecture 3 hrs.)

353. Marine Biology (3) S

Prerequisites: BIOL 153, BIOL 211, BIOL 212, BIOL 213, BIOL 260 all with grade of "C" or better.

Study of pelagic and benthic marine ecosystems, including food resources, mariculture, and pollution. Weekend field trips may be required.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.) Course fee may be required.

355. Microbial Ecology (3) S

Prerequisites: MICR 211 or BIOL 211, BIOL 212, BIOL 213; BIOL 260, all with a grade of "C" or better.

Explores relationships of microorganisms to their environment. Emphasis placed on ecological basis for diversity of prokaryotic forms, metabolic functions and community interactions.

Letter grade only (A-F). Same course as MICR 355. Not open for credit to student with credit in MICR 355. (Lecture 3 hrs.)

355L. Microbial Ecology Laboratory (1) S

Prerequisite/Corequisite: BIOL 355 or MICR 355.

Provides an understanding of microbes in the environment. Sample and analyze microbes from field trips to different habitats. Analytical techniques learned include enrichment culture methods and modern molecular biology methods to study the diversity and community dynamics of microbes.

Letter grade only (A-F). Course fee may be required. Same course as MICR 355L. Not open for credit to student with credit in MICR 355L. (Laboratory 3 hrs.)

370. General Genetics (4) F,S

Prerequisites: BIOL 211, BIOL 212 and either BIOL 260 or CHEM 251 all with a grade of "C" or better.

Detailed study of classical transmission genetics and introduction to modern molecular genetics. Includes current observations and concepts of nature, organization, function, and regulation of genetic expression.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

411./511. Marine Mammalogy (3) S, odd years

Prerequisites: BIOL 345, BIOL 350, and BIOL 353, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 411; graduates enroll in BIOL 511.)

Fundamental biological, ecological, and physiological concepts of marine mammals, including cetaceans, pinnipeds, walrus, sirenians, and polar bears. Information concerning taxonomy, distribution, morphology, physiology, reproduction, and feeding through readings and scientific literature.

Fieldtrips may include weekends and spring recess. Letter grade only (A-F). (Lecture 2 hrs., laboratory and fieldtrips 3 hrs.)

412. Advanced Evolutionary Biology (3)

Prerequisite: BIOL 312 with a grade of "C" or better.

A Writing Intensive Capstone. An advanced survey of topics in evolutionary biology including population and quantitative genetics, allometry, game theory, evolutionary psychology, and evolutionary-developmental biology. Main emphasis on the development of conceptual and mathematical models. Weekly writing assignments and editing.

Letter grade only (A-F). (Lecture 3 hrs.)

415./515. Marine Microbiology (3) F, odd years

Prerequisite: BIOL 353 or MICR 355 or BIOL 355 with a grade of "C" or better. (Undergraduates enroll in BIOL 415; graduates enroll in BIOL 515.)

Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biogeochemistry and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.

Letter grade only (A-F). Same course as MICR 415. Not open for credit to students with credit in MICR 415. Course fee may be required. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

416./516. Virology (3) F,S

Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in BIOL 416; graduates enroll in BIOL 516.)

Virology at molecular level including viral replication and molecular basis for viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.

Letter grade only (A-F). Same course as MICR 416. Not open for credit to students with credit in MICR 416. (Lecture 3 hrs.)

419. Ichthyology (3) F

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and at least 6 additional units of upper division biological science, all with a grade of "C" or better.

Recommended: BIOL 350, BIOL 353, and BIOL 370.

Systematics, morphology, genetics, and ecology of fishes. Emphasis on local marine forms.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., weekend field trips may be required.) Course fee may be required.

420./520. Fisheries Ecology and Conservation (3) F

Prerequisites: BIOL 260, BIOL 350, 353, and 419, all with grade of "C" or better. (Undergraduates enroll in BIOL 420; graduates enroll in BIOL 520.)

Advanced aspects of fish and invertebrate biology and behavior; fisheries economics and conservation; emphasis on state-of-art field/laboratory techniques and contemporary concepts and their application in fishery management.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

421. Herpetology (3) S, odd years

Prerequisites: BIOL 260, BIOL 350, and one additional upper division biology course, all with a grade of "C" or better.

Recommended: BIOL 312, BIOL 324, or BIOL 370.

Taxonomy, natural history, ecology and distribution of amphibians and reptiles, emphasis on local forms. Weekend field trip required.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

423. Mammalogy (3)

Prerequisites: At least one of BIOL 312, BIOL 324, or BIOL 350, with a grade of "C" or better.

Explores the biology and diversity of the world's living mammals. Lecture emphasizes radiation of orders; their morphology, physiology, evolutionary history, ecology and behavior. Laboratory emphasizes external and skeletal morphology of these same taxa, identification of California species, and a focus on techniques in mammalogy.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

424./524. Ornithology (3) S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and three units of upper division BIOL, all with a grade of "C" or better. Recommended: BIOL 350. (Undergraduates enroll in BIOL 424; graduates enroll in BIOL 524.)

Ecology, morphology, physiology, behavior, and taxonomy of birds from an evolutionary perspective, also factors influencing recent increase in their extinction risk. Species identification techniques (emphasis on the local avifauna) and methods of surveying avian populations.

Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.) Course fee may be required.

425. Phycology (4) F,S

Prerequisite: BIOL 353 with a grade of "C" or better.

Taxonomy, phylogeny, and physiology of algae, including the physiological ecology of marine macroalgae; emphasis on local marine forms.

Letter grade only (A-F). (Lecture 3 hrs., laboratory and field 3 hrs.)

427. Vascular Plant Systematics (4) S

Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.

Principles and methods of plant systematics, including phylogenetics, different types of systematic data, evolutionary history and diversification of vascular plants. Laboratory emphasizes retrieving and analyzing systematic data, using phylogenetic methods, and identifying vascular plants of Southern California.

Letter grade only (A-F). Course fee may be required. (Lecture 2 hrs., laboratory and field 6 hrs.)

430. Immunology (3) F,S

Prerequisite: BIOL 340 with a grade of "C" or better.

Study of cellular and molecular components of immune system, including how immune system recognizes pathogens, how it functions in various types of immune responses, mechanisms of vaccines, immunodeficiencies, transplantation, allergy, and autoimmunity.

Letter grade only (A-F). Same course as MICR 430. Not open for credit to students with credit in MICR 430. (Lecture 3 hrs.)

431./531. Biology of Cancer (3) F,S

Prerequisites: BIOL 340, BIOL 370 with a grade of "C" or better. (Undergraduates enroll in BIOL 431, graduates enroll in BIOL 531.)

Examination of cancer, tumor progression, and treatment at the cellular, molecular, and genetic levels.

Letter grade only (A-F). (Lecture 3 hrs.)

432./532. Stem Cell Biology (3) S

Prerequisites: BIOL 433 or BIOL 533 with a grade of "C" or better. (Undergraduates enroll in BIOL 432; graduates enroll in BIOL 532.)

Current literature on advances in stem cell research, translational research, and clinical applications of stem cells to alleviate human disease.

Letter grade only (A-F). (Lecture 3 hrs.)

432L./532L. Advanced Stem Cell Laboratory (4) SS

Prerequisites: BIOL 432/532, BIOL 440L, BIOL 462/562, BIOL 473/573, BIOL 477/577, all with a grade of "C" or better, and consent of the director of the CSULB Biotechnology Certificate Program. (Undergraduates enroll in BIOL 432L; graduates enroll in BIOL 532L.)

Intensive laboratory, offered during a 6-week summer session. Students learn basic and advanced stem cell culture techniques. The sixth week is 40 hours at the Children's Hospital of Orange County Research Institute (CHOC).

Letter grade only (A-F). (Lecture 1 hr., laboratory 9 hrs.)

433./533. Developmental Biology (3) F,S

Prerequisites: BIOL 340, and either BIOL 370 or MICR 371, both with a grade of "C" or better. (Undergraduates enroll in BIOL 433; graduates enroll in BIOL 533.)

Experimental approaches to development in model organisms, mostly animal, at the molecular, genetic, cellular, and tissue levels. Topics include gametogenesis, fertilization, early cleavage, gastrulation, pattern formation, and organogenesis.

Letter grade only (A-F). (Lecture/discussion 3 hrs.)

439. Plant Morphology (4) F

Prerequisite: BIOL 312 or BIOL 370 with a grade of "C" or better.

A phylogenetic survey of green plant morphological diversity and analysis of the developmental and genetic mechanisms affecting this diversity. Emphasis in the laboratory is on documenting green plant morphological evolution, bioinformatics, and studying the developmental mechanisms driving morphological diversification.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

440L. Molecular Cell Biology Laboratory (3) F

Prerequisites: BIOL 340, BIOL 370, both with a grade of "C" or better.

Intensive course of modern laboratory techniques used in both cell and molecular biology. Topics include tissue culture, genomics, bioinformatics, proteomics, microscopy, and/or purification and functional characterization of recombinant proteins. Provides extensive laboratory experience for students.

Letter grade only (A-F). (Lecture 1 hr., laboratory 6 hrs.) Course fee may be required. Not open for credit to students with credit in BIOL 340L.

441. Physiology for Therapists II (3) F,S

Prerequisite: BIOL 341 with a grade of "C" or better.

Mechanisms of action and interaction of physiological body systems with emphasis on cardiovascular, renal, and respiratory systems. Pathological and clinical considerations will be presented.

Letter grade only (A-F). (Lecture 3 hrs.)

442./542. Physiology at the Limit (3)

Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 442; graduates enroll in BIOL 542.)

Survey of physiological adaptations of animals in conditions of extreme performance and environmental limitations. Topics include individual and evolutionary responses to high-altitude, deep-sea diving, outer space and micro-gravity, exercise, flight, swimming, and extreme temperatures. Examples from vertebrates and invertebrates.

Letter grade only (A-F). (Lecture 3 hrs.)

443./543. Endocrinology (3) F,S

Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)

Role of endocrines in vertebrate and invertebrate adjustment to changes in internal and external environment.

Letter grade only (A-F). (Lecture 3 hrs.)

444./544. Reproductive Biology (3) S

Prerequisite: BIOL 342 or BIOL 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 444; graduates enroll in BIOL 544.)

Topics in comparative reproductive biology from molecular, cellular, organismal, and population levels. Hormones and reproduction, gamete/gonad biology, reproductive lifespan, mating system/strategies, environmental influence on reproductive capabilities, contraception/*in vitro* fertilization. Scientific communication discussed including scientific articles and scientific writing.

Letter grade only (A-F). (Lecture 3 hrs.)

445./545. Metabolic Regulation (3) F

Prerequisites: BIOL 340, BIOL 342 or BIOL 345; CHEM 441A with grade of "C" or better. (Undergraduates enroll in BIOL 445; graduates enroll in BIOL 545.)

Study of molecular mechanisms by which intermediary metabolism is regulated in various mammalian tissues with emphasis on mechanisms of hormone action and regulation of some key enzymes of carbohydrate, fat, and protein metabolism.

Letter grade only (A-F). (Lecture 3 hrs.)

447. Molecular Plant Physiology (3) S

Prerequisites: BIOL 340, BIOL 370, both with grade of "C" or better.

A Writing Intensive Capstone. Molecular approaches to classical topics including water relations, plant development and photosynthesis. Weekly writing assignments and editing.

Letter grade only (A-F). (Lecture 3 hrs.)

448./548. Principles of Neurobiology (3) F,S

Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 448; graduates enroll in BIOL 548.)

Study of the principles of anatomy, physiology, and function of the nervous system. Topics covered include neuroanatomy, physiology of neuronal signaling (excitable membranes and action potentials), synaptic transmission, neurotransmitters and their receptors, pain processing, special senses, reflexes, and neural circuits.

Letter grade only (A-F). (Lecture 3 hrs.)

449./549. Fish Physiology and Endocrinology (3)

Prerequisite: BIOL 345 with grade of "C" or better. (Undergraduates enroll in BIOL 449; graduates enroll in BIOL 549.)

Fundamentals of physiological systems and strategies in fishes, with emphasis on endocrine regulatory mechanisms. Adaptations in endocrine physiology of fishes considered from evolutionary and ecological perspectives. Impacts of human activities, particularly in context of Southern California's marine environment addressed.

Letter grade only (A-F). (Lecture 3 hrs.)

450./550. Plant Ecology (3) S, even years

Prerequisites: BIOL 260, BIOL 350 with a grade of "C" or better. Recommended: BIOL 427, BIOL 447. (Undergraduates enroll in BIOL 450; graduates enroll in BIOL 550.)

Relationship of plants to their environment and principles of plant distribution.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.) Course fee may be required.

451./551. Wetlands and Mangrove Ecology (3) S, odd years

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. (Undergraduates enroll in BIOL 451; graduates enroll in BIOL 551.)

A comprehensive look at wetland ecology and management. Focuses on physical, biogeochemical, and ecological aspects of major wetland ecosystems with an emphasis on local urban wetlands. Also includes wetland management concepts and approaches worldwide.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

452./552. Behavioral Ecology (3)

Prerequisites: BIOL 312 or BIOL 350. (Undergraduates enroll in BIOL 452; graduates enroll in BIOL 552.)

Primary objectives are to understand how animal behavior affects survival and reproduction and introduce students to current methodologies to study behavior of animals in lab and field conditions. Emphasizes ecological and evolutionary consequences of behavior across taxa.

Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)

454A./554A. Research in Tropical Marine Ecology (3) S, even years

Prerequisites: BIOL 350, BIOL 353, and one 400-level marine biology major course, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 454A; graduates enroll in BIOL 554A.)

Field and laboratory studies, lectures, and individual research on tropical marine biological problems. Designed to engage students in experimental research, including: recognizing a problem, designing and carrying out a project, statistical data analysis, and oral and written report presentation.

Eight-day field trip to Hawaii required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). Course fee may be required. (Lecture 2 hrs., 8 day field trip.)

454B./554B. Research in Tropical Terrestrial Ecology (3) S, odd years

Prerequisites: BIOL 350 with a grade of "C" or better; and consent of instructor. (Undergraduates enroll in BIOL 454B; graduates enroll in BIOL 554B.)

Field-based comparison of tropical lowland deciduous forest and lowland rainforest incorporating basic ecology methodology. Forest structure and diversity of animals emphasized. Students maintain field notebook, submit final paper, and give oral presentation.

Nine-day fieldtrip to Costa Rica required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). Course fee may be required. (Lecture 2 hr., 9 day field trip.)

455./555. Ecology of Marine Communities (3) F, even years

Prerequisites: BIOL 260, BIOL 350, BIOL 353 all with a grade of "C" or better. (Undergraduates enroll in BIOL 455; graduates enroll in BIOL 555.)

Field studies on ecological principles related to marine communities discussed. Includes individual field research project and two class projects.

Letter grade only (A-F). (Lecture 2 hrs., field 3 hrs.)

456./556. Population Ecology (3) S, even years

Prerequisites: BIOL 350, MATH 119B or MATH 123 all with a grade of "C" or better. (Undergraduates enroll in BIOL 456; graduates in BIOL 556.)

Analysis of animal and plant populations characteristics: population growth and regulation, fluctuation and regulation, competition, predation, parasitism, and other intraspecific and interspecific interactions; spatial patterns.

Letter grade only (A-F). (Lecture 3 hrs.)

457./557. Field Methods in Ecology (3)

Prerequisites: BIOL 260, BIOL 350 both all with a grade of "C" or better. (Undergraduates enroll in BIOL 457; graduates in BIOL 557.)

Design of field research projects, collection, and data analysis, report writings and presentations. Field sampling techniques emphasized. Five weekend fieldtrips required.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

459./559. Conservation Biology (3) F

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or

better. Recommended: BIOL 370. (Undergraduates enroll in BIOL 459; graduates enroll in BIOL 559.)

Conservation biology concepts including population dynamics, extinction processes, population viability analyses, metapopulations, community-level interactions, island biogeography, biological diversity patterns, habitat fragmentation, reserve design, and landscape-level conservation. Lecture includes group discussions of case studies and relevant primary literature.

Letter grade only (A-F). (Lecture 3 hrs.) 20 hrs. per semester service learning for undergraduates, extra research paper for graduates.

462./562. Bioethics and Public Policy (3) S

Prerequisite: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in BIOL 462; graduates enroll in BIOL 562.)

History of bioethics, scientific and medical bases of key bioethical issues, current legislation and appropriations, including legal, social, and ethical implications of stem cell research and other biotechnological advances.

Letter grade only (A-F). (Lecture 3 hrs.)

463./563. Computer Modeling in Biology (4)

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. (Undergraduates enroll in BIOL 463; graduates enroll in BIOL 563.)

History, modeling theory, different modeling approaches, theoretical, empirical and quantitative modeling. Laboratory uses modeling software and focuses on model construction and quantitative simulation. Applicable to ecology, microbiology, physiology, environmental sciences, etc.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

464./564. Aquatic Toxicology (3)

Prerequisite: BIOL 211, BIOL 212, BIOL 213, BIOL 340; CHEM 220A or CHEM 227, all with a grade of "C" or better. Recommended: BIOL 353 and CHEM 448 or 441A,B. (Undergraduates enroll in BIOL 464; graduates enroll in BIOL 564.)

In depth study of interactions between anthropogenic chemicals and aquatic ecosystems, including origin, fate, chemical and biological detection, and quantification of pollutants and impact at molecular, biochemical, cellular, physiological, organismal, and community levels of organization. Individual research project required.

Letter grade only (A-F). (Lecture 3 hrs.)

465./565. Experimental Design and Regression Analysis (4) F, even years

Prerequisites: BIOL 260; MATH 119B or MATH 123; 6 units of upper division biological science all with a grade of "C" or better. (Undergraduates enroll in BIOL 465; graduates enroll in BIOL 565.)

Experimental design and data analysis techniques applied to problems in biology including analysis of variance and covariance, bivariate and multiple regression, experimental design, bootstrapping and randomization tests, and nonparametric statistics. Experience in analyzing biological data using computerized statistical packages.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

466. Research Design and Methods (3) S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, either BIOL 260 or CHEM 251, CHEM 220A,B and CHEM 223A,B all with a grade of "C" or better; GE Foundation requirements; a GPA of at least 3.0 in the major; and consent of the instructor. At least one unit of BIOL 496 or CHEM 496.

Corequisites: At least one unit of BIOL 496 or CHEM 496.

Introduction to hypothesis testing, experimental design, methodological and technical procedures for experimentation, grant writing, and techniques for written and oral presentation of research results. Research paper and oral presentation required.

Letter grade only (A-F). Same course as CHEM 466. Not open for credit to students with credit in BIOL 466H or CHEM 466H. (Lecture 3 hours).

467./567. Multivariate Data Analysis (4) F, odd years

Prerequisites: BIOL 260; MATH 119B or MATH 123; 6 units of upper division biological science; all with a grade of "C" or better. (Undergraduates enroll in BIOL 467; graduates enroll in BIOL 567.)

Multivariate data analysis techniques applied to biological data. Applied matrix algebra for analyzing and understanding multivariate analysis. Includes principal components analysis, factor analysis, discriminant analysis, cluster analysis and current modern phylogenetic analysis techniques. Analyzing multivariate biological data using computerized statistical packages.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

472./572. Molecular Evolution (3)

Prerequisite: BIOL 370 with a grade of "C" or better. Recommended: BIOL 312. (Undergraduates enroll in BIOL 472; graduates enroll in BIOL 572.)

Survey of molecular evolution including but not limited to the history of the field, protein and DNA evolution, neutral and nearly-neutral theory, molecular phylogenetics, molecular population genetics and DNA fingerprinting, genomics, and proteomics. Applicable to ecological, evolutionary, medical, forensic sciences.

Letter grade only (A-F). (Lecture 3 hrs.)

473./573. Molecular Genetics (3) S

Prerequisites: BIOL 370 or MICR 371; CHEM 220A,B and CHEM 223A,B, or CHEM 227, all with a grade of "C" or better. (Undergraduates enroll in BIOL 473; graduates enroll in BIOL 573.)

Contemporary molecular genetic analysis of model organisms (mouse, worm, flies, yeasts) used in study of human disease, basic biological processes, gene regulation, and global analysis of genomes and proteomes.

Letter grade only (A-F). (Lecture 3 hrs.)

474./574. Bioinformatics (3)

Prerequisites: BIOL 260; BIOL 370 or MICR 371, all with a grade of "C" or better. (Undergraduates enroll in BIOL 474; graduates enroll in BIOL 574.)

Survey of biological sequences and prokaryotic genomes. Investigation of DNA, RNA, and protein sequences using statistics and computer science techniques. Computer-based laboratory will familiarize students with bioinformatics tools and programming. Letter grade only (A-F). (Lectures 2 hrs., laboratory 3 hrs.)

477./577. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F

Prerequisite: BIOL 340 or BIOL 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in BIOL 477; graduates enroll in BIOL 577.)

Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data-mining, the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.

Letter grade only (A-F). Same course as MICR 477./577. Not open for credit to students with credit in MICR 477./577. (Lecture 3 hrs., activity 2 hrs.)

480./580. Seminars (1) F,S

Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

Weekly meetings with professional biologists presenting results of their research. Requires participation in organization and critical evaluation of these presentations.

(Seminar 1 hr.) Letter grade only (A-F). May not be repeated for credit towards any single degree.

490./590. Selected Topics in Biology (1-3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490; graduates enroll in BIOL 590.)

Topics from selected areas of biology. Course content varies from section to section.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (Lecture 1-3 hrs.)

490L./590L. Selected Topics in Biology, Laboratory (1-2)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490L; graduates enroll in BIOL 590L.)

Topics from selected areas of biology. Course content varies from section to section.

Letter grade only (A-F). May be repeated to a maximum of 4 units with different topics. Topics announced in the *Schedule of Classes*. (Laboratory 3 or 6 hrs.)

492A./592A. Stem Cell Research Internship (12) F,S

Prerequisites: BIOL 432/532, BIOL 432L/532L, BIOL 440L, BIOL 462/562, BIOL 473/573, BIOL 477/577, all with a grade of "C" or better, and permission of the director of the CSULB Biotechnology Certificate Program, and acceptance in the Stem Cell Training Option within the Biotechnology Certificate. (Undergraduates enroll in BIOL 492A; graduates enroll in BIOL 592A.)

CIRM-approved institutions train interns in their stem cell research laboratories.

Must be repeated once for credit. Credit/No Credit grading only. (Laboratory 36 hrs.)

495. Instruction in Laboratory Teaching (1-2) F,S

Prerequisites: Consent of instructor, an "A" in the course in which the student elects to do MICR 495 (another course with laboratory may be substituted with consent of instructor), and an overall GPA of at least 3.0.

Individual instruction in organization and techniques of teaching a microbiology laboratory.

May be repeated to a maximum of 2 units in different semesters. Any units beyond the two taken for a letter grade in BIOL 495 or MICR 495 or any combination of the two will be taken credit/no credit. Same course as MICR 495. Not open for credit to students with credit in MICR 495. (Conference 1 hr., laboratory 3 hrs. per unit.)

496. Undergraduate Directed Research (1-3) F,S

Prerequisites: BIOL 211, 212; one of BIOL 213, MICR 211, BIOL 296 or MICR 296; consent of instructor; and consent of appropriate undergraduate advisor.

Research in a specific topic in biological sciences approved and directed by a faculty member in Department of Biological Sciences.

May be repeated for a letter grade and degree credit to a maximum of three units for any single degree or option. Units beyond the three taken for a letter grade in MICR 496 or BIOL 496, or any combination of the two, will be taken credit/no credit. Same course as MICR 496. Not open for credit to student with credit in MICR 496. Students may only have a total of 3 units of BIOL 496 and MICR 496 combined. Not available to graduate students.

GRADUATE LEVEL

511./411. Marine Mammalogy (3) S, odd years

Prerequisites: BIOL 345, BIOL 350, and BIOL 353, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 411; graduates enroll in BIOL 511.)

Fundamental biological, ecological, and physiological concepts of marine mammals, including cetaceans, pinnipeds, walrus, sirenians, and polar bears. Information concerning taxonomy, distribution, morphology, physiology, reproduction, and feeding through readings and scientific literature. Fieldtrips may include weekends and spring recess.

Letter grade only (A-F). (Lecture 2 hrs., lab and fieldtrips 3 hrs.)

515./415. Marine Microbiology (3) F, odd years

Prerequisites: BIOL 353 or MICR 355 or BIOL 355 with a grade of "C" or better. (Undergraduates enroll in BIOL 415; graduates enroll in BIOL 515.)

Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biogeochemistry and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.

Letter grade only (A-F). Course fee may be required. Same course as MICR 515. Not open for credit to students with credit in MICR 515. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

516./416. Virology (3) F,S

Prerequisites: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in BIOL 416; graduates enroll in BIOL 516.)

Virology at molecular level including viral replication and molecular basis for viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.

Letter grade only (A-F). Same course as MICR 516. Not open for credit to students with credit in MICR 516. (Lecture 3 hrs.)

520./420. Fisheries Ecology and Conservation (3) F

Prerequisites: BIOL 260, BIOL 350, BIOL 353, and BIOL 419, all with grade of "C" or better. (Undergraduates enroll in BIOL 420; graduates enroll in BIOL 520.)

Advanced aspects of fish and invertebrate biology and behavior; fisheries economics and conservation; emphasis on state-of-art field/laboratory techniques and contemporary concepts and their application in fishery management.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

524./424. Ornithology (3) S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 260 and 3 units of upper division BIOL, all with a grade of "C" or better. Recommended: BIOL 350. (Undergraduates enroll in BIOL 424; graduates enroll in BIOL 524.)

Ecology, morphology, physiology, behavior, and taxonomy of birds from an evolutionary perspective, also factors influencing recent increase in their extinction risk. Species identification techniques (emphasis on the local avifauna) and methods of surveying avian populations.

Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)
Course fee may be required.

531./431. Biology of Cancer (3) F,S

Prerequisites: BIOL 340, BIOL 370 with a grade of "C" or better. (Undergraduates enroll in BIOL 431, graduates enroll in BIOL 531.)

An examination of cancer, tumor progression, and treatment at the cellular, molecular, and genetic levels.

Letter grade only (A-F). (Lecture 3 hrs.)

532./432. Stem Cell Biology (3) S

Prerequisites: BIOL 433 or BIOL 533 with a grade of "C" or better. (Undergraduates enroll in BIOL 432; graduates enroll in BIOL 532.)

Current literature on advances in stem cell research, translational research, and clinical applications of stem cells to alleviate human disease.

Letter grade only (A-F). (Lecture 3 hrs.)

532L./432L. Advanced Stem Cell Laboratory (4) SS

Prerequisites: BIOL 432/532, BIOL 440L, BIOL 462/562, BIOL 473/573, BIOL 477/577, all with a grade of "C" or better, and permission of the director of the CSULB Biotechnology Certificate Program. (Undergraduates enroll in BIOL 432L; graduates enroll in BIOL 532L.)

Intensive laboratory, offered during a 6-week summer session. Students learn basic and advanced stem cell culture techniques. The sixth week is 40 hours at the Children's Hospital of Orange County Research Institute (CHOC).

Letter grade only (A-F). (Lecture 1 hr., laboratory 9 hrs.)

533./433. Developmental Biology (3) F,S

Prerequisites: BIOL 340, and either BIOL 370 or MICR 371, both with a grade of "C" or better. (Undergraduates enroll in BIOL 433; graduates enroll in BIOL 533.)

Experimental approaches to development in model organisms, mostly animal, at the molecular, genetic, cellular, and tissue levels. Topics include gametogenesis, fertilization, early cleavage, gastrulation, pattern formation, and organogenesis.

Letter grade only (A-F). (Lecture/discussion 3 hrs.)

540. Advanced Molecular Cell Biology and Physiology (3) F

Prerequisites: Graduate standing and consent of instructor.

In depth discussion of cellular processes and their regulation and how they relate to organismal physiology. Includes critical reading and discussion of primary journal articles on pertinent topics.

Letter grade only (A-F). (Lecture 3 hrs.)

542./442. Physiology at the Limit (3)

Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 442; graduates enroll in BIOL 542.)

Survey of physiological adaptations of animals in conditions of extreme performance and environmental limitations. Topics include individual and evolutionary responses to high-altitude, deep-sea diving, outer space and micro-gravity, exercise, flight, swimming, and extreme temperatures. Examples from vertebrates and invertebrates.

Letter grade only (A-F). (Lecture 3 hrs.)

543./443. Endocrinology (3) F,S

Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)

Role of endocrines in vertebrate and invertebrate adjustment to changes in internal and external environment.

Letter grade only (A-F). (Lecture 3 hrs.)

544./444. Reproductive Biology (3) S

Prerequisites: BIOL 342 or BIOL 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 444; graduates enroll in BIOL 544.)

Topics in comparative reproductive biology from molecular, cellular, organismal, and population levels. Hormones and reproduction, gamete/gonad biology, reproductive lifespan, mating system/strategies, environmental influence on reproductive capabilities, contraception/*in vitro* fertilization. Scientific communication discussed including scientific articles and scientific writing.

Letter grade only (A-F). (Lecture 3 hrs.)

545./445. Metabolic Regulation (3) F

Prerequisites: BIOL 340, BIOL 342 or BIOL 345; CHEM 441A with grade of "C" or better. (Undergraduates enroll in BIOL 445; graduates enroll in BIOL 545.)

Study of molecular mechanisms by which intermediary metabolism is regulated in various mammalian tissues with emphasis on mechanisms of hormone action and regulation of some key enzymes of carbohydrate, fat, and protein metabolism.

Letter grade only (A-F). (Lecture 3 hrs.)

548./448. Principles of Neurobiology (3) F,S

Prerequisites: BIOL 340; BIOL 342 or BIOL 345, all with a grade of "C" or better. (Undergraduates enroll in BIOL 448; graduates enroll in BIOL 548.)

Study of the principles of anatomy, physiology, and function of the nervous system. Topics covered include neuroanatomy, physiology of neuronal signaling (excitable membranes and action potentials), synaptic transmission, neurotransmitters and their receptors, pain processing, special senses, reflexes, and neural circuits.

Letter grade only (A-F). (Lecture 3 hrs.)

549./449. Fish Physiology and Endocrinology (3)

Prerequisite: BIOL 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 449; graduates enroll in BIOL 549.)

Fundamentals of physiological systems and strategies in fishes, with emphasis on endocrine regulatory mechanisms. Adaptations in endocrine physiology of fishes considered from evolutionary and ecological perspectives. Impacts of human activities, particularly in context of Southern California's marine environment addressed.

Letter grade only (A-F). (Lecture 3 hrs.)

550./450. Plant Ecology (3) S, even years

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. Recommended: BIOL 427, BIOL 447. (Undergraduates enroll in BIOL 450; graduates enroll in BIOL 550.)

Relationship of plants to their environment and principles of plant distribution.

Letter grade only (A-F) (Lecture 2 hrs., laboratory and field 3 hrs.)
Course fee may be required.

551./451. Wetlands and Mangrove Ecology (3) S, odd years

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. (Undergraduates enroll in BIOL 451; graduates enroll in BIOL 551.)

Comprehensive look at wetland ecology and management. Focuses on physical, biogeochemical, and ecological aspects of major wetland ecosystems with an emphasis on local urban wetlands. Includes wetland management concepts and approaches worldwide.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

552./452. Behavioral Ecology (3)

Prerequisites: BIOL 312 or BIOL 350. (Undergraduates enroll in BIOL 452; graduates enroll in BIOL 552)

Primary objectives are to understand how animal behavior affects survival and reproduction and introduce students to current methodologies to study behavior of animals in lab and field conditions. Emphasizes ecological and evolutionary consequences of behavior across taxa.

Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)

554A./454A. Research in Tropical Marine Ecology (3) S, even years

Prerequisites: BIOL 350, BIOL 353, and one 400-level marine biology major course, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 454A; graduates enroll in BIOL 554A.)

Field and laboratory studies, lectures, and individual research on tropical marine biological problems. Designed to engage students in

experimental research, including: recognizing a problem, designing and carrying out a project, statistical data analysis, and oral and written report presentation.

Eight-day field trip to Hawaii required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). Course fee may be required. (Lecture 2 hrs., 8 day field trip.)

554B./454B. Research in Tropical Terrestrial Ecology (3) S, odd years

Prerequisites: BIOL 350 with a grade of "C" or better; and consent of instructor. (Undergraduates enroll in BIOL 454B; graduates enroll in BIOL 554B.)

Field-based comparison of tropical lowland deciduous forest and lowland rainforest incorporating basic ecology methodology. Forest structure and diversity of animals emphasized. Students maintain field notebook, submit final paper, and give oral presentation.

Nine-day fieldtrip to Costa Rica required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). Course fee may be required. (Lecture 2 hr., 9 day field trip.)

555./455. Ecology of Marine Communities (3) F, even years

Prerequisites: BIOL 260, BIOL 350, BIOL 353 all with a grade of "C" or better. (Undergraduates enroll in BIOL 455; graduates enroll in BIOL 555.)

Field studies on ecological principles related to marine communities discussed. Includes individual field research project and two class projects.

Letter grade only (A-F). (Lecture 2 hrs., field 3 hrs.)

556./456. Population Ecology (3)

Prerequisites: BIOL 350; MATH 119B or MATH 123; all with a grade of "C" or better. (Undergraduates enroll in BIOL 456; graduates enroll in BIOL 556.)

Analysis of animal and plant populations characteristics: population growth and regulation, fluctuation and regulation, competition, predation, parasitism, and other intraspecific and interspecific interactions; spatial patterns.

Letter grade only (A-F). (Lecture 3 hrs.)

557./457. Field Methods in Ecology (3)

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. (Undergraduates enroll in BIOL 457; graduates enroll in BIOL 557.)

Design of field research projects, collection, and data analysis, report writings and presentations. Field sampling techniques emphasized. Five weekend fieldtrips required.

Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

559./459. Conservation Biology (3) F

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. Recommended: BIOL 370. (Undergraduates enroll in BIOL 459; graduates enroll in BIOL 559.)

Conservation biology concepts including population dynamics, extinction processes, population viability analyses, metapopulations, community-level interactions, island biogeography, biological diversity patterns, habitat fragmentation, reserve design, and landscape-level conservation. Lecture includes group discussions of case studies and relevant primary literature.

Letter grade only (A-F). (Lecture 3 hrs.) 20 hrs. per semester service learning for undergraduates, extra research paper for graduates.

562./462. Bioethics and Public Policy (3) S

Prerequisites: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in BIOL 462; graduates enroll in BIOL 562.)

History of bioethics, scientific and medical bases of key bioethical issues, current legislation and appropriations, including legal, social, and ethical implications of stem cell research and other biotechnological advances.

Letter grade only (A-F). (Lecture 3 hrs.)

563./463. Computer Modelling in Biology (4)

Prerequisites: BIOL 260, BIOL 350 both with a grade of "C" or better. (Undergraduates enroll in BIOL 463; graduates enroll in BIOL 563.)

History, modeling theory, different modeling approaches, theoretical, empirical and quantitative modeling. Laboratory uses modeling software and focuses on model construction and quantitative simulation. Applicable to ecology, microbiology, physiology, environmental sciences, etc.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

564./464. Aquatic Toxicology (3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213, BIOL 340; CHEM 220A or CHEM 227, all with a grade of "C" or better

Recommended: BIOL 353 and CHEM 448 or 441A,B. (Undergraduates enroll in BIOL 464; graduates enroll in BIOL 564.)

In depth study of interactions between anthropogenic chemicals and aquatic ecosystems, including origin, fate, chemical and biological detection, and quantification of pollutants and impact at molecular, biochemical, cellular, physiological, organismal, and community levels of organization. Individual research project required.

Letter grade only (A-F). (Lecture 3 hrs.)

565./465. Experimental Design and Regression Analysis (4) F, even years

Prerequisites: BIOL 260; MATH 119B or MATH 123; 6 units of upper division biological science all with a grade of "C" or better. (Undergraduates enroll in BIOL 465; graduates enroll in BIOL 565.)

Experimental design and data analysis techniques applied to problems in biology including analysis of variance and covariance, bivariate and multiple regression, experimental design, bootstrapping and randomization tests, and nonparametric statistics. Experience in analyzing biological data using computerized statistical packages.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

567./467. Multivariate Data Analysis (4) F, odd years

Prerequisites: BIOL 260; MATH 119B or MATH 123; 6 units of upper division biological science all with a grade of "C" or better. (Undergraduates enroll in BIOL 467; graduates enroll in BIOL 567.)

Multivariate data analysis techniques applied to biological data. Applied matrix algebra for analyzing and understanding multivariate analysis. Includes principal components analysis, factor analysis, discriminant analysis, cluster analysis and current modern phylogenetic analysis techniques. Analyzing multivariate biological data using computerized statistical packages.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

570. Advanced Genetics (3) S

Prerequisites: Graduate standing and consent of instructor.

In depth discussion of various advanced topics in genetics, which may include population genetics, molecular phylogeny, and microbial genetics. Includes critical reading and discussion of primary journal articles on pertinent topics.

Letter grade only (A-F). (Lecture 3 hrs.)

572./472. Molecular Evolution (3)

Prerequisite: BIOL 370 with a grade of "C" or better. Recommended: BIOL 312. (Undergraduates enroll in BIOL 472; graduates enroll in BIOL 572.)

Survey of molecular evolution including but not limited to the history of the field, protein and DNA evolution, neutral and nearly-neutral theory, molecular phylogenetics, molecular population genetics and DNA fingerprinting, genomics, and proteomics. Applicable to ecological, evolutionary, medical, forensic sciences.

Letter grade only (A-F). (Lecture 3 hrs.)

573./473. Molecular Genetics (3) S

Prerequisites: BIOL 370 or MICR 371; CHEM 220A,B and CHEM 223A,B, or CHEM 227, all with a grade of "C" or better. (Undergraduates enroll in BIOL 473; graduates enroll in BIOL 573.)

Contemporary molecular genetic analysis of model organisms (mouse, worm, flies, yeasts) used in study of human disease, basic biological processes, gene regulation, and global analysis of genomes and proteomes.

Letter grade only (A-F). (Lecture 3 hrs.)

574./474. Bioinformatics (3)

Prerequisites: BIOL 260; BIOL 370 or MICR 371, all with a grade of "C" or better. (Undergraduates enroll in BIOL 474; graduates enroll in BIOL 574.)

Survey of biological sequences and prokaryotic genomes. Investigation of DNA, RNA, and protein sequences using statistics and computer science techniques. Computer-based laboratory will familiarize students with bioinformatics tools and programming. Letter grade only (A-F). (Lectures 2 hrs., laboratory 3 hrs.)

577./477. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F

Prerequisite: BIOL 340 or BIOL 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in BIOL 477; graduates enroll in BIOL 577.)

Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data-mining, the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.

Letter grade only (A-F). Same course as MICR 577/477. Not open for credit to student with credit in MICR 577/477. (Lecture 3 hrs., activity 2 hrs.)

580./480. Seminars (1) F,S

Prerequisites: Consent of Department of Biological Sciences. (Undergraduates and classified post-baccalaureates enroll in BIOL 480; graduates enroll in BIOL 580). Undergraduates must have filed for graduation and be in their last semester. Graduates must have been admitted to the department as a graduate student. Classified post-baccalaureates must have been admitted to a second baccalaureate or a certificate.

Weekly meetings with professional biologists presenting results of their research. Requires participation in organization and critical evaluation of these presentations.

(Seminar 1 hr.) Letter grade only (A-F). May not be repeated for credit towards any single degree.

590./490. Selected Topics in Biology (1-3)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490; graduates enroll in BIOL 590.)

Topics from selected areas of biology. Course content varies from section to section.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (Lecture 1-3 hrs.)

590L./490L. Selected Topics in Biology, Laboratory (1-2)

Prerequisites: BIOL 211, BIOL 212, BIOL 213 all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490L; graduates enroll in BIOL 590L.)

Topics from selected areas of biology. Course content varies from section to section.

Letter grade only (A-F). May be repeated to a maximum of 4 units with different topics. Topics announced in the *Schedule of Classes*. (Laboratory 3 or 6 hrs.)

592A./492A. Stem Cell Research Internship (12) F,S

Prerequisites: BIOL 432/532, BIOL 432L/532L, BIOL 440L, BIOL 462/562, BIOL 473/573, BIOL 477/577, all with a grade of "C" or better, and consent of the director of the CSULB Biotechnology Certificate Program, and acceptance in the Stem Cell Training Option within the Biotechnology Certificate. (Undergraduates enroll in BIOL 492A; graduates enroll in BIOL 592A.)

CIRM-approved institutions train interns in their stem cell research laboratories. Must be repeated once for credit.

Credit/No Credit grading only. (Laboratory 36 hrs.)

663. Seminar in Cell and Molecular Biology (2)

Critical evaluation of field's primary literature, including oral and/or written presentation of critiques.

May be repeated to a maximum of 4 units with different topics.

Letter grade only (A-F) (Seminar 2 hrs.)

664. Seminar in Marine Biology (2)

Critical evaluation of field's primary literature, including oral and/or written presentation of critiques.

May be repeated to a maximum of 4 units with different topics.

Letter grade only (A-F) (Seminar 2 hrs.)

665. Seminar in Ecology (2)

Critical evaluation of field's primary literature, including oral and/or written presentation of critiques.

May be repeated to a maximum of 4 units with different topics.

Letter grade only (A-F) (Seminar 2 hrs.)

666. Seminar in Physiology (2)

Critical evaluation of field's primary literature, including oral and/or written presentation of critiques.

May be repeated to a maximum of 4 units with different topics.

Letter grade only (A-F) (Seminar 2 hrs.)

696A. Research Design (2)

Prerequisites: Graduate standing in the Department of Biological Sciences and departmental permission.

Research design, statistics, literature searches, and thesis proposal writing, utilizing tools to initiate research projects. Laboratory utilizes computers for literature searches, sample size determination, data processing, statistical analyses, and bioinformatics. Required for all first/second semester graduate students.

Letter grade only (A-F). (Lecture 1 hr., laboratory 3 hrs.)

696B. Scientific Communication (2)

Prerequisite: BIOL 696A with a grade of "B" or better.

Presentation/publication skills for communicating biological research to professional and lay audiences: scientific writing, data presentation (posters and oral).

Letter grade only (A-F). (Lecture 1 hr., laboratory 3 hrs.) Course fee may be required.

697. Directed Research (1-3) F,S

Prerequisite: Consent of instructor.

Research on specific topic approved and directed by a faculty member in the biological sciences. Written report required.

May be repeated for a letter grade and degree credit to a maximum of three units. Any units beyond the three taken for a letter grade in BIOL 697 or MICR 697 or any combination of the two must be taken credit/no credit.

698. Thesis (1-6) F,S

Prerequisites: Advancement to Candidacy for the Master of Science in Biology, and consent of the chair of the thesis committee and the departmental graduate advisor.

Planning, preparation, writing, defense, oral presentation, and completion of a research thesis in the biological sciences.

Letter grade only (A-F).

Students pursuing a major and/or a minor in this department may receive unit credit for courses marked with the symbol '##' as a general elective but may not apply the units toward the specific or elective requirements for any degree or option in this department. Majors in this Department may, however take for general education purposes, interdisciplinary courses offered by this department. All other courses in this department are open to majors and minors but by letter grade only.

Microbiology Courses (MICR)

LOWER DIVISION

101. ## Introduction to Human Disease (3) F, S

Prerequisite/Corequisite: Course that fulfills the A.1 GE requirement.

Introduction to the study of human disease including moral/ethical and economic issues.

(Lecture 3 hrs.)

200. General Microbiology for Health Professionals (4) F, S

Prerequisites: CHEM 111A or CHEM 140 with a grade of "C" or better and GE Foundation requirements.

Microbiology for those planning careers in nursing, health care and education, and foods and nutrition. Introduction to microorganisms, including structure, function, metabolism, growth, genetics, diversity, and applied aspects. Special emphasis on human health.

Not open for credit to majors in the biological sciences. (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

211. General Microbiology (5) F,S

Prerequisites: BIOL 211, BIOL 212; CHEM 111B, all with a grade of "C" or better.

Introduction to biology of microorganisms, including structure, function, metabolism, growth, genetics, diversity, host-parasite relationships, and applied aspects.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

296. Introduction to Undergraduate Directed Research (1) F,S

Prerequisite: Consent of instructor.

Introduction to research in microbiology approved and directed by a faculty member in the Department of Biological Sciences. Designed primarily to introduce lower division students to research before taking MICR/BIOL 496.

May be repeated to a maximum of 3 units in different semesters. Students who have completed one or more units of MICR/BIOL 496 may not enroll in this course. Credit/No Credit grading only. (Conference 1 hr., laboratory 3 hrs.) Same course as BIOL 296.

UPPER DIVISION

300. ## Human Immunology: In Self-Defense (3) F

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing; one laboratory course in a life science. Introductory psychology and a laboratory course in a physical science recommended.

Mechanisms and cells responsible for protecting human body from disease. Normal functions of immune system, diseases involving immune system, and psychological, endocrine and age factors affecting immune system included. Impact of immunology or organ transplantation, immunotherapy, and biotechnology discussed.

Not applicable for credit toward the major in Microbiology. (Lecture 3 hrs.)

320. Bacterial Pathogenesis (3) F,S

Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 320L.

Nature of host-pathogen interactions in health and disease. Emphasis upon pathogenic bacteria of humans and animals; topics include bacterial ultrastructure, epidemiology, and mechanisms of pathogenesis, host defense mechanisms, and antibiotic therapy.

Letter grade only (A-F). (Lecture 3 hrs)

320L. Bacterial Pathogenesis Laboratory (2) F,S

Prerequisite: MICR 211 or BIOL 212, with a grade of "C" or better.

Diagnosis of bacterial infections and experimental examination of bacterial pathogenic mechanisms and host defenses using classical and modern techniques including immunofluorescence microscopy, enzyme immunoassay, flow cytometry, mammalian cell culture, phagocytosis, and phagocytic killing assay.

Letter grade only (A-F). (Laboratory 6 hrs) Course fee may be required.

322. Mycology/Parasitology (5) F,S

Prerequisites: BIOL 211, BIOL 212; MICR 320, all with a grade of "C" or better.

Second of a two-semester sequence (MICR 320/322) in medical microbiology for majors. Survey of parasitic protozoa, helminthes, and fungi of humans; emphasis on identification of fresh and preserved specimens, pathogenesis, host-parasite interactions, epidemiology, prevention, and control.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

325. Emerging Infectious Diseases (3)

Prerequisites: MICR 211 with a grade of "C" or better and consent of instructor.

Explores changes in technology, infectious disease organisms and other factors contributing to emerging and re-emerging infectious diseases, including immunodeficiency, antibiotic and insecticide abuses, climate change, travel and commerce, human demographic and behavioral changes, land use, and breakdown of public health.

Letter grade only (A-F). (Lecture 3 hrs.)

355. Microbial Ecology (3) S

Prerequisites: MICR 211 or BIOL 211, BIOL 212, BIOL 213; BIOL 260, all with a grade of "C" or better.

Explores relationships of microorganisms to their environment. Emphasis placed on ecological basis for diversity of prokaryotic forms, metabolic functions and community interactions.

Letter grade only (A-F). Same course as BIOL 355. Not open for credit to students with credit in BIOL 355. (Lecture 3 hrs.)

355L. Microbial Ecology Laboratory (1) S

Prerequisites/Corequisites: BIOL 355 or MICR 355.

Provides an understanding of microbes in the environment. Sample and analyze microbes from field trips to different habitats. Analytical techniques learned include enrichment culture methods and modern molecular biology methods to study the diversity and community dynamics of microbes.

Letter grade only (A-F). Course fee may be required. Same course as BIOL 355L. Not open for credit to students with credit in BIOL 355L. (Laboratory 3 hrs.)

371. Microbial Genetics (3) F

Prerequisite: MICR 211 with a grade of "C" or better.

Genetic analysis of biological processes in microbes. Includes gene structure, regulation, and function; isolation/analysis of mutations in haploid/diploid organisms; gene function from mutants; genetic exchange; regulation of host-pathogen interactions; bacteriophages; cloned genes; and genomics.

Letter grade only (A-F). (Lecture 3 hrs.)

372. Methods in Microbial Genetics (2) F

Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 371.

Laboratory study of microbial genetics, using classical (non-molecular) and contemporary (molecular) approaches. Includes genetic engineering techniques; microbial genomics.

Not open for credit to students with credit in MICR 451. Letter grade only (A-F). (Laboratory 6 hrs.) Course fee may be required.

415./515. Marine Microbiology (3) F, odd years

Prerequisites: MICR 355 or BIOL 355 or BIOL 353 with a grade of "C" or better. (Undergraduates enroll in MICR 415; graduates enroll in MICR 515.)

Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biogeochemistry, and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.

Letter grade only (A-F). Course fee may be required. Same course as BIOL 415. Not open for credit to students with credit in BIOL 415. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

416./516. Virology (3) F,S

Prerequisites: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 416; graduates enroll in MICR 516.)

Virology at molecular level including viral replication and molecular basis for viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.

Letter grade only (A-F). Same course as BIOL 416. Not open for credit to students with credit in BIOL 416. (Lecture 3 hrs.)

423./523. Hematology (4) F

Prerequisite: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 423; graduates enroll in MICR 523.)

Study of blood and coagulation system. Normal cell structure and function and physiological and morphological changes in inflammation, leukemias, and anemias discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case-studies included.

Useful for students interested in medical professions. Required for clinical laboratory science (medical technology) internship. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

429./529. Epidemiology of Infectious Diseases (3)

Prerequisites: BIOL 260; MICR 320, MICR 322; all of a grade of "C" or better. (Undergraduates enroll in MICR 429; graduates enroll in MICR 529.)

Principles of epidemiology and application to health; fundamentals of biomedical statistics; basic factors in classic epidemiological studies and prevention and control of infectious diseases.

Letter grade only (A-F). (Lecture 3 hrs.)

430. Immunology (3) F,S

Prerequisite: BIOL 340 with a grade of "C" or better.

Study of cellular and molecular components of immune system, including how immune system recognizes pathogens, how it functions in various types of immune responses, mechanisms of vaccines, immunodeficiencies, transplantation, allergy, and autoimmunity.

Letter grade only (A-F). Same course as BIOL 430. Not open for credit to students with credit in BIOL 430. (Lecture 3 hrs.)

471./571. Bacterial Physiology (3) S

Prerequisites: MICR 320, CHEM 441A; both with a grade of "C" or better. (Undergraduates enroll in MICR 471; graduates enroll in MICR 571.)

Cellular physiology at molecular level as related to bacterial growth, reproduction, nutrition, metabolism, and ecology.

Letter grade only (A-F). (Lecture 3 hrs.)

477./577. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F

Prerequisites: BIOL 340 or BIOL 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in MICR 477; graduates enroll in MICR 577.)

Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data-mining, the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.

Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

490./590. Selected Topics in Microbiology (1-3)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates enroll in MICR 490; graduates enroll in MICR 590.)

Topics from selected areas of microbiology.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (Lecture 1-3 hrs.)

495. Instruction in Laboratory Teaching (1-2) F,S

Prerequisites: Consent of instructor, an "A" in the course in which the student elects to do MICR 495 (another course with laboratory may be substituted with consent of instructor), and an overall GPA of at least 3.0.

Individual instruction in organization and techniques of teaching a microbiology laboratory.

May be repeated to a maximum of 2 units in different semesters. Any units beyond the two taken for a letter grade in BIOL 495 or MICR 495 or any combination of the two will be taken credit/no credit. Same course as BIOL 495. Not open for credit to students with credit in BIOL 495. (Conference 1 hr., laboratory 3 hrs. per unit.)

496. Undergraduate Directed Research (1-3) F,S

Prerequisites: BIOL 211, BIOL 212; one of BIOL 213, MICR 211, BIOL 296 or MICR 296; consent of instructor; and consent of appropriate undergraduate advisor.

Research in a specific topic in biological sciences approved and directed by a faculty member in Department of Biological Sciences.

May be repeated for a letter grade and degree credit to a maximum of three units for any single degree or option. Units beyond the three taken for a letter grade in MICR 496 or BIOL 496, or any combination of the two, will be taken credit/no credit. Same course as BIOL 496. Not open for credit to student with credit in BIOL 496. Students may only have a total of 3 units of BIOL 496 and MICR 496 combined. Not available to graduate students.

GRADUATE LEVEL

515./415. Marine Microbiology (3) F, odd years

Prerequisites: MICR 355 or BIOL 355 or BIOL 353 with a grade of "C" or better. (Undergraduates enroll in MICR 415; graduates enroll in MICR 515.)

Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biogeochemistry, and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.

Letter grade only (A-F). Course fee may be required. Same course as BIOL 515. Not open for credit to student with credit in BIOL 515. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

516./416. Virology (3) F,S

Prerequisites: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 416; graduates enroll in MICR 516.)

Virology at molecular level including viral replication and molecular basis for viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.

Letter grade only (A-F). Same course as BIOL 516. Not open for credit to students with credit in BIOL 516. (Lecture 3 hrs.)

523./423. Hematology (4) F

Prerequisite: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 423; graduates enroll in MICR 523.)

Study of blood and coagulation system. Normal cell structure and function and physiological and morphological changes in inflammation, leukemias, and anemias discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case-studies included.

Useful for students interested in medical professions. Required for clinical laboratory science (medical technology) internship. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

529./429. Epidemiology of Infectious Diseases (3)

Prerequisites: BIOL 260; MICR 320, MICR 322; all of a grade of "C" or better. (Undergraduates enroll in MICR 429; graduates enroll in MICR 529.)

Principles of epidemiology and application to health; fundamentals of biomedical statistics; basic factors in classic epidemiological studies and prevention and control of infectious diseases.

Letter grade only (A-F). (Lecture 3 hrs.)

571./471. Bacterial Physiology (3)

Prerequisites: MICR 320, CHEM 441A; both with a grade of "C" or better. (Undergraduates enroll in MICR 471; graduates enroll in MICR 571.)

Cellular physiology at molecular level as related to bacterial growth, reproduction, nutrition, metabolism, and ecology.

Letter grade only (A-F). (Lecture 3 hrs.)

577./477. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F

Prerequisite: BIOL 340 or BIOL 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in MICR 477; graduates enroll in MICR 577.)

Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data-mining, the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.

Letter grade only (A-F). Same course as BIOL 577. Not open for credit to students with credit in BIOL 577. (Lecture 3 hrs., activity 2 hrs.)

590./490. Selected Topics in Microbiology (1-3)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates enroll in MICR 490; graduates enroll in MICR 590.)

Topics from selected areas of microbiology.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (Lecture 1-3 hrs.)

661. Seminar in Microbiology (2)

Prerequisite: Consent of instructor.

Critical evaluation of literature in this field, including oral and/or written presentation of critiques.

May be repeated to a maximum of 4 units with different topics. Letter grade only (A-F). (Seminar 2 hours)

697. Directed Research (1-3) F,S

Prerequisite: Consent of instructor.

Research on specific topic approved and directed by faculty member in the biological sciences. Written report required.

May be repeated for a letter grade and degree credit to a maximum of 3 units. Any units beyond the 3 units taken for a letter grade in BIOL 697 or MICR 697 or any combination of the two must be taken credit/no credit.

698. Thesis (1-6) F,S

Prerequisites: Advancement to Candidacy for the Master of Science in Microbiology, consent of the chair of the thesis committee and the departmental graduate advisor.

Planning, preparation, writing, defense, oral presentation, and completion of a research thesis in the biological sciences.

Letter grade only (A-F).

BUSINESS ADMINISTRATION, COLLEGE OF

Dean: Michael E. Solt

Executive Assistant to the Dean: Margaret Williams
(562) 985-5307

Associate Dean for Administration: Omer S. Benli

Associate Dean for Accreditation: Robert Chi

College Office: College of Business Administration - 200

Telephone: (562) 985-5306, FAX: (562) 985-5742

Website: www.csulb.edu/colleges/cba/

Student Services: Jaime A. Varela, Student Life Coordinator (562) 985-5297

Graduate Programs and Executive Education:

Ingrid Martin, Director (562) 985-4767

Departments

Accountancy: Sudha Krishnan, Chair (562) 985-4653

Finance: Jasmine Yur-Austin, Chair (562) 985-4569

Information Systems: (562) 985-4993

International Business Program: Terrence H. Witkowski, Director (562) 985-4766

Legal Studies in Business Program: Kathleen A. Lacey, Director (562) 985-5668

Management and Human Resource Management:
Judy Strauss, Chair (562) 985-4753

Marketing: Sam Min (562) 985-4769

Programs at a Glance

Bachelor of Science in Business Administration

Options in: Accountancy; Finance; Human Resources Management; International Business; Management; Management Information Systems; Marketing; Operations and Supply Chain Management

Minors in Business Administration

Finance, Management Information Systems, International Business, Human Resource Management, Marketing, Entrepreneurship

Master of Business Administration

Specializations in: Consumer Affairs, Fashion Merchandising and Design, Finance, Health Care Management, Health Science, Hospitality Management, Human Resource Management, Information Systems, Management, Marketing, Recreation and Leisure Studies

Master of Science

Accountancy, Supply Chain Management

Accreditation

Undergraduate and graduate programs are internationally accredited by the Association to Advance Collegiate Schools of Business (AACSB International), 777 South Harbour Island Blvd., Suite 750, Tampa, FL 33602-5730, phone: (813) 769-6500.

Academic Advising

The College of Business Administration maintains an advising office for undergraduate students in CBA 100, (562) 985-4514, and an office for graduate students in CBA 363, (562) 985-5565. Advisors are available in these offices

throughout the semester to assist students with admission, registration, and degree requirement information.

Student Center for Professional Development

The Student Center for Professional Development (SCPD) provides resources in support of student learning under its umbrella program Passport to Success (Passport). SCPD also encourages students to join business student organizations to assist them in connecting to college resources and networking opportunities. Under the Passport umbrella SCPD offers the following resources:

Professional development workshops provide a progression of learning experiences that teach students non-academic skills and attributes employers want to see in new employees.

Community Scholars is a community service program that pairs CBA students with Jordan High School sophomores and juniors in a mentoring relationship that encourages academic success and pursuit of a college education. CBA students make a positive impact on the high school students' lives while performing a community service that employers highly value in a prospective employee.

Junior Mentoring Program is a one-semester program where junior CBA students are paired with young professionals in a mentoring relationship. Mentors help students prepare for their college careers, sharing their skills, knowledge and advice on how to balance college, work and personal life. Focus is given to resume building and professional development activities that will better prepare the students for the job market and complement their academic learning experience.

Corporate Mentoring Program pairs mentors from the corporate world with individual students in a year-long one-on-one relationship. The mentors coach and guide the students, help them with decision making and manage their expectations for life after graduation. Students must complete certain prerequisites to participate in CMP.

For more information about SCPD programs, services and resources please contact SCPD at (562) 985-2265 or www.csulb.edu/cba/scpd or scpd@csulb.edu.

Financial Assistance

Financial assistance is provided to business students through the University Financial Aid Office. That office administers funds made available through the federal and state governments and through certain private sources. Awards are made to students who demonstrate a need for assistance with educational expenses.

Achievement Awards

Additional information about the following awards and their requirements can be obtained from the CBA website.

Applications for Outstanding Undergraduate are usually due in early to mid-January. Each department may select up to three Outstanding Graduates. From among the chosen Outstanding Undergraduates, the Dean of the College selects the Dean's Medalist. These awards are

reserved for graduating seniors and require a minimum GPA along with other considerations for applicants.

Beta Gamma Sigma is the international honor society recognizing the outstanding academic achievements of students enrolled in collegiate business and management programs accredited by AACSB International. Applications to membership are due online in early April at: www.betagammasigma.org. All new members will be inducted at the CBA Annual Awards Banquet in mid-May.

The Delta Sigma Pi Scholarship Key winner is selected from among those graduating students with the highest GPA (graduates and undergraduates).

In addition, the college offers numerous scholarships. Further information is available on the CBA website: www.csulb.edu/colleges/cba/.

Student Organizations

The following organizations are available for business students: American Marketing Association, Beta Alpha Psi Accounting Society, Black Business Students Association, Delta Sigma Pi, Financial Management Association, Hispanic Students Business Association, Human Resource Management Association, Information Systems Student Association, International Business Association, MBA Student Association, and Society for the Advancement of Management. Student organizations typically host professionals representing business and industry at weekly meetings and also sponsor a variety of social, recreational and community service events.

The Associated Business Students Organization Council (ABSOC) is the coordinating council for all business student organizations. ABSOC co-sponsors the annual "Meet the Industries Expo." This annual event includes professional development workshops and a career expo which draws numerous companies and several hundred students. Other programs each semester include a business student organizations' fair and the student-faculty-staff mixer. ABSOC also co-sponsors the annual "Ethics at The Beach" seminar with the Ukleja Center for Ethical Leadership.

Beta Gamma Sigma, founded at the University of Wisconsin in 1907 as a business honor society, is the only honor society recognized by the AACSB - International. Membership is available to business students at California State University, Long Beach only because the College of Business Administration is accredited by AACSB.

Election to membership in Beta Gamma Sigma is the highest scholastic honor that a student in business administration can attain. To be eligible for membership at CSULB, students must rank in the upper ten percent of their junior, senior, or graduate degree program in business administration.

Computer and Information Technology

Students in the degree program develop basic understandings and competencies relating to information processing, the application of computers in business and government, management information systems concepts, computer programming, statistics, and financial research with Bloomberg terminal. The computer laboratory consists

of most up-to-date instructional software, and hardware to facilitate student learning.

General Policies and Regulations

Specific University and College requirements are detailed in various sections of this *Catalog*. Every student must develop complete familiarity and understanding of the regulations and requirements by which successful completion of a program will be determined. (Also see pertinent section regarding University General Regulations and Procedures).

Admission Under Impaction

Freshman applicants to the Bachelor of Science in Business Administration will be placed in the pre-major code for Business Administration. Transfer applicants must apply to the University during the initial filing period of October and November for the following fall semester or August for the following spring semester. They must indicate their choice of major on the application.

Continuing students seeking admission to the upper-division major in Business Administration must submit a supplemental application to the CBA Center for Student Success (CBA, Room 100). Although there is no specific deadline for filing, it usually takes a minimum of two weeks to complete the application process. Therefore, students should file their applications no later than two weeks before their next Early Registration access date.

Refer to the following website for additional impaction criteria: www.csulb.edu/depts/enrollment/graduation/native-major-criteria/

Special Enrollment Status

Enrollment through Open University (College of Continuing and Professional Education) is allowed only on a space available basis which is determined by the type of course and teaching method as well as classroom capacities. The student must otherwise be qualified.

CBA Policy on Course Transfers/Substitutions

The College of Business Administration has a strict policy on course transfers/substitutions. This is necessary to preserve the academic integrity of programs and to meet accreditation standards. No credit by examination will be allowed for any CBA course. The CBA Center for Student Success can be consulted for more information on course transfers and substitutions.

Grading Policy

All CBA majors must maintain major GPAs 2.0 or higher. A student whose GPA in the major falls below a 2.0 will be advised that they are at risk of being dismissed from the major and graded one semester to raise their major GPA(s) to 2.0. Students who do not successfully raise their major GPA(s) must meet with an advisor to declare another major or submit an appeal to the CBA Center for Student Success explaining why they need one additional semester. Students whose major GPAs remain below 2.0 after this additional semester must declare a new major.

Business majors and minors may not exercise a Credit/No-Credit grading option for courses required by the College of Business Administration in their program. No course taken for Credit/No-Credit grading will be accepted to fulfill a Business requirement, with the exception of students transferring Advanced Placement or International

Baccalaureate credit. Enrollment in a business course as an auditor is not permitted.

Graduate Programs

The College of Business Administration offers graduate study leading to the Master of Science in Accountancy, Master of Science in Supply Chain Management, and Master of Business Administration (MBA). The degrees offered by the College of Business Administration are accredited by the AACSB - International.

The graduate degrees are designed to serve the community by providing graduate business education to persons who show promise of leadership and success in business or related fields. For this reason, the faculty of the College of Business Administration has established rigorous standards of admission and completion for the programs.

Administration of CBA Graduate Programs

All College of Business Administration Graduate Programs are administered by the CBA Graduate Programs Office, CBA 363. The Graduate Programs Director heads that office.

Admission to Graduate Study

In addition to admission by the University Office of Admissions and Records, an applicant for graduate study in business must apply to and be admitted by the College of Business Administration (CBA) Graduate Programs Office.

Admission Procedures

1. Students interested in applying to the MS Programmer or the MBA program at CSULB have to follow a two-step application process. First, they should file a CSULB Graduate Program application using the California State University's online application program called CSUMENTOR at www.csumentor.edu. Second, they also need to apply to the College of Business Administration's MS or MBA Program, using the CBA's online application program called ADVANCE at www.csulb.edu/cba/advance. These two applications may be started simultaneously, but acceptance to both the University and the CBA is necessary to enroll in the MBA Program.
2. One complete set of official transcripts of all college work attempted are required, and must be sent to:
 - California State University, Long Beach, Office of Admissions and Records, 1250 Bellflower Blvd., Long Beach, CA 90840
3. Graduate Management Admission Test (GMAT) or Graduate Records Examination (GRE) scores must be forwarded directly from the GMAC or ETS, to the College of Business Administration Graduate Programs Office. The GMAT code for the CBA MS and MBA Programs is **364-M9-69**. The **GRE** Institutional code for all programs is 8848, Dept. Code is 4201. Test scores over 5 years old will not be considered.
4. International applicants should first contact the Center for International Education on campus for all application requirements. International students who score less than a "4" on the GMAT or GRE writing section should contact the CBA Graduate Programs Office directly for available options.

In addition to the steps above, all international applicants are required to complete all the usual steps of all applicants to the MS and MBA programs.

Application Deadlines

Deadlines for International applications are:

- April 1 for CSU Mentor Application, April 15 for CBA Advance Application for Fall Semester admission. This applies to the MS Programs and all MBA Programs except as noted directly below.
- October 1 for CSU Mentor Application, October 15 for CBA Advance Application for Spring Semester admission. This applies to the Spring Evening MBA Program Only.

Deadline for domestic applications are:

- April 15 for both CSU Mentor and CBA Advance for the Daytime, Accelerated MBA only.
- June 1 for both CSU Mentor Application and CBA Advance Application for Fall Semester admission. This applies to the MS programs and the Saturday MBA and Fall admissions for the Evening MBA Program.
- November 1 for both CSU Mentor Application and CBA Advance Application for Spring Semester admission. This November 1 deadline applies to Spring admissions for the Evening MBA Program only.

Because of high demand for admission to the graduate programs, it is advised that students submit their application to the program early. No action can be taken on applications until all required documents are received. Except in highly unusual circumstances, application materials submitted after the above dates will not be considered.

Criteria

Admission will be granted to students showing high promise of success in post-baccalaureate business study. Each applicant's potential for graduate management education is evaluated on the basis of six major criteria:

1. Past Academic Record, as reflected in undergraduate GPA or other Graduate programs.
2. Graduate Records Examination (GRE) or Graduate Management Admission Test (GMAT).
3. Managerial Experience: demonstration of increasing levels of responsibility.
4. Written Communication ability as demonstrated in the Applicant's "Statement of Purpose" to clearly identify their leadership potential, educational goals and academic strengths.
5. Two Letters of Recommendation.

Upon completion of evaluation by the CBA Graduate Programs Office, the student is notified by email of acceptance or rejection.

Enrollment

Students must meet all of the CBA Graduate Admissions criteria in order to be admitted into the University as a CBA Graduate student.

Admission to Graduate Courses

Only students who have been admitted to the MS or MBA program may take graduate courses in Business Administration. The only exception is that students who have been admitted to other Master's programs at CSULB

may take select graduate courses in Business Administration to meet the requirements for their programs, with the permission of their major advisor and the Graduate Programs office.

Enrollment in graduate courses through the Open University will normally be permitted only for students in an AACSB-accredited graduate program at another institution and must have a letter of permission from the Associate Dean/Dean of the student's home university, or for alumni of the CBA Graduate Programs.

Continuous Enrollment

Once a student is accepted and enrolled in any of the CBA Graduate Programs, he/she is expected to attend classes both semesters of the academic year. (Fall and Spring semesters are considered the regular semesters of the academic year; in the evening program Summer attendance is optional.) Registration and completion of at least one course each semester satisfies the Continuous Enrollment requirement.

If a student is unable to satisfy the Continuous Enrollment requirement, he/she must complete the Educational Leave of Absence procedures detailed below. Continuous Enrollment status will only be preserved if the student's absence from a regular semester has been processed and approved through the Educational Leave of Absence procedures.

Students failing to maintain Continuous Enrollment status will be administratively removed from the CBA Graduate Programs. Registration privileges will be revoked. Students planning to continue in the CBA Graduate Programs who have been administratively removed due to the violation of the Continuous Enrollment condition will be required to re-apply to the CBA Graduate Programs and to the University.

Leave of Absence

Any CBA graduate student in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the CBA Graduate Programs Office and the University Admission and Records Office in accordance with University Policy.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may request, in writing; and in advance, an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved one semester educational leave are not required to submit an application form. Students on leave longer than one semester must apply for re-admission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must complete the entire CBA Graduate admission process.

An Educational Leave of Absence, if properly requested and processed, allows a student to satisfy the Continuous Enrollment requirement and therefore does not affect their

good standing status. Students on an approved education leave of absence will continue to receive registration information.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student's program from the department chair in question and the CBA Graduate Programs Director.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the seven year maximum period for completion of the CBA Graduate degree requirements.

For the period of an educational leave the student's rights under the "Election of Regulation" rule are preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance. See the CSULB *Catalog*, General Rules and Procedures section, for a complete explanation of the Election of Regulation - "Catalog Rights".

An educational leave presupposes no expenditure of University resources or faculty and staff time on behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

Scholastic Standards/Probation/Disqualification

A student who fails to maintain a cumulative GPA of 3.0 or higher in all work completed as a graduate student at this University or in all transferred work applied to the program will be placed on academic probation. The semester in which the student's GPA falls below 3.0 is the First Probationary Semester.

A student on probation, who at the end of the Third Probationary Semester fails to obtain a cumulative GPA of 3.0 or higher on all units attempted in post-baccalaureate work at CSULB, will be disqualified and removed from the graduate program. The student should note that the cumulative GPA is calculated by the University Admissions and Records Office and includes all upper division and graduate courses taken while enrolled in the graduate program.

For MBA students, a grade of "C" or better is required in any course taken to satisfy first or second year Core requirements. A grade of "B" or better is required in GBA 699. If either of these requirements is not met, a student must take the course a second time or withdraw from the program. A second failure to achieve the required grade will result in involuntary separation from the program. This requirement operates independently of the requirement for a cumulative GPA of 3.0 or better.

Graduation Writing Assessment Requirement (GWAR)

As a requirement for advancement to candidacy, all graduate students must demonstrate writing competency by:

1. Passing an approved CSULB assessment of writing competence (GWAR),
2. Having already passed an assessment of writing competence (GWAR) while matriculated at another CSU campus, or
3. Earning a CSULB-approved passing score on the writing portion of an approved standardized graduate admissions test, such as the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT).

Assessments of writing competence from non-CSU campuses will be evaluated by the GWAR Coordinator as a fulfillment of the GWAR, on an articulation basis if possible or on a case-by-case basis if necessary.

Students with degrees from non-CSU campuses must either

provide evidence of meeting the requirement with adequate scores on a CSULB-approved standardized test or attempt to satisfy the GWAR by the end of their first semester of matriculation at CSULB.

Master of Science in Accountancy

The Master of Accountancy (MAC) program in the College of Business Administration is a rigorous 10-month full-time lock-step program providing an intensive, focused coursework to prepare students for a successful career in accounting. The program is intended to enhance student's depth of technical knowledge, breadth of understanding and communication skills, and importance of ethical conduct in the profession. With a focus on research and analytical thinking, the program is intended to improve judgement and decision making skills. The program is designed to address the needs of individuals across the state of California to take the mandated 30 semester units of specialized coursework to complete the CPA licensure requirements effective January 1, 2014. Students admitted to the program can specialize in Professional Accountancy, Information Systems or Taxation.

Application Procedure/ Prerequisites

1. Students interested in applying to the MS in Accountancy program at CSULB have to follow a two-step application process. First, they should file a CSULB Graduate Program application using the California State University's online application program called CSUMENTOR at www.csumentor.edu. Second, they also need to apply to the MS in Accountancy Program, using the CBA's online application program called ADVANCE at <http://www.csulb.edu/cba/advance>. These two applications can be started simultaneously, but acceptance to both the University and the CBA is necessary to enroll in the program.
2. Bachelor's degree in Accountancy or a bachelor's degree and equivalent accounting-related coursework from a regionally-accredited university.
3. Admission GPA to the CBA Master's programs as per the University.
4. GMAT exams or GRE exams.
5. Resume.
6. Statement of purpose (essay).
7. Two letters of recommendation.
8. For international students – English proficiency requirements by taking TOEFL or written portion of GMAT, GRE, or IELTS exams.

Course requirements

- Completion of 30 units of approved graduate courses (including culminating experience).
- Maintaining GPA of at least 3.0 (B) throughout the program.

Requirements

- ACCT 601 Corporate Governance and Financial Reporting (4)
Prerequisite: MSA standing.
- ACCT 602 Advanced Cost Accounting (4)
Prerequisite: MSA standing
- ACCT 603 Financial Statement Analysis (4)
Prerequisite: MSA standing.
- ACCT 604 Forensic Accounting (2)
Prerequisite: MSA standing

- ACCT 605 Seminar in Accounting Information Systems (4)
Prerequisite: MSA standing.
- ACCT 611 Seminar in Auditing and Assurance Services (4)
Prerequisite: MSA standing.
- ACCT 612 Governmental and Non-Profit Accounting
Prerequisite: MSA standing.

Culmination

The culminating experience, ACCT 699 (Accountant's Professional Responsibilities and Ethics) will be a comprehensive auditing project to be reviewed by faculty and professionals.

Advancement to Candidacy

Students admitted must file an application for Advancement to Candidacy for the degree after completion of their first six units. Prior to advancement to candidacy, a student must:

1. Be accepted into the MS in Accountancy Program.
2. Maintain an overall minimum 3.0 cumulative GPA, including work transferred from other institutions, and a minimum 3.0 GPA in all work completed at this University.
3. Completion with a minimum GPA of 3.0 of at least six units of courses required on the student's program of study.
4. Fulfill the Graduation Writing Assessment Requirement (GWAR) or receive a 4.0 or better on the writing portion of the GMAT or GRE.
5. Prepare an official student program in consultation with the CBA Graduate Programs Office.
6. File the application for Advancement to Candidacy with the CBA Graduate Programs Office for approval by the Graduate Program Director.

Master of Science in Supply Chain Management

The Master of Science in Supply Chain Management program is designed to provide its students with advanced and highly demanded training in modern supply chain management practices, analysis methods, technology applications, strategy development, and other relevant skills that will advance their career prospects and prepare them for lifelong learning in a global supply chain environment. The rigorous curriculum will equip its graduates with advanced knowledge and skills needed to identify, analyze, and resolve complex supply chain challenges faced by global-scale businesses. This is accomplished through a unique combination of quantitative, technical, operational, strategic, and behavioral preparation.

Application Procedure/ Prerequisites

1. Students interested in applying to the MS in Supply Chain Management program at CSULB have to follow a two-step application process. First, they should file a CSULB Graduate Program application using the California State University's online application program called CSUMENTOR at www.csumentor.edu. Second, they also need to apply to the MS in Supply Chain Management Program, using the CBA's online application program called ADVANCE at <http://www.csulb.edu/cba/advance>. These two applications can be started simultaneously, but acceptance to both the University and the CBA is necessary to enroll in the program.
2. A bachelor's degree from a regionally accredited university.
3. Admission GPA to the CBA Master's programs as per the

- University.
4. GMAT exams or GRE exams.
 5. Resume.
 6. Statement of purpose (essay).
 7. Two letters of recommendation.
 8. For international students – English proficiency requirements by taking TOEFL or written portion of GMAT, GRE, or IELTS exams.

Course requirements

Completion of 30 units of approved graduate courses (including culminating experience)
 Maintaining GPA of at least 3.0 (B) throughout the program
 Required courses:

Requirements

SCM 500 Research Methods for Supply Chain Management (3)

Prerequisite: Graduate standing.

SCM 520 Business Economics (3)

Prerequisite: Graduate standing.

SCM 611 Operations Planning and Analysis (3)

Prerequisite: Graduate standing.

SCM 614 Supply Chain Management (3)

Prerequisite: Graduate standing.

SCM 620 Business Analytics and Supply Chain Management (3)

Prerequisite: Graduate standing.

SCM 625 Global Supply Chain Management (3)

Prerequisite: Graduate standing.

SCM 630 Project Management (3)

Prerequisite: Graduate standing.

SCM 640 Logistics and Transportation Management (3)

Prerequisite: Graduate standing.

SCM 657 Seminar in Supply Chain Leadership (3)

Prerequisite: Graduate standing.

Culmination

In conjunction with additional course work, the culminating experience, SCM 699 Capstone Project for Supply Chain Management (3) will be a comprehensive supply chain project to be reviewed by faculty and professionals.

Advancement to Candidacy

Students admitted must file an application for Advancement to Candidacy for the degree after completion of their first six units. Prior to advancement to candidacy, a student must:

1. Be accepted into the MS in Supply Chain Management Program.
2. Maintain an overall minimum 3.0 cumulative GPA, including work transferred from other institutions, and a minimum 3.0 GPA in all work completed at this University.
3. Completion with a minimum GPA of 3.0 of at least six units of courses required on the student's program of study.

4. Fulfill the Graduation Writing Assessment Requirement (GWAR) or receive a 4.0 or better on the writing portion of the GMAT or GRE.
5. Prepare an official student program in consultation with the CBA Graduate Programs Office.
6. File the application for Advancement to Candidacy with the CBA Graduate Programs Office for approval by the Graduate Program Director.

Master of Business Administration

The Master of Business Administration program develops competencies essential to functioning professionally in a complex and competitive business environment. The program prepares students for responsible administrative positions and provides the background essential for advancement in professional management careers. The Master of Business Administration degree encompasses a program of breadth which builds a wide range of competencies required for effective management while permitting students to specialize in a functional area.

The Master of Business Administration is normally a 48-unit program for the graduate without an undergraduate degree in Business.

General MBA

Requirements

The Master of Business Administration program requires completion of a minimum of 36 units of graduate course work as established and approved by the College of Business Administration MBA office. The MBA program must include:

I. First Year Core	0-12
II. Advancement to Candidacy	
III. Second Year Core	21
IV. Advanced Study	12
V. Capstone	3
Total units	36-48

MBA students should be guided by the following sequence of events as they progress through their graduate study in the College of Business Administration.

I. First Year Core: Common Body of Knowledge

The masters degree presupposes mastery of a common body of knowledge. Students with a recent bachelor's degree in business administration from this University or from other AACSB-accredited business schools within the last 3 years will have met much of the First Year Core requirements depending on the grades they achieved in certain courses. Upon acceptance to the MBA Program, student's transcripts are reviewed for completion of the necessary course work for mastery of the common body of knowledge. Generally, a grade of "B" or better within the last 3 years or an "A" in the last 4 years is required to meet the criteria. More information about this requirement and waiver exams is available from the CBA Graduate Programs Office.

Students with comparable, three-year old coursework from a non-AACSB business school with grades of "B" or

better may take waiver exams only at the beginning of their program to demonstrate capability in the First Year Core classes.

Waivers of the First Year Core classes are based upon recent, satisfactory educational background at either a graduate or undergraduate level as described above. Students who have not met the entire common body of knowledge requirements prior to admission to the MBA Program will be required to enroll in the appropriate First Year Core Courses to make up any deficiency.

The First Year Core consists of at most four courses (up to 12 units):

- ACCT 500 Financial Accounting (3 units)
- FIN 501 Financial Management Concepts (3 units)
- MGMT 500 Business Policies, Operations and Organizations (3 units)
- MKTG 500 Marketing Concepts (3 units)

II. Advancement to Candidacy

Students admitted with all First Year Core requirements completed must file an application for Advancement to Candidacy for the degree after completion of their first six units. Other students must file the application during the semester in which the First Year Core requirements are to be completed. Prior to advancement to candidacy, a student must:

1. Be accepted into the MBA Program.
2. Maintain an overall minimum 3.0 cumulative GPA, including work transferred from other institutions, and a minimum 3.0 GPA in all work completed at this University.
3. Complete all First Year Core Requirements, with no grade lower than "C".
4. Fulfill the Graduation Writing Assessment Requirement (GWAR) or receive a 4.0 or better on the writing portion of the GMAT or GRE.
5. Prepare an official student program in consultation with the CBA Graduate Programs Office. This program must include the Second-Year Core in effect at the time of Advancement to Candidacy, the 12 unit program for the area of Advanced Study and the Capstone Course, GBA 699, for a total of 36 units.
6. File the application for Advancement to Candidacy with the CBA Graduate Programs Office for approval by the Graduate Program Director.

III. Second Year Core

Upon completion of the First Year Core, either by waiver or graduate course work, students move directly into the Second Year Core. (See section on Advancement to Candidacy). This core consists of seven courses (21 units) which provide the breadth requirements for the MBA degree at the advanced level.

Take all of the following courses:

- ACCT 610 Managerial Accounting and Control (3)
Prerequisites: Graduate business standing.
- FIN 600 Seminar in Business Finance (3)
Prerequisite: Not applicable.
- HRM 652 Seminar in Human Resources Management

(3)
Prerequisite: Graduate business standing.

IS 601 Quantitative Methods for Managerial Decision Making (3)
Prerequisite: Graduate business standing.

IS 602 Management of Information Systems (3)
Prerequisite: Graduate business standing.

MGMT 647 Seminar in Strategic Management (3)
Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

MKTG 661 Seminar in Marketing Policies (3)
Prerequisite: Graduate business standing, MKTG 500.

IV. Advanced Study

The General MBA is designed for students with an undergraduate business degree or any other student desiring a more broad-based MBA curriculum. The General MBA requires 12 units of graduate course work in three different areas within the College of Business Administration subject to approval by the CBA Graduate Programs Office.

V. Transfer Credit

Assuming the Continuous Enrollment requirement has been satisfied, a maximum of nine credits that closely complement the student's degree objectives may be applied toward the requirements for the MBA degree beyond the First Year Core under the following conditions:

1. the credits under consideration must be graduate credits,
2. the course work must be taken at an AACSB accredited graduate program,
3. prior approval must be obtained from the CBA Graduate Programs Director,
4. prior approval must be obtained from the department chair of the course work being transferred.

The remaining units must be completed in courses at CSULB reserved exclusively for graduate students.

MBA Specializations

Specializations require 12 units with at least nine units of graduate course work in one area. These specializations are only available in the evening program.

Any student may count three units of Directed Studies (697) toward Advanced Study requirements. See CBA Graduate Programs Office for more details.

Elective courses designed to fulfill specialization requirements must be approved by the CBA Graduate Programs Office through the completion and acceptance of student's Advancement to Candidacy form.

Consumer Affairs

Requirements:

Take nine elective units selected from the following:
FCS 520, FCS 525, FCS 526, FCS 529, FCS 563, FCS 600.

Fashion Merchandising and Design

Requirements:

Take nine elective units selected from the following:
FCS 555, FCS 558, FCS 563, FCS 600.

Finance

Requirements:

Take nine elective units selected from the following:
FIN 620, FIN 630, FIN 650, FIN 690.

Health Care Management

Requirements:

Take the following course:

HCA 502 The Health Care System (3)
Prerequisites: None.

Take any two of the following courses:

HCA 536, HCA 537, HCA 550, HCA 552.

Health Science

Requirements:

Take nine elective units selected from the following:

HSC 500, HSC 507, HSC 535, HSC 625.

Hospitality Management

Requirements:

Take nine elective units selected from the following:

FCS 563, FCS 574, FCS 577, FCS 600.

Human Resources Management

Requirements:

Take nine elective units selected from the following:

HRM 654, HRM 655, HRM 657.

Information Systems

Requirements:

Take nine elective units selected from the following:

IS 545, IS 550, IS 564, IS 580, IS 584.

Management

Requirements:

Take nine elective units selected from the following:

MGMT 542, MGMT 543, MGMT 646; HRM 657, SCM 611, SCM 614.

Marketing

Requirements:

Take nine elective units selected from the following:

MKTG 663, MKTG 665, MKTG 666, MKTG 667, MKTG 668, MKTG 669, MKTG 695.

Recreation and Leisure Studies

Requirements:

Take the following course:

REC 571 Philosophy, Issues and Trends
Prerequisites: None

Take six elective units selected from the following:

REC 521, REC 527, REC 528, REC 567, REC 569, REC 573.

V. Capstone

Students must take following as the last or capstone course:

GBA 699 Integrated Analysis (3)

Prerequisites: Graduate business standing. Student shall have completed all 2nd year core classes. Classified MBA status in the last semester or within six units of completion of the 33-unit minimum graduate program and advancement to candidacy.

Students must complete the Second Year Core and Advance to Candidacy before enrolling in GBA 699. In this comprehensive analysis, the student will demonstrate technical skills as they integrate the knowledge obtained in all the functional areas of business. Students will research a real company, collect data, conduct analysis, and offer improvement recommendations. A written research project report and oral presentation is required. Students must obtain a grade of "B" or better in GBA 699 in order to receive an MBA degree. Application for acceptance into GBA 699

must be filed in the CBA Graduate Programs Office before the end of the fourth week of instruction in the semester preceding enrollment in the course. Application forms and advisement relating to this important requirement are available in the Graduate Programs Office.

VI. Time Limitation

All courses on the official student program (Advancement to Candidacy) must be completed within seven years of commencement of the first class toward fulfillment of the Second Year Core requirement.

Master of Business Administration / Master of Fine Arts in Theatre Management

For requirements, see description in the Theatre Arts section of this catalog.

College of Business Administration Courses (CBA)

UPPER DIVISION

300. International Business (3)

Introduction to nature, dimensions, and environment of international business. Emphasis on business functions, practices, and decisions as influenced by cultural, political, economic, social, and institutional factors in various parts of world.

Letter grade only (A-F).

397. Junior Honors Seminar (3)

Prerequisite: Acceptance into the CBA Honors Program.

Empirical, theoretical, and applied research methodology: fundamentals and advanced topics. Visits by faculty and business professionals focus on current issues and methods for solving business problems. Literature review and written proposal required for Honors Thesis.

Letter grade only (A-F).

400. Business Ethics (3)

Prerequisites: GE Foundation requirement, at least one Explorations course, consent of instructor.

Various types of ethical dilemmas that take place in business organizations and acquire concepts and tools needed to manage these complex value conflicts for the well being of individuals, organizations, and society.

Same course as PHIL 400. Not open for credit to students with credit in PHIL 400. Letter grade only (A-F).

401A. Ethical Leadership (2)

Prerequisite: Consent of instructor.

Explores ethical leadership challenges related to business, technology, values, relationships, and healthcare. Team-building retreat and networking with guest speakers are integral to the class. Students are required to complete both CBA 401A and CBA 401B within the same academic year.

Letter grade only (A-F).

401B. Ethical Leadership (2)

Prerequisites: CBA 401A with a grade of "C" or better in the immediately preceding fall semester and consent of instructor.

Continuation of CBA 401A. Explores ethical leadership challenges in media, education, government, and management. Community service and networking with guest speakers are integral to the class. Students required to complete CBA 401A and CBA 401B within the same academic year.

Letter grade only (A-F).

485. International Collegiate Business Strategy Competition (3)

Prerequisites: Upper Division Standing, MGMT 300, MKTG 300, IS 301, ACCT 201, and consent of instructor. Students must apply to be in the class.

Student teams run a simulated manufacturing company and compete for best performance against teams from other universities. Company financial performance, a written business plan, an annual report and a presentation are evaluated by a panel of judges.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

493. Business Internship (1-3)

Prerequisites: Classified business major or minor, consent of instructor.

Qualifying students placed in career-related paid or unpaid assignments in private or public agencies or businesses. Organized plan utilizing series of seminars and learning agreements required with selected reading and writing assignments.

Credit/No Credit grading only. May be repeated to a maximum of 6 units. A minimum of 120 hours internship experience per semester is required.

494. Selected Topics - Short-Term Study Abroad (3)

Prerequisite: None.

Topics of current interest in business administration selected for intensive study, linked to a group study abroad experience in a country such as China, France, Germany, Thailand and Vietnam.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. Topics and study sites announced in the *Schedule of Classes*.

A. China

B. Germany

495. Selected Topics (3)

Prerequisites: Consent of instructor, IS 301.

Topics of current interest in business administration selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. Topics announced in the *Schedule of Classes*.

497. Senior Honors Seminar I (3)

Prerequisites: CBA 397, IS 301.

Continuation of CBA 397, special emphasis on sampling, instrumentation, and data analysis. Topics covered may vary year-to-year. Perform majority of data collection and preliminary data analysis for honors thesis.

Letter grade only (A-F).

499. Senior Honors Seminar II (3)

Prerequisites: CBA 497, IS 301.

Completion of Honors Thesis. Data analysis completed, findings interpreted relative to research hypotheses; final report is submitted. Attention to preparing manuscripts for publication, academic review process, and making professional presentations. Learning by illustration and application. Visits by faculty and business leaders.

Letter grade only (A-F).

Graduate Business Administration Courses (GBA)

GRADUATE LEVEL

500. MBA Orientation (3)

Prerequisite: Graduate business standing.

Presents foundations in leadership, motivation, ethics and social

responsibility, theory of the firm, foundations in communication and teamwork, spreadsheet analysis and modeling, case analysis and basic research methods.

Letter grade only (A-F).

600. Sustainability and the Business Organization I (3)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Integrates skills from the various business functional areas to address the complexity of decision making for the organization and its stakeholders to meet the goal of sustainable development, where sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

Letter grade only (A-F).

601. Sustainability and the Business Organization II (3)

Prerequisites: Graduate business standing, GBA 600, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Continuation of GBA 600. Integrated systems approach to managerial decision making with the goal of sustainable development that meets current business needs while simultaneously ensuring availability of resources for future generations.

Letter grade only (A-F).

602. Globalization Global Business I (3)

Prerequisites: Graduate business standing, and completion of first year core.

Examines globalization and global business from both societal and managerial perspectives. Includes lectures, case studies, projects, exercises, reports, and presentations.

Letter grade only (A-F).

603. Globalization Global Business II (3)

Prerequisites: Graduate business standing, and completion of first year core.

Examines globalization and global business from both societal and managerial perspectives. Includes lectures, case studies, projects, exercises, reports, and presentations.

Letter grade only (A-F).

604. Customer Relationship Management I (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Explores the interrelated activities processes in supply chain management and customer relationships management. Customer privacy (accounting, information systems, management, and marketing) as pertains to CRM formulation, implementation, evaluation, and control.

Letter grade only (A-F).

605. Customer Relationship Management II (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Continuation of GBA 604. Explores the interrelated activities processes in supply chain management and customer relationships management. Customer privacy (accounting, information systems, management, and marketing) as pertains to CRM formulation, implementation, evaluation, and control.

Letter grade only (A-F).

630 Technology-based Business Model: Developing and Financing (3)

Prerequisite: Graduate standing.

Introduction to technology-based business models. Their development and financing by identifying high potential technology-intensive business opportunities. For future managers, investors, and those who have engineering and science background. Case studies, lectures, workshops, and projects that involve real world business ideas.

Letter grade only (A-F).

640. Electronic Commerce (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

E-commerce as an integrated subject; electronic commerce business models and concepts; technology infrastructure including data communications, e-commerce security and business transaction systems; internet marketing concepts, consumer behavior, and marketing communications; ethical, social, legal, and organizational issues; e-commerce strategy and implementation.

Letter grade only (A-F).

641. Mergers and Acquisitions (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

An integrated course on mergers and acquisitions. Students will develop an in-depth knowledge of corporate restructuring. Topics include valuation of companies, corporate acquisition financing, acquisition accounting, and short-term and long-term impact analysis of financial statements. Special topics include reverse mergers and spin-offs.

Letter grade only (A-F).

642. The Innovative Organization (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Overview of innovation journey, including strategies and processes, models and methods for change, implementation, and new business-model creation; new product/service development processes, including marketing research, financial analysis, creating and managing brand identity, and strategic issues; development of an innovation plan.

Letter grade only (A-F).

643. Global Investments and Financial Modeling (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, IS 615, MGMT/HRM 615, MKTG 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Integration of international investment management and financial modeling. Investment management theories and concepts from a global perspective. Application of theory and concepts through hands-on modeling approaches using real-world data.

Letter grade only (A-F).

644. Financial Statement Analysis (4)

Prerequisites: Graduate business standing, ACCT 615, FIN 615, Intermediate Microeconomics, completion of all relevant toolboxes.

Focuses on the content and analysis of publicly available financial statement data. Students will learn analytical tools to assess a firm's profitability and risk and to value the firm's common stock using valuation models.

Letter grade only (A-F).

646. Understanding the Social Lives of Brands (3)

Prerequisites: Graduate business standing, MKTG 615.

Brand-centered marketing course intending to develop an integrated

understanding of brands as cultural products and their relationship to consumers in product usage contexts. Consideration of the relationship between brand usage contexts and brand equity.

Letter grade only (A-F).

670. Professional Development: Career Management (1)

Prerequisite: Graduate business standing.

This professional development course is designed to support students in their near and long-term career planning through self-assessment, reflection, career research, engagement with established professionals in the student's chosen field and preparation for job search and life-long career resilience.

Credit/No Credit grading only.

671. Leadership Foundations (1)

Prerequisite: Graduate business standing.

This course examines individual, group, and organizational dimensions of leadership, provides an opportunity to develop skills that support effective leadership, and initiates a process for developing leadership competence during the MBA Program and beyond.

Credit/No Credit grading only.

685. International Collegiate Business Strategy Competition (3)

Prerequisites: Graduate business standing. Students should have completed most of the first year of courses. Consent of instructor is required. Students must apply to be in the class.

Using simulation, student teams run simulated company and compete for best performance against other university teams. Financial, marketing, production, and management decision-making, business plans, annual reports, and presentations evaluated by judges at competitive event.

Letter grade only. May be repeated to a maximum of 6 units in different semesters.

690. Seminar in an MBA International Experience (3)

Prerequisites: Graduate business standing, completion of MBA Second Year Core.

The active participation in the study of international business expansion through the study of various factors influencing a particular economy's position and industries and subsequent first-hand encounters in that same economy.

Letter grade only (A-F).

694. Selected Topics – Short-Term Study Abroad (3)

Prerequisites: Graduate business standing.

Topics of current interest in business and management selected for intensive group study in a particular country. The international experience enables students to apply concepts learned in classroom to the business and cultural environment of the host country.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters.

A. China

B. Germany

695. Selected Topics (1-3)

Prerequisite: Graduate business standing.

Topics change each offering and in the absence of significant duplication.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in the same semester. Topics announced in the *Schedule of Classes*.

698. Thesis (2-4)

Prerequisites: Graduate business standing, GBA 601.

Planning, preparation, and completion of a thesis in business administration.

699. Integrated Analysis (3)

Prerequisites: Graduate business standing. Student shall have completed all 2nd year core classes. Classified MBA status in the last semester or within six units of completion of the 33-unit minimum graduate program and advancement to candidacy.

Study of wide range of business problems and formulation of solutions. Integration of knowledge from all functional areas of business and its application to complex business problems arising out of changing technology, competitive market conditions, social changes and governmental actions.

A grade of "B" or better is required for successful completion. Serves as required terminal examination for College of Business Administration graduate candidates. Project is required. Students must file application for entry into GBA 699 no later than the fourth week of instruction in the semester preceding the one in which GBA 699 will be taken. Application forms are available in the Graduate Programs Office. Letter grade only (A-F).

Business Law Courses (BLAW)

LOWER DIVISION

220. Introduction to Law and Business Transactions (3)

Law and the American legal system in today's business world. Contracts, sales, and commercial paper. Examination of the role and function of the judiciary, elements of civil and criminal lawsuits, and other emerging areas of the law, including alternative dispute resolution.

Not open for credit to students with credit in FIN 220. Letter grade only (A-F).

UPPER DIVISION

309. The Consumer in the Legal and Economic Environment (3)

Prerequisites: GE Foundation requirement, one or more Explorations courses; upper-division standing.

Incorporates an integrated coverage of the economic, legal, ethical and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught.

(Lecture-Discussion 3 hours) Same course as CAFF 309 and FIN 309. Not open for credit to students with credit in CAFF 309 or FIN 309.

320. Legal and Regulatory Environment of Business (3)

Forms of business organizations, employment law, securities law, environmental law, anti-trust issues, and international transactions. Social, international and economic influences on domestic and multinational corporations. Exploration of relationship of government to business. Introduction to business ethics.

Not open for credit to students with credit in FIN 320. Letter grade only (A-F).

424. International Legal Environment of Business (3)

Prerequisites: BLAW 320, IS 301.

Subsidiaries, joint ventures and other forms of international business. Effects of treaties, laws and policies of governments on business operations. Resolution of business and investment disputes, protection of property rights, the financing and taxing of international operations, and ethical issues.

Not open for credit to students with credit in FIN 424. Letter grade only (A-F).

425. Legal Aspects of Real Estate (3)

Prerequisites: FIN 340, IS 301.

Basic principles of real estate law as related to conveyances, titles, private and public restrictions on the use of land, escrows, community property and financial transactions.

Not open for credit to students with credit in FIN 425. Letter grade only (A-F).

GRADUATE LEVEL

520. Legal, Regulatory, and Ethical Environment of Business (3)

Prerequisite: Graduate business standing.

Legal and regulatory environment in which managers must operate. Constitutional and judicial structures for resolving disputes, effect of governmental and political policies, and liability encountered by business in various defined areas of substantive law. Ethical issues faced by business.

Not open for credit to students with credit in FIN 520. Letter grade only (A-F).

Department Graduate-Level Courses

Accountancy Courses (ACCT)

500. Financial Accounting (3)

Prerequisite: Graduate business standing.

Objective is to develop skills required to interpret and analyze the information contained in the financial statements, with emphasis on the use of accounting information as an aid to business decisions.

Laboratory and/or class computer applications required. Letter grade only (A-F).

601. Corporate Governance and Financial Reporting (4)

Prerequisite: MSA standing

Introduction to corporate governance, SEC and other reporting requirements of complex accounting policies in the US including exposure to financial accounting research relating to earnings quality and the stock market, current scandals and frauds.

Letter grade only (A-F).

602. Advanced Cost Accounting (4)

Prerequisite: MSA standing

Covers the advanced topics in planning, budgeting and cost control of decision making using a quantitative analysis approach. Emphasis is placed on development of critical thinking and analytical skills in problem solving with cost issues.

Letter grade only (A-F).

603. Financial Statement Analysis (4)

Prerequisite: MSA standing.

Focuses on the content and analysis of publicly available financial statement data. Students will learn analytical tools to assess a firm's profitability and risk and to value the firm's common stock using valuation models.

Letter grade only (A-F).

604. Forensic Accounting (4)

Prerequisite: MSA standing.

Introduction to the fundamental forensic accounting skills employed by accountants. Specific topics include professional responsibilities of forensic practitioners, fraud prevention, detection, and response, business valuation, damage computations, and the accountant as an expert witness.

Letter grade only (A-F).

605. Seminar in Accounting Information Systems (4)

Prerequisite: MSA standing.

Familiarization with accounting information systems analysis, design, development, and implementation. Studied through use and application of computers.

Letter grade only (A-F).

610. Managerial Accounting and Control (3)

Prerequisite: Graduate business standing.

Introduces basic cost concepts of managerial accounting using a quantitative analytical approach. Topics include costing systems, cost-volume-profit analysis, budgeting, cost control, and compensation with focus on management decision-making.

Laboratory and/or class computer applications required. Not open for credit to students with credit in ACCT 510. Letter grade only (A-F).

611. Seminar in Auditing and Assurance Services (4)

Prerequisite: MSA standing.

Selected conceptual issues in auditing and assurance services. Differences between audit and assurance services. Public accountant responsibilities. Problems and cases on engagement to compile or review financial statements of nonpublic entities under accounting and review services standards.

Letter grade only (A-F).

612. Governmental and Non-Profit Accounting (4)

Prerequisite: MSA standing.

Concepts and problems in the accounting for local, state, and government agencies and for not-for-profit institutions including colleges and hospitals.

Letter grade only (A-F).

615. Accounting for Managers (4)

Prerequisite: Graduate business standing.

Presents essential accounting concepts for managers in organizations of all types. Reviews use of accounting information to plan, control, and evaluate performance and comply with regulatory requirements. Examines how accounting information facilitates management decision making.

Letter grade only (A-F).

621. Tax Research and Planning (4)

Prerequisite: : MSA standing.

Develops the technical and research skills needed to address contemporary tax issues. It acquaints students with federal tax policies, procedures and authorities governing tax practice.

Letter grade only (A-F).

622. Taxation of Partnerships & S Corporations (4)

Prerequisite:MSA standing.

Focuses on the federal income taxation of partnerships, S corporations, and their owners/beneficiaries. Students will learn why so many closely-held businesses and real estate investments are owned by partnerships or LLCs.

Letter grade only (A-F).

623. Taxation of C Corporations and Shareholders (4)

Prerequisite: MSA standing.

Focuses on the federal income taxation of C corporations and shareholders. It also focuses on reading and interpreting tax laws to determine tax consequences of completed transactions and to formulating tax-planning strategies.

Letter grade only (A-F).

631. Information Systems Governance and Control (4)

Prerequisite: MSA standing.

Reviews governance and control issues in accounting information systems, examines issues related to the Sarbanes-Oxley Act 2002 (SOX), and applies governance frameworks including COSO, COBIT and ITIL to governance and control of information systems.

Letter grade only (A-F).

632. Information Systems Auditing (4)

Prerequisite: MSA standing.

Reviews processes for performing audits of information systems, including obtaining evidence on the reliability of the systems, safeguarding of information assets, and constructing risk profiles of information systems applications.

Letter grade only (A-F).

633. Accounting Database Systems (4)

Prerequisite: MSA standing.

Examines the architecture of enterprise information. Semantic and syntactic modeling of enterprise economic phenomena, relational database technology and database design for business systems, business process analysis patterns and implementation compromises.

Letter grade only (A-F).

634. Advanced Spreadsheet Analysis (4)

Prerequisite: MSA standing.

Presents advanced spreadsheet and analysis techniques such as pivot tables, simulations, programming with visual basic, and the use of macros to solve accounting-related problems.

Letter grade only (A-F).

680. Financial Reporting and Analysis (3)

Prerequisite: Graduate business standing.

In-depth understanding of accounting standards with focus on analytical skills to analyze publicly available financial statement data. Students will learn analytical tools to assess a firm's profitability and risk and to value the firm's common stock.

Letter grade only (A-F).

695. Selected Topics in Accountancy (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the Schedule of Classes.

697. Directed Studies (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Individual study under faculty direction.

Letter grade only (A-F).

699. Accountant's Professional Responsibilities and Ethics (4)

Prerequisites/Corequisites: MSA standing, ACCT 601, ACCT 602, ACCT 603, ACCT 604, ACCT 605, ACCT 611, ACCT 612.

A case-based capstone course that examines different theories of the accountant's professional responsibilities and ethics. Accountants' ethical reasoning is examined along with the legal and regulatory obligations.

Letter grade only (A-F).

Finance Courses (FIN)

501. Financial Management Concepts (3)

Prerequisite: Graduate business standing.

Integration of computers, management information systems and cases to: (1) time value of money, risk, valuation, cost of capital, capital structure; (2) capital budgeting; (3) long-term financing decisions; (4) working capital policy and management; (5) financial analysis and planning.

Letter grade only (A-F).

600. Seminar in Business Finance (3)

Prerequisite: Graduate business Standing.

Financial theory and management: (1) time value of money, risk, valuation, cost of capital, capital structure; (2) capital budgeting; (3) long-term financing decisions; (4) working capital policy and management; (5) financial analysis and planning; (6) special topics.

Letter grade only (A-F).

615. Financial Management (4)

Prerequisites: Graduate business standing and demonstrated basic knowledge of finance.

An overview of financial theory and management. Building from the wealth-maximization goal and agency theory, the course focuses on using financial statement information in a variety of ways to engage in effective financial management. Topics include: (1) financial analysis and planning; (2) time value of money, (3) risk and returns, (4) valuation, (5) cost of capital and capital structure; (6) capital budgeting; and (7) long-term financing decisions. While some topics are introduced in other courses, the discussion is extended and deepened in this course. Also provides finance fundamentals elaborated on later in the program.

Letter grade only (A-F).

620. Capital Budgeting (3)

Prerequisites: Graduate business standing, FIN 600.

Theory of capital budgeting within the framework of the firm. Cost of capital determination and logic of expansion vs. growth, and equity financing vs. debt financing. Computer applications required.

Letter grade only (A-F).

630. Seminar in Financial Forecasting (3)

Prerequisites: Graduate business standing, FIN 600.

Research projects in industry, individual company, product and commodity areas. Computer applications required.

Letter grade only (A-F).

650. Seminar in Investments (3)

Prerequisites: Graduate business standing, FIN 600.

Security analysis, portfolio planning, balance and adjustment as related to (1) individual circumstances of the investor, (2) specific market conditions, and (3) broader financial aspects of the economy. Presentation and interpretation of student reports on selected topics. Computer applications required.

Letter grade only (A-F). Course fee may be required.

690. Seminar in International Finance (3)

Prerequisites: Graduate business standing, FIN 600.

Real and monetary factors in the finance of international business, international capital markets, movement of funds and special problem areas.

Letter grade only (A-F).

695. Selected Topics in Finance (3)

Prerequisites: Graduate business standing and consent of instructor.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in *Schedule of Classes*.

697. Directed Studies (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Individual study under direction of faculty.

Letter grade only (A-F).

699A-B. Applied Portfolio Management (3-3)

Prerequisites: FIN 699A: Graduate business standing; FIN 520, FIN 600, FIN 650; consent of instructor and department chair. FIN 699B: Graduate business standing; FIN 699A; consent of instructor and department chair. FIN 699A offered in Fall and accepted students must enroll in FIN 699B in Spring.

Participation in management of actual investment portfolio. Research, monitor, and analyze securities and make, buy and sell recommendations for a student-managed investment fund. Contribute to publication of semi-annual fund report. Market, sector and firm analysis with presentations and outside research.

Letter grade only (A-F).

Human Resources Management Courses (HRM)

652. Seminar in Human Resources Management (3)

Prerequisite: Graduate business standing.

Decisions and actions that impact management. Problems of productivity, employee commitment, employee development, employment law, and compensation. Staffing, training and development, performance appraisal, counseling, leadership and motivation, reward systems, participation and delegation, and discipline. Discussion, cases, simulations, and presentations.

Letter grade only (A-F).

654. Seminar in Negotiation and Conflict Management (3)

Prerequisite: Graduate business standing.

Various forms of opposition interactions within organizations. Interpersonal, intragroup, and intergroup conflict. Distinguishing between functional and dysfunctional conflict, identifying sources and causes of conflict, and examining alternative styles and methods of conflict management. Discussion, cases, simulations, and presentations.

Letter grade only (A-F).

655. Seminar in Motivation and Organization Change (3)

Prerequisite: Graduate business standing.

Human motivation and organizational change. Traditional and modern theories of work motivation and change. Psychology and management of motivation, organizational change and development. Management skills, policies, and organizational characteristics that facilitate the creation of motivating, flexible organizations.

Letter grade only (A-F).

657. Seminar in Leadership Skills (3)

Prerequisite: Graduate business standing.

Development of leadership abilities. Effectiveness of numerous approaches to leadership from both managerial and psychological viewpoints. Understanding leadership styles and abilities of self and others through assessment. Personality, situational factors, group processes, followership, and implications for leadership training

Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Individual study under the direction of the faculty.

Letter grade only (A-F).

Information Systems Courses (IS)

520. Spreadsheet Modeling (3)

Prerequisites: Graduate business standing, IS 601.

Advanced topics in spreadsheet tools and techniques, such as advanced functions, solver and curve fitting. To model and solve business problems in optimization, forecasting, customer profitability, customer loyalty and online reviewer behavior.

Letter grade only (A-F).

531. Professional Communication (3)

Prerequisite: Graduate business standing.

In-depth study of effective professional communication practices within diverse organizations and professional settings. Techniques and practices of professional etiquette, ethics, interpersonal and collaborative relationships, and targeted writing and presentations are emphasized. Strategies for work-life issues and evolving communication technologies highlighted.

Letter grade only (A-F).

540. Business Application Programming (3)

Prerequisite: Graduate business standing.

Introduce Object-oriented programming concepts and constructs. Analyze, design, and implement Windows-based business applications that fully utilize the Graphical User Interface tools and techniques. Develop a fully functioning enterprise information system that utilizes advanced programming techniques for interacting with the database.

Letter grade only (A-F).

545./445. Internet Applications Development (3)

Prerequisites: Graduate business standing, IS 602 or equivalent, and consent of instructor.

Theory and applications of the Internet. Applications development using tools such as HTML and FrontPage. Use and development of Intranet applications in the Client/Server environment. Issues such as Internet business opportunities, network security, home page maintenance, Internet database interface and cooperative computing.

Letter grade only (A-F).

550. Business Telecommunications Management (3)

Prerequisites: Graduate business standing, and IS 602 or equivalent.

Introduction to the technologies and applications of telecommunications and networking. Infrastructure planning and operation of organizational telecommunication networks. Management and control of Internet servers and mobile systems. Telecommunication regulation and standards.

Letter grade only (A-F).

556. Information Systems Security and Assurance (3)

Prerequisite: Graduate business standing.

Foundation and applications of information security and assurance. Principles and methodologies of security risk and assessment. System protection and design, cryptography, and hardware and software tools. Assurance and management control. Security plans and policies. Integrated Project.

Letter grade only (A-F).

557. Wireless Systems and Mobile Applications (3)

Prerequisites: Graduate business standing, IS 540.

Topics include technical and business aspects of wireless networking and mobile applications to support business operation and business management. Mobile application framework, mobile application design and development, human interface design, and current technology issues.

Letter grade only (A-F).

564./464. Network Modeling and Simulation (3)

Prerequisites: Graduate business standing, IS 601.

Fundamentals of simulation methodology for performance and feasibility study of business models. Basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, and computer network performance measurement via simulation and use of computer software simulation packages.

Letter grade only (A-F).

570. Business Intelligence (3)

Prerequisites: Graduate business standing, IS 601.

Extract useful information (business intelligence BI) from large volumes of data or internet using BI software. Theories and applications in business intelligence and business analytics. Topics include recommender system, collaborative filtering, web text mining, social network analysis, advance customer analytics.

Letter grade only (A-F).

580. Management Support Systems and Database Management Systems (3)

Prerequisites: Graduate business standing, and IS 602 or equivalent.

Use of information and database techniques to support management decision making. Decision support systems, groupware, expert systems, executive information systems, database management systems (DBMS), database analysis and design, database manipulation languages (SQL and QBE), and data warehousing.

Letter grade only (A-F).

581. Advanced Database Management (3)

Prerequisites: Graduate business standing, IS 580.

Advanced topics in database management. Enterprise data needs, analysis and design. Development and management of complete database management system applications. Administration of large scale enterprise database. Latest issues and trends in database technologies.

Letter grade only (A-F).

582. Enterprise Systems (3)

Prerequisites: Graduate business standing, IS 540.

Advanced theories and application of enterprise systems. Understanding, design, and development of major business processes in enterprise systems. Issues and management of enterprise systems adoption. Enterprise systems configuration and customization. Lectures, hands-on, and case studies.

Letter grade only (A-F).

583. Advanced Business Programming (3)

Prerequisites: Graduate business standing, IS 540.

Advanced topics in business application development. Emphasis on design and development of applications to improve business operation and new business models. Topics include business process analysis, application design, application development, human interface design and current technical issues.

Letter grade only (A-F).

584. Electronic Commerce (3)

Prerequisites: Graduate business standing, and IS 602 or equivalent.

Theory and applications of electronic commerce including issues such as E-cash, E-banking, E-tailing, SCM, E-marketing, B2C, B2B, C2C, E-government, Internet business opportunities, Internet security homepage maintenance, Internet database interface and cooperative computing.

Letter grade only (A-F).

585. System Analysis and Design (3)

Prerequisites: Graduate business standing, IS 602.

Introduction to current and emerging practices, concepts, and methodologies of systems analysis and design. Requirements analysis, business process modeling, conceptual and physical design, systems implementation and maintenance, project management and teamwork, roles and responsibilities of systems analysts.

Letter grade only (A-F).

595. Information Systems Project (3)

Prerequisites: Graduate business standing, IS 585.

Theories and practice in managing large scale information systems projects. Issues include cost estimation, personnel management, requirement analysis, system design methods, quality control of software projects, system validation, and configuration management.

Letter grade only (A-F).

601. Quantitative Methods for Managerial Decision Making (3)

Prerequisite: Graduate business standing.

Statistical analysis includes probability, estimation, hypothesis testing, forecasting and decision process. Management sciences include quantitative modeling, math programming, decision support systems and simulation applicable to various business functions. Use of computer software packages as analytical tools.

May be repeated to a maximum of 3 units. Letter grade only (A-F).

602. Management of Information Systems (3)

Prerequisite: Graduate business standing.

Foundation and infrastructure of information technology applied to strengthen competitiveness. Effective utilization of strategic information systems, telecommunications, system development process, database concepts and electronic commerce to enhance organizations' operations.

Letter grade only (A-F).

615. Information and Decision Systems (4)

Prerequisite: Graduate business standing.

Information and decision technology systems used in managerial decision making. Data-related concepts and subjects. Role of information systems in business. Data analysis and interpretation using statistical and quantitative techniques. Use of appropriate software.

Letter grade only (A-F).

645. Internet Applications in Business (3)

Prerequisite: Graduate business standing, IS 540.

Concepts of Web protocols and Web services. Client side and server side Web application development concepts. HTML, CSS and JavaScript development. Web site design and development issues and best practices. Cutting edge Web technology and development tools.

Letter grade only (A-F).

664. Modeling and Simulation (3)

Prerequisite: Graduate business standing, IS 601.

Theory with hands-on lab sessions to explore technical skills to understand and model information systems. Introduction to the techniques and modeling tools to construct and analyze performance models of telecommunication networks, business decision-making, logistics, supply chain systems.

Letter grade only (A-F).

684. Electronic Business (3)

Prerequisite: Graduate business standing, IS 602.

Electronic business. Infrastructure and platform, Technology based innovation. Business models. Cash flow and valuation. Issues in B2C, B2B, C2C, mobile, social commerce, e-government,

web analytics, security and payment systems, social networks, ethics, and intellectual property. Systems implementation and performance.

Letter grade only (A-F).

695. Selected Topics in Information Systems (3)

Prerequisites: Graduate business standing and consent of instructor.

Letter grade only (A-F). Topics announced in the *Schedule of Classes*.

697. Directed Studies (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Individual study under the direction of the faculty.

Letter grade only (A-F).

Management Courses (MGMT)

500. Business Policies, Operations and Organizations (3)

Prerequisite: Graduate business standing.

Recommended Preparation: IS 310.

Theory and philosophies of administrative organizations systems, information systems, management functions, decision making, strategy and policy formulation, operations planning, and control systems.

Letter grade only (A-F).

541. Industrial Logistics (3)

Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

Systems analysis and synthesis of the general logistics system containing the marketing, production, and transportation activities. Definition of system components of outputs, activities and inputs. Specification and quantification of the major functional relationships interrelating these components.

Letter grade only (A-F).

542. Seminar in Entrepreneurship and New Venture Creation (3)

Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

Explores dimensions of new venture creation and growth. Covers basics of entrepreneurial processes. Teaches students skills in identifying opportunities, obtaining resources, managing and growing entrepreneurial organizations, and creating value for stakeholders. Students choose businesses and develop new venture plans.

Letter grade only (A-F).

543. International Business Policy (3)

Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

Current theory and principles of international business management pertaining to problems of formulating policy and developing strategies and tactics in the multinational corporation. Case studies, readings, logistic analysis and research report.

Letter grade only (A-F).

615. Fundamentals of Management, Organizational Behavior and Human Resources (4)

Prerequisite: Graduate business standing.

Functions of management, with emphasis on theory from human resource management and organizational behavior. Strategy formulation, managing change, managing performance, hiring, firing, and motivating employees. Case studies, readings, simulation exercises, diagnostic reports, and presentations.

Letter grade only (A-F).

646. Seminar in Managing Mergers and Acquisitions (3)

Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

Reasons for trend of mergers and acquisitions. Examination of the merger and acquisition process. Coordination and integration across business boundaries, exploiting synergies, strategic vs. operating focus, hierarchical structure of combined companies, learning transfer, and the rationalization of shared activities.

Letter grade only (A-F).

647. Seminar in Strategic Management (3)

Prerequisites: Graduate business standing, and MGMT 500 or equivalent.

Analysis of planning and control systems in management. Use of case studies and problems.

Letter grade only (A-F).

695. Selected Topics in Management (3)

Prerequisite: Graduate business standing.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

697. Directed Studies (1-3)

Prerequisites: Graduate business standing and consent of instructor.

Individual study under the direction of the faculty.

Letter grade only (A-F).

Marketing Courses (MKTG)**500. Marketing Concepts (3)**

Prerequisite: Graduate business standing.

Overview of the decision process in marketing. Consideration of functional areas and their interaction with the total operations of the firm. Introduction to the development of marketing strategy and planning.

Letter grade only (A-F).

615. Marketing Management (3)

Prerequisites: Graduate business standing, basic Accounting, basic Finance, basic Statistics, Intermediate Microeconomics.

Decision process in marketing, functional areas and interaction with the total operations of the firm. Solving of practical, domestic and international, profit- and non-profit-oriented marketing problems. Sophisticated strategic and tactical, qualitative and quantitative case analysis, simulation, and discussion. Marketing principles and technologies.

Letter grade only (A-F).

661. Seminar in Marketing Policies (3)

Prerequisites: Graduate business standing, MKTG 500.

Solving practical, profit-oriented problems in marketing. Sophisticated case analysis and discussion. Application of marketing principles and technologies, including information systems, databases, behavioral theories, and management techniques.

Letter grade only (A-F).

663. Seminar in Social and Digital Media Marketing (3)

Prerequisites: Graduate business standing, MKTG 500.

The role of social and digital media in marketing such as e-commerce, search optimization, mobile applications, online communication, and gaming. Digital analytics of business model, and future trends.

Letter grade only (A-F).

665. Seminar in Marketing Research (3)

Prerequisites: Graduate business standing, MKTG 500, and IS 601.

The role of research in the solution of marketing problems. Research methods in collecting, analyzing, and interpreting information for business use. Survey and experimental approaches included. Case studies and/or class projects required.

Letter grade only (A-F).

666. Seminar in International Marketing (3)

Prerequisites: Graduate business standing, MKTG 500.

The study of global marketing theory and practice. Analysis of cultural foundations, foreign entry, local marketing, and global marketing management. Emphasis on cross-cultural differences in consumer behavior, importance of emerging markets, and public policy issues.

Letter grade only (A-F).

667. Marketing and Sustainability

Prerequisite: Graduate standing and consent of instructor.

Topics in sustainability and marketing. Integration of profit, environment and society into marketing decision-making. Analysis and development of sustainable business situations and alternatives. Learn to develop realistic and feasible sustainable marketing strategies.

Letter grade only (A-F).

668. Seminar in Consumer Behavior (3)

Prerequisites: Graduate business standing, MKTG 500.

Topics in the behavioral sciences as they apply to marketing. Application of psychological, sociological, anthropological, and economic theories and models to the understanding of buyer behavior and the development of marketing strategy.

Letter grade only (A-F).

669. Seminar in Strategic Planning (3)

Prerequisites: Graduate business standing, MKTG 661.

The role and use of marketing research and information systems as the basis for development and implementation of marketing strategy. Case studies and/or class projects required.

Letter grade only (A-F).

695. Selected Topics in Marketing (3)

Prerequisites: Graduate business standing and consent of instructor.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

697. Directed Studies (1-3)

Prerequisites: Graduate business standing, consent of instructor and department chair.

Individual study under the direction of the faculty.

Letter grade only (A-F).

Operations and Supply Chain Management (SCM)**500. Research Methods for Supply Chain Management (3)**

Prerequisite: Graduate Standing.

Applications of research methods to topics in supply-chain management and logistics, with an emphasis on descriptive and inferential statistics.

Letter grade only (A-F).

520. Business Economics (3)

Prerequisite: Graduate Standing.

Development of microeconomic analytic tools and their application to problems in business and management. Topics include unconstrained and constrained economic optimization, capital theory, product and factor markets, market structures, forecasting, and cost-benefit analysis.

Letter grade only (A-F).

611. Operations Planning and Analysis (3)

Prerequisite: Graduate Standing.

Advanced topics on work system design, business process reengineering, and using analytics to make operational decisions such as inventory control, capacity management and scheduling. Emerging operations practices in various industries and hands-on software experiences are included.

Letter grade only (A-F).

614. Supply Chain Management (3)

Prerequisite: Graduate Standing.

Introduce the concepts, insights and tools for the effective management of the supply chain. Emphasis on both strategic and tactical decisions. Topics include inventory management, value of information, network design, distribution strategies, strategic alliance, revenue management, and international issues.

Letter grade only (A-F).

620. Business Analytics for Supply Chain Management (3)

Prerequisite: Graduate Standing.

Use advanced techniques such as predictive analytics, optimization, and simulation to make data-oriented decisions that improve operational effectiveness and supply chain coordination. Topics include business statistics, Solver, dynamic optimization, and case studies using Arena simulation.

Letter grade only (A-F).

SCM 625. Global Supply Chain Strategy (3)

Prerequisite: Graduate Standing.

Current theory and principles of global business pertaining to problems of formulating and implementing strategies and tactics in multinational corporations. Special emphasis on management of supply chain operations across cultural, economic, and political boundaries. Case studies, readings, and research report.

Letter grade only (A-F).

630. Project Management (3)

Prerequisite: Graduate Standing.

This course focuses on the planning, implementation, and control of projects. Coverage will include project definition, time and cost management, conflict resolution and team processes, scheduling and lifecycle management. Computerized network models and project management software packages are included.

Letter grade only (A-F).

640. Logistics and Transportation Management (3)

Prerequisite: Graduate Standing.

Economic analysis of freight transportation, demand, and cost factors, market structures, public policy and regulation, social and environmental impacts. Introduction to the logistics and economics of goods movement via ocean, surface, air, and intermodal strategies.

Letter grade only (A-F).

657. Seminar in Supply Chain Leadership (3)

Prerequisite: Graduate Standing.

This course emphasizes the interpersonal skills necessary for individuals in supply chain leadership positions. Group processes, situational factors, change management, and leading diverse individuals are discussed. Leadership self-assessment is included

to aid understanding of one's own leadership abilities.

Letter grade only (A-F).

699. Capstone Project for Global Supply Chain Management (3)

Prerequisite: Graduate standing or consent of instructor.

A Capstone Project for Global Supply Chain Management. Students will complete a term project that allows them to integrate their knowledge of Global Supply Chain Management. In addition to submitting a written paper, students are required to make an oral presentation of their analysis.

Letter grade only (A-F).

Undergraduate Advisor: Sergio Mendez

Graduate Advisor: Chih-Cheng Lo

Environmental Technology Advisor: Sergio Mendez

General Education Advising: Academic Advising - Horn Center

Career Possibilities

Chemical Engineer • Process Engineer • Automation Control Engineer • Chemical Research Engineer • Chemical Test Engineer • Biochemical Engineer • Biomedical Engineer • Technical Sales • Management • Technical Writer • Quality Control Specialist • Consultant • Safety Engineer • Environmental Engineer • (Some of these careers require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

Chemical engineering is a major that opens the way for many career opportunities. As the name implies, chemical engineers must build a foundation on engineering, science, and math while specializing in the application of chemistry to engineering systems. This is a versatile major that also encourages students to take courses from the other engineering disciplines as well as the biological sciences. In general, chemical engineers integrate their broad knowledge and analytical skills to design, implement and optimize chemical processes that convert raw materials into valuable products in a sustainable manner. Chemical engineers ensure that processes are operated safely and economically with minimum energy consumption and waste emission. Many of our graduates find career opportunities in traditional industries such as petroleum refining, energy production, chemical manufacturing and pharmaceuticals. Because of their diverse technical skill set, our graduates are increasingly finding employment in emerging industries such as alternative energy, biomedical engineering, environmental engineering, semiconductors, materials, and nanotechnology.

Program Educational Objectives

The Chemical Engineering bachelor degree program's educational objective statement is directed towards the career accomplishments and expectations of the alumni. The objectives of the program are that recent alumni become successful in their professional careers, and that they continue on a path of professional development.

The Bachelor of Science in Chemical Engineering program objectives are to produce well-rounded graduates who, after entering the chemical engineering practice, will progress to leadership roles by:

- Applying the knowledge, principles, and skills of chemical engineering to the solution of complex engineering problems;

- Practicing safety, sustainability, and ethics throughout their professional careers;
- Communicating effectively and working collaboratively in multidisciplinary teams;
- Pursuing life-long learning through continued education, professional registration, and participation in professional organizations.

The faculty members of the Department of Chemical Engineering strive to continuously improve the program and the curriculum as well as laboratory facilities to ensure the professional career success of our recent graduates. The goal is to prepare students for a wide range of career routes that use chemical engineering principles with a solid foundation in engineering, math, science, and societal awareness. The scope of this program is broadened by courses from general education as well as specialized technical elective courses in chemical engineering and other engineering disciplines. Students develop teamwork skills and gain interdisciplinary experience particularly in laboratory courses, lecture courses with laboratory components, and the capstone design class that require team projects. This program provides ample opportunities for students to develop communication skills such as oral and poster presentations as well as written technical reports. Students are encouraged to participate in life-long learning activities such as professional meetings on or off campus and field trips. The goal is to have a comprehensive, student-centered program that can allow us to meet the educational objectives.

Chemical Engineering Advisory and Development Council

The Department of Chemical Engineering Advisory and Development Council, consisting of outstanding engineers and executives from industry and government in Southern California, provides guidance to our program. Its mission is to advise and assist in developing the Department and to support its efforts to serve students, the community, and industry. This liaison between the University and industry ensures that industry concerns are addressed in our curricula and provides career guidance for our graduates.

ABET Accreditation

The Bachelor of Science in Chemical Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

Other Related Programs

Students interested in obtaining a Minor in Environmental Engineering should refer to the College of Engineering section of this catalog. Students who take required Chemistry courses are most likely eligible for Minor in Chemistry degree. See the College of Natural Science and Mathematics section of this catalog.

Students wishing to pursue advanced study may be interested in the College of Engineering's Master of Science in Engineering (MSE) degree. Thesis work may be supervised by chemical engineering faculty. For detailed MSE requirements, see the College of Engineering section of this catalog.

Grade Requirements

In addition to other University requirements, all students must obtain a grade of "C" or better in each prerequisite for any chemical engineering course. Also, required Written English (GE A1), Speech (GE A2), and Interdisciplinary (IC) courses must be taken for a letter grade, not Credit/No Credit.

Undergraduate Programs

Bachelor of Science In Chemical Engineering (120 units)

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Chemical Engineering). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Chemical Engineering must also meet similar major specific requirements. To become fully admitted into the Chemical Engineering major, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses with a minimum grade of "C" prior to earning 60 units:

Core Lower-Division Major Requirements:

MATH 122 (Calculus I), MATH 123 (Calculus II), PHYS 151 (Mechanics and Heat), CHEM 111A (General Chemistry)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade of "C" or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

A grade of "C" or better must be achieved in all required courses listed below.

Lower Division:

Take all the following courses:

CH E 200 Chemical Engineering Fundamentals (3)
Prerequisites: CHEM 111A, MATH 122, PHYS 151 all with a grade of "C" or better. Corequisite: CHE 210.

CH E 210 Computer Methods in Chem Engineering (3)
Corequisite: CHE 200

CH E 220 Chemical Engineering Thermodynamics I (3)
Prerequisite: CH E 200 with a grade of "C" or better.

CHEM 111A General Chemistry (5)
Prerequisites: A passing score on the Chemistry Placement Examination and a "C" or better in MATH 113 or MATH 117 or MATH 119A or MATH 122. One year of high school chemistry is strongly recommended.

CHEM 111B General Chemistry (5)
Prerequisite: CHEM 111A and MATH 113 or MATH 115 or MATH 117 or MATH 119A or MATH 122 all with a grade of "C" or better.

C E 205 Analytical Mechanics I (Statics) (3)
Prerequisite: PHYS 151 with a grade of "C" or better.
Prerequisite/Corequisite: MATH 123.

ENGR 101 Introduction to Engineering Profession (1)
Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122

ENGR 102 Academic Success Skills (1)
Prerequisite: ENGR 101 with a grade of "C" or better.

CH E 100 Introduction to Chemical Engineering (1)
Prerequisite: None.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113, or a grade of "C" or better in MATH 117.

MATH 123 Calculus II (4)
Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)
Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.

PHYS 151 Mechanics and Heat (4)
Prerequisite/Corequisite: MATH 122.

Take one of the following choices:

PHYS 152 Electricity and Magnetism (4)
Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

or both of the following:

EE 210 Electro-Magnetic Foundations in EE (3)
Prerequisite: PHYS 151 with a grade of "C" or better.
Corequisites: MATH 123, EE 210L.

EE 210L Electro-Magnetic Foundations in EE Lab (1)
Corequisite: EE 210

Take one of the following choices:

CHEM 220A, CHEM 223A, CHEM 220B, and CHEM 223B

or

CHEM 227 and one of the following: BIOL 200, BIOL 205, or BIOL 211

Upper Division:

Take all the following courses:

CH E 310 Chemical Engineering Thermodynamics II (3)
Prerequisites: CHE 210, CHE 220 all with a grade of "C" or better.

CH E 320 Fluids (3)
Prerequisites: CH E 200, C E 205 all with a grade of "C" or better.

CH E 330 Separation Processes (3)
Prerequisite: CHE 310 all with a grade of "C" or better

CH E 420 Heat and Mass Transport (3)
Prerequisites: CHE 310, CHE 320 all with a grade of "C" or better.

CH E 430 Chemical Reactor Kinetics (3)
Prerequisites: (CHEM 371A or CHEM 375), (MATH 370A or CHE 480) all with a grade of "C" or better.
Corequisite: CHE 420

CH E 440 Chemical Engineering Laboratory I (2)
Prerequisites: CHE 320, CHE 330 all with a grade of "C" or better.

CH E 450 Chemical Engineering Laboratory II (2)
Prerequisites: CHE 420, CHE 430, CHE 440 all with a grade of "C" or better.
Corequisite: CHE 460

CH E 460 Chemical Process Control (3)
Prerequisites: CHE 420, CHE 430, and (MATH 370A or CHE 480) all with a grade of "C" or better

CH E 470 Chemical Engineering Design (4)
Prerequisites: CHE 330, CHE 420, CHE 430 all with a grade of "C" or better.
Corequisite: CHE 460

CHEM 375 Physical Chemistry for Engineers(3)
Prerequisites: MATH 123; PHYS 151 and either PHYS 152 or EE 210/EE 210L; CH E 310; CHEM 111A/B; and CHEM 220A or CHEM 227, all grades of "C" or better.

MATH 370A Applied Mathematics I (3)
Prerequisites: A grade of "C" or better in MATH 123. Exclude freshmen.

Take six units from the following courses:

CHE 300, CHE 415, CHE 431, CHE 432, CHE 433,
CHE 437, CHE 445, CHE 455, CHE 475, CHE 480,
CHE 485, CHE 490;

All students are encouraged to attempt FE Exam. Those who pass the FE Exam before graduation can waive 3 units of elective course.

Minor in Environmental Engineering

For requirements, see the description in the College of Engineering section of this catalog.

Chemical Engineering Courses (CH E)

LOWER DIVISION

100. Introduction to Chemical Engineering (1)

Chemical engineering as a profession. Nature of profession and career opportunities. Emerging frontiers of chemical engineering. (Lecture 1 hour) Letter grade only (A-F).

200. Chemical Engineering Fundamentals (3) F

Prerequisites: CHEM 111A, MATH 122, PHYS 151 all with a grade of "C" or better.

Corequisite: CHE 210.

Dimensional analysis of units, steady and transient balances of mass, momentum and energy, the mathematical solution of chemical engineering problems.

(Lecture-problems 3 hrs) Letter grade only (A-F).

210. Computer Methods in Chemical Engineering (3) F

Corequisite: CHE 200

Beginning programming and techniques of numerical analysis applied to typical problems in chemical engineering.

(Lecture-problems 2 hours, lab 3 hours) Letter grade only (A-F).

220. Chemical Engineering Thermodynamics I (3) S

Prerequisite: CH E 200 with a grade of "C" or better.

Applications of the first and second laws of thermodynamics to chemical processes. Concepts of heat, work, and energy. Energy balances in batch and flow processes, with and without chemical reaction. Gas behavior, phase change, vapor pressure, humidity.

(Lecture-problems 3 hours) Letter grade only (A-F).

UPPER DIVISION

300. The Chemical Industry (3)

Prerequisite: CH E 200 with a grade of "C" or better.

Survey of industrial chemical processing techniques and the activities of engineers in this area, illustrated by field trips, speakers, professional society meetings, films, readings, etc. (Lecture 3 hours) Letter grade only (A-F).

310. Chemical Engineering Thermodynamics II (3) F

Prerequisites: CH E 210, CH E 220 all with a grade of "C" or better.

Analysis and design of process equipment and systems using thermodynamics. Turbines, compressors, power plants, refrigeration cycles. Phase equilibria and nonideal solution behavior. Chemical reaction equilibria and heat effects.

(Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CHE 410.

320. Fluids (3) S

Prerequisites: CH E 200, C E 205 all with a grade of "C" or better.

Study of the deformation and flow of fluids, both liquids and gases, with applications to chemical engineering.

(Lecture-problems 3 hours) Letter grade only (A-F).

330. Separation Processes (3) F

Prerequisite: CHE 310 with a grade of "C" or better.

Computation methods for predicting the separation of materials by distillation, absorption, extraction and other methods.

(Lecture-problems 2 hours, lab 3 hrs) Letter grade only (A-F).

415./515. Occupational and Environmental Safety Engineering and Management (3)

Prerequisite: CHEM 227 all with a grade of "C" or better or consent of instructor.

Safety analysis and management, legislation, regulations and standards; toxicology and personal protective equipment; fire hazards; noise control; electrical safety; container and spill management; statistical analysis. Extra requirements for graduate students.

(Lecture-problems 3 hours) Letter grade only (A-F).

420. Heat and Mass Transport (3) F

Prerequisites: CHE 310, CHE 320 all with a grade of "C" or better.

Heat exchange by conduction, convection and radiation. Diffusion in fluids and solids. Simultaneous heat and mass transport.

(Lecture-problems 2 hours, lab 3 hours) Letter grade only (A-F).

430. Chemical Reactor Kinetics (3) F

Prerequisites: (CHEM 371A or CHEM 375), (MATH 370A or CHE 480) all with a grade of "C" or better.

Corequisite: CHE 420

Homogeneous and heterogeneous reactions and application to reactor design, catalysts.

(Lecture-problems 2 hours, lab 3 hours) Letter grade only (A-F).

431./531. Heterogeneous Catalysts (3)

Prerequisite: CHE 430 with a grade of "C" or better or consent of instructor.

Basic principles of solid catalysts and solid catalyzed reactions. Proper choice of catalysts and how to solve catalyst-related problems in chemical engineering. Development of chemical processes that utilize innovative catalysts. Graduate students will need to do more assignments.

Letter grade only (A-F). (Lecture-problems 3 hours).

432./532. Microfabrication and Microfluidics Technology (3)

Prerequisites: CHE 320, CHEM 227, (MATH 370A or CHE 480) all with a grade of "C" or better or consent of instructor.

Fundamentals of major microfabrication techniques for device construction and microfluidics technology. Topics: photolithography, wet/dry etching, metal/dielectric deposition, soft lithography, diffusion/mixing/separation in microfluidic devices, and chip-to-world interfaces. Graduate students need to do more assignments.

Letter grade only (A-F). (Lecture-problems 3 hours).

433./533. Green Engineering I: Alternative Energy (3)

Prerequisites: CHE 220, CHE 330, CHE 310 all with a grade of "C" or better or consent of instructor.

Aspects of green engineering. Sustainable liquid fuels: ethanol and biodiesel from renewable sources. Photovoltaic solar devices: semiconductor- and polymer-based solar cells. Solar array collectors: power cycles to convert heat to electrical power. Hydrogen fuel cells: electrochemical cells, and proton exchange membranes. Graduate students will submit final written reports.

Letter grade only (A-F). (Lecture-Problems 3 hours).

437./537. Materials Purification Processes (3)

Prerequisite: CHE 330, CHE 420 all with a grade of "C" or better or consent of instructor.

Rate-controlled separation processes such as membrane separations, pressure swing adsorption, molecular sieve separation, supercritical fluid extraction, reverse osmosis, and spray drying.

Additional projects required for CHE 537. (Lecture-problems 3 hours) Letter grade only (A-F).

439. Fuel Cell Fundamentals and Theory (3)

Prerequisites: MAE 322 and 330; or CHEM 371A all with a grade of "C" or better

Theory of electrochemistry. Survey of electrochemical fuel cell systems. Fundamentals of electrochemical thermodynamics, electrochemical kinetics, charge transport, and mass transport. Review of fuel cell modeling and characterization techniques. Atomic level density functional theory (DFT) calculations of a fuel cell catalytic reaction.

Letter grade only (A-F). (Lecture-problem 3 hours).

440. Chemical Engineering Laboratory I (2) F

Prerequisites: CHE 320, CHE 330 all with a grade of "C" or better.

Laboratory study of fluid mechanics, separation processes and thermodynamics. Experimental design and analysis and preparation of engineering reports.

(Laboratory 6 hours) Letter grade only (A-F).

445./545. Pollution Prevention (3)

Prerequisite: CHE 330 with a grade of "C" or better.

Pollution prevention strategies in chemical industry. Hierarchical approach of waste minimization. Life cycle analyses of wastes. Identification of pollution source. Environmentally compatible materials. Unit operations for minimizing waste. Economics of pollution prevention. Extra requirement for graduate students.

(Lecture-problems 3 hours) Letter grade only (A-F).

450. Chemical Engineering Laboratory II (2) S

Prerequisites: CHE 420, CHE 430, CHE 440 all with a grade of "C" or better.

Corequisite: CHE 460

Laboratory study of heat and mass transport, chemical kinetics and control theory. Experimental design and analysis and preparation of engineering reports.

(Laboratory 6 hours) Letter grade only (A-F).

455./555. Environmental Compliance (3)

Prerequisite: CHEM 227 with a grade of "C" or better or consent of instructor.

Physical and chemical properties of hazardous materials and wastes. Environmental hazards. An examination of environmental laws, regulations and standards dealing with storage, transportation, treatment and disposal of hazardous wastes. Emergency planning and preparedness. Extra requirement for graduate students: term papers or projects.

(Lecture-problems 3 hours) Letter grade only (A-F).

460. Chemical Process Control (3) S

Prerequisites: CHE 420, CHE 430, and (MATH 370A or CHE 480) all with a grade of "C" or better.

Control theory and practice, instrumentation, system responses, transfer functions, feed-back control, and stability as applied to chemical engineering processes.

(Lecture-problems 2 hours, lab 3 hours) Letter grade only (A-F).

470. Chemical Engineering Design (4) S

Prerequisites: CHE 330, CHE 420, CHE 430 all with a grade of "C" or better.

Corequisite: CHE 460

One-semester capstone design course fulfilling integrative learning. Design and optimization of chemical processing plants using analytical methods and modern computer simulation tools. Chemical process equipment sizing. Economic, ethical and safety issues considered. Teamwork, oral presentations and written reports are required.

(Lecture-problems 3 hours, problem-design session 3 hrs) Letter grade only (A-F).

475./575. Environmental Pollution (3)

Prerequisite: CHEM 220A or CHEM 227 all with a grade of "C" or better or consent of instructor.

Application of chemistry to the problems of pollution. Graduate students have additional assignments.

(Lecture-problem 3 hours) Letter grade only (A-F).

480./580. Theoretical Methods in Chemical Engineering (3)

Prerequisites: CHE 420, CHE 430 all with a grade of "C" or better.

Simulation and optimization of chemical engineering processes by mathematical formulation and computer modeling.

Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).

485./585. Air Pollution (3)

Prerequisite: CHE 475 or CE 364 all with a grade of "C" or better or consent of instructor.

Air pollution chemistry; control strategies; origin of pollutants; meteorology; vapor dispersion models; control principles for particulates, sulfur dioxide, and nitrogen oxides.

Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hrs) Letter grade only (A-F).

490. Special Problems (1-3)

Prerequisite: Consent of instructor.

Assigned topics in technical literature or laboratory projects and reports on same.

Letter grade only (A-F).

GRADUATE LEVEL

505. Advanced Chemical Engineering Thermodynamics (3)

Prerequisite: CHE 310 or equivalent course

Modern equations of state. Theoretical treatment of non-ideal multiphase equilibria. Statistical mechanics and ensembles to describe thermodynamic properties and fundamental property relations. Non-equilibrium thermodynamics with applications to chemical reaction kinetics. Optimization of power and refrigeration cycles.

Letter grade only (A-F). (Lecture-problem 3 hours).

515./415. Occupational and Environmental Safety Engineering and Management (3)

Prerequisite: CHEM 227 all with a grade of "C" or better or consent of instructor.

Safety engineering and management, legislation, regulations and standards; toxicology and personal protective equipment; fire hazards; noise control; electrical safety; system safety analysis; container and spill management; use of computer systems and statistical methods.

Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).

520. Advanced Transport Phenomena (3)

Prerequisites: CH E 320, CHE 420, CHE 430 all with a grade of "C" or better.

Application of differential and integral mass, momentum and energy balances to chemical engineering processes. Analysis of fluid flow, heat transfer, diffusion and chemical reaction in various unit operations.

(Lecture-Problems 3 hours) Letter grade only (A-F).

530. Advanced Reactor Kinetics (3)

Prerequisite: CH E all with a grade of "C" or better.

Modeling of chemical reactors; effects of multiple phases, mixing, adsorption, diffusion and catalysts on reactor performance.

(Lecture-Problems 3 hrs) Letter grade only (A-F).

531./431. Heterogeneous Catalysts (3)

Prerequisite: CHE 430 with a grade of "C" or better or consent of instructor.

Basic principles of solid catalysts and solid catalyzed reactions. Proper choice of catalysts and how to solve catalyst-related problems in chemical engineering. Development of chemical processes that utilize innovative catalysts. Graduate students will need to do more assignments.

Letter grade only (A-F). (Lecture-Problems 3 hours)

532./432. Microfabrication and Microfluidics Technology (3)

Prerequisites: CHE 320, CHEM 227, MATH 370A or CHE 480 all with a grade of "C" or better or consent of instructor.

Fundamentals of major microfabrication techniques for device construction and microfluidics technology. Topics: photolithography, wet/dry etching, metal/dielectric deposition, soft lithography, diffusion/mixing/separation in microfluidic devices, and chip-to-world interfaces. Graduate students need to do more assignments.

Letter grade only (A-F). (Lecture-Problems 3 hours).

533./433. Green Engineering I: Alternative Energy (3)

Prerequisites: CHE 220, CHE 330, CHE 310 all with a grade of "C" or better or consent of instructor.

Aspects of green engineering. Sustainable liquid fuels: ethanol and biodiesel from renewable sources. Photovoltaic solar devices: semiconductor- and polymer-based solar cells. Solar array collectors: power cycles to convert heat to electrical power. Hydrogen fuel cells: electrochemical cells, and proton exchange membranes. Graduate students will submit final written reports.

Letter grade only (A-F). (Lecture-Problems 3 hours).

537./437. Materials Purification Processes (3)

Prerequisites: CH E 330, CH E 420 all with a grade of "C" or better. or consent of instructor.

Rate-controlled separation processes such as membrane separations, pressure swing adsorption, molecular sieve separation, supercritical fluid extraction, reverse osmosis, and spray drying.

Additional projects required for CH E 537. (Lecture-problems 3 hours) Letter grade only (A-F).

545./445. Pollution Prevention (3)

Prerequisite: CH E 330 with a grade of "C" or better.

Pollution prevention strategies in chemical industry; hierarchical approach waste minimization; life cycle analyses of wastes; identification of pollution source; environmentally compatible materials; unit operations for minimizing waste; economics of pollution prevention.

Extra requirement for graduate students. (Lecture-problems 3 hours) Letter grade only (A-F).

555./455. Environmental Compliance (3)

Prerequisite: CHEM 227 with a grade of "C" or better or consent of instructor.

Physical and chemical properties of hazardous materials and wastes. Environmental hazards. An examination of environmental laws, regulations and standards dealing with storage, transportation, treatment and disposal of hazardous wastes. Emergency planning and preparedness.

Extra requirement for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).

560. Advanced Chemical Process Control (3)

Prerequisite: One of the following: CH E 460, E E 370/L, E E 411, EE 470, EE 471, EE 511, MAE 376, E T 492 all with a grade of "C" or better or consent of instructor.

Principles and practices of controller selection and tuning, advanced control loops, model predictive control, decoupling, hands-on experience of control loop design and implementation using Labview.

(Lecture-Problems 3 hours) Letter grade only (A-F).

575./475. Environmental Pollution (3)

Prerequisite: CHEM 220A or CHEM 227 all with a grade of "C" or better or consent of instructor.

Application of chemistry to the problems of pollution. Graduate students have additional assignments.

(Lecture-problem 3 hours). Letter grade only (A-F).

580./480. Theoretical Methods in Chemical Engineering (3)

Prerequisites: CH E 420, CHE 430 all with a grade of "C" or better.

Simulation and optimization of chemical engineering processes by mathematical formulation and computer modeling.

Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).

585./485. Air Pollution (3)

Prerequisite: CH E 475 or CE 364 all with a grade of "C" or better or consent of instructor.

Air pollution chemistry; control strategies; origin of pollutants; meteorology; vapor dispersion models; control principles for particulates, sulfur dioxide, and nitrogen oxides.

Extra requirement for graduate students: term papers or projects. (Lecture-problems 3 hrs) Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Graduate standing.

Individual research or intensive study under the guidance of a faculty member on theoretical or experimental problems in chemical engineering.

(Independent Study) Letter grade only (A-F).

698. Thesis or Industrial Project (2-6)

Prerequisite: Advancement to Candidacy.

Preparation and completion of a thesis or industrial project in chemical engineering.

May be repeated to a maximum of 6 units.

CHEMISTRY AND BIOCHEMISTRY

College of Natural Sciences and Mathematics

Department Chair: Christopher R. Brazier

Department Office: Hall of Science (HSCI) 370
Telephone/FAX: (562) 985-4941/(562) 985-8557
Website: <http://chemistry.csulb.edu>

Faculty

Roger A. Acey (Emeritus), Dennis M. Anjo (Emeritus), Stuart R. Berryhill, Deepali Bhandari, Christopher R. Brazier, Xianhui Bu, Paul T. Buonora, Jeffrey A. Cohlberg (Emeritus), Andrew Chen, Shahab Derakhshan, Nancy Gandner, Thach Ho, Lijuan Li, Marco A. Lopez, Eric Marinez, Douglas D. McAbee, Margaret L. Merryfield, Stephen P. Mezyk, Kensaku Nakayama, Vasanthy Narayanaswami, Patrick Pierce, Michael Schramm, Jason Schwans, Gary Shankweiler, Young Shon, Katarzyna Slowinska, Krzysztof Slowinski, Eric Sorin, Enrico Tapavicza, Paul M. M. Weers

Administrative Support Coordinator: Irma Sanchez

Advisors:

Undergraduate: Douglas D. McAbee
Credential: James Kisiel, Tim Williamson
Graduate: Biochemistry: Paul M. M. Weers; Chemistry: Lijuan Li

Graduate Studies Committee: Lijuan Li, Krzysztof Slowinski, Christopher R. Brazier, Young Shen, Paul M. M. Weers

Honors in the Major: Douglas D. McAbee

Students desiring information should contact the undergraduate advisor.

Career Possibilities

Patent Agent • Chemist • Assayer • Water Purification Chemist • Chemical Lab Technician • Biochemist • Quality Control Coordinator • Pharmaceutical or Technical Sales Representative • Public Health Educator • Industrial Hygienist • Health Administrator • Teacher • Food / Drug Inspector • Materials Scientist • Medical Librarian • Environmental Scientist • Criminologist • Pharmacologist • Dentist • Physician • Geochemist • Chemical Oceanographer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The Department of Chemistry and Biochemistry offers three bachelor's degrees, the B.S. in Chemistry, the B.S. in Biochemistry, and the B.A. in Chemistry, and two master's degrees, the M.S. in Chemistry and the M.S. in Biochemistry. These programs combined serve over 700 majors. In addition, the Department offers a Minor in Chemistry.

Degree Programs

The programs in chemistry and biochemistry at the bachelor's degree level are planned to develop background in a specific science, to serve as preparation for graduate work in chemistry or biochemistry, and to provide a foundation for those students seeking careers in the chemical sciences, teaching, law, medicine, dentistry, pharmacy and other health-related professions, and in industrial and governmental scientific occupations. The B.S. degree in Chemistry is certified by the American Chemical Society (American Chemical Society, Committee on Professional Training, 1155 Sixteenth St., NW, Washington,

DC 20036, phone: 202-872-4589).

The B.S. degree in Biochemistry is certified by the American Society for Biochemistry and Molecular Biology (ASBMB department/program accreditation sub-committee, 11200 Rockville Pike, Suite 302, Rockville MD 20852-3110, phone: 240-283-6600).

Transfer Students: A student who transfers to the University must take at least 16 units of upper division chemistry courses here. To receive credit towards the major for courses taken elsewhere in place of CHEM 371A,B and/or 377A,B, consent of the Department Chair is required. Satisfactory performance on appropriate proficiency examinations may also be required.

The Department of Chemistry and Biochemistry offers graduate study leading to research-based master of science degrees in chemistry and biochemistry.

Applicants for the master of science degree programs should apply online both to the university and to the department. Links to the online application forms can be found on the department's web site (<http://chemistry.csulb.edu> – click on "Graduate Programs").

A limited number of teaching associate and graduate and research assistantships are available. Usually, these involve half-time work in the instructional program at the freshman and sophomore level or work in the laboratory. An applicant may apply for a teaching associate or graduate assistant position in the course of completing the online departmental application.

Academic Advising and Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this department need to contact the College of Natural Sciences and Mathematics' (CNSM) Academic Advising Center (HSCI 164) and participate in the College's Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June/July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the CNSM Academic Advising Center, Jensen Student Access to Sciences and Mathematics Center (HSCI 164), or department office for additional information.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take course work in a community or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for approval prior to enrolling in specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be

complied with; see "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this catalog. Courses not receiving prior approval will not be accepted for credit by the Department.

Undergraduate Programs

Bachelor of Science in Chemistry (120 units)

Degree Progress

BS Chemistry majors must complete the following requirements within the specified time of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete. Students required to enroll in pre-baccalaureate math may receive one additional semester to meet the requirements.

Freshmen: A grade "C" or better must be achieved in both MATH 122 and CHEM 111A within one calendar year. A grade of "C" or better must be achieved in CHEM 111B and CHEM 220A within two calendar years.

Transfer Students: A grade of "C" or better must be achieved in both CHEM 220A and PHYS 151 within 1 calendar year.

In addition, all BS Chemistry majors must earn a "C" or better in all courses counting toward the major and must maintain major and upper-division major GPAs of 2.0 or higher. A student whose GPA in the major or upper division GPA in the major falls below 2.0 will be advised that they are at risk of being dismissed from the major and granted one semester to raise their major GPA(s) to 2.0. Students who do not successfully raise their major GPA(s) must meet with an advisor to declare another major or submit an appeal to the Department of Chemistry and Biochemistry explaining why they need one additional semester. Students whose major GPAs remain below 2.0 after this additional semester must declare a new major.

Students Desiring Entrance into a Health Professions Program

Students desiring entrance into one of the various health-related professional schools should consult with the Health Professions Advising Office in the College of Natural Sciences and Mathematics, Jensen Student Access to Sciences and Mathematics Center (HSCI-164) for more information. Most of these schools do not require students to major in any particular discipline and many favor applicants who have earned a baccalaureate; rather, they want students who have done well in their major and who also took the prerequisite courses required by that particular school.

Requirements

Lower Division:

Either take all of the following:

BIOL 211 Introduction to Evolution and Diversity (4)

Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)

Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better. Prerequisite/Corequisite: CHEM 111B.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L are required if courses were taken prior to catalog year 2010-11.

Or one of the following:

BIOL 200 General Biology (4)

Prerequisite: GE Foundation requirements.

BIOL 205 Human Biology (4)

Prerequisites: GE Foundation requirements.

BIOL 207 Human Physiology (4)

Prerequisites: GE Foundation requirements.

Take either:

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

and

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

or

CHEM 112A Advanced General Chemistry (5)

Prerequisite: Department consent.

and

CHEM 112B Advanced General Chemistry (5)

Prerequisite: CHEM 112A with a grade of "C" or better

Take all of the following courses:

CHEM 220A Organic Chemistry I (3)

Prerequisites: CHEM 111B with a grade of "C" or better.

Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisites: CHEM 220A with a grade of C or better

Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Upper Division:

Take all of the following courses:

CHEM 320L Organic Chemistry Laboratory for Chemistry & Biochemistry Majors (2) F, S

Prerequisites: CHEM 220A.

Corequisites: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 320B.

CHEM 331 Inorganic Chemistry (3)

Prerequisites: CHEM 111B with a grade of "C" or better.

CHEM 332 Inorganic Chemistry Lab (2)

Prerequisite/Corequisite: CHEM 331.

CHEM 361 Chemical Communications (3)

Prerequisites: GE Foundation requirement. Students must have scored 11 or higher on the GEAR Placement

Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.
Prerequisite/Corequisite: CHEM 220A.

CHEM 371A Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

CHEM 371B Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

CHEM 373. Physical Chemistry Laboratory (3)

Prerequisites: CHEM 361, CHEM 371A or 377A, and CHEM 371B or 377B, all with a grade of "C" or better.

CHEM 431 Advanced Inorganic Chemistry (3)

Prerequisite(s): CHEM 331, with a grade of "C" or better.

Prerequisite(s)/Corequisite(s): CHEM 371B.

CHEM 441A Biological Chemistry (3) or CHEM 448 (3)

Prerequisites: Either CHEM 320L or both CHEM 220B and CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

CHEM 451 Instrumental Methods of Analysis (5)

Prerequisites: PHYS 152, CHEM 361; CHEM 371B or CHEM 377B; all with a grade of "C" or better.

CHEM 461 Chemistry Capstone (1)

Prerequisite: Department consent.

Take one of the following:

CHEM 420 Advanced Organic Chemistry Lab (3)

Prerequisites: CHEM 220B or CHEM 320L and either CHEM 361 or CHEM 466. (all with a grade of C or better).

CHEM 498 Senior Thesis (3)

Prerequisites: Major GPA 3.0 or higher, 3 units of CHEM 496 with a grade of "A", consent of instructor.

Take an additional 7 units of chemistry electives including at least one unit of CHEM 496 and 3 units of upper-division courses. CH E 330, CH E 430, or CH E 475 may be used as chemistry electives.

Students are also advised to take one or more additional courses in mathematics, such as MATH 247, MATH 364A, MATH 370A, MATH 380.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 211, CHEM 111A, CHEM 111B, CHEM 112A, CHEM 220A, CHEM 220B, CHEM 320L, CHEM 331, CHEM 361, CHEM 371A, CHEM 371B, MATH 122, MATH 123, PHYS 151, PHYS 152.

Bachelor of Arts in Chemistry (120 units)

Degree Progress

BA Chemistry majors must complete the following requirements within the specified time of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete. Students required to enroll in pre-baccalaureate math may receive one additional semester to meet the requirements.

Freshmen: A grade "C" or better must be achieved in both MATH 122 and CHEM 111A within one calendar year. A grade of "C" or better must be achieved in CHEM 111B and CHEM 220A within two calendar years.

Transfer Students: A grade "C" or better must be achieved in both CHEM 220A and PHYS 151 within one calendar year.

In addition, BA Chemistry majors must earn a "C" or better in all courses counting toward the major and must maintain major and upper-division major GPAs of 2.0 or higher. A student whose GPA in the major or upper division GPA in the major falls below 2.0 will be advised that they are at risk of being dismissed from the major and granted one semester to raise their major GPA(s) to 2.0. Students who do not successfully raise their major GPA(s) must meet with an advisor to declare another major or submit an appeal to the Department of Chemistry and Biochemistry explaining why they need one additional semester. Students whose major GPAs remain below 2.0 after this additional semester must declare a new major.

Requirements

Lower Division:

Take either of the following pairs:

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

and

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

or

CHEM 112A Advanced General Chemistry (5)

Prerequisite: Department consent.

and

CHEM 112B Advanced General Chemistry (5)

Prerequisite: CHEM 112A with a grade of "C" or better

Take all of the following courses:

CHEM 220A Organic Chemistry I (3)

Prerequisites: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisites: CHEM 220A with a grade of C or better.

Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Upper Division:

Take all of the following courses:

CHEM 320L Organic Chemistry Laboratory for

Chemistry & Biochemistry Majors (2) F, S

Prerequisite: CHEM 220A

Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B

CHEM 331 Inorganic Chemistry (3)

Prerequisites: CHEM 111B with a grade of "C" or better.

CHEM 361 Chemical Communications (3)

Prerequisites: GE Foundation requirement. Students must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Prerequisite/Corequisite: CHEM 220A.

Take one of the following courses:

CHEM 420 Advanced Organic Chemistry Lab (3)
Prerequisites: CHEM 220B or CHEM 320L and either CHEM 361 or CHEM 466, all with a grade of "C" or better.

CHEM 498 Senior Thesis (3)
Prerequisites: major GPA > 3, 3 units of CHEM 496 with a grade of "A", consent of instructor

Take all of the following courses:

CHEM 451 Instrumental Methods of Analysis (5)
Prerequisites: PHYS 152, CHEM 361; CHEM 371B or CHEM 377B; all with a grade of "C" or better.

CHEM 461 Chemistry Capstone (1)
Prerequisite: Department consent.

Select one pair from the following:

CHEM 371A Physical Chemistry (3)
Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).
Prerequisite/Corequisite: MATH 224.

and

CHEM 371B Physical Chemistry (3)
Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).
Prerequisite/Corequisite: MATH 224.

or

CHEM 377A Fundamentals of Physical Chemistry (3)
Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

and

CHEM 377B Fundamentals of Physical Chemistry (3)
Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

Take an additional 7 units of chemistry electives including a minimum of 3 additional units chosen with advisor consultation from the following:

CHEM 332, CHEM 373, CHEM 421, CHEM 431, CHEM 441A, 441B, CHEM 448, CHEM 480, CHEM 496. Only one biochemistry pathway may be used toward this degree program: either CHEM 448 or CHEM 441A and/or 441B.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: CHEM 111A, CHEM 111B, CHEM 112A, CHEM 220A, CHEM 220B, CHEM 320L, CHEM 361, CHEM 371B, CHEM 377B, MATH 122, MATH 123, PHYS 151, PHYS 152.

Students must consult an advisor to select additional courses to meet the student's individual goals and interests.

Bachelor of Science in Biochemistry (120 units)

Degree Progress

BS and Biochemistry majors must complete the following requirements within the specified time of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. Students who have not met the requirements by the required semester must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

Students required to enroll in pre-baccalaureate math may receive one additional semester to meet the requirements.

Freshmen: A grade "C" or better must be achieved in both MATH 122 and CHEM 111A within one calendar year. A grade of "C" or better must be achieved in CHEM 111B and CHEM 220A within two calendar years.

Transfer Students: A grade of "C" or better must be achieved in both CHEM 220A and PHYS 151 within 1 calendar year.

In addition, BS and Biochemistry majors must earn a C or better in all courses counting towards the major and must maintain major and upper-division major GPAs of 2.0 or higher. A student whose GPA in the major or upper division GPA in the major falls below 2.0 will be advised that they are at risk of being dismissed from the major and granted one semester to raise their major GPA(s) to 2.0. Students who do not successfully raise their major GPA(s) must meet with an advisor to declare another major or submit an appeal to the Department of Chemistry and Biochemistry explaining why they need one additional semester. Students whose major GPAs remain below 2.0 after this additional semester must declare a new major.

Requirements

Lower Division:

Take either:

CHEM 111A General Chemistry (5)
Prerequisites: A passing score on the Chemistry Placement Examination.
Corequisite: MATH 109 or higher.

and

CHEM 111B General Chemistry (5)
Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

or

CHEM 112A Advanced General Chemistry (5)
Prerequisite: Department consent.

and

CHEM 112B Advanced General Chemistry (5)
Prerequisite: CHEM 112A with a grade of "C" or better

Take all of the following courses:

BIOL 211 Introduction to Evolution and Diversity (4)
Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)
Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better. Prerequisite/Corequisite: CHEM 111B.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L are required if courses were taken prior to catalog year 2010-11.

CHEM 220A Organic Chemistry I (3)
Prerequisites: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)
Prerequisites: CHEM 220A with a grade of C or better
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Upper Division:

Take all of the following courses:

BIOL 340 Molecular Cell Biology (3)

Prerequisites: BIOL 211, BIOL 212, all with a grade of "C" or better.

CHEM 320L Organic Chemistry Laboratory for Chemistry & Biochemistry Majors (2) F, S

Prerequisite: CHEM 220A.

Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 320B.

CHEM 361 Chemical Communications (3)

Prerequisites: GE Foundation requirement. Students must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Prerequisite/Corequisite: CHEM 220A.

CHEM 441A Biological Chemistry (3)

Prerequisites: Either CHEM 320L or both CHEM 220B and CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

CHEM 441B Biological Chemistry (3)

Prerequisite: CHEM 441A with a grade of "C" or better.

CHEM 443 Biological Chemistry Laboratory (4)

Prerequisites: CHEM 441A and either CHEM 361 or CHEM 466; all with a grade of "C" or better.

CHEM 461 Chemistry Capstone (1)

Prerequisite: Department consent.

Select one of the following:

CHEM 371A Physical Chemistry (3)

Prerequisites: 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

CHEM 377A Fundamentals of Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

(CHEM 371A,B is recommended as preparation for graduate studies in biochemistry)

Select one of the following:

CHEM 371B Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

CHEM 377B Fundamentals of Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

Select one course from the following:

CHEM 420 Advanced Organic Chemistry Lab (3)

Prerequisites: CHEM 220B or CHEM 320L and either CHEM 361 or CHEM 466. (all with a grade of C or better).

CHEM 451 Instrumental Methods of Analysis (5)

Prerequisites: PHYS 152, CHEM 361; CHEM 371B or CHEM 377B; all with a grade of "C" or better.

Take at least seven units of elective chosen from: :

BIOL 342/342L, BIOL 370, BIOL 416, BIOL 430, BIOL 431, BIOL 432, BIOL 433, BIOL 443, BIOL 445, BIOL 473; CHEM 251, CHEM 331, CHEM 332, CHEM 373, CHEM 420, CHEM 421, CHEM 431, CHEM 451, CHEM 466, CHEM 480, CHEM 496, CHEM 498, CHEM 498H, CHEM 499.

To meet prerequisite standards for courses in this program's requirements, a "C" or better is necessary in the following: BIOL 211, BIOL 212, CHEM 111A, CHEM 111B, CHEM 112A, CHEM 220A, CHEM 220B, CHEM 320L, CHEM 361, CHEM 441A, CHEM 371B, CHEM 377B, MATH 122, MATH 123, PHYS 151, PHYS

152.

Single Subject Chemistry Concentration

The Chemistry Concentration meets the subject matter competence requirement for the Single Subject Teaching Credential in Chemistry. Consult with an adviser in the Department of Science Education early to plan a program.

Requirements

Lower Division:

Take all of the following courses:

ASTR 100 Astronomy (3)

Corequisites: One course from General Education Category B.2 and ASTR 100L.

BIOL 211 Introduction to Evolution and Diversity (4)

Prerequisite/Corequisite: CHEM 111A with a grade of "C" or better.

BIOL 212 Intro to Cell and Molecular Biology (4)

Prerequisites: BIOL 211, CHEM 111A with grades of "C" or better. Prerequisite/Corequisite: CHEM 111B.

BIOL 213 Introduction to Ecology and Physiology (4)

Prerequisites: BIOL 211, BIOL 212, CHEM 111B all with a grade of "C" or better.

NOTE: BIOL 111, BIOL 111L, BIOL 212, BIOL 212L, BIOL 213, BIOL 213L are required if courses were taken prior to catalog year 2010-11.

CHEM 251 Quantitative Analysis (4)

Prerequisite: CHEM 111B with a grade of "C" or better. It is strongly recommended that CHEM 251 be taken within one calendar year of CHEM 111B.

GEOL 102 General Geology (3)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.

GEOL 104 Geology Laboratory (1)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent. Prerequisite/Corequisite: GEOL 102.

GEOL 160 Introduction to Oceanography (3)

Prerequisites/Corequisites: A course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.

Select one pair from the following:

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

Or

CHEM 112A Advanced General Chemistry (5)

Prerequisites: Department consent

CHEM 112B Advanced General Chemistry (5)

Prerequisite: CHEM 112A with a grade of "C" or better

Select one pair from the following:

PHYS 100A General Physics (4)

Prerequisite: MATH 109 or MATH 113 or MATH 119A or MATH 122.

PHYS 100B General Physics (4)

Prerequisite: PHYS 100A.

or

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Select one pair from the following:

MATH 119A Survey of Calculus I (3)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 113.

MATH 119B Survey of Calculus II (3)

Prerequisite: A grade of "C" or better in MATH 119A or MATH 122.

or

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

Upper Division:

Take all of the following:

CHEM 220A Organic Chemistry I (3)

Prerequisites: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

CHEM 451 Instrumental Methods of Analysis (5)

Prerequisites: PHYS 152, CHEM 361; CHEM 371B or CHEM 377B; all with a grade of "C" or better.

CHEM 496 Special Problems in Chemistry (1-3)

Prerequisite: Consent of instructor.

SCED 403 Integrated Science (3)

Prerequisites: Completion of all credential breadth requirements for the Single Subject Teaching Credential Program in Science, three-fourths of the credential specializations courses, and consent of instructor.

Take one of the following:

CHEM 441A Biological Chemistry (3)

Prerequisites: Either CHEM 320L or both CHEM 220B and CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

Or

CHEM 448 Fundamentals of Biological Chemistry (3)

Prerequisites: CHEM 220B or 227 with a grade of "C" or better.

Take one of the following:

CHEM 431 Advanced Inorganic Chemistry (3)

Prerequisite(s): CHEM 331, with a grade of "C" or better.
Prerequisite(s)/Corequisite(s): CHEM 371B.

CHEM 441B Biological Chemistry (3)

Prerequisite: CHEM 441A with a grade of "C" or better.

Single Subject Teaching Credential in Chemistry

In addition, prospective Chemistry teachers are required to complete 45 units of professional preparation in the Single Subject Credential Program, including student teaching. Professional preparation courses may be taken as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The Chemistry Subject Matter Program is being revised

to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Honors in Biochemistry or Chemistry

Students majoring in the B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry who would like an enriched academic program including an intensive research experience may be eligible to graduate with Honors in the Major through the University Honors Program. Students may complete General Honors through the University Honors Program as well; in such cases the General Honors thesis requirement is met through Honors in the Major (see University Honors in this catalog).

Requirements for Admission to Honors in the Major

The requirements for Honors in the Major also satisfies the requirements of a college-wide program, Honors in Biological Sciences, created with the support of a grant from the Howard Hughes Medical Institute. While Honors in the Major requires junior or senior standing, the college-wide program offers an enriched curriculum. Interested students should contact the Honors in the Major director or the Jensen Student Access to Sciences and Mathematics Center.

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry.
3. Submission of an application detailing interest in the program and willingness to commit to a year-long research experience.
4. Letter of recommendation from a CSULB faculty member familiar with the student's work.
5. Completion of CHEM 220A,B and one upper division chemistry lecture course. Students may apply during the semester in which they expect to complete these courses.
6. GPA of at least 3.00 in all courses in the major and in all upper division courses in the major.

Requirements for Graduation with Honors in the Major

1. GPA of at least 3.30 in all upper division courses in the major and in Honors courses.
2. Completion of all requirements for the B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry.
3. Completion of one 500-level lecture course or 400/500 dual level course in chemistry (3 units).
4. Completion of 3 units CHEM 496, Undergraduate Directed Research.
5. Completion of 3 units of CHEM 498H, Senior Thesis - Honors.
6. Presentation of research results in a public forum. This requirement may be met by presentation at a scientific conference or at a local venue; consult the Honors in the Major advisor for additional information.

Substitutions to this program must be approved by the Honors in the Major Advisor.

Minor in Chemistry

Requirements

The Minor in Chemistry is available to any non-Chemistry or non-Biochemistry major. Students must earn a "C" or better in every course counted towards the minor.

A minimum of 19 units of chemistry coursework which must include a minimum of six units of upper division chemistry courses and the following:

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

If students choose to take Organic Chemistry, then they must use courses from only one of the two Organic Chemistry paths to meet the requirements of the minor:

CHEM 227 Fundamentals of Organic Chemistry (3)

Prerequisite: CHEM 111A with a grade of "C" or better; CHEM 111B is recommended.

or

CHEM 220A Organic Chemistry I (3)

Prerequisites: CHEM 111B with a grade of "C" or better.

Corequisites: CHEM 224 is required for students repeating course. CHEM 223A must be taken concurrently if required by a degree plan.

CHEM 220B Organic Chemistry II (3)

Prerequisites: CHEM 220A with a grade of C or better

Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L

If students choose to take Physical Chemistry, then they must use courses from only one of the three Physical Chemistry paths to meet the requirements of the minor:

CHEM 371A Physical Chemistry: Thermodynamics and Kinetics (3)

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

CHEM 371B Physical Chemistry: Quantum Mechanics and Spectroscopy (3)

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

or

CHEM 375 Physical Chemistry for Engineers (3)

Prerequisites: MATH 123; PHYS 151 and either PHYS 152 or EE 210/EE 210L; CH E 310; CHEM 111A/B; and CHEM 220A or CHEM 227, all grades of "C" or better.

or

CHEM 377A Fundamentals of Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

CHEM 377B Fundamentals of Physical Chemistry (3)

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

If students choose to take Biochemistry, then they must use courses from only one of the two Biochemistry paths to meet the requirements of the minor:

CHEM 441A Biological Chemistry (3)

Prerequisites: Either CHEM 320L or both CHEM 220B and CHEM 223B with a grade of "C" or better.

CHEM 441B Biological Chemistry (3)

Prerequisites: CHEM 441A with a grade of "C" or better.

Or

CHEM 448 Fundamentals of Biological Chemistry (3)

Prerequisites: CHEM 220B or 227 either with a grade of "C" or better

In addition to the courses listed above the following courses may be used to complete the minor in chemistry: CHEM 223A, CHEM 223B, CHEM 251, CHEM 296, CHEM 320L, CHEM 331, CHEM 332, CHEM 373, CHEM 420, CHEM 421, CHEM 431, CHEM 443, CHEM 449, CHEM 451, CHEM 466, CHEM 480, CHEM 496.

The following courses are not acceptable toward the minor: CHEM 90, CHEM 100, CHEM 101, CHEM 105, CHEM 140, CHEM 224, CHEM 302, CHEM 361

Graduate Credit Earned as an Undergraduate Chemistry or Biochemistry Major

Graduate credit usually may not be earned in advance of the baccalaureate degree. However, based upon the recommendation of the Department Chairman and the Chairman of the Department Graduate Studies Committee, academic performance (a grade point average of 3.00 overall and 3.00 in the major), and promise of academic achievement in postgraduate study, a student in his/her senior year may be granted approval to earn a maximum of 12 units of course work in the 400 and 500 level taken at this University toward his/her prospective graduate program, subject to the following conditions:

1. The course work must be in addition to that required by the Department for the B.A. or B.S. degree in Chemistry or the B.S. degree in Biochemistry.

2. The undergraduate student must have a "Petition to Earn Credit in the Senior Year" approved by the appropriate Department Graduate Advisor, the Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics, and the Dean of Graduate Studies.

Graduate Programs

Master of Science in Chemistry

Prerequisites

1. Acceptance as a graduate student by the Department of Chemistry and Biochemistry;
2. A bachelor's degree with a major in chemistry; or a bachelor's degree with undergraduate preparation in chemistry, physics and mathematics equivalent to that required for the bachelor's degree with a major in chemistry at this University. A student deficient in any of these courses must complete the course(s) as a graduate student. The courses that must be taken to make up those deficiencies will be determined by the Graduate Adviser in consultation with the Graduate Studies Committee. Students with majors in other areas may be considered for admission at the discretion of the Graduate Adviser.
3. Entering graduate students are required to take a minimum of two placement examinations (more exams may be required by Graduate Committee) as follows:
at the beginning of the first semester of the M.S. program: student chooses to take one placement examination in analytical, inorganic, organic, physical

or biochemistry.

at the beginning of the second semester of the M.S. program, student takes any additional placement examination(s) required by the Thesis Committee to a minimum of two.

Under some circumstances with the approval of the Graduate Adviser, students may take 2 or more placement examinations at the beginning of the first semester.

Any student failing to pass a placement examination is required to complete with a minimum grade of "B" or better an appropriate course recommended by the Graduate Studies Committee. Usually the recommended courses are:

CHEM 251 and/or CHEM 451

if the subject is analytical chemistry;

CHEM 331 and/or CHEM 431

if the subject is inorganic chemistry;

CHEM 220A and/or CHEM 220B

if the subject is organic chemistry;

CHEM 371A and/or CHEM 371B

if the subject is physical chemistry;

CHEM 441A and/or CHEM 441B

if the subject is biochemistry.

- The placement examinations are usually given on the Monday of the week preceding the first day of instruction. The Graduate Studies Committee evaluates the examination results and recommends appropriate courses to correct any deficiencies in chemistry.
- Entering students must select a research advisor by the ninth week of the first semester. The thesis advisor will select two additional faculty members to serve on the Thesis Committee by the 13th week of the first semester. The Thesis Committee will prepare a degree program including the following: (1) additional placement examination(s) the student will take at the beginning of the second semester, (2) a list of graduate courses to be completed in the course of the program. The degree program must be finalized and forwarded to Graduate Advisor by the end of the first semester in residence. Any change in the approved degree program must be preauthorized by Graduate Advisor.
- Each student shall prepare a thesis proposal in collaboration with the research advisor, stating the specific topic of the research and its significance, the specific objectives of the research, and the methods to be used. The thesis proposal must be approved by the Thesis Committee. The student must make a public presentation of the proposal by the end of the second semester in the MS program. Any major change in direction during the course of the research shall be subject to the approval of the Thesis Committee.

Advancement to Candidacy

The Department Graduate Studies Committee recommends advancement to candidacy after the graduate student has:

- Either passed all the required placement examinations including those recommended by the Thesis Committee or achieved a grade of "B" or better in each course recommended by the Graduate Studies Committee for correcting the deficiencies;

- Completed at least 6 units of courses on the proposed Graduate Program;
- While in residence as a graduate student at this University, earned at least a 3.0 ("B") average in all upper division and graduate work, a 3.0 gpa in all CHEM courses, and a 3.0 GPA in all courses on the graduate program.
- Fulfilled the Graduation Writing Assessment Requirement (GWAR);
- Obtained approval of a graduate degree program by the Thesis Committee, the Graduate Adviser, the Department Chair (in consultation with the Graduate Studies Committee), and the Associate Dean or designee responsible for graduate studies in the College of Natural Sciences and Mathematics.
- Make a public presentation of their thesis proposal and made appropriate progress in their proposed research as determined by the Thesis committee.

The criteria above should be met by the beginning of the third semester of graduate study. Deficient students may continue at the discretion of the Department Graduate Studies Committee. Students should be advanced to candidacy as soon as they are eligible.

Requirements

- Advancement to candidacy;
- Complete a minimum of 30 units including:
 - Take a minimum of 12 units in chemistry lecture courses in the 500 series (excluding CHEM 595);
 - Take CHEM 595 Colloquium for a total of 2 or 3 units
Prerequisite: Graduate standing or consent of instructor.
 - Take CHEM 660 Seminar in Chemistry (1-3)
Prerequisite: None
 - Take CHEM 697 Directed Research (4-6)
Prerequisite: Arrangement with instructor.
 - Take CHEM 698 Thesis (4-6)
Prerequisites: Advancement to candidacy for M.S. in Chemistry or M.S. in Biochemistry and arrangement with instructor.
 - Additional courses (excluding CHEM 595 and required courses in the BS Chemistry degree program) as approved by Thesis Committee with concurrence of Graduate Advisor.Changes in the above pattern of course requirements may be made only by the Graduate Studies Committee and the Graduate Advisor subject to approval by the College's Associate Dean.
- Completion of a written thesis, of publication quality, acceptable to the members of the thesis committee and a public presentation of the thesis research. The public presentation must be completed before the thesis is signed by the committee members.
- A record of regular attendance at departmental seminars, poster sessions, thesis proposal presentations, and thesis defenses.
- While not a requirement for the degree, students in the MS program normally gain experience teaching laboratory sections of Chemistry courses, as preparation for professionally related teaching activities in their future careers.

Master of Science in Biochemistry

Prerequisites

1. Acceptance as a graduate student by the Department of Chemistry and Biochemistry;
2. A bachelor's degree with a major in chemistry or biochemistry or one of the biological sciences. Students with majors in other areas may be considered for admission at the discretion of the Graduate Advisor. Prerequisite courses include CHEM 220A,B, CHEM 377A,B, CHEM 441A,CHEM 441B, CHEM 443; MATH 122, MATH 123; PHYS 100A,B or their equivalents and courses in general biology and cell/molecular biology. A student deficient in any of these courses must complete the course(s) as a graduate student.
3. Entering graduate students are required to take a placement examination in biochemistry at the beginning of the first semester of the MS program. A second placement examination in either organic chemistry or physical chemistry must be taken by the beginning of the second semester. Any student failing to pass a placement examination, is required to complete an appropriate course recommended by the Graduate Studies Committee with a minimum grade of "B" or better. Usually the recommended courses are:

CHEM 220A and/or CHEM 220B

if the subject is organic chemistry.

(CHEM 371A or CHEM 377A) and/or (CHEM 371B or CHEM 377B)

if the subject is physical chemistry.

CHEM 441A and/or CHEM 441B

if the subject is biochemistry.

Under some circumstances, with the approval of the Graduate Advisor, students may take both placement examinations at the beginning of the first semester.

4. The placement examinations are usually given on the Monday of the week preceding the first day of instruction. The Graduate Studies Committee evaluates the examination results and recommends appropriate courses to correct any deficiencies in chemistry. 5. Entering students must select a research advisor by the ninth week of the first semester. The advisor will select two additional faculty members to serve on the Thesis Committee by the end of the 13th week of the first semester. The Thesis Committee will prepare a degree program including the following (1) the second placement examinations (in organic or physical chemistry) the student will take at the beginning of the second semester, (2) a list of graduate courses to be completed in the course of the program. The degree program must be finalized and forwarded to the Graduate Advisor by the end of the first semester in residence. Any changes in the approved degree program must be preauthorized by the Graduate Advisor.
5. Each student shall prepare a thesis proposal in collaboration with the thesis advisor, stating the specific topic of the research and its significance, the specific objectives of the research, and the methods to be used. The thesis proposal must be approved by the Thesis Committee. The student must make a public presentation of the proposal by the end of the second semester in the MS program. Any major change in direction during the course of the research shall be subject to the approval of the Thesis Committee.

Advancement to Candidacy

The Department's Graduate Studies Committee recommends advancement to candidacy after the graduate student has:

1. Either passed all the required placement examinations including those recommended by the Thesis Committee or achieved a grade of B or better in courses recommended by the Graduate Studies Committee for correcting the deficiencies;
2. Completed at least 6 units of courses on the proposed Graduate Program;
3. While in residence as a graduate student at this University, earned at least a 3.0 ("B") average in all upper division and graduate work, a 3.0 gpa in all CHEM courses, and a 3.0 gpa in all courses on the graduate program.
4. Fulfilled the Graduation Writing Assessment Requirement (GWAR);
5. Obtained approval of a graduate degree program by the Thesis Committee, the Graduate Adviser, the Department Chair (in consultation with the Graduate Studies Committee), and the Associate Dean responsible for graduate studies in the College of Natural Sciences and Mathematics.
6. Made a public presentation of their thesis proposal and made appropriate progress in their proposed research as determined by the Thesis committee.

The criteria above should be met by the beginning of the third semester of graduate study. Deficient students may continue at the discretion of the Department Graduate Studies Committee. Students should be advanced to candidacy as soon as they are eligible.

Requirements

1. Advancement to candidacy;
2. Complete a minimum of 30 units including:
 - A. Take a minimum of 12 units in chemistry lecture courses in the 500 series that must include CHEM 541 (excluding CHEM 595);
 - B. Take BIOL 540. In some circumstances, 3 units of another 500-level biology lecture course may be substituted with the approval of the Graduate Advisor.
 - C. Take CHEM 595 Colloquium for a total of 2 units
Prerequisite: Graduate standing or consent of instructor.
 - D. Take CHEM 660 Seminar in Chemistry (1-3)
Prerequisite: None
 - E. Take CHEM 697 Directed Research (4-6)
Prerequisite: Arrangement with instructor.
 - F. Take CHEM 698 Thesis (4-6)
Prerequisites: Advancement to candidacy for M.S. in Chemistry or M.S. in Biochemistry and arrangement with instructor.
 - G. Additional 400- and 500-level science courses (excluding CHEM 595 and required courses in the BS Biochemistry degree program) as recommended by the Thesis Committee and approved by the Graduate Advisor and the College's Associate Dean.Changes in the above pattern of course requirements may be made only at the discretion of the Graduate Studies Committee and the Graduate Advisor subject

- to approval by the College's Associate Dean or designee.
3. Completion of a written thesis, of publication quality, acceptable to the members of the Thesis Committee and a public presentation of the thesis research. The public presentation must be completed before the thesis is signed by the committee members.
 4. A record of regular attendance at departmental seminars, poster sessions, thesis proposal presentations and thesis defenses.
 5. While not a requirement for the degree, students in the MS program normally gain experience teaching laboratory sections of Chemistry courses, as preparation for professionally related teaching activities in their future careers.

Single Subject Teaching Credential in Chemistry

For information, refer to the undergraduate section in this department.

Chemistry and Biochemistry Courses (CHEM)

PREBACCALAUREATE

90. Introduction to General Chemistry (4)

Prerequisite/Corequisite: MATH 109 or higher.

Preparatory course for CHEM 111A. Recommended for students who have not achieved a satisfactory score on the Chemistry Placement examination. Basic principles and concepts including atomic structure, nomenclature, and chemical calculations with emphasis on problem solving.

Credit/No Credit grading only. Cannot be taken for credit toward a university degree. Credit in CHEM 90 or CHEM 101 does not substitute for a passing score on the Chemistry Placement Test. Not open to students with credit in CHEM 101. (Lecture 3 hrs., activity 2 hrs.)

LOWER DIVISION

100. Chemistry and Today's World (4)

Prerequisite: One GE Foundation course (GE categories A1, A2, A3, or B2).

Introduction to basic principles of chemistry and a consideration of the benefits and problems arising from applications of chemistry. Discussions of foods and food additives, drugs, plastics, and other materials of everyday life, fuel sources, the atmosphere, and fresh water. Suitable for general education credit.

Not open for credit to chemistry or biochemistry majors or students with credit in CHEM 111A or CHEM 140. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

105. Chemistry Explorations (1)

Prerequisite/Corequisite: A general education math class.

Central concepts of chemistry, including states of matter, atomic structure, periodic properties, chemical compounds and reaction energy, and equilibrium, illustrated with a series of experiments. Intended for students in the Integrated Teacher Education Program (ITEP).

Letter grade only (A-F). (Laboratory 3 hours). Course fee may be required.

111A. General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

Students not planning to continue onto CHEM 111B may be concurrently enrolled in MATH 109.

Other students need to be concurrently enrolled in MATH 113 or MATH 115 or MATH 119A or MATH 122.

One year of high school chemistry is strongly recommended. (This course is recommended for those intending to pursue careers in science or engineering.)

First semester of a two-semester sequence (CHEM 111A and CHEM 111B). Introduction to principles of chemistry including chemical reactions, stoichiometry, thermochemistry, electronic structure, bonding, and properties of solids, liquids, gases, and solutions.

Letter grade only (A-F). Credit in CHEM 90 or CHEM 101 does not substitute for a passing score on the Chemistry Placement Examination.

(Lecture 3 hrs., lab and problem solving session 6 hrs.) Course fee may be required.

111B. General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 119A or MATH 122 all with a grade of "C" or better.

Second semester of a two-semester sequence (CHEM 111A and CHEM 111B). Continuation of chemical principles, chemical equilibrium, kinetics, thermodynamics, electrochemistry, elements of qualitative and quantitative inorganic analysis. Solving aqueous equilibrium problems are emphasized.

Letter grade only (A-F). (Lecture 3 hrs., lab and problem solving sessions 6 hrs.) Course fee may be required.

112A. Advanced General Chemistry (5)

Prerequisite: Department consent.

First semester of a two-semester advanced general chemistry sequence (CHEM 112A and CHEM 112B). Introduction to principles of chemistry including chemical reactions, stoichiometry, thermochemistry, electronic structure, bonding, and properties of solids, liquids, gases, and solutions, kinetics, and equilibrium.

Letter grade only (A-F). (Lecture 3 hrs., lab and problem session 6 hrs.)

112B. Advanced General Chemistry (5)

Prerequisite: CHEM 112A with a grade of "C" or better.

Second semester of a two-semester advanced general chemistry sequence (CHEM 112A and CHEM 112B). Continuation of chemical principles, electrochemistry, applications of bonding theories of inorganic molecules, trends and reactivities of elements and their compounds, elements of qualitative and quantitative inorganic analysis, introduction to coordination chemistry, solid-state chemistry, and reactions of transition metals. Solving aqueous equilibrium problems is emphasized.

Letter grade only (A-F). (Lecture 3 hrs., lab and problem session 6 hrs.)

140. General, Organic, and Biochemistry (5)

Prerequisites: Restricted to Pre-Nursing majors. A grade of "C" or better in MATH 109 or MATH 113 or MATH 117 or MATH 119A or MATH 122 or STAT 108; high school chemistry or equivalent.

This one-semester course encompasses general chemistry, organic chemistry, and biochemistry. Meets chemistry requirement for pre-nursing curriculum.

Letter grade only (A-F). (Lecture 3 hrs; problem solving session 1 hr., and laboratory 3 hrs.) Course fee may be required.

220A. Organic Chemistry I (3)

Prerequisites: CHEM 111B with a grade of "C" or better.
Corequisites: CHEM 224 is required for students repeating course.
CHEM 223A must be taken concurrently if required by a degree plan.

First semester of two-semester sequence (CHEM 220A, CHEM 220B; and CHEM 223A and CHEM 223B or CHEM 320L).
Sequence meets requirements for medical and dental schools.
Emphasis is upon application of modern principles of structure, reactivity, methods of synthesis, physical properties and spectroscopy. Not open to students with credit in CHEM 320A or CHEM 322A.

Letter grade only (A-F). (Lecture 3 hrs.)

220B. Organic Chemistry II (3)

Prerequisite: CHEM 220A with a grade of "C" or better.
Corequisite: CHEM 223B or CHEM 320L except for students who previously earned a "C" or better in CHEM 223B or CHEM 320L.

Second semester of two-semester sequence (CHEM 220A, CHEM 220B; CHEM 223A and CHEM 223B or CHEM 320L). Continuation of study of organic chemistry including chemistry or compounds containing more than one functional group, bioorganic molecules, and special topics. Not open to students with credit in CHEM 320B or CHEM 322B. Letter grade only (A-F). (Lecture 3 hrs.)

223A. Organic Chemistry Laboratory I (1)

Corequisite: CHEM 220A, except for students who have previously earned a "C" or better in CHEM 220A.

Introduction to organic laboratory techniques. First semester of a two-semester sequence (CHEM 223A, CHEM 223B). Not applicable to a degree in chemistry or biochemistry. Not open to students with credit in CHEM 320L or CHEM 323A.

Letter grade only (A-F). (Laboratory 3 hrs.)

223B. Organic Chemistry Laboratory II (1)

Prerequisites: CHEM 220A and CHEM 223A, both with a grade of "C" or better. Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Synthesis and characterization of organic and bioorganic compounds. Second semester of a two-semester sequence (CHEM 223A, CHEM 223B). Not applicable to a degree in chemistry or biochemistry. Not open to students with credit in CHEM 320B, CHEM 320L, or CHEM 323B.

Letter grade only (A-F). (Laboratory 3 hrs.)

224. Organic Chemistry Recitation (1)

Corequisite: CHEM 220A.

Problem solving session emphasizing principles learned in first semester organic chemistry.

Credit/No Credit grading only. May be repeated to a maximum of 3 units in different semesters. (Problem solving session 1 hr.) Does not count for General Education credit.

227. Fundamentals of Organic Chemistry (3) F,S

Prerequisite: CHEM 111A with a grade of "C" or better; CHEM 111B is recommended.

Lecture course in chemistry of the carbon compounds.

Letter grade only (A-F). Not applicable to a degree in chemistry. (Lecture 3 hrs.) Not open for credit to students with credit in CHEM 327.

251. Quantitative Analysis (4)

Prerequisite: CHEM 111B with a grade of "C" or better. It is strongly recommended that CHEM 251 be taken within one calendar year of CHEM 111B.

Introduction to techniques and theory of gravimetric and volumetric analysis, spectrophotometry, potentiometry, and chromatography.

Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

296. Research Methods (1)

Prerequisites: CHEM 111A or CHEM 112A (grade of "B" or better) or consent of Instructor

Introduction to research methods in chemistry. Mixed course designed primarily to introduce lower division students to research before they take CHEM 496.

Letter grade only (A-F). (Lecture/seminar based course only)

UPPER DIVISION

302. Survey of Biochemistry (3) F,S

Prerequisites: A minimum of 3 units of university-level general and organic chemistry with grade of "C" or better.

Study of the chemistry, structures, metabolic reactions and functions of the major classes of biochemical compounds. Does not meet the requirements of medical or dental schools.

Letter grade only (A-F). Does not count for General Education credit. (Lecture 2 hrs., discussion 1 hr.)

320L. Organic Chemistry Laboratory (2) F,S

Prerequisite: CHEM 220A.

Corequisite: CHEM 220B, except for students who have previously earned a "C" or better in CHEM 220B.

Introduction to organic laboratory techniques, synthesis and characterization of organic and bioorganic compounds.

Letter grade only (A-F). Not open for credit to students with credit in CHEM 320B. (Laboratory 6 hrs). Course fee may be required.

331. Inorganic Chemistry (3)

Prerequisites: CHEM 111B with a grade of "C" or better.

Introduction to coordination chemistry, solid-state chemistry, and reactions of transition metals.

Letter grade only (A-F). (Lecture 3 hrs.)

332. Inorganic Chemistry Laboratory (2)

Prerequisite/Corequisite: CHEM 331.

Synthesis, characterization, and manipulation of inorganic compounds and materials.

Letter grade only (A-F). (Laboratory 3 hrs.)

361. Chemical Communications (3)

Prerequisites: GE Foundation requirement. Students must have scored 11 or higher on the GEAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Prerequisite/Corequisite: CHEM 220A.

Using the chemical literature. Writing technical reports for various purposes. Oral presentation of chemical information. Includes extensive writing. Fulfills the GE Writing Intensive Capstone requirement.

Letter grade only (A-F). (Seminar 3 hrs.)

371A. Physical Chemistry: Thermodynamics and Kinetics (3) F

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

Half of the two semester physical chemistry package. The two courses, CHEM 371A,B, may be taken in either order. Principles and applications of classical thermodynamics; introduction to chemical kinetics.

Letter grade only (A-F). (Lecture 3 hrs.)

371B. Physical Chemistry: Quantum Mechanics and Spectroscopy (3) S

Prerequisites: CHEM 111B, MATH 123, PHYS 152 (all with a grade of "C" or better).

Prerequisite/Corequisite: MATH 224.

Half of the two semester physical chemistry package. The two courses CHEM 371A,B may be taken in either order. Principles and applications of quantum chemistry, spectroscopy, and statistical thermodynamics.

Letter grade only (A-F). (Lecture 3 hrs.)

373. Physical Chemistry Laboratory (3) S

Prerequisites: CHEM 361, CHEM 371A or 377A, and CHEM 371B or 377B, all with a grade of "C" or better.

Introduction to basic physico-chemical experimental techniques with applications to principles discussed in CHEM 371A,B and CHEM 377A,B.

Letter grade only (A-F). (Lecture 1 hr., laboratory 6 hrs.)

375. Physical Chemistry for Engineers (3)

Prerequisites: MATH 123; PHYS 151 and either PHYS 152 or EE 210/EE 210L; CH E 310; CHEM 111A/B; and CHEM 220A or CHEM 227, all grades of "C" or better.

Principles and applications of real gases, liquids, and solutions; intra- and intermolecular interactions; kinetic theory and chemical kinetics; quantum chemistry, chemical bonding, and spectroscopy.

Letter grade only (A-F). (Lecture 3 hrs)

377A. Fundamentals of Physical Chemistry (3) F,S

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

Half of the two semester physical chemistry package with a biochemical emphasis. The two courses CHEM 377A,B may be taken in either order. Principles of physical chemistry emphasizing thermodynamics and chemical kinetics. Biological and environmental science examples used to illustrate principles.

Letter grade only (A-F). (Lecture 3 hrs.)

377B. Fundamentals of Physical Chemistry (3) F,S

Prerequisites: CHEM 111B, MATH 123, and PHYS 152 (all with a grade of "C" or better).

Half of the two semester physical chemistry package with a biochemical emphasis. The two courses CHEM 377 A,B may be taken in either order. Principles of physical chemistry with emphasis on molecular structure and spectroscopy.

Letter grade only (A-F). (Lecture 3 hrs.)

420. Advanced Organic Chemistry Laboratory (3)

Prerequisites: CHEM 220B or CHEM 320L and either CHEM 361 or CHEM 466, all with a grade of "C" or better.

Synthesis and characterization of organic compounds. Organic structures analyzed through interpretation of spectral data. Emphasis on use of high field NMR, mass spectrometry, IR, and UV. Applications of modern separation techniques.

In addition to regularly scheduled lectures, students are expected to attend three hours of lecture on use of chemical literature.

Letter grade only (A-F). Course fee may be required. (Lecture 1 hr., laboratory 6 hrs.)

421./521. Physical Organic Chemistry (3) F

Prerequisites: CHEM 220B with a grade of "C" or better.

Prerequisite/Corequisite: CHEM 371B or CHEM 377B.

Undergraduates enroll in CHEM 421; graduates in CHEM 521.

Theoretical interpretation of chemical and physical properties of organic compounds: mathematical derivations of rate equations from experimental results, quantitative comparison of organic compounds reactivities, mathematical correlations of structure and properties. Solving problems relating to reaction

mechanisms to described factors.

Letter grade only (A-F). (Lecture 3 hrs.)

431. Advanced Inorganic Chemistry (3) F

Prerequisite(s): CHEM 331, with a grade of "C" or better.

Prerequisite(s)/Corequisite(s): CHEM 371B.

Quantitative study of chemical bonding in inorganic molecules emphasizing on molecular orbital theory. Transition metal chemistry including coordination chemistry, ligand field theory, spectroscopy applications to structural analysis of inorganic molecules, and review of properties and reactivities of elements and their compounds.

Letter grade only (A-F). (Lecture 3 hrs.)

441A. Biological Chemistry (3)

Prerequisites: Either CHEM 320L or both CHEM 220B and CHEM 223B with a grade of "C" or better; a biology or microbiology course is recommended.

First semester of a two-semester sequence (CHEM 441A and 441B) in biochemistry. Chemical and mathematical treatment of energetics and kinetics of reactions in living systems, including chemistry and metabolism of carbohydrates and chemistry of proteins.

Letter grade only (A-F). (Lecture 3 hours)

441B. Biological Chemistry (3)

Prerequisite: CHEM 441A with a grade of "C" or better.

Second semester of two-semester sequence (CHEM 441A and CHEM 441B) in biochemistry. Metabolism of lipids, proteins, and nucleic acids, and other advanced topics in metabolism.

Letter grade only (A-F). (Lecture 3 hours)

443. Biological Chemistry Laboratory (4)

Prerequisites: Prerequisites: CHEM 441A and either CHEM 361 or CHEM 466; all with a grade of "C" or better.

Theory and practice of laboratory techniques used in biochemical research.

Letter grading only (A-F). (Lecture 1 hr., laboratory 9 hrs.) Course fee may be required.

448. Fundamentals of Biological Chemistry (3)

Prerequisites: CHEM 220B or CHEM 227 either with a grade of "C" or better.

Major principles of biochemistry including metabolic processes, biological control and regulatory processes, nutrition and chemical energetics and kinetics of animals, plants and microorganisms. Emphasis on major concepts and problem solving.

Not open to chemistry majors. Not open for credit to students with credit in CHEM 441A,B. Letter grade only (A-F). (Lecture 3 hrs.)

449. Nutritional Biochemistry Laboratory (1)

Prerequisite: CHEM 448 with a grade of "C" or better. May be taken concurrently with CHEM 448.

Analytical and biochemical analyses of foodstuffs and other compounds of biochemical interest.

Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

451. Instrumental Methods of Analysis (5)

Prerequisites: PHYS 152, CHEM 361; CHEM 371B or CHEM 377B; all with a grade of "C" or better.

Theory and application of instrumental methods to chemical problems. Includes measurement basics, atomic and molecular spectroscopy, electroanalytical chemistry, separation methods, surface analysis, and statistical evaluation of analytical data.

Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

461. Chemistry Capstone (1) F,S

Prerequisite/Corequisite: Department consent.

The capstone course for chemistry and biochemistry seniors integrating knowledge and skills from different disciplines of chemistry and biochemistry. Includes discussion of regulatory affairs, ethics in research, and seminars on research topics in chemistry and biochemistry.

Letter grade only (A-F). (Seminar 1 hr)

466. Research Design and Methods (3) S

Prerequisites: BIOL 211, BIOL 212, BIOL 213, either BIOL 260 or CHEM 251, CHEM 220A,B and CHEM 223A,B all with a grade of "C" or better; GE Foundation requirement; a GPA of at least 3.0 in the major; and consent of the instructor. At least one unit of BIOL 496 or CHEM 496.

Corequisites: At least one unit of BIOL 496 or CHEM 496.

Introduction to hypothesis testing, experimental design, methodological and technical procedures for experimentation, grant writing, and techniques for written and oral presentation of research results. Research paper and oral presentation required.

Letter grade only (A-F). Same course as BIOL 466. (Lecture 3 hours). Not open for credit to students with credit in BIOL 466, BIOL 466H or CHEM 466H.

480./580. Biomolecular Modeling and Simulation (3)

Prerequisites: CHEM 220A, MATH 123 (may be taken concurrently), and PHYS 100B or PHYS 152, all with a grade of "C" or better.

The study of biomolecular phenomena using computer-based modeling and simulation techniques with varying degrees of resolution, including development and validity of molecular models.

Letter grade only (A-F). (Lecture 3 hrs.)

496. Undergraduate Directed Research (1-3)

Prerequisite: Consent of instructor.

Research in a specific topic in chemistry or biochemistry approved and directed by faculty. Written report required.

May be repeated to a maximum of 6 units. (Independent Study).

498H. Senior Thesis – Honors (1-3)

Prerequisites: CHEM 466; at least one unit of CHEM 496 with a grade of "A"; admission into the Honors in Chemistry program, and consent of instructor.

Planning, preparation, and completion of thesis based on a research project in chemistry or biochemistry.

Letter grade only (A-F). Not available to graduate students.

498. Senior Thesis (3)

Prerequisites: Major GPA 3.0 or higher, 3 units of CHEM 496 with a grade of "A", consent of instructor.

Continuation of research in chemistry and biochemistry, planning, preparation, and completion of thesis based on original research project. Submission of acceptable thesis meeting the guidelines for research reports issued by the Committee on Professional Training American Chemical Society is required.

Letter grade only (A-F). Not available for graduate students.

499. Directed Reading (1)

Survey of chemical literature on some topic of current interest under supervision of a faculty member. Preparation of a written report based on readings.

Letter grade only (A-F). Not open for credit to graduate students.

GRADUATE LEVEL

521./421. Physical Organic Chemistry (3) F

Prerequisites: CHEM 220B with a grade of "C" or better.

Prerequisite/Corequisite: CHEM 371B or CHEM 377B. Undergraduates enroll in CHEM 421; graduates in CHEM 521.

Theoretical interpretation of chemical and physical properties of organic compounds: mathematical derivations of rate equations from experimental results, quantitative comparison of organics compounds reactivities, mathematical correlations of structure and properties. Solving problems relating to reaction mechanisms to described factors.

Letter grade only (A-F). (Lecture 3 hrs.)

522. Selected Topics in Organic Chemistry (3)

Prerequisite: CHEM 421 or CHEM 521 or consent of instructor.

Areas of current interest in organic chemistry.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (Lecture 3 hrs.)

523. Synthetic Methods (3)

Prerequisites: CHEM 220B with a grade of "C" or better; CHEM 521 recommended

Introduction to current methods of synthetic transformations; topics may include, but not limited to the following: Retrosynthetic analysis, protecting groups, functional group transformations, enolate chemistry, organometallics, stereochemistry and conformational analysis, pericyclic reactions, alkene functionalization and reactions of carbon nucleophiles.

Letter grade only (A-F). (Lecture 3 hrs.)

524. Catalysis in Organic Chemistry (3)

A study of catalysis beginning with a general theory of catalysis. The course also covers catalysis in synthetic organic chemistry centered on metals and ligated metals and catalysis centered on organic molecules as the catalytic species.

Letter grade only (A-F). (Lecture 3 hrs.)

525. Introduction to Supramolecular Chemistry (3)

Prerequisites: Proficiency in any of the following as demonstrated by ACS placement exam: Organic, Biochemistry or Inorganic

Introduction to non-covalent interactions will be presented in the context of molecular recognition and self-assembly. Synthetic and biological examples will be used to understand these principles and how they can be applied to the preparation of new materials.

Letter grade only (A-F). (Lecture 3 hrs.)

531. Advances in Inorganic Chemistry (3)

Prerequisite: CHEM 431 or consent of instructor.

Current topics and advances in inorganic chemistry.

May be repeated to a maximum of 6 units with different topics.

Letter grade only (A-F). (Lecture 3 hrs.)

532. Inorganic Materials Chemistry (3)

Prerequisite: CHEM 431 or consent of instructor.

Advanced studies in bonding in solids, crystal structure variations, band theory and electronic structure, crystal structure-electronic structure-physical properties relationship, electron transport properties, magnetic materials, materials by design for technological applications.

Letter grade only (A-F). (Lecture 3 hrs.)

533. Physical Techniques in Inorganic Chemistry (3)

Prerequisite: CHEM 431 or consent of instructor.

An introduction to physical techniques commonly used in inorganic chemistry with focus on the magnetic resonance spectroscopic techniques: EPR and multinuclear NMR.

Letter grade only (A-F). (Lecture 3 hrs.)

534. Crystal Structure Analysis (3)

Prerequisite: CHEM 431 or consent of instructor.

An introduction to structural methods commonly used in inorganic chemistry with focus on single crystal and powder X-ray diffraction.

Letter grade only (A-F). (Lecture 3 hrs.)

541. Biochemistry Core for Graduate Study (3)

Prerequisites: CHEM 441A,B

The course is divided into three topics: (i) structure and evolution of proteins and their complexes with nucleic acids, lipids and carbohydrates, including structure determination methods; (ii) metabolic regulation from mechanistic and physiological viewpoints; (iii) applications of biochemical methodologies.

Letter grade only (A-F). (Lecture 3 hrs.)

542. Selected Topics in Biochemistry (3)

Prerequisites: CHEM 441B and CHEM 541 all with a grade of "C" or better; or consent of instructor.

Intensive discussion of a limited aspect of biochemistry with reference to current literature. Course content will vary from year to year.

May be repeated to a maximum of 6 units with different topics in different semesters. Topics announced in the *Schedule of Classes*. (Lecture 3 hrs.) Letter grade only (A-F).

544. Physical Biochemistry (3)

Prerequisites: Either CHEM 371A,B or CHEM 377A,B; CHEM 441B; CHEM 541 all with the grade of "C" or better; or consent of instructor.

Physical chemical aspects of protein and nucleic acid chemistry and related analytical methods.

Letter grade only (A-F). (Lecture 3 hrs.)

546. Protein Structure and Function (3)

Prerequisites: Either CHEM 371B or CHEM 377B; and both CHEM 441A and CHEM 541 with the grade of "C" or better; or consent of instructor.

Principles of protein structure, folding, and function. Includes techniques used for the production, isolation and characterization of proteins.

Letter grade only (A-F). (Lecture 3 hrs.)

547. Biochemistry of Nucleic Acids (3)

Prerequisites: CHEM 441B, CHEM 541 with the grade of "C" or better; or consent of instructor.

Gene expression with emphasis on regulatory mechanisms. Analytical techniques for isolation, purification, and characterization of nucleic acids.

Letter grade only (A-F). (Lecture 3 hrs.)

548. Cell Membranes (3)

Prerequisites: BIOL 340, BIOL 370, CHEM 441A, CHEM 541 with the grade of "C" or better; or consent of instructor.

Examination of modern membrane biochemistry. May include membrane structure and transport, phospholipids sorting, vesicular transport, membrane coat protein structure and function, and membrane-dependent signal transduction.

Letter grade only (A-F). (Lecture 3 hrs.)

549. Biochemistry of Lipids and Lipoproteins (3)

Prerequisites: BIOL 340, CHEM 441B, CHEM 541 all with the grade of "C" or better; or consent of instructor.

Current topics on the biochemistry of lipids and lipoproteins in health and disease. Lipid absorption, synthesis and transport; Cellular uptake of lipoproteins, lipid storage and mobilization; lipid signaling; cellular lipid efflux.

Letter grade only (A-F). (Lecture 3 hrs.)

552. Selected Topics in Analytical Chemistry (3)

Prerequisite: CHEM 451 or consent of instructor.

Including electrochemical measurements, chromatographic techniques, spectroscopic techniques, radiochemical analysis and basic electronic components of instrumentation. Emphasizing the chemical principles involved, utility and limitations of each method. Includes trace analysis of water and air.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

(Lecture 3 hrs.)

553. Fundamentals of Electroanalytical Chemistry (3)

In-depth description of electrochemical processes and research techniques. Voltammetric, potentiometric, and impedance methods. Scanning probe techniques. Analysis of current research literature related to electroanalytical chemistry and surface science.

Letter grade only (A-F). (Lecture 3 hrs.)

572. Advanced Physical Chemistry (3)

Prerequisite: CHEM 371B or consent of instructor.

Special topics in physical chemistry.

May be repeated to a maximum of 6 units with different topics.

Letter grade only (A-F). (Lecture 3 hrs.)

573. Molecular Spectroscopy (3)

Prerequisite: CHEM 371B or consent of instructor.

The interaction of electromagnetic radiation with atoms and molecules. Symmetry properties of molecules and the Hamiltonian. Angular momentum and the spectra of atoms and molecules. Pure rotational, vibrational, Raman, and electronic spectra of molecules. Understanding and predicting molecular spectra.

Letter grade only (A-F). (Lecture 3 hrs.)

574. Kinetics and Dynamics (3)

Prerequisite: CHEM 371A or consent of instructor.

Reaction rates for chemical systems; dependence on concentration and temperature. Derivation of the mechanisms of chemical reactions. Kinetic theory and analysis of experimental results for different systems. Dynamics of chemical reactions; transition state theory, potential-energy surfaces, and reaction pathways.

Letter grade only (A-F). (Lecture 3 hrs.)

580./480. Biomolecular Modeling and Simulation (3)

Prerequisites: CHEM 220A; MATH 123 (may be taken concurrently); PHYS 100B or PHYS 152, all with a grade of "C" or better.

The study of biomolecular phenomena using computer-based modeling and simulation techniques with varying degrees of resolution, including development and validity of molecular models.

Letter grade only (A-F). (Lecture 3 hrs.)

581. Biological Performance of Materials (3)

Advance studies of the chemical and mechanical interactions between materials used in medical devices and implants and living organisms. The course content includes materials response to biological system and host response to biomaterials.

Letter grade only (A-F). (Lecture 3 hrs.)

595A. Colloquium in Biochemistry (1)

595B. Colloquium in Organic Chemistry (1)

595C. Colloquium in Analytical, Physical and Inorganic Chemistry (1)

Prerequisite: Graduate standing or consent of instructor.

Discussion of advances as reported in recent literature. Provides experience in library use, organization, presentation, and critical evaluation of the chemical literature.

May be repeated to a maximum of 3 units (not more than a total of 3 units may be earned in any combination of CHEM 595 courses). Letter grade only (A-F). (Seminar 1 hr.)

660. Seminar in Chemistry (1)

Weekly meetings for presentation and discussion of advanced work in special fields including original research by faculty and graduate students.

Credit/No Credit grading only. (Seminar 1 hr.) May be repeated to a maximum of 3 units.

695. Directed Reading (1)

Survey of information in chemical literature on a current research topic, under direction of a faculty member. Written report prepared from these readings.

Letter grade only (A-F).

697. Directed Research (1-6)

Prerequisite: Arrangement with instructor.

Laboratory work supervised on an individual basis. A written report will be required.

Credit/No Credit grading only. May be repeated to a maximum of 6 units in different semesters.

698. Thesis (1-6)

Prerequisites: Advancement to candidacy for M.S. in Chemistry or M.S. in Biochemistry and arrangement with instructor.

Planning, preparation and completion of a thesis in chemistry or biochemistry.

Letter grade only (A-F).

CHICANO AND LATINO STUDIES

College of Liberal Arts

Department Chair: Jose F. Moreno

Department Office: Faculty Offices F03-300

Telephone: (562) 985-4644

Faculty: Luis Arroyo, Juan Benitez, Antonia Garcia-Orozco, Jose F. Moreno, Rigoberto Rodriguez, Victor Rodriguez, Anna Sandoval, Maythee Rojas

Department Administrative Support Coordinator: Michelle Seales

Students desiring information should contact the department office for referral to the academic advisor.

Academic Advisor: Griselda Suarez ATLAS

Telephone: (562) 985-7531

Career Possibilities

Social Scientist • Archivist • Social Worker • Journalist • Counselor • Teacher • Public Relations Consultant • Law • Community Organizer • School Administrator • Linguist • Parole Officer • Probation Officer • Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Chicano and Latino Studies (120 units)

Requirements

A minimum of 33 units is required for the major in Chicano and Latino Studies; 6 lower division and 27 upper-division units.

Lower Division (6 units):

Take two of the following:

CHLS 100 Introduction to Chicano & Latino Studies (3)
Prerequisite/Corequisite: One course from GE category A2.

CHLS 101 Introduction to Chicano/a & Latino/a Life (3)
Prerequisite: None

CHLS 105 Latina/o Cultural Identity (3)
Prerequisite/Corequisite: One course from GE category A2.

CHLS 150 Introduction to Chicano Literary Studies (3)
Prerequisite/Corequisite: One course from GE category A1

Upper Division (27 units)

Take the following core:

CHLS 300 Chicano History (3)
Prerequisites: GE Foundation requirements.

CHLS 310 Chicana/o and Latina/o Thought and Action (3)
Prerequisites: None

CHLS 350 The Latino Population in the U.S. (3)
Prerequisite: GE Foundation requirements.

CHLS 498 Senior Colloquium (3)
Prerequisite: Consent of the instructor.

Take 15 units of electives from the following:

Cultural Studies:

CHLS 315, CHLS 330, CHLS 341, CHLS 370, CHLS 380, CHLS 390, CHLS 420, CHLS 450, CHLS 450A, CHLS 490, CHLS 499

Social Inquiry:

CHLS 319, CHLS 320, CHLS 335, CHLS 340, CHLS 352, CHLS 362, CHLS 400, CHLS 415, CHLS 421, CHLS 430, CHLS 470, CHLS 490, CHLS 499

Departmental Language Requirement:

Take one of the following options:

1. Two years of college Spanish;
2. Successful completion of the following course:
SPAN 250 Spanish for Bilinguals (6)
Prerequisite: Near native speaker oral skills and GE Foundation requirements (or concurrent enrollment in at least one Foundation course).
3. A score of 4 or above on the high school advanced placement exam in Spanish language or literature;
4. Successful completion of a proficiency exam.

Special Track

In addition to the general major in Chicano and Latino Studies, the department also offers a program for students who wish to complete a Special Track major in Chicano and Latino Studies. Within the Special Track, students may receive up to a maximum of 6 units of credit for upper division Chicano and Latino Studies related course work taken from other disciplines. Students wishing to pursue the Special Track major must develop an approved program of study in consultation with the Chicano and Latino Studies Department academic advisor.

The Special Track consists of 33 units total, 27 of which must be upper division, including the following:

Lower Division (6 units):

Take two of the following:

CHLS 100 Introduction to Chicano & Latino Studies (3)
Prerequisite/Corequisite: One course from GE category A2.

CHLS 101 Introduction to Chicano/a & Latino/a Life (3)
Prerequisite: None

CHLS 105 Latina/o Cultural Identity (3)
Prerequisite/Corequisite: One course from GE category A2.

CHLS 150 Introduction to Chicano Literary Studies (3)
Prerequisite/corequisite: One course from GE category A1

Upper Division (27 units)

Take the following core (12 units required):

CHLS 300 Chicano History (3)
Prerequisites: GE Foundation requirements.

CHLS 310 Chicana/o and Latina/o Thought and Action (3)
Prerequisites: None

CHLS 350 The Latino Population in the U.S. (3)
Prerequisite: GE Foundation requirements.

CHLS 498 Senior Colloquium (3)
Prerequisite: Consent of the instructor.

Special Track (15 units):

A maximum of 6 units of course work from other disciplines, selected with the approval of the Chicano and Latino Studies Department advisor. Students must also complete CHLS Upper Division electives (9 units) from the following:

Cultural Studies:

CHLS 315, CHLS 330, CHLS 341, CHLS 370, CHLS 380, CHLS 390, CHLS 395, CHLS 420, CHLS 450, CHLS 450A, CHLS 490, CHLS 499

Social Inquiry:

CHLS 319, CHLS 320, CHLS 335, CHLS 340, CHLS 352, CHLS 362, CHLS 400, CHLS 415, CHLS 421, CHLS 430, CHLS 470, CHLS 490, CHLS 499

Language Requirement: The language requirement may be met by one of the following options:

1. Two years of college Spanish;
2. Successful completion of the following:
SPAN 250 Spanish for Bilinguals (6)

Prerequisite: Near native speaker oral skills and GE Foundation requirements (or concurrent enrollment in at least one Foundation course).;

3. A score of 4 or above on the high school advanced placement exam in Spanish language or literature;
4. Successful completion of a proficiency exam.

Minor in Chicano and Latino Studies

Prerequisite

Proficiency In Spanish which may be met by one of the following options:

1. Two years of college Spanish;
2. Successful completion of the following course:
SPAN 250 Spanish for Bilinguals (6)
Prerequisite: Near native speaker oral skills and GE Foundation requirements (or concurrent enrollment in at least one Foundation course).
3. A score of 4 or above on the high school advanced placement exam in Spanish language or literature;
4. Successful completion of a proficiency exam.

Requirements

Upper Division: (18 units)

Take the following core (12 units):

CHLS 300 Chicano History (3)

Prerequisites: GE Foundation requirements.

CHLS 310 Chicana/o and Latina/o Thought and Action (3)

Prerequisites: None

CHLS 350 The Latino Population in the U.S. (3)

Prerequisite: GE Foundation requirements.

CHLS 498 Senior Colloquium (3)

Prerequisite: Consent of the instructor.

Take 6 units selected from the following courses:

Cultural Studies:

CHLS 315, CHLS 330, CHLS 390, CHLS 341, CHLS 380, CHLS 420, CHLS 490, CHLS 499

Social Inquiry:

CHLS 319, CHLS 320, CHLS 335, CHLS 340, CHLS 352, CHLS 362, CHLS 400, CHLS 415, CHLS 421, CHLS 430, CHLS 470, CHLS 490, CHLS 499

Chicano and Latino Studies Courses (CHLS)

LOWER DIVISION

100. Introduction to Chicano and Latino Studies (3)

Prerequisite/Corequisite: One course from GE category A2.

An introductory-level course which acquaints students with the social, political, economic and historic aspects of the Latino experience and examines how they are reflected through various and diverse forms of cultural expression in the United States.

Letter grade only (A-F).

101. Introduction to Chicano/a and Latino/a Life (3)

Examination of four themes: 1) the cultural formation and transformation of Chicano/Latino communities; 2) the role of women in shaping Chicano/Latino culture; 3) Chicano/Latino music and visual art; 4) Mexican and Latino immigrants in American culture.

104. Composition II (3)

Prerequisites: Students who score 147 or above on the English Placement Test, credit in CHLS 104S (or its equivalent), are exempt from the EPT, or consent of the instructor.

Composition II does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA.

Expository writing course designed for first-year students. Satisfies one of the writing requirements for general education at CSULB. Emphasizes academic writing, focusing primarily on analytical reading and thesis-driven writing.

Multiple Offerings: ENGL 100, AFRS 100, ASAM 100. Not open for credit to students with credit in: ENGL 100, AFRS 100, ASAM 100.

104S. Composition I (3)

Prerequisites: Students who score 146 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course.

Composition I does not count toward meeting the major requirements. It does count toward graduation and will be included in the overall GPA. Must have a "C" or better to earn credit in GE.

Basic course in writing, offering intensive practice in every stage of writing process from generating ideas to final proofreading, as well as to the developing stronger reading comprehension for specific writing tasks.

Same course as ASAM 100S, AFRS 100S, ENGL 100S. Not open for credit to students with credit in: CHLS 1, AFRS 1, ASAM 1, ENGL 1, AFRS 100S, ASAM 100S, ENGL 100S, ESW 100S.

105. Latina/o Cultural Identity (3)

Prerequisite/Corequisite: One course from GE category A2.

Explores, comparatively, the development of Chicano-Latino identities through a survey of social scientific, historical and literary sources from Mexican American and Latino regional cultures, tracing the development of societal divisions based on gender, race, ethnicity and class categories.

150. Introduction to Chicano Literary Studies (3)

Prerequisite/Corequisite: One course from GE category A1.

Introductory survey course in Chicano and Latino literature covering traditional and contemporary literary styles and forms from selected translated Chicano and Latino readings.

Letter grade only (A-F). Not open for credit to students with credit in CHLS 205.

215. U.S. Diversity and the Ethnic Experience (3)

Prerequisites: Open only to Integrated Teacher Education Program students.

Survey of four major ethnic groups (American Indians, African American, Latino American, and Asian American) in American society from the colonial era to the present. Special attention to formation and transformation of each ethnic group and their individual and collective roles in the development of the United States.

Letter grade only (A-F). Same course as AFRS 215, AIS 215. Not open for credit to students with credit in AFRS 215, AIS 215, ASAM 215. Departments take turn offering the course in the fall semester.

224. Introduction to Mexican Culture through its Music (3)

Prerequisite: GE Foundation requirements.

Covers the development of Mexican culture through its music from pre-Hispanic time to the present. The scope of the class includes the development of the relationship between Mexico's political history, and its music.

Letter grade only (A-F).

258. Introduction to Cultures of Latin America and the Caribbean through Music (3)

Prerequisite: GE Foundation requirements.

Introduction to Latin America and Caribbean cultures through music from the pre-Hispanic era to the present. The course will focus on the historical, geographical, and political contexts of various Latin American and Caribbean musical genres.

Letter grade only (A-F).

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Chicano History (3)

Prerequisites: GE Foundation requirements.

Chicanos in the settlement and development of the Southwest and in contemporary U.S. society; Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza.

Letter grade only (A-F). Same course as HIST 370. Not open for credit to students with credit in HIST 370.

310. Chicana/o and Latina/o Thought and Action (3)

Study of the ideas, philosophies and events affecting Chicano life; identification and examination of the Chicano world view, of a Chicano reality.

315. Contemporary Indigenous Peoples of Aztlan and Latin America (3)

Contemporary Indigenous Nations Studies of Latin and US America focused on the Aztec, Pueblo, Taino, Maya, Pipil, Aymara, Chicaqno/Latino and Mauri in transnational contexts. Uses international indigenous film, literature, performance, history, economic, diasporic, gender, Chicano/Latino, and American Indian studies approaches.

Not open for credit to students with credit in AIS 315.

319. The Ethnic Experience in the U.S. (3)

Prerequisite: GE Foundation requirements.

Examination of the dynamics of the development of our multicultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in the maintenance of cultural diversity in the United States.

Same course as AFRS 319, AIS 319, ASAM 319, WGSS 319. Not open for credit to students with credit in AFRS 319, AIS 319, ASAM

319, WGSS 319. (Lecture/Discussion.)

320. Wealth and Poverty in Latino Communities (3)

Introduction to the interlocking processes of creating wealth and producing poverty in the context of Latino communities in the United States. The focus will be comparative and will critically examine theories used to explain poverty and wealth.

Letter grade only (A-F).

330. Critical Issues in Chicana and Latina Studies (3)

Prerequisite: Upper division standing or consent of instructor.

Introduces students to four critical themes in contemporary Chicana and Latina feminist scholarship: 1) power and resistance; 2) construction of work, family, culture; 3) cultural representations/presentations; and 4) social and biological reproduction.

335. Asian and Latino Immigration Since World War II (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Examines the causes of massive Asian and Latino immigration as well as major contemporary issues in the Asian and Latino communities.

Same course as ASAM 335. Not open for credit to students with credit in ASAM 335. (Lecture and discussion 3 hours)

340. Latino Education in the U.S. (3)

Survey of Latinos in the U.S., including topics such as immigration, settlement patterns, employment, family, language and culture. Emphasis is on racism and the intersections of class and gender and the heterogeneity of the Latino population.

Letter grade only (A-F).

341. Asian American and Chicano/Latino Cinema (3)

Prerequisites: GE Foundation requirements.

A team-taught course exploring connections between Asian American and Chicano/Latino cinema, with emphases given to grounding issues presented in films within historical, literary, and cultural studies frameworks.

Same course as ASAM 341. Not open for credit to students with credit in CHLS 403 or ASAM 341 or ASAM 403.

350. The Latino Population in the United States (3)

Prerequisite: GE Foundation requirements.

Survey of the comparative historical, transnational, cultural and socio-economic experience (including class, gender, immigration and settlement patterns) of the various Latino sub-groups in the United States.

Letter grade only (A-F). Same course as SOC 340. Not open for credit to students with credit in SOC 340.

352. Central American and Caribbean Peoples in California (3)

Survey of the socioeconomic conditions and cultural life of the Central American and Spanish-speaking Caribbean communities in California, such as Salvadoran, Guatemalan, Puerto Rican, and Cuban communities. Similarities and differences with the Mexican-American community will be examined.

Same course as SOC 341. Not open for credit to students with credit in SOC 341.

362. Latinas/os, Law and Public Policy (3)

Analysis of the relationship of the Chicano to the U.S. legal and judicial system. Topics include traditional sociological and criminological theories of Chicano criminality, the Pachuco image, and Chicano experiences with the police and correctional institutions.

Letter grade only (A-F).

370. Chicana/o and Latina/o Literature (3)

Prerequisite: GE Foundation and upper-division status. Students must have scored 11 or higher on the GWAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GWAR Writing Intensive Capstone.

Comparative study of literature and culture by Chicanas/os and Latinas/os within a range of historical, social, and political contexts. Focus on narrative, poetry, film, and the visual and performing arts.

Letter grade only (A-F). Same course as ENGL 370. Not open for credit to students with credit in ENGL 370.

380. Chicano/Latino Theatre (3)

Prerequisite: Upper-division standing

Explores evolution of Chicano/a-Latino/a Theatre within sexual/ethnic/cultural identity context. Comprehensive analysis of theatrical texts and performance arts developed from Pre-Cuauhtemoc to contemporary Chicano/a-Latino/a playwrights.

390. The U.S.-Mexico Borderlands: Historic and Literary Images (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Critical, interdisciplinary examination of the portrayals of Latinos in selected historical and literary texts by Euro-American authors.

400. Chicana/o and Latina/o Politics in the U.S. (3)

Prerequisites: Upper-division standing and GE Foundation requirements.

Interdisciplinary introduction to the history, theories, ideologies, strategies and public policy issues by which Chicanas/os and Latinas/os have struggled to achieve power and social mobility in the United States.

Letter grade only (A-F).

415. Latina Women in the United States (3)

Prerequisite: Junior standing or consent of instructor.

Examines cultural, political, economic, and sexual forces that mold Latina women. Focus on cultural stereotypes, class, gender, identity, sexuality, and politics of race.

Same course as WGSS 320. Not open for credit to students with credit in WGSS 320.

420. Chicano Heritage in the Arts of Mexico and the Southwest (3)

Historical and philosophical analysis of Indian Mestizo and Chicano plastic arts, music and dances as a way to understand the Chicano heritage.

421. Street Gangs in Comparative Perspective (3)

Analyzes the relationships of the Chicano gangs with African American, the South East Asian, and the White street gangs across the United States. Structural forces such as proletariat socialization, patriarchy traditions and problems revolving around gender identity are examined.

Letter grade only (A-F).

430. The Latino Transnational Experience in the Caribbean: Empire, Reform and Revolution (3)

Interdisciplinary introduction to political, economic and social processes since the Spanish American War in the Hispanic Caribbean. Focus on the relationship of imperialism, migration and diasporic communities in the United States.

Letter grade only (A-F).

450. 1492 and Beyond (3)

Prerequisites: GE Foundation requirements, completion of one or more Exploration courses and upper-division standing.

Explores cultural changes that resulted from contact among peoples of Europe, Africa, Asia, and the Americas from 1492 to the present. Incorporates art, literature, social sciences, history,

architecture, and related fields.

Same course as RGR 450. Not open for credit to students with credit in RGR 450.

450A. Latinas and Revolution: Central America and Late 20th Century Mexico (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1) and upper-division standing or consent of instructor.

Examines how war and struggles for democracy shape the social consciousness and political activism of Latinas. Uses literature, film, history, and political theory to examine the role of violence in women's lives, community organizing, and the conceptualization of a pan-Latina feminist movement.

Letter grading only (A-F). Same course as WGSS 445A. Not open for credit to students with credit in WGSS 445A

470. Latinas/Latinos: Health Status and Health Care Access (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Interdisciplinary exploration of policies, epidemiologic, cultural factors influencing disease within Latino subpopulations, their impact upon efficient, equitable service delivery. (16 words)

Letter grade only (A-F). Same course as HCA 470. Not open for credit to students with credit in HCA 470.

490. Selected Topics in Chicano and Latino Studies (1-3)

Prerequisite: Consent of instructor.

Topics of current interest in Chicano and Latino Studies selected for intensive development.

May be repeated to a maximum of 6 units in different semesters. Topics announced in the *Schedule of Classes*.

498. Senior Colloquium (3)

Prerequisite: Consent of the instructor.

Analysis of issues and problems in Chicano and Latino studies. Designed as a seminar in research and methodology. The material discussed will center about a general theme selected by the instructor.

Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters with different topics but no more than three units may be used to satisfy the requirements for the major.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Preparation of research reports on selected topics relating to the Mexican-American.

May be repeated for a maximum of six units. Letter grade only (A-F).

CHILD DEVELOPMENT AND FAMILY STUDIES

College of Health and Human Services
Department of Family and Consumer Sciences

Department Chair: Wendy Reiboldt

Department Office: Family and Consumer Sciences (FCS) - 001
Telephone / Fax: (562) 985-4484 / 985-4414

Faculty: Mariné Aghekyan, Michelle Barrack, Lee Blecher, Marie Botkin, Maria Claver, Gail C. Frank, Virginia Gray, Libby Gustin, Young Ha, HyeJeong Kim, James E. Koval, Peter Kreysa, Suzanne Marshall, Nilufer Medora, Wendy Reiboldt, Cheryl Rock, Roudi Roy, Myunghee Sohn, Richard V. Tuveson, Long Wang, Jung-Mao (Ronnie) Yeh

Baccalaureate Program Coordinator: Richard V. Tuveson
Graduate Coordinator: Virginia Gray

Administrative Support Coordinators:
Mikal Lok, Marina Bendersky, Andrew Redmayne

Instructional Support Technician: Bonnie Rice

Career Possibilities

Preschool Administrator • Family Life Educator • Child Life Specialist • Teen Pregnancy Counselor • Early Care Educator (Infant and Toddler Care, Preschool Teaching, School-Age Programs) • Child Development Consultant • Community Resource and Referral Professional • Parent Educator • Corporate Human Service Consultant • Working with Military Families • Toy Research and Development

A credential or graduate degree would expand employment opportunities to include: Social Worker • Marriage and Family Counselor • Community College Instructor • Highschool Counselor • Teacher (For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences

This degree offers six options:

- Child Development and Family Studies
- Consumer Affairs
- Family and Consumer Sciences Education
- Family Life Education
- Fashion Design
- Fashion Merchandising

Degree and certificate information and requirements are listed under each option alphabetically in this catalog.

Bachelor of Science in Dietetics and Food Administration

This degree offers two options:

- Nutrition and Dietetics
- Food Science

Degree and certificate information and requirements

are listed under each option alphabetically in this catalog.

Bachelor of Science in Hospitality Management

Degree and certificate information and requirements are listed under each option alphabetically in this catalog.

Child Development and Family Studies

Child Development and Family Studies (CDFS) strives to improve the lives of children and families. As an integrative and interdisciplinary specialization, CDFS incorporates information from a variety of disciplines to provide a comprehensive academic and professional background for working with children and families. We use primary prevention to empower individuals and families in home and community settings.

Option in Child Development and Family Studies (120 units)

Take all of the following courses:

PSY 100 General Psychology (3)

Prerequisites/Corequisites: GE A1 requirement.

CAFF 321 Family and Consumer Resource Management (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper division standing.

CDFS 111 Preschool Child (3)

Prerequisites: None.

CDFS 211 Guiding Young Children (3)

Prerequisites: A grade of "C" or better in PSY 100 or SOC 100 or CDFS 111.

CDFS 312 Family and Personal Development (3)

Prerequisites: GE Foundation requirements; PSY 100 or SOC 100 or ANTH 120; upper division standing; or consent of instructor.

CDFS 411 Individual Child Study and Guidance (3)

Prerequisites: A grade of "C" or better in CDFS 311 or CDFS 314 or HDEV 307 or PSY 361; upper division standing; or consent of instructor.

CDFS 413 Child and Family in the Community (3)

Prerequisites: A grade of "C" or better in CDFS 312; upper division standing; or consent of instructor.

FCS 299 Intro to Family and Consumer Sciences (1)

Prerequisites: None.

Not open for credit to students with credit in FCSE 299.

FCS 499 Professionalism and Leadership in FCS (1)

Prerequisites: FCS 299, CAFF 321, 12 units of upper division course work in Family and Consumer Sciences. Must be taken in one of the last two semesters prior to graduation.

Not open for credit to students with credit in FCSE 499.

NUTR 132 Introductory Nutrition (3)

Prerequisites: Any GE Foundation course.

Take one of the following courses:

ANTH 120 Introduction to Cultural Anthropology (3)

Prerequisites: Any GE Foundation course.

Another approved Global Issues course (3)

Take one of the following pairs:

CDFS 214 Environments for Preschool Children (3)

Prerequisites: A grade of "C" or better in CDFS 111; or consent of instructor.

CDFS 414 Field Work with Preschool Children (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 214; or consent of instructor.

or

CDFS 215 Environments for Infants and Toddlers (3)

Prerequisites: A grade of "C" or better in CDFS 111; or consent of instructor.

CDFS 415 Field Work with Infants/Toddlers (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 215; or consent of instructor.

Take one of the following courses:

CDFS 311 Prenatal Development and Infancy (3)

Prerequisites: A grade of "C" or better in CDFS 111; upper division standing.

CDFS 314 The Older Child (3)

Prerequisites: A grade of "C" or better in CDFS 111; upper division standing; or consent of instructor.

Take one of the following courses:

FCS 392A Field Experience in Child Development and Family Studies (3)

Prerequisites: Upper division standing; major in Family and Consumer Sciences with an Option in Child Development and Family Studies; Consent of Instructor. Not open for credit to students with 6 units of FCSE 392. May not be taken concurrently with CDFS 492 A or CDFS 492B.

CDFS 492A Internship in Child Development and Family Studies (3)

Prerequisites: Student must be a Family and Consumer Sciences: Child Development and Family Studies major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and CDFS 411, CDFS 413, and CDFS 414 or CDFS 415. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. Students receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. CDFS 492A may not be taken concurrently with CDFS 492B or FCS 392A.

CDFS 414 (2nd semester) Fieldwork with Preschool Children (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 214; or consent of instructor.

CDFS 415 (2nd semester) Fieldwork with Infants/Toddlers (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 215; or consent of instructor.

FCS 497 Directed Studies (3)

Prerequisites: Junior standing; consent of instructor.

Not open for credit to students with credit in FCSE 497.

Take 9 units of advisor-approved electives. Three of the 9 units must be upper division.

Take 15 units from the following with advisor's approval: CDFS 319, CDFS 402, CDFS 408, CDFS 409, CDFS 410, CDFS 412, CDFS 416A, CDFS 416B, CDFS 417, CDFS 418, CDFS 419, or CDFS courses not taken above.

Each course on the student's program planner must be completed with a grade of "C" or higher. In addition, a course in which a grade lower than "C" is received

must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator.

This degree option has been deemed "similar" to the Transfer Model Curriculum for Early Childhood Education and for Childhood Adolescent Development under the Student Transfer Agreement Reform Act (SB 1440-Padilla). Students who complete an approved A.A.-T or A.S.-T degree in Early Childhood Education or in Child and Adolescent Development at a California Community College can meet B.A. in FCS: Option in CDFS requirements with no more than 60 additional units. Contact a CDFS faculty advisor for assistance in program planning.

Minor in Child Development and Family Studies

The Child Development and Family Studies (CDFS) minor offers the opportunity to take a concentration of courses focusing on children and families. By providing students with an aggregate of CDFS courses students will be better prepared careers relating to children and families in an array of settings.

Requirements

Students seeking a minor in CDFS must meet all prerequisite course requirements. In addition, students must maintain a "C" or better in all courses required for the minor. The minor requires 21 total units.

The minor in Child Development and Family Studies is not available to Child Development and Family Studies majors.

Take 9 units of core courses from the following courses:

CDFS 111 Preschool Child (3)

Prerequisites: None.

CDFS 312 Family and Personal Development (3)

Prerequisites: GE Foundation requirements; PSY 100 or SOC 100 or ANTH 120; upper division standing; or consent of instructor.

CDFS 319 Family Stress and Coping (3)

Prerequisites: GE Foundation requirements; ANTH 120 or PSY 100 or SOC 100 or consent of instructor; students must have scored 11 or higher on the GWAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GWAR Writing Intensive Capstone.

Take 12 units selected from the following courses:

CDFS 211, CDFS 214, CDFS 215, CDFS 311, CDFS 314, CDFS 409, CDFS 410, CDFS 411, CDFS 412, CDFS 413, CDFS 414, CDFS 415, CDFS 418.

Family Life Education

This option is available in the Department of Family and Consumer Sciences. It was introduced in response to a certification process developed by the National Council on Family Relations (NCFR). NCFR is the leading national organization for professionals concerned with promoting and enhancing the quality of family life. NCFR sponsors the only national program to certify family life educators.

After completing the recommended preparatory course work in this department, it is possible to get two types of certification from NCFR:

Provisional Certification from the National Council on Family Relations (NCFR) is available to students who complete

the approved courses that correspond to the ten substance areas from an approved program, but without the minimum two years of work experience.

Full Certification from the NCFR is available to students who graduate from an approved academic program and have completed at least two years of work experience as a family life educator. The work experience of the student has to be submitted, reviewed, and approved by an NCFR review committee.

Interested students should contact the Family Life Education Coordinator, Dr. Nilufer P. Medora, Family and Consumer Sciences (562) 985-4488 or at medora@csulb.edu

Option in Family Life Education (120 units)

This option provides an academic and professional background for work with children, adults, couples, and families. It offers an interdisciplinary foundation in several areas that influence and enhance the quality of life of children, adults, couples, and families based on education, enrichment and prevention. Fieldwork opportunities where students have direct experiences with individuals and families in the community are provided for qualified students.

Requirements

Take all of the following courses:

CDFS 111 Preschool Child (3)
Prerequisites: None.

CDFS 312 Family and Personal Development (3)
Prerequisites: GE Foundation requirements; PSY 100 or SOC 100 or ANTH 120; upper division standing; or consent of instructor.

CDFS 319 Family Stress and Coping (3)
Prerequisites: GE Foundation requirements; ANTH 120 or PSY 100 or SOC 100 or consent of instructor; students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

CDFS 402 Child and Family Law (3)
Prerequisites: A grade of "C" or better in CDFS 312; upper division standing.

CDFS 410 International Families: Families in Cross-Cultural Perspectives (3)
Prerequisites: A grade of "C" or better in CDFS 312; or consent of instructor.

CDFS 411 Individual Child Study and Guidance (3)
Prerequisites: A grade of "C" or better in CDFS 311 or CDFS 314 or HDEV 307 or PSY 361; upper division standing; or consent of instructor.

CDFS 413 Child and Family in the Community (3)
Prerequisites: A grade of "C" or better in CDFS 312; upper division standing; or consent of instructor.

CDFS 418 Parent Education (3)
Prerequisites: Upper-division standing and at least 6 units of upper division child development and family studies or equivalent courses, or consent of instructor.

CDFS 419 Family Life Education (3)
Prerequisites: A grade of "C" or better in CDFS 413; upper division standing; or consent of instructor.

CDFS 492B Internship in Family Life Education (3)
Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Family Life Education; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Child Development and Family Studies; have completed CDFS 413 and CDFS 419 each with a grade of "C" or higher. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. Students

receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. CDFS 492B may not be taken concurrently with CDFS 492A or FCS 392A.

CAFF 321 Family & Consumer Resource Management (3)
Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper division standing.

FCS 299 Introduction to FCS (1)
Prerequisites: None.
Not open for credit to students with credit in FCSE 299.

FCS 499 Professionalism and Leadership in Family and Consumer Sciences (1)
Prerequisites: FCS 299, CAFF 321, 12 units of upper division course work in Family and Consumer Sciences. Must be taken in one of the last two semesters prior to graduation.
Not open for credit to students with credit in FCSE 499.

HSC 425 Human Sexuality and Sex Education (3)
Prerequisites: GE Foundation, one or more Exploration courses, and upper-division standing. Recommended: PSY 100.

NUTR 132 Introductory Nutrition (3)
Prerequisites: Any GE Foundation course.

PSY 100 General Psychology (3)
Prerequisites/Corequisites: GE A1 requirement.

Take one the following courses:

ANTH 120 Introduction to Cultural Anthropology (3)
Prerequisites: Any GE Foundation course.

Another approved Global Issues course (3)

Take one of the following courses:

GERN 400 Perspectives on Gerontology (3)
Prerequisites: GE Foundation, one or more Exploration courses, and upper-division standing.

HDEV 357 Approaches to Adulthood Through Aging (3)
Prerequisites: GE Foundation requirements, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100 with a "C" or better.

Take one of the following courses:

CDFS 311 Prenatal Development and Infancy (3)
Prerequisites: A grade of "C" or better in CDFS 111, upper division standing.

CDFS 314 The Older Child (3)
Prerequisites: A grade of "C" or better in CDFS 111; upper division standing; or consent of instructor.

Take one of the following courses:

CDFS 412 Family Interaction (3)
Prerequisites: A grade of "C" or better in CDFS 312; upper division standing; or consent of instructor.

CDFS 417 Premarital Intervention (3)
Prerequisites: A grade of "C" or better in CDFS 312; or consent of instructor.

Take 9 units of advisor-approved electives. Three of the 9 units must be upper division.

In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C", may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator. Each course on the student's program planner must be completed with a grade of "C" or higher.

Child Development and Family Studies Courses (CDFS)

LOWER DIVISION

111. Preschool Child (3)

Behavior and development in early childhood, with emphasis on the interaction of parents, children and teachers.

(Lecture-discussion 3 hours)

211. Guiding Young Children (3)

Prerequisites: A grade of "C" or better in PSY 100 or SOC 100 or CDFS 111.

Processes, techniques, models, research, and selected issues in child guidance as applied to 3-5 year-old children in family and community settings. Development of a personal approach to guidance based on current scientific research and theory concerning child development.

(Lecture-discussion 3 hours)

214. Environments for Preschool Children (3)

Prerequisites: A grade of "C" or better in CDFS 111; or consent of instructor.

Introduction to preschool care-giving practices. Growth and development of preschool children relating to the classroom environment. Application of theories, models, and research to current preschool classroom practices.

Letter grade only (A-F). (Lecture-discussion 3 hours)

215. Environments for Infants and Toddlers (3)

Prerequisites: A grade of "C" or better in CDFS 111; or consent of instructor.

Introduction to infant and toddler care-giving practices. Growth and development of children from birth through three years of age relating to the classroom environment. Application of theories, models, and research to current infant and toddler classroom practices.

Letter grade only (A-F). (Lecture-discussion 3 hours)

219. Stress, Coping and Resiliency for the Professional Educator (3)

Prerequisites: A grade of "C" or better in ENGL 100 or GE Composition (Area A1).

Identification of stressors which diminish the effectiveness of the learning environment for at-risk school children. Use Family Resiliency Model to examine critical family dynamics. Practical stress management for future teachers.

Letter grade only (A-F). (Lecture-Discussion 3 hours)

290. Directed Studies (1-3)

Independent study under the direction of a faculty member. Exploration and experience in areas which are not a part of any regular course.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. (Seminar)

UPPER DIVISION

311. Prenatal Development and Infancy (3)

Prerequisites: A grade of "C" or better in CDFS 111; upper division standing.

Human development from conception through prenatal development, childbirth, the neonatal period, infancy and toddlerhood with emphasis on the various aspects of development and the environmental/social factors essential for human growth.

(Lecturer-discussion 3 hours)

312. Family and Personal Development (3)

Prerequisites: GE Foundation requirements; PSY 100 or SOC 100 or ANTH 120; upper division standing; or consent of instructor.

Interdisciplinary introduction to the concepts underlying contemporary American family life and the influence of social and cultural conditions on human development.

(Lecture-discussion 3 hours)

314. The Older Child (3)

Prerequisites: A grade of "C" or better in CDFS 111; upper division standing; or consent of instructor.

Behavior and development in middle and late childhood and adolescence, with emphasis on individual and cultural differences.

(Lecturer-discussion 3 hours)

319. Family Stress and Coping (3)

Prerequisites: GE Foundation requirements; ANTH 120 or PSY 100 or SOC 100 or consent of instructor; students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

Examination of theories and research associated with stressors affecting family functioning throughout the lifecycle. Consideration given to both normative transitions and non-normative stressors. Emphasis on strategies to assist families to deal productively with stress and change.

(Lecture-discussion 3 hours)

402. Child and Family Law (3)

Prerequisites: A grade of "C" or better in CDFS 312; upper division standing.

Establishment, conduct, and termination of marital and non-marital family relationships, including the rights and duties of the parties involved. Topics include marital disillusionment, child custody issues, property rights, domestic violence, adoption, support, genetic testing, and new trends in family law.

Letter grade only (A-F). (Lecture-discussion 3 hours)

408. Transition to Parenthood (3)

Prerequisite: CDFS 312

An empirically based evaluation of the transition to parenthood. It examines how a baby, from the onset of pregnancy to one year after the child's birth, impacts a couple's relationship. Both theory and research are emphasized.

(3 hours lecture)

409. Language, Learning and the Developing Child: A Cross-Cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process.

Letter grade only (A-F). Not open for credit to students currently enrolled in the Liberal Studies program. Same course as EDEL 429. Not open for credit to student with credit in LING 429, EDEL 429, and EDP 428.

410. International Families: Families in Cross-Cultural Perspectives (3)

Prerequisites: A grade of "C" or better in CDFS 312; or consent of instructor.

Basic concepts and definitions relating cross-cultural studies will be discussed. Important family life cycle changes will be explained for major ethnic groups within the United States. Family life in selected international families will also be examined.

(Lecture-discussion 3 hours)

411. Individual Child Study and Guidance (3)

Prerequisites: A grade of "C" or better in CDFS 311 or CDFS 314 or HDEV 307 or PSY 361; upper division standing; or consent of instructor.

Analysis and interpretation of theory, research, trends and techniques for the study and guidance of the individual child in family and community settings.

(Lecture-activity 3 hours)

412. Family Interaction (3)

Prerequisites: A grade of "C" or better in CDFS 312; upper division standing; or consent of instructor.

Dynamics of interaction and communication in interpersonal relationships throughout the family life cycle. Experience with a variety of communication skills in small group settings.

(Lecture-discussion 3 hours)

413. Child and Family in the Community (3)

Prerequisites: A grade of "C" or better in CDFS 312; upper division standing; or consent of instructor.

Study of cultural varieties and the needs of the contemporary American family in an urban community; analysis of current issues and problems; identification of and experience with community resources and agencies.

(Lecture-discussion 3 hours)

414. Fieldwork with Preschool Children (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 214; or consent of instructor.

Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation.

May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours)

415. Fieldwork with Infants/Toddlers (3)

Prerequisites: A grade of "C" or better in CDFS 111, CDFS 211, CDFS 215; or consent of instructor.

Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation.

May be repeated to a maximum of 6 units in different semesters with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours) Letter grade only (A-F).

416A. Introduction to Administration and Supervision of Child Development Programs (3)

Prerequisites: A grade of "C" or better in CDFS 414 or CDFS 415; or consent of instructor.

Minimum and recommended standards and laws pertaining to housing, equipment, play space, adult/child ratio, health supervision and meal service for children's programs. Selection and supervision of personnel, program planning and directing.

(Lecture-discussion 3 hours)

416B. Applications of Administration and Supervision of Child Development Programs (3)

Prerequisites: A grade of "C" or better in CDFS 416A; or consent of instructor.

Decision theory and its application, communication strategies, planning, operating and evaluating programs for young children.

(Lecture-discussion 3 hours)

417. Premarital Intervention (3)

Prerequisites: A grade of "C" or better in CDFS 312; or consent of instructor.

Review of research on dating relationships and intervention programs designed for individuals or couples prior to marriage. Emphasis on applying research to the development of programs to assist premarital individuals enrich their relationships.

(Lecture-discussion 3 hours)

418. Parent Education (3)

Prerequisites: Upper-division standing and at least 6 units of upper division child development and family studies or equivalent courses, or consent of instructor.

Principles and techniques for working with parents in community and school programs. Assessment of needs and development of programs for adults in a variety of social and cultural settings.

(Lecture-activity 3 hours)

419. Family Life Education (3)

Prerequisites: A grade of "C" or better in CDFS 413; upper division standing; or consent of instructor.

History, purpose, principles, ethics, ten substance areas, and paradigms of family life education will be explored. Planning, implementing, and evaluating family life education programs will be discussed. Gender, ethnicity, and diversity issues related to family life education will be stressed.

Letter grade only (A-F). (Lecture-discussion 3 hours)

492A. Internship in Child Development and Family Studies (3)

Prerequisites: Student must be a Family and Consumer Sciences: Child Development and Family Studies major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and CDFS 411, CDFS 413, and CDFS 414 or CDFS 415. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. Students receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. CDFS 492A may not be taken concurrently with CDFS 492B or FCS 392A.

Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation.

May be repeated for 6 units maximum. (Seminar 3 hours)

492B. Internship in Family Life Education (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Family Life Education; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Child Development and Family Studies; have completed CDFS 413 and CDFS 419 each with a grade of "C" or higher. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. Students receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. CDFS 492B may not be taken concurrently with CDFS 492A or FCS 392A.

Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation.

May be repeated for 6 units maximum. (Seminar 3 hours)

CHINESE STUDIES

College of Liberal Arts
Department of Asian and Asian American Studies

Department Chair: Teri Yamada

Vice Chair: Barbara W. Kim

Department Office: Faculty Offices FO3-340

Telephone: (562) 985-4645

FAX: (562) 985-1535

Website: <http://www.csulb.edu/dept/as>

Faculty: Ruixi Ai, Kiyomi Chinen, Masako O. Douglas, Linda N. España-Maram, Hiroko Kataoka, Hsin-sheng C. Kao (Emerita), Barbara W. Kim, Yoko Pusavant (Emerita), San-Pao Li (Emeritus), Dean S. Toji, John N. Tsuchida, Tianwei (Tim) Xie (Emeritus), Teri Yamada

Advisors:

Graduate: Teri Yamada and Barbara Kim

Undergraduate: Barbara Kim

Undergraduate: Dean Toji (Asian American Studies)

Undergraduate: Teri Yamada (Asian Studies)

Undergraduate: Ruixi Ai (Chinese Studies)

Undergraduate: Hiroko Kataoka (Japanese)

Associate Faculty: Christine Bhat (Educational Psychology, Administration and Counseling), Jeffrey Broughton (Religious Studies), Kendall Brown (Art History), Chi-Ah Chun (Psychology), Frank Gossette (Geography), Lisa Grobar (Economics), Jack W. Hou (Economics), Margaret Kuo (History), Tomotaka Ishimine (Economics), Guotong Li (History), Jyotsna Pattnaik (Teacher Education), Xiaoping Liang (Linguistics), William Mulligan (Journalism), Karen Quintiliani (Anthropology), George Scott (Anthropology), Michiko Takeuchi (History), Teresa Wright (Political Science), Oliver Wang (Sociology), R. Scott Wilson (Anthropology)

Administrative Support Coordinator: Ann Chau

Students desiring information should contact department office for referral to one of the faculty advisors.

Career Possibilities

Customs Inspector • Immigration Officer • Importer/Exporter • Foreign Service Officer • International Marketing Representative • Travel Guide • Social Worker • Linguist • Foreign Correspondent • Community Organization Worker • Lawyer • Librarian • International Student Advisor • Educator • Peace Corps Worker • Interpreter • Translator • CIA/FBI Agent (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Chinese Studies (120 units)

Residence Requirement for the Majors

At least four upper division courses required for the major must be completed successfully at CSULB. Students are encouraged, however, to complete up to a year of their language study in approved programs of study abroad.

Requirements

A minimum of 38 units is required. CHIN 101 and 102 are prerequisite to the major and may be satisfied by appropriate high school preparation or by examination.

Lower Division (14 units):

Complete ALL of the following courses:

AAAS 100 Asian Eats (3)

Prerequisite: None.

CHIN 201 Intermediate Chinese (4)

Prerequisite: GE Foundations or competency equivalent for advanced study in Chinese

CHIN 202 Intermediate Chinese (4)

Prerequisite: GE Foundations or competency equivalent for advanced study in Chinese

CHIN 260 Introduction to Chinese Civilization (3)

Prerequisite: none

Upper Division (9 units)

Complete ALL of the following courses:

CHIN 301 Advanced Chinese (3)

Prerequisite: CHIN 202 or equivalent, or consent of Instructor.

CHIN 380 Languages and Dialects in China (3)

Prerequisite: CHIN 102 or Equivalent.

AAAS 492 Senior Research Seminar (3)

Prerequisites: Upper-division standing.

Upper Division Electives (15 units):

A. Complete 9 units from the following courses:

CHIN 302, CHIN 311, CHIN 321, CHIN 370, CHIN 390, CHIN 410, CHIN 421, CHIN 430A, CHIN 430B, CHIN 430C, CHIN 451, CHIN 462, CHIN 485, CHIN 490, CHIN 499; CHIN/HIST 382B.

B. Complete 6 units from the following courses:

ANTH 332; AH 468, AH 469; ASAM 319, ASAM 331, ASAM 340, ASAM 345, ASAM 407; A/ST 306, A/ST 307, A/ST 309, A/ST 320, A/ST 336; ASAM/CHLS 335; HIST/WGSS 406; HIST 382A, HIST 388, HIST 412; JAPN 350; JOUR 312; PHIL 306; POSC 362, POSC 455, POSC 485; R/ST 341.

Chinese Studies (CHIN)

LOWER DIVISION

101. Fundamentals of Chinese (4)

Prerequisites: One GE Foundation course which may be taken concurrently, or formal prerequisites and/or competency equivalent for CHIN 101.

Introduction to pronunciation, reading, writing, conversation, and grammar.

Students with previous training or native speakers of Chinese may not enroll.

102. Fundamentals of Chinese (4)

Prerequisites: One GE Foundation course which may be taken concurrently, or formal prerequisites and/or competency equivalent for advanced study in Chinese.

Introduction to pronunciation, reading, writing, conversation, and grammar.

Students with previous training or native speakers of Chinese may not enroll.

201. Intermediate Chinese (4)

Prerequisites: GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Chinese.

Continuation of first year Chinese. Further development of syntax, grammar and sentence patterns, reading, writing and conversation.

Students with previous training or native speakers of Chinese may not enroll.

202. Intermediate Chinese (4)

Prerequisites: GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Chinese.

Continuation of first year Chinese. Further development of syntax, grammar and sentence patterns, reading, writing and conversation.

Students with previous training or native speakers of Chinese may not enroll.

260. Introduction to Chinese Civilization (3)

Thematic survey of various aspects of Chinese civilization from its beginning to the present. Emphasizes not only the understanding of China's history but also the salient cultural elements that made China a great and distinctive country.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

301. Advanced Chinese (3)

Prerequisites: CHIN 202 or its equivalent, or consent of the instructor.

Study of modern spoken and written Chinese involving advanced expressions. Emphasis on reading, comprehension, vocabulary building and idiomatic usage.

302. Advanced Chinese (3)

Prerequisites: CHIN 301 or its equivalent, or consent of the instructor.

Study of modern spoken and written Chinese involving advanced expressions. Emphasis on reading, comprehension, vocabulary building and idiomatic usage.

311. Advanced Spoken Chinese (3)

Prerequisite: CHIN 202 or its equivalent as determined by the instructor.

Advanced study in modern spoken Chinese and Chinese communication. Designed to enhance advanced speaking ability in Mandarin on a range of topics.

Letter grade only (A-F).

321. Chinese Calligraphy (3)

Prerequisites: Consent of instructor. Completion of first-year Chinese or Japanese language or equivalent preferred.

Focuses on the history, development, artistry, and appreciation of Chinese calligraphy. Equal emphasis placed on hands-on practice in and outside of the classroom.

370. Chinese Literature in English Translation (3)

Prerequisite: GE Foundation requirements.

Readings in translation of representative works of the major literary genres in China covering both the classical and the modern periods. Previous knowledge of the language is highly desirable, but not necessary.

380. Languages and Dialects in China (3)

Prerequisites: CHIN 102 or equivalent.

Chinese language viewed in its linguistic context, synchronically and diachronically. Introduction to descriptive grammar of modern standard Chinese, classical Chinese, the rise of written vernacular, dialect variations and sociolinguistic issues.

Lecture/discussion.

382B. Modern China (3)

Prerequisite: GE Foundation requirements. Chinese society from the 17th century to 1949.

Chinese society from the 17th century to 1949. Impact of imperialism, reform and revolutionary movements, and the background of Chinese communism.

Not open for credit to students with credit in HIST 482B.

390. Topics in Chinese Cultural Studies (3)

Prerequisites: Upper-division standing or consent of instructor.

Interdisciplinary study of representative features of contemporary Chinese culture and society.

May be repeated to a maximum of 6 units with different topics.

410./510. Chinese Information Processing (3)

Prerequisite: CHIN 202, or equivalent, or consent of instructor.

Introduction to the fundamentals of Chinese web design, including word-processing, HTML, layout, and user interaction.

May be repeated to a maximum of 6 units with different topics.

Undergraduates register in CHIN 410; Graduates register in CHIN 510.

421. Current Affairs in China (3)

Prerequisite: Consent of instructor.

Enhances students' proficiency in Chinese through reading newspapers. Students will familiarize themselves with all aspects of Chinese culture and contemporary society, as well as the language use. A hybrid course. Letter grade only (A-F).

430A./530A. Classical Chinese Fiction (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of traditional Chinese fiction, ranging from major works of fiction from the Six Dynasties (317-588) through the Qing Dynasty (1644-1911).

Undergraduates register in CHIN 430A; graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

430B./530B. Classical Chinese Drama (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of Yuan (1279-1368) and Ming (1368-1644) drama, ranging from major works of Northern Drama (Zaju) and Southern Drama (Nanxi) to Peking Opera (Jingxi).

Undergraduates register in CHIN 430B; graduates register in CHIN 530B. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

430C./530C. Classical Chinese Poetry (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of traditional Chinese poetry, ranging from major poetic works from antiquity to Qin Dynasty (1644-1911). Textual analysis and literary interpretational are emphasized.

Undergraduates register in CHIN 430A; Graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

451./551. Chinese Culture and Tradition (3)

Prerequisite: Consent of Instructor.

Designed as a capstone language class. Instruction of this class is in Mandarin.

Undergraduates register in CHIN 451; Graduates register in CHIN 551.

462./562. Contrastive Analysis of Chinese and English (3)

Prerequisite: CHIN 201, or consent of instructor.

Designed for students who plan to teach Chinese language or do research in Chinese linguistics. Comparison of phonological, morphological, syntactic and discourse aspects of English and Chinese. Analysis of common errors in learning Chinese.

Letter grade only (A-F).

485./585. Masterpieces from China (3)

Prerequisites: Consent of instructor.

Reading of major works from China in Chinese. Selected writings represents different periods of Chinese history, thoughts, and literary tradition. Course conducted in Chinese. May be repeated to a maximum of 6 units. Undergraduates register in CHIN 485; Graduate register in CHIN 585.

490./590. Selected Topics in Chinese Studies (3)

Prerequisite: Consent of instructor.

Variable topics related to advanced Chinese Studies, depending on the instructor's discipline and expertise.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. Undergraduates register in CHIN 490; Graduates register in CHIN 590.

499./599. Directed Studies in Chinese (1-3)

Prerequisite: Consent of instructor.

Independent study under supervision of a faculty member.

May be repeated to a maximum of 6 units with different topics in different semesters.

GRADUATE LEVEL**510./410. Chinese Information Processing (3)**

Prerequisite: CHIN 202, or equivalent, or consent of instructor.

Introduction to the fundamentals of Chinese web design, including word-processing, HTML, layout, and user interaction.

May be repeated to a maximum of 6 units with different topics. Undergraduates register in CHIN 410; Graduates register in CHIN 510.

530A./430A. Classical Chinese Fiction (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of traditional Chinese fiction, ranging from major works of fiction from the Six Dynasties (317-588) through the Qing Dynasty (1644-1911).

Undergraduates register in CHIN 430A; graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

530B./430B. Classical Chinese Drama (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of Yuan (1279-1368) and Ming (1368-1644) drama, ranging from major works of Northern Drama (Zaju) and Southern Drama (Nanxi) to Peking Opera (Jingxi).

Undergraduates register in CHIN 430B; graduates register in CHIN 530B. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

530C./430C. Classical Chinese Poetry (3)

Prerequisite: Upper-division standing or consent of instructor.

Study and examination of traditional Chinese poetry, ranging from major poetic works from antiquity to Qin Dynasty (1644-1911). Textual analysis and literary interpretational are emphasized.

Undergraduates register in CHIN 430A; Graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

551./451. Chinese Culture and Tradition (3)

Prerequisite: Consent of Instructor.

Designed as a capstone language class. Class instruction is conducted in Mandarin. Undergraduates register in CHIN 451; graduates register in CHIN 551.

Undergraduates register in CHIN 451; Graduates register in CHIN 551.

561. The Structure of Modern Chinese Language (3)

Prerequisite: Consent of instructor.

The Chinese language viewed in its linguistic context, synchronically and diachronically. Introduction to descriptive grammar of modern standard Chinese, the rise of written vernacular, dialect variations and sociolinguistic issues.

Letter grade only (A-F).

562./462. Contrastive Analysis of Chinese and English (3)

Prerequisite: Consent of instructor.

Designed for students who plan to teach the Chinese language or do research in Chinese linguistics. Comparison of phonological, morphological, syntactic and discourse aspects of English and Chinese. Analysis of common errors in learning Chinese.

Letter grade only (A-F).

581. Principles and Practice of Teaching Chinese (3)

Prerequisite: Consent of instructor.

Designed for students planning to become Chinese language teachers, Single Subject Credential program students or graduate students in Asian Studies or Linguistics. Prepares the student to be a Chinese teacher at all levels. Lectures, discussions, class observation and teaching preparation.

Letter grade only (A-F).

585./485. Masterpieces from China (3)

Prerequisites: Consent instructor.

Reading of major works from China in Chinese. Selected writings represents different periods of Chinese history, thoughts, and literary tradition. Course conducted in Chinese.

May be repeated to a maximum of 6 units. Undergraduates register in CHIN 485; Graduate register in CHIN 585.

590./490. Selected Topics in Chinese Studies (3)

Prerequisite: Consent of instructor.

Variable topics related to advanced Chinese Studies, depending on the instructor's discipline and expertise.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. Undergraduates register in CHIN 490; Graduates register in CHIN 590.

599./499. Directed Studies in Chinese (1-3)

Prerequisites: Consent of instructor.

Independent study under supervision of a faculty member.

May be repeated to a maximum of 6 units with different topics in different semesters.

CIVIL ENGINEERING AND CONSTRUCTION ENGINEERING MANAGEMENT

College of Engineering

Department Chair: Richard P. Nguyen

Department Office: Vivian Engineering Center (VEC) – 104

Telephone: (562) 985-5118

Website: www.csulb.edu/colleges/coe/cecem/

Faculty: Pitiporn Asvapathanagul, Tesfai Goitom, Jin-Lee Kim, Yu-Fu (Paul) Ko, Elhami Nasr, Tang-Hung Nguyen, Richard P. Nguyen, Emelinda M. Parentela, Shadi Saadeh, Antonella Sciortino, Lisa Star, Tariq Shehab-Eldeen, Rebeka Sultana, Luis Arboleda, Vesna Terzic

Undergraduate Advisors:

Paul Ko (CE), Tang-Hung Nguyen (CEM)

Emelinda M. Parentela (CE)

Graduate Advisor: Tesfai Goitom

General Education Advising: Academic Advising - Horn Center

Administrative Support Coordinator: Ameeta Perera

Students desiring detailed information about Civil Engineering or Construction Engineering Management programs should contact the department office for referral to one of the faculty advisors.

Career Possibilities

Civil Engineer • Traffic Engineer • Sanitary Engineer
• Structural Engineer • Hydraulic Engineer • Highway Administration Engineer • Harbor Engineer • Airport Engineer • Environmental Engineer • Transportation Engineer • Drainage Design Coordinator • Technical Sales and Consulting • Field Engineer • Facilities Engineer
• Plant Engineer • Project Engineer • Safety Engineer
• Sales Representative • Estimator • Construction Coordinator • Procurement Construction Coordinator
• Construction Inspector • Cost Analysis Coordinator • Contract Coordinator • Consultant (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Advisory and Development Councils

The Civil Engineering Advisory and Development Council

This council consists of outstanding engineers and executives from industry and government in Southern California. Its function is to form a liaison between the University and industry and to keep the administration and faculty informed of modern engineering practices. This ensures that the curricula are kept up-to-date. It also advises on placement opportunities before and after graduation.

Construction Engineering Management Advisory and Development Council

This council provides current information and guidance about industrial developments in methods, materials and techniques. Members make recommendations in course content, methods and/or facilities. Present membership in the council is made up of representatives from the different sectors of the construction industry.

ABET Accreditation

The Bachelor of Science in Civil Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

ACCE Accreditation

The Bachelor of Science in Construction Engineering Management is accredited by the American Council for Construction Education (ACCE), website: <http://www.acce-hq.org/>.

Undergraduate Programs

Bachelor of Science in Civil Engineering (120 units)

Mission

The mission of the Civil Engineering Program is to prepare students to succeed in the civil engineering profession by providing them with essential technical tools and skills and to promote the need for lifelong learning.

Educational Objectives

The Civil Engineering Program Educational Objectives are to produce graduates, who after entering the civil engineering practice will:

1. Apply knowledge of fundamental science and engineering principles and design to the solution of complex engineering projects.
2. Pursue lifelong learning through continuing education and/or advanced degrees in civil engineering or other related fields.
3. Progress to professional registration and continue to develop professionally.
4. Progress to leadership or management in engineering.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Civil Engineering). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Civil Engineering must also meet similar major specific requirements. To become fully admitted into the Civil Engineering major, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses with a minimum grade of "C" prior to earning 60 units:

Core Lower Division Major Requirements:

MATH 122 (Calculus I), MATH 123 (Calculus II), PHYS 151 (Mechanics and Heat)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade of "C" or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

Lower Division:

Take all of the following:

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CE 101 Introduction to Civil Engineering and Construction Engineering Management (1)

Prerequisites: None.

CE 130 Surveying and Mapping (1)

Corequisites: CE 130L and MAE 172 or CEM 121.

CE 130L Surveying and Mapping Laboratory (1)

Corequisite: CE 130.

CE 200 Materials for Civil Engineering (2)

Prerequisites: CHEM 111A and PHYS 151 all with a grade of "C" or better; consent of department undergraduate advisor.

CE 205 Analytical Mechanics I (Statics) (3)

Prerequisite: PHYS 151 with a grade of "C" or better.

Prerequisite/Corequisite: MATH 123.

CE 206 Computer Programming and CE Applications I (2)

Prerequisites: MATH 122, PHYS 151 all with a grade of "C" or better.

ENGR 101 Intro to the Engineering Profession (1)

Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skills (1)

Prerequisite: ENGR 101 with a grade of "C" or better.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.

MAE 172 Engineering Design Graphics (2)

Prerequisites: None.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

Take one of the following:

BIOL 200 General Biology (4)

Prerequisite: GE Foundation requirements.

MICR 200 Microbiology for Health Professionals (4)

Prerequisites: CHEM 111A or CHEM 140 with a grade of "C" or better and GE Foundation requirements.

Take 4 units of the following:

EE 210 Electro-Magnetic Foundations in EE (3)

Prerequisite: PHYS 151 with a grade of "C" or better.

Corequisites: MATH 123, EE 210L.

EE 210L Electro-Magnetic Foundations in EE Lab (1)

Corequisite: EE 210.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Upper Division:

Take all of the following:

CE 325 Transportation Safety and Sustainability (3)

Prerequisites: GE Foundation requirements.

CE 335 Fluid Mechanics (3)

Prerequisites: MATH 224 and C E 205 all with a grade of "C" or better.

CE 345 Geotechnical Engineering I (3)

Prerequisite: Consent of Department Undergraduate Advisor.

Corequisites: MAE 373; GEOL 370.

CE 346 Geotechnical Engineering Laboratory (1)

Prerequisite: ENGL 100 or GE Composition (Area A1) with a grade of "C" or better.

Corequisite: CE 345.

CE 359 Structural Analysis I (3)

Prerequisite: MAE 373 with a grade of "C" or better.

CE 364 Environmental Engineering (3)

Prerequisites: CHEM 111A, BIOL 200/MICR 200 with a grade of "C" or better.

Prerequisite/Corequisite: CE 335.

CE 406 Project Cost-Benefit Analysis (3)

Prerequisite: GE Foundation requirements.

CE 407 Probability & Statistics in Civil Engineering (2)

Prerequisites: CE 206 and MATH 224 all with a grade of "C" or better.

CE 426 Transportation Engineering (3)

Prerequisite: CE 345 with a grade of "C" or better.

Corequisite: CE 406.

CE 437 Engineering Hydraulics (3)

Prerequisites: C E 335, MATH 370A all with a grade of "C" or better.

CE 459 Reinforced Concrete Design I (3)

Prerequisites: C E 200 and 359 all with a grade of "C" or better.

CE 481 Professional Practice in Civil Engineering (1)

Prerequisite: Senior standing.

CE 490 Senior Design Project (3)

Prerequisite: CE 459; completion of all 300-level engineering courses for the civil engineering major all with a grade of "C" or better and consent of department undergraduate advisor.

Prerequisite/Corequisite: CE 426, CE 437. Normally taken in the last year of the undergraduate program.

GEOL 370 Geology for Engineers (2)

Prerequisites: CE 200.

MATH 370A Applied Mathematics I (3)

Prerequisites: A grade of "C" or better in MATH 123. Not open to Freshmen.

MAE 330 Engineering Thermodynamics I (3)

Prerequisites: MATH 224, PHYS 151 or equivalent, and CHEM 111A all with a grade of "C" or better or consent of instructor.

MAE 371 Analytical Mechanics II (Dynamics) (3)

Prerequisites: CE 205, MAE 205 or CE 206 all with a grade of "C" or better.

MAE 373 Mechanics of Deformable Bodies (3)

Prerequisite: CE 205 with a grade of "C" or better.

Take six units of electives courses from:

CE 427, CE 428, CE 429/429L, CE 435, CE 438/438L,

CE 439, CE 445, CE 446, CE 455, CE 456, CE 458, CE 464, CE 466, CE 495

Take two laboratories from:

CE 326, CE 336, CE 365, CE 454, MAE 374

A grade of "C" or better must be achieved in the required courses below:

CHEM 111A, MATH 122, MATH 123, MATH 224, MATH 370A, BIOL 200, MICR 200, PHYS 151, MAE 172, MAE 373, CE 130, CE 130L, CE 200, CE 205, CE 206, CE 325, CE 335, CE 345, CE 359, CE 406, CE 459 and CE 490.

Bachelor of Science in Construction Engineering Management (120 units)

Mission

The Mission of the Construction Engineering Management program is to educate and prepare students to succeed in the construction engineering management profession by providing them with essential technical, managerial and communication skills and tools which will enable them to perform current and future construction engineering management tasks and to promote the need for life-long learning.

Educational Objectives

The Construction Engineering Management program educational objectives are to produce graduates, who after entering the construction engineering management practice with a knowledge of fundamental construction engineering management principles and current technologies, communication skills and practical construction experience, will:

1. Provide substantial contributions to the construction industry.
2. Pursue life-long learning through continuing education and/or advanced degrees in construction engineering management or other related fields.
3. Continue to develop professionally through participation in professional organizations and/or participation in professional development activities in the industry.
4. Progress towards professional certifications.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Construction Engineering Management). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Construction Engineering Management must also meet similar major specific requirements. To become fully admitted into the Construction Engineering Management major, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses with a minimum grade of "C" prior to earning 60 units:

Core Lower-Division Major Requirements:

MATH 122 (Calculus I), PHYS 100A (General Physics)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 111 and MATH 113, and PHYS 100A within one calendar year.

Transfer Students: A grade "C" or better must be achieved in MATH 122 and PHYS 100A & B within one calendar year.

Requirements

Lower Division:

Take all of the following:

CE 101 Introduction to Civil Engineering and Construction Engineering Management (1)
Prerequisites: None.

CE 130 Surveying and Mapping (1)
Corequisites: CE 130L and MAE 172 or CEM 121.

CE 130L Surveying and Mapping Laboratory (1)
Corequisite: CE 130.

ENGR 101 Intro to the Engineering Profession (1)
Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skills (1)
Prerequisite: ENGR 101 with a grade of "C" or better.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

PHYS 100A General Physics (4)
Prerequisite: MATH 109 or MATH 113 or MATH 119A or MATH 120 or MATH 122.

PHYS 100B General Physics (4)
Prerequisite: PHYS 100A.

CEM 121 Construction Drawing I (2)
Prerequisites: None.

CEM 125 Fundamentals of Construction (3)
Prerequisites: None.

CEM 200 Concrete Construction (1)
Prerequisite: CEM 125 with a grade of "C" or better.
Corequisite: CEM 200L.

CEM 200L Concrete Construction Laboratory (1)
Corequisite: CEM 200.

CEM 202 Probability and Statistics for CEM (2)
Prerequisite: High School Algebra.

CEM 204 Applied Mechanics-Statics (3)
Prerequisites: MATH 122 and PHYS 100A all with a grade of "C" or better.

CEM 225 Residential and Light Commercial Construction Practices and Estimating (3)
Prerequisites: CEM 121, CEM 125 all with a grade of "C" or better. Corequisites: CEM 200, CEM 200L.

Take one of the following:

BLAW 220 Introduction of Law and Business Transactions (3)
Prerequisites: None

BLAW 320 Legal and Regulatory Environment of Business (3)
Prerequisites: None

Take one of the following:

CEM 201 Cost Accounting for Construction Engineering (3)
Prerequisites: None.

ACCT 201 Elementary Financial Accounting (3)
Prerequisites: None.

Upper Division:

Take all of the following:

CE 406 Project Cost-Benefit Analysis (3)
Prerequisite: GE Foundation requirements.

CEM 304 Applied Mechanics Strength of Materials (2)
Prerequisite: CEM 204 with a grade of "C" or better.

CEM 315 Construction Safety (2)
Prerequisite: CEM 225 or CE 200 with a grade of "C" or better.

CEM 324 Commercial, Institutional, and Industrial Construction Practices and Estimating (3)
Prerequisites: CEM 315 with a grade of "C" or better.

CEM 335 Soil Mechanics Technology (2)
Prerequisite: CEM 304 with a grade of "C" or better.
Corequisite: CEM 335L.

CEM 335L Soil Mechanics Technology Laboratory (1)
Prerequisite: CEM 304 with a grade of "C" or better.
Corequisite: CEM 335.

CEM 365 Mechanical Equipment for Buildings (2)
Prerequisite: PHYS 100B with a grade of "C" or better.
Corequisite: CEM 324.

CEM 375 Electrical Equipment Buildings (2)
Prerequisites: CEM 324, PHYS 100B all with a grade of "C" or better.

CEM 404 Structural Design I (2)
Prerequisite: CEM 304 with a grade of "C" or better.

CEM 421 Construction Planning and Scheduling (3)
Prerequisite: CEM 324 with a grade of "C" or better.

CEM 425 Earthwork and Civil Works Construction Practices (2)
Prerequisite: CEM 324, CE 406 with a grade of "C" or better.

CEM 426 Business and Construction Law (3)
Prerequisites: CEM 324; BLAW 220 with a grade of "C" or better.

CEM 429 Advanced Estimating and Bidding (3)
Prerequisite: CEM 315 with a grade of "C" or better.
Corequisite: CEM 425.

CEM 431 Construction Cost Control (3)
Prerequisites: CE 406 and CEM 421 with a grade of "C" or better.

CEM 438 Structural Design II (2)
Prerequisite: CEM 304 with a grade of "C" or better.

CEM 490 Construction Project Management (3)
Prerequisites: CEM 426, CEM 429 and CEM 431 with a grade of "C" or better.

ECON 300 Fundamentals of Economics (3)
Prerequisites: GE Foundation requirements.

MGMT 300 Principles of Management & Operations (3)
Recommended: IS 310.

CBA 300 International Business (3)
Prerequisites: None

Take one of the following:

MGMT 413 Managing Quality for Productivity (3)
Prerequisites: MGMT 300, IS 301.
Recommended: IS 310.

HRM 361 The Human Resource Function (3)
Prerequisites: None.

Upper Division Electives:

Take six units of electives in consultation with an advisor:

1. Design-build Emphasis: CEM 373, CEM 409, CEM 443, CEM 485
2. Facility Management Emphasis: CEM 409, CEM 432, CEM 433, CEM 434, CEM 436, CEM 485
3. Heavy Construction Emphasis: CEM 409, CEM 476, CEM 485, CEM 486.

A grade of "C" or better must be achieved in all required courses listed below:

PHYS 100A and B, MATH 122, CEM 121, CEM 125, CEM 200, CEM 200L, CEM 204, CEM 225, CEM 304, CEM 315, CEM 324, CEM 421, CEM 429, CEM 431, CEM 490; CE 130, CE 130L, CE 406, MGMT 300; ACCT 201; BLAW 220 or BLAW 320.

Fieldwork Requirements

Fieldwork experience is required for the BS in Construction Engineering Management, consisting of no less than three months full-time (or equivalent part-time) of employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed two years of college. The fieldwork must be completed prior to graduation, be certified and approved by the faculty of the department.

GRADUATE PROGRAMS

Master of Science in Civil Engineering

Mission

The mission of the civil engineering graduate program at CSULB is to provide a high-quality educational experience and the technical specialization required to become successful leaders in industry and the society, to engage students in innovative practical research and encourage them to pursue advanced degrees and lifelong learning.

Program Objectives

Graduates of the MSCE program will:

1. have technical competency in an area of specialization.
2. have technical knowledge and skills needed to conduct independent and/or innovative research.
3. keep current with state of the art technologies and advancements in a specialized technical area.

Prerequisites

1. A bachelor's degree in an ABET accredited curriculum in civil engineering or a closely related engineering degree with a minimum GPA of 2.8, with the requirement that essential undergraduate prerequisites in civil engineering are satisfied;
2. The general Graduate Record Examination (GRE) is required and appropriate level of competency will be determined by the Department.
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to

enrolling in their graduate programs.

- . The Graduation Writing Assessment Requirement (GWAR) must be met during the first semester in residence. Failure to attempt to fulfill the GWAR during the first semester will prevent registration in engineering courses in subsequent semesters.

Advancement to Candidacy

1. Removal of all undergraduate deficiencies as determined by the Department Graduate Studies Committee;
2. Completion of at least 12 graduate units at CSULB; minimum GPA of 3.0; currently enrolled;
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

Requirements

1. Completion of 31 units of graduate coursework as follows:
 - a. Twelve units of courses in one of the following areas of specialization: construction engineering management, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.
 - b. Six units of department approved mathematics courses;
 - c. Six units of electives selected from department approved graduate courses in civil engineering;
 - d. One unit of research methods (CE 696);
 - e. Six units of thesis (CE 698) with written report and oral presentation approved by the thesis committee, or 3 units of directed studies (CE 697) plus 3 units in the area of specialization or electives selected from approved graduate courses in civil engineering and a written comprehensive examination on coursework in the student's program.

Civil Engineering Courses (C E)

LOWER DIVISION

101. Introduction to Civil Engineering and Construction Engineering Management (1)

Civil engineering and construction engineering management as a profession. Current trends and challenges, ethical, social and environmental issues in professional practice. Professional organizations and licensure. Communication and lifelong learning skills for professional practice.

Letter grade only (A-F). (Lecture-problems 1 hour)

130. Surveying and Mapping (1)

Corequisites: CE 130L and MAE 172 or CEM 121.

Theory and practice of plane surveying, including the use of instruments for measuring distances, angles, and elevations. Plotting of surveying data and topographic mapping. Fundamentals of construction layout. Integration of data with surveying software.

Letter grade only (A-F). (Lecture-Problems 1 hour)

130L. Surveying and Mapping Laboratory (1)

Corequisite: CE 130.

Fundamentals of surveying methods as applied to construction layout. Use of level and total station for location and control of

structures, vertical and horizontal control, and area determination.

Letter grade only (A-F). Not open for credit to students with credit in CE 131. (Laboratory 3 hours)

200. Materials for Civil Engineering (2)

Prerequisites: CHEM 111A and PHYS 151 all with a grade of "C" or better and consent of department undergraduate advisor.

Basic properties of materials in civil engineering, including concrete, masonry, steel, wood, asphalt and composites.

Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours)

205. Analytical Mechanics I (Statics) (3)

Prerequisite: PHYS 151 with a grade of "C" or better.

Prerequisite/Corequisite: MATH 123.

Application of the mechanics of equilibrium to force systems using analytical and graphical solutions of problems involving structures and machines.

Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

206. Computer Programming and Civil Engineering Applications I (2)

Prerequisites: MATH 122, PHYS 151 all with a grade of "C" or better.

Introduction to programming and application of computers to elementary civil engineering problems.

Letter grade only (A-F). (Lecture-Problems 1 hour, Laboratory 3 hours)

UPPER DIVISION

325. Transportation Safety and Sustainability (3)

Prerequisites: Completion of GE Foundation Requirements

Introduction to transportation systems and various modes of transportation: land, air, and water; legislations affecting transportation practices; transportation safety; impacts of transportation on the environment; sustainable transportation: transit, bicycles, and pedestrians. (Lecture-Problems 3 hours). Letter grade only (A-F).

326. GIS Laboratory for Civil Engineers (1)

Prerequisites: CE 130, CE 130L, CE 206 all with a grade of "C" or better.

Fundamentals of geographic information systems (GIS); spatial and network analyses. Hands-on application of GIS software to solve civil engineering problems.

(Laboratory 3 hours) Letter grade only (A-F).

335. Fluid Mechanics (3)

Prerequisites: MATH 224 and C E 205 all with a grade of "C" or better.

Properties of fluids, fluid statics, fluid dynamics, dynamic similitude, flow of compressible and incompressible fluids in closed conduits.

Letter grade only (A-F). (Lecture-Problems 3 hours)

336. Fluid Mechanics Laboratory (1)

Prerequisite: ENGL 100 or GE Composition (Area A1) all with a grade of "C" or better.

Prerequisite/Corequisite: CE 335.

Experiments in and study of the phenomena of fluid flow.

Letter grade only (A-F). (Laboratory 3 hours)

345. Geotechnical Engineering I (3)

Prerequisites: MAE 373; GEOL 370.

Prerequisite: Consent of Department Undergraduate Advisor.

Soil mechanics applied to engineering structures. Soil exploration, identification, classification, drainage, stability and bearing capacity.

Letter grade only (A-F). (Lecture-Problems 3 hours)

346. Geotechnical Engineering Laboratory (1)

Prerequisite: ENGL 100 or GE Composition (Area A1) all with a grade of "C" or better.
Corequisite: CE 345.

Laboratory investigation and experiments in the phenomena of soil mechanics.

Letter grade only (A-F). (Laboratory 3 hours)

359. Structural Analysis I (3)

Prerequisite: MAE 373 with a grade of "C" or better.

Analysis of structures including trusses, beams, and frames, conjugate beam, virtual work, energy methods, approximate methods, and influence lines. Use of code based finite element computer programs in analysis of frame and truss type structures.

Letter grade only (A-F). (Lecture-Problems 3 hours)

364. Environmental Engineering I: Fundamentals (3)

Prerequisites: CHEM 111A, BIOL 200/MICR 200 all with a grade of "C" or better.

Prerequisite/Corequisite: CE 335.

Introduction to the fundamental physical, chemical and biological processes affecting air and water quality. Models of transport and transformation of impurities. Emphasis on the theory underlying the design of water quality control technologies.

Letter grade only (A-F). (Lecture-Problems 3 hours)

365. Environmental Engineering Laboratory (1)

Prerequisite/Corequisite: CE 364.

Experiments in routine water quality analysis and environmental engineering applications.

Letter grade only (A-F). (Laboratory 3 hours)

370. Analytical Mechanics (3)

Prerequisites: PHYS 151 with a grade of "C" or better.

Prerequisite/Corequisite: MATH 123.

Fundamental principles of statics, kinematics and kinetics, with application to idealized structures and systems.

Intended for Electrical Engineering majors. Not open for credit to Civil or Mechanical Engineering majors. Letter grade only (A-F). (Lecture-Problems 3 hours)

404. Laboratory Techniques (1)

Prerequisites: ENGL 100 or GE Composition (Area A1) with a grade of "C" or better., senior standing in Civil Engineering and consent of instructor.

Study in the techniques of organizing and directing of the civil engineering laboratory.

May be repeated to maximum of 3 units. Letter grade only (A-F). (Conference 1 hour, Laboratory 3 hours)

405. Selected Topics in Civil Engineering (3)

Prerequisites: Senior standing in civil engineering and consent of instructor.

Selected topics from recent advances in civil engineering. Course content will vary from year to year.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Topics announced in *Schedule of Classes*. (Lecture-Problems 3 hours)

406. Project Cost-Benefit Analysis (3)

Prerequisite: GE Foundation requirements.

Systematic evaluation of the economic and social benefits and costs of projects. Decision-making in an environment of limited resources, environmental and economic constraints, and uncertainty. The economy of multi-year projects, selection among competing independent alternatives, before and after tax analyses, replacement economy and inflation.

Letter grade only (A-F). (Lecture-Problems 3 hours)

407. Probability and Statistics in Civil Engineering (2)

Prerequisites: CE 206 and MATH 224 all with a grade of "C" or better.

Analysis of uncertainties, and applications of the basic theories of probability and statistics in civil engineering areas of geotechnical, environmental, water resources, structural and transportation engineering.

Letter grade only (A-F). (Lecture-problems 1 hour, Lab 3 hrs)

408. Special Problems (1-3)

Prerequisite: Senior standing in civil engineering.

Assigned topics in technical literature or laboratory projects and report on same.

Letter grade only (A-F).

426. Transportation Engineering (3)

Prerequisite: CE 345 with a grade of "C" or better.

Corequisite: CE 406.

Integrative learning course on transportation engineering. Characteristics of driver, pedestrian, vehicle, and road; traffic flow; intersection design and control, planning, and geometric design; safety issues. Team project, oral presentations, and written reports required.

Letter grade only (A-F). (Lecture-Discussion 3 hours)

427. Highway Design (3)

Prerequisite: CE 345 with a grade of "C" or better.

Geometric design of highways and streets. Route location and earthwork computation. Introduction to roadside and pavement design. Design problems in highway engineering.

Letter grade only (A-F). (Lecture-Problems 3 hours)

428. Highway Engineering Materials (3)

Prerequisites: CE 200 and CE 345 all with a grade of "C" or better.

Design and properties of highway materials, including aggregates, asphalt binder, and mixtures. Hot Mix Asphalt (HMA) aggregate gradation, blending procedure, volumetrics, design, plant operation, and lay down. Superpave binder testing and specifications.

(Lecture 2 hours, Laboratory 3 hours) Letter grade only (A-F).

429. Traffic Engineering (2)

Corequisite: CE 426, CE 429L.

Capacity and level of service analyses of highway facilities. Intersection signal timing design. Introduction to traffic control devices. Volume, speed and delay studies. Use of traffic data for design, planning and operational levels of analyses.

Letter grade only (A-F). Graduate students required to do extra projects. (Lecture-Problems 3 hours)

429L. Traffic Engineering Laboratory (1)

Corequisites: CE 426, CE 429

Laboratory activities on traffic flow theory, capacity and level of service analyses, signal timing, parking lot design, and travel demand forecasting; traffic volume, speed and delay studies. Use of traffic engineering software.

(Laboratory 3 hours) Letter grade only (A-F). Not open for credit to student with credit in CE 430.

435. Hydrology and Water Resources Engineering (3)

Prerequisite: CE 335 with a grade of "C" or better.

Fundamental surface and ground water hydrology concepts and quantitative methods. Selected topics and procedures of the hydrological cycle. Planning, development and management of water resource surface systems.

Letter grade only (A-F). (Lecture-Problems 3 hours)

437. Engineering Hydraulics (3)

Prerequisites: C E 335, MATH 370A all with a grade of "C" or better.

Analysis of steady flow in pipe and pipeline networks, and centrifugal pump systems. Theory and analysis of uniform and non-uniform flow in open conduits. Design of lined and unlined channels, computations of critical, gradually, and rapidly varied flows.

Letter grade only (A-F). (Lecture-Problems 3 hours)

438. Hydraulic Engineering Design I (2)

Corequisites: CE 437, CE 438L

Application of hydraulic principles to the design of dams, water courses, water systems and their related structures and devices.

Letter grade only (A-F). (Lecture 2 hours)

438L. Hydraulic Design I Laboratory (1)

Corequisite: CE 437 and CE 438

Computer laboratory applications to the design of water courses, water systems and their related structures and devices

Letter grade only (A-F). (Laboratory 3 hours)

439. Fundamentals of Groundwater Flow and Contaminant Transport (3)

Corequisite: CE 437

Introduction to principles of groundwater flow and contaminant transport. Groundwater remediation methods. Mathematical description of flow and transport in the subsurface with software applications.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

445. Geotechnical Engineering II (3)

Prerequisites: CE 345, CE 346 all with a grade of "C" or better.

Methods of design and construction of various geotechnical engineering projects utilizing theory of soil mechanics.

Letter grade only (A-F). (Lecture-Problems 3 hours)

446./542. Geotechnical Projects (3)

Prerequisite: CE 345 with a grade of "C" or better.

Design and problem solving oriented geotechnical projects utilizing soil mechanics theory and experimental methods according to the state-of-the-art practice.

Letter grade only (A-F). Graduate students required to do additional readings and write a research term paper to deal with current topics in geotechnical engineering. (Lecture-Problems 3 hours).

454. Structures Laboratory (1)

Prerequisite: CE 359 with a grade of "C" or better.

Corequisite: CE 459.

Laboratory examination of structural concepts. Utilize computer simulation modeling techniques in combination with structural tests.

Letter grade only (A-F). (Lecture 3 hours) Not open for credit to students with credit in CE 491.

455. Structural Steel Design (3)

Prerequisite: CE 359 with a grade of "C" or better.

Detailed design of components with typical codes and specifications.

Letter grade only (A-F). (Lecture-Problems 3 hours)

456. Timber Design (3)

Prerequisite: CE 359 with a grade of "C" or better.

Design of various structural elements made of wood material subjected to both vertical and lateral loads. Application of current building codes and specifications in timber design.

Letter grade only (A-F). (Lecture-Problems 3 hours)

458. Structural Analysis II (3)

Prerequisite: CE 359 with a grade of "C" or better.

Solution of indeterminate truss and frame structures using moment distribution and slope deflection methods. Introduction to matrix methods. Energy theorems and virtual work principles. Use of code based finite element computer programs in the analysis of indeterminate structural systems.

Letter grade only (A-F). (Lecture-Problems 3 hours)

459. Reinforced Concrete Design I (3)

Prerequisites: C E 200 and CE 359 all with a grade of "C" or better.

Theory and design of structural elements of reinforced concrete, analysis by working stress and ultimate strength design theories.

Letter grade only (A-F). (Lecture-Problems 3 hours)

464. Environmental Engineering II: Unit Processes (3)

Prerequisites: CE 335 and CE 364 all with a grade of "C" or better.

Civil engineering applications of the fundamentals of chemical reactions, kinetics of biochemical systems, gas transfer systems, liquid/solid separations, solubility equilibria, adsorption, ion exchange and membrane processes.

Letter grade only (A-F). (Lecture-Problems 3 hours)

466. Environmental Systems Design (3)

Prerequisite: CE 335 and CE 364 with a grade of "C" or better.

Principles of environmental systems design. Design and planning of systems for water distribution, wastewater collection and storm water management.

Letter grade only (A-F). (Lecture-Problems 3 hours)

481. Professional Practice In Civil Engineering (1)

Prerequisite: Senior standing.

Topics related to practice of civil engineering profession. Professional society meetings and readings.

Letter grade only (A-F). (Lecture-Problems 1 hour)

490. Senior Design Project (3)

Prerequisite: Capstone design that fulfills integrative capstone design course. A supervised design team project, incorporating all aspects from concept to completed design. Technical aspects, social, environmental, and economic issues considered. Ethical concepts discussed. Oral presentations and written reports are required.

Normally taken in the last year of the undergraduate program.

A supervised design group project, incorporating all aspects from concept to completed design and oral presentations. Technical aspects, social, environmental, and economic issues considered. Ethical concepts discussed.

Letter grade only (A-F). (Lecture-Problems 2 hrs, Design lab 3 hrs)

495. Seismic Design I (3)

Prerequisites: CE 459 with a grade of "C" or better.

Elements of lateral-force design in steel, concrete, masonry, and timber structures. Application of current building codes.

Letter grade only (A-F). (Lecture 3 hours)

497. Senior Problem Directed Studies (2)

Prerequisites/Corequisites: CE 406, CE 481, CE 490.

Directed study on assigned topics or lab/field studies practicum and report on same.

Letter grade only (A-F).

GRADUATE LEVEL**500. Engineering Analysis I (3)**

Prerequisites: MATH 370A with a grade of "C" or better.

Application of analytical methods to engineering problems. Differential equations and series solutions, Bessel functions and Legendre polynomials, boundary value and eigenvalue problems, Fourier series, partial differential equations, vector analysis.

Letter grade only (A-F). (Lecture-Problems 3 hours)

501. Engineering Analysis II (3)

Prerequisite: MATH 370A with a grade of "C" or better.

Analysis of engineering mechanics by matrix theory and complex variables; introduction to numerical techniques.

Letter grade only (A-F). (Lecture-Problems 3 hours)

502. Finite Element Method and Applications (3)

Prerequisite: CE 458 with a grade of "C" or better or consent of instructor

Introduction of the theory of finite element method and its application to mechanics of structures and solids. Variational calculus, discretization of continuum, discrete element stiffness matrices, displacement and force vector, direct stiffness formulation, and solution methods for linear equations.

(Lecture-Problems 3hours) Letter grading only (A-F).

503. Selected Topics in Civil Engineering (3)

Prerequisites: Graduate standing and consent of instructor.

Selected topics, with laboratory work required, from the most recent developments in civil engineering.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*. No more than 6 units of CE 503 or CE 504 may be counted for the Master's Degree. (Lecture-Problems 2 hours, Laboratory 3 hrs)

504. Selected Topics in Civil Engineering (3)

Prerequisite: Graduate standing or consent of instructor.

Selected topics from recent developments in civil engineering.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*. No more than 6 units of CE 503 and/or CE 504 may be counted for the master's degree. (Lecture-Problems 3 hrs)

508. Probabilistic and Statistical Methods in Engineering Applications (3)

Prerequisite: Graduate standing or consent of instructor.

Civil Engineering applications of nondeterministic models and decision theory. Applications of proven statistical computer programs.

Letter grade only (A-F). (Lecture-Problems 3 hours)

509. Computational Methods in Civil Engineering (3)

Prerequisite: Graduate standing or consent of instructor.

Numerical analysis and computer methods applied to various areas of civil engineering. Application of proven computer methods, including special problem-oriented languages.

Letter grade only (A-F). (Seminar 3 hrs)

516. Timber Design II (3)

Prerequisite: CE 359 and CE 456 all with a grade of "C" or better.

Structural behavior of timber buildings/wood structures under seismic load. Analysis/design of nonrectangular buildings, horizontal diaphragms and shearwalls. Analysis/design of member under biaxial bending and axial force. Load/resistance factor design (LRFD) for wood construction. Current building codes/specifications in advanced timber design.

Letter grade only (A-F). (Lecture-Problems 3 hours)

517. Reinforced Masonry Design (3)

Prerequisite: CE 359 with a grade of "C" or better.

Theory, design and application of reinforced masonry (brick and block) in compliance with latest Building Code. Earthquake provisions. Construction and specifications. Design of high rise buildings, industrial buildings and retaining walls.

Letter grade only (A-F). Graduate students required to do a design project and assigned readings from journals and research papers. (Lecture-Problems 3 hours)

520. Seaport Planning and Design (3)

Prerequisite: CE 426 with a grade of "C" or better or consent of instructor.

Planning and design of seaports and facilities as access systems. Support transportation, use analysis and ocean transport crafts. Site selection and comprehensive planning.

Letter grade only (A-F). (Lecture-Problems 3 hours)

522. Transportation Planning (3)

Prerequisite: C E 426 with a grade of "C" or better or consent of instructor.

Planning of transportation facilities in urban setting; application of travel forecasting and analytical models in the planning process; evaluation of transportation alternatives and impacts; transportation system and demand management techniques.

Letter grade only (A-F). (Lecture-Problems 3 hours)

526. Pavement Engineering (3)

Corequisite: C E 427 or consent of instructor.

Aggregate, binder systems. Theory and design of pavement structures.

Letter grade only (A-F). (Lecture-Problems 3 hours)

528. Advanced Highway Materials (3)

Prerequisite: CE 428 with a grade of "C" or better or consent of instructor.

Hot mix asphalt design methods and lay down methods. Distress identification and rehabilitation procedures of highway materials.

(Lecture-Discussion 3 hours) Letter grade only (A-F)

529. Advanced Traffic Engineering (3)

Prerequisite/Corequisite: CE 426 or consent of instructor.

Analysis of arterial streets traffic operations. Queuing Analysis; Signal timing coordination and optimization; Use of traffic optimization and simulation computer models to solve problems.

Letter grade only (A-F). (Lecture-Problems 3 hours)

530. Groundwater Flow: Principles and Modeling (3)

Prerequisite: CE 437 with a grade of "C" or better or consent of instructor.

Principles of water flow in the saturated and unsaturated zone. Well hydraulics. Numerical modeling of groundwater flow in the subsurface with computer applications. Groundwater artificial recharge and saline water intrusion.

(Lecture 3 hrs). Letter grade only (A-F).

532. Sediment Transportation (3)

Prerequisite: C E 437 with a grade of "C" or better.

Phenomena of sediment transportation related to streams and marine environments.

Letter grade only (A-F). (Lecture-Problems 3 hours)

533. Groundwater Contaminant Transport: Principles and Modeling (3)

Prerequisites: CE 437, CE 530 all with a grade of "C" or better or consent of instructor.

Mechanisms of contaminant transport in groundwater. Analysis of groundwater remediation methods and alternatives. Numerical modeling of flow and transport in the subsurface. Software applications.

(Lecture 3 hrs). Letter grade only (A-F).

535. Advanced Hydrology (3)

Prerequisite: Graduate standing or consent of instructor.

Theory and application of surface hydrology. Hydrologic statistics, dynamic wave routing, frequency analysis and risk analysis. Simulation of design flows, flood forecasting, flood plain analysis and hydrologic design. Mathematical models, numerical methods in analysis and evaluation.

Letter grade only (A-F). (Lecture-Problems 3 hours)

536. Urban Surface Water Management (3)

Prerequisite: CE 437 with a grade of "C" or better or consent of instructor.

Planning and design of facilities to control flooding, erosion, sedimentation, and non-point source pollution for urban storm water runoff management. Presentation of analysis and design methodologies, structural and non-structural measures for management, and master planning principles.

Letter grade only (A-F). (Lecture-Problems 3 hours)

538. Hydraulic Engineering Design II (3)

Prerequisites: C E 437, CE 438 all with a grade of "C" or better or consent of instructor.

Design of water supply networks, hydraulic transitions, controls and structures. Hydraulic power conversion. River engineering. Water resources systems.

Letter grade only (A-F). (Lecture-Problems 3 hours)

542./446. Geotechnical Projects (3)

Prerequisite: CE 345 with a grade of "C" or better.

Design and problem solving oriented geotechnical projects utilizing soil mechanics theory and experimental methods according to the state-of-the-art practice.

Letter grade only (A-F). Graduate students required to do additional readings and write a research term paper to deal with current topics in geotechnical engineering. (Lecture-Problems 3 hours).

543. Waste Management and Landfill Engineering (3)

Prerequisite: Graduate standing or consent of instructor.

Advanced principles and practices of landfill engineering for waste management and subsurface flow problems. Presentation of research and case studies in geotechnical aspects of waste management and landfill engineering.

Letter grade only (A-F). (Lecture-Problems 3 hours)

546. Theory and Design of Foundation Structures (3)

Prerequisite: CE 345 with a grade of "C" or better or consent of instructor.

Foundation, explorations, stress and deformation relationships and design of various footings, piles, piers and caissons. Analysis of lateral loads and design of retaining structures, machinery foundations and foundation dewatering.

Letter grade only (A-F). (Lecture-Problems 3 hours)

547. Soil Dynamics (3)

Prerequisite: CE 345 with a grade of "C" or better or consent of instructor.

Theories and field behaviors of dynamically loaded foundation systems and soil responses with emphasis on engineering applications.

Letter grade only (A-F). (Lecture-Problems 3 hours)

548. Geotechnical Engineering III (3)

Prerequisite: C E 345 with a grade of "C" or better or consent of instructor.

Stress-strain time relationship of soils. Theory and methods of analysis with special emphasis on the applications and limitations in soil engineering.

Letter grade only (A-F). (Lecture-Problems 3 hours)

551. Prestressed Concrete (3)

Prerequisite: C E 459 with a grade of "C" or better.

Principles of prestressed concrete. materials used, applications to structural design, review of existing specifications.

Letter grade only (A-F). (Lecture-Problems 3 hours)

552. Theory of Plates and Shells (3)

Prerequisite: Completion of C E Graduate MATH Requirement.

Review of theory of elasticity; formulation of general equation of bending of thin elastic plates; methods of obtaining exact and approximate solutions; membrane and bending theories of shells with emphasis on cylindrical shells and shells of revolution.

Letter grade only (A-F). (Lecture-Problems 3 hours)

553. Behavior and Design of Steel Structures (3)

Prerequisite: C E 455 with a grade of "C" or better.

Study of torsion, unsymmetrical bending, stability. Plastic design, code provisions and commentary. Design of complete structural systems in steel.

Letter grade only (A-F). (Lecture-Problems 3 hours)

554. Analysis and Design with Composite Materials (3)

Prerequisite: Graduate standing or consent of instructor.

Mechanics of composite materials with design applications in aerospace, civil engineering and construction. Lab experiments on composite samples. Project required with canned computer programs.

(Lecture-Problems 3 hrs) Letter grade only (A-F).

555. Earthquake Analysis and Design (3)

Prerequisite/Corequisite: CE 495 or consent of instructor.

Advanced computational methods to evaluate responses of structural systems subjected to earthquake ground motions. Time-history and response spectrum analysis for various structural systems. Innovative earthquake design of buildings and other structures.

Letter grading only (A-F). (Lecture-Problems 3 hours)

557. Advanced Structural Analysis (3)

Prerequisite: C E 458 with a grade of "C" or better or consent of instructor.

Virtual forces and displacements, strain energy and complementary energy. Force and displacement matrix methods. Computer applications to planar and space frames, trusses, floor beams and shear wall systems.

(Lecture-Problems 3 hours) Letter grade only (A-F).

558. Dynamics of Structures (3)

Prerequisite: CE 458 with a grade of "C" or better or consent of instructor.

Response of structures and structural components having one or more degrees of freedom. Damping and inelastic action; earthquake and nuclear blasts, dynamic resistance of structural elements and structures, elastic and inelastic response of structures.

(Lecture-Problems 3 hours) Letter grade only (A-F).

562. Water Treatment System Design (3)

Prerequisite: C E 364 with a grade of "C" or better or consent of instructor.

Design of physical and chemical processes for water treatment plants, intake stations, predisinfection units, rapid mixing tanks, slow mixing tanks, clarifiers, granular filtration tanks and post disinfection basins, hydraulics profiles, equipment lists and control systems.

(Lecture-Problems 3 hours) Letter grade only (A-F).

563. Wastewater Treatment System Design (3)

Prerequisite: C E 562 with a grade of "C" or better or consent of instructor.

Design of physical and chemical biological processes for wastewater treatment, including primary, secondary and tertiary treatment combined with hydraulics profiles, equipment lists and control systems at the plants.

(Lecture-Problems 3 hours) Letter grade only (A-F).

564. Environmental Health Engineering (3)

Prerequisite: CE 364 with a grade of "C" or better or consent of instructor.

Health and safety aspects of environmental quality and related engineering systems. Regulatory aspects. Projects and case studies.

(Lecture-Problems 3 hours) Letter grade only (A-F).

566. Unit Operations in Environmental Engineering (3)

Prerequisite: CE 364 with a grade of "C" or better or consent of instructor.

Civil engineering applications of the fundamentals of chemical reactions, kinetics of biochemical systems, gas transfer operations, liquid/solid separations, solubility equilibria, adsorption, ion exchange and membrane processes.

(Lecture-Problems 3 hours) Letter grade only (A-F).

567. Liquid and Solid Waste Project Planning and Management (3)

Prerequisite: CE 364 with a grade of "C" or better or consent of instructor.

The presentation of research and case studies of liquid and solid waste project planning and management.

Letter grade only (A-F). (Lecture-Problems 3 hours)

570. Engineering Management Principles and Practices (3)

Prerequisites: CE 406 with a grade of "C" or better, graduate standing or consent of instructor.

Transition of engineers into management. Analysis of technical manager's functions at lower and middle levels as support to corporate management. Principles of engineering management and applications to private and public sector organizations. Case studies of practices in different technical organizations.

Letter grade only (A-F). (Lecture 3 hours)

571. Construction Planning and Cost Control (3)

Prerequisite: Graduate standing or consent of instructor.

Planning, scheduling and resource allocation for a complex construction project. Topics include traditional critical path method, advanced computer expert systems and optimization techniques for construction planning and cost control.

Letter grade only (A-F). (Lecture-Problems 3 hours)

573. Engineering Specifications, Law and Contracts (3)

Prerequisite: Graduate standing or consent of instructor.

Application of law of contracts to construction contracts. Legal matters of concern to engineers.

(Lecture-Problems 3 hours) Letter grade only (A-F).

574. Methods, Analysis and Design of Construction Operations (3)

Prerequisite: CE 571 with a grade of "C" or better or consent of instructor.

Equipment, methods, analysis and design of a construction operation, from site work improvement and data acquisition to modeling and design. Particular attention will be paid to interfacing between design and construction activities and work method development, productivity and safety.

(Lecture-Problems 3 hours) Letter grade only (A-F).

576. Construction Organization and Management (3)

Prerequisite: Graduate standing or consent of instructor.

An introduction to construction organization, control concepts and labor, emphasizing the business aspects of construction engineering management. Topics include legal framework, finance in construction management, labor, accounting and other decision making in the construction business.

(Lecture-Problems 3 hours) Letter grade only (A-F).

577. Accounting and Finance in Construction Management (3)

Prerequisite: CE 406 with a grade of "C" or better or consent of instructor.

Economics and business aspects in construction, financing structure, methodology, and project financial evaluation. Emphasis is on financial aspects in property acquisition, development, construction, and project management.

(Lecture-Problems 3 hours) Letter grade only (A-F).

578. Management of Advanced Technologies in Construction (3)

Prerequisite: Consent of instructor.

New development of advanced technology as applied to construction industry. Productivity and competitiveness in construction on the basis of new technology. Comparison of construction innovation in the U.S., Japan, and other countries.

(Lecture-problems 3 hours) Letter grade only (A-F).

581. Sustainability and Green Construction (3)

Prerequisite: Graduate standing or consent of instructor.

Comprehensive coverage of the green building design and construction practices through high-performance, market-leading design, construction, and operation practices. Presents the green operations and management of new construction and major renovation projects, with emphasis on green building rating systems.

(Lecture 3 hours) Letter grade only (A-F).

582. Management of Productivity and Quality (3)

Prerequisite: CE 570 with a grade of "C" or better or consent of instructor.

System approaches to quality and productivity in construction. Total Quality Management (TQM) in construction engineering and management. Investigation of methods and strategies for improving competitiveness at the company level. Domestic and international competitiveness in the construction business.

(Lecture-Problems 3 hours) Letter grade only (A-F).

585. Utility Rehabilitation and Construction (3)

State of infrastructure systems with a focus on underground facilities, diagnostic and evaluation techniques of underground utility pipes, planning, equipment, materials and methods for rehabilitation and construction of sewer and water mains using Trenchless (i.e. NO-DIG) Technology.

(Lecture-Problems 3 hours). Letter grade only (A-F).

602. Seminar in Civil Engineering (3)

Prerequisite: Graduate Standing or consent of instructor.

Presentation of research in special fields of structures, transportation, environmental, urban, geotechnical, water resources, or construction engineering management. May be repeated once for credit. No more than six units of CE 602.

(Lecture-Problems 3 hours) Letter grade only (A-F).

629. Traffic Operations (3)

Prerequisite: CE 429 or CE 529 all with a grade of "C" or better, or consent of instructor.

Principles of traffic flow. Highway traffic operations. Evaluation of quality of traffic operations including long-range impact on efficient use of the systems and on safety. Identification and evaluation of measures of effectiveness. Travel demand management strategies and intelligent transportation system applications.

(Lecture-Problems 3 hours) Letter grade only (A-F).

630. Mathematical Modeling in Hydraulic Engineering (3)

Prerequisite: CE 437 with a grade of "C" or better or consent of instructor.

Numerical techniques for solving hydraulic problems in water supply, waste water disposal and storm drainage systems. Prediction of important parameters by mathematical modeling on problems encountered in artificial channels, rivers, estuaries and marine environments.

(Lecture-Problems 3 hours) Letter grade only (A-F).

640./740. Mathematical Modeling in Geotechnical Engineering (3)

Prerequisite: Graduate standing or consent of instructor.

Mathematical modeling techniques used in geotechnical engineering. Application of proven computer programs.

M.S. students register in CE 640; Ph.D. students register in CE 740. Ph.D. students will be required to complete a more rigorous computer project. (Lecture-Problems 3 hours) Letter grade only (A-F).

696. Research Methods (1)

Prerequisite: Candidacy or consent of instructor.

Bibliographical and library techniques and resources. Preparation and presentation of theses and directed studies technical papers.

Letter grade only (A-F).

697. Directed Studies (3)

Prerequisites: Advancement to candidacy for degree of Master of Science in Civil Engineering, and CE 696 or consent of directed studies faculty advisor.

MSCE and MSE degree candidates in Civil Engineering and Interdisciplinary Areas need to have either CE 697 or CE 698 as their program requirement. Theoretical and experimental problems in civil engineering requiring intensive analysis.

Letter grade only (A-F).

698. Thesis (2-6)

Prerequisites: Advancement to candidacy for degree of Master of Science in Civil Engineering, and CE 696 or consent of directed studies faculty advisor.

Planning, preparation and completion of a thesis and/or project in the field of civil engineering.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

699. Thesis (3-9)

Prerequisite: Admission to candidacy for degree of Civil Engineer. Corequisite: C E 696 or written consent of faculty advisor.

Planning, preparation and completion of a thesis in the field of civil engineering practice.

Letter grade only (A-F). May be repeated to a maximum of 9 units.

740./640. Mathematical Modeling in Geotechnical Engineering (3)

Prerequisite: Graduate standing or consent of instructor.

Mathematical modeling techniques used in geotechnical engineering. Application of proven computer programs.

M.S. students register in CE 640; Ph.D. students register in CE 740. Ph.D. students will be required to complete a more rigorous computer project. (Lecture-Problems 3 hours) Letter grade only (A-F).

materials, contract documents, working drawings and vocabulary. (Lecture-Discussion 3 hours) Letter grade only (A-F).

200. Concrete Construction (1)

Prerequisite: CEM 125 with a grade of "C" or better.

Corequisite: CEM 200L.

Concrete composition, Concrete mix design technology, physical properties of concrete, use of admixtures, concrete batching, curing, testing. Includes physical testing of designed mixes. Modern concepts as fundamental solution to concrete construction challenges. New developments in concrete chemistry and strength theory.

Letter grade only (A-F). Not open for credit to students with credit in CEM 235. (Lecture-Discussion 1 hour)

200L. Concrete Construction Laboratory (1)

Corequisite: CEM 200.

Laboratory exercises in support of CEM 200, Concrete Construction. Develop concrete mix designs and prepare concrete samples for testing, such as compressive strength, slump and air entrainment, and aggregate testing.

(Laboratory 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CEM 235L.

201. Cost Accounting for Construction Engineering (3)

Theoretical Practical and concepts of cost accounting. Variable and fixed costs, break-even point, interrelationships of cost, volume and profits; job-order accounting, general and flexible budgeting, standard costs; product costing methods; cost allocation; inventory planning; control and valuation; joint product.

(Lecture-Problems 3 hours) Letter grade only (A-F).

202. Probability and Statistics for Construction Engineering Management (2)

Prerequisite: High School Algebra.

Statistics and probability theories, sampling, correlation, regression applied to Construction Engineering Management. Projects on simulation using statistical packages

(1 hour lecture, 2 hours activity.) Letter grade only (A-F).

204. Applied Mechanics—Statics (3)

Prerequisites: MATH 122 and PHYS 100A all with a grade of "C" or better.

Provides an overview of the principles of statics as it relates to building structures and machines. Equilibrium of forces. Free body diagrams. Force components. Bending moments. U.S. and S.I. units of measurements.

(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).

206. Trends in Construction Engineering Management (2)

Prerequisites: CEM 121 and CEM 125 all with a grade of "C" or better.

Introduction to current trends including emerging technologies and practices in Construction Engineering Management (CEM). Applications of the emerging technologies and practices in CEM problem solving.

(Lecture 1 hr, laboratory 3 hrs) Letter grade only (A-F).

225. Residential and Light Commercial Construction Practices and Estimating (3)

Prerequisites: CEM 121, CEM 125 with a grade of "C" or better. Corequisites: CEM 200, CEM 200L.

Introductory course in planning, design, and construction of residential and light commercial buildings including materials, equipment, construction/assembly methods, quantity take-off, and building codes/standards. Field trips or visual presentation is required.

(Seminar 2 hours and Activity 2 hours) Letter grade only (A-F).

Construction Engineering Management Courses (CEM)

LOWER DIVISION

121. Construction Drawing I (2) F

An introduction to conventional and computer aided drafting techniques in the relation of drawings for construction. Interpretation of details in construction drawings/blueprints and reference materials. Laboratory: Drafting plans for a residential building using the techniques introduced in the course.

(Lecture 1 hr, laboratory 3 hrs) Letter grade only (A-F).

125. Fundamentals of Construction (3)

Survey of the professional activities and environments of Construction Education. Overview of residential, commercial, institutional, industrial, and heavy civil construction and associated codes, standards, and ethical boundaries. Areas of focus to include type of foundations,

UPPER DIVISION

304. Applied Mechanics Strength of Materials (2)

Prerequisite: CEM 204 with a grade of "C" or better.

Strength of structural materials and applications in building structures and machines. Mechanical properties of materials, structural behaviors of load resisting components associated with construction processes.

(Lecture-Discussion 1 hr, Activity 2 hrs) Letter grade only (A-F).

310. Communication in Engineering Profession (3)

Prerequisites: ENGL 100 or GE Composition (Area A1), COMM 110 all with a grade of "C" or better and Senior standing.

Basic concepts for understanding/practice of communication in world of business for managers and professionals. Language/ conversations in business and role in coordinating actions, resolving breakdowns in work and customer satisfaction. Business writing formats, formal report, business conversation. International, technical, and linguistic developments in business communication.

(Lecture - Discussion 3 hours) Letter grade only (A-F).

315. Construction Safety (2)

Prerequisite: CEM 225 or CE 200 all with a grade of "C" or better.

Terminology, safety functions, accident costs, workman's compensation and liability laws, O.S.H.A., governmental and non-governmental codes, regulations and field safety methods pertinent to the construction industry. Field trips.

Not open for credit to students with credit in CEM 328. (Lecture 1 hour , Activity 2 hours) Letter grade only (A-F).

320. Operations Management in Contemporary Organizations (3)

Prerequisites: MGMT 300, ENGR 310 all with a grade of "C" or better.

Overview of Managerial and organizational theories and practices - introduction to concepts, methods to analyze and improve operations performance in construction and in service organizations. Decision-making and problem-solving processes for organizations. management Effectiveness and efficiency at the organizational, process level, and performer level.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

324. Commercial, Institutional and Industrial Construction Practices and Estimating (3)

Prerequisites: CEM 315 with a grade of "C" or better.

Fundamental of commercial construction, including building layout, shallow and deep foundations, introduction to formwork systems, high strength, heavy and light weigh concrete, framing, flooring and roofing systems, construction and expansion joints, masonry and steel construction. Quantity takeoff.

(Lecture-Discussion 2 hours, Activity 2 hours). Letter grade only (A-F).

335. Soil Mechanics Technology (2)

Prerequisite: CEM 304 with a grade of "C" or better.

Corequisite: CEM 335L.

Soil Composition, description, and classification; soil compaction; determination of physical properties of soils.

(Lecture-Problems 2 hours) Letter grade only (A-F).

335L. Soil Mechanics Technology Laboratory (1)

Prerequisite: CEM 304 with a grade of "C" or better.

Corequisite: CEM 335.

Laboratory investigations and experiments in the phenomena of soil mechanics. Field trips.

(Laboratory 3 hours) Letter grade only (A-F).

365. Mechanical Equipment for Buildings (2)

Prerequisite: PHYS 100B with a grade of "C" or better.

Corequisite: CEM 324.

Principles and current practices in water supply, waste disposal, heating, ventilating, air conditioning and fire protection.

(Lecture 1 hour and Activity 2 hours) Letter grade only (A-F).

373. Fundamentals of Integrated Project Delivery (3)

Prerequisite: Junior standing.

General overview of the attributes of all major project delivery systems, procurement methodologies and contracting approaches.

(2 hrs lecture, 2 hrs activities) Letter grade only (A-F).

375. Electrical Equipment for Buildings (2)

Prerequisites: CEM 324, PHYS 100B all with a grade of "C" or better.

Principles and current practices in the application of electrical equipment and material utilization, sound and signal systems.

(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

404. Structural Design I (2)

Prerequisite: CEM 304 with a grade of "C" or better.

Fundamentals of design for structural concrete and masonry buildings in compliance with current building codes.

(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

409. Directed Studies in Construction Engineering Management (1-3)

Prerequisites: Senior standing in CEM or consent of instructor.

Advanced work of a technical nature within area of specialization on an experimental or research basis.

Letter grade only (A-F).

421. Construction Planning and Scheduling (3)

Prerequisite: CEM 324 with a grade of "C" or better.

Planning and scheduling of construction projects by graphic charts and Critical Path Method (CPM) networks utilizing manual and computer methods.

Letter grade only (A-F). Field trips. (Lecture-Discussion 2 hrs, Activities 2 hrs)

425. Earthwork and Civil Works Construction Practices (2)

Prerequisite: CEM 324, CE 406 all with a grade of "C" or better.

Fundamentals of earthmoving operations, including volume calculation and mass diagrams, soil protection and dewatering systems, volume change characteristics and fundamentals of moving earth, equipment selection, management and economics.

(Seminar 1 hour and Activity 2 hours) Letter grade only (A-F).

426. Business and Construction Law (3)

Prerequisites: CEM 324; BLAW 220 all with a grade of "C" or better.

Contractors license, mechanics lien, subdivision laws; public works projects, bid and bid requirements. Litigation and legal trends in affirmative action, design professional's liability. Administrative procedures of contractors. Study documentation, claims, waivers, arbitration, bonding, insurance, and indemnification. Discuss ethical practices.

(Lecture-Discussion 3 hrs.) Letter grade only (A-F).

429. Advanced Estimating and Bidding (3)

Prerequisite: CEM 315 with a grade of "C" or better.

Corequisite: CEM 425.

Concept and practices involved in the total estimate bidding process in construction, form initial project selection for submission of final bids. A complete project estimate and bid is prepared by each study.

(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).

431. Construction Cost Control (3)

Prerequisites: CE 406 and CEM 421 all with a grade of "C" or better.

Establishing and controlling construction projects cost through utilization of procedures, techniques and systems commonly used to control resources allocated and to be expended on construction projects.

(2 hrs lecture, 2 hrs activities) Letter grade only (A-F).

432. Facility Administration (3)

Prerequisite: CEM 421 with a grade of "C" or better.

Management skills for facility management. Emphasis is placed on the management functions of planning, organizing, directing and controlling. Topics include: negotiation; communication; performance measurement; job enrichment; motivation; contracting services and interpersonal relationships.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

433. Facility Finance Management (3)

Corequisite: CEM 432.

Analysis of financial management strategies associated with facility management. Topics include: buy-lease considerations; building efficiency; leasing considerations; cost control and record keeping; facility capitalization; facility budgeting; cost benefit analysis and financial reports.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

434. Facility and Property Management (3)

Prerequisite: CEM 433 with a grade of "C" or better.

Principles of facility and property management. Topics include: property development; cost benefit analysis; site selection; architectural design; layout plans; building engineering; specifications; stacking and blocking plans; aesthetic standards; renovation and contracting standards.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

436. Facility Operations Management (3)

Prerequisite: CEM 432 with a grade of "C" or better.

Analysis of the functions of facility operations management. Topics include: building systems; mechanical systems; energy management; electrical systems; trades operations; grounds maintenance; custodial; furniture and equipment; waste removal contracting services; furniture standards; security systems and planned maintenance.

(Lecture-Discussion 3 hours) Letter grade only (A-F).

438. Structural Design II (2)

Prerequisite: CEM 304 with a grade of "C" or better.

Simplified designs for steel and wood structures in accordance with current building codes. Selection of structural steel and wood systems with structural characteristics of members and connections.

(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

443. Principles of Design-Build Project Delivery (3)

Prerequisite: CEM 373 with a grade of "C" or better.

General overview and unique distinguish essential elements of design-build project delivery and how to make the mental-shift needed to transition from traditional Design-Bid-Build to design-build project delivery.

(2 hrs lecture, 2 hrs activities) Letter grade only (A-F).

476. Construction and Maintenance of Infrastructure Facilities (2)

Prerequisites: CEM 425 with a grade of "C" or better.

Comprehensive coverage of the construction principles and technologies embraced by the heavy civil industry. The course presents the construction methods and maintenance practices of heavy civil projects, with emphasis on utility pipes, bridges and roads.

(Lecture 1 hour - Activity 2 hours) Letter grade only (A-F).

485. CEM Senior Seminar (3)

Prerequisites: CEM 429 and CEM 431 all with a grade of "C" or better or consent of instructor.

Advanced work of a technical nature within the construction industry. All students will be required to participate into the Bid Competitions.

(Lecture 2 hours, Activity 2 hours). Letter grade only (A-F).

486. Infrastructure Management (2)

Prerequisites: CEM 476 and CE 406 all with a grade of "C" or better.

Integrated approach to infrastructure management theories and practices including: tools, models and applied systems. The course presents the principles required to manage, preserve and improve the performance of infrastructure systems, with emphasis on utility pipes, bridges and roads.

(1 hr lecture, 2 hrs activities) Letter grade only (A-F).

490. Construction Project Management (3)

Prerequisites: CEM 426, CEM 429 and CEM 431 all with a grade of "C" or better.

Integrative learning capstone design course. A supervised design team project, incorporating all aspects of project management of design-build projects. Technical aspects, social, environmental, and economic issues considered. Ethical concepts discussed. Oral presentations and written reports are required

(2 hrs lecture, 2 hrs activities) Letter grade only (A-F).

CLASSICS

College of Liberal Arts

Department Chair: Carl Fisher

Department Office: McIntosh Humanities Building (MHB), Rm 515
Telephone / Fax: (562) 985-4239 / (562) 985-4863
Website: www.csulb.edu/colleges/cla/departments/complit-classics

Faculty: Kathryn Chew, Douglas Domingo-Forasté, Paul Scotton

Administrative Support Coordinator: Nancy Comito

Students desiring information should contact the department office for an appointment with the advisor.

Career Possibilities

Creative/Media Writer • Editor • Technical Writer • Librarian
• Copywriter • Literary Agent • Foreign Service Officer •
Public Relations Worker • Medicine • Market Researcher
• Educator • Lawyer • Government Affairs Officer •
Management Trainee • Underwriter • Claims Adjuster (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

Classics includes the study of the languages, literatures and civilizations of ancient Greeks and Romans. Classics offers the Bachelor of Arts in Classics and minors in Classical Studies, Latin, and Greek. Within the Classics major two options are offered, Roman Civilization and Greek Civilization. Students interested in graduate school in either Classics or Classical Archaeology should consult the departmental advisor as early as possible in their academic careers.

The department recommends that some time be spent in either Italy or Greece on one of the many programs designed to familiarize students with the physical remains of these civilizations (College Year at Athens, the American School of Classical Studies at Athens, the Aegean Institute, the Intercollegiate Center for Classical Studies in Rome, etc.). Courses at one of these institutions may be substituted for CSULB courses with departmental approval.

Undergraduate Programs

Bachelor of Arts in Classics (120 units)

Option in Latin and Roman Civilization

Requirements

45 units with a minimum of 21 upper division units (excluding LAT 300)

1. Elementary Latin 6 units from the following:
LAT 101A Elementary Latin (4)
Prerequisite/Corequisite: Any Foundation course.

and

- LAT 101B Elementary Latin (4)
Prerequisite/Corequisite: Any Foundation course.
Prerequisite: LAT 101A or equivalent.

or

- LAT 300 Intensive Latin (6)
Prerequisite: None

The requirements in this category may be met by high school equivalents.

2. Intermediate Latin (4)
LAT 301 Intermediate Latin (4)
Prerequisite: LAT 101B or LAT 300
3. Upper Division Latin (15 units) from the following:
LAT 401, LAT 402, LAT 403, LAT 404, LAT 405, LAT 406, LAT 407, LAT 408, LAT 409, LAT 410A, LAT 410B, LAT 410C, LAT 490.
4. Take the following course:
CLSC 202 Latin Literature (3)
Prerequisite: GE Foundation requirements.
5. Take 3 units from the following:
CLSC 110, CLSC 440, CLSC 460, CLSC 480
6. Take 6 units from the following not taken to fulfill requirements of category 5:
CLSC 100, CLSC 101, CLSC 110, CLSC 130, CLSC 300, CLSC 312, CLSC 340, CLSC 380, CLSC 410, CLSC 420, CLSC 440, CLSC 460, CLSC 480, CLSC 490.
7. Take 8 units from the following:
GK 101A, GK 101B; AH 417; CLSC 350, 366; HIST 314; POSC 301, R/ST 471

Option in Greek and Greek Civilization

Requirements

40 total units with a minimum of 21 upper division units:

1. Elementary Greek (8 units):
GK 101A Elementary Greek (4)
Prerequisite/Corequisite: Any Foundation course.
GK 101B Elementary Greek (4)
Prerequisite: GK 101A or equivalent.
Prerequisite/Corequisite: Any Foundation course.
2. Upper Division Greek (12 units) from the following:
GK 401, GK 402, GK 403, GK 404, GK 405, GK 490.
3. Take the following course:
CLSC 201 Ancient Greek Literature (3)
Prerequisite: GE Foundation Requirements.
4. Take 3 units from the following:
CLSC 110, CLSC 430, CLSC 450, CLSC 470
5. Take 6 units from the following not taken to fulfill requirements of category 4:
CLSC 100, CLSC 101, CLSC 110, CLSC 130, CLSC 300, CLSC 311, CLSC 340, CLSC 380, CLSC 410, CLSC 420, CLSC 430, CLSC 450, CLSC 470, CLSC 490.
6. Take 8 units from the following:
LAT 101A, LAT 101B, LAT 300; AH 416; CLSC 350, 366; HIST 313; PHIL 421, PHIL 422; POSC 301, R/ST 471.

Single Subject Teaching Credential in Latin

The subject matter program in Latin consists of 37 units in Latin and related areas. Completion of these courses meets the subject matter competence requirement for the Single Subject Teaching Credential in Latin. Courses

taken for subject matter competence for the teaching credential also count toward units needed for the Classics B.A., Option in Latin and Roman Civilization. Prospective students should consult the Latin Education Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their programs.

In addition to meeting the subject matter competence requirement for the Teaching Credential, prospective teachers of Latin are also required to complete 45 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this catalog or the website (www.ced.csulb.edu/single-subject) for a description of professional preparation requirements, courses, and application procedures.

Requirements

1. Take all the following:
 - LAT 301 Intermediate Latin (4)
Prerequisite: LAT 101B or LAT 300 or equivalent.
 - LAT 401 Vergil (3)
Prerequisite: LAT 301 or equivalent.
 - LAT 402 Cicero (3)
Prerequisite: LAT 301 or equivalent.
 - LAT 410A Latin Prose Composition (1)
Prerequisite: LAT 301 or equivalent.
 - LAT 410B Latin Prose Composition (1)
Prerequisite: LAT 410A.
 - LAT 410C Latin Prose Composition (1)
Prerequisite: LAT 410B.
2. Take seven courses from the following:
LAT 403, LAT 404, LAT 405, LAT 406, LAT 407, LAT 408, LAT 409, LAT 490, LAT 499.
3. Take one course from the following:
HIST 312, HIST 314; CLSC 420, CLSC 440; AH 417.

Students are required to keep a portfolio of written work produced in the above classes with instructor comments. Members of the Latin faculty evaluate the portfolio according to established criteria. The credential candidate also takes an exit examination administered by the Latin faculty which will assess pronunciation, speech and conversation, listening and writing, and reading. Credential students also produce a Latin play.

Minor in Classical Studies

This minor is offered to students majoring in any subject. Interested students should contact the Classics Advisor prior to or during the first semester of taking courses.

The Minor consists of a minimum of 20 units that must include a minimum of 9 units of upper division coursework selected from the following:

1. Take two courses in Latin or Greek in the same language.
2. Take a minimum of two courses from the following:
CLSC 100, CLSC 101, CLSC 110, CLSC 130, CLSC 201, CLSC 202, CLSC 300, CLSC 340, CLSC 380, CLSC

410, CLSC 420, CLSC 430, CLSC 440, CLSC 490; CWL 452 (with an appropriate topic); or additional courses in Latin or Greek, not necessarily in the same language as selected in (1).

3. Take a minimum of two courses from the following:
CLSC 311 or HIST 310; CLSC 312, or HIST 312; CLSC 350; HIST 313, HIST 314; PHIL 421, PHIL 422; AH 408, AH 416, AH 417; ANTH 140, ANTH 450; POSC 301; R/ST 471.

Minor in Greek

A minimum of 20 units in Greek which must include four upper division courses. Prospective teachers are strongly urged to take, in addition, HIST 313, CLSC 101, 300, and other courses touching on the ancient world.

The Minor in Greek is available to any non-Classics major.

Minor in Latin

A minimum of 20 units in Latin which must include four upper division courses. Prospective teachers are strongly urged to take, in addition, HIST 314, CLSC 101, CLSC 300, and other courses touching on the ancient world.

The Minor in Latin is available to any non-Classics major.

Classics Courses (CLSC)

LOWER DIVISION

100. The Classical World of Greece and Rome (3)

Prerequisite/Corequisite: One GE Foundation course.

Introduction to the literature, language and culture of the ancient Greek and Roman worlds. Use of primary sources, such as drama, epic, inscriptions, and the visual arts to explore issues of gender, mythology, theater, combat and sports, slavery and family.

101. Greek Mythology (3)

Prerequisite/Corequisite: One GE Foundation course.

A survey of the major Greek myths, sagas and tales of gods and heroes, and their influence on later eras, particularly ancient Rome.

Not open for credit to students with credit in CLSC 191.

110. Classical Archaeology (3)

Prerequisites/Corequisite: One GE Foundation course.

Introduction to the study of the material culture of Greece, Etruria and Rome from the Minoans to Constantine. Covers history of archaeology, chronology and dating systems and analytical methods of material culture including urban planning, construction techniques, and architecture.

130. Women in the Classical World (3)

Prerequisite/Corequisite: One GE Foundation course.

A survey of the roles and status of women in ancient Greece, Rome and Etruria through literature by and about women and other ancient source material.

Not open for credit to students with credit in CLSC 135.

201. Ancient Greek Literature (3)

Prerequisite: GE Foundation requirements.

A survey of the literature of ancient Greece in translation from Homer and Hesiod to Lucian and the novelists (c. 700 BC to AD 400).

202. Latin Literature (3)

Prerequisite: GE Foundation requirements.

A survey of the literature of the ancient Romans in translation, focusing on major authors from Plautus to Augustine (200 BC to AD 450).

210. Roman Myth and Legend (3)

Prerequisite: One GE Foundation course.

A survey from literature and artifacts of the major Roman myths and legends of heroes and gods focusing on their impact and influence on Rome's development and identity as well as that on subsequent cultures.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Pagan Culture (3)

Prerequisites: GE Foundation requirements, completion of one or more Explorations course, and upper division standing.

Examines the mass cultures of the Greek and Roman periods, its worldview, and its philosophic and religious underpinnings through literary, artistic, archaeological and documentary sources.

Not open for credit to students with credit in CLSC 310.

311. Greek World (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Interdisciplinary examination of the society and culture of ancient Greece emphasizing literature, the arts, and history. Topics include Homer, mythology and religion, lyric poetry, the Persian and Peloponnesian Wars, the Athenian Golden Age, and Greek contributions to the modern world.

Same course as HIST 310. Not open for credit to students with credit in CWL 310 or HIST 310.

312. Roman World (3)

Prerequisites: GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Interdisciplinary examination of the society and culture of ancient Rome emphasizing literature, the arts, and history. Topics include genesis and growth of the Roman world, transition from republic to Empire, imperial maturity, and Roman contributions to the modern world.

Same course as HIST 312. Not open for credit to students with credit in CWL 312 or HIST 312.

340. The Underworld (3)

Prerequisite: One course in Classics or consent of instructor.

In-depth investigation of the realm of the dead as given in ancient Greek and Roman myth. Topics include its topography and population, journeys to it, and interpretations of it. Comparative analysis of ancient myths of the underworld from other cultures.

350. Hollywood Does Rome (3)

Prerequisites: CLSC 100 or CLSC 101 or CLSC 202 or consent of instructor.

Investigation of filmmakers' motives and methods used to portray ancient Romans from the beginnings of cinema to the present. Topics include 'imaging' the past, 'power' of image, community and society, cultural imperialism, film theory, 'language' of myth, and reception theory.

Same course as FEA 350. Not open for credit to students with credit in FEA 350.

366. Classical Stories, Modern Voices (3)

Prerequisite: Completion of Foundation courses and upper-division standing.

Comparative readings of ancient literature in a global context, including analysis of classical literary genres and archetypes, their modern interpretations/rewritings, and their echoes in popular culture.

Same course as CWL 366. Not open for credit to students with credit in CWL 366.

380. Ancient Eats (3)

Prerequisite: Completion of GE Foundation requirements or consent of Instructor.

Survey of food in the Roman Empire and elsewhere in the ancient Mediterranean world. Topics include farming, sustainability, trade, purchasing, processing, production, ingredients, recipes, tools, the place and function of feasts, and food in myth, cult and philosophy.

410. Law and Literature in the Classical World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Introduction to the study of philosophy and interpretation of law through classical literature that encompasses fundamental legal questions and ancient legal source material and the application of modern theories of literary criticism to ancient and modern law.

420. Classical Drama (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Examination of the plays of Aeschylus, Sophocles, Euripides, and Aristophanes both as literature and as theater. Includes origins of tragedy and comedy, later Greek and Roman drama, and debt of modern drama to the theater of Greeks.

Not open for credit to students with credit in CLSC 421.

430. Archaeology of Ancient Greece (3)

Prerequisite: one of the following courses: CLSC 110, ANTH 140, HIST 131, or AH 416/516, or consent of instructor.

The material culture of ancient Greece, from Minoans to Constantine including urban planning, architecture, sculpture, painting, ceramics, burial customs, religious and secular artifacts, epigraphy and numismatics. Examines chronology and dating systems, analytical methods and history of classical archaeology in Greece.

440. Archaeology of the Roman World (3)

Prerequisite: Completion of one of the following: CLSC 110, ANTH 140, HIST 131, or AH 417/517, or consent of instructor.

The material culture of Roman empire, from Villanovans to Constantine including urban planning, architecture, sculpture, painting, ceramics, burial customs, religious and secular artifacts, epigraphy and numismatics. Examines chronology and dating systems, analytical methods and history of archaeology of Roman empire.

450. Aegean Bronze Age Archaeology (3)

Prerequisite: CLSC 110 or consent of the instructor

The first true civilizations of the Western World arose in the Aegean Basin during the Bronze Age (ca. 3000- 1000 BCE). This course is an investigation of their development and their impact upon the civilizations that followed.

460. Etruscan Archaeology (3)

Prerequisite: CLSC 110 or consent of the instructor

Before Rome there was a highly developed and advanced civilization in Italy. Focuses upon their extensive cities, remains, and the significance of the Etruscan people and culture.

470. Monuments of Athens (3)

Prerequisite: CLSC 110 or consent of Instructor.

Athens is known as the birthplace of democracy. Studies the extensive remains of key structures and monuments of ancient Athens and how they relate to the history and development of one of the most famous of all ancient cities.

480. Monuments of Rome (3)

Prerequisite: CLSC 110 or consent of Instructor.

The capital of what became the Roman Empire, Rome has a rich record of monuments and structures. Focuses upon the monuments of the Classical and pre-Classical city and the development of the then center of the Western World.

490. Selected Topics in Classics (1-4)

Prerequisite: Consent of instructor.

Topics of special interest in Classics selected for intensive study.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special interest.

May be repeated to maximum of 6 units.

GRADUATE LEVEL

598. Directed Readings in Classics (1-4)

Prerequisites: Graduate standing and consent of instructor.

Selected topics in Classics or Classical Archaeology will be studied in depth.

A term paper is required. Letter grade only (A-F).

Greek Courses (GK)

LOWER DIVISION

101A. Elementary Greek (4)

Prerequisite/Corequisite: Any Foundation course.

Introduction to ancient Greek, the language of Sophocles, Plato, Aristophanes, Homer and Demosthenes. Forms, syntax and basic vocabulary leading also to a reading knowledge of New Testament Greek. Designed for those beginning a study of ancient Greek.

101B. Elementary Greek (4)

Prerequisite: GK 101A or equivalent.

Prerequisite/Corequisite: Any Foundation course.

Continuation of GK 101A.

102. New Testament and Early Christian Greek (1)

Corequisite: GK 101B.

Supplemental graded readings and writing exercises in New Testament Koine Greek and other very early Christian literature such as the *Didache* and the *Epistle of Clement*.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

401. Homer (3)

Prerequisite: GK 101B or equivalent.

Translation and literary study of selected books of the *Iliad* or *Odyssey*.

402. Plato (3)

Prerequisite: GK 101B or equivalent.

Translation and literary study of one or more dialogues of Plato.

403. Tragic Poets (3)

Prerequisite: GK 101B or equivalent.

Reading of a play of Aeschylus, Sophocles or Euripides.

May be repeated to a maximum of 9 units with different topics in different semesters.

404. Historians (3)

Prerequisite: GK 101B or equivalent.

Reading from selections from Herodotus, Thucydides and/or Xenophon.

May be repeated to a maximum of 9 units with different topics in different semesters.

405. Attic Orators (3)

Prerequisite: GK 101B or equivalent.

Reading of a speech of Demosthenes, Antiphon, Andocides, Lysias, Isocrates, Aeschines, Hyperides, Isaeus, Lycurgus, Dinarchus or selections from various orators.

May be repeated to a maximum of 9 units with different topics in different semesters.

490. Selected Topics in Greek (1-3)

Prerequisites: 12 units of upper-division Greek courses or consent of instructor.

Translation and literary study of the selected works of an author, genre (e.g., oratory) or period (e.g., Hellenistic Greek).

May be repeated to a maximum of 12 units. Topics announced in the *Schedule of Classes*.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special interest.

May be repeated to a maximum of 6 units.

Latin Courses (LAT)

LOWER DIVISION

101A. Elementary Latin (4)

Prerequisite/Corequisite: Any Foundation course.

Introduction to the Latin language as used by Vergil, Cicero, Livy, Catullus, Tacitus, and Juvenal as well as late Latin and medieval writers. Basic forms, syntax, and basic vocabulary leading to a reading knowledge.

101B. Elementary Latin (4)

Prerequisite/Corequisite: Any Foundation course. Prerequisite: LAT 101A or equivalent.

Continuation of LAT 101A.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Intensive Latin (6)

Equivalent to two semesters of Elementary Latin. Designed for undergraduate and graduate students with little or no knowledge of Latin, whose degree programs require or recommend a reading knowledge of the language.

Not open for credit to students with credit in LAT 101B or LAT 321.

301. Intermediate Latin (4)

Prerequisite: LAT 101B or LAT 300 or equivalent.

Continued study of the language and culture of the ancient Romans. Reading and translating selections of classical writers.

401. Vergil (3)

Prerequisite: LAT 301 or equivalent.

Reading of selections from Vergil's *Aeneid*, and/or selections from the *Georgics* and *Eclogues*.

May be repeated to a maximum of 6 units with different topics in different semesters, which includes previously earned credit in GK 352.

402. Cicero (3)

Prerequisite: LAT 301 or equivalent.

Reading of one or more works of Cicero.

May be repeated to a maximum of 6 units with different topics in different semesters, which includes previously earned credit in GK 351.

403. Latin Lyric and Elegy (3)

Prerequisite: LAT 301 or equivalent.

Reading of selected poems of one or more of the lyric and elegiac poets: Catullus, Horace (*Odes*, *Epodes*, *Carmen Saeculare*), Propertius, Tibullus, and Ovid (*Amores*).

May be repeated to a maximum of 6 units with different topics in different semesters.

404. Latin Epic (3)

Prerequisite: LAT 301 or equivalent.

Reading of selections from Lucretius' *De Rerum Natura* and/or Ovid's *Metamorphoses*.

May be repeated to a maximum of 6 units with different topics in different semesters.

405. Historiography of the Republic (3)

Prerequisite: LAT 301 or equivalent.

Reading of selections from Sallust and/or Julius Caesar.

May be repeated to a maximum of 6 units with different topics in different semesters.

406. Historiography of the Empire (3)

Prerequisite: LAT 301 or equivalent.

Reading of selections from Livy and/or Tacitus.

May be repeated to a maximum of 6 units with different topics in different semesters.

407. Latin of the Early Principate (3)

Prerequisite: LAT 301 or equivalent.

Reading of selections from the following authors and works: Pliny the Younger, Martial, Seneca's letters, Suetonius.

May be repeated to a maximum of 6 units with different topics in different semesters.

408. Roman Comedy (3)

Prerequisite: LAT 301 or equivalent.

Reading of one or more plays of Plautus and Terence.

May be repeated to a maximum of 6 units with different topics in different semesters.

409. Roman Satire (3)

Prerequisite: LAT 301 or equivalent.

Reading of selected satires of Horace, Juvenal, or Persius, the *Satyricon* of Petronius or the *Apocolocyntosis* of Seneca the Younger.

May be repeated to a maximum of 6 units with different topics in different semesters.

410A-B-C. Latin Prose Composition (1-1-1)

A. Prerequisite: LAT 301 or equivalent.

B. Prerequisite: LAT 410A.

C. Prerequisite: LAT 410B.

Thorough instruction in writing Latin prose at the advanced level. Extensive coverage of syntax and morphology of Latin.

490. Selected Topics in Latin (1-3)

Prerequisites: LAT 301 or equivalent.

Translation and study of authors of a particular period (e.g., Medieval Latin) or of a methodological specialty (e.g., Latin epigraphy).

May be repeated to a maximum of 9 units with different topics in different semesters. Topics announced in the *Schedule of Classes*.

A. Medieval Latin

499. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special interest.

May be repeated to a maximum of 6 units.

COMMUNICATION STUDIES

College of Liberal Arts

Chair: Ann Johnson

Department Office: Academic Services (AS), Room 309
Telephone / FAX: (562) 985-4301 / 985-4259

Faculty: Jessica Abrams, Terre Allen, Jennifer Asenas, Guy Bachman, Amy Bippus, San Bolkan, Aaron Cargile, Sharon D. Downey, Ragan Fox, Amy Heyse, Ann Johnson, Kevin Johnson, Patricia Kearney, James S. Manseau Saucedo, Lynda McCroskey, Valerie C. McKay, Mary McPherson, Timothy G. Plax, Marc Rich, Subrina Robinson, Jessica Russell, José Rodriguez, Ebony Utley, Stacy Young

Department Administrator: Wendy Lucas

Hauth Center for Communication Skills

Administrative Director: Tim Plax

Technical Director: Scott Allen

Students desiring information about the Communication Studies program at CSULB should contact the department undergraduate advisor or the graduate advisor.

Career Possibilities

Public Relations Specialist • Personnel Specialist • Claims Adjuster • Radio/TV Announcer • Community Organization Worker • Actor/Actress • Management Trainer • Foreign Service Officer • Advertising Worker • Development Officer/Fundraiser • Lobbyist • Clergy • Lawyer • College Professor • Freelance Writer • Researcher • Politician • Promoter • Speech Writer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

Department of Communication Studies provides students with a liberal arts education in communication arts and sciences with specialized training in communication skills and practices at the baccalaureate and graduate levels. The Department of Communication Studies provides two major services to the University community. Each student is required to consult with the department undergraduate or graduate advisor as appropriate for advisement.

NOTE: Lower-division 100 and 200 level classes taken through California Community Colleges satisfy lower-division CSULB Communication Studies requirements.

Undergraduate Programs

Bachelor of Arts in Communication Studies (120 units)

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

This requires 48 units of which 36 are upper division. All Communication Studies majors, regardless of option chosen, are required to complete the following core:

1. Lower Division Core (12 units):

Take all the following:

COMM 110 Interpersonal Communication (3)

* "C" or better required
Prerequisites: None.

COMM 130 Essentials of Public Speaking (3)

* "C" or better required
Prerequisites: None

COMM 131 Essentials of Argumentation (3)

* "C" or better required
Prerequisites: None.

*COMM 200 Gateway to Communication Studies (3)

Prerequisites: None

*Students must take COMM 200 in their first year of declaring the major

2. Upper Division Core (15 units):

Take all the following courses:

COMM 300 Survey of Rhetorical Theory (3)

Prerequisite: GE Foundation requirements.

COMM 301 Communication Criticism (3)

Prerequisite: COMM 300.

COMM 306 Communication Theory (3)

Prerequisites: None

COMM 307 Measurement in Communication Research (3)

Prerequisites: COMM 306 and completion of University GE requirement in mathematics.

COMM 330 Intercultural Communication (3)

Prerequisites: None

3. Elective Courses: (21 units, 9 units must be 400-level) selected from the following:

COMM 309, COMM 331, COMM 333, COMM 334, COMM 335, COMM 337, COMM 338, COMM 344, COMM 352, COMM 355, COMM 358, COMM 400, COMM 410, COMM 411, COMM 412, COMM 414, COMM 415, COMM 420, COMM 421, COMM 422, COMM 430, COMM 431, COMM 432, COMM 433, COMM 434, COMM 436, COMM 437, COMM 439, COMM 441, COMM 442, COMM 444, COMM 449, COMM 450, COMM 452, COMM 490

Only courses in which a "C" or better have been earned may be applied to satisfy upper division requirements in the major. Classes taken in which less than adequate grades are received must be repeated until an adequate grade is achieved. Majors will not be permitted to take any upper division class in the major on a credit/non-credit basis.

Option in Communication, Culture, and Public Affairs (120 units)

Requirements

This option requires 48 units of which 36 are upper division. All Communication Studies majors, regardless of option chosen, are required to complete the following core.

1. Lower Division Core (12 units):

Take all the following:

COMM 110 Interpersonal Communication (3)

* "C" or better required

Prerequisites: None.

COMM 130 Essentials of Public Speaking (3)

* "C" or better required
Prerequisites: None

COMM 131 Essentials of Argumentation (3)

* "C" or better required
Prerequisites: None.

*COMM 200 Gateway to Communication Studies (3)
Prerequisites: None

*Students must take COMM 200 in their first year of declaring the major.

2. Upper Division Core (15 units):

Take all the following courses:

COMM 300 Survey of Rhetorical Theory (3)
Prerequisite: GE Foundation requirements.

COMM 301 Communication Criticism (3)
Prerequisite: COMM 300.

COMM 306 Communication Theory (3)
Prerequisites: None

COMM 307 Measurement in Comm Research (3)
Prerequisites: COMM 306 and completion of University GE requirement in mathematics.

COMM 330 Intercultural Communication (3)
Prerequisites: None

3. Electives (21 units, 9 units must be 400-level) selected from the following:

COMM 309, COMM 331, COMM 333, COMM 335, COMM 336, COMM 338, COMM 352, COMM 412, COMM 415, COMM 422, COMM 430, COMM 433, COMM 434, COMM 436, COMM 437, COMM 439, COMM 441, COMM 442, COMM 449, COMM 490 (consult with a communication studies advisor about which 490 courses are appropriate for this degree option).

Only courses in which a "C" or better have been earned may be applied to satisfy upper division requirements in the major. Classes taken in which less than adequate grades are received must be repeated until an adequate grade is achieved. Majors will not be permitted to take any upper division class in the major on a credit/non-credit basis.

Option in Interpersonal and Organizational Communication (120 units)

Requirements

This option requires 48 units of which 33 are upper division. All Communication Studies majors, regardless of option chosen, are required to complete the following core.

1. Lower Division Core (15 units):

Take all the following courses:

COMM 110 Interpersonal Communication (3)

* "C" or better required
Prerequisites: None.

COMM 130 Essentials of Public Speaking (3)

* "C" or better required
Prerequisites: None

COMM 131 Essentials of Argumentation (3)

* "C" or better required
Prerequisites: None.

*COMM 200 Gateway to Communication Studies (3)

Prerequisites: None

COMM 220 Elements of Organizational Comm (3)

Prerequisites: None

*Students must take COMM 200 in their first year of declaring the major.

2. Upper Division Core (15 units):

Take all the following courses:

COMM 300 Survey of Rhetorical Theory (3)
Prerequisite: GE Foundation requirements.

COMM 301 Communication Criticism (3)
Prerequisite: COMM 300.

COMM 306 Communication Theory (3)
Prerequisites: None

COMM 307 Measurement in Comm Research (3)
Prerequisites: COMM 306 and completion of University GE requirement in mathematics.

COMM 330 Intercultural Communication (3)
Prerequisites: None

3. Elective Courses: An additional 18 units of course work (of which at least 9 units must be in 400-level courses) are required for the major.

COMM 309, COMM 334, COMM 335, COMM 337, COMM 344, COMM 355, COMM 400, COMM 410, COMM 411, COMM 412, COMM 414, COMM 420, COMM 421, COMM 431, COMM 432, COMM 444, COMM 449, COMM 450, COMM 452, COMM 490 (consult with a communication studies advisor about which 490 courses are appropriate for this degree option).

Only courses in which a "C" or better have been earned may be applied to satisfy upper division requirements in the major. Classes taken in which less than adequate grades are received must be repeated until an adequate grade is achieved. Majors will not be permitted to take any upper division class in the major on a credit/non-credit basis.

Minor in Communication Studies

The Minor in Communication Studies is available to any non-Communication Studies major. A minimum of 21 units in Communication Studies is required, of which at least 15 must be upper division, chosen in consultation with the Department Undergraduate Advisor.

Graduate Programs

Master of Arts in Communication Studies

This degree allows the student to construct a personalized program that draws from the following areas: rhetorical, interpersonal, organizational, or intercultural communication, performance studies, forensics or instructional communication.

Admission

1. Application for Admission to the University. The office of Enrollment Services processes applications to the University and forwards those meeting University criteria to the Department.
2. Application to the Department. In addition to the University application, prospective students are also required to submit an application and supporting materials directly to the Department. An application form along with detailed

instructions are available on-line at the Department's website (<http://www.csulb.edu/depts/comstudies>). Generally, the department accepts students who have a minimum 3.0 Overall Undergraduate GPA and a minimum combined score of 900 on the Verbal and Quantitative sections of the Graduate Record Exam (minimum of 400 per section) on August 1, 2011, the GRE revised the test and scoring system. For tests taken after, August 1, 2011, applicants will need a minimum combined score of 297 on the Verbal and Quantitative sections, with no less than 146 on either section. The decision to admit is never based on a single indicator. Students who do not meet these requirements may seek admission through appeal.

General Considerations

1. Requirements

- A. All requirements date from the time at which a student receives approval for Advancement to Candidacy, not from when a student begins graduate study.
- B. The Department requires a minimum of thirty semester hours (including four thesis credits in the Thesis Option) for the Master's Degree. The University requires a minimum of twenty-four graduate credits be completed in residence.
- C. Students must either pass the Department's comprehensive examination or write an acceptable thesis.
- D. The Department expects its graduate students to possess the writing skills necessary for advanced study. Fulfill the Graduation Writing Assessment Requirement (GWAR). Students should fulfill the GWAR no later than the end of the first semester of graduate study. If you believe you have taken an examination equivalent to fulfillment of the GWAR, consult the Graduate Advisor.

2. Prerequisites

- A. Units obtained fulfilling prerequisites or deficiencies do not count toward the minimum of thirty semester hours needed to complete the Master's degree.
 - B. Students must meet all prerequisites before enrolling in graduate courses, except for COMM 541 or COMM 546. Individuals may petition for waiver of this rule prior to registering for courses if compelling reasons warrant such a waiver.
3. Students must comply with all University regulations outlined in the CSULB *Catalog*.

Prerequisites

Individuals with a Bachelor's degree in Communication Studies (or its equivalent) from a fully-accredited college or university must have approved coursework in the following:
COMM 300, COMM 301, COMM 306, COMM 307.

Requirements

1. A minimum of thirty hours of graduate work in Communication Studies distributed as follows:
 - A. Complete prior to advancement to candidacy and preferably within the first semester of graduate work:
 - COMM 541 Rhetorical Theory and Criticism I (3)
Prerequisites: None
 - COMM 546 Communication Theory and Research I (6)
Prerequisites: None

- B. Complete preferably in the second semester:
 - COMM 640 Rhetorical Theory and Criticism II (3)
Prerequisite: COMM 541.
 - COMM 646 Communication Theory and Research II (6)
Prerequisites: COMM 307 (or equivalent) and 546.
 - C. 18 units of graduate level electives or 15 units of electives plus 3 thesis units
2. No more than 3 units may be taken outside the Communication Studies Department or transferred from another institution. The graduate advisor must approve any courses taken outside the department or transferred from another institution.
 3. Completion of the Department's Comprehensive Examination or of an acceptable thesis.
 4. Please note that Internships and student teaching cannot be included in the required thirty units.

Questions

Any questions not answered in these pages should be directed to the Department Graduate Advisor.

Graduate Courses in Communication Studies

Students may apply the following graduate courses in Communication Studies toward the Master's Degree:
COMM 531, COMM 541, COMM 546, COMM 590, COMM 610, COMM 611, COMM 614, COMM 620, COMM 630, COMM 633, COMM 634, COMM 635, COMM 636, COMM 637, COMM 639, COMM 640, COMM 646, COMM 649, COMM 650, COMM 697, COMM 698

Undergraduate Core Courses

COMM 300, COMM 301, COMM 306, COMM 307, and COMM 330.

Communication Studies Courses (COMM)

LOWER DIVISION

110. Interpersonal Communication (3)

Lecture: Basic characteristics of processes underlying the formation, maintenance and termination of interpersonal relationships; theoretical and practical implications of these characteristics in various forms of interpersonal communication.

Workshop: Planned exercises and activities to develop interpersonal communications skills.

(Lecture 2 hours, Workshop 2 hours). Not open for credit to students with credit in COMM 210.

130. Essentials of Public Speaking (3)

Composition and delivery of speeches to inform and persuade. Logical organization is stressed.

131. Essentials of Argumentation (3)

Lecture: Theory of argumentation; examination of forms and sources of evidence, inductive and deductive arguments, construction of case briefs, and refutation.

Workshop: Develops critical thinking abilities with planned exercises and speeches including construction and presentation of arguments, cases, and refutation.

132. Small Group Discussion (3)

Basic principles and techniques of discussion. Relationship of discussion to democratic processes and contemporary society including a study and practice of critical thinking and problem-solving techniques in various group discussion settings.

200. Gateway to Communication Studies (3)

Introduction to the academic discipline of communication studies with emphasis on multiple epistemological, theoretical, and methodological issues relevant to the systematic inquiry and pursuit of knowledge about human communication.

Letter grade only (A-F).

220. Elements of Organizational Communication (3)

Role of communication in achieving organizational goals; theory and practice of communication in private and public organizations; techniques to enhance understanding in organizations.

236. Forensic Activity (1-3)

Participation in intercollegiate forensic activities. Any student who expects to participate in such activities during the semester should enroll. Specific assignments will be determined in consultation with the staff.

May be repeated to a maximum of 4 units. (2-6 hrs. activity)

UPPER DIVISION

300. Survey of Rhetorical Theory (3)

Prerequisite: GE Foundation requirements.

History of major rhetorical theories from the ancient Greeks to the Twentieth century. Theorists include Gorgias, Plato, Aristotle, Cicero, Quintilian, Augustine, Machiavelli, Locke, Marx, Freud, the existentialists, and others.

301. Communication Criticism (3)

Prerequisite: COMM 300.

Analysis and criticism of public communication events including speeches, editorials, advertisements, and mass media from a variety of rhetorical perspectives.

306. Communication Theory (3)

Conceptual perspectives and studies of coding, meaning, thinking, information, and persuasion within interpersonal, group and organizational contexts; theoretical contributions from other disciplines.

307. Measurement in Communication Research (3)

Prerequisites: COMM 306 and completion of University GE requirement in mathematics.

Application of the scientific method to the study of speech communication; examination of the role empirical methodologies play in communication research; fundamental statistical processes.

Letter grade only (A-F). (Not open for credit to students with credit in COMM 305)

309. Language and Behavior (3)

Symbolic basis of human communicative behavior; relationship between language and behavior; investigation and analysis of discourse and behavioral effects.

330. Intercultural Communication (3)

Study of the relationship between culture and communication with emphasis given to social, psychological, linguistic and nonverbal variables; problems in the practice of intercultural communication.

331. Argumentation and Debate (3)

Prerequisite: GE Foundation requirements.

Techniques of argumentation and their application to debate; logic, reasoning and fallacies of reasoning; experience in various forms of formal argument and debate; techniques of debate program administration.

333. Performing Culture (3)

Prerequisite: Completion of Foundation requirements.

Class participants use performance and other qualitative research

methods to explore issues of race, gender, sexuality, ethnicity, class, and other cultural standpoints. Also includes a survey of relevant critical and cultural theories.

334. Business and Professional Communication (3)

Prerequisite: COMM 130 or consent of instructor.

Skills and technologies related to the assessment, strategic planning, development, implementation, and evaluation of effective communication in the business and professional setting.

335. Persuasive Speaking (3)

Prerequisites: GE Foundation requirements.

Skills necessary for advanced public speaking in various venues including legislative, legal, and ceremonial public address; explores various theories of motivation including speaker credibility, emotional appeals, of evidence and argument, style in language, delivery and audience analysis skills.

336. Forensic Activity (1-3)

Participation in intercollegiate forensic activities. Any student who expects to participate in such activities during the semester should enroll. Student's specific assignments will be determined in consultation with the staff.

May be repeated to a maximum of 4 units. (2-6 hrs. activity)

337. Professional Event Planning (3)

Organization and direction of professional, business and political conferences or conventions; program simulation; leadership of and participation in decision making and parliamentary sessions.

338. Ensemble Performance (3)

Programming and presentation of prose, poetry and drama by an ensemble of readers. Emphasis is placed on experimental presentations and on the development of analytical insight into literary forms.

344. Theory and Techniques of Interviewing (3)

Theory and techniques of oral communication in the process of interviewing. Practical application in employment, information gathering, and persuasive interviews.

352. Story Telling (3)

Cultural heritage in story telling; analysis of story types for oral presentation; techniques of preparation, presentation and listening.

355. Communication in the Classroom (3)

Designed for prospective teachers; communication theories, and skills applicable to the teaching of speech communication; focus on communication strategies that contribute to greater student learning; develop an instructional package for teaching speech communication.

358. Speech Arts for Children (3)

Use of creative dramatics, improvisations, puppetry, choral speech, radio, television and group discussion for the purpose of developing fluency, responsiveness and imagination in children. Integration of speech arts activities with curricular subjects will be stressed. Opportunity to apply the theories in actual situations.

400. Nonverbal Communication (3)

Prerequisites: COMM 110.

Basic characteristics of the nonverbal elements of human communication in the oral communication setting.

410. Advanced Concepts in Interpersonal Communication (3)

Prerequisites: COMM 110.

Systems and symbolic interaction approaches to interpersonal communication; consideration of interpersonal needs, self disclosure, understanding, interpersonal perception, interpersonal attraction, and social conflict; rule and performance-centered theories of interpersonal communication.

411. Communication in Conflict Resolution (3)

Prerequisites: GE Foundation requirements, completion of one or more GE Exploration courses, and upper division standing.

Analytical investigation of the nature and dynamics of interpersonal conflict; approaches to the study and understanding of conflict management as examined from intrapersonal, interpersonal, intragroup, organizational, and international perspectives.

412. Gender and Communication (3)

Prerequisites: GE Foundation requirements, completion of one or more GE Exploration courses and upper-division standing.

Survey of theories and research literature to increase students' understanding of and familiarity with major issues regarding communication between men and women in various contexts.

414. Communication in Families (3)

Role of communication in families; theoretical perspective of family interaction, current family issues, intercultural aspects of family interaction, effects of changing career/family roles, and intergenerational interaction.

Letter grade only (A-F).

415. Rhetoric of Social Movements and Protest (3)

Examines goals, strategies, and effects of groups that form to advocate social, political, and/or moral change. Focuses on how (agitator) groups communicate messages, and how institutions of power (establishment) respond in order to control or resist change.

420. Advanced Concepts in Organizational Communication (3)

Prerequisites: COMM 220.

Philosophy, methods and designs for studying the communication systems of complex organizations; organizational communication-needs assessment, methods for developing and improving communications in organizations are examined.

421. Communication in Bargaining and Negotiation (3)

Role of communication in the decision-making process of negotiation and bargaining; emphasis on the functions of communication in resolving disputes through bargaining. Successful completion of COMM 411 is highly recommended.

422. Media Effects (3)

Prerequisites: Upper-division standing and GE Foundation requirements.

Introduces students to the study of the effects of mass communication by examining some of the classic studies in the field of communication as well as exploring contemporary cultural, social, political and psychological effects of the mass media.

430. Advanced Concepts in Intercultural Communication (3)

Prerequisites: COMM 330 or consent of instructor.

Continued study of communication processes involved in interaction between people from different cultural groups; exploration of culturally variable means of thinking and behaving, and study of social psychological processes affecting all forms of intergroup interaction.

Letter grade only (A-F).

431. Mediation and Dispute Resolution (3)

Prerequisites/Corequisites: COMM 330 or COMM 430, COMM 411 and COMM 421, or consent of instructor.

Essential communication skills and processes involved in becoming a conflict mediator; certificate awarded after successful completion of course.

Letter grade only (A-F).

432. Communication Leadership (3)

Development of leadership skills in problem-solving communication environments; leadership theories, strategies and techniques of problem-solving and decision making.

433. Trends in Performance Studies (3)

Trends and issues in the theoretical and historical development of oral interpretation as applied to current times.

434. Advanced Oral Presentation Skills (3)

Prerequisite: GE Foundation requirements; one or more GE Exploration courses; and upper-division standing.

Development of advanced skills in oral presentations, including audience analysis, presentation technologies, and multi-media applications. Special consideration paid to research and critical analysis of written and oral presentation content and delivery.

Letter grade only (A-F).

436. American Public Address (3)

Comparison and contrast of famous American speakers and their techniques, effects and environments from the colonial period to present.

437. International Public Address (3)

Comparisons and contrasts of famous international speakers and their techniques, effects, and environments from the Greco-Roman era to the present.

Letter grade only (A-F).

439. Communication and Popular Culture (3)

Examines the relationship between communication and popular culture in the public sphere. The course aims at improving students' abilities to respond critically to everyday mass social messages.

Letter grade only (A-F).

441. Issues in Freedom of Communication (3)

Prerequisites: Upper division standing and GE Foundation requirements, and at least two GE Exploration courses. Recommended COMM 331 or COMM 335.

The evolution and impact of First Amendment rights on American society and its political system; Emphasis on the evolution of the First Amendment, significant Supreme Court cases, the First Amendment and electronic media, and the application of case laws that deal with religion, speech, press, and assembly. Recommended for pre-law students.

442. Campaign Persuasion (3)

Prerequisites: GE Foundation requirements, upper division standing, and at least two GE Exploration courses. It is recommended that one be COMM 331 or COMM 335.

Examination of persuasive communicative strategies in political campaigns inclusive of campaign speeches, commercials, news media coverage, image-building, audience analysis through polling, and fund raising.

444. Communicating Civility (3)

Prerequisites: Upper division standing and GE Foundation requirements.

Examine codes of "civilized" communication behavior historically and analytically. Identify what it means to be an ethical and civilized communicator in today's society, and appreciate professional and personal protocols for everyday use.

Letter grade only (A-F).

449. Studies in Oral Persuasion and Attitude Change (3)

Attitude formation and change through oral communication; factors in persuasion; problems determining the effects of persuasive messages; source credibility, message variables; and personality factors in the process of persuasion.

450. Communication Training in Organizations (3)

Nature and role of communication training in a variety of social, educational, and business organizations; the goals, structure, and impact of communication effectiveness programs are examined; audiovisual aids and communication training techniques emphasized.

452. Communication in the Multinational Organization (3)

Communication patterns in multinational and multicultural organizational settings; the nature and impact of different organizational structures, value systems, and cultural norms in relation to productivity, employee and organizational obligations and expectations.

490. Selected Topics in Communication Studies (3)

Topics of current interest selected for intensive study in Communication.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

A. Hip Hop Criticism

492A-B. Internship (3-3)

Prerequisite: Permit required to enroll with consent of instructor; open only to senior majors.

At least 120 hours with cooperating organizations on- or off-campus. Work directed and evaluated by instructor in consultation with supervisor of the participating organizations. Assignments will be varied.

Credit/No Credit grading only. COMM 492A is for unpaid Internship. COMM 492B is for paid internship.

495. Service Learning Internship (3)

Prerequisites: Communication Studies Major with Senior Standing; minimum 3.0 GPA for all college coursework taken; COMM 130 or COMM 335 or their equivalents; COMM 352 or COMM 355 or COMM 358, or the consent of instructor.

Application of academic knowledge of communication skills in the community; public speaking, listening, interpersonal communication, group communication, multicultural communication, and/or interviewing skills training (1) to students in K-12 schools or (2) to persons in the public sector.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

499. Special Studies (1-6)

Prerequisites: "Permit" required to enroll. Open to upper division students or graduate standing and consent of instructor. Approved "Agreement for Independent Study" must be on file with the Department prior to enrolling in this course.

Individualized laboratory or library research selected in consultation with instructor. Written report of the research is required. Not acceptable for graduate credit toward the master's degree.

GRADUATE LEVEL

531. Administering the Forensic Program (3)

Prerequisite: "Permit" required to enroll with consent of instructor.

Principles of constructing and administering a forensic program, including recruiting, squad direction, budgeting, tournament policies, and current literature on forensics direction.

Letter grade only (A-F).

541. Rhetorical Theory and Criticism I (3)

Introduction to research in rhetorical studies. Examination of major figures and schools of thought on rhetorical theory and criticism from the Pre-Socratics through the contemporary modern British era.

546. Communication Theory and Research I (3)

Examination of theories and research in social cognition, interpersonal, small group, organizational, intercultural, mass, instructional, language and behavior, and nonverbal communication. Critical analysis of empirically-based articles in the field. Social-scientific research proposal required.

Letter grade only (A-F).

590. Selected Topics in Communication Studies (3)

Prerequisite: Consent of instructor.

Investigation of topics of current interest and concern to students in communication and allied areas.

May be repeated to a maximum of 6 units with different topics, no more than 3 units may count toward the Communication Studies master's degree. Topics announced in the *Schedule of Classes*.

590A. Theory and Criticism of Presidential Rhetoric (3)

Examines presidential communication theory and criticism. Topics under consideration include the changing office of the US presidency as well as the evolving role of the first lady. Rhetorical artifacts for analysis span the history of the US presidency.

610. Seminar in Interpersonal Communication (3)

Prerequisite: COMM 546 or consent of instructor.

Current theories and research in interpersonal communication.

Letter grade only (A-F).

611. Seminar in Negotiation and Conflict Resolution (3)

Prerequisites: COMM 411 or COMM 421 and COMM 546 or consent of instructor.

Investigation, analysis, and criticism of the nature, development, and dynamics of conflict and the role of negotiation in interpersonal, group, organizational, and international and intercultural communication; study and understanding of conflict management.

Letter grade only (A-F).

614. Gender and Family Research (3)

Major theoretical perspectives on the role of communication in family and gender issues; epistemological, conceptual, and methodological issues in researching family and gender communication.

Letter grade only (A-F).

620. Seminar in Organizational Communication (3)

Prerequisite: COMM 546 or consent of instructor.

Theories and models of communication in large organizations; design and management of organizational communication systems.

Letter grade only (A-F).

630. Seminar Intercultural Communication (3)

Prerequisites: COMM 541 and COMM 546 or consent of instructor.

Analysis of cultural influences on interpersonal communication; emphasis given to cultural values, perception, social organization, language and nonverbal codes; development of strategies of effective intercultural communication in international and domestic settings.

633. Seminar in Interpretive Communication (3)

Prerequisite: COMM 541 or consent of instructor.

Theories of communicative interpretation of literature, with emphasis on the theory and evaluation of oral presentation of literature as art form and pedagogical instrument.

Letter grade only (A-F).

634. Performance and Ethnography (3)

Students use ethnographic methods to explore the relationship between culture and performance. Students choose a community, conduct fieldwork and collect/perform stories in order to better understand a particular population.

Letter grade only (A-F).

635. Seminar in Communication Criticism (3)

Prerequisite: COMM 541 or consent of instructor.

Critical theories of rhetoric and major systems of communication criticism; development of criteria and approaches for the evaluation of select communication acts and contexts.

Letter grade only (A-F).

636. Seminar in American Public Communication (3)

Prerequisite: COMM 541 or consent of instructor.

Studies of American rhetorical events and their social, political and intellectual settings; application of rhetorical theory in the analysis of these events.

Letter grade only (A-F).

637. Seminar in International Public Communication (3)

Prerequisite: COMM 541 or consent of instructor.

Studies of international rhetorical events and their social, political, and intellectual settings; application of rhetorical theory in the analysis of these public communication events.

Letter grade only (A-F).

639. Seminar in Communication and Popular Culture (3)

Prerequisite: COMM 541 or consent of instructor.

Survey of literature on rhetoric, critical studies, and popular culture to provide a basis for investigating communication in popular culture.

Letter grade only (A-F).

640. Rhetorical Theory and Criticism II (3)

Prerequisite: COMM 541.

Examination of major figures and themes in rhetorical theory and criticism in the contemporary era.

646. Communication Theory and Research II (3)

Prerequisites: COMM 307 (or equivalent) and COMM 546.

Empirical research methodologies applied to communication research; theory and design of scientific research; analysis of findings; computer applications; research report required.

649. Seminar in Persuasion and Attitude Change (3)

Prerequisite: COMM 546 or consent of instructor.

Contemporary theories and models of persuasion; structure and relationships of beliefs, values and attitudes; methods of assessing persuasive effects; analysis of research literature.

Letter grade only (A-F).

650. Seminar in Instructional Communication (3)

Prerequisites: COMM 541 and COMM 546 or consent of instructor.

Designed for teachers/trainers, the course will identify communication variables and strategies which contribute to greater student/client learning as well as greater satisfaction with the learning process. Students will develop an instructional/training package.

Letter grade only (A-F).

697. Directed Research (1-6)

Prerequisites: COMM 541 and COMM 546; authorization of the department Graduate Advisor, Agreement for Independent Study Course form, consent of instructor.

Directed research leading to the definition and discussion of a selected problem or issue in communication and the presentation of research results in a formal paper submitted to the department.

May be repeated to a maximum of 6 units with different topics.

Letter grade only (A-F).

698. Thesis (2-4)

Prerequisites: COMM 541, COMM 546, COMM 640 and COMM 646, authorization of the department Graduate Advisor, Agreement for Independent Study Course form, consent of instructor.

Preparation, completion and submission of an acceptable thesis in partial fulfillment of the requirements for the Master's degree.

Credit/No Credit grading only.

COMPARATIVE WORLD LITERATURE

College of Liberal Arts

Department Chair: Carl Fisher

Department Office: McIntosh Humanities Building (MHB), Rm 515
Telephone / Fax: (562) 985-4239 / (562) 985-4863
Website: www.csulb.edu/depts/complit/

Professors: Elizabeth Dahab, Carl Fisher, Vlatka Velcic

Undergraduate Advisors:

Vlatka Velcic (562) 985-1815

Kathryn Chew (562) 985-5810

Administrative Support Coordinator: Nancy Comito

Students desiring information should contact the department office for an appointment with the advisor.

Career Possibilities

Creative/Media Writer • Editor • Technical Writer • Librarian • Copywriter • Literary Agent • Literary Critic • Foreign Service Officer • Public Relations Worker • Market Researcher • Educator • Lawyer • Government Affairs Officer • Management Trainee • Underwriter • Claims Adjuster (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Bachelor of Arts in Comparative World Literature (120 units)

The Bachelor of Arts in Comparative World Literature has three emphasis options:

- 1) World Literature in Translation
- 2) Cultural Studies
- 3) Language and Literature

Emphasis I: World Literature in Translation

The World Literature in Translation emphasis allows students to explore a variety of literatures in a flexible curriculum adapted to their interests, with the goal of developing applied skills and global competencies.

Requirements

A minimum of 36 units distributed as follows:

Lower Division (12 units):

6 units 100-level CWL courses chosen from:

CWL 100, CWL 101, CWL 103, CWL 104, CWL 124, CWL 132, CWL 161

6 units 200-level CWL courses chosen from:

CWL 205, CWL 213, CWL 220

Courses which fulfill the GE C2a designation may be substituted for CWL lower-division courses. For other possible lower-division substitutions, see department advisor.

Upper Division (24 units)

Take both of the following:

CWL 330A Masterpieces of European Literature (3)

Prerequisite: One course in literature or consent of instructor.

CWL 330B Masterpieces of European Literature (3)

Prerequisite: One course in literature or consent of instructor.

And one of the following:

CWL 361 Masterpieces of Literary Criticism (3)

Prerequisite: None

CWL 365 Cultural Studies: Histories, Theories, and Issues (3)

Prerequisite: One course in literature or instructor's consent.

Take 6 units 300-level CWL courses chosen from:

CWL 315, CWL 334, CWL 342, CWL 344, CWL 346, CWL 349, CWL 350, CWL 366

Take 9 units 400-level CWL courses chosen from:

CWL 402, CWL 403, CWL 404, CWL 406, CWL 410, CWL 414, CWL 420, CWL 422, CWL 430, CWL 431, CWL 432, CWL 435, CWL 437, CWL 438, CWL 440, CWL 445, CWL 448, CWL 449, CWL 451, CWL 452, CWL 453, CWL 461.

Emphasis II: Cultural Studies

Cultural Studies is the interdisciplinary study of literature and other forms of cultural expression within social and historical contexts. This emphasis offers a core of literature classes and an interdisciplinary pattern of cultural studies courses from the Liberal Arts.

Requirements

A minimum of 36 units distributed as follows:

Required courses (9 units):

CWL 330A Masterpieces of European Literature (3)

Prerequisite: One course in literature or consent of instructor.

CWL 330B Masterpieces of European Literature (3)

Prerequisite: One course in literature or consent of instructor.

CWL 365 Cultural Studies: Histories, Theories, and Issues (3)

Prerequisite: One course in literature or instructor's consent.

6 units 300-level CWL or CLSC courses chosen from:

CWL 334, CWL 342, CWL 344, CWL 346, CWL 349, CWL 350, CWL 361, CWL 366; CLSC 311, CLSC 312.

9 units 400-level CWL courses chosen from:

CWL 402, CWL 403, CWL 404, CWL 406, CWL 410, CWL 414, CWL 420, CWL 422, CWL 430, CWL 431, CWL 432, CWL 435, CWL 437, CWL 438, CWL 440, CWL 445, CWL 448, CWL 449, CWL 451, CWL 452, CWL 453, CWL 461.

Elective Courses in Cultural Studies

12 upper-division units in appropriate cultural studies courses, including additional Comparative World Literature classes or Category F capstones, drawn from the following departments or areas: American Indian Studies, Anthropology, Art History, Asian and Asian American Studies, Africana Studies, Chicano and Latino Studies, Classics, Dance, English, Film and Electronic Arts, History, Religious Studies, Romance, German, Russian Languages and Literatures, Women's, Gender, and Sexuality Studies, or other appropriate departments and areas of study. Consult a department advisor about courses which will count toward the Cultural Studies

emphasis.

Emphasis III: Language and Literature

The traditional undergraduate major in Comparative Literature, encouraging language acquisition, designed to prepare the student for graduate study in Comparative Literature or related fields.

A minimum of 42 units distributed as follows:

Lower Division (12 units):

6 units 100-level CWL courses chosen from:

CWL 100, CWL 101, CWL 103, CWL 104, CWL 124, CWL 132, CWL 161.

6 units 200-level CWL courses chosen from:

CWL 205, CWL 213, CWL 220.

Courses which fulfill the GE C2a or C2c designation may be substituted for CWL lower-division courses.

For other possible lower-division substitutions, see department advisor.

Upper Division (24 units):

Take both of the following:

CWL 330A Masterpieces of European Literature (3)
Prerequisite: One course in literature or consent of instructor.

CWL 330B Masterpieces of European Literature (3)
Prerequisite: One course in literature or consent of instructor.

And one of the following:

CWL 361 Masterpieces of Literary Criticism (3)
Prerequisite: None

CWL 365 Cultural Studies: Histories, Theories, and Issues (3)
Prerequisite: One course in literature or instructor's consent.

Take 6 units 300-level CWL or CLSC courses chosen from:

CWL 334, CWL 342, CWL 344, CWL 346, CWL 349, CWL 350, CWL 366; CLSC 311, CLSC 312.

Take 9 units 400-level CWL courses chosen from:

CWL 402, CWL 403, CWL 404, CWL 406, CWL 410, CWL 414, CWL 420, CWL 422, CWL 430, CWL 431, CWL 432, CWL 435, CWL 437, CWL 438, CWL 440, CWL 445, CWL 448, CWL 449, CWL 451, CWL 452, CWL 453, CWL 461.

Foreign Language Requirement

6 units upper-division foreign language courses, including at least one literature course. For this emphasis, a year of a second foreign language study is encouraged but not required.

Minor in Comparative World Literature

This minor provides a flexible program for the student who is majoring in another discipline.

Requirements

A minimum of 18 units in Comparative World Literature, of which at least 12 are upper division excluding:

CWL 499. Directed Studies (1-4)
Prerequisite: Consent of instructor.

The Center for Medieval and Renaissance Studies

The Center offers two programs. Undergraduate students can pursue a certificate or a minor in Medieval and Renaissance Studies. Graduate students can pursue

a certificate. Interested students should turn to "Medieval and Renaissance Studies" in this catalog and/or contact the program directors in MHB 512.

Comparative World Literature Courses (CWL)

LOWER DIVISION

100. Introduction to World Literature (3)

Prerequisite/Corequisite: Any GE Foundation course.

Readings in translation from world literature. Emphasis on how literature engages unique cultural elements around the world as well as cross-cultural comparisons.

101. Introduction to Comparative World Literature (3)

Prerequisite/Corequisite: Any GE Foundation course.

Introduction to basics of literary interpretation and comparative literature. Strongly recommended for majors in Comparative World Literature.

103. Introduction to Comparative Asian Literature and Culture (3)

Prerequisite/Corequisite: Any GE Foundation course.

Introduction to India and China cultures through an exploration of their literatures, cultures, and diasporas. Focus will be on the modern period.

104. Literature and Culture of the Middle East (3)

Prerequisite/Corequisite: Any GE Foundation course.

Introduction to Middle Eastern and North African culture through an exploration of their literatures, with a focus on some of the major figures of the twentieth- and twenty-first centuries, such as Naguib Mahfouz, Ghassan Kanafani, Edward Saïd, and others.

Letter grade only (A-F).

124. Introduction to World Theatre and Drama (3)

Prerequisite/Corequisite: Any GE Foundation course.

Introduction to all aspects of theatre including criticism, dramatic literature, movements, themes, historical background and theatrical production from different parts of the world.

132. Folklore and Mythology (3)

Prerequisite/Corequisite: Any GE Foundation course.

Introduction to the study of mythology and folklore in a global context, with an emphasis on their application in literature.

Not open for credit to students with credit in CWL 232.

161. Reading the World (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1).

Introduction to contemporary theories of reading and interpretation. Examination of diverse forms of human expression and critical understanding from around the world and across the disciplines designed to develop and refine a broad repertoire of reading tools and practices.

205. Digital Literature and Culture (3)

Prerequisites: Completion of the GE Foundation courses

Introductory survey of digital literature and culture from early experiments to contemporary uses of internet technology and interactive platforms. Combines historical and cultural backgrounds with comparative and analytical skill development necessary for understanding digital literature in local and global contexts.

210. Erotica, Love, Romance: Literary and Cultural Representations (3)

Prerequisite: Completion of 6 units in Category A, GE foundation requirement

Explores interdisciplinary representations of eroticism, love, and romance across history and cultures, including diverse contemporary representations of love and sexuality.

213. Visual Studies: Comics and Graphic Novels (3)

Prerequisite: GE Foundation requirements

Introductory study of Comics and Graphic Novels across cultures and within global contexts by emphasizing visual narrative storytelling as well as the political, social and visual trends that have shaped the powerful creative industry of comics around the world.

220. Literature and Play (3)

Prerequisite: GE Foundation requirements.

Explores interrelation of human physiological, social, and psychological states of being in culturally and historically diverse works of literature concentrated on the nature of human play and the purpose of human games.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Representing the World: Literature and Culture in Contact and Conflict (3)

Prerequisite: GE Foundation and upper-division status. Students must have scored 11 or higher on the GEAR Placement Examination or successfully completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

A writing-intensive exploration of world literature in comparative and cultural contexts, with an emphasis on themes and topics of global relevance.

305. Science Fiction and Global Technologies (3)

Prerequisite: G.E. Foundation and upper-division status. Students must have scored 11 or higher on the GEAR Placement Examination or successfully completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Comparative study of science fiction as a global discipline, across cultures and time periods, emphasizing technological advances, sociopolitical implications, and imaginative constructions.

315. Literature and Medicine (3)

Prerequisite: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Interdisciplinary examination of the complex relationship between medicine and human experience, integrating materials from the humanities and social sciences to explore diverse experiences across cultures, between and among genders, and in various economic and social contexts.

Letter grade only (A-F).

320. Comic Spirit (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Study of comedy as a literary genre and of the manifestation of the comic spirit in related art forms such as music, art, and film, focusing on the history and philosophy of comedy as well as theories of laughter.

324. Theatre Today (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Examines current trends, achievements and problems in contemporary western theatre and dramatic literature. Particular attention will be paid to multicultural expression in the theatre.

Same course as THEA 324. Not open for credit to students with credit in THEA 324.

330A,B. Masterpieces of European Literature (3,3)

Prerequisite: One course in literature or consent of instructor.

Representative selections, in translation, of European texts

to and since the Renaissance, and their relation to the development of Western civilization.

334. Introduction to East Asian Literatures and Cultures (3)

Prerequisite: GE Foundation requirements.

A comprehensive introduction to the comparative study of East Asian cultures through the reading of representative selections from the literatures of China, Korea, and Japan in historical context. Focus is on the modern period.

Not open for credit to students with credit in A/ST 334.

342. The Bible as Literature (3)

Prerequisite: GE Foundation requirements.

Reading of representative Biblical selections interpreted from a literary standpoint.

344. Literature of the Holocaust (3)

Prerequisites: One course in literature or consent of instructor.

Intensive study of literary works of different genres and cultural backgrounds, from 1945 to the present, to analyze the strategies writers use to present the historical events and the cultural reverberations of the Holocaust.

346. Readings in World Poetry (3)

Prerequisite: One course in literature or consent of instructor.

Representative selections of the poetry of the world from the earliest examples to the present. Facing-page translations will be included.

349. Selected Topics – Literary Movements (3)

Prerequisite: One course in literature or consent of instructor.

Intensive study of a movement or theme in world literature. Specific movement or theme announced in the *Schedule of Classes*.

May be repeated to a maximum of 9 units with different topics.

350. Global Literature in American Culture (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Comparative and thematic study of transnational literary culture, as represented in at least three distinct American ethnic groups. Readings examined in relation to contemporary global themes and in relation to the original national literatures.

361. Masterpieces of Literary Criticism (3)

Study of literary criticism from Plato to the present, focusing on history of literary and cultural theory as well as methods of critical analysis applied to literary texts and other forms of cultural expression.

365. Cultural Studies: Histories, Theories, and Issues (3)

Prerequisite: one course in literature or instructor's consent.

Cultural studies in a global, comparative context, including theories of discursive practices and identity politics; examined through theoretical discourses about literature and the arts and also as an interpretive technique for cultural institutions, practices, and products.

366. Classical Stories, Modern Voices (3)

Prerequisite: GE Foundation requirements and upper-division standing.

Comparative readings of ancient literature in a global context, including analysis of classical literary genres and archetypes, their modern interpretations/rewritings, and their echoes in popular culture.

Same course as CLSC 366. Not open for credit to students with credit in CLSC 366.

402./502. Selected Topics - Middle Eastern Literature and Culture (3)

Prerequisite: One course in literature or consent of instructor.

Study of specific authors, themes, genres, movements, or aspects of literature and culture in the Middle East or between the Middle East and the West.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

403./503. Selected Topics - Asian Literature (3)

Prerequisite: One course in literature or consent of instructor.

Interrelationships of two or more authors, themes, genres, movements or aspects of literature and culture in Asia or between Asia and the West.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

404./504. Selected Topics - Women in World Literature (3)

Prerequisite: One course in literature or consent of instructor.

Study of the role of women in world literature.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

406./506. Selected Topics - East European Literature and Culture (3)

Prerequisite: One course in literature or consent of instructor.

Major movements, authors, and themes in Eastern European literature and culture (Slavic and non-Slavic) and/or the relationship of East European literature and culture and Western Europe and North America.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

410. Literature and Music (3)

Prerequisite: One course in literature or consent of instructor.

Examination of relationship between music and literature in 19th and 20th centuries with emphasis placed on representative literary works and musical compositions that show mutual influences and common features and structures.

412. Art and Literature (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Interdisciplinary study of 19th and 20th Century art and literature, emphasizing comparative analysis of styles, methods, principles, and movements across genres as well as major artists, writers and theorists in their social and historical contexts.

414. Medieval World (3)

Prerequisites: GE Foundation, one or more Exploration courses, and upper-division standing.

Interdisciplinary examination of major themes in medieval society and culture, with an emphasis on literature, the arts, and the historical forces that combined to produce medieval culture as a whole.

415. Ethnic Literature and Culture in America (3)

Prerequisites: GE Foundation, one or more Exploration courses, and upper-division standing.

Comparative, interdisciplinary study of multicultural literature in historical and sociopolitical context. Ethnic groups include Native American, African American, Latino/Latina, Asian American and Middle Eastern American.

420. Selected Topics - Comic Spirit (3)

Prerequisite: CWL 320 or consent of instructor.

Study of specific themes, theories, genres and/or interdisciplinary relationships in comedy.

May be repeated for a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

422. Renaissance Theatre and Drama (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Interdisciplinary study of the achievements, problems, themes and trends of Renaissance drama in Italy, Spain, France, and England between 1350 and 1650. Major plays of the period are read in translation, with attention to literary and theatrical elements.

430./530. Dante (3)

Prerequisite: One course in literature or consent of instructor.

A reading, in translation, of the major works of Dante, including the *Vita Nuova* and the *Divine Comedy*. Examination is also given to the comparative nature of Dante's work: his sources and his influence on later writers, artists, and composers.

431./531. Medieval Literature (3)

Prerequisite: One course in literature or consent of instructor.

Representative selections, in translation, from writings of the medieval period, reflecting dominant ideas of the time.

432./532. Continental Renaissance Literature (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of the major non-dramatic works of Renaissance Europe, including authors such as Petrarch, Boccaccio, Lorenzo de' Medici, Machiavelli, Ariosto, Tasso, Ronsard, Rabelais, Erasmus, and Cervantes. Emphasis is also given to influences, trends, and contributions to the modern world.

435./535. Literature of the Enlightenment (3)

Prerequisite: One course in literature or consent of instructor.

A comparative study of European literature, from approximately 1650 to 1800, with an emphasis on reading literary works within historical context and considering the imaginative and intellectual achievements and legacies of the Enlightenment.

437./537. Romantic Literature (3)

Prerequisite: One course in literature or consent of instructor.

Representative selections, in translation, from European writers of the Romantic period with an emphasis on a comparative study of works from Germany and France from about 1770-1850.

438./538. 20th Century European Literature (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of continental European literature from 1900 to present. Focus on novels and drama. Topics include realism, naturalism, psychological novel, theatre of the absurd, existentialism, modernism, postmodernism, and postcolonialism.

440./540. Selected Topics - Latin American Literary Studies (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of major literary genres in Latin American literature in relation to principal periods and movements of Western literary tradition.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

445./545. Selected Topics - American Folklore Studies (3)

Prerequisite: One course in literature or consent of instructor.

Topics chosen to provide a bridge between literary, aesthetic and specialized folkloristic studies of American culture. Special attention paid to European and Third World contributions to American folklore.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

448./548. Selected Topics - Comparative Studies (3)

Prerequisite: One course in literature or consent of instructor.

Interrelationship of two or more disciplines, with emphasis on reciprocal influences and borrowing of materials during various literary periods. The class will feature a different interdisciplinary study each semester.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

449./549. Selected Topics - Major Continental Writers (3)

Prerequisite: One course in literature or consent of instructor.

Intensive and comparative study of one to three major continental authors.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

A. Nobel Prize Laureates

Prerequisite: Consent of instructor.

451. Film and Novel in Society (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Interdisciplinary study of two genres, with particular focus on novels made into films and on aesthetic distinction of both forms as major genres in 20th and 21st centuries.

452./552. Selected Topics - Mythology (3)

Prerequisites: One course in literature or consent of instructor.

Interrelation of two or more mythologies, mythological themes or theories of mythology. Different areas of study of mythology each semester.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

453./553. Fairy Tales (3)

Prerequisite: One course in literature or consent of instructor.

Study of fairy tale as a unique literary genre and art form. Class will apply contemporary theory to tales and identify psychological, religious, cultural, and alchemical patterns and symbols that manifest the realization of identity and illustrate creative processes.

461./561. Selected Topics - Contemporary Literary Criticism (3)

Prerequisite: Two upper-division literature courses or consent of instructor.

In-depth study of a particular critic or movement in contemporary literary theory.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

492. Internship Program (1-3)

Prerequisites: Consent of instructor and department chair.

Field work in literature-related industries. Internships and other assignments directed by a supervising faculty member.

May be repeated to a maximum of 6 units. Credit/No Credit grading only.

495. Genre (1-3)

Prerequisite: Consent of instructor.

Production of student journal, *Genre*, including editing, design, soliciting contributors, working with printer, desktop publishing, and financial management. Organizational meeting previous fall semester. Contact department office for information.

May be repeated to a maximum of 9 units. Credit/No Credit grading only.

499. Directed Studies (1-4)

Prerequisite: Consent of instructor.

Independent study of special topics under supervision of a faculty member.

May be repeated to a maximum of 6 units with consent of department.

GRADUATE LEVEL**501. Advanced Interdisciplinary Study (3)**

Intensive study of the theories and methods of comparing and interrelating literature with other disciplines such as various areas among the fine arts, the social sciences and the sciences. Course will involve independent research.

Letter grade only (A-F).

502./402. Selected Topics - Middle Eastern Literature and Culture (3)

Prerequisite: One course in literature or consent of instructor.

Study of specific authors, themes, genres, movements, or aspects of literature and culture in the Middle East or between the Middle East and the West.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

503./403. Selected Topics - Asian Literature (3)

Prerequisite: One course in literature or consent of instructor.

Interrelationships of two or more authors, themes, genres, movements or aspects of literature and culture in Asia or between Asia and the West.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

504./404. Selected Topics - Women in World Literature (3)

Prerequisite: One course in literature or consent of instructor.

Study of the role of women in world literature.

May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

506./406. Selected Topics - East European Literature and Culture (3)

Prerequisite: One course in literature or consent of instructor.

Major movements, authors, and themes in Eastern European literature and culture (Slavic and non-Slavic) and/or the relationship of East European literature and culture and Western Europe and North America.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*.

530./430. Dante (3)

Prerequisite: One course in literature or consent of instructor.

A reading, in translation, of the major works of Dante, including the *Vita Nuova* and the *Divine Comedy*. Examination is also given to the comparative nature of Dante's work: his sources and his influence on later writers, artists, and composers.

Letter grade only (A-F).

531./431. Medieval Literature (3)

Prerequisite: One course in literature or consent of instructor.

Representative selections, in translation, from writings of the medieval period, reflecting dominant ideas of the time.

Letter grade only (A-F).

532./432. Continental Renaissance Literature (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of the major non-dramatic works of Renaissance Europe, including authors such as Petrarch, Boccaccio, Lorenzo de' Medici, Machiavelli, Ariosto, Tasso, Ronsard, Rabelais, Erasmus, and Cervantes. Emphasis is also given to influences, trends, and contributions to the modern world.

Letter grade only (A-F).

535./435. Literature of the Enlightenment (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of European literature, from approximately 1650 to 1800, with an emphasis on reading literary works within historical context and considering the imaginative and intellectual achievements and legacies of the Enlightenment.

537./437. Romantic Literature (3)

Prerequisite: One course in literature or consent of instructor.

Representative selections in translation from European writers of the Romantic period with an emphasis on a comparative study of works from Germany and France from about 1770-1850.

538./438. 20th Century European Literature (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of continental European literature from 1900 to present. Focus on novels and drama. Topics include realism, naturalism, psychological novel, theatre of the absurd, existentialism, modernism, postmodernism, and postcolonialism.

Letter grade only (A-F).

540./440. Selected Topics - Latin American Literary Studies (3)

Prerequisite: One course in literature or consent of instructor.

Comparative study of major literary genres in Latin American literature in relation to the principal periods and movements of the Western literary tradition.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

545./445. Selected Topics - American Folklore Studies (3)

Prerequisite: One course in literature or consent of instructor.

Topics are chosen to provide a bridge between literary, aesthetic and specialized folkloristic studies of American culture. Special attention will be paid to European and Third World contributions to American folklore.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

548./448. Selected Topics - Comparative Studies (3)

Prerequisite: One course in literature or consent of instructor.

Interrelationship of two or more disciplines, with emphasis on reciprocal influences and borrowing of materials during various literary periods. The class will feature a different interdisciplinary study each semester.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

549./449. Selected Topics - Major Continental Writers (3)

Prerequisite: One course in literature or consent of instructor.

Intensive and comparative study of one to three major continental authors.

Letter grade only (A-F). May be repeated to maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

A. Nobel Prize Laureates

Prerequisite: Consent of instructor.

550. Selected Topics - Comparative World Literature (3)

Prerequisite: CWL 501 or consent of instructor.

Special studies of movements, figures and relationships in world literature, or between world literature and other disciplines.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

552./452. Selected Topics - Mythology (3)

Prerequisites: One course in literature or consent of instructor.

Interrelation of two or more mythologies, mythological themes or theories of mythology. This class will feature a different area of an interdisciplinary or comparative nature in the study of mythology each semester.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

553./453. Fairy Tales (3)

Prerequisite: One course in literature or consent of instructor.

Study of fairy tale as a unique literary genre and art form. Class will apply contemporary theory to tales and identify psychological, religious, cultural, and alchemical patterns and symbols that manifest the realization of identity and illustrate creative processes.

Letter grade only (A-F).

561./461. Selected Topics - Contemporary Literary Criticism (3)

Prerequisite: Two upper-division literature courses or consent of instructor.

In-depth study of a particular critic or movement in contemporary literary theory.

May be repeated to a maximum of 9 units with different topics. Topics announced in the *Schedule of Classes*.

COMPUTER ENGINEERING AND COMPUTER SCIENCE

College of Engineering

Department Chair: Burkhard Englert

Department Office: Engineering & Computer Sciences (ECS) 552
Telephone: (562) 985-4285
Website: <http://www.csulb.edu/colleges/coe/cecs>

Faculty: Mehrdad Aliasgari, Shadnaz Asgari, Anastasios Chassiakos, Michael Chelian, Todd Ebert, Burkhard Englert, Bo Fu, Darin Goldstein, Min He, Michael Hoffman, Ken James, Tom Johnson, Shui Lam, Tracy Bradley Maples, Alvaro Monge, Frank Murgolo, Thinh Nguyen (Emeritus) , Birgit Penzenstadler, Oscar Morales Ponce, Xiaolong Wu

Undergraduate Advisors: Michael Chelian, Alvaro Monge

Graduate Advisor: Tom Johnson

General Education Advising: Academic Advising - Horn Center

Minor and Certificate Advisor: Michael Chelian, Alvaro Monge

Administrative Support Coordinator: Robin Ikemi

Administrative Support Assistant: Karyl Anthony

Students desiring detailed information should contact the department for referral to one of the faculty advisors.

Career Possibilities

Computer Engineer • Software Engineer • Systems Analyst • Hand-held Appliance Programmer • Web Application Developer • Mainframe Programmer • Applications Programmer • LAN/WAN Administrator • Systems Administrator • Computer Service Representative • Database Administrator • Technical Services Manager • Telecommunications Analyst (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

ABET Accreditation

The Bachelor of Science in Computer Engineering is accredited by the Engineering Accreditation Commission and the the Bachelor of Science in Computer Science is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

Advisory Board

The Department of Computer Engineering and Computer Science is supported by an Advisory Board composed of engineers, computer scientists, and business executives in the Southern California area. This liaison helps the department keep its curricula responsive to the needs of the community.

Undergraduate Degree Programs

The degree in Computer Engineering focuses on computer hardware (design, construction, and operation of computer systems). The Computer Science degree places more emphasis on computer software (databases and user development). The high school student planning to enter either program is advised to pursue a strong program in science and mathematics.

Students will receive a comprehensive education

in computer engineering and/or computer science, as well as the sciences and humanities, and will be able to communicate effectively. They will be able to design systems, components or processes that meet performance, cost, time, safety, and quality requirements. They will understand professional responsibilities and will be able to analyze the social and ethical implications of their work.

Undergraduate Programs

Bachelor of Science in Computer Engineering (120 units)

This program provides students with a strong background in mathematics, physics, and engineering science. Courses, especially those in the junior and senior years, emphasize an open-ended, design-oriented approach to solving engineering problems. Teamwork, communication skills, and an interdisciplinary approach to problem solving are integrated into the senior computer engineering design courses.

Program Educational Objectives

After graduation and engaging in the profession of Computer Engineering for a few years, our graduates will have:

- become a part of California's high technology workforce, and made significant contributions to Computer Engineering through the research, design and development of a wide range of embedded systems and system-on-chip applications.
- helped further the state's economic growth by developing innovative ideas, and translating them into commercial products that benefit society.
- functioned effectively as team members and/or leaders in multidisciplinary and multicultural environments.
- recognized the societal and global context of their work and understood professional and ethical responsibilities.
- continued the pursuit of lifelong learning through such activities as graduate school, distance education, professional training and membership in professional societies and been able to adapt to new engineering tools.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Computer Engineering). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Computer Engineering must also

meet similar major specific requirements. To become fully admitted into the Computer Engineering major, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses with a minimum grade of "C" prior to earning 60 units:

Core Lower-Division Major Requirements:

MATH 122 (Calculus I), MATH 123 (Calculus II), PHYS 151 (Mechanics & Heat)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade of "C" or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

Lower Division:

Take all of the following courses:

CECS 100 Critical Thinking in the Digital Information Age (3)

Prerequisite/Corequisite: ENGL 100 or its equivalent all with a grade of "C" or better.

CECS 105 Introduction to Computer Engineering and Computer Science (1)

Prerequisites: None.

CECS 174 Introduction to Programming and Problem Solving (3)

Prerequisite: CECS 100 and MATH 113 (or equivalent) all with a grade of "C" or better.

CECS 201 Computer Logic Design I (3)

Prerequisite: MATH 113 or equivalent all with a grade of "C" or better.

CECS 211 Principles of Computer Engineering I (3)

Prerequisite: MATH 122 with a grade of "C" or better.

CECS 228 Discrete Structures With Computing Applications I (3)

Prerequisites: CECS 174 and MATH 113 or equivalent all with a grade of "C" or better.

CECS 229 Discrete Structures With Computing Applications II (3)

Prerequisites: MATH 123 and CECS 228 both with a grade of "C" or better.

CECS 262 Introduction to Embedded System Programming (3)

Prerequisites: CECS 174 and CECS 201 all with a grade of "C" or better.

CECS 271 Introduction to Numerical Methods (3)

Prerequisites: CECS 174 and MATH 123 all with a grade of "C" or better.

CECS 274 Object Oriented Programming and Data Structures (3)

Prerequisite: CECS 174 with a grade of "C" or better.

CECS 282 C++ for Java Programmers (3)

Prerequisite: CECS 274 with a grade of "C" or better.

ENGR 101 Intro to the Engineering Profession (1)

Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skill (1)

Prerequisite: ENGR 101 with a grade of "C" or better.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

Take one of the following choices:

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

or both of the following:

EE 210 Electro-Magnetic Foundations in EE (3)

Prerequisite: PHYS 151 with a grade of "C" or better. Corequisites: MATH 123, EE 210L.

EE 210L Electro-Magnetic Foundations in EE Lab (1)

Corequisite: EE 210.

A Science Elective – Take four units of approved elective to be selected from:

BIOL 200, PHYS 254 and PHYS 255, CHEM 111A

Upper Division:

Take all of the following courses:

CECS 301 Computer Logic Design II (3)

Prerequisites: CECS 174, CECS 201 all with a grade of "C" or better.

CECS 311 Principles of Computer Engineering II (3)

Prerequisites: CECS 201 and CECS 211 all with a grade of "C" or better.

CECS 326 Operating Systems (3)

Prerequisites: CECS 282 and either CECS 285 or CECS 346 all with a grade of "C" or better.

CECS 346 Microprocessors and Controllers I (3)

Prerequisites: CECS 211 and CECS 262 all with a grade of "C" or better.

CECS 347 Microprocessors and Controllers II (3)

Prerequisites: CECS 301, CECS 311, and CECS 346 all with a grade of "C" or better.

CECS 360 Integrated Circuit Design Software (3)

Prerequisites: CECS 301, CECS 346, MATH 123 or MATH 222 all with a grade of "C" or better.

CECS 440 Computer Architecture (3)

Prerequisites: CECS 346 with a grade of "C" or better.

CECS 447 Microprocessors and Controllers III (3)

Prerequisite: CECS 347 with a grade of "C" or better.

CECS 460 System on Chip Design (3)

Prerequisite: CECS 360 with a grade of "C" or better.

CECS 463 System on Chip Applications (3)

Prerequisite: CECS 360 with a grade of "C" or better.

CECS 490A Computer Engineering Senior Project I (3)

Prerequisites: CECS 347 with a grade of "C" or better, senior standing.

CECS 490B Computer Engineering Senior Project II (3)

Prerequisites: CECS 490A with a grade of "C" or better and consent of instructor.

EE 380 Probability, Statistics and Stochastic Modeling (3)

Prerequisites: MATH 123; (EE 202 or CECS 271 or CECS 274) all with a grade of "C" or better.

Take three units of approved elective to be selected from:

CECS 343, CECS 406, CECS 451, CECS 461, CECS

474, CECS 475, CECS 497; EE 386, EE 486; CE 406; ECON 300; CEM 310 (or ENGL 317); ENGR 350; MATH 370A.

A grade of "C" or better must be achieved in all required and elective courses. BIOL 200, CHEM 111A, CE 406; CEM 310; CECS 100, CECS 105, CECS 174, CECS 201, CECS 211, CECS 228, CECS 262, CECS 271, CECS 274, CECS 282, CECS 301, CECS 311, CECS 326, CECS 343, CECS 346, CECS 347, CECS 360, CECS 406, CECS 440, CECS 447, CECS 451, CECS 460, CECS 461, CECS 463, CECS 474, CECS 475, CECS 490A, CECS 490B, CECS 497; ECON 300; EE 210 and EE 210L, EE 380, EE 386, EE 486; ENGL 317; ENGR 101, ENGR 102, ENGR 350; MATH 122, MATH 123, MATH 224, MATH 247, MATH 370A; PHYS 151, PHYS 152, PHYS 254, PHYS 255.

Bachelor of Science in Computer Science (120 units)

This degree is designed to prepare graduates for a variety of professional careers in the computer field. The curriculum is designed to provide a balance between the theoretical and practical aspects of computer science. Extensive laboratory time is required for these courses, and design and analysis experiences are emphasized.

Program Educational Objectives

Our students following graduation will be able

- to enter California's high technology workforce, and make significant contributions through the research, design and development of software and networked computer systems.
- to help further the state's economic growth by developing innovative ideas, and translating them into commercial products that benefit society.
- to function effectively as a team member and/or leader in multidisciplinary and multicultural environments.
- to recognize the societal and global context of their work and to understand professional and ethical responsibilities.
- to pursue lifelong learning through such activities as graduate school, distance education, professional training and membership in professional societies and to be able to adapt to new engineering tools.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Computer Science). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Computer Science must also meet similar major specific requirements. Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade of "C" or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

Lower Division:

Take all of the following courses:

CECS 100 Critical Thinking in the Digital Information Age (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1).

CECS 105 Introduction to Computer Engineering and Computer Science (1)

Prerequisites: None.

CECS 174 Introduction to Programming and Problem Solving (3)

Prerequisite: CECS 100 and MATH 113 (or equivalent) all with a grade of "C" or better.

CECS 201 Computer Logic Design I (3)

Prerequisite: MATH 113 or equivalent all with a grade of "C" or better.

CECS 228 Discrete Structures With Computing Applications I (3)

Prerequisites: CECS 174 and MATH 113 or equivalent all with a grade of "C" or better.

CECS 229 Discrete Structures with Computing

Applications II (3)

Prerequisites: MATH 123 and CECS 228 both with a grade of "C" or better.

CECS 274 Object Oriented Programming and Data Structures (3)

Prerequisite: CECS 174 with a grade of "C" or better.

CECS 277 Object Oriented Application Development (3)

Prerequisite: CECS 274 with a grade of "C" or better.

CECS 282 C++ for Java Programmers (3)

Prerequisite: CECS 274 with a grade of "C" or better.

CECS 285 Computer Organization and Assembly Language Programming (3)

Prerequisites: CECS 201, CECS 274 all with a grade of "C" or better.

ENGR 101 Intro to the Engineering Profession (1)

Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skills (1)

Prerequisite: ENGR 101 with a grade of "C" or better.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

Take a minimum of 12 units of approved science-electives to include a two-semester science sequence chosen from the following groups of courses:

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

or

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

EE 210 Electro-Magnetic Foundations in EE (3)

Prerequisite: PHYS 151 with a grade of "C" or better.
Corequisites: MATH 123, EE 210L.

EE 210L Electro-Magnetic Foundations in EE Lab (1)

Corequisite: EE 210.

or

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

CHEM 111B General Chemistry (5)

Prerequisites: CHEM 111A and MATH 113 or MATH 115 or MATH 117 or MATH 119A or MATH 122 all with a grade of "C" or better.

Remaining units to be chosen from the following:

BIOL 153, 200, 205, 207.

Upper Division:

Take all of the following courses:

CECS 323 Database Fundamentals (3)

Prerequisites: CECS 228 and (CECS 277 or CECS 282) all with a grade of "C" or better.

CECS 326 Operating Systems (3)

Prerequisites: CECS 282 and either CECS 285 or CECS 346 all with a grade of "C" or better.

CECS 327 Introduction to Networks and Distributed Computing (3)

Prerequisite: CECS 326 with a grade of "C" or better.

CECS 328 Data Structures and Algorithms (3)

Prerequisite: CECS 228 with a grade of "C" or better;
Corequisite: CECS 277.

CECS 341 Computer Architecture and Organization (3)

Prerequisites: CECS 285 with a grade of "C" or better.

CECS 343 Introduction to Software Engineering (3)

Prerequisites: CECS 277 or CECS 282 all with a grade of "C" or better.

EE 380 Probability, Statistics and Stochastic Modeling (3)

Prerequisites: MATH 123; (EE 202 or CECS 271 or CECS 274) all with a grade of "C" or better.

ENGR 350 Computers, Ethics and Society (3)

Prerequisites: 3 units from GE Category A.1 (Writing) and 3 units from GE Category D (Social and Behavioral Science).

Take one course from the following:

CEM 310 Communications in Engineering Profession (3)

Prerequisites: ENGL 100, COMM 110 all with a grade of "C" or better and Senior standing.

ENGL 317 Technical Writing (3)

Prerequisites: GE Foundation requirements, upper-division standing, and a previous composition course, i.e., ENGL 100, ENGL 101, ENGL 102, ENGL 300, or equivalents.

Take three units of study in formal languages and computation to be chosen from the following courses:

CECS 424, CECS 444

Take 12 units of upper division courses chosen from:

Take three units of core electives chosen from the following: CECS 419, CECS 424, CECS 428, CECS 429, CECS 444, CECS 445, CECS 448, CECS 449, CECS 451, CECS 474, CECS 478, MATH 323

Take three units of applied electives to be chosen from the following: CECS 455, CECS 470, CECS 472, CECS 475, CECS 476

Take 6 units of a two-semester capstone senior project sequence chosen from the following groups of courses:

- CECS 491A and CECS 491B, or

- CECS 492A and CECS 492B, or

- CECS 493A and CECS 493B

A grade of "C" or better is required in the following courses:

BIOL 153, BIOL 200, BIOL 205, BIOL 207; CEM 310; CHEM 111A, CHEM 111B; CECS 100, CECS 105, CECS 174, CECS 201, CECS 228, CECS 274, CECS 277, CECS 282, CECS 285, CECS 323, CECS 326, CECS 327, CECS 328, CECS 341, CECS 343, CECS 491A, CECS 491B, CECS 492A, CECS 492B, CECS 493A, CECS 493B; EE 210 and EE 210L, EE 380; ENGL 317; ENGR 101, ENGR 102, ENGR 350; MATH 122, MATH 123, MATH 222, MATH 224, MATH 233, MATH 247, MATH 380; PHYS 151, PHYS 152.

Bachelor of Science in Engineering Technology

Technology and Engineering Education Option

For requirements, see the description in the Engineering Technology Programs section of this catalog.

Minor in Computer Science

Requirements

A minimum of 21 units.

Take all of the following:

CECS 174 Introduction to Programming and Problem Solving (3)

**C" or better required.

Prerequisite: CECS 100 and MATH 113 (or equivalent) all with a grade of "C" or better.

CECS 228 Discrete Structures with Computing Applications (3)

**C" or better required.

Prerequisites: CECS 174 and MATH 113 or equivalent all with a grade of "C" or better.

CECS 274 Object Oriented Programming and Data Structures (3)

**C" or better required.

Prerequisite: CECS 174 all with a grade of "C" or better.

CECS 323 Database Fundamentals (3)

Prerequisites: CECS 228 and (CECS 277 or CECS 282) all with a grade of "C" or better.

Take one of the following courses:

CECS 277 Object Oriented Application Development (3)

**C" or better required.

Prerequisite: CECS 274 with a grade of "C" or better.

CECS 282 C++ for Java Programmers

**"C" or better required.

Prerequisite: CECS 274 with a grade of "C" or better.

Take two courses selected from the following:

CECS 328, CECS 343, CECS 419, CECS 428, CECS 445, CECS 451, CECS 455, CECS 470, CECS 475, CECS 497

Minor in Web Technologies and Applications

Open to all majors except those seeking a B.S. Engineering Technology, Option in Technology and Engineering Education. The minor is conferred concurrently with the BS/BA degree.

This minor will provide the technical skills not included in non-technical degrees, but required for success in a highly technical world. Students will gain an understanding of the system design process and learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues encountered. In addition, students will learn to create a robust, useable, and accessible website.

Requirements

A minimum of 18 units as specified below.

Complete the 12 core units:

CECS 100 Critical Thinking in the Digital Information

Age (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1).

CECS 110 Beginning Web Design (3)

**"C" or better required.

Prerequisites: None.

CECS 200 Intermediate Web Design (3)

**"C" or better required.

Prerequisite: CECS 110 with a grade of "C" or better.
Prerequisite/Corequisite: CECS 100.

CECS 300 Design of Dynamic Web Sites (3)

Prerequisite: CECS 200 with a grade of "C" or better.

Complete 6 units from the following list of electives:

ART 366; CECS 323, CECS 410, CECS 412, CECS 470; ENGR 350; ETEC 435; IS 380, IS 445, IS 484; MKTG 437; PSY 327

Minor in Computer Science Applications

This minor is not open to students majoring in Computer Science or Computer Engineering.

This minor is designed to prepare students to write small programs and to maintain and upgrade PC software and hardware as well as understand how to set up a local area network. In addition it prepares students to be able to design and implement web applications.

Requirements

Completion of 18 units.

Complete the 12 core units:

CECS 110 Beginning Web Design (3)

**"C" or better required.

Prerequisites: None.

CECS 174 Intro to Programming & Problem

Solving (3)

Prerequisite: CECS 100 and MATH 113 (or equivalent) all with a grade of "C" or better.

CECS 200 Intermediate Web Design (3)

Prerequisite: CECS 110 with a grade of "C" or better.
Prerequisite/Corequisite: CECS 100.

CECS 410 Computers and Networks (3)

Prerequisite: Course design assumes familiarity with computers.

Complete 6 units from the following list of electives:

CECS 300, CECS 412; IS 300, IS 340, IS 343; ETEC 435.

Certificate in Web Technologies and Applications

Open to all majors except those with or seeking a B.S. Engineering Technology, Option in Technology and Engineering Education. The certificate is conferred as a post-baccalaureate certificate or concurrently with the BS/BA degree.

This certificate will prepare students to work with a variety of technologies including computers and related technologies and the proper setup and operation of equipment along with valuable troubleshooting skills. Students will gain an understanding of the system design process and learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues. They will learn to create a robust, useable, and accessible website.

Please be aware that this program is not eligible for Financial Aid unless pursued concurrently with a degree program.

Requirements

A minimum of 24 units as specified below

Complete the 18 core units:

CECS 100 Critical Thinking in the Digital Information

Age (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1)

CECS 110 Beginning Web Design (3)

**"C" or better required.

Prerequisites: None.

CECS 200 Intermediate Web Design (3)

**"C" or better required.

Prerequisite: CECS 110 with a grade of "C" or better.
Prerequisite/Corequisite: CECS 100.

CECS 300 Design of Dynamic Web Sites (3)

Prerequisite: CECS 200 with a grade of "C" or better.

CECS 410 Computers and Networks (3)

Prerequisite: Course design assumes familiarity with computers.

CECS 412 Intro to Computer Network Architectures (3)

Prerequisite: Familiarity with computers.

Complete 6 units from the following list of electives:

ART 366; CECS 323, CECS 470; ENGR 350; ETEC 435; IS 380, IS 445, IS 484; MKTG 437; PSY 327

Graduate Programs

Mission

The mission of the graduate program in Computer engineering and Computer Science at CSULB is to provide a high-quality educational experience and the technical specialization required to become successful leaders in industry. The program also prepares the students to pursue advanced degrees if they so desire. The graduate program involves advanced courses in analysis and design in computer software and hardware. The students may choose to do a thesis or take a comprehensive examination as the culmination of their program.

Program Objectives

Graduates of the MS program will:

1. have technical competency in their field of study.
2. have technical knowledge and skills needed to conduct independent and/or innovative research.
3. keep current with state of the art technologies and advancements in their area.

Master of Science in Computer Science

Admission Procedures

To be considered for admission the graduate applicant must have earned a bachelor's degree in computer engineering, computer science or sufficient background in computer engineering or computer science from a college or university with a minimum grade point average (GPA) of 2.7 in the last 60 semester or 90 quarter upper division major units attempted. The general Graduate Record Examination (GRE) is strongly recommended.

Option in Computer Engineering

This option offers advanced study in the theory, analysis, design and applications of both computer hardware and software.

Prerequisites

1. A bachelor's degree in computer engineering, computer science or sufficient background in computer engineering from a college or university with a minimum grade point average (GPA) of 2.7 in the last 60 semester units or 90 quarter upper division major units attempted.
2. The general Graduate Record Examination (GRE) is strongly recommended.

Requirements

Students must complete a minimum of 30 graduate and approved upper-division course units including the following:

1. At least 21 units at the graduate level of instruction;
2. 12 units of required courses consisting of:
 - A. CECS 460 System on Chip Design (3)
Prerequisite: CECS 360 with a grade of "C" or better..
 - B. CECS 530 Advanced Computer Architecture I (3)
**"C" or better required.
Prerequisite: CECS 341 or CECS 440 with a grade of "C" or better.
 - C. One course from the following:
CECS 531 Advanced Computer Architecture II (3)
Prerequisite: CECS 530 with a grade of "C" or better.

CECS 546 Fault Tolerant Computing Systems (3)
Prerequisite: CECS 341 or CECS 440 with a grade of C or better.

D. One course from the following:

CECS 526 Advanced Operating Systems (3)
Prerequisites: CECS 228 and CECS 326 all with a grade of "C" or better.

CECS 528 Advanced Analysis of Algorithms (3)
Prerequisites: CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.

3. All students must complete one of the following:

A. Comprehensive examination

B. Project with oral presentation, which requires 3 units of CECS 697, an oral defense, and submission of a formal written report of the project to be approved by a committee of 3 faculty members that includes the supervising faculty of the project.

To be eligible for the option a student must:

- a) have advanced to candidacy,
- b) have maintained a GPA of 3.3 or above in the MSCS coursework,
- c) have been nominated by a faculty member to undertake a project under that faculty member's supervision, and
- d) have had a project proposal approved by the CECS Graduate Curriculum Committee.

C. Thesis with oral defense, which requires a total of 6 units. At least 3 of the units must be taken from CECS 698 and the remaining units may be taken from either CECS 697 or CECS 698. To be eligible for the option a student must:

- a) have advanced to candidacy,
- b) have maintained a GPA of 3.3 or above in the MSCS coursework,
- c) have been nominated by a faculty member to undertake a thesis under that faculty member's supervision, and
- d) have had a thesis proposal approved by the CECS Graduate Curriculum Committee.

Option in Computer Science

This option offers advanced study in software development and engineering, networking, operating systems, distributed computing, artificial intelligence, security, and analysis of algorithms.

Prerequisites

1. A bachelor's degree in computer science, computer engineering or sufficient background in computer science from a college or university with a minimum grade point average (GPA) of 2.7 in the last 60 semester or 90 quarter upper division major units attempted.
2. The general Graduate Record Examination (GRE) is strongly recommended.

Requirements

Students must complete a minimum of 30 graduate and approved upper-division course units including the following:

1. At least 21 units at the graduate level of instruction;
2. 12 units of required courses consisting of:
 - A. CECS 528 Advanced Analysis of Algorithms (3)
Prerequisites: CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.
 - B. One course from the following:
CECS 526 Advanced Operating Systems (3)
Prerequisites: CECS 228 and CECS 326 with a grade of "C" or better.
CECS 530 Advanced Computer Architecture I (3)

Prerequisite: CECS 341 or CECS 440 with a grade of "C" or better.

- C. Two courses from the following:
CECS 521, CECS 531, CECS 543, CECS 546, CECS 572, CECS 575
3. All students must complete one of the following:
- A. Comprehensive examination
 - B. Project with oral presentation, which requires 3 units of CECS 697, an oral defense, and submission of a formal written report of the project to be approved by a committee of 3 faculty members that includes the supervising faculty of the project. To be eligible for the option a student must:
 - a) have advanced to candidacy,
 - b) have maintained a GPA of 3.3 or above in the MSCS coursework,
 - c) have been nominated by a faculty member to undertake a project under that faculty member's supervision, and
 - d) have had a project proposal approved by the CECS Graduate Curriculum Committee.
 - C. Thesis with oral defense which requires a total of 6 units. At least 3 of the units must be taken from CECS 698 and the remaining units may be taken from either CECS 697 or CECS 698. To be eligible for the option a student must:
 - a) have advanced to candidacy,
 - b) have maintained a GPA of 3.3 or above in the MSCS coursework,
 - c) have been nominated by a faculty member to undertake a thesis under that faculty member's supervision, and
 - d) have had a thesis proposal approved by the CECS Graduate Curriculum Committee.

Advancement to Candidacy for Both Options

Students applying for advancement to candidacy must:

1. have completed all undergraduate deficiencies with grades of "C" or better;
2. have attained an overall grade point average (GPA) of 3.0;
3. have completed at least 12 units of required courses applicable to the degree with a GPA of at least 3.0 for the completed units;
4. have fulfilled the Graduation Writing Assessment Requirement (GWAR);
5. and have their plans of studies approved by the CECS department graduate advisor.

Computer Engineering and Computer Science Courses (CECS)

LOWER DIVISION

100. Critical Thinking in the Digital Information Age (3)

Prerequisite/Corequisite: ENGL 100 or GE Composition (Area A1).

Help students develop critical thinking skills using technical software. Main topics include: identifying engineering issues for investigation, developing planning and problem solving strategies, locating pertinent information and examples,

critically analyzing these sources, forming and testing hypotheses, synthesizing and organizing results for effective communication, and developing transferable problem solving skills.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

105. Introduction to Computer Engineering and Computer Science (1)

Introduction to the fields of computer engineering and computer science. Current and future trends and challenges in various fields of computing. Social, ethical and economical issues related to computing technology. Exploration of career and professional development opportunities.

(Lecture 1 hour) Letter grade only (A-F).

110. Beginning Web Design (3)

Introduction to HTML and CSS using modern tools, following the W3C guidelines for coding. Web sites designed with usability and accessibility principles implemented. Overview of graphics, video, sound, JavaScript and Dreamweaver.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

174. Introduction to Programming and Problem Solving (3)

Prerequisite: CECS 100 and MATH 113 (or equivalent) all with a grade of "C" or better.

Introduction to basic concepts of computer science and fundamental techniques for solving problems using the Java programming language. Structured problem solving, object-oriented programming, programming style. Applications to numerical and non-numerical problems.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

200. Intermediate Web Design (3)

Prerequisite: CECS 110 with a grade of "C" or better.

Prerequisite/Corequisite: CECS 100.

Intermediate HTML and CSS using Dreamweaver, following the W3C guidelines for coding. Web sites designed with usability and accessibility principles implemented.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

201. Computer Logic Design I (3)

Prerequisite: MATH 113 or equivalent all with a grade of "C" or better.

Basic topics in combinational and sequential switching circuits with applications to the design of digital devices. Introduction to Electronic Design Automation (EDA) tools. Laboratory projects with Field Programmable Gate Arrays (FPGA).

(Lecture 2 hours, lab 3 hours) Letter grade only (A-F).

202. The Digital Information Age (3)

Prerequisite: GE Foundation requirements.

The introduction and use of common-place digital and electronic devices and how this technology affects our society. Topics include advances in 3D imaging, 3D printing, Processors, Memory, Security and Privacy.

(Lecture 3 hours) Letter grade only (A-F).

211. Principles of Computer Engineering I (3)

Prerequisite: MATH 122 with a grade of "C" or better.

Basic principles of analysis and design of computer-based circuits. Application of transistors, logic families, digital, devices in computer and embedded processor interfacing, importance of phasors and the complex plane. Basic DC/AC circuit fundamentals. Laboratory safety.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

228. Discrete Structures with Computing Applications (3)

Prerequisites: CECS 174 and MATH 113 or equivalent all with a grade of "C" or better.

An introduction to discrete mathematics with applications towards computing. Topics include sets, functions, logic, relations, graphs, trees, recursion, combinatorics, and mathematical reasoning.

Letter grade only (A-F). (Lecture 2 hours, laboratory/problem session 3 hours)

229. Discrete Structures with Computing Applications II (3)

Prerequisites: MATH 123 and CECS 228 both with a Grade of "C" or better

This is the second course in a two-course sequence in computing applications of discrete structures. Topics include applications of computer arithmetic and matrices in computer systems. Programming assignments in Python will be provided.

Letter grade only (A-F). (Lecture 2 hours, Laboratory 3 hours)

262. Introduction to Embedded System Programming (3)

Prerequisites: CECS 174 and CECS 201 all with a grade of "C" or better.

Introduction to embedded system architecture, memory organization and programming using C. Interfacing with external I/O devices, Use of internal special function registers. Development tools and extended C instructions unique to embedded systems. Course will be taught using an embedded processor development board.

(Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

271. Introduction to Numerical Methods (3)

Prerequisites: CECS 174 and MATH 123 all with a grade of "C" or better.

Matrix computations. Linear algebra fundamentals. Numerical methods for algebraic equations. Systems of linear equations. Curve fitting. Least squares. Interpolation. Fourier transform. Frequency domain concepts. Numerical integration and differentiation. Ordinary differential equations. Use of MATLAB or equivalent for algorithm implementation.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

274. Object Oriented Programming and Data Structures (3)

Prerequisite: CECS 174 with a grade of "C" or better.

Disciplined methods of design, coding and testing using the Java programming language. Data abstraction, object-oriented design. Introduction to data structures (linked lists, stacks, queues and trees.) Recursion. Sorting and searching.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

277. Object Oriented Application Development (3)

Prerequisite: CECS 274 with a grade of "C" or better.

Advanced introduction to the fundamentals of computer science and software engineering methodology. Advanced programming techniques and design methodology typically used in large programming projects using the Java programming language.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

282. C++ for Java Programmers (3)

Prerequisite: CECS 274 with a grade of "C" or better.

Structured and Object Oriented Programming in C++. Common features and differences between Java and C++. Pointers, references, and memory management, stream I/O, classes, operator overloading, exception handling, STL.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

285. Computer Organization and Assembly Language Programming (3)

Prerequisites: CECS 201, CECS 274 all with a grade of "C" or better.

Study of computer organization and assembly language programming using embedded processor based systems to solve practical problems. Laboratory projects using embedded system software development and hardware simulation tools. Hands-on projects using hardware prototyping boards.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

UPPER DIVISION

300. Design of Dynamic Web Sites (3)

Prerequisite: CECS 200 with a grade of "C" or better.

Dynamic Web design using modern tools. Creation of domains, using hosting services and content management systems. Website portability, usability and accessibility.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

301. Computer Logic Design II (3)

Prerequisites: CECS 174, CECS 201 all with a grade of "C" or better.

Sequential logic emphasizing Finite State Machine design & analysis, timing analysis of sequential logic, Introduction to Data Path, Control and Memory. Use of Electronic Design Automation (EDA) tools for design, simulation, verification. Laboratory projects with Field Programmable Gate Arrays (FPGA's).

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

311. Principles of Computer Engineering II (3)

Prerequisites: CECS 201 and CECS 211 all with a grade of "C" or better.

Embedded system components. Bipolar and MOS devices and switching circuits. Embedded systems signal processing with operational amplifiers. Digital/analog interfacing including A/D and D/A converters. Schematic capture, analysis and implementation of embedded signal processing algorithms. Fundamentals of digital communication.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

323. Database Fundamentals (3)

Prerequisites: CECS 228 and (CECS 277 or CECS 282) all with a grade of C or better.

Fundamental topics on database management. Topics include entity-relationship models, database design, data definition language, the relational model, data manipulation language, database application programming and normalization.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

326. Operating Systems (3)

Prerequisites: CECS 282 and either CECS 285 or CECS 346 all with a grade of "C" or better.

The structure and functions of operating systems. Interrupt handling, processes and interprocess communication, memory management, resource scheduling, information sharing and protection. Project implementation in C/C++.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

327. Introduction to Networks and Distributed Computing (3)

Prerequisite: CECS 326 with a grade of "C" or better.

Introduction to Distributed Computing and Inter-process Communication. Networking Protocols, Client Server Paradigm, Peer-to-Peer Networking, Sockets and Sockets API, Distributed Objects, Cloud Computing.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

328. Data Structures and Algorithms (3)

Prerequisite: CECS 228 with a grade of "C" or better.

Corequisite: CECS 277.

A broad view of data structures and the structure-preserving operations on them. Abstract data types, algorithms, complexity. Programming projects to exemplify these concepts.

341. Computer Architecture and Organization (3)

Prerequisites: CECS 285 with a grade of "C" or better.

Review of logic design. Instruction set architecture. Arithmetic logic units. Data path and control. Pipelining and performance. Memory system organization and design. Virtual memory and paging. I/O interfacing. Vector and array processing. Distributed computing and supercomputing. Contemporary computer designs.

(Lecture 2 hours, laboratory, 3 hours) Letter grade only (A-F).

343. Introduction to Software Engineering (3)

Prerequisites: CECS 277 or CECS 282 all with a grade of "C" or better.

Principles of software engineering, UML, modeling large software systems, requirements elicitation, object oriented analysis and design using UML, introduction to design patterns, implementation of large systems, software testing, project management, the software lifecycle. Semester long programming project.

Letter grade only (A-F). (Lecture 2 hours, lab 3 hours)

346. Microprocessors and Controllers I (3)

Prerequisites: CECS 211 and CECS 262 all with a grade of "C" or better.

Intro microprocessor/controller, embedded programming and design. Basic computer organization, representation of information and instruction, addressing techniques, input/output, assembly language programming. Introduction to assemblers, linkage editors and loaders. Study of the 8051. Design of microprocessor-based systems.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

347. Microprocessors and Controllers II (3)

Prerequisites: CECS 301, CECS 311, and CECS 346 all with a grade of "C" or better.

Study of embedded processor applications and interfacing. Embedded systems design, control of external devices, embedded programming in C and assembly. A/D and D/A converters, digital signal processing, motor and LCD controllers. Laboratory implementation of embedded designs and hardware-assisted debugging.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

360. Integrated Circuit Design Software (3)

Prerequisites: CECS 301, CECS 346, MATH 123 or MATH 222 all with a grade of "C" or better.

Introduction to Computer Aided Design tools used in the design and fabrication of integrated circuits. Discussion of the IC fabrication process, the layout and routing of basic gates, transistor level design of gates, synthesis and RTL level design, floor planning, and IC development costs.

(Lecture 2 hours, lab 3 hours) Letter grade only (A-F).

406. Selected Topics in Computer Science (3)

Prerequisite: Senior standing in the computer science major.

Each offering is based upon an area of computer science and technology in which recent advances have been made.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. Topics announced in the *Schedule of Classes*. (Lecture 2 hours, laboratory 3 hours)

410. Computers and Networks (3)

Prerequisite: Course design assumes familiarity with computers.

Gain practical, hands-on experience in installing hardware and software on a PC. Learn what a computer network is and how it is similar to the telephone network. Learn the parts that make up a computer and a network.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

412. Introduction to Computer Network Architectures (3)

Prerequisite: Familiarity with computers

Beginning course in computer networking designed to provide a grasp of network architectures through lecture/hands-on laboratory assignments. Overview of networking concepts and design essentials. Networking media and NICs. Network communications/protocols focusing on TCP/IP. Local area networks. Networking administration. Networking problems.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

419./519. Theory of Computation (3)

Prerequisite: CECS 328 with a grade of "C" or better.

Finite Automata and regular expressions. Pushdown automata and context-free languages. Turing machines and computability.

Computational complexity.

Letter grade only (A-F). Additional projects required for CECS 519. (Lecture-problems 3 hours)

424. Organization of Programming Languages (3)

Prerequisites: CECS 326 and CECS 328 all with a grade of "C" or better.

Understanding the variety of programming languages and the design trade-offs between current programming language paradigms. Comparison of programming languages in their design, implementation, and run-time supports. Includes programming projects.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

428. Analysis of Algorithms (3)

Prerequisite: CECS 328 with a grade of "C" or better.

Applications of standard combinatorial techniques to applied programming problems. Rigorous analysis of correctness/complexity of algorithms. Advanced graph algorithms are emphasized. Topics include shortest paths on graphs, sorting, string matching, union find problem, divide-and-conquer technique, and weighted-edge problem.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

429./529. Search Engine Technology (3)

Prerequisites: CECS 323 and CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.

Models, algorithms, and evaluation of the retrieval of information from a collection of documents. Document preprocessing. Indexing and searching. Retrieval evaluation. Search engines.

Additional projects required for CECS 529. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

440. Computer Architecture (3)

Prerequisites: CECS 346 with a grade of "C" or better.

Review of logic design. Register transfer and micro-operations. Basic computer organization. Central processor organization. Microprogram control organization. Arithmetic processor design. Arithmetic algorithms. Input-output organization. Memory organization.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

444. Compiler Construction (3)

Prerequisites: CECS 285 and CECS 328 all with a grade of "C" or better.

Syntax directed compiler study. Organization of a compiler and overall design: parsing, semantic analysis, optimization and code generation.

(Lecture 3 hours, laboratory 3 hours) Letter grade only (A-F).

445. Software Design and Architecture (3)

Prerequisites: CECS 343 with a grade of "C" or better and senior standing .

In-depth look at software design, design patterns, frameworks, architectures and middleware architectures. Component based design including COM, Corba, and .Net. Fundamentals of software metrics, measuring software qualities. Basics of software evolution, reengineering, and reverse engineering. A semester long team project.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

447. Microprocessors and Controllers III (3)

Prerequisite: CECS 347 with a grade of "C" or better.

Embedded system applications and techniques. Real-time multi-tasking systems, schedulers, kernels, and operating systems for embedded processors. Advanced I/O technologies - CAN, I2C, Ethernet. Embedded Internet applications. Polling vs. interrupt handling. Lab implementation of embedded designs and hardware-assisted debugging.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

448. User Interface Design (3)

Prerequisite: CECS 343 with a grade of "C" or better or consent of instructor.

Evaluation, design and programming of user interface systems. Fundamentals of human cognition, system characteristics, and the interaction between humans and systems. Usability methods and user/task-centered design. Tools for designing and building user interfaces, with emphasis on rapid applications development.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

449. Computer Graphics (3)

Prerequisites: MATH 247, CECS 282 and CECS 328 all with a grade of "C" or better.

Introduction to the theory and practice of computer graphics, Graphics systems, 2-D and 3-D modeling, transformations, viewing transformations, projections, rendering techniques.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

451. Artificial Intelligence (3)

Prerequisites: CECS 277 and CECS 328 all with a grade of "C" or better.

Introduction to the history and implementation of artificial intelligence agents. Topics include search, constraint satisfaction, game-playing, logical agents, belief networks, optimal sequential decision systems. Project implementation.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

453. Mobile Application Development (3)

Prerequisite: CECS 328 with a grade of "C" or better or consent of the instructor.

Languages and application programming interfaces for mobile device platforms. Development of thick and thin client applications for mobile devices.

Letter grade only (A-F). (Lecture 2 hours, Laboratory 3 hours)

455. Introduction to Game Programming (3)

Prerequisite: CECS 328 with a grade of "C" or better or consent of instructor.

Introduction to game programming and graphics. "Slow" games. Real-time games with no adversary. Adversarial real-time games in 2-D.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

460. System on Chip Design (3)

Prerequisite: CECS 360 with a grade of "C" or better.

Complete System on Chip (SOC) design flow from design specification to working SOC. Creation of RTL level modules designed for reuse, integration of Intellectual Property (IP) for RTL and physical level IP, IC verification, creation of self-checking test benches for designs.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

461./561. Hardware/Software Co-design (3)

Prerequisite: CECS 341 or CECS 440 all with a grade of "C" or better.

Introduction to top-down methods for hardware/software system-on-chip co-design. Design flow – system specification, software implementation, hardware synthesis, system design, and verification. Process optimization with various design decisions emphasized. Projects/case studies using system-level design methods and tools.

Additional projects required for CECS 561. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

463. System on Chip (SOC) Applications (3)

Prerequisite: CECS 360 with a grade of "C" or better.

System on Chip (SOC) design applications. Study of a variety of signal processing SOC designs and ASIC algorithms. Class projects emphasizing hardware/software integration with use of FPGA/CPLD devices. Design reviews, specification, team design implementation with project planning and tracking for system level

design applications.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

470. Web Programming and Accessibility (3)

Prerequisites: CECS 323 and CECS 343 all with a grade of "C" or better.

Introduction to World-Wide Web development. Accessibility issues. Web architecture, standards, and programming, emphasizing XML technologies and cascading style sheets. Visual design principles and information architecture. Client-side and server-side programming and protocols. Development for adaptive technologies and mobile devices.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

472. Computer Network Programming (3)

Prerequisites: CECS 326 all with a grade of "C" or better.

Fundamentals of computer network programming. Client-server programming. Concepts of computer network programming including the RPC Procedure Call, CORBA, multicasts, and broadcasts.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

474. Computer Network Interoperability (3)

Prerequisite: CECS 326 with a grade of "C" or better.

Overview of computer network theory and practice from a systems perspective. Topics include network infrastructure, local area network (LAN) protocols, wide area network (WAN) protocols, switching technologies, Internet Protocol (IP), Transmission Control Protocol (TCP), network security, and network configuration, design, and performance.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

475. Application Programming Using .NET (3)

Prerequisite: CECS 343 with a grade of "C" or better.

Introduction to enterprise application development utilizing the .NET environment. Topics include object-oriented design, events, databases, multithreading, web server applications, web services and cloud computing. Individual projects as well as a team project required.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

476. System and Network Administration (3)

Prerequisites: CECS 326 with a grade of "C" or better.

Introduction to the management and administration of Unix systems and TCP/IP networks. Managing users, local and network file systems, electronic mail, print queues. Establishing and managing a network.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

478. Introduction to Computer Security (3)

Prerequisite: CECS 328 with a grade of "C" or better.

Controlling the risk of computer security. Security threats and vulnerabilities in the development and use of computer systems. Tools and controls that can reduce or block these threats. Law, privacy and ethics.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

490A. Computer Engineering Senior Project I (3)

Prerequisites: CECS 347 with a grade of "C" or better, senior standing.

The first in a two-course capstone senior project in computer engineering that fulfills GE integrative learning. Students work in teams to define a problem, complete a design and provide both a written report and a multimedia presentation at the end of the semester.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

490B. Computer Engineering Senior Project II (3)

Prerequisites: CECS 490A, with a grade of "C" or better and consent of instructor.

Second of a two-semester capstone senior project in computer engineering that fulfills GE integrative learning. Student teams will build, program and verify operation of project started in prior design course. Student teams must submit a written report, give an oral multimedia presentation and provide a working demonstration.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

491A. Software Engineering Project I (3)

Prerequisites: ENGR 350 and CECS 343 all with a grade "C" or better.

First course in a two-course capstone design sequence that fulfills integrative learning. Design of a commercial grade software application including requirements analysis, functional, architectural and detailed design, emphasizing written communication, teamwork and the Object-Oriented Methodology.

Letter grade only (A-F), (Lecture 2 hours, laboratory 3 hours)

491B. Software Engineering Project II (3)

Prerequisite: CECS 491A with a grade "C" or better.

Second course in a two-course capstone design sequence that fulfills integrative learning. Implementation, testing, packaging and deployment of the system designed in CECS 491A emphasizing written communication, teamwork and the Object-Oriented Methodology.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

492A. Distributed and Cloud Computing Project I (3)

Prerequisites: ENGR 350, CECS 327 and CECS 343 all with a grade "C" or better.

First course in a two-course capstone design sequence. Design of a distributed or cloud computing application. Design experience, including detailed requirement analysis, design decisions, teamwork, written reports and oral presentation.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

492B. Distributed and Cloud Computing Project II (3)

Prerequisite: CECS 492A with a grade "C" or better.

Second course in a two-course capstone design sequence. Implementation of a distributed or cloud computing application. Implementation experience, including detailed documentation, testing and evaluation of the implementation, teamwork, written reports and oral presentation.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

493A. Database Web Application Project I (3)

Prerequisites: CECS 323 and CECS 343 all with a grade "C" or better.

Corequisite: ENGR 350.

First of a two-course capstone senior project in computer science that fulfills GE integrative learning. Propose, design, and prototype a data-intensive web application. Object-oriented modeling, analysis and software engineering. Teamwork, written report and oral presentation required.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

493B. Database Web Application Project II (3)

Prerequisite: CECS 493A with a grade "C" or better.

Second of a two-course capstone senior project in computer science that fulfills GE integrative learning. Design, implement, test and deploy a data-intensive web application. Requires object oriented and test-driven development. Teamwork, written report and oral presentation required.

Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

495. Computational Physiology (3)

Prerequisite: EE 380 with a grade of "C" or better

This course will introduce students to cardiovascular (heart) and cerebrovascular (brain) systems and signals, and the computational methods to analyze related signals, and detect/predict a physiological event of interest.

Same course as: EE 495. Not open for credit to students with credit in EE 495.

Letter Grade only (A-F). (Lecture 2 hours, Laboratory 3 hours).

496. Computer Science Problem Solving (1)

Prerequisites: CECS 274 with a grade of "C" or better and consent of instructor.

Problem solving in Computer Science. Theory necessary to solve computer science problems and the solutions to the problems. Problems studied will involve applications of graph theory, data structures, recursion, and algorithms.

(Lecture 1 hour) May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

497. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Assigned study in topics in current computer literature or computer-related projects with a final report.

May be repeated to a maximum of 6 units with written consent of the Department Chair.

GRADUATE LEVEL

519./419. Theory of Computation (3)

Prerequisite: CECS 328 with a grade of "C" or better.

Finite Automata and regular expressions. Pushdown automata and context-free languages. Turing machines and computability. Computational complexity.

Additional projects required for CECS 519. (Lecture-problems 3 hours) Letter grade only (A-F).

521./621. Database Architecture (3)

Prerequisites: CECS 328 and CECS 323 or CECS 421 all with a grade of "C" or better.

Relational database design theory-a rigorous approach. Security, recovery, transaction management, distributed databases and query optimization.

Master's students register in CECS 521 or CECS 621; Ph.D. students register in CECS 621. Additional projects required for CECS 621. (Lecture-problems 3 hours) Letter grade only (A-F).

524./624. Advanced Topics in Programming Languages (3)

Prerequisite: CECS 424 with a grade of "C" or better.

Intensive study of languages of current interest which support object-oriented, client-server, and multimedia applications (e.g. JAVA).

Master's students register in CECS 524 or CECS 624; Ph.D. students register in CECS 624. Additional projects required for CECS 624. (Lecture-problems 3 hours) Letter grade only (A-F).

526./626. Advanced Operating Systems (3)

Prerequisites: CECS 228 and CECS 326 all with a grade of "C" or better.

Theoretical foundations of concepts applied in the design of operating systems. Control of concurrent processes, deadlocks, mutual exclusion, virtual memory, resource management and scheduling.

Master's students register in CECS 526 or CECS 626; Ph.D. students register in CECS 626. Additional projects required for CECS 626. (Lecture-problems 3 hours) Letter grade only (A-F).

528./628. Advanced Analysis of Algorithms (3)

Prerequisites: CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.

Theoretical analysis of algorithms. Divide and conquer, dynamic programming and greedy algorithms; basic search and traversal techniques including search trees; sorting; matrix manipulations; NP-completeness.

Master's students register in CECS 528 or CECS 628; Ph.D. students register in CECS 628. Additional projects required for CECS 628. (Lecture-problems 3 hours) Letter grade only (A-F).

529./429. Search Engine Technology (3)

Prerequisites: CECS 323 and CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.

Models, algorithms, and evaluation of the retrieval of information from a collection of documents. Document preprocessing. Indexing and searching. Retrieval evaluation. Search engines.

Additional projects required for CECS 529. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

530./630. Advanced Computer Architecture I (3)

Prerequisite: CECS 341 or CECS 440 all with a grade of "C" or better.

Fundamentals of computer architecture. Description of architecture and description languages. Basic computer design and central processor implementation. Memory hierarchy and input/output. Pipelining. Vector processor, multiprocessor systems and dataflow machines.

Master's students register in CECS 530 or CECS 630; Ph.D. students register in CECS 630. Additional projects required for CECS 630. (Lecture-problems 3 hours) Letter grade only (A-F).

531./631. Advanced Computer Architecture II (3)

Prerequisite: CECS 530 with a grade of "C" or better.

Advanced computer architecture with emphasis on parallel processing. Vector processors and multiprocessor systems. Dataflow computation. RISC/CISC. Hypercube. Parallel software. Applications in artificial intelligence, signal/image processing, neural network and optical computing.

Master's students register in CECS 531 or CECS 631; Ph.D. students register in CECS 631. Additional projects required for CECS 631. (Lecture-problems 3 hours) Letter grade only (A-F).

532. Memory Design and Implementation (3)

Prerequisite: CECS 341 or CECS 440 all with a grade of "C" or better.

Logic design and operation, physical design and operation, performance characteristics, design trade-offs, energy consumption of modern memory hierarchies, memory errors and error correction.

Letter grade only (A-F). (Lecture-problems 3 hours)

543./643. Advanced Software Engineering (3)

Prerequisite: CECS 343 all with a grade of "C" or better.

Study of software engineering as a broad, problem-solving discipline. Includes structured programming and software project management.

Master's students register in CECS 543 or CECS 643; Ph.D. students register in CECS 643. Additional projects required for CECS 643. (Lecture-problems 3 hours) Letter grade only (A-F).

544./644. Software Testing and Verification (3)

Prerequisite: CECS 543 with a grade of "C" or better.

Testing/verification techniques for software development including black box, white box, incremental, top-down and bottom-up, static and dynamic, performance, regression, thread, and stress testing. Object-oriented software testing with a hierarchical approach. Metrics for test, and verification will be introduced.

Master's students register in CECS 544 or CECS 644; Ph.D.

students register in CECS 644. Additional projects required for CECS 644. (Lecture-problems 3 hours) Letter grade only (A-F).

545./645. Software Architecture (3)

Prerequisite: CECS 543 with a grade of "C" or better.

Includes architectural styles, pipes and filters, data abstraction and object-oriented organization, event-based, implicit invocation, layered systems, repositories, interpreters, process control, distributed processes, domain-specific software & heterogeneous architectures. Component-based design patterns & case studies.

Master's students register in CECS 545 or CECS 645; Ph.D. students register in CECS 645. Additional projects required for CECS 645. (Lecture-problems 3 hours) Letter grade only (A-F).

546./646. Fault Tolerant Computing Systems (3)

Prerequisite: CECS 341 or CECS 440 with a grade of "C" or better.

Fault tolerant techniques are studied as tools to assure the reliability and continuous availability of computing systems. Case studies of modern fault tolerant systems reviewed. Software fault tolerant systems studied as alternatives to verification and validation approaches to software reliability.

Master's students register in CECS 546 or CECS 646; Ph.D. students register in CECS 646. Additional projects required for CECS 646. (Lecture-problems 3 hours) Letter grade only (A-F).

547./647. Software Maintenance, Reengineering and Reuse (3)

Prerequisite: CECS 343 or equivalent with a grade of "C" or better.

Introduction to software maintenance, defect management, corrective, adaptive and perfective maintenance. Evolution of legacy software systems. Program comprehension techniques, reverse engineering, restructuring, refactoring of software systems. Software re-engineering, data reverse engineering. Software reuse. Impact analysis, regression testing.

Master's students register in CECS 547 or CECS 647; Ph.D. students register in CECS 647. Additional projects required for CECS 647. (Lecture-problems 3 hours) Letter grade only (A-F).

549./649. Advanced Computer Graphics (3)

Prerequisite: CECS 449 with a grade of "C" or better.

Three-dimensional representations, transformations and viewing. Color models and modeling methods. Hidden-line and hidden-surface removal. Lighting and shading. Visual realism. Topics of current interest.

Master's students register in CECS 549 or CECS 649; Ph.D. students register in CECS 649. Additional projects required for CECS 649. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

550./650. Pattern Recognition Using Artificial Intelligence (3)

Prerequisite: CECS 451 with a grade of "C" or better or consent of instructor.

General concepts of pattern recognition and trainable classifiers, decision theory, supervised learning, non-parametric techniques, rule-based systems and neural networks.

Master's students register in CECS 550; Ph.D. students register in CECS 650. Additional projects required for CECS 650. (Lecture-problems 2 hours, laboratory 3 hours) Not open for credit to students with credit in CECS 750. Letter grade only (A-F).

551./651. Advanced Artificial Intelligence (3)

Prerequisite: CECS 451 with a grade of "C" or better.

Advanced concepts in artificial intelligence. Topics include knowledge acquisition and representation, fuzzy logic, logical reasoning, multi-sensor integration, Dempster-Shafer's theory of evidential reasoning, real-time expert systems and neural networks.

Master's students register in CECS 551 or CECS 651; Ph.D. students register in CECS 651. Additional projects required for CECS 651. (Lecture-problems 3 hours) Letter grade only (A-F).

552. Computer Simulation and Modeling (3)

Prerequisites: EE 380 (or MATH 380) and CECS 326 all with a grade of "C" or better.

Studies of general purpose and special simulation software. Model verification including graphical models Applications in various areas.

Master's students register in CECS 552 or CECS 652; Ph.D. students register in CECS 652. Additional projects required for CECS 652. (Lecture-problems 3 hours) Letter grade only (A-F).

553./653. Machine Vision (3)

Prerequisite: Graduate standing in engineering or computer science.

Discussion and laboratory implementation of current research in vision and image understanding. Topics include image formation, early processing, segmentation, relational structures in 2-D and 3-D, motion, stereo, 3-D reconstruction, morphological methods and computer architecture for machine vision.

Master's students register in CECS 553 or CECS 653; Ph.D. students register in CECS 653. Additional projects required for CECS 653. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

561./461. Hardware/Software Co-design (3)

Prerequisite: CECS 341 or CECS 440 all with a grade of "C" or better.

Introduction to top-down methods for hardware/software system-on-chip co-design. Design flow – system specification, software implementation, hardware synthesis, system design, and verification. Process optimization with various design decisions emphasized. Projects/case studies using system-level design methods and tools.

Additional projects required for CECS 561. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

570./670. Concurrent Parallel Programming (3)

Prerequisite: CECS 328, or CECS 341, or CECS 440 all with a grade of "C" or better.

Introduction to concurrent and parallel programming for multiprocessing and distributed systems. Computational models and paradigms. Parallel programming languages and programming tools. Portable parallel programming and mapping techniques. Heterogeneous concurrent programming. Concurrent programming on local networks on workstations and personal computers.

Master's students register in CECS 570 or CECS 670; Ph.D. students register in CECS 670. Additional projects required for CECS 670. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

572./672. Advanced Computer Networking (3)

Prerequisite: CECS 474 with a grade of "C" or better

Advanced concepts in computer network theory and practice. Computer network design and standards for local area networks (LANs) and wide area networks (WANs). Computer network configuration and performance issues.

Master's students register in CECS 572 or CECS 672; Ph.D. students register in CECS 672. Additional projects required for CECS 672. (Lecture-problems 3 hours) Letter grade only (A-F).

574./674. Topics in Distributed Computer Systems (3)

Prerequisite: CECS 526 or CECS 572 or CECS 626 or CECS 672 all with a grade of "C" or better.

Network operating systems vs distributed operating systems, research and design issues of distributed operating systems, resources and resource management in distributed systems, communication security and user authentication.

Master's students register in CECS 574; Ph.D. students register in CECS 674. Additional projects required for CECS 674. (Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CECS 673 or CECS 773.

575./675. Object-Oriented Analysis and Design (3)

Prerequisites: CECS 475 and CECS 343 or CECS 543 all with a grade of "C" or better.

An object-oriented approach to software development based on modeling objects from the real world. Object-oriented methodology from problem statement through analysis, system design, and object design. Implementation of object-oriented designs in various target environments. Case studies.

Master's students register in CECS 575 or CECS 675; Ph.D. students register in CECS 675. Additional projects required for CECS 675.

(Lecture-problems 3 hours) Letter grade only (A-F).

579. Information Security (3)

Prerequisite: CECS 328 with a grade of "C" or better.

Course Description: Symmetric cryptosystems, stream ciphers, pseudorandom functions, message authentication codes (MACs), collision resistant hash functions, number theory and cryptographic hardness assumptions, public-key encryption (El-Gamal and RSA), digital signature schemes

Letter grade only (A-F). (Lecture-problems 3 hours)

590./690. Selected Topics in Computer Science (3)

Prerequisites: Graduate standing and consent of instructor.

Each offering is based on an area in computer science and technology in which recent advances have been made.

Letter grade only (A-F). May be repeated to a maximum of 6 units with consent of department. Topics announced in the *Schedule of Classes*. Master's students register in CECS 590 or CECS 690; Ph.D. students register in CECS 690. Additional projects required for CECS 690. (Lecture-problems 3 hours)

621./521. Database Architecture (3)

Prerequisites: CECS 328 and CECS 323 (or CECS 421) all with a grade of "C" or better.

Relational database design theory-a rigorous approach. Security, recovery, transaction management, distributed databases and query optimization.

Master's students register in CECS 521 or CECS 621; Ph.D. students register in CECS 621. Additional projects required for CECS 621. (Lecture-problems 3 hours) Letter grade only (A-F).

624./524. Advanced Topics in Programming Languages (3)

Prerequisite: CECS 424 with a grade of "C" or better.

Intensive study of languages of current interest which support object-oriented, client-server, and multimedia applications (e.g. JAVA).

Master's students register in CECS 524 or CECS 624; Ph.D. students register in CECS 624. Additional projects required for CECS 624. (Lecture-problems 3 hours) Letter grade only (A-F).

626./526. Advanced Operating Systems (3)

Prerequisites: CECS 228 and CECS 326 all with a grade of "C" or better.

Theoretical foundations of concepts applied in the design of operating systems. Control of concurrent processes, deadlocks, mutual exclusion, virtual memory, resource management and scheduling.

Master's students register in CECS 526 or CECS 626; Ph.D. students register in CECS 626. Additional projects required for CECS 626. (Lecture-problems 3 hours) Letter grade only (A-F).

628./528. Advanced Analysis of Algorithms (3)

Prerequisites: CECS 328, MATH 380 or EE 380 all with a grade of "C" or better.

Theoretical analysis of algorithms. Divide and conquer, dynamic programming and greedy algorithms; basic search and traversal techniques including search trees; sorting; matrix manipulations; NP-completeness.

Master's students register in CECS 528 or CECS 628; Ph.D. students register in CECS 628. Additional projects required for CECS 628. (Lecture-problems 3 hours) Letter grade only (A-F).

630./530. Advanced Computer Architecture I (3)

Prerequisite: CECS 341 or CECS 440 all with a grade of "C" or better.

Fundamentals of computer architecture. Description of architecture and description languages. Basic computer design and central processor implementation. Memory hierarchy and input/output. Pipelining. Vector processor, multiprocessor systems and dataflow machines.

Master's students register in CECS 530 or CECS 630; Ph.D. students register in CECS 630. Additional projects required for CECS 630. (Lecture-problems 3 hours) Letter grade only (A-F).

631./531. Advanced Computer Architecture II (3)

Prerequisite: CECS 530 with a grade of "C" or better.

Advanced computer architecture with emphasis on parallel processing. Vector processors and multiprocessor systems. Dataflow computation. RISC/CISC. Hypercube. Parallel software. Applications in artificial intelligence, signal/image processing, neural network and optical computing.

Master's students register in CECS 531 or CECS 631; Ph.D. students register in CECS 631. Additional projects required for CECS 631. (Lecture-problems 3 hours) Letter grade only (A-F).

643./543. Advanced Software Engineering (3)

Prerequisite: CECS 343 all with a grade of "C" or better.

Study of software engineering as a broad, problem-solving discipline. Includes structured programming and software project management.

Master's students register in CECS 543 or CECS 643; Ph.D. students register in CECS 643. Additional projects required for CECS 643.

(Lecture-problems 3 hours) Letter grade only (A-F).

644./544. Software Testing and Verification (3)

Prerequisite: CECS 543 with a grade of "C" or better.

Various types of software testing and verification techniques for software development including black box, white box, incremental, top-down and bottom-up, static and dynamic, performance, regression, thread, and stress testing. Discussion of object-oriented software testing with a hierarchical approach. Metrics in complexity for testing, test, and verification plan will be introduced. Automatic software testing and some case studies.

Master's students register in CECS 544 or CECS 644; Ph.D. students register in CECS 644. Additional projects required for CECS 644. (Lecture-problems 3 hours) Letter grade only (A-F).

645./545. Software Architecture (3)

Prerequisite: CECS 543 with a grade of "C" or better.

Includes architectural styles, pipes and filters, data abstraction and object-oriented organization, event-based, implicit invocation, layered systems, repositories, interpreters, process control, distributed processes, domain-specific software & heterogeneous architectures. Component-based design patterns & case studies.

Master's students register in CECS 545 or CECS 645; Ph.D. students register in CECS 645. Additional projects required for CECS 645. (Lecture-problems 3 hours) Letter grade only (A-F).

646./546. Fault Tolerant Computing Systems (3)

Prerequisite: CECS 341 or CECS 440 with a grade of "C" or better.

Fault tolerant techniques are studied as tools to assure the reliability and continuous availability of computing systems. Case studies of modern fault tolerant systems reviewed. Software fault tolerant systems studied as alternatives to verification and validation approaches to software reliability.

Master's students register in CECS 546 or CECS 646; Ph.D. students register in CECS 646. Additional projects required for CECS 646. (Lecture-problems 3 hours) Letter grade only (A-F).

647./547. Software Maintenance, Reengineering and Reuse (3)

Prerequisites: CECS 343 or equivalent all with a grade of "C" or better.

Introduction to software maintenance, defect management, corrective, adaptive and perfective maintenance. Evolution of legacy software systems. Program comprehension techniques, reverse engineering, restructuring, refactoring of software systems. Software re-engineering, data reverse engineering.

Master's students register in CECS 547 or CECS 647; Ph.D. students register in CECS 647. Additional projects required for CECS 647. (Lecture-problems 3 hours) Letter grade only (A-F).

649./549. Advanced Computer Graphics (3)

Prerequisite: CECS 449 with a grade of "C" or better.

Three-dimensional representations, transformations and viewing. Color models and modeling methods. Hidden-line and hidden-surface removal. Lighting and shading. Visual realism. Topics of current interest.

Master's students register in CECS 549 or CECS 649; Ph.D. students register in CECS 649. Additional projects required for CECS 649. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

650./550. Pattern Recognition Using Artificial Intelligence (3)

Prerequisite: CECS 451 with a grade of "C" or better or consent of instructor.

General concepts of pattern recognition and trainable classifiers, decision theory, supervised learning, non-parametric techniques, rule-based systems and neural networks.

Master's students register in CECS 550; Ph.D. students register in CECS 650. Additional projects required for Ph.D. students. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

651./551. Advanced Artificial Intelligence (3)

Prerequisite: CECS 451 with a grade of "C" or better.

Advanced concepts in artificial intelligence. Topics include knowledge acquisition and representation, fuzzy logic, logical reasoning, multi-sensor integration, Dempster-Shafer's theory of evidential reasoning, real-time expert systems and neural networks.

Master's students register in CECS 551 or CECS 651; Ph.D. students register in CECS 651. Additional projects required for CECS 651. (Lecture-problems 3 hours) Letter grade only (A-F).

653./553. Machine Vision (3)

Prerequisite: Graduate standing in engineering or computer science.

Discussion and laboratory implementation of current research in vision and image understanding. Topics include image formation, early processing, segmentation, relational structures in 2-D and 3-D, motion, stereo, 3-D reconstruction, morphological methods and computer architecture for machine vision.

Master's students register in CECS 553 or CECS 653; Ph.D. students register in CECS 653. Additional projects required for CECS 653. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

670./570. Concurrent Parallel Programming (3)

Prerequisite: CECS 328, or CECS 341, or CECS 440 all with a grade of "C" or better.

Introduction to concurrent and parallel programming for multiprocessing and distributed systems. Computational models and paradigms. Parallel programming languages and programming tools. Portable parallel programming and mapping techniques. Heterogeneous concurrent programming. Concurrent programming on local networks on workstations and personal computers.

Master's students register in CECS 570 or CECS 670; Ph.D. students register in CECS 670. Additional projects required for CECS 670. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

672./572. Advanced Computer Networking (3)

Prerequisite: CECS 474 with a grade of "C" or better

Advanced concepts in computer network theory and practice. Computer network design and standards for local area networks (LANs) and wide area networks (WANs). Computer network configuration and performance issues.

Master's students register in CECS 572 or CECS 672; Ph.D. students register in CECS 672. Additional projects required for CECS 672.

(Lecture-problems 3 hours) Letter grade only (A-F).

674./574. Topics in Distributed Computer Systems (3)

Prerequisite: CECS 526 or CECS 572 or CECS 626 or CECS 672 all with a grade of "C" or better.

Network operating systems vs distributed operating systems, research and design issues of distributed operating systems, resources and resource management in distributed systems, communication security and user authentication.

Master's students register in CECS 574; Ph.D. students register in CECS 674. Additional projects required for CECS 674. (Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CECS 773.

675./575. Object-Oriented Analysis and Design (3)

Prerequisites: CECS 475 and CECS 343 or CECS 543 all with a grade of "C" or better.

An object-oriented approach to software development based on modeling objects from the real world. Object-oriented methodology from problem statement through analysis, system design, and object design. Implementation of object-oriented designs in various target environments. Case studies.

Master's students register in CECS 575 or CECS 675; Ph.D. students register in CECS 675. Additional projects required for CECS 675.

(Lecture-problems 3 hours) Letter grade only (A-F).

690./590. Selected Topics in Computer Science (3)

Prerequisites: Graduate standing and consent of instructor.

Each offering is based on an area in computer science and technology in which recent advances have been made.

Letter grade only (A-F). May be repeated to a maximum of 6 units with consent of department. Topics announced in the *Schedule of Classes*. Master's students register in CECS 590 or CECS 690; Ph.D. students register in CECS 690. Additional projects required for CECS 690. (Lecture-problems 3 hours)

694. Seminar in Computer Science (3)

Prerequisite: 6 units of 500- or 600-level CECS courses.

Intensive study of a broad selection of conceptual and theoretical problems in computer science. A written student research project and an oral presentation are required.

Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Classified Graduate standing.

Theoretical and experimental problems in computer science and engineering requiring extensive research. Advancement to candidacy and program GPA of at least 3.0 are required. Graduate advisor and project supervisor must be consulted prior to registration.

Independent Study. Letter grade only (A-F).

698. Thesis or Industrial Project (3-6)

Prerequisite: Advancement to Candidacy.

Planning, preparation, completion of thesis or equivalent industrial project report on a suitable topic in computer engineering and computer science following the library's prescribed format. Requires consultation with Graduate Advisor and submission of Agreement for Independent Study form each semester.

May be repeated to a maximum of 6 units in the same semester.

CONSUMER AFFAIRS

College of Health and Human Services
Department of Family and Consumer Sciences

Department Chair: Wendy Reiboldt

Department Office: Family and Consumer Sciences (FCS) - 001
Telephone / Fax: (562) 985-4484 / 985-4414

Website: www.csulb.edu/colleges/chhs/departments/fcs

Faculty: Mariné Aghekyan, Michelle Barrack, Lee Blecher, Marie Botkin, Maria Claver, Gail C. Frank, Virginia Gray, Libby Gustin, Young Ha, HyeJeong King, James E. Koval, Peter Kreysa, Suzanne Marshall, Nilufer Medora, Wendy Reiboldt, Cheryl Rock, Roudi Roy, Myunghae Sohn, Richard V. Tuveson, Long Wang, Jung-Mao (Ronnie) Yeh

Program Director: Peter Kreysa

Baccalaureate Program Coordinator: Richard V. Tuveson

Graduate Coordinator: Virginia Gray

Administrative Support Coordinators:

Mikal Lok, Marina Bendersky, Andrew Redmayne

Instructional Support Technician: Bonnie Rice

Career Possibilities

Consumer Advocates on Television and Radio Stations • Litigation Consumer Specialist • Product Safety Advocate • Credit Counselor • Food and Drug Consumer Specialist • Federal Trade Consumer Specialist • Community Consumer Educator • Consumer Affairs Teacher • Financial Advisor • Financial Counselor • Product Safety and Health Care Consultants • Customer Service Representative • Housing Counselor • Homeless Coordinator • Property Manager • Product Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences

This degree offers six options:

- Child Development and Family Studies
- Consumer Affairs
- Family and Consumer Sciences Education
- Family Life Education
- Fashion Design
- Fashion Merchandising

Degree and certificate information and requirements are listed under each option alphabetically in this catalog.

Bachelor of Science in Dietetics and Food Administration

This degree offers two options:

- Nutrition and Dietetics
- Food Science

Degree and certificate information and requirements are listed under each option alphabetically in this catalog.

Bachelor of Science in Hospitality Management

Degree and certificate information and requirements are listed under each option alphabetically in this catalog.

Consumer Affairs

This program focuses on how businesses, government agencies, and community organizations interact with families and consumers.

Option in Consumer Affairs (120 units)

Take one of the following support courses:

PSY 100 General Psychology (3)

Prerequisites/Corequisites: GE A1 course.

SOC 100 Principles of Sociology (3)

Prerequisites/Corequisites: A GE Foundation course.

Take one of the following support courses:

ECON 100 Principles of Macroeconomics (3)

Prerequisite: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)

Prerequisites: MATH 103 or higher.

ECON 300 Fundamentals of Economics (3)

Prerequisites: GE Foundation requirements.

Take one of the following support courses:

C/LA 250 Elementary Statistics (4)

Prerequisites: Knowledge of mathematical procedures usually covered in elementary high school algebra.

SOC 250 Elementary Statistics (4)

Prerequisites: SOC 100 or SOC 142 or instructor consent.

STAT 108 Statistics for Everyday Life (3)

Prerequisites: None

Take all of the following major courses:

FCS 299 Intro to Family and Consumer Sciences (1)

Prerequisites: None.

Not open for credit to students with credit in FCSE 299.

CAFF 223 Personal and Family Financial Management (3)

Prerequisites: GE Foundation requirements.

CAFF 226 Consumer Life Skills (3)

Prerequisites: GE Foundation requirements.

CAFF 228 Housing in Global Perspective (3)

Prerequisites: GE Foundation requirements.

CAFF 321 Family and Consumer Resource Management (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper division standing.

CAFF 427 Consumer Dynamics (3)

Prerequisites: Students must have scored 11 or higher on the GEAR Placement Examination or successfully completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

CAFF 429 Consumer Protection (3)

Prerequisites: Upper Division course in consumer affairs or consent of instructor.

FCS 499 Professionalism and Leadership in FCS (1)

Prerequisites: FCS 299, CAFF 321, 12 units of upper division course work in Family and Consumer Sciences. Must be taken in one of the last two semesters prior to graduation.

Not open for credit to students with credit in FCSE 499.

Take one of the following courses:

CAFF 322 Family Housing and Urban Community (3)
Prerequisite: Upper division standing.

CAFF 420 Personal Finance for the Aging (3)
Prerequisites: 400-level course in Consumer Affairs or consent of instructor.

CAFF 422 Housing Policies: Public and Private (3)
Prerequisite: CAFF 322, upper division standing or consent of instructor.

CAFF 425 Personal Financial Planning Analysis (3)
Prerequisites: CAFF 223 or consent of instructor.

CAFF 426 Family Financial Problems (3)
Prerequisites: CAFF 223 or consent of instructor.

Take one of the following courses:

CAFF 492C Internship in Consumer Affairs (3)
Prerequisites: Student must be a Family and Consumer Sciences: Consumer Affairs major; have senior standing; approval of a faculty advisor in Consumer Affairs; or consent of instructor.

FCS 497 Directed Studies (3)
Prerequisites: Upper division standing, consent of instructor.

Not open for credit to students with credit in FCSE 497.

Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Consumer Affairs Area Coordinator.

Minor in Consumer Affairs

Fifteen units as approved by a Consumer Affairs faculty advisor. The Minor in Consumer Affairs is available to any non-Consumer Affairs major.

Take two of the following courses:

CAFF 223 Personal and Family Financial Management (3)
Prerequisites: GE Foundation requirements.

CAFF 226 Consumer Life Skills (3)
Prerequisites: GE Foundation requirements.

CAFF 228 Housing in Global Perspective (3)
Prerequisites: GE Foundation requirements.

Take 9 units of Consumer Affairs courses in consultation with an Academic Advisor.

Consumer Affairs Courses (CAFF)

LOWER DIVISION

223. Personal and Family Financial Management (3)

Prerequisite: GE Foundation requirements.

A functional approach to personal finance including budget systems, consumer credit, insurance, debt collection system, status obligation, accumulating reserves. Applicable for personal and professional use.

(Lecture-discussion 3 hours)

226. Consumer Life Skills (3)

Prerequisite: GE Foundation requirements.

Consumer life skills with an emphasis on practical applications in the marketplace. Includes the history of the consumer movement, consumer rights and responsibilities, financial wellness, consumer debt, consumer behavior, fraud, and consumer redress.

(Lecture-discussion 3 hours)

228. Housing in Global Perspective (3)

Prerequisites: GE Foundation requirements.

Family housing options and choices in urban and rural areas throughout the world viewed within the context of history, politics, culture, art, environment, geography, technology and economics.

(Lecture-discussion, 3 hours).

UPPER DIVISION

307. Crimes against Consumers (3)

Study of laws and agencies devoted to consumer protection; the investigation of consumer crimes, including product counterfeiting, consumer frauds/scams, false advertising, adulterated food, dangerous drugs and devices, and quackery; and college students, veterans, immigrants, and seniors as consumer crime victims.

Letter grade only (A-F) Same course as CRJU 307. Not open for credit to students with credit in CRJU 307.

309. The Consumer in the Legal and Economic Environment (3)

Prerequisites: GE Foundation requirements; completion of one or more Exploration courses; upper division standing.

Incorporates an integrated coverage of the economic, legal, ethical and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught.

(Lecture-discussion 3 hours) Same course as FIN 309 and BLAW 309. Not open for credit to students with credit in FIN 309 or BLAW 309.

321. Family and Consumer Resource Management (3)

Prerequisites: GE Foundation requirements, one or more Exploration courses, and upper division standing.

Basic management principles applied to personal and family settings. Examines role of values, goal formation, decision-making, planning, implementing, and evaluation of managerial behavior in diverse family and cultural settings.

Letter grade only (A-F). (Lecture-discussion 3 hours)

322. Family Housing and the Urban Community (3)

Prerequisites: Upper-division standing.

Critical analysis of family housing in urban community including aspects of shelter, city and service providers. Sociological, psychological, legislative, economic and technical factors investigated. Special attention given to families of various structures and socioeconomic background.

(Discussion 3 hours)

388. Technological Literacy (3)

Prerequisites: GE Foundation requirements, upper division standing, ENGL 100 or GE Composition (Area A1).

Exploration of technological concepts and their impact on individuals, society and culture. Technology as a human adaptive system and its relationship to sociological and ideological systems.

Letter grade only (A-F). (Discussion 3 hours.)

420. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor.

Personal finance as applied to the aging population.

Same course as GERN 420. Not open for credit to students with credit in GERN 420. (Lecture-discussion 3 hours)

422. Housing Policies: Public and Private (3)

Prerequisites: CAFF 322, upper division standing or consent of instructor.

Federal, state, and local policies, programs and legislation concerning housing and urban development. Analysis of the housing industry and its influence on the consumer market.

Letter grade only (A-F). (Discussion 3 hours)

425. Personal Financial Planning Analysis (3)

Prerequisite: CAFF 223 or consent of instructor.

Analysis and protection of personal and family resources; planning and forecasting goals; development of financial strategies utilizing insurance, investment, tax management, pensions, wills and trusts.

(Lecture-discussion 3 hours)

426. Family Financial Problems (3)

Prerequisite: CAFF 223 or consent of instructor.

Theory and practice in the diagnosis of family financial crises; selecting alternative solutions; constructing practical methods for the prevention of family financial problems.

(Discussion 2 hours, laboratory 3 hours)

427. Consumer Dynamics (3)

Prerequisites: Students must have scored 11 or higher on the GEAR Placement Examination or successfully completed the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone.

Examination and analysis of consumer motivation, demand, and behavior. Consumers in the global marketplace. Exploration of individual, family, and household dynamics that influence decision making. This is an intensive writing course.

Letter grade only (A-F).

429. Consumer Protection (3)

Prerequisites: Upper Division course in consumer affairs or consent of instructor.

Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems.

(Seminar 3 hours)

492C. Internship in Consumer Affairs (3)

Prerequisite: Student must be a Family and Consumer Sciences: Consumer Affairs major; have senior standing; approval of a faculty advisor in Consumer Affairs; or consent of instructor.

Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation.

May be repeated for 6 units maximum. (Seminar 3 hours)

COLLEGE OF CONTINUING AND PROFESSIONAL EDUCATION

Associate Vice President for International Education and Dean: Jeet Joshee

Associate Dean: Tim Mozia

Associate Dean and Executive Director for International Programs: Terrence Graham

Director, Academic Programs: Irma Hill

Director, Professional Programs: Regina Cash

Director, American Language Institute: Lynne Richmond

Executive Director of CITT and

Associate Director of METRANS: Tom O'Brien

Director, Marketing, Communications and Outreach: Anna Behar-Russell

Director, Advanced Media Production: Dave Kelly

College Office: 6300 State University Drive, Ste. 104, Long Beach, CA 90815

Customer Service Center: 800-963-2250

Email: Info@ccpe.csulb.edu

Website: www.ccpe.csulb.edu

The College of Continuing and Professional Education (CCPE) is one of the eight academic colleges at California State University, Long Beach. CCPE is a self-support, interdisciplinary college that works closely with its university, business, community, and international partners to serve California's workforce and economy. The College provides expanded access to CSULB's exceptional academic programs and educational resources, and offers a diverse range of degrees, professional development certificates, and international education programs. Through the Center for International Education, CCPE creates opportunities for its students to study abroad and brings students from around the globe to CSULB.

The College of Continuing and Professional Education is different from CSULB's other academic colleges because it is interdisciplinary and not limited to one specific subject area, such as arts or science. CCPE's unique position as both an academic college and a community outreach entity means that partnerships and collaborations - with the university, businesses, organizations, and community leadership - are an integral part of its operation. CCPE fosters collaborative academic initiatives with both credit and professional development (non-credit) programs.

CCPE programs do not receive state funding and are supported entirely by student fees.

The CCPE Mission Statement

With a clear and focused mission as leaders in international and continuing education, CCPE helps individuals and organizations reach their highest potential. CCPE is committed to becoming the premier choice for international and continuing higher education both locally and globally.

The College of Continuing Professional Education

programs are major vehicles by which the university fulfills its responsibility to meet the lifelong personal and professional development learning needs of citizens, industries, and institutions within the region and beyond. Through its degree and certificate programs, credit and non-credit classes, seminars and special programs, distance delivered instruction and customized on-site training, CCPE brings the resources of CSULB to individuals and groups at times, locations, and in formats convenient to their diverse lifestyle.

CCPE values providing access and opportunity, innovation, pursuit of excellence, integrity, quality customer service, collaboration, and diversity.

Through its work, CCPE advances the mission of Extended Education in the CSU system outlined by its Commission on the Extended University:

- Meeting California's economic and workforce development needs
- Increasing access to educational opportunities by serving broader constituencies
- Developing alternative instructional delivery systems
- Creatively developing new programs
- Providing personal and lifelong learning opportunities
- Generating new resources
- Supporting international educational experiences

CCPE Programs

CCPE maintains a customer-focused, market-driven approach to develop and deliver its programs. As a result, the programs may change often to adapt to the training and educational needs of the marketplace. CCPE offers both credit programs and professional development (non-credit), in many different subject areas. The major activity of the Academic Programs Department is to work with all colleges and academic departments within the university to develop self-support degree and certificate programs. Whether the program is academic credit-bearing or not, CCPE strives to provide the following features in every program:

- Quality curriculum
- Innovative and thoughtfully designed formats
- Convenient days/times
- Affordable fees and payment plan options
- Fast, easy registration

In addition, CCPE provides companies, organizations, and government agencies with customized professional development programs for employees at their work site or at CSULB.

For the latest comprehensive program listings and descriptions, call the CCPE Student Service Center at 800/963-2250 or log on to: <http://www.ccpe.csulb.edu>

Following is a sampling of the many types of programs offered by CCPE.

Degree Programs

Degree programs offered by CCPE are in partnership with other CSULB colleges.

- Bachelor of Arts in Liberal Arts
- Bachelor of Science in Engineering (Electrical or Mechanical) (at the Lancaster University Center)
- Master of Arts in Speech in Language Pathology
- Master of Arts in Dance
- Master of Arts in Kinesiology, Option: Sport Management
- Master of Business Administration (Saturday MBA for Working Adults)
- Master of Business Administration (Daytime Accelerated)
- Master of Public Administration (DL)
- Master of Science in Emergency Services Administration
- Master of Science in Geographic Information Science
- Master of Science in Health Care Administration (Accelerated)
- Master of Science in Supply Chain Management
- Master of Social Work (DL)

Professional Development Certificate Programs Offered

- Revit Fundamentals Certificate
- Basic Applied Forensic Science and Crime Analysis
- EKG Technician
- Medical Administrative Assistant
- Clinical Medical Assistant
- CATIA V5
- High Tech Crime Investigation
- Facilities Electrical Systems
- Organizational Conflict Resolution
- Pharmacy Technician
- Emergency Medical Technician (EMT)
- Human Resources Management
- Meeting and Event Planning
- Engineering and Architectural AutoCAD
- Oracle 11g Database Administrator
- Project Management
- Beyond the Basics Leadership Boost Camp

Professional Designation Programs and Industry-Specific Exam Prep Programs

- Collections Management for Costume and Textiles
- Global Logistics Specialist
- SHRM-CP and SHRM-SPC Learning System Test Prep.
- Marine Terminal Operations Professional
- Ghostwriting

International Training Programs (ITP)

The International Training Programs office addresses the growing needs of international audiences, especially from Asian countries, for academic and professional programs. Programs are customized to meet the needs of the customer and may include one day workshops, two to three week sessions, or month-long training programs. For more information, please contact Heidi Zhang, at (562) 985-4060.

Open University

Through Open University, students who are not matriculated at CSULB may take regular university classes during spring or fall semesters for academic credit on a "space available" basis with permission of the department chair and the course instructor. Open University enrollment does not constitute admission to CSULB. For more information, contact the CCPE Student Services Center at (562) 985-5561.

Winter Session, May Intersession, and Summer Sessions

These sessions are open to all matriculated CSULB students as well as non-matriculated students, and provides opportunities for students and individuals to take CSULB classes. No application or admission process is required for registration. Enrolling in any of these sessions does not constitute admission to CSULB. For more information, contact the CCPE Student Services Center at (562) 985-5561.

Study Abroad

This program promotes a global learning community by offering a full range of programs that foster student success, global perspectives, and intercultural awareness. All study abroad programs are led by CSULB faculty. Most courses are open to all majors, students from other universities, as well as CSULB faculty, staff, and members of the community on a space available basis. For more information, contact the Study Abroad Office at (562) 985-8429.

Continuing Education Units

Continuing Education Units (CEUs) are a permanent record of attendance in professional development (non-credit) programs. CEUs can enhance ones resume and provide another opportunity to showcase a commitment to professional development. CEUs for specific professions are also available.

Centers and Institutes

The American Language Institute (ALI)

The American Language Institute brings hundreds of international students to campus each year. The institute provides English as a Second Language instruction to international students most of whom are seeking admission to CSULB and other colleges and universities. ALI offerings include long-term and short-term programs, and credit and non-credit courses. Programs offered through ALI include the Intensive English Program, a non-credit program offered year-round, in which students are in class up to 25 hours per week. ALI also offers a Teaching English as a Foreign Language (TEFL) training program and an MBA Preparation Program.

The Study Abroad Program @ the Beach

Study abroad @ the Beach is a non-degree program for visiting (fee-paying) international students who would like to study abroad at California State University, Long Beach for one or two semesters. With the appropriate English proficiency level, students can take regular university courses for credit. We welcome all international high school graduates; however, most are typically second or third year

university students coming for their study abroad in the U.S. This program is offered by the Center of International Education. Course registration runs through Open University at the College of Continuing and Professional Education.

The Center for International Education

The Center for International Education (CIE) endeavors to foster the continued growth of a strong internationally focused educational community at CSULB. CIE is responsible for the recruitment, admission and continued advisement of degree seeking international and exchange students for the university. CIE is also responsible for the promotion and advising for all study abroad programs. In addition, CIE conducts international events, assists in faculty international development and facilitates the invitation of international scholars to campus.

The Center for International Trade and Transportation (CITT)

The Center for International and Trade Transportation (CITT), a major programming division of CCPE, is a multidisciplinary center for multifunctional transportation studies and integrated logistics research, education, training, policy analysis, and community outreach. Recently, CITT has been named to two new research centers of excellence, making CITT the Long Beach home for a total of four major research centers. In collaboration with the University of Southern California, CITT is a major partner in the METTRANS Transportation Center which is a U.S. Department of Transportation designated University Transportation Center. CITT is a partner in the U.C. Davis-led National Center for Sustainable Transportation, as well as METROFREIGHT, a Volvo Research and Education Foundations Center of Excellence in Urban Freight based at the University of Southern California. Most recently, CITT achieved the principal role in the CSULB-led Federal Highway Administration's Southwest Regional Surface Transportation Workforce Center of Excellence (SRSTWC) covering eight states- California, Arizona, Nevada, New Mexico, Utah, Colorado, Oklahoma, and Texas. In the last two years, the above programs have brought in more than six million dollars in federal and state grant funding. Additionally, CITT offers the highly acclaimed Global Logistics Specialist (GLS) professional designation program, the Marine Terminal Operation Professional Program (MTO), and various customized programs and workshops.

The Advanced Media Production Center (AMP)

CCPE's Advanced Media Production Center (AMP) is an award-winning, full-service video and digital media production facility. The center provides the campus, and appropriate local institutions with a wide variety of professional media production services and resources in support of educational and promotional needs.

AMP services include consultation, planning, design, development, and implementation of media projects in video production, web delivery and support, and computer graphics animation. The AMP Center also programs and operates Beach TV, the university's cable television channel.

SCHOOL OF CRIMINOLOGY, CRIMINAL JUSTICE, AND EMERGENCY MANAGEMENT

College of Health and Human Services

School Director: Brenda L. Vogel

School Office: Engineering Technology (ET) Room 232
Telephone: (562) 985- 8965

Faculty: **Jamie Birnall**, Alice Choi, Ryan G. Fischer, Connie Ireland, Aili Malm, Rebecca Nash, Dina Perrone, Robert Schug, Christine Scott-Hayward, Tracy Tolbert, Sam Vickovic, Brenda L. Vogel, John Wang

Undergraduate Advisor: CHHS Academic Advising and Resources Center

Graduate Advisor: Aili Malm

Internship Coordinators: Ron Mark, Brenda Vogel

Office Manager: Durrell Dew

CAREER OPTIONS

Police Officer • Probation Officer • Claims Representative • Private Investigator • Customs Agent • Special Agent FBI • Health & Safety Inspector • Criminologist • Game Warden • Park Ranger • Alcohol-Tobacco-Firearms Agent • Correctional Officer • Paralegal • Immigration Inspector • Intelligence Analyst-CIA • Parole Officer • Teacher • Prison Administrator • Lawyer • Credit Investigator • Border Patrol Agent (Some of these careers require additional education or experience.) Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Introduction

The school works collaboratively to investigate, understand, and solve social problems related to crime through the interdisciplinary and comparative study of crime and criminal behavior, as well as the policies and systems designed to control criminality. Graduates are well-prepared to become agents of positive change in the justice system through evaluation, research, ethical practice, and dedicated service. Graduates are also prepared to pursue advanced degrees in criminology/criminal justice, law, public affairs, and related graduate fields.

UNDERGRADUATE PROGRAMS

Bachelor of Science in Criminology and Criminal Justice (120 units)

This program is designed to accommodate the needs of new college students, continuing students, transferring students, and experienced criminal justice practitioner. We offer sufficient courses in the evenings for students to graduate with this degree without taking daytime classes.

Students intending to transfer from community colleges

to this University are advised to complete general education requirements while attending the community college. Courses equivalent to CRJU 101 and lower-division cognate courses (SOC 100, PSY 100, POSC 100 and PHIL 170), should be taken while attending community college. Other criminal justice courses taken at community colleges will be accepted as lower-division electives provided the college where they were taken designated them as transferable to CSU. These courses cannot be substituted for upper-division criminal justice courses.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

1. Major Courses: Take 48 units of criminal justice as follows:

A. Take 36 units of the following core courses:

CRJU 101 The Criminal Justice System in Society (3)
Prerequisites/Corequisites: One GE Foundation course.

CRJU 110 Introduction to Justice Research, Writing, and Reasoning (3)
Prerequisites: A grade of "C" or better in ENGL 100 or GE Composition (Area A1).

CRJU 301 Criminal Courts and Judicial Processes (3)
Prerequisites/Corequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 302 Policing (3)
Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 303 Corrections: Theory, Policy, Practice Corrections (3)
Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 304 Criminological Theory (4)
Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110.

CRJU 320 Criminal Justice Research Methods (4)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304 (may be taken concurrently).

CRJU 325 Statistics for Criminal Justice (4)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 320.

CRJU 330 Criminal Justice Ethics, Values and Diversity (3)
Prerequisites: A grade of "C" or better in CRJU 302 and CRJU 303.

CRJU 340 Substantive Criminal Law (3)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

CRJU 350 Constitutional Criminal Procedure (3)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

B. Take 3 units of the following restricted options courses: CRJU 401, CRJU 402, CRJU 403, CRJU 404, CRJU 405, CRJU 406, CRJU 407, CRJU 408, or an approved

CRJU 490 special topics course.

- C. Take 3 units of any upper-division elective criminal justice course (i.e., course not in core or restricted options),
- D. Take at least 6 units of a Senior Integrative Experience in one of the following four ways (note that option 4 requires permission from a sponsoring faculty member):
1. CRJU 492 Internship (6); or
 2. CRJU 497 Independent Study/Directed Research (3) and any 400-level CRJU elective; or
 3. Any 400-level CRJU elective (3) and any one of the following experiential learning courses: CRJU 405, CRJU 423, CRJU 430, CRJU 440, CRJU 441, CRJU 470, or any upper-division CRJU travel-study course; or
 4. CRJU 497 Independent Study/Directed Research (3) and CRJU 498 Thesis (3)

Courses taken to fulfil options 2 and 3 may not be used to satisfy either the restricted option or in-major elective requirements of the criminal justice major.

Each core or restricted option courses on the student's program planner must be completed with a grade of "C" or better. In addition, a course which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of school advisor or chair.

2. Cognate Courses: Take 6 courses in related disciplines (these satisfy CSULB General Education requirements) from the following:

Any General Education Critical Thinking Course (Philosophy 170 preferred)

* C or better

POSC 100 Introduction to American Government (3)

* C or better

Prerequisites/Corequisites: GE A1 requirement.

PSY 100 General Psychology (3)

* C or better

Prerequisites/Corequisites: GE A1 requirement.

PSY 370 Abnormal Psychology (3)

Prerequisites: PSY 100.

SOC 100 Principles of Sociology (3)

* C or better

Prerequisites/Corequisites: GE A1 requirement.

and any one of the following:

CDFS 319, CLSC 410, GEOG 301, PHIL 352, PHIL 451, PSY 350, RGR 400, SOC 335.

Minor in Criminal Justice

Requirements

The minor requires a minimum of 22 units as follows:

1. Take 19 units of the following core courses:
 - CRJU 101 The Criminal Justice System in Society (3)
Prerequisites/Corequisites: One GE Foundation course.
 - CRJU 110 Introduction to Justice Research, Writing, and Reasoning (3)
Prerequisites: A grade of "C" or better in ENGL 100 or GE Composition (Area A1).
 - CRJU 301 Criminal Courts and Judicial Processes (3)
Prerequisites/Corequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 302 Policing (3)

Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 303 Corrections: Theory, Policy, Practice

Corrections (3)

Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 304 Criminological Theory (4)

Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110.

2. Take 3 units of one of the following:

CRJU 340 Substantive Criminal Law (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

CRJU 350 Constitutional Criminal Procedure (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

All courses in the criminal justice minor must be taken for a letter grade only (A-F) and must be successfully completed with a grade of "C" or higher. CRJU 101 and CRJU 110 are prerequisites for all core courses at the 300-level. All 300-level courses must be taken in residence at CSULB and, therefore, may not be transferred in from other colleges or universities.

Admission to the Minor

The minor in criminal justice is available to any non-criminal justice major. Students who would like to declare and/or change to criminal justice as their minor must have an overall G.P.A. of 2.0 and be enrolled in or have completed CRJU 101 or an equivalent course at another college or university. Alternative admission requirements may apply during times when the school is impacted.

Minor in Forensic Studies

This minor provides students with an understanding of the nature of criminal evidence and an appreciation of how forensic investigative methods are used in quest for justice. It is particularly useful for students majoring in engineering, the natural sciences, the social sciences, art, and various human services disciplines. The minor may be combined any major at CSULB, although criminal justice majors may not "double count" CRJU 230, CRJU 412, CRJU 430, CRJU 440, CRJU 441, CRJU 442, CRJU 443, CRJU 490, or CRJU 492 for credit towards their major elective courses and the minor in forensic studies.

Requirements

The minor in forensic studies requires completion of a minimum of twenty-seven (27) units as follows:

1. Completion of six (6) units of the following required prerequisite courses with grades of "C" or higher:
 - CRJU 101 The Criminal Justice System in Society (3)
Prerequisites/Corequisites: One GE Foundation course.
 - CRJU 110 Introduction to Justice Research, Writing, and Reasoning (3)
Prerequisites: A grade of "C" or better in ENGL 100 or GE Composition (Area A1).
2. Completion of fifteen (15) units of the following required core classes:
 - CRJU 230 Survey of the Forensic Sciences (3)
Prerequisites: None.
 - CRJU 301 Criminal Courts and Judicial Processes (3)
Prerequisites/Corequisites: A grade of "C" or better in

CRJU 101 and CRJU 110 (may be taken concurrently).

CRJU 350 Constitutional Criminal Procedure (3)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

CRJU 412 Criminal Investigation (3)
Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 302.

CRJU 440 Criminalistics: Forensic Science in the Crime Laboratory (3)
Prerequisite: A grade of "C" or better in CRJU 230 or consent of instructor.

3. Completion of six (6) units of forensic electives from the following options: CRJU 430, CRJU 441, CRJU 442, CRJU 443, CRJU 490, CRJU 492 or any approved applied forensics courses offered in a related discipline.

Each course in the minor must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite.

Students who would like to declare the minor in forensic studies must have completed the two prerequisite courses (CRJU 100, 110) and have an overall G.P.A. of 2.5. Alternative admission requirements may apply during times when the school is impacted.

GRADUATE PROGRAMS

Master of Science in Criminology and Criminal Justice

Graduate study in criminal justice provides the requisite knowledge and opportunity for individuals to (1) be competitive for administrative positions in the courts, corrections, law enforcement, security, probation and parole; (2) fill research positions in criminal justice agencies; (3) pursue advanced degrees (J.D. or Ph.D.); and (4) fill community college teaching positions in criminal justice.

The Master of Science degree in criminology and criminal justice will expand and increase individual competency, develop and mature thought processes, aid in gaining insights into professional leadership and knowledge, permit an exchange between students and faculty, and further the spirit of research and scholarship to enhance professional and personal development.

Admission

Students seeking admission to the School of Criminology, Criminal Justice and Emergency Management Graduate Program should have an undergraduate degree and a desire for graduate study. Applicants must apply for admission to the School of Criminology, Criminal Justice and Emergency Management in addition to being admitted by Enrollment Services. Students must be accepted for admission by the School before their program for a master's degree can be formulated. Students are not allowed to take graduate course work in criminal justice before being accepted to the program. The following items must be submitted:

1. Two copies of the CSULB graduate application. The original must be sent to Enrollment Services and a copy

must be sent to the School of Criminology, Criminal Justice and Emergency Management.

2. Applicants must select ONE of the following three options to demonstrate their aptitude for graduate study:

Option A: The GRE -- Official test scores on the Graduate Record Exam (GRE) General Test. While no specific cut-off scores are required, a score of 4.0 or higher on the writing portion is strongly preferred.

Option B: The LSAT -- Official test scores on the Law School Admissions Test. No specific cut-off scores are required.

Option C: Evidence of Research Potential -- Applicants who prefer not to take any standardized tests may submit one or two writing samples that evidence their research, writing, and critical thinking abilities.

3. Official transcripts of all undergraduate course work, including work done at all community colleges attended. Each applicant must request that official transcripts be sent to both the Graduate Advisor in the School of Criminology, Criminal Justice and Emergency Management and Enrollment Services.

4. Two letters of recommendation from persons able to testify to the student's academic ability, preferably from former professors. These letters must be sent to the School of Criminology, Criminal Justice and Emergency Management Graduate Advisor.

5. A résumé sent directly to the School of Criminology, Criminal Justice and Emergency Management Graduate Advisor that describes the applicant's academic achievements (including honors and awards), extracurricular activities, as well as relevant work, internship, and volunteer experiences.

6. A typewritten letter of intent (between 750 and 1,250 words) sent directly to the School of Criminology, Criminal Justice and Emergency Management Graduate Advisor. This essay should address: (a) what motivates the applicant to apply for a graduate degree; (b) what relevant research and practical experiences qualify the applicant for admission; (c) what the applicant's specific areas of interests in criminal justice practice, policy, and/or research are; (d) with whom on the faculty the applicant would like to work and why; and (e) what the applicant's personal goals and objectives are for earning a master's degree in criminology and criminal justice at CSULB.

Prerequisites

1. A bachelor's degree from a regionally-accredited university. Although a major or minor in criminology, criminal justice, or a related social-scientific discipline is preferred, the School's Graduate Committee may admit students with undergraduate preparation in other fields.
2. A student must have an overall undergraduate average (GPA) and average in their major of 3.00 or better. A student whose overall grade point average is between 2.750 and 2.999, but who presents acceptable evidence of professional potential either through recent academic performance and/or experiential background, may be conditionally admitted by special action of the School's Graduate Committee.

Competencies

Students entering the M.S. program in criminology and criminal justice are expected to have completed the following six undergraduate courses or their equivalents:

- (1) CRJU 101: The Criminal Justice System in Society;
- (2) CRJU 304: Criminological Theory;
- (3) CRJU 320: Research Methods (or a similar social-scientific research methods course in psychology, sociology, political science, or related field);
- (4) CRJU 325: Statistics (or a similar applied statistics course);
- (5) CRJU 340: Substantive Criminal Law; and
- (6) CRJU 350: Constitutional Criminal Procedure.

Students who have not taken courses in criminological theory, research methods, and statistics during their undergraduate studies still qualify for conditional admission to the M.S. program in criminology and criminal justice, but will be required to take deficiency courses in these areas before being permitted to enroll in the graduate-level courses for which undergraduate competency in one or more of these areas is required. Because deficiency courses do not count for graduate credit, the necessity of acquiring undergraduate competency in one or more of these areas may extend the time to degree completion by a semester. Students who have not taken courses in criminal law or criminal procedure will be required to use one or two of their elective courses to gain competency in the areas. Taking such courses will not delay graduation.

Advancement to Candidacy

1. Students must satisfy the general University requirements for advancement to candidacy, as specified in this catalogue.
2. Before advancing to candidacy, students must successfully complete 12 graduate units within the core (CRJU 501, CRJU 504, CRJU 520, and CRJU 525) with a minimum grade of "B" in each of the courses.
3. Before advancing to candidacy, students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and have successfully passed the School's qualifying examination.
4. Each student's graduate program must be approved by the School Graduate Advisor, the Director of the School, and the Associate Dean of the College of Health and Human Services.

Requirements

1. Take 18 units of the following core courses:

CRJU 501 Proseminar and Professional Writing in Criminology and Criminal Justice (3)

Prerequisites: Restricted to Criminal Justice master's students; all other students must have consent from Graduate Advisor.

CRJU 504 Criminological Theory (3)

Prerequisites: CRJU 304 or comparable undergraduate criminological theory course approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from the Graduate Advisor.

CRJU 520 Advanced Criminal Justice Research Methods (3)

Prerequisites: CRJU 320 and CRJU 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

CRJU 525 Advanced Statistics for Criminal Justice (3)

Prerequisites: CRJU 320 and CRJU 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

CRJU 535 Criminal Justice Policy (3)

Prerequisites: CRJU 504, CRJU 520, and CRJU 525.

CRJU 555 Law and Social Control (3)

Prerequisites: CRJU 340 and CRJU 350 or comparable undergraduate courses in substantive criminal law and constitutional criminal procedure. Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

2. Take CRJU 530 Criminal Justice Ethics, Values & Diversity (3), unless waived because the student completed an undergraduate course in applied criminal justice ethics with a grade of "B" or higher. If so waived, the student must take 3 units of any graduate-level elective in lieu of CRJU 530.
3. Successful passage of the School's qualifying examination testing graduate-level competency in statistics, research methods, and criminological theory.
4. Take 15 additional graduate units in one of two ways:
 - A. Thesis Option:
Take 9 units of advisor-approved electives and the following courses:
CRJU 694 Thesis I (3)
Prerequisites: Advancement to candidacy as a Criminal Justice master's student.
CRJU 698 Thesis II (3)
Prerequisites: CRJU 694.
 - B. Comprehensive Examination Option:
Take 15 units of advisor-approved electives and successful completion of the comprehensive master's essay examination in either policing, corrections, law and social control, crime and mental illness, crime and inequality, or other authorized subject area.

Note: Masters students who were admitted under a prior catalog year need to complete the course requirements specified in the catalog in effect at the time they advance to candidacy. All graduate students have the option of taking comprehensive examinations even if such exams were not listed as an option in the catalog at the time the student matriculated.

In addition to the core classes, take 12 units of electives selected in consultation with graduate advisor. A maximum of 6 units may be taken from 300 or 400-level courses in Criminal Justice. Up to 6 units of graduate work may be transferred from another accredited university or another program at CSULB. Transfer credit must be a "B" or better. All students must earn a grade of "A" or "B" for each required course. Students may not have more than 6 units of "C" grades apply toward the master's degree. Advancement to candidacy is necessary before Thesis I, Thesis II, or comprehensive exams can be taken.

Thesis

The thesis is a supervised experience in the application of theory and analytical tools to an issue in criminology or criminal justice. The thesis should prepare students for further graduate work or research in the field. The project should provide an experience that is directly applicable to an occupation in the criminal justice field.

The thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendations. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The coursework is supervised by a committee of three, including the Thesis Chair, who must be a full-time tenure-track or tenured faculty member in the School of Criminology, Criminal Justice and Emergency Management and two other faculty members.

Criminal Justice Courses (CRJU)

LOWER DIVISION

101. The Criminal Justice System in Society (3)

Prerequisites/Corequisites: One GE Foundation course.

Introduction to the study of criminal justice in American society. Focuses on the history, philosophy, functions, roles, policies, practices, and ethics of the institutions of social control within the criminal justice system, especially police, courts, and correctional personnel.

Letter grade only (A-F). Not open for credit to students with credit in CRIM 101.

110. Introduction to Justice Research, Writing, and Reasoning (3)

Prerequisite(s): A grade of "C" or better in ENGL 100 or GE Composition (Area A1).

Develops the skills needed to conduct and properly cite library and electronic research for social scientific and legal sources; and use them to make persuasive oral presentations and write papers, case briefs, and reports commonly used in the justice professions.

Letter grade only (A-F).

210. Gangs: Structure, Activities, and Responses (3)

An interdisciplinary examination of the factors that contribute to gang formation and membership; the structure and function of gangs; gang activities (including crime); and the various policy and programmatic responses to gangs.

Letter grade only (A-F).

230. Survey of the Forensic Sciences (3)

The application of scientific principles to criminal investigations and trials, focusing on crime scene analysis and recording; analytical methods of criminalistics; significance of results; and the specialized roles of criminalists and forensic biology, chemistry, ballistics, medicine, dentistry, anthropology, and psychology.

290. Selected Topics in Criminal Justice (3)

Introductory topics of current interest in the field of criminal justice selected for intensive development.

May be repeated for a maximum of 9 units with different topics in different semesters. Topics announced in the *Schedule of Classes*.

Upper Division

301. Criminal Courts and Judicial Processes (3)

Prerequisite/Corequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

Examines the structure and operation of the criminal court systems of the U.S. at the local, state, and federal levels, including their respective jurisdictions. Emphasizes pretrial and adjudication processes and the organizational roles and behaviors within the court system.

Not open for credit to students with credit in CRIM 351. Letter grade only (A-F).

302. Policing (3)

Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

The historical evolution of policing as an institution of social control with emphasis placed on the contemporary roles of police officers, including patrol strategies, training procedures, ethical standards, and discretion. Considers under-represented groups in policing and corruption in police agencies.

Not open for credit to students with credit in CRIM 483. Letter grade only (A-F).

303. Corrections: Theory, Policy and Practice Corrections (3)

Prerequisites: A grade of "C" or better in CRJU 101 and CRJU 110 (may be taken concurrently).

Historical and philosophical reactions to law violators. Overview of institutional and community corrections. Examination of differing penal institutions. Evaluation of rehabilitation as crime control strategy. Alternatives to incarceration will be explored as criminal sanctions.

Not open for credit to students with credit in CRIM 468. Letter grade only (A-F). Field trips may be required.

304. Criminological Theory (4)

Prerequisite: A grade of "C" or better in CRJU 101 and CRJU 110.

A writing-intensive exploration of theories of crime, criminal behavior, and crime control policies. Criminological theories are traced through history by focusing on connections to biology, psychology, philosophy, politics, sociology, and economics. Not open for credit to students with credit in CRIM 404. Letter grade only (A-F).

307. Crimes against Consumers (3)

Study of laws and agencies devoted to consumer protection; the investigation of consumer crimes, including product counterfeiting, consumer frauds/scams, false advertising, adulterated food, dangerous drugs and devices, and quackery; and college students, veterans, immigrants, and seniors as consumer crime victims.

Letter grade only (A-F) Same course as CAFF 307. Not open for credit to students with credit in CAFF 307.

320. Criminal Justice Research Methods (4)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304 (may be taken concurrently).

Introduction to basic techniques in criminal justice research, including report writing, components of research design models, sampling techniques, data collection techniques, questionnaire construction, interview techniques, and participant observation. Focus on bridging the gaps between theory, research, and justice policy. Letter grade only (A-F). Not open for credit to students with credit in CRIM 480. (3 hours lecture; 2 hours activity)

325. Statistics for Criminal Justice (4)

Prerequisite: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 320.

Descriptive and inferential statistics covering univariate, bivariate, and multivariate statistical techniques. Focus on probability theory, significance testing, inferential statistics used for quantitative data analysis by criminal justice researchers and administrators. Includes laboratory using statistical software packages.

Letter grade only (A-F). (Lecture 3 hours, laboratory workshop 1 hour.)

330. Criminal Justice Ethics, Values, and Diversity (3)

Prerequisites: A grade of "C" or better in CRJU 302 and CRJU 303.

Identifies and explores ethics and values in the criminal justice system, paying special attention to issues of social inequality. Discusses remedial strategies and behavior relating to unethical behavior from an individual and group perspective.

Not open for credit to students with credit in CRIM 305. Letter grade only (A-F).

340. Substantive Criminal Law (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

Analysis of the historical development of criminal law and the underlying principles used to interpret it. Focuses on statutory construction and case law deconstruction of the elements and defenses to major crimes, and the public policy implications of these interpretations.

Letter grade only (A-F).

350. Constitutional Criminal Procedure (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 301.

A study of criminal procedures mandated by the U.S. Constitution emphasizing searches and seizures under the Fourth Amendment; interrogations and confessions under the Fifth Amendment; the Sixth Amendment right to counsel; and due process under the Fourteenth Amendment.

Not open for credit to students with credit in CRIM 451. Letter grade only (A-F).

401. Victimology (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Advances an ecological approach to the study of victimology. Theories and history shaping the bio-psycho-social and environmental characteristics of crime and violent victimization are examined with emphasis on their intersection with issues of race, gender, class, ethnicity, and sexual orientation.

Not open for credit to students with credit in CRIM 373.

402. Crime and Inequality (3)

Prerequisites: A grade of "C" or better in CRJU 301 and CRJU 304.

Explores variability in the perpetration, apprehension, prosecution, and punishment of crime, as well as criminal victimization, by race, class, gender, ethnicity, and sexual orientation. Focuses on patterns of over-representation and critically evaluates the major explanations for this phenomenon.

403. Comparative Criminal Justice and Transnational Crimes (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Examination of criminal justice systems around the world and related transnational crime issues. Political, social, and economic environments are studied in relation to varying criminological practices. Includes the role of international law, international criminal courts, the UN, and Interpol.

Not open for credit to students with credit in CRIM 484

404. Terrorism, Homeland Security, and Criminal Justice (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Set against the background of our global community, an examination of the relationship between the historical and contemporary motivations and goals of terrorism, United States Homeland Security and select aspects of the United States criminal justice systems.

Letter grade only (A-F).

405. Crime Analysis (4)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Examines the fundamentals of crime analysis with emphasis on crime mapping, criminal network analysis, and crime prevention. The laboratory portion applies hands-on computational techniques to different types of crime data.

(3 hours seminar, 1 hour activity)

406. Delinquency and the Juvenile Justice System (3)

Prerequisite: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Theoretical foundations of delinquency causation. Historical tracing of the American juvenile justice system including the juvenile court and its jurisdiction. Police interaction with juveniles; treatment and correctional strategies for young offenders. Examination of prevention and treatment approaches.

Not open for credit to students with credit in CRIM 487. Letter grade only (A-F).

407. White Collar Crime (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Discuss and explain the various types of white-collar crimes and the damage white-collar crime inflicts upon individual victims, society, institutions, and culture. Research current trends in white collar crime, especially those concerning consumer product frauds and fraudulent business opportunities.

408. Serial Killers and Psychopaths: The Psychology of the Criminal Mind (3)

Prerequisites: A grade of "C" or better in CRJU 304. Psychology majors: PSY 220, PSY 370. All other majors: Consent of Instructor.

Integrative examination of the intersection of criminal behavior and severe psychopathology using psychodynamic, behavioral, psychosocial, and neurobiological models. Particular attention is paid to understanding homicide and sex offenses committed by those diagnosed with psychopathy, schizophrenia, and antisocial personality disorder.

Same course as PSY 377. Not open for credit to students with credit in PSY 377.

410. Police Administration (3)

Prerequisites: A grade of "C" or better in CRJU 302 and CRJU 330.

Organizational management and systems approach to the study of police administration. Emphasizes the administration of various police functions, organizational structures, resources management, operational techniques, professional ethics, and leadership principles and their implications for generalized and specialized units.

Not open for credit to students with credit in CRIM 325.

412. Criminal Investigation (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 302.

Study of basic principles of criminal investigation. Analysis of investigative techniques; patterns and modus operandi; interviewing and interrogation strategies; collection and management of evidence; surveillance; and crime scene investigation. Theories, philosophies, and concepts related to suppression of crime are covered.

Not open for credit to students with credit in CRIM 361. Letter grade only (A-F).

420. Legal Aspects of Corrections (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 303.

Overview of court decisions related to corrections. Study of current legal issues and their impact on correctional policies and procedures.

Not open for credit to students with credit in CRIM 356.

421. Probation, Parole and Community Corrections (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 303.

Focus is on probation, parole and other intermediate sanctions and community treatment options. Each is examined from both punishment and treatment model perspectives. The pre-sentence investigation (PSI) will be analyzed. Supervision of offender in community and revocation will be discussed.

Not open for credit to students with credit in CRIM 470. Field trips may be required.

422. Correctional Counseling (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 303.

Techniques of counseling strategies utilized by correctional workers, including reality therapy, behavior modification, group counseling, and 12-step programs. Evaluation of the effectiveness of correctional treatment with emphasis on treatment of substance abuse, mental illness, sex offenders, and female offenders.

423. Correctional Environments (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 303.

An introduction to American penology through six all-day field trips to city, county, state, and federal correctional facilities. Includes observations of juvenile court proceedings and visits to county juvenile halls, a juvenile treatment facility, and a state youthful offender institution.

Not open for credit to students with credit in CRIM 369. Letter grade only (A-F). Special start dates and end dates apply. Full-day field trips are required. Course fee may be required.

430. Criminal Evidence and Trials (3)

Prerequisites: A grade of "C" or better in CRJU 301, CRJU 340, CRJU 350; and consent of instructor.

Using a mock-trial approach, an in-depth study of procedural, evidentiary, tactical, and ethical problems experienced by lawyers, witnesses, and defendants. Emphasis on the rules of evidence and expert testimony as it relates to policing and the forensic sciences.

440. Criminalistics: Forensic Science in the Crime Laboratory (3)

Prerequisite: A grade of "C" or better in CRJU 230 or consent of instructor.

Overview of general principles of forensic science, techniques, equipment, and methodologies as used in crime laboratories. Focus on fingerprint and firearm identification, trace evidence (hair, fiber, paint, glass), blood, DNA evidence, forensic document examination, crime scene kits, and forensic microscopy.

Not open for credit to students with credit in CRIM 462. Letter grade only (A-F).

441. Investigating High-Tech Crimes (3)

Prerequisite: A grade of "C" or better in CRJU 230 or consent of instructor.

Overview of general classification, devices, microscopy, and methodologies in investigating high-tech crimes. Focuses on counterfeiting and fraud related to U.S. currency, credit card, checks, driver's licenses, social security cards, DVS/CD, cable TV box/satellite TV cards, and computer-based "cybercrimes."

Not open for credit to students with credit in CRIM 463. Letter grade only (A-F).

442. Forensic Psychology and the Criminal Justice System (3)

Prerequisites: A grade of "C" or better in CRJU 301.

An interdisciplinary examination of the relationship between psychiatry, clinical psychology, and the criminal justice system with regard to mentally-ill criminal offenders. Focus is on the legal standards for determining various criminal competencies, insanity, diminished capacity, and related defenses of excuse.

443. Forensic Pathology and the Medical-Legal Investigation of Death (3)

Prerequisite: A grade of "C" or better in CRJU 230 or consent of instructor.

A multimedia examination of the medico-legal investigation of death. Focuses on thanatology and thanato-etiology of unexpected natural deaths, accidental deaths, suicides, and homicides. Special attention to deaths by gunshot wound, sharp force injury, blunt force trauma, asphyxiation, and electrocution.

Letter grade only (A-F). Field trips may be required.

450. Domestic Violence and the Criminal Justice System (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, CRJU 301, CRJU 302, and CRJU 304.

Domestic violence is studied as a phenomenon that impacts the criminal justice system. Spousal/intimate partner abuse, child abuse, and elder abuse are studied from a multidisciplinary perspective. Strategies for criminal justice personnel handling these cases are stressed.

Not open for credit to students with credit in CRIM 492.

460. Substance Abuse and the Criminal Justice System (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Biological, psychological, and social factors in alcohol and drug use, abuse and addiction. Legal and social elements of substance abuse and their relationship to criminal justice system. Characteristics of controlled substances; categories of drug offenses; and investigation of drug cases.

Not open for credit to students with credit in CRIM 459.

461. Sex, Sexuality, Crime, and Punishment (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, CRJU 302, CRJU 303, and CRJU 304.

All other majors: upper-division standing and at least one other WGSS course, or consent of the instructor.

Transdisciplinary and critical examination of the accepted boundaries of human sexual behavior and opposing perspectives regarding the roles of criminal justice actors and institutions in regulating sex and sexuality, with special attention paid to sex-related crimes, offenders, and victims.

Same course as WGSS 417. Not open for credit to students with credit in WGSS 417.

470. Qualitative Approaches to Criminal Justice Research (3)

Prerequisites: A grade of "C" or better in CRJU 101, CRJU 110, and CRJU 304.

Qualitative research methodologies for studying criminal behavior and criminal justice system participants. Students will develop, implement, analyze, and write a qualitative research project while adhering to ethical responsibilities regarding human subjects, natural settings, and the dissemination of research.

490. Selected Topics in Criminal Justice (3)

Prerequisites: A grade of "C" or better in all 300-level core courses or consent of instructor.

Advanced and specialized topics of current interest in the field of criminal justice selected for intensive development.

May be repeated to a maximum of 9 units with different topics in the same semester. Topics announced in the *Schedule of Classes*.

492. Internship (6)

Prerequisites: Departmental consent; a grade of "C" or better in all 300-level core courses (CRJU 301, CRJU 302, CRJU 303, CRJU 304, CRJU 320, CRJU 325, CRJU 330, CRJU 340, and CRJU 350) or consent of instructor.

Supervised work experience in a criminal justice agency.

Letter grade only (A-F). Not open for credit to students employed in criminal justice agencies.

497. Directed Research or Independent Study (1-4)

Prerequisites: A grade of "C" or better in all 300-level core courses (CRJU 301, CRJU 302, CRJU 303, CRJU 304, CRJU 320, CRJU 325, CRJU 330, CRJU 340, and CRJU 350) or consent of instructor.

For students who wish to learn about a topic related to criminology, criminal justice, or forensics in great detail through independent reading and writing assigned by a faculty member.

May be repeated to a maximum of 9 units.

498. Senior Thesis (3)

Prerequisites/Corequisites: A grade of "C" or better in all 300-level core courses (CRJU 301, CRJU 302, CRJU 303, CRJU 304, CRJU 320, CRJU 325, CRJU 330, CRJU 340, and CRJU 350); a minimum 3.0 grade point average, and consent of instructor.

For students who wish to engage in intensive guided research and write a thesis under the direction of a panel of three faculty members. Highly recommended for students who plan to pursue graduate or law school.

May be repeated for a maximum of 6 units with the same topic.

GRADUATE LEVEL

501. Proseminar and Professional Writing in Criminology and Criminal Justice (3)

Prerequisite: CRJU 504. Restricted to Criminal Justice master's students; all other students must have consent of Graduate Advisor.

Overview of graduate study in criminology and criminal justice, focusing multidisciplinary library research for evaluating primary sources used at the graduate level; locating statistical data; and exploring research ideas presented by faculty, students, and guests.

Not open for credit to students with credit in CRIM 584 or CRJU 551. Letter grade only (A-F).

504. Criminological Theory (3)

Prerequisite: Restricted to criminal justice masters students; all other students must have consent from the Graduate Advisor.

Exploration of theories and policy implication of crime. Political, social, and economic context will be used to explore the ecology of criminal behavior. Underpinnings of criminological theory are traced through history by focusing on connection to biology, psychology, and sociology.

Not open for credit to students with credit in CRIM 581. Letter grade only (A-F).

520. Advanced Criminal Justice Research Methods (3)

Prerequisites: CRJU 320 and CRJU 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

An in-depth exploration of the scientific methods used in criminology and criminal justice research, including research design and both quantitative and qualitative research methodologies. Special attention is paid to the ethics of human subjects research.

Not open for credit to students with credit in CRIM 583. Letter grade only (A-F).

525. Advanced Statistics for Criminal Justice (3)

Prerequisite: CRJU 320 and CRJU 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

Nonparametric, bivariate, and multivariate inferential statistics that are used for quantitative data analysis by criminal justice researchers and practitioners.

Not open for credit to students with credit in CRIM 582. Letter grade only (A-F).

530. Criminal Justice Ethics, Values, and Diversity (3)

Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

Identifies and explores ethics and values in the criminal justice system, paying special attention to issues of social inequality. Discusses remedial strategies and behavior relating to unethical behavior from an individual and group perspective.

Not open for credit to students with credit in CRIM 512. Letter grade only (A-F).

535. Criminal Justice Policy (3)

Prerequisites: CRJU 504, CRJU 520, and CRJU 525.

Critical evaluation of policy-oriented scholarly literature in criminology and criminal justice, focusing on contemporary literature related to the philosophical, social, political, and legal policy issues affecting the American criminal justice system.

Letter grade only (A-F).

540. Substantive Criminal Law (3)

Prerequisites: Consent of Criminal Justice Graduate Advisor.

Analysis of the historical development of criminal law and the underlying principles used to interpret it. Focuses on statutory construction and case law deconstruction of the elements and defenses to major crimes, and the public policy implications of these interpretations.

Not open for credit to students with credit in CRJU 340. Letter grade only (A-F).

550. Constitutional Criminal Procedure (3)

Prerequisites: Consent of Criminal Justice Graduate Advisor.

A study of criminal procedures mandated by the U.S. Constitution emphasizing searches and seizures under the Fourth Amendment; interrogations and confessions under the Fifth Amendment; the Sixth Amendment right to counsel; and due process under the Fourteenth Amendment

Not open for credit to students with credit in CRJU 350. Letter grade only (A-F).

555. Law, Justice, and Social Control (3)

Prerequisites: CRJU 340 or CRJU 540 or equivalent undergraduate course in criminal law as approved by Graduate Advisor; and CRJU 350 or CRJU 550 or equivalent undergraduate course in criminal procedure as approved by Graduate Advisor.

Evaluation of the ways in which society responds, both informally and formally, to criminal and non-criminal deviance. Special attention is paid the role of the U.S. Constitution in limiting the exercise of formal social control.

Letter grade only (A-F).

604. Terrorism, Homeland Security, and Criminal Justice (3)

Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

Set against the background of our global community, an examination of the relationship between the historical and contemporary motivations and goals of terrorism, United States Homeland Security and select aspects of the United States criminal justice systems.

Letter grade only (A-F).

605. Crime Analysis (4)

Prerequisites: CRJU 504 and CRJU 525.

Examines the fundamentals of crime analysis with emphasis on crime mapping, criminal network analysis, and crime prevention. The laboratory portion applies hands-on computational techniques to different types of crime data.

(3 hours seminar, 1 hour activity)

608. Serial Killers and Psychopaths: The Psychology of the Criminal Mind (3)

Prerequisites: Restricted to criminal justice master's students; all other students must have consent from the Graduate Advisor.

Integrative examination of the intersection of criminal behavior and severe psychopathology using psychodynamic, behavioral, psychosocial, and neurobiological models. Particular attention is paid to understanding homicide and sex offenses committed by those diagnosed with psychopathy, schizophrenia, and antisocial personality disorder.

621. Administration and Management of Criminal Justice Organizations (3)

Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

Introduction to the management of criminal justice agencies in the U.S. Examines the purposes, goals, and functions of administrative principles from a multidisciplinary systems perspective to develop both a theoretical and practical understanding of criminal justice leadership and management.

Not open for credit to students with credit in CRIM 621. Letter grade only (A-F).

631. Legal Issues in Criminal Justice (3)

Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

Analysis of current and controversial legal issues in the criminal justice system focusing on controversial decisions of the U.S. Supreme Court.

Not open for credit to students with credit in CRIM 551. Letter grade only (A-F).

640. Criminalistics: Forensic Science in the Crime Laboratory (3)

Prerequisite: Restricted to criminal justice masters students only; all others require consent of the Graduate Advisor.

Overview of general principles of forensic science, techniques, equipment, and methodologies as used in crime laboratories. Focus on fingerprint and firearm identification, trace evidence (hair, fiber, paint, glass), blood, DNA evidence, forensic document examination, crime scene kits, and forensic microscopy.

Not open for credit to students with credit in CRIM 562. Letter grade only (A-F). Undergraduate students register for CRJU 440; graduate students for CRJU 640.

641. Investigating High-Tech Crimes (3)

Prerequisite: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

Overview of general classification, devices, microscopy, and methodologies in investigating high-tech crimes. Focuses on counterfeiting and fraud related to U.S. currency, credit card, checks, driver's licenses, social security cards, DVS/CD, cable TV box/satellite TV cards, and computer-based "cybercrimes."

Not open for credit to students with credit in CRIM 563. Letter grade only (A-F).

642. Forensic Psychology and the Criminal Justice System (3)

Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

An interdisciplinary examination of the relationship between psychiatry, clinical psychology, and the criminal justice system with regard to mentally-ill criminal offenders. Focus is on the legal standards for determining various criminal competencies, insanity, diminished capacity, and related defenses of excuse.

Letter grade only (A-F).

643. Forensic Pathology and the Medical-Legal Investigation of Death (3)

Prerequisite: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.

A multimedia examination of the medico-legal investigation of death. Focuses on thanatology and thanato-etiology of unexpected natural deaths, accidental deaths, suicides, and homicides. Special attention to deaths by gunshot wound, sharp force injury, blunt force trauma, asphyxiation, and electrocution.

Letter grade only (A-F). Field trips may be required.

661. Sex, Sexuality, Crime, and Punishment (3)

Prerequisites: Open to criminal justice master's students only.

Transdisciplinary and critical examination of the accepted boundaries of human sexual behavior and opposing perspectives regarding the roles of criminal justice actors and institutions in regulating sex and sexuality, with special attention paid to sex-related crimes, offenders, and victims.

670. Qualitative Approaches to Criminal Justice Research (3)

Prerequisite: CRJU 504.

Qualitative research methodologies for studying criminal behavior and criminal justice system participants. Students will develop, implement, analyze, and write a qualitative research project while adhering to ethical responsibilities regarding human subjects, natural settings, and the dissemination of research.

690. Selected Topics in Criminal Justice (3)

Advanced and specialized topics of current interest in the field of criminal justice selected for intensive development.

May be repeated to a maximum of 9 units with different topics in the same semester. Topics announced in the *Schedule of Classes*.

691. Instructional Strategies for Criminal Justice Professionals (3)

Prerequisites/Corequisites: Consent of instructor.

A structured program to teach graduate students how to create and deliver college-level instruction in criminal justice. Includes design of assignments within a measurable assessment framework; development of teaching strategies; and appropriate use of media and other pedagogical devices. May require time outside of semester format.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

694. Thesis I (3)

Prerequisites: Advancement to candidacy as a criminal justice master's student.

Student works under direct faculty supervision to complete a proposal for the thesis research study. Review of the literature on a topic and development of appropriate methodology.

Not open for credit to students with credit in CRIM 695. Letter grade only (A-F).

695. Directed Readings/Independent Study (1-4)

Prerequisites: Consent of instructor.

For students who wish to learn about a topic related to criminology, criminal justice, or forensics in great detail through independent reading and writing assigned by a faculty member.

May be repeated to a maximum of 6 units.

697. Directed Research (1-4)

Prerequisites: Consent of instructor.

Extensive independent research on assigned topic addressing theoretical criminology and synthesis of literature on current issues in criminal justice.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters.

698. Thesis II (3)

Prerequisites: CRJU 694.

Student works under direct faculty supervision to complete a master's thesis research study.

Not open for credit to students with credit in CRIM 698. Letter grade only (A-F).

DANCE

College of the Arts

Department Chair: Andrew Vaca

Department Office: Dance Center

Telephone / FAX: (562) 985-4747 / (562) 985-7896

Faculty: Rebecca Bryant, Karen Clippinger, Colleen Dunagan, Keith Johnson, Rebecca Lemme, Lorin Johnson, Dori Levy, Sophie Monat, Andrew Vaca

Administrative Coordinators: Jeniffer Fuentes-Mishica, Sylvia Rodriguez-Scholz

Career Possibilities

Dancer • Choreographer • Teacher • Dance Company Director • Dance/Movement Therapist • Booking Agent • Critic • Performing Arts Administrator • Dance Kinesiologist • Pilates Instructor • Dance/Aerobic Instructor (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The Department of Dance is a rigorous program that provides training in dance with a strong foundation in modern and ballet technique and choreography. Physical practice interfaces with theoretical study, placing dance in a historical, pedagogical, scientific, and cultural context. The Department also provides opportunities for the general university student through courses for the non-major. Performances, master classes and residencies also contribute to the artistic enhancement of the campus and community.

All new undergraduate students enter the major under the BA degree. A separate audition for entrance into the BFA degree is required when students have completed specific coursework and have achieved required levels of competency. Entrance to the major or minor in dance is by audition. Applicants may download audition information from the web or may contact the Department of Dance Office. Non-major classes are open to all students and do not require any audition.

The Department of Dance is an accredited institutional member of the National Association of Schools of Dance. Due to accreditation standards, new transfer students are expected to have trained in both ballet and modern dance technique each semester of their community college preparatory years in order to achieve the technical proficiency required for graduation.

Undergraduate Programs

Bachelor of Arts in Dance (120 units)

The Bachelor of Arts in Dance provides students with a balanced course of study that helps to prepare them for careers as performers, educators, arts administrators, health and fitness specialists, and/or graduate study in dance.

Student Learning Outcomes

1. Majors will develop competency in modern dance and ballet, enabling them to pursue careers in education, health and fitness, professional arenas, or to further their academic dance pursuits.
2. Majors will gain an overview of the historical, cultural, and scientific dimensions of dance.
3. Majors will explore the fundamental skills and techniques necessary for the public performance of dance.
4. Majors will have practical experience in the production and technological aspects of dance.
5. Majors will be able to demonstrate an understanding of the craft and aesthetic qualities of dance orally, practically, and in writing.

Requirements

Composition (5 units):

DANC 120 Improvisation (2)

Prerequisites: None

DANC 220 Composition I (3)

Prerequisite: DANC 120. Corequisite: DANC 131.

Theory (21 units):

Take all the following courses:

DANC 100 Orientation to Dance (1)

Prerequisite: Dance Major or Minor. Corequisite: DANC 152 or DANC 154.

DANC 131 Introduction to Music for Dance (2)

Prerequisites: Dance Major or Minor

DANC 161 Placement for the Dancer (2)

Prerequisites: Open to Dance Majors and Minors.

DANC 260 Functional Anatomy for the Dancer (3)

Prerequisites: DANC 161 or consent of the instructor.

DANC 261 Anatomy with Clay Laboratory (1)

Prerequisites: DANC 161 or consent of the instructor. Corequisites: DANC 260 or consent of the instructor.

DANC 262 Pilates I (3)

Prerequisites: Dance Major or Minor, DANC 260; or consent of instructor .

DANC 442 Dance and Social Identity in the U.S. (3)

Prerequisites: None

Take one of the following courses:

DANC 470A Dance Pedagogy (3)

Prerequisites: Upper division standing, or consent of instructor.

DANC 470B Ballet Pedagogy (3)

Prerequisites: Upper division standing, or consent of

instructor.

DANC 475 Dance for Children (3)

Prerequisites: Upper division standing, or consent of instructor.

Take one of the following courses:

DANC 491A Design for Dance Lighting (3)

Prerequisites: Upper division standing or consent of instructor.

DANC 491B Design for Dance Costuming (3)

Prerequisites: Upper division standing or consent of instructor.

Performance/Crew (4 units):

Take two units from the following courses:

DANC 181A, DANC 181B, DANC 381A, DANC 381B,
DANC 481A, DANC 481B

Take two units from the following courses:

DANC 180A, DANC 180B, DANC 295, DANC 321,
DANC 380A, DANC 380B, DANC 480A, DANC 480B,
DANC 495

Technique (22 units):

Take nine units from the following courses:

DANC 152, DANC 252, DANC 312, DANC 412

Take nine units from the following courses:

DANC 154, DANC 254, DANC 314, DANC 414

Take two units from the following courses:

DANC 112A, DANC 114A, DANC 312, DANC 314.

Take two units from the following courses:

DANC 216, DANC 316

Four units from the following courses:

DANC 105, DANC 106, DANC 108, DANC 116, DANC
214, DANC 217, DANC 312, DANC 313, DANC 314,
DANC 315, DANC 316, DANC 317, DANC 320, DANC
342, DANC 360, DANC 362, DANC 373, DANC 412,
DANC 414, DANC 420, DANC 426, DANC 445, DANC
470A, DANC 475, DANC 491A, DANC 491B, DANC 498.

Each course may only be applied once.

General Education (3 units):

Take the following course:

DANC 435 Dancing Bodies: Choreography and the
Screen (3)

Prerequisites: Completion of GE Foundation requirements,
one or more Exploration course(s), and upper division
standing. Students must have scored 11 or higher on the
GWAR Placement Examination or completed the necessary
portfolio course that is a prerequisite for a GWAR Writing
Intensive Capstone.

Option in Dance Science (120 units)

Admission into the program begins with admittance
into the BA in Dance including an entrance and placement
audition and fulfillment of all university entrance
requirements. Additionally, students must pass DANC 260
and DANC 261 with a grade of B or better before submitting
a Change of Major form to the Program Coordinator and
Chair.

Student Learning Outcomes

1. Majors will be able to perform a qualitative
anatomical analysis of standing alignment and key dance
vocabulary, as well as provide exercises and cues for their
improvement.

2. Majors will be able to execute and cue Pilates
repertoire designed to enhance dance performance,

movement coordination and physical conditioning.

3. Majors will demonstrate an understanding of key
anatomical and biomechanical principles for preventing dance
injuries and promoting optimal technique when training as
dancers or teaching dance technique.

4. Majors will attain an understanding of theoretical and
practical scientific concepts of movement to help prepare them
for pursuing further degrees or certifications in dance science or
related fields.

5. Majors will develop competency in modern dance and
ballet, enabling them to pursue careers in education, health and
fitness, professional arenas, or to further their academic dance
pursuits.

6. Majors will gain an overview of the historical, cultural, and
scientific dimensions of dance.

7. Majors will be able to demonstrate an understanding of
the craft and aesthetic qualities of dance orally, practically, and
in writing.

Requirements

Composition (5 units):

DANC 120 Improvisation (2)

Prerequisites: None

DANC 220 Composition I (3)

Prerequisite: DANC 120. Corequisite: DANC 131.

Theory (40 units):

Take all the following courses:

DANC 100 Orientation to Dance (1)

Prerequisite: Dance Major or Minor. Corequisite: DANC 152 or
DANC 154.

DANC 131 Introduction to Music for Dance(2)

Prerequisites: Dance Major or Minor

DANC 161 Body Placement (2)

Prerequisites: Open to Dance Majors and Minors.

DANC 260 Functional Anatomy for the Dancer (3)

Prerequisites: DANC 161 or consent of the instructor.

DANC 261 Anatomy with Clay Laboratory (1)

Prerequisites: DANC 161 or consent of the instructor.
Corequisites: DANC 260 or consent of the instructor.

DANC 262 Pilates I (3)

Prerequisites: Dance Major or Minor, DANC 260; or consent of
instructor.

DANC 362 Pilates II (2)

Prerequisites: Dance Major or Minor, DANC 262; or
consent of instructor.

DANC 442 Dance and Social Identity in the U.S. (3)

Prerequisites: None

BIOL 207 Human Physiology (4)

Prerequisites: GE Foundation requirements.

BIOL 208 Human Anatomy (4)

Prerequisites: Grade of "C" or better in one of the following: ART
372, BIOL 205, BIOL 207, BIOL 212, CHEM 140, DANC 261, or
MICR 200.

KIN 300 Biomechanics of Human Movement (3)

Prerequisites: BIOL 208 or equivalent.

KIN 301 Exercise Physiology (3)

Prerequisite(s)/Corequisite(s): KIN 201.

KIN 312 Motor Control and Learning (3)

Prerequisites: BIOL 207, BIOL 208 and PSY 100 with grade of
"C" or better or consent of instructor. Open to Kinesiology and
Dance Science majors only.

Prerequisite(s)/Corequisite(s): KIN 201 applies to Kinesiology
majors.

PSY 100 General Psychology (3)

Prerequisite/Corequisite: GE A1 requirement.

Select one of the following courses:

DANC 470A Dance Pedagogy (3)
Prerequisites: Upper division standing, or consent of instructor.

DANC 470B Ballet Pedagogy (3)
Prerequisites: Upper division standing, or consent of instructor.

Performance/Crew (2 units):

Take one unit from the following courses:

DANC 181A, DANC 181B, DANC 381A, DANC 381B,
DANC 481A, DANC 481B

Take one unit from the following courses:

DANC 180A, DANC 180B, DANC 295, DANC 380A,
DANC 380B, DANC 480A, DANC 480B, DANC 495

Technique (20 units):

Take nine units from the following courses:

DANC 152, DANC 252, DANC 312, DANC 412

Take nine units from the following courses:

DANC 154, DANC 254, DANC 314, DANC 414

Take two units from the following courses:

DANC 216, DANC 312, DANC 314, DANC 316

Three units from the following courses:

ATEP 309; KIN 315, KIN 339, KIN 368, KIN 430; NUTR
132

Bachelor of Fine Arts in Dance (132 units)

The Bachelor of Fine Arts in Dance is designed to prepare students for professional careers as performers and/or choreographers. All students wishing to pursue the BFA in Dance must demonstrate strong technical skill and must audition after successfully completing the following course work with a grade of "B" or better: DANC 120; 6 units from DANC 152 and/or 252; 6 units from DANC 154 and/or 254; and one unit from DANC 181A, 181B, 381A, 381B. If students are within 3 weeks of completing the requirements, they may audition with a signed Grade In Progress form. Students may not apply after they have completed 90 units.

Student Learning Outcomes

1. Majors will demonstrate proficient skills and technique in modern dance and ballet, with competency in jazz dance and/or other forms, enabling them to pursue professional dance careers.
2. Majors will demonstrate competencies in choreographic processes that support the development of creative and collaborative professional opportunities.
3. Majors will demonstrate substantial knowledge of the historical and scientific dimensions of dance, to give depth and perspective to the performance and pedagogical aspects of the dance discipline.
4. Majors will develop and demonstrate current methods and relevant strategies necessary to pursue professional careers in dance and dance-related fields.
5. Majors will demonstrate the skills necessary to analyze and review dance, both orally and in writing the history, concepts, and aesthetic qualities of dance.
6. Majors will demonstrate selected practical skills in the production and technological aspects of dance.

Requirements

Composition (8 units):

Take all the following courses:

DANC 120 Improvisation (2)
Prerequisites: None

DANC 220 Composition I (3)
Prerequisite: DANC 120. Corequisite: DANC 131.

DANC 320 Composition II (3)
Prerequisite: DANC 220.

Theory (29 units):

Take all the following courses:

DANC 100 Orientation to Dance (1)
Prerequisite: Dance Major or Minor. Corequisite: DANC 152 or DANC 154.

DANC 131 Introduction to Music for Dance(2)
Prerequisites: Dance Major or Minor

DANC 161 Body Placement (2)
Prerequisites: Open to Dance Majors and Minors.

DANC 260 Functional Anatomy for the Dancer (3)
Prerequisites: DANC 161 or consent of the instructor.

DANC 261 Anatomy with Clay Laboratory (1)
Prerequisites: DANC 161 or consent of the instructor.
Corequisites: DANC 260 or consent of the instructor.

DANC 262 Pilates I (3)
Prerequisites: Dance Major or Minor, DANC 260; or consent of instructor.

DANC 342 Global Cultures and Dance Traditions (3)
Prerequisites: None

DANC 442 Dance and Social Identity in the U.S. (3)
Prerequisites: None

DANC 445 Movement Analysis (3)
Prerequisites: Open to Dance Majors and Minors only.

DANC 498 Senior Seminar in Dance (2)
Prerequisites: Senior standing in the BFA program or consent of instructor.

Select one of the following courses:

DANC 470A Dance Pedagogy (3)
Prerequisites: Upper division standing, or consent of instructor.

DANC 470B Ballet Pedagogy (3)
Prerequisites: Upper division standing, or consent of instructor.

Select one of the following courses:

DANC 491A Design for Dance Lighting (3)
Prerequisites: Upper division standing or consent of instructor.

DANC 491B Design for Dance Costuming (3)
Prerequisites: Upper division standing or consent of instructor.

Performance/Crew (7 units):

Take two units from the following courses:

DANC 181A, DANC 181B, DANC 381A, DANC 381B,
DANC 481A, DANC 481B;

Take five units from the following courses:

DANC 180A, DANC 180B, DANC 295, DANC 321,
DANC 380A, DANC 380B, DANC 480A, DANC 480B,
DANC 495.

Technique (26 units):

Take eleven units from the following courses:

(2 units must be earned from 312)
DANC 152, DANC 252, DANC 312, DANC 412

Take eleven units from the following courses:

(2 units must be earned from DANC 314)
DANC 154, DANC 254, DANC 314, DANC 414

Take two units from the following courses:

DANC 216, DANC 316

Take two units from the following courses:

DANC 412, DANC 414

General Education (3 units):

Take the following course:

DANC 373 Nonverbal Communication: Interaction of Mind and Body (3)

Prerequisites: GE Foundation requirements, completion of one or more Exploration course(s), and upper division standing.

Minor in Dance

Students interested in the minor in dance must audition for placement in dance technique classes prior to starting the program.

Requirements

24 units of which 9 must be upper division.

Take 3 units from the following courses:

DANC 105, DANC 106, DANC 108, DANC 116, DANC 161, DANC 214, DANC 216, DANC 217, DANC 312, DANC 313, DANC 314, DANC 315, DANC 316, DANC 317, DANC 320, DANC 342, DANC 373, DANC 426, DANC 435, DANC 442, DANC 445, DANC 475.

(Each course may only be applied once.)

Technique (9 units):

Take 6 units from the following courses:

DANC 112A (may only be applied once), DANC 152, DANC 252, DANC 312

Take three units from the following courses:

DANC 114A (may only be applied once), DANC 154, DANC 254, DANC 314

Note: 3 units must be earned from DANC 252 or DANC 254.

Theory/Production/Performance (12 units):

Take all of the following courses:

DANC 120 Improvisation (2)
Prerequisites: None

DANC 131 Introduction to Music for Dance (2)
Prerequisites: Dance Major or Minor

DANC 220 Composition I (3)
Prerequisite: DANC 120. Corequisite: DANC 131.

Take one of the following courses:

DANC 342 Global Cultures and Dance Traditions (3)
Prerequisites: None

DANC 442 Dance and Social Identity in the U.S. (3)
Prerequisites: None

Take one unit from the following courses:

DANC 180A, DANC 180B, DANC 295, DANC 380A, DANC 380B, DANC 480A, DANC 480B, DANC 495

Take one unit from the following courses:

DANC 181A, DANC 181B, DANC 381A, DANC 381B, DANC 481A, DANC 481B

The Master of Arts in Dance is a practice-oriented degree created to serve experienced dance educators, primarily in secondary and community college venues. It is designed to broaden and deepen dance knowledge and skills for teaching dance classes and producing dance concerts and elevates an undergraduate teaching credential to graduate status.

Because M.A. candidates are teaching during the academic year, coursework is completed in three intensive, 6-week consecutive summer sessions in which 9-12 units are earned each summer.

Student Learning Outcomes

1. Students will refine proficiency in modern dance movement vocabularies, enabling them to enhance their careers as educators.
2. Students will engage in theoretical inquiry and study in the dance-related areas of history, dance science, and pedagogy, enabling them to enhance their careers as educators.
3. Students will acquire practical skills in the areas of costume and lighting design.
4. Students will explore, practice, and actualize the craft of making dances to communicate a declared intention.

Criteria for Admission into the Program

Candidates must meet the following criteria for entrance into the M.A. in Dance:

1. Prerequisite Courses:

- two courses in dance composition;
- one course in dance history;
- one course in anatomy/kinesiology (must be taken in the past five years);

2. Bachelor's degree from an accredited institution with a degree in dance or a related field;

3. Minimum of 3 years experience teaching dance in a high school with a secondary teaching credential, or minimum of 3 years part-time or full-time experience teaching dance in a community college (exceptions will be considered for extensive part-time employment teaching dance in a high school, or for an exemplary employment history of teaching dance in other venues);

4. Three letters of recommendation, of which one must be from a supervisor or colleague;

5. Movement audition and personal interview;

6. Completion of all application materials.

Admission will be granted to students who show high promise of success in graduate study based on past academic record and record of teaching experience.

Retention Criteria

1. Maintain a GPA of 3.0 in all graduate work completed at CSULB;

2. Continued satisfactory progress toward degree objectives. Application materials and application cycles (normally a new class of M.A. candidates begins every three years) is posted at csulb.edu/dance.

Graduate Programs

Master of Arts in Dance

Advancement to Candidacy

Students will be advanced to candidacy upon successful completion of the following:

1. Satisfy the general university requirements for

advancement to candidacy and the department's admission criteria;

2. Maintain a 3.0 GPA in all graduate coursework;
3. Fulfill the Graduation Writing Assessment Requirement (GWAR);
4. Complete a minimum of 21 units of coursework;
5. Removal of any incomplete grades;
6. Satisfactory completion of three artistic endeavors completed during the academic year utilizing student performers from the candidate's school;
7. Filing of the student's graduate program form for the Master of Arts in Dance, signed by the student's graduate advisor, and approved by the Associate Dean for graduate accountability.

Requirements

1. Complete the following:
 - Take 7 units from the following courses: DANC 510A, DANC 510B, DANC 510C, DANC 585A
 - Take 6 units from the following courses: DANC 521, DANC 522
 - Take 6 units from the following courses: DANC 591A, DANC 591B
 - Take 12 units from the following courses: DANC 565, DANC 592, DANC 605, DANC 642
2. Successful completion of a Written Comprehensive Exam to be taken after all coursework has been satisfied.

Master of Fine Arts in Dance

This 60-unit plan of study emphasizes performance and choreography grounded in the modern dance genre, and requires 3 years in residence to complete all course work. This degree is a rigorous program designed to challenge professionally experienced dancers to develop their artistic and analytical work through numerous performances and choreographic opportunities. Curriculum is integrated in technique, composition and theory.

The Department of Dance has chosen to keep the MFA degree program small and selective in order to provide adequate resources to all students in the degree plan. It is expected that applicants for the MFA in Dance should have some life experiences in the field prior to application; therefore, this would normally preclude a person who was recently awarded an undergraduate degree.

Student Learning Outcomes

1. Students will explore, practice, and actualize the craft of making dances to communicate a declared intention.
2. Students will refine proficiency in modern dance and ballet movement vocabularies, enabling them to pursue careers in the professional arenas of performance/choreography and/or education.
3. Students will engage in theoretical inquiry and study in the dance-related areas of history, music, film/video, aesthetics, dance science, and dance criticism.
4. Students will attain substantial knowledge/practical skills in preparation for teaching, including theoretical, practical, and kinesiological perspectives.
5. Students will acquire practical skills in the production aspects of dance, including costume design, lighting design, and stage management and/or public relations.

Criteria for Admission into the Program

Candidates admitted into this program will be selected on the following criteria:

1. Meet University admissions requirements;
2. B.A., B.F.A., or M.A. degree in dance or equivalent with a 3.0 GPA in upper division dance courses;
3. Professional goals consistent with the plan of study;
4. Life experiences in the field;
5. Audition in performance and choreography.

All MFA candidates are admitted on a conditional status. Removal of the conditional admit will occur after the following:

1. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
2. Completion of all prerequisites;
3. Completion of 20 graduate dance units with a GPA of 3.0;
4. Approval of Graduate Advisor.

Prerequisites

Advanced technique, Dance Composition (3 courses), Dance History (2 courses), Music for Dance, Anatomy/Kinesiology, Dance Notation or Laban Movement Analysis, Dance Production (2 courses). Candidates may take prerequisite courses along with graduate courses.

When an undergraduate degree is completed in a program which has different requirements than those of the CSULB dance major, additional preparation may be required before the student can be considered for classified status. Up to 24 units from an M.A. degree program may be acceptable, with approval of the graduate advisor.

Application Requirements

1. A CSULB post-baccalaureate application.
2. The following returned to the CSULB Dance Department:
 - A. Letter of application;
 - B. resume;
 - C. 3 letters of reference;
 - D. VHS video or DVD of a recent group choreographic work;
 - E. 2-page (typed, double spaced) personal statement addressing how graduate work will fulfill intended professional goals.
3. Audition on the CSULB campus to include a technique class and presentation of a 3-5 minute solo composition.

Advancement to Candidacy

Advancement to candidacy will occur based on the following:

1. Unconditional admission status;
2. Completion of 30 graduate dance units with a GPA of 3.0;
3. Successful choreography produced in a graduate concert;
4. Evaluation by graduate faculty of the candidate's satisfactory progress toward the degree;
5. Removal of any incomplete grades.

Performance/Choreography Concentration

Take 8 units from the following courses:
DANC 511A, DANC 512

Take 4 units from the following courses:

DANC 511B, DANC 514

Take 15-17 units from the following courses:

DANC 505, DANC 565, DANC 588, DANC 597, DANC 605, DANC 693

Take 12 units from the following courses:

DANC 520A, DANC 520B, DANC 520C, DANC 520D

Take 5 units from the following courses:

DANC 580A, DANC 580B, DANC 585A, DANC 585B, DANC 592, DANC 595

Take 6 units of the following course:

DANC 699 Thesis/Project

Take 8-10 units of additional coursework.

Courses (DANC)

Dance Technique

Note: Dance majors must take technique courses and composition in sequence and screen for level placement in all technique classes. Screening will take place the previous semester and the first day of class. Beginning non-major technique classes are not screened; they are open to all students. DANC 216, Intermediate/Advanced Jazz, and DANC 316, Advanced Jazz, have a screening process.

LOWER DIVISION

100. Orientation to Dance (1)

Prerequisite: Dance Major or Minor.
Corequisite: DANC 152 or DANC 154.

Introductory information, degree requirements, career opportunities, current problems and issues in the field.

Letter grade only (A-F).

101. Introduction to Modern Dance (3)

Prerequisite: GE Foundation requirements.

Exploration of modern dance concert dance art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in modern dance technique.

Not open for credit to dance majors.

102. Introduction to Ballet (3)

Prerequisite: GE Foundation requirements.

Exploration of ballet as concert dance art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in ballet technique.

Not open for credit to dance majors.

103. Introduction to Jazz (3)

Prerequisite: One GE Foundation course.

Introduction to jazz dance as concert and entertainment art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in jazz technique.

Open only to non-dance majors.

104. Introduction to Tap (3)

Prerequisite: One GE Foundation course.

Introduction to tap as concert and entertainment art form through

the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in tap technique.

Not open for credit to dance majors.

105. Latin Jazz (2)

Basic skills and techniques in Latin Jazz.

Not open for credit to dance majors. May be repeated to a maximum of 4 units in different semesters. (1 hour discussion, 2 hours studio)

106. African Dance (2)

Basic skills and technique in African dance designed to incorporate its role in African culture.

May be repeated to a maximum of 4 units in different semesters. (1 hour discussion, 2 hours studio)

108. Beginning Flamenco (2)

Basic skills and technique in the style of Flamenco dance designed to incorporate its role in Spanish culture.

May be repeated to a maximum of 4 units in different semesters. (1 hour discussion, 2 hours studio)

109. Beginning Hip-Hop (2)

Basic skills and technique in the style of Hip-Hop dance.

May be repeated to a maximum of 4 units in different semesters. (1 hour discussion, 2 hours studio)

110. Viewing Dance (3)

Prerequisite/Corequisite: One GE Foundation course.

Introduction to contemporary dance theater through viewing dance films (modern dance, ballet and ethnic), dance performances, and lecture/discussions on dance.

111A. Beginning Modern Dance (2)

Basic skills and techniques in modern dance.

Not open to dance majors. May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

111B. Beginning Modern Dance (2)

Prerequisite: DANC 111A or consent of instructor.

Continuing beginning skills and techniques in modern dance.

Not open to dance majors. May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

112A. Intermediate Modern Dance (2)

Prerequisite: DANC 111B or consent of instructor. Open to non-majors.

Low intermediate skill and techniques in modern dance.

May be repeated to a maximum of 8 units in different semesters. Dance majors/minors must take for letter grade. (4 hours studio)

112B. Intermediate Modern Dance (2)

Prerequisite: DANC 112A or consent of instructor. Open to non-majors.

Intermediate skill and techniques in modern dance.

May be repeated to a maximum of 8 units in different semesters. Dance majors/minors must take for letter grade. (4 hours studio)

113A. Beginning Ballet (2)

Basic skills and techniques in ballet. Not open to dance majors.

May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

113B. Beginning Ballet (2)

Prerequisite: DANC 113A or consent of instructor.

Continuing beginning skills and techniques in ballet. Not open to dance majors.

May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

114A. Intermediate Ballet (2)

Prerequisite: DANC 113B or consent of instructor. Open to non-majors.

Low intermediate skill and techniques in ballet.

May be repeated to a maximum of 8 units in different semesters. Dance majors/minors must take for letter grade. (4 hours studio)

114B. Intermediate Ballet (2)

Prerequisite: DANC 114A or consent of instructor. Open to non-majors.

Intermediate skill and techniques in ballet.

May be repeated to a maximum of 8 units in different semesters. Dance majors/minors must take for letter grade. (4 hours studio)

115. Beginning Jazz (2)

Basic skills and techniques of jazz.

Not open for credit to dance majors. May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

116. Intermediate Jazz (2)

Prerequisite: DANC 115 or consent of instructor.

Basic theory and practice of modern jazz dance.

May be repeated to a maximum of 8 units in different semesters. (4 hours studio)

117. Beginning Tap Technique (2)

Basic technique in the tap dance idiom, time steps, stylistic patterns, rhythmic patterns and tap combinations.

May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

119. Dance Activity I (1-2)

Basic skills and techniques in ballet, jazz, or modern dance technique.

Not open for credit to dance majors. May be repeated to a maximum of 4 units in different semesters. (2-4 hours studio)

120. Improvisation I (2)

Use of improvisation as an introduction to structural form; individual and group problems.

Letter grade only (A-F). (4 hours studio)

131. Introduction to Music for Dance (2)

Prerequisite(s): Dance Major or Minor

Basic music notation, simple and complex rhythmic patterns, poly-rhythms, skill in the use of percussion instruments and a brief survey of the historical periods of music for dance.

Letter grade only (A-F). (4 hours studio)

152. Modern Technique I (3)

Prerequisites: Dance Major or Minor, and placement screening.

Intermediate skill in modern dance technique.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

154. Ballet Technique I (3)

Prerequisites: Dance Major or Minor, and placement screening.

Intermediate skill in ballet technique.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

161. Placement for the Dancer (2)

Prerequisites: Open to Dance Majors and Minors.

Application of movement principles and exercises from various sources including anatomy, biomechanics and rehabilitation to improve body alignment, core stabilization, and other aspects of technique in key dance movement patterns.

Letter grade only (A-F). (4 hours studio)

180A. Dance Performance (1)

Prerequisites: Audition, dance major or minor.

Participation in dance productions.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (2 hours studio)

180B. Dance Performance (1)

Prerequisites: Audition, dance major or minor.

Participation in dance productions.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (2 hours studio)

181A. Dance Production Technical (1)

Technical participation in Dance Department-sponsored productions.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (2 hours studio)

181B. Dance Production Technical (1)

Technical participation in Dance Department-sponsored productions.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (2 hours studio)

200. Ballet History in Western Culture (3)

Prerequisites: Any GE Foundation Course.

Historical survey of the cultural development of ballet from the Renaissance to the early 20th century in Europe and Russia, and until 1950 in the United States. (3 hours lecture)

Letter grade only (A-F).

214. Ballet Pointe (1)

Prerequisite: Consent of instructor.

Development of the technique of dancing in pointe shoes.

May be repeated to a maximum of 4 units in different semesters. (2 studios hours)

216. Intermediate/Advanced Jazz (2)

Prerequisites: DANC 116 and placement screening, or consent of instructor.

Intermediate/advanced theory and practice of modern jazz dance.

May be repeated to a maximum of 8 units in different semesters. Dance majors/minors must take for letter grade. (4 hours studio)

217. Intermediate Tap Technique (2)

Prerequisite: DANC 117 or placement screening.

Intermediate skills in tap technique concentrating on rhythmic complexity, heightened tempos, and contemporary tap styles.

May be repeated to a maximum of 4 units in different semesters. (4 hours studio)

219. Dance Activity II (1-2)

Intermediate skills and techniques in ballet, jazz, or modern dance technique.

Not open for credit to dance majors. May be repeated to a maximum of 4 units in different semesters. (2-4 hours studio)

220. Dance Composition I (3)

Prerequisites: DANC 120. Corequisites: DANC 131.

Theory and practice in the basic elements of dance composition.
Letter grade only (A-F). (1 hour lecture, 4 hours studio)

252. Modern Technique II (3)

Prerequisites: Dance Major or Minor, and placement screening.
Intermediate skill in modern dance technique.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

254. Ballet Technique II (3)

Prerequisites: Dance Major or Minor, and placement screening.
Intermediate skill in ballet technique.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

260. Functional Anatomy for the Dancer (3)

Prerequisites: DANC 161 or consent of the instructor.

A thorough examination of major muscles, bones and joints as they relate to human movement. Performance of anatomical analyses of common conditioning exercises and key dance movements.

Letter grade only (A-F). (2 hours lecture, 2 hours studio).

261. Anatomy with Clay Laboratory (1)

Prerequisites: DANC 161 or consent of the instructor. Corequisites: DANC 260 or consent of the instructor.

Incorporates rendering muscles on manikens® with clay (user of Anatomy in Clay Learning Systems®) to aid in developing a three dimensional understanding of the location and actions of musculature vital for human movement.

Letter grade only (A-F). (2 hours lab)

262. Pilates I (3)

Prerequisites: Dance Major or Minor, DANC 260; or consent of instructor.

Beginning-intermediate level Pilates-based program, emphasizing the use of the Pilates apparatus, designed to enhance dance performance, movement coordination and physical conditioning.

Letter grade only (A-F). (1 hour seminar, 4 hours studio)

295. Repertory (1-3)

Prerequisites: Audition, dance major.

Experience in rehearsal and performance practice in an intensive format.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (2-6 hours studio)

UPPER DIVISION

312. Modern Technique III (2)

Prerequisites: Dance Major or Minor, and placement screening.
Intermediate/advanced skill in modern dance technique.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (6 hours studio)

313. Modern Dance Workshop (1-3)

Prerequisites: Dance major or minor or consent of instructor.

Exploration of the techniques of modern dance.

May be repeated to a maximum of 6 units in different semesters. (2-6 hours studio).

314. Ballet Technique III (2)

Prerequisites: Dance Major or Minor, and placement screening.
Intermediate/advanced skill in ballet technique.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (6 hours studio)

315. Ballet Workshop (1-3)

Prerequisites: Dance major and minor or consent of instructor.
Exploration of the techniques of ballet.

May be repeated to a maximum of 6 units in different semesters. (2-6 hours studio)

316. Advanced Jazz (2)

Prerequisites: DANC 216 and placement screening, or consent of instructor.

Advanced theory and practice of jazz technique.

May be repeated to a maximum of 8 units in different semesters.
Dance majors/minors must take for letter grade. (4 hours studio)

317. Advanced Tap Technique (2)

Prerequisites: DANC 117 and DANC 217 or consent of instructor.

Advanced skills in tap technique concentrating on rhythmic complexity, heightened tempos, improvisational work, and contemporary tap styles.

May be repeated to a maximum of 8 units in different semesters. (4 hours studio)

319. Dance Laboratory (1-3)

Participation in dance technique projects. Consent of instructor.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters. (2 hours studio per unit.)

320. Dance Composition II (3)

Prerequisite: DANC 220.

Development of theme and style in small group studies.

Letter grade only (A-F). (1 hour lecture, 4 hours studio)

321. Directed Choreography (1-3)

Prerequisites: Consent of instructor.

Independent choreographic projects finalized in a performance venue under supervision of a faculty member.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (3/4 - 2 1/4 hours studio)

342. Global Cultures and Dance Traditions (3)

Prerequisite: Completion of GE Foundation requirements.

Comparison of dance practices within diverse world cultures.

Letter grade only (A-F). (3 hours lecture)

362. Pilates II (2)

Prerequisites: Dance Major or Minor, DANC 262; or consent of instructor.

Intermediate-advanced level. Pilates-based conditioning program which employs a series of exercises designed to enhance dance performance and prevent injury, utilizing apparatus based on designs of Joseph Pilates, exercise balls, free weights and body for resistance.

Letter grade only (A-F). (4 hours studio)

373. Nonverbal Communication: Interaction of Mind and Body (3)

Prerequisites: GE Foundation requirements, completion of one or more Exploration course(s), and upper division standing.

History and theories of the development of mind/body integration. Enhancement of personal and interpersonal relations through lectures, discussion, films and movement experiences. Analysis and synthesis of the interdependence of the psychological and physical processes in nonverbal communication.

Same course as ED P 373. Not open for credit to students with credit in ED P 373.

380A,B. Dance Performance (1,1)

Prerequisite: Open to Dance Majors and Minors only.

Participation as a performer and/or choreographer in Dance Department productions. Concert participation is by audition only.

A combination of 380A,B and 480A,B may be repeated to a maximum of 8 units. (3 or more hours studio)

381A. Dance Production Technical (1)

Prerequisites: Open to dance majors and minors.

Technical production participation in Dance Department sponsored productions.
Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated to a total of 8 units. (2 hours or more studio)

381B. Dance Production Technical (1)

Prerequisites: Open to dance majors and minors.

Technical production participation in Dance Department sponsored productions.

Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated to a maximum of 8 units. (2 hours or more studio)

412. Modern Technique IV (2)

Prerequisites: Dance Major or Minor, and placement screening.

Advanced skill in modern dance technique.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters. (6 hours studio)

414. Ballet Technique IV (2)

Prerequisites: Dance Major or Minor, and placement screening.

Advanced skills in ballet technique.

Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters. (6 hours studio)

420. Advanced Composition (2)

Prerequisite: DANC 320 or consent of instructor.

Approaches to the development of choreographic materials of extended structure and content.

Letter grade only (A-F). (4 hours studio)

426. Intermediate/Advanced Ballet Pointe (1)

Prerequisites: DANC 214 or consent of instructor.

Intermediate skill development in ballet pointe technique.

May be repeated to a maximum of 4 units in different semesters. (2 hours studio)

435. Dancing Bodies: Choreography and the Screen (3)

Prerequisites: Completion of GE Foundation requirements, one or more Exploration course(s), and upper division standing. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone. (3 hour Lecture)

442. Dance and Social Identity in the U.S. (3)

Prerequisite: Completion of GE Foundation requirements. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

Development of dance in the American context and its socio-cultural influences and concert forms.

Letter grade only (A-F). (2 hours lecture, 2 hours studio)

445. Movement Analysis (3)

Prerequisites: Open to Dance Majors and Minors only.

Study of the principles underlying movement and their application to all areas of movement study.

Letter grade only (A-F). (Lecture 2 hours, 2 hours studio)

470A. Dance Pedagogy (3)

Prerequisite: Upper division standing, or consent of instructor.

Methods of teaching dance technique for studios, recreation departments, companies, secondary schools, colleges, and universities. Emphasis on teaching teenagers and adult beginners.

Letter grade only (A-F). (2 hours lecture, 2 hours studio)

470B. Ballet Pedagogy (3)

Prerequisites: Upper division standing, or consent of instructor.

Methods of teaching ballet technique for studios, recreation departments, companies, secondary schools, colleges, and universities. (1 hour lecture, 4 hours studio)

Letter grade only (A-F).

475. Dance for Children (3)

Prerequisite: Upper division standing, or consent of instructor.

Practical experience in teaching creative dance to children. Includes improvisational approaches to teaching elements of dance, exploration and practical implementation of teaching and learning theories, and incorporation of the California Visual and Arts dance standards into elementary school curriculum.

Letter grade only (A-F). (2 hours lecture, 2 hours studio)

480A,B. Dance Performance (1,1)

Prerequisite: Open to Dance Majors and Minors only.

Participation as a performer and/or choreographer in Dance Department approved University-sponsored production. Most concert participation is by audition only.

A combination of 380A,B and 480A,B may be repeated to a total of 8 units. (3 or more hours studio)

481A. Dance Production-Technical (1)

Prerequisites: Open to dance majors or minors.

Technical participation in Dance Department-sponsored productions.

Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated to a total of 8 units. (2 hours or more studio)

481B. Dance Production-Technical (1)

Prerequisites: Open to dance majors or minors.

Technical participation in Dance Department-sponsored productions.

Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated to a total of 8 units. (2 hours or more studio)

488. Organization of Dance Production (3)

Prerequisite or Corequisite: DANC 312.

Analysis and practice in the production elements of dance concerts. Course is coordinated with a department concert.

Letter grade only (A-F).

490. Selected Topics in Dance (1-3)

Prerequisite: Consent of instructor.

Topics of current interest in the field of dance selected for special presentation and development.

May be repeated to a maximum of 12 units with different topics in different semesters or consent of department chair. Topics announced in the *Schedule of Classes*.

491A. Design for Dance Lighting (3)

Prerequisites: Upper division standing or consent of instructor.

Techniques of designing lighting for dance. Practical applications include designing and executing lighting for dance for concerts in various settings.

Letter grade only (A-F). (1 hour lecture, 4 hours studio)

491B. Design for Dance Costuming (3)

Prerequisites: Upper division standing or consent of instructor.

Designing and constructing costumes for dance.

(1 hour lecture, 4 hours studio)

495. Repertory (1-3)

Prerequisite: Audition.

Students learn and perform works of distinguished choreographers. Leads to concert performance.

May be repeated to a maximum of 18 units provided it is with a different instructor each time. (2-6 hours studio)

498. Senior Seminar in Dance (2)

Prerequisite: Senior standing in the BFA program or consent of instructor.

Culmination of undergraduate study resulting in individual projects that vary according to artistic, intellectual, and career goals.

Letter grade only (A-F). (1 hour seminar, 2 hours activity)

499. Directed Studies in Dance (1-3)

Prerequisite: Consent of instructor.

Independent projects and research of advanced nature in any area of dance.

Letter grade only (A-F). Course may be repeated to a maximum of 12 units in different semesters. (2-6 hours studio)

GRADUATE LEVEL

505. Dance Pedagogy (3)

Prerequisite: Acceptance into MFA program or consent of advisor.

Theory and methods specific to the teaching of dance technique in secondary and post-secondary education.

Letter grade only (A-F). (1 hour lecture, 4 hours studio)

510A,B,C. Technique Laboratory (1-3, 1-3, 1-3)

Prerequisite: Admission into the MA or MFA degree program.

Intermediate to intermediate/advanced skill in modern dance technique for the graduate student.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (2-6 hours studio)

511A. Intermediate/Advanced Modern Technique (2)

Prerequisites/Corequisites: Admission into the MFA degree program.

Intermediate/Advanced skill in modern dance technique for the graduate student.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

511B. Intermediate/Advanced Ballet Technique (2)

Prerequisites/Corequisites: Admission into the MFA degree program.

Intermediate/Advanced skill in ballet technique for the graduate student.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hours studio)

512. Advanced Modern Technique (2)

Prerequisites: Placement screening.

Advanced skill in modern dance technique for the graduate student.

Letter grade only (A-F). May be repeated to a maximum of 12 units in different semesters. (6 hours studio)

514. Advanced Ballet Technique (2)

Prerequisite: Placement screening.

Advanced skill in ballet technique for the graduate student.

Letter grade only (A-F). May be repeated to a maximum of 12 units in different semesters. (6 hours studio)

520A. Choreography A (3)

Prerequisite: Admission into the MFA degree program.

Will center on development of advanced approached to choreographic materials and techniques. It will emphasize outlining of artistic ideas in written form before physical realization, and will emphasize composing and shaping choreography based on clearly stated concepts.

Letter grade only (A-F). (4 hours activity; 1 hour discussion)

520B. Choreography B (3)

Prerequisite: Admission into the MFA program for dance.

Methods and practice of developing choreography utilizing music/

composers as the basis for compositional exploration.

Letter grade only (A-F). (4 hours activity; 1 hour discussion)

520C. Choreography C (3)

Prerequisite: Admission into the M.F.A. program.

Advanced study of choreographic methods concentrating on development of choreography inspired by, and relating to, other art forms. Compositional studies geared to traditional theatrical venues and alternate performing venues will be explored.

Letter grade only (A-F). (4 hours activity; 1 hour discussion).

520D. Choreography D (3)

Prerequisite: Admission into the M.F.A. program.

Concentrates on development of dance choreography designed for presentation through video, and video used as an integrated/ supporting form in live performance. Emphasizes skills and techniques in the exploration of dance documentation and the shooting and editing of digital video.

Letter grade only (A-F). (4 hours activity; 1 hour discussion).

521. Dance Composition III (3)

Prerequisite: Admission to the MA degree program in Dance.

Methods and practice of developing choreography as related to the high school and community college setting.

Letter grade only (A-F). (1 hour lec., 4 hours lab)

522. Composition IV (3)

Prerequisite: Admission into the MA degree program.

Methods and practice in developing more advanced choreographic studies related to a high school or community college setting.

Letter grade only (A-F). (4 hours studio; 1 lecture hour).

565. Dance Science as Related to Teaching Technique (3)

Prerequisite: DANC 260 and DANC 505, or consent of instructor.

Application of anatomical principles, scientific principles of training, and biomechanical principles to more effectively design and teach dance technique classes.

Letter grade only (A-F). (1 hour lec., 4 hours lab)

580A. Dance Performance (1)

Prerequisite: Audition.

Participation as a performer and/or choreographer in Dance Department approved University-sponsored production.

Letter grade only (A-F). May be repeated to a maximum of 2 units. (3 or more hours studio)

580B. Dance Performance (1)

Prerequisite: Audition.

Participation as a performer and/or choreographer in Dance Department approved University-sponsored production.

Letter grade only (A-F). May be repeated to a maximum of 2 units. (2 hours studio)

585A. Dance Performance (1)

Prerequisite: Audition.

Participation as a performer and/or choreographer in Dance Department approved University-sponsored production.

Letter grade only (A-F). May be repeated to a maximum of 2 units. (3 or more hours studio)

585B. Dance Performance (1)

Prerequisite: Audition.

Participation as a performer and/or choreographer in Dance

Department approved University-sponsored production.

Letter grade only (A-F). May be repeated to a maximum of 2 units. (2 hours studio)

588. Seminar in Dance Management (2)

Techniques and practices in producing and promoting dance performances in fixed sites and in touring venues relevant to the production of MFA thesis concerts and to venues outside the University. For graduate students with prior experience in the field.

Letter grade only (A-F).

590. Selected Topics in Dance (1-3)

Prerequisite: Acceptance into MFA program in dance.

Topics of current interest to graduate students in dance will be selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in *Schedule of Classes*.

591A. Advanced Design for Dance Lighting (3)

Provides students with advanced work in design lighting for dance, and offers the in-depth technical knowledge and practical experience necessary to the execution of complete lighting plots.

Letter grade only (A-F). (6 hours studio)

591B. Advanced Design for Dance Costuming (3)

Provides graduate students with advanced coursework in designing costumes for dance, and with skills necessary to execute the designs.

Letter grade only (A-F). (6 hours studio)

592. Selected Topics in Dance (1-3)

Prerequisite: Acceptance into MFA program in dance.

Topics of current interest to graduate students in dance will be selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. Topics announced in the *Schedule of Classes*. (2-6 hours studio)

595. Repertory (1-3)

Prerequisite: Audition.

For graduate dance majors to learn more advanced works from the repertoire of noted choreographers or to have new works created on the students by distinguished choreographers.

Letter grade only (A-F). May be repeated to a maximum of 6 units. (2-6 hours studio)

597. Criticism and Analysis of Dance (3)

Prerequisite: Acceptance into the graduate degree programs in dance.

Introduction to dance studies through viewing historical and contemporary choreography and readings in criticism, aesthetics, and theory. Writing and choreographic lab experiences.

Letter grade only (A-F). (2 hours lecture, 2 hours activity)

599. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Individual research or project under the guidance of a faculty member.

May be repeated to a maximum of 12 units in different semesters. (2-6 hours studio) Letter grade only (A-F).

605. Seminar in Dance (2-3)

Prerequisites: Acceptance into the MA or MFA in Dance.

Will be conducted as a seminar. Literature, including research

appropriate to the particular topic of the course, will be examined and discussed.

Letter grade only (A-F).

642. Seminar in Dance History (3)

Intensive study of selected topics in the History of Dance.

Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics.

693. Teaching Internship (1-3)

Prerequisite: Acceptance into the M.F.A. program in Dance.

Opportunity to work with full-time Dance faculty member in course preparation and instruction in one area of dance theory.

Letter grade only (A-F).

698. Thesis/Project (1-6)

Prerequisite: Advancement to candidacy.

Planning, preparation, and completion of a thesis/project in dance for the M.A. degree.

Letter grade only (A-F). May be repeated to a maximum of 6 units.

699. Thesis/Project (1-6)

Prerequisite: Advancement to Candidacy.

Planning, preparation, and completion of thesis/project in dance for the M.F.A. degree.

Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

DESIGN

College of the Arts

Department Chair: Martin Herman

Department Office: Design (DESN), Room 101

Telephone / FAX: (562) 985-5089 / (562) 985-2284

Website: <http://www.csulb.edu/depts/design/>

Undergraduate Advisor: B.A./B.F.A./B.S.: Rachael Ryan
(562) 985-4368; Design (DESN), Room 107

Faculty: Heather Barker, John Kleinpeter, Dorothy Ottolia, Eduardo Perez, José Rivera-Chang, Debra Satterfield, David Teubner, Wesley Woelfel

Administrative Coordinator: Diane Stein

Operations Coordinator: Pamela Bee

Administrative Assistant: Arnel Ignacio

Career Possibilities

Interior Designer • Industrial Designer • Display/Exhibit Designer • Environmental Graphic Designer • Furniture Designer • Automotive Designer • Model Maker • Package Designer • Technical Illustrator • Teacher • Consultant • Commercial Artist • Architectural Illustrator • Product Designer • 3-D Graphic Illustrator (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

Today's designer must achieve sufficient educational breadth to adapt successfully to the varying demands imposed on their work by economic, social and psychological factors. A methodology for encouraging the creative problem solving process and the skill to express visual ideas with clarity must be obtained. A competitive portfolio review is held each year to identify students whose work has reached a level of competence necessary to advance to junior- and senior-level courses in Interior Design and Industrial Design. After passing portfolio requirements, selected students are officially admitted to the B.F.A. and B.S. programs. The B.A. program is open to all students.

The academic programs of the Department of Design have been accredited by the National Association of Schools of Art and Design (National Association of Schools of Art and Design, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

Programs at a Glance

Bachelor of Arts in Design
Bachelor of Fine Arts in Interior Design
Bachelor of Science in Industrial Design

Undergraduate Programs

Bachelor of Arts in Design (120 Units)

This liberal arts degree provides the opportunity for the student to gain a broad exposure to the discipline. In addition to receiving a foundation through the core courses, the curriculum enables students to tailor their studies with

electives from inside or outside of the college.

Students interested in the BA program in Design should apply as early in their academic career as possible, but no later than 60 units.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

Lower Division:

Take a minimum of 6 units from the following courses:

DESN 110 Foundation Design History (3)
Prerequisite: None

DESN 268: History and Theory of Sustainability in Design (3)
Prerequisite: Completion of GE Foundation requirements or consent of instructor.

AH 111A Foundation Art History I (3)
Prerequisite: One GE Foundation course

AH 111B Foundation Art History II (3)
Prerequisite: One GE Foundation course

Take all of the following courses:

DESN 120A Fundamentals of Design (3)
**C" or better
Prerequisite: None

DESN 120B Fundamentals of Design (3)
**C" or better
Prerequisite: DESN 120A or consent of instructor
Prerequisite/Corequisite: DESN 151.

DESN 132A Perspective and Rendering Systems (3)
Prerequisite: None

DESN 132B Perspective and Rendering Systems (3)
Prerequisites: DESN 132A or consent of instructor

DESN 151 Design Materials and Tools (2)
Prerequisite: None

DESN 232 Visualization Techniques (3)
Prerequisites: DESN 120B, DESN 132B or consent of instructor

DESN 255 2D Computer-Aided Graphics (3)
Prerequisites: DESN 150 or DESN 141 or consent of instructor

Choose one from the following:

DESN 141 Interior Architectural Drafting (3)
Prerequisite: None

DESN 150 Design Drafting (3)
Prerequisite: None

Choose one of the following:

DESN 156 3D Computer-Aided Design (3)
Prerequisite: DESN 150 or consent of instructor

DESN 246 Computer-Aided Drafting (3)
Prerequisite: DESN 141 or consent of instructor

Upper Division:

Choose one of the following:

DESN 346 Computer-Aided Design - 3D Modeling (3)

Prerequisites: DESN 120B, DESN 151, DESN 232, DESN 246; and for BFA: DESN 312; and for BA: DESN 255; or consent of instructor

DESN 356 Advanced 3D Computer-Aided Design (3)
Prerequisites: DESN 120B, DESN 150, DESN 151, DESN 156, DESN 232, and DESN 255 or consent of instructor

Take all of the following courses:

DESN 360A Environmental Communication Design (3)
Prerequisites: 6 units from DESN 110, DESN 268, AH 111A, 111B; DESN 156 or DESN 246, DESN 232, DESN 255 and DESN 346 or DESN 356 or consent of instructor.

DESN 360B Advanced Environmental Communication Design (3)
Prerequisites: DESN 360A or consent of instructor. For Art majors: ART 327 or consent of instructor.

DESN 450 BA Senior Project (3)
Prerequisites: DESN 346 or DESN 356, DESN 360A, and 3 units of DESN History or consent of instructor.

Choose one of the following:

DESN 368 History and Theory of Design (3)
Prerequisite: Completion of GE Foundation requirements.

DESN 369 History of Furniture and Decorative Arts (3)
Prerequisite: Completion of GE Foundation requirements.

Take a minimum of 16 units from the following courses:

DESN 300, DESN 344A, DESN 344B, DESN 351A, DESN 351B, DESN 352A, DESN 352B, DESN 366, DESN 367, DESN 368, DESN 369, DESN 370, DESN 435A, DESN 435B

Additional Requirements

A total of 120 units is required for degree completion.

*Students must achieve "C" or better in each course required by the major.

Bachelor of Fine Arts in Interior Design (132 units)

This degree prepares students who will eventually seek a master's degree or a position as a professional designer. The BFA program is a rigorous and competitive one. Portfolios are reviewed in the spring semester for fall admission to Junior standing in this degree program.

Applicants to the BFA program must receive a positive recommendation following review of a portfolio submitted by the applicant. For BFA portfolio review consideration, a student must be enrolled in or have successfully completed DESN 245, DESN 255, DESN 312 and DESN 340 with a "C" or better.

Contact department for details of portfolio submission and review process.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

Lower Division:

Take all of the following courses:

DESN 120A Fundamentals of Design (3)
**"C" or better
Prerequisite: None

DESN 120B Fundamentals of Design (3)
**"C" or better
Prerequisite: DESN 120A or consent of instructor.

DESN 132A Perspective and Rendering Systems (3)
Prerequisite: None

DESN 132B Perspective and Rendering Systems (3)
Prerequisites: DESN 132A or consent of instructor.

DESN 141 Interior Architectural Drafting (3)
Prerequisite: None

DESN 142 Beginning Space Planning (3)
Prerequisites: DESN 120A, DESN 132A, DESN 141 and BFA Interior Design Major status; BA in Design with consent of instructor.

DESN 143 Materials of Interiors (3)
Prerequisites: DESN 142 or consent of instructor.

DESN 151 Design Materials and Tools (2)
Prerequisite: None

DESN 232 Visualization Techniques (3)
Prerequisites: DESN 120B, DESN 132B or consent of instructor.

DESN 244 Lighting Design for Interior Architecture (3)
Prerequisites: DESN 120B, DESN 132B and DESN 142 or consent of instructor.

DESN 245 Building Systems for Interior Architecture (3)
Prerequisites: DESN 142 or consent of instructor.

DESN 246 Computer-Aided Drafting (3)
Prerequisite: DESN 141 or consent of instructor.

DESN 255 2D Computer-Aided Graphics (3)
Prerequisites: DESN 150 or DESN 141 or consent of instructor.

Upper Division:

Take all of the following courses:

DESN 312 Interior Architectural Model Building (3)
Prerequisites: DESN 120B, DESN 132B, DESN 142 and DESN 151 or consent of instructor.

DESN 340 Interior Design Process and Theory (3)
Prerequisites: DESN 132B and 142 or consent of instructor.

DESN 341A Interior Design (4)
Prerequisites: DESN 244, DESN 245, DESN 246, DESN 312, DESN 340 and Junior standing in the Interior Design program or consent of instructor.

DESN 341B Interior Design (4)
Prerequisites: DESN 341A and Junior standing in the Interior Design program or consent of instructor.

DESN 342 Interior/Architectural Presentations (3)
Prerequisites: DESN 232, DESN 340, Junior standing in the Interior Design program. Corequisite: DESN 341A or consent of instructor.

DESN 343 Advanced Drafting and Detailing (3)
Prerequisites: DESN 245, DESN 312 and Junior standing in the Interior Design program or consent of instructor.

DESN 346 Computer-Aided Design – 3D Modeling (3)
Prerequisites: DESN 120B, DESN 151, DESN 232, DESN 246; and for BFA: DESN 312; and for BA: DESN 255; or consent of instructor.

DESN 367 History and Theory of Architecture (3)
Prerequisite: Completion of GE Foundation requirements.

DESN 369 History of Furniture and Decorative Arts (3)
Prerequisite: Completion of GE Foundation requirements.

DESN 440 Professional Practice for Interior Architecture (3)

Prerequisites: Completion of GE Foundation requirements, completion of one or more Exploration courses, and upper division status. A score of 11 or higher on the GWAR Placement Examination, or completion of the necessary portfolio course required as a prerequisite for GWAR Writing Intensive Capstones. Corequisites: DESN 441A or consent of instructor.

DESN 441A Advanced Interior Design (4)
Prerequisites: DESN 341B, 343 or consent of instructor.

DESN 441B Advanced Interior Design (4)
Prerequisite: DESN 441A or consent of instructor.

A total of 132 units is required for degree completion. Students must achieve "C" or better in each course required by the major.

Bachelor of Science in Industrial Design (120 units)

This degree program is concerned with the relationship between technology and the visual arts. It includes background courses in engineering and sciences. Portfolio review is required for admission to the professional BS program. Portfolios are reviewed in the spring semester for fall admission to Junior standing in this degree program. Applicants to the BS program must receive a positive recommendation following review of a portfolio submitted by the applicant. For BS portfolio review consideration, a student must be enrolled in or have successfully completed DESN 280, 320 and 356 with a "C" or better. Contact department for details of portfolio submission and review process.

Admission Under Impaction

Refer to the following website for additional impaction criteria: http://www.csulb.edu/depts/enrollment/admissions/impacted_major.html.

Requirements

Lower Division:

Take 3 units from the following courses:

DESN 110 Foundation Design History (3)
Prerequisite: None

DESN 268 History and Theory of Sustainability in Design (3)
Prerequisite: GE Foundation Requirements or consent of instructor

AH 111A Foundation Art History I (3)
Prerequisite: One GE Foundation course

AH 111B Foundation Art History II (3)
Prerequisite: One GE Foundation course

Take all of the following courses:

DESN 120A Fundamentals of Design (3)
**C" or better
Prerequisite: None

DESN 120B Fundamentals of Design (3)
**C" or better
Prerequisite: DESN 120A or consent of instructor
Prerequisite/Corequisite: DESN 151.

DESN 132A Perspective and Rendering Systems (3)
Prerequisite: None

DESN 132B Perspective and Rendering Systems (3)
Prerequisites: DESN 132A or consent of instructor

DESN 150 Design Drafting (3)
Prerequisite: None

DESN 151 Design Materials and Tools (2)
Prerequisite: None

DESN 154 Modeling and Prototyping Techniques (3)
Prerequisites: DESN 150 and DESN 151 or consent of instructor.

DESN 156 3D Computer-Aided Design (3)
Prerequisites: DESN 150 or consent of instructor.

DESN 232 Visualization Techniques (3)
Prerequisites: DESN 120B, DESN 132B or consent of

instructor.

DESN 254 Production Materials and Techniques (3)
Prerequisites: DESN 154 and DESN 156 or consent of instructor.

DESN 255 2D Computer-Aided Graphics (3)
Prerequisites: DESN 150 or DESN 141 or consent of instructor

DESN 280 Industrial Design Processes (3)
Prerequisites/Corequisites: DESN 154, DESN 156, DESN 232 and DESN 255 or consent of instructor.

Upper Division:

Take all of the following courses:

DESN 300 Designers in Their Own Words (3)
Prerequisites: 6 units from DESN 110, DESN 268, AH 111A, AH111B or consent of instructor.

DESN 320 Advanced Form Study (3)
Prerequisites: DESN 232 and consent of instructor.

DESN 332 Visualization Techniques (3)
Prerequisite: DESN 232 or consent of instructor.

DESN 331A Industrial Design (3)
Prerequisites: DESN 280 and Junior standing in the Industrial Design program or consent of instructor.

DESN 331B Industrial Design (3)
Prerequisites: DESN 331A and Junior standing in the Industrial Design program or consent of instructor.

DESN 333A Industrial Design Methodology (3)
Prerequisites: DESN 280 and Junior standing in the professional program or consent of instructor.

DESN 333B Industrial Design Methodology (3)
Prerequisites: DESN 333A and Junior standing in the Industrial Design program or consent of instructor.

DESN 356 Advanced 3D Computer-Aided Design (3)
Prerequisites: DESN 120B, DESN 150, DESN 151, DESN 156, DESN 232, and DESN 255.

DESN 368 History and Theory of Design (3)
Prerequisite: Completion of GE Foundation requirements.

DESN 431A Advanced Industrial Design (4)
Prerequisite: DESN 331B or consent of instructor.

DESN 431B Advanced Industrial Design (4)
Prerequisite: DESN 431A or consent of instructor.

DESN 435A Furniture Design (3)
Prerequisites: DESN 151, DESN 232; and for BS: DESN 331A; and for BFA: DESN 341A; and for BA: DESN 255 and DESN 346 or DESN 356; or consent of instructor.

Additional Requirements

Take a minimum of 3 units chosen from the following:
PHSC 112; PHYS 100A, PHYS 151, PHYS 152; CHEM 100; GEOL 102, GEOL 110, GEOL 160; BIOL 200, BIOL 205, BIOL 207.

A total of 120 units is required for degree completion.
*Students must achieve "C" or better in each course required by the major.

Courses (DESN)

LOWER DIVISION

110. Foundation Design History (3)

General survey of the history of design and its evolution through various stages leading to its current expression, analyzing the social influences and contributions of prominent designers of various periods.

Letter grade only (A-F).

120A-B. Fundamentals of Design (3-3)

Prerequisite for DESN 120A: none;
Prerequisite for DESN 120B: DESN 120A or consent of instructor.
Prerequisite/Corequisite for DESN 120B: DESN 151.

Systematic approach to process of designing dimensional objects including color theory, surface, volume investigation.

Letter grade only (A-F). (6 hours laboratory)

132A-B. Perspective and Rendering Systems (3-3)

Prerequisites: for DESN 132A: none; for DESN 132B: DESN 132A or consent of instructor.

Fundamentals of design drawing techniques include perspective, sketching, and rendering techniques for objects and environments.

Letter grade only (A-F). (6 hours laboratory)

141. Interior/Architectural Drafting (3)

Architectural drafting graphic techniques used in light framing, commercial construction with emphasis on interiors.

Letter grade only (A-F). Course fee may be required. (6 hours laboratory)

142. Beginning Space Planning (3)

Prerequisites: DESN 120A, DESN 132A, DESN 141 and BFA Interior Design Major status; BA in Design with consent of instructor.

Fundamental skill development in space planning for interiors. Function, human factors, user experience, aesthetic, perceptual and code related factors are explored.

Letter grade only (A-F). (6 hours laboratory)

143. Materials of Interiors (3)

Prerequisites: DESN 142 or consent of instructor.

In-depth exploration of construction materials, finishes and furnishings, manufacturing processes, resources, sustainability and lifecycle issues related to interior architecture. Examination of materials technology, product innovations and applications through lecture, demonstration and field trips.

Letter grade only (A-F). (3 hours seminar) Not open for credit for students with credit in DESN 243.

150. Design Drafting (3)

Introduction to manual and computer-aided drafting. Includes orthographic and isometric views, cross sections, part and assembly drawing.

Letter grade only (A-F). Course fee may be required. (6 hours laboratory)

151. Design Materials and Tools (2)

Hands-on experience with wood, metal, plastic materials, the technical tools for creating form. Includes appropriate safety instruction for use of power equipment.

Letter grade only (A-F). (4 hours laboratory)

154. Modeling and Prototyping Techniques (3)

Prerequisites: DESN 150, DESN 151 or consent of instructor.

Materials, processes, techniques for creating mock-ups, models, prototypes used by industrial designers.

Letter grade only (A-F). (6 hours laboratory)

156. 3D Computer-Aided Design (3)

Prerequisites: DESN 150 or consent of instructor.

Computer-aided modeling strategies techniques for depicting three-dimensional surfaces, solids.

Letter grade only (A-F). Course fee may be required. (6 hours laboratory)

232. Visualization Techniques (3)

Prerequisites: DESN 120B, DESN 132B or consent of instructor.

Focus on design sketching and presentation skills utilizing industry standard techniques for both objects and environments.

Not open for credit to students with credit in DESN 232A. Letter grade only (A-F). (6 hours laboratory)

244. Lighting Design for Interior Architecture (3)

Prerequisites: DESN 120B, DESN 132B and DESN 142 or consent of instructor.

Exploration of fundamentals of natural and engineered light in architectural and interior space. Specific focus on lighting as it supports design, relates to energy efficiency and human factors.

Letter grade only (A-F). (6 hours laboratory)

245. Building Systems for Interior Architecture (3)

Prerequisites: DESN 142 or consent of instructor.

Fundamental applications of typical building systems (structural, mechanical, plumbing, electrical along with building energy efficiencies/assemblies) as they influence interior architectural design.

Letter grade only (A-F). (3 hours lecture)

246. Computer-Aided Drafting (3)

Prerequisite: DESN 141 or consent of instructor.

Principles, methods of computer graphic applications utilizing AutoCad. Computer drafting of commercial, residential projects.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. Course fee may be required. (6 hours of laboratory)

254. Production Materials and Technical Processes (3)

Prerequisites: DESN 154, DESN 156 or consent of instructor.

Study of production processes, industrial materials utilized in the manufacturing of products. Includes introduction to rapid prototyping.

Letter grade only (A-F). Course fee may be required. (6 hours laboratory)

255. 2D Computer-Aided Graphics (3)

Prerequisites: DESN 150 or DESN 141 or consent of instructor.

Introduction to computer-aided graphics and image manipulation. Composition with typography and image for presentation authoring. Technology and terminology for digital media processes.

Letter grade only (A-F). (6 hours laboratory) Course fee may be required. Not open for credit for students with credit in DESN 256.

268. History and Theory of Sustainability in Design (3)

Prerequisites: GE Foundation Requirements or consent of instructor.

Explores the intellectual and cultural foundations of sustainability issues across design practices and disciplines in human society including historical, contemporary and future theories.

Letter grade only (A-F). (3 hours lecture)

280. Industrial Design Processes (3)

Prerequisites/Corequisites: DESN 154, DESN 156, DESN 232, and DESN 255 or consent of instructor.

Introductory course in the design processes utilized by industrial designers for product development.

Letter grade only (A-F). (6 hours laboratory)

UPPER DIVISION

300. Designers in Their Own Words (3)

Prerequisites: 3 units from DESN 110, DESN 268, AH 111A, AH 111B or consent of instructor.

Prominent design professionals discuss their career experiences and offer advice through formal presentations to design majors and guests.

Letter grade only (A-F). May be repeated up to 6 units.

312. Interior Architectural Model Building (3)

Prerequisites: DESN 120B, DESN 132B, DESN 142 and DESN 151 or consent of instructor.

Building of interior and architectural models for construction, design analysis, presentation.

Letter grade only (A-F). (6 hours laboratory) Not open for credit to students with credit in DESN 242.

320. Advanced Form Study (3)

Prerequisites: DESN 232 and consent of instructor.

Development of 3D models as it relates to Industrial Design. Form generation with emphasis on structure, proportion, surface, transition, detail and trim.

Letter grade only (A-F). (6 hours laboratory)

331A. Industrial Design (3)

Prerequisites: DESN 280 and Junior standing in the Industrial Design program or consent of instructor.

Planning and design of products for industrial production and services. Awareness in user research, scenarios, product manufacturing and styling.

Letter grade only (A-F). (6 hours laboratory)

331B. Industrial Design (3)

Prerequisites: DESN 331A and Junior standing in the Industrial Design program or consent of instructor.

Further planning and design of products for industrial production and services. Awareness in user research, scenarios, product manufacturing and styling.

Letter grade only (A-F). (6 hours laboratory)

332. Visualization Techniques (3)

Prerequisite: DESN 232 or consent of instructor.

Focus on design collaborative projects, sketch and mock-up explorations, and visualizing ideas using digital sketching tools.

Letter grade only (A-F). (6 hours of laboratory) Not open for credit to students with credit in: 232B.

333A. Industrial Design Methodology (3)

Prerequisites: DESN 280 and Junior standing in the professional program or consent of instructor.

Examination of methods, techniques in design problem solving. Course requires student-owned laptop computer. See Department of Design website for current laptop hardware and software specifications.

Letter grade only (A-F). (6 hours laboratory)

333B. Industrial Design Methodology (3)

Prerequisites: DESN 333A and Junior standing in the Industrial Design program or consent of instructor.

Further examination of methods, techniques in design problem solving. Course requires student-owned laptop computer. See Department of Design website for current laptop hardware and software specifications.

Letter grade only (A-F). (6 hours laboratory)

340. Interior Design Process and Theory (3)

Prerequisites: DESN 132B and 142 or consent of instructor

Development of design methodology and exploration of design ideas, processes and sustainability for solving limited scale problems in interior space.

Letter grade only (A-F). (6 hours laboratory) Not open for credit to students with credit in 241.

341A. Interior Design (4)

Prerequisites: DESN 340, DESN 312, DESN 244, DESN 245, DESN 246 and Junior standing in the Interior Design program or consent of instructor.

Focused explorations in the design of sustainable interior environments emphasizing interrelationships between space, architectural form, materials and human factors.

Letter grade only (A-F). (8 hours laboratory)

341B. Interior Design (4)

Prerequisites: DESN 341A and Junior standing in the Interior Design program or consent of instructor.

Further explorations in the design of sustainable interior environments emphasizing spatial dynamics, material and formal applications and focused solutions on environmental and human factors with an emphasis on developing design language proficiency.

Letter grade only (A-F). (8 hours laboratory) May require student-owned laptop computer. See Department website for current laptop hardware and software specifications.

342. Interior/Architectural Presentations (3)

Prerequisites: DESN 232, DESN 340 and Junior standing in the Interior Design program.

Corequisite: DESN 341A or consent of instructor.

Further explorations in the design of sustainable interior environments emphasizing spatial dynamics, material and formal applications and focused solutions on environmental and human factors with an emphasis on developing design language proficiency.

Letter grade only (A-F). (6 hours laboratory)

343. Advanced Drafting and Detailing (3)

Prerequisites: DESN 312, DESN 245 and Junior standing in the Interior Design program or consent of instructor.

Development of advanced drafting and detailing skills for interior architectural design; specifically related to construction processes, materials, joining solutions, and representational conventions.

Letter grade only (A-F). (6 hours laboratory) May require student-owned laptop computer. See Department website for current laptop hardware and software specifications.

344A. Display and Exhibition Design (3)

Prerequisites: 6 units from DESN 110, DESN 268, AH 111A, AH 111B; DESN 120B, DESN 141 or DESN 150, DESN 232, or consent of instructor.

Use of materials, processes, design concepts in planning preparation of displays, exhibits.

Letter grade only (A-F). (6 hours laboratory)

344B. Display and Exhibition Design (3)

Prerequisites: DESN 344A or consent of instructor.

Use of materials, processes, design concepts in planning preparation of displays, exhibits.

Letter grade only (A-F). (6 hours of laboratory)

346. Computer-Aided Design – 3D Modeling (3)

Prerequisites: DESN 120B, DESN 151, DESN 232, DESN 246; and for BFA: DESN 312, and for BA: DESN 255; or consent of instructor.

Computer-aided drawing, rendering, 3D drawing, solid modeling. Includes lighting, animation techniques for spatial/architectural modeling, design.

Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. Course fee may be required. (6 hours lab)

351A. Process of Architectural/Interior Lighting Design (3)

Prerequisites: DESN 232, DESN 244 or consent of instructor.

Further development in the design processes of natural and engineered lighting solutions in architectural and interior space. Specific focus on current technologies and materials.

Letter grade only (A-F). (6 hours laboratory)

351B. Applications of Architectural/Interior Lighting Design (3)

Prerequisites: DESN 351A or consent of instructor

Focused development of major categories of lighting design application (residential, office, wayfinding, etc.). Specific attention given to common principles, equipment, conventions and energy demands relevant to current code and environmental concerns.

Letter grade only (A-F). (6 hours laboratory)

352A. Specialty Equipment (1)

Prerequisite: DESN 156 or DESN 346; or consent of instructor.

Theory and demonstration of specialty equipment (Rapid Prototyping, the Computer Numeric Control machine and 3D Scanner).

Letter grade only (A-F). May be repeated to a maximum of 2 units in different semesters. (2 hours of laboratory)

352B. Advanced Specialty Equipment (1)

Prerequisite: DESN 352A or consent of instructor.

Advanced training in the operation of specialty equipment (Rapid Prototyping, the Computer Numeric Control machine and 3D Scanner.)

Letter grade only (A-F). May be repeated to a maximum of 2 units in different semesters. (2 hours of laboratory)

356. Advanced 3D Computer-Aided Design (3)

Prerequisites: DESN 120B, DESN 150, DESN 151, DESN 156, DESN 232, and DESN 255.

Advanced computer aided modeling techniques and strategic exercises created to assist, improve and accentuate the design process.

Letter grade only (A-F). (6 hours laboratory)

360A. Environmental Communication Design (3)

Prerequisites: 6 units from DESN 110, DESN 268, AH 111A, AH 111B; DESN 156 or DESN 246, DESN 232, DESN 255, DESN 346 or DESN 356, or consent of instructor.

3D communication design for physical and virtual environments. Create applied systems for audience experience within experimental, dynamic or interactive contexts.

Letter grade only (A-F). (6 hours laboratory) Not open for credit for students with credit in DESN 360.

360B. Advanced Environmental Communication Design (3)

Prerequisites: DESN 360A or consent of instructor. For Art majors: ART 149, ART 327 or consent of instructor.

Advanced 3D communication design for physical and virtual environments. Create applied systems for branded environments, informative installations and site navigation.

Letter grade only (A-F). (6 hours of laboratory) Not open for credit for students with credit in DESN 360.

366. Advanced 3D Digital Modeling (2)

Prerequisite: DESN 346 or consent of instructor.

Advanced texturing, and rendering techniques in 3D digital modeling for interior design.

Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. Course fee may be required. (4 hours laboratory)

367. History and Theory of Architecture (3)

Prerequisite: Completion of GE Foundation requirements.

Surveys the development of architecture and underlying theories, relative to the human need to shape the built environment, that define specific periods - from prehistory to the present moment - organized in accordance to historical benchmarks and significant buildings and spaces.

Letter grade only (A-F). Not open for credit to students with credit in ART 417. (3 hours lecture)

368. History and Theory of Design (3)

Prerequisite: Completion of GE Foundation requirements.

Surveys the development of design as an independent creative activity including a consideration of both pre-industrial and post-industrial culture. A study of the technologies, manufacturing methods, and underlying theories that define historical periods and current design trends.

Letter grade only (A-F). Not open for credit to students with credit in ART 418. (3 hours lecture)

369. History of Furniture and Decorative Arts (3)

Prerequisite: Completion of GE Foundation requirements.

Critical survey and study of the global and cultural context of the history of furniture, decorative arts and accessories as they relate to advances in technology, social, aesthetic, human, environmental, economic and political factors.

Letter grade only (A-F). (3 hours lecture)

370. Design in Contemporary Society (3)

Prerequisite: Completion of GE Foundation requirements.

Discover principles of design by examining human relationship to built environment through a sequence of scales: from organization of cities, to public architecture, housing, design of furniture, products. Emphasis will be on experiencing design through lecture, lab, field observations, projects.

Letter grade only (A-F). (3 hours lecture)

431A. Advanced Industrial Design (4)

Prerequisite: DESN 331B or consent of instructor.

Advanced planning and execution of industrial design projects. Awareness in user experience, market research, product development, manufacturing, branding and entrepreneurship.

Letter grade only (A-F). (8 hours laboratory)

431B. Advanced Industrial Design (4)

Prerequisite: DESN 431A or consent of instructor.

Continuation of advanced planning and execution of industrial design projects. Awareness in user experience, market research, product development, manufacturing, branding and entrepreneurship.

Letter grade only (A-F). (8 hours laboratory)

435A. Furniture Design (3)

Prerequisites: DESN 151, DESN 232; and for BS: DESN 331A; and for BFA: DESN 341A; and for BA: DESN 255 and DESN 346 or DESN 356; or consent of instructor.

Design of public, private interior furnishings with in-depth study of potentials of contemporary production methods, materials.

Letter grade only (A-F). (6 hours of laboratory)

435B. Advanced Furniture Design (3)

Prerequisites: DESN 435A or consent of instructor.

Continuation of DESN 435A. Projects focus upon research, impact of human factors on design of furniture.

Letter grade only (A-F). (6 hours laboratory)

440. Professional Practice for Interior Architecture (3)

Prerequisites: Completion of GE Foundation requirements, completion of one or more Exploration courses, and upper division status. A score of 11 or higher on the GEAR Placement Examination, or completion of the necessary portfolio course required as a prerequisite for GEAR Writing Intensive Capstones. Corequisites: DESN 441A or consent of instructor.

Examine the basics of professional interior design practices; business standards, project management, marketing, professional ethics, legal issues and the importance of sustainable design. Preliminary programming, building selection and site analysis for senior project.

Letter grade only (A-F). (3 hours lecture)

441A. Advanced Interior Design (4)

Prerequisites: DESN 341B, DESN 343 or consent of instructor.

Advanced design of interior environments emphasizing relationships between built environment and human factors with a focus on professional collaboration and related social and environmental issues.

Letter grade only (A-F). (8 hours laboratory) May require student-owned laptop computer. See Department website for current laptop hardware and software specifications.

441B. Advanced Interior Design (4)

Prerequisite: DESN 441A or consent of instructor.

Further exploration of advanced interior design emphasizing relationships between built environment and human factors. The focus is on researching social and environmental issues while developing and executing a cohesive design project.

Letter grade only (A-F). (8 hours laboratory) May require student-owned laptop computer. See Department website for current laptop hardware and software specifications.

442G. Internship in Industrial Design (3)

Prerequisite: DESN 331A or consent of instructor.

Student internship experience in selected industrial design offices. Opportunity to work under supervision of industrial designers in field to expand student understanding of complexities, discipline, challenges in practice of industrial design.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester. (2 1/4 hours laboratory)

442H. Internship in Interior Design (3)

Prerequisite: DESN 341A or consent of instructor

Student internship experience in selected interior design offices. An opportunity to work under supervision of interior designers, architects in field to expand student understanding of complexities, discipline, challenges in practice of interior design.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester. (2 1/4 hours laboratory)

450. BA Senior Project (3)

Prerequisites: DESN 346 or DESN 356, DESN 360A, and 6 units of DESN History or consent of instructor.

Refine an area of interest through the development of a senior project and portfolio. Should be taken in the semester of graduation.

Letter grade only (A-F). (6 hours laboratory) May require student-owned laptop computer. See Department website for current laptop hardware and software specifications.

490. Selected Topics in Design (1-3)

Prerequisite: Consent of instructor.

Special topics of current interest in design will be selected for intensive study.

Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. Topics will be announced in the *Schedule of Classes*. (2-6 hours laboratory)

495. Field Studies in Design (1-6)

Prerequisite: Consent of instructor.

An opportunity to study design movements, objects, theories, techniques at appropriate off-campus locations.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester.

499C. Special Studies in Display and Exhibition Design (3)

Prerequisite: Consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in display, exhibition design.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester. (6 hours laboratory)

499G. Special Studies in Industrial Design (3)

Prerequisite: Consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in industrial design.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester. (6 hours laboratory)

499H. Special Studies in Interior Design (3)

Prerequisite: Consent of instructor.

Opportunity for extensive work with faculty supervision on individual problems in interior design.

Letter grade only (A-F). May be repeated to a maximum of 6 units. Limited to 6 units in one semester. (6 hours laboratory)

ECONOMICS

College of Liberal Arts

Department Chair: Wade E. Martin

Department Office: Social Science/Public Affairs (SS/PA), Rm 361A

Telephone / FAX: (562) 985-5061 / (562) 985-5804

Email: econ@csulb.edu

Graduate: Chen Feng Ng

Career Possibilities

Economist • Agricultural Economist • Financial Analyst • Industrial Analyst • International Trade Economist • Labor Specialist • Market Research Analyst • Tax Analyst • Investment Analyst • Teacher • Securities Salesperson • Bank Management • Loan Officer • Investment Counselor • Social Researcher • Auditor • Credit Analyst • Statistician • Urban Planner (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

When resources are scarce, difficult choices must be made on how resources are to be divided among competing uses. Economics is a social science that addresses the efficient allocation of scarce resources.

Undergraduate Programs

Bachelor of Arts in Economics (120 units)

Requirements

Lower Division:

Complete each of the following courses with a grade of "C" or better:

ECON 100 Principles of Macroeconomics (3)
Prerequisite: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)
Prerequisite: MATH 103 or higher.

Complete the following course:

ACCT 201 Elementary Financial Accounting (3)
Prerequisites: None

Complete one of the following courses with a grade of "C" or better:

MATH 115 Calculus for Business (3)
Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Students with upper division standing declaring Economics as a major may substitute ECON 300 for ECON 100 and ECON 101.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 380 Economic Statistics (4)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take six additional upper-division courses in Economics of which at least two must be at the 400 level.

The following courses may not be used to satisfy the elective requirement in economics: ECON 300, ECON 306, and ECON 499.

Option in Mathematical Economics and Economic Theory (120 units)

Requirements

Lower Division:

Complete each of the following courses with a grade of "C" or better:

ECON 100 Principles of Macroeconomics (3)
Prerequisite: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)
Prerequisite: MATH 103 or higher.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.

Complete the following course:

MATH 247 Introduction to Linear Algebra (3)
Prerequisite: MATH 123 or MATH 222.

Students with upper-division standing declaring the option may substitute ECON 300 for ECON 100 and ECON 101.

Upper Division:

Economic Theory:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Statistics:

Take all of the following courses:

MATH 380 Probability and Statistics (3)
Prerequisite: MATH 224.

STAT 381 Mathematical Statistics (3)
Prerequisites: MATH 247, and a grade of "C" or better
MATH 380.

Advanced Theory and Quantitative Methods:

Take at least one of the following courses:

ECON 403, ECON 410, ECON 411, ECON 420,
ECON 485, ECON 486

Elective Courses:

At least four additional upper-division courses in economics of which at least one economics course must be taken at the 400 level. Students may take one course from the following in meeting the elective requirement: MATH 364A, MATH 485; STAT 410 or STAT 450; these will not substitute for the 400-level economics requirement. ECON 300, ECON 306, ECON 380, and ECON 499 may not be taken to meet the elective requirement.

Bachelor of Arts in Business Economics (120 units)

Requirements

Lower Division:

Complete each of the following courses with a grade of "C" or better:

ECON 100 Principles of Macroeconomics (3)
Prerequisite: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)
Prerequisite: MATH 103 or higher.

Complete the following course:

ACCT 201 Elementary Financial Accounting (3)
Prerequisite: None

Students with upper division standing declaring business economics as a major may substitute ECON 300 for ECON 100 and ECON 101.

Complete one of the following courses with a grade of "C" or better:

MATH 115 Calculus for Business (3)
Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 380 Economic Statistics (4)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take six additional upper division courses from the following groups (at least two must be at the 400 level):

Group A. Analytical Economics

Take at least two courses from the following:

ECON 341, ECON 355, ECON 366, ECON 430,
ECON 434, ECON 438, ECON 450, ECON 462,
ECON 464, ECON 470.

Group B. Quantitative and Applied Economics

Take at least two courses from the following:

ECON 330, ECON 420, ECON 437, ECON 441,
ECON 455, ECON 465, ECON 471, ECON 485,
ECON 486.

Group C. Business and Economics

Take one course from the following:

ECON 320, ECON 333; FIN 300.

Remaining elective may be any class offered by Economics.

The following courses may not be used to satisfy the elective requirement in economics: ECON 300, ECON 306, and ECON 499.

Minor in Economics

The Minor in Economics is available to any non-Economics or non-Business Economics major.

A minimum of 24 units which must include:

Lower Division:

Complete each of the following courses with a grade of "C" or better:

ECON 100 Principles of Macroeconomics (3)
Prerequisites: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)
Prerequisite: MATH 103 or higher.

Students with upper division standing declaring the minor may substitute ECON 300 for ECON 100 and ECON 101 with departmental consent.

Take one of the following courses:

MATH 115 Calculus for Business (3)
Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take at least three additional upper division economics courses, of which at least one must be at the 400 level.

The following courses may not be taken as upper division electives in economics: ECON 300, ECON 495, ECON 499

Minor in International Economics

The Minor in International Economics is available to any non-Economics or non-Business Economics major.

A minimum of 24 units is required and must include:

Lower Division:

Complete each of the following courses with a grade of "C" or better:

ECON 100 Principles of Macroeconomics (3)

Prerequisites: MATH 103 or higher.

ECON 101 Principles of Microeconomics (3)

Prerequisite: MATH 103 or higher.

Students with upper division standing declaring the minor may substitute ECON 300 for ECON 100 and ECON 101.

Complete one of the following courses with a grade of "C" or better:

MATH 115 Calculus for Business (3)

Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take any three of the following courses, of which at least one must be at the 400 level:

ECON 341, ECON 366, ECON 372, ECON 465, ECON 470, ECON 471

The following courses may not be taken as upper division electives in economics: ECON 300, ECON 495, ECON 499

to demonstrating competence in economic theory (microeconomics and macroeconomics), and econometrics.

2. Complete the following with a grade of "B" or better:

ECON 510 Advanced Microeconomics (3)

Prerequisites: ECON 310 or equivalent with grades of "C" or better.

ECON 511 Advanced Macroeconomics (3)

Prerequisites: ECON 311 or equivalent with grades of "C" or better.

3. Satisfactory completion of the following courses ("C" or better with a minimum GPA of 3.0):

ECON 585 Econometrics I (4)

Prerequisites: None

ECON 586 Econometrics II (4)

Prerequisites: ECON 585.

ECON 587 Research Methods in Economics (3)

Prerequisites: None

4. Students must successfully complete coursework in two fields of concentration in economics. Coursework for each concentration includes at least one 500-level prerequisite course and a 600-level course. Students are required to write a research paper in each 600-level course and pass the course with a grade of "B" or better.

5. Students must successfully pass an oral comprehensive exam. The comprehensive exam requires students to defend one of the research papers submitted from a 600-level course. This exam will assess the student's ability to integrate the knowledge in the field of concentration, show critical independent thinking, and demonstrate mastery of the subject matter. A committee of three faculty members will determine if the student has successfully passed the exam based on the quality of the written paper and the oral defense of that paper.

Graduate Programs

Master of Arts in Economics

Candidates in this program are responsible for observing the general requirements stated in this catalog as well as requirements specified by the Department. Information may be obtained from the graduate advisor. A limited number of graduate assistantships are available to qualified students.

Prerequisites

1. A bachelor's degree with a major in economics; or
2. A bachelor's degree with 24 units of upper division courses comparable to those required of a major in economics at this University. (Deficiencies will be determined by the Economics Department.);
3. A minimum undergraduate GPA of 3.0 ("B") in upper division economics courses.
4. Graduate students must consult with the graduate advisor for information concerning department procedures and for approval of their course of study before entering the master of arts program in economics.

Advancement to Candidacy

Satisfy the general requirements of the University for advancement to candidacy.

Requirements

1. Thirty-two units of upper-division and graduate courses (500- and 600-level courses). All students must develop two fields of concentration in economics, in addition

Courses (ECON)

LOWER DIVISION

100. Principles of Macroeconomics (3)

Prerequisite: MATH 103 or higher.

Money and banking, price changes, national income analysis, business cycles, economic growth, fiscal and monetary policy, international trade.

101. Principles of Microeconomics (3)

Prerequisite: MATH 103 or higher.

Business organization, price theory, allocation of resources, distribution of income, public economy.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Fundamentals of Economics (3)

Prerequisites: GE Foundation requirements.

Designed for non-majors. Presents basic training in economics for social studies teachers or citizens who wish to exercise a reasoned judgment about economic issues in public affairs.

301. Economics of Public Issues (3)

Prerequisite: Completion of G.E. Foundation courses and a score of 11 or higher on the GEAR Placement Examination or successful completion of the necessary portfolio course that is a prerequisite for a GEAR Writing Intensive Capstone course (subject to approval by the General Education Governing Committee (GEGC)).

A writing-intensive approach to understanding and critically evaluating current social problems and public policies using basic economic analysis.

306. Environmental Issues of the World Economy (3)

Prerequisites: G.E. Foundation and the Category B requirement, and ECON 101.

Interdisciplinary analysis of human impact on the atmosphere and biological diversity; consideration of policies to foster sustainable development with emphasis on the economic perspective.

310. Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Analysis of economic concepts and their applications to business situations. Emphasis on supply and demand analysis, costs of production, variations of competition and monopoly, revenues, prices, profits and losses, and other aspects of the operations of the business enterprise.

311. Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Determinants of levels of income, employment, and prices; of secular and cyclical changes in economic activity; and of the effects of public policies upon aggregative economic experience.

313. History of Economic Thought (3)

Prerequisites: ECON 100 and ECON 101, or ECON 300.

Evolution of economics as a science. Doctrines of the different schools of economic thought. Study of the contributions of outstanding economists.

317. Economic Analysis I (3)

Prerequisite: ECON 100, ECON 101 and MATH 115, MATH 119A or MATH 119B, or MATH 122

The study of the microeconomic theory, economic institutions and political institutions that are the foundation to developing public policy to achieve an efficient allocation of scarce resources.

Letter grade only (A-F).

320. Money and Banking (3)

Prerequisites: ECON 100 and ECON 101.

Nature and functions of money and its relation to prices; the monetary system of the United States; the functions of banks, bank credit, foreign exchange and monetary control.

330. Game Theory (3)

Prerequisites: ECON 101 or ECON 300.

A formal study of conflict and cooperation, and their application to modeling and analyzing an interactive situation, especially in the context of microeconomics.

333. Managerial Economics (3)

Prerequisites: ECON 100, ECON 101 and either MATH 115 or MATH 122.

The tools of marginal analysis and their application to managerial decisions and planning. Emphasis upon calculating solutions to operational problems. Topics include demand analysis, production and cost, pricing, and output decisions. Product and factor markets will be analyzed.

340. Economics in Movies (3)

Prerequisites: ECON 101 or ECON 300

Application of economic concepts to real-world situations as depicted in movies. Economic analyses of incentives, trade-offs, supply and demand, insurance, the used car market, crime, pollution, and other topics.

341. Global Labor Market Issues (3)

Prerequisites: ECON 101 or ECON 300.

Application of labor economic theory to global labor markets. Focus on international comparison of wages, unemployment, human capital, working conditions, and government labor policy.

Letter grade only (A-F).

355. Law and Economics (3)

Prerequisites: ECON 100 and ECON 101, or ECON 300.

Analysis of economic concepts and their application to law and legal institutions. Emphasis on property law, contract law, accident law, crime control and judicial administration.

366. Introduction to Development Economics (3)

Prerequisites: ECON 100 and ECON 101 or ECON 300.

Economic and social aspects of economic development. General analysis of all aspects of economies in developing countries. Application of concepts to current situation in developing countries from different parts of the world.

372. International Economics (3)

Prerequisites: ECON 100 and ECON 101, or ECON 300.

Covers selected issues concerning the international economy from an interdisciplinary perspective. Topics include: International trade theory, the globalization production, political economy of trade policy, international economic institutions, bi-lateral and multi-lateral trade negotiations, and foreign exchange markets.

380. Economic Statistics (4)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Use of descriptive and inferential statistical concepts for the analysis of economic data. Topics include measures of central tendency and dispersion, probability theory, discrete and continuous probability distributions, hypothesis testing, regression and correlation analysis.

(Lecture 3 hours, activity 2 hours)

403. Mathematical Economics (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 503.

410./510. Advanced Microeconomics (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Applications of microeconomic theory. Examination and analysis of particular markets and contemporary issues. Specific emphasis on policy analysis for government and business decisions. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 410H.

411./511. Advanced Macroeconomics (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 411H.

420. Forecasting (4)

Prerequisites: ECON 311 and ECON 380 with grades of "C" or better.

Principles and methods of forecasting. Evaluation of the reliability of existing forecasting techniques. Also covers use of the macroeconomic model as a basis for forecasting and the role of forecasts in the formulation of national economic policy.

(Lecture 3 hours, activity 2 hours.)

430. Industrial Organization (3)

Prerequisite: ECON 310 with a grade of "C" or better.

The structure, behavior and performance of firms and industries. Implications of separation of ownership and control, Corporate social responsibility and the profit motive. The dilemma of size versus competition.

434. Economics of Regulation (3)

Prerequisite: ECON 310 with a grade of "C" or better.

A comprehensive survey of the past, present and future of the political regulation of economic and business activity. Consideration of the rationale for regulation and deregulation and the creation, design and removal of regulatory practices.

437. Urban Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Economic analyses of city formation and size, business and residential location decisions, land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods.

Not open for credit to students with credit in ECON 537.

438. Regional Economics (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations.

Not open for credit to students with credit in: ECON 538

441. Labor Economics (3)

Prerequisites: ECON 310 and ECON 380 with grades of "C" or better.

Manpower resources and their utilization, with particular reference to labor unions, collective bargaining and related public policies. Effects of these institutions on production, employment, prices and patterns of income distribution.

450. Public Sector Economics (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Analysis of the theory of public goods. Criteria for efficient allocation of resources between private and public sectors. Possible responses of government externalities, such as environmental degradation. Emphasis on the allocation and distribution effects of government expenditures and taxation.

455./555. Transportation Economics (3)

Prerequisites: ECON 310 and ECON 380 with grades of "C" or better.

Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways.

Letter grade only (A-F).

462./562. Environmental Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined.

463./563. Energy Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility, OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investor and publicly owned utilities, domestic and international policies.

464./564. Natural Resource Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better, and ECON 380 or BIOL 260 or STAT 108.

Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fishery, energy, water, and mineral economics.

465./565. Economic Development (3)

Prerequisites: ECON 310 and ECON 311 with grades of "C" or better.

Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies.

470./570. International Trade (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements.

471./571. International Finance (3)

Prerequisites: ECON 311 and ECON 380 with grades of "C" or better.

Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes.

485. Introduction to Econometrics (4)

Prerequisites: ECON 310, ECON 311, and 380 with grades of "C" or better.

Introduction to econometrics, with a focus on understanding and applying the classical linear regression model. Emphasis placed on applications of regression analysis.

Letter grade only (A-F). Not open for credit to students with credit in ECON 585. (Lecture 3 hours, activity 2 hours)

486. Econometrics II (4)

Prerequisite: ECON 485 with a grade of "C" or better.

The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics.

(Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in: ECON 586.

490. Selected Topics in Economics (3)

Prerequisite: Consent of instructor.

Topics of current interest in economics selected for intensive development.

May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*.

491H. Senior Honors Seminar in Economics (3)

Prerequisites: Senior standing, ECON 485 or ECON 486, and consent of instructor.

Provides opportunity for students to integrate their knowledge of economics, statistics-econometrics and computer studies. Designed as a seminar in research where students will be expected to write a paper and present their research results orally. Research topics must be approved by instructor.

495. Field Studies Practicum (3)

Prerequisites: ECON 310 or ECON 333 and consent of instructor.

Observation and practical experience, at a managerial level, in an appropriate business or government enterprise.

Applications for permission to enroll must be filed with the Economics Department at least six weeks prior to beginning of the semester involved.

May be repeated to a maximum of 6 units.

499. Directed Study (1-3)

Prerequisite: Consent of instructor.

Independent study under the supervision of a faculty member.

May be repeated to a maximum of 6 units.

GRADUATE LEVEL

500. Business Economics (3)

Workings of the price system in resource allocation with special emphasis on the role of business in the economy. Analysis of the economic implications of various forms of industrial organization and the application of public policy to business activity.

Not open to students majoring in economics or pursuing an M.A. in economics. Letter grade only (A-F).

503. Mathematical Economics (3)

Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems.

Letter grade only (A-F). Not open for credit to students with credit in: ECON 403.

510./410. Advanced Microeconomics (3)

Prerequisite: ECON 310 or equivalent with grades of "C" or better.

Applications of microeconomic theory. Detailed examination and analysis of particular markets and contemporary issues in light of economic theory. Specific emphasis on policy analysis for government and business decisions.

Letter grade only (A-F). Not open for credit to students with credit in ECON 510H.

511./411. Advanced Macroeconomics (3)

Prerequisite: ECON 311 or equivalent with grades of "C" or better.

Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 511H.

537. Urban Economics (3)

Economic analyses of city formation and size, business and residential location decisions, and land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods.

Letter grade only (A-F). Not open for credit to students with credit in: ECON 437.

538. Regional Economics (3)

Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations.

Letter grade only (A-F). Not open for credit to students with credit in ECON 438.

555./455. Transportation Economics (3)

Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways.

Letter grade only (A-F).

562./462. Environmental Economics (3)

Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined.

Letter grade only (A-F). Same course as ECON 462. Not open for credit to students with credit in ECON 462.

563./463. Energy Economics (3)

Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility. OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investor and publicly owned utilities, domestic and international policies.

Letter grade only (A-F). Same course as ECON 463. Not open for credit to students with credit in ECON 463.

564./464. Natural Resource Economics (3)

Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fishery, energy, water, and mineral economics.

Letter grade only (A-F). Same course as ECON 464. Not open for credit to students with credit in ECON 464.

565./465. Economic Development (3)

Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies.

Letter grade only (A-F).

570./470. International Trade (3)

Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements.

Letter grade only (A-F).

571./471. International Finance (3)

Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes.

Letter grade only (A-F).

585. Econometrics I (4)

First course in a two-semester sequence introducing students to basic techniques in econometrics. Basic statistics and the classical linear regression model are covered. Emphasis is given to computing estimators using simulated and actual data sets.

Letter grade only (A-F). (Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in ECON 485.

586. Econometrics II (4)

Prerequisite: ECON 585.

The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics.

Letter grade only (A-F). (Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in ECON 486.

587. Research Methods in Economics (3)

Applications of research methods to economics. Topics include: developing a research question, performing a literature review, data compilation and statistical analysis.

Letter grade only (A-F).

597. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Intensive reading and/or practical research in economics.

Letter grade only (A-F).

660. Seminar in Natural Resources and the Environment (3)

Prerequisites: ECON 510, ECON 511, ECON 585, ECON 586, and one of the following: ECON 562, ECON 563 or ECON 564.

Research methods applied to selected topics from energy, natural resources, and the environment.

Letter grade only (A-F). (Seminar 3 hours.)

666. Seminar in Transportation Economics (3)

Prerequisites: ECON 510, ECON 511, ECON 555, ECON 585 and ECON 586.

Advanced topics in transportation economics including passenger and freight transportation issues, congestion pricing, toll roads, mass transit systems, maritime economics, transportation regulation, firm performance, as well as welfare effects of transportation policy.

Letter grade only (A-F).

670. Seminar in International Trade and Development (3)

Prerequisites: ECON 510, ECON 511, ECON 585, ECON 586, and one of the following: ECON 565, ECON 570 or ECON 571.

Selected topics dealing with current problems and solutions in international trade, finance, and development.

Letter grade only (A-F).

690. Seminar in Economics (3)

Prerequisites: ECON 510, ECON 511, ECON 585, ECON 586, and consent of instructor.

Seminar on topics of current interest in economics.

May be repeated to a maximum of 6 units with different topics.

Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of instructor.

Independent research under the guidance of a faculty member.

Letter grade only (A-F).

Introduction

The College of Education's mission is to create and nurture a learning and teaching community committed to equity and excellence in education. We fulfill our purpose by preparing professional educators and practioners who promote equity and excellence in diverse urban settings through pedogogy evidence-based practices, collaboration, leadership, innovation, scholarship, and advocacy.

The College provides undergraduate and graduate studies in education through three departments - Liberal Studies, Teacher Education, and Advanced Studies in Education and Counseling - and one university-wide program - the Single Subject Credential Program. Curriculum in college programs focuses on the preparation of personnel for teaching and educational service in pre-school settings, elementary, middle and high schools, community colleges, adult programs, and other educational agencies. Descriptions that include prerequisites and requirements for each credential, certificate, and degree program are listed in this catalog in the department that houses the particular program. Doctoral program information is included at the end of this section.

College programs are accredited by the National Council for Accreditation of Teacher Education (NCATE) and the State Commission on Teacher Credentialing (CTC).

Please visit the college website at www.ced.csulb.edu for detailed information on departments, programs, centers, and offices.

Programs at a Glance

Bachelor of Arts in Liberal Studies

Master of Arts in Education with Options in:

Educational Administration

Educational Psychology

Educational Technology and Media Leadership

Curriculum and Instruction

Dual Language Development

Early Childhood Education

Reading and Language Arts

Mathematics Education

Social and Cultural Analysis of Education

Master of Science in Special Education

Master of Science in Counseling with Options in:

Marriage and Family Therapy (MFT)

School Counseling

Student Development in Higher Education

Ed.S. in School Psychology

Ed.D. in Educational Leadership

Teaching Credentials

Elementary:

Preliminary Multiple Subject Credential Program

Preliminary Multiple Subject Credential Program
with Bilingual Authorization

Integrated Teacher Education Program (ITEP)

Secondary:

Single Subject Credential Program

Art, Biological Sciences, Chemistry, English
(Emphasis in Black Studies, Comparative Literature,
Creative Writing, Journalism, Language and
Linguistics, Literacy and Composition, Literature,
Speech, Theatre Arts), Geosciences, Health Science,
Home Economics (Inactive), Languages Other than
English (French, German, Italian, Japanese, Latin,
Spanish), Mathematics, Music, Physical Education
(Adapted P.E., Elementary School, Secondary
School), Physics, Social Science (covering
Anthropology, Economics, Geography, History,
Political Science, Psychology, Sociology)

Specialist Teaching Credentials:

Reading and Language Arts (currently not accepting
students)

Education Specialist Credential Program, Preliminary:
Mild/Moderate Disabilities or Moderate Severe
Disabilities

Education Specialist Credential Program, Clear: Mild/
Moderate Disabilities or Moderate/Severe Disabilities

Services Credentials:

Preliminary Administrative Services

Professional Administrative Services

Teacher Librarian Services

School Counseling

School Psychology

Graduate Certificates:

Community College
Disability Studies
Other Credentials and Authorizations:
Please refer to the College of Health and Human
Services section of this catalog for credential programs
in:
Adapted Physical Education
Health Services (School Nurse) (Inactive)
Speech-Language Pathology Services
School Social Work, Child Welfare, and Attendance

Credential Programs

Public school teaching and service credentials in California are regulated by the state legislature and administered by the State Commission on Teacher Credentialing (CTC). Credential programs offered at CSULB have been developed to meet current requirements, which are complex and continually reviewed and changed by legislative and agency action. Candidates for all credentials must meet legal requirements in effect when completing credential programs. It is the responsibility of the candidate to be familiar with the program requirements. For information regarding admission, academic requirements, and fieldwork, contact the specific credential program coordinator. For information on state credential laws and regulations, pending changes, and new legislation, contact the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Basic Teaching Credentials

There are three types of basic teaching credentials: Multiple Subject, Single Subject, and Education Specialist.

The Preliminary Multiple Subject Credential authorizes the holder to teach all subjects in a self-contained classroom. A teacher authorized for multiple subject instruction may be assigned to teach in any self-contained classroom — pre-K to grade 12, or in classes for adults. In practice, most teachers with a multiple subject authorization teach in elementary schools. In addition to completing a sequence of professional preparation courses and student teaching, candidates for the Multiple Subject Credential must demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects) as a condition of entry to the program. With additional course work, students in the Preliminary Multiple Subject Credential Program may earn a Bilingual Authorization in Spanish, Chinese (Mandarin), Korean, or Vietnamese. For detailed information on the Multiple Subject Credential Program, refer to the Teacher Education Department section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-1105).

One of the pathways to a Multiple Subject credential is the Integrated Teacher Education Program (ITEP). ITEP combines undergraduate study of academic subjects aligned to the California standards for the K-8 curriculum with professional preparation courses, field experiences, and student teaching. ITEP students may also complete the requirements for the Education Specialist Credential

or Bilingual Authorization along with those for the Multiple Subject Credential and receive dual authorization. ITEP students are required to demonstrate subject matter competence by passing the CSET: Multiple Subjects exam as a condition of advancement to student teaching. For detailed information on the ITEP program, refer to the Liberal Studies section of this catalog or contact the Liberal Studies Department (AS 133; 562/985-4228).

The Single Subject Credential authorizes the holder to teach a specified subject. A teacher authorized for single subject instruction may be assigned to teach this subject at any grade level — pre-K through grade 12, or in classes for adults. In practice, most teachers with a single subject authorization teach departmentalized classes in middle, junior high or senior high schools. CSULB offers Commission on Teacher Credentialing-approved Subject Matter Programs in Art, Biological Sciences, Chemistry, English Geosciences, Health Science, Home Economics, Industrial and Technology Education, Languages Other than English (French, German, Italian, Japanese, Latin, Spanish) Mathematics, Music, Physical Education (Adapted P.E., Elementary School, Secondary School), Physics, and Social Science. For detailed information on the Single Subject Credential Program, refer to the Single Subject Teacher Education section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-5325).

The Education Specialist Credential authorizes a candidate to teach in a special education assignment with students with special needs. This K-12 credential certifies individuals to work as a special day class teacher, inclusion support teacher or resource specialist. In addition to completing a sequence of professional preparation courses and student teaching, candidates must demonstrate subject matter competence by passing all three sub-tests of the California Subject Examinations for Teachers: Multiple Subjects, or the appropriate CSET exam in Math, Science, or Language Arts as a condition of entry to the program. Another pathway to the Education Specialist Credential is the Integrated Teacher Education Program (ITEP), through which students can earn dual authorization to teach Multiple Subjects and Special Education. For detailed information on the Education Specialist Credential Program, refer to the Advanced Studies in Education and Counseling section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-1105).

Elementary and secondary teachers who wish to diversify their teaching authorizations may do so by fulfilling specific requirements. Further information is available in the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Obtaining the Preliminary Credential

Requirements for the Preliminary and Professional Clear credentials are set by the Commission on Teacher Credentialing in accordance with state law. Requirements for the Preliminary credential include:

1. a bachelor's degree from an accredited institution
2. an approved professional preparation program, including the teaching of reading and student teaching

3. verification of subject matter competence (coursework or examination)
4. passage of CBEST (California Basic Educational Skills Test) or an equivalent basic skills test
5. completion of an approved course or examination in the U.S. Constitution
6. demonstration of Level I computer technology proficiency (course or exam)
7. for Multiple Subject and Education Specialist candidates, passage of the Reading Instruction Competence Assessment (RICA)

Graduates of CSULB credential programs meet Commission and program requirements and are recommended for the Preliminary credential by the College.

Obtaining the Professional Clear Credential

The Preliminary Credential is valid for five years from the date of issuance and is not renewable. During the first five years of teaching, teachers are expected to earn the Professional Clear Credential through a Commission-approved Professional Teacher Induction Program sponsored by a school district, county office of education, college or university, consortium, or private school.

For information on the Professional Clear credential, contact the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Entry Levels for Basic Credential Programs

Credential programs may begin at five different levels:

1. Qualified candidates who wish to earn the Multiple Subject Credential or MSCD and ESCP may begin the Integrated Teacher Education Program (ITEP) in the Liberal Studies Department as first-term freshmen. This program leads to the Multiple Subject Credential in four and a half years of full time, accelerated study.
2. Qualified transfer students from community colleges who wish to earn the Multiple Subject Credential and who have started the Integrated Teacher Education Program (ITEP) at their community college may continue the program as transfer students. This program leads to the Multiple Subject Credential in four and a half years of full time, accelerated study. Candidates in the Urban Dual Credential Pathway may earn both MSCP and ESCP in 5 years.
3. Junior level - With a carefully planned program, credential program courses may be taken as electives as early as the first semester of the junior year with completion of the program coming as early as the first semester after graduation.
4. Senior level - Credential program courses may be taken during the senior year as electives. The remaining credential courses and student teaching are then completed at the post-baccalaureate level. (Note: By petition only, up to twelve units of course work taken in the final undergraduate semester -- and not needed to meet major or degree requirements -- may be counted as postgraduate credit toward credit on a district salary ladder. This petition must be filed prior to graduation. Information is available in the Teacher Preparation

Advising Center (ED1-67; 562/985-1105).

5. Graduate level - The entire credential program may be completed at the post-baccalaureate level.

Application to Credential Programs

Information on application to basic credential programs is available in the Teacher Preparation Advising Center (ED1-67; 562/985-1105). Students currently not enrolled in the University must file an application for admission to the University (www.csumentor.edu) as well as an application to the specific program. Note: Some programs have established application periods each year that are separate from the University application periods and process.

Application for Student Teaching

Candidates for student teaching for the summer or fall term of any year must apply by March 1. Spring candidates must apply by October 1. Student Teaching application deadlines are firm.

Candidates for student teaching must attend a Student Teaching Application Meeting which is the only venue for distributing applications. Dates and times for each application period are posted on bulletin boards and program websites.

Appeal Process

Students may address an appeal to the appropriate committee regarding any policy related to admission and continuation in a teacher preparation program. Petition forms and assistance are available in the Teacher Preparation Advising Center (ED1-67; 562-985-1105).

Designated Subjects Credentials

The Designated Subjects Credential Programs at CSULB are currently inactive and not accepting new students. These programs prepare candidates for Clear credential teaching authorizations in Career Technical Education (CTE) and Adult Education (AE). The CTE credential authorizes the holder to teach the subjects named on the credential in grades 12 and below and in classes organized primarily for adults in technical, trade or vocational courses. The AE credential authorizes the holder to teach specific academic and non-academic subjects named on the credential in courses organized primarily for adults and in adult education programs administered by school districts.

Specialist Credentials

CSULB offers programs leading to a Reading Certificate. Both require a valid basic teaching credential. (Note: the Adapted Physical Education Credential is available through the Department of Kinesiology. Refer to the College of Health and Human Services section of this catalog.)

Service Credentials

Service credential programs are available in the following areas: Preliminary Administrative Services, Professional Administrative Services, Teacher Librarian Services, School Counseling, and School Psychology. Both the Preliminary Administrative Services and the Teacher Librarian Services credentials require a valid basic teaching credential. (Note: Speech-Language Pathology Services, and School Social Work, Child Welfare and Attendance credentials are also available at CSULB. Refer to the College of Health and

Human Services section of this catalog.)

Degree Programs

Bachelor's Degree Programs

The college offers a bachelor's degree in Liberal Studies through the Liberal Studies Department. The Liberal Studies Track I major is a cross-disciplinary liberal arts program of study that meets both the General Education and major requirements of the university. This major prepares students in the broad content necessary for successful elementary school teaching. Track I students often begin taking credential program courses in the junior or senior year, and complete the credential program in the first year after graduating. The Integrated Teacher Preparation Program (ITEP) is a Liberal Studies major that combines a broad liberal arts course of study with teacher preparation courses. ITEP students graduate with both a BA degree and a Preliminary Multiple Subject Teaching Credential. Through a new UDCP pathway ITEP students may now earn both their MS and ES teaching credentials with their BA degree. For more information, refer to the Liberal Studies Department section of this catalog.

Master's Degree Programs

Master's degree programs are offered in three departments within the College. General procedures, policies, requirements, and applications for the master's degrees are available from the Graduate Studies Office, ED1-7 (www.ced.csulb.edu/graduate), and are listed following each option in the appropriate section of the catalog. In order to pursue a master's degree, students must submit applications to both the University and the program.

The Advanced Studies in Education and Counseling Department offers a Master of Science degree in Counseling, with Options in Marriage and Family Therapy, and School Counseling, and a Master of Science degree in Special Education. The Master of Arts in Education degree is offered with Options in Educational Psychology, Educational Technology and Media Leadership, and Social and Cultural Analysis of Education. The ASEC department also offers the Educational Specialist degree and the PPS credential in School Psychology.

The Teacher Education Department offers six options in the Master of Arts in Education: Curriculum and Instruction (Elementary Education), Curriculum and Instruction (Secondary Education), Dual Language Development, Early Childhood Education, Mathematics Education, and Reading/Language Arts. The Educational Leadership Department offers a Master of Arts in Education degree in Education Administration and a Master of Science in Counseling degree in Student Development in Higher Education.

To be considered for admission to a master's degree program, students must submit a program application, test scores (if applicable), and any additional program requirements to the Graduate Studies office in the College of Education. Program applications vary; please check the individual program for additional requirements. Program

applications may be obtained from the Graduate Studies office (ED1-7; 562/985-8476; www.ced.csulb.edu/graduate). Please note: Not all programs admit students for the spring semester. For additional program information and contact numbers for advisors, visit the College of Education website at www.ced.csulb.edu and navigate to the appropriate program.

All master's degree candidates in education are required either to complete a thesis or project or take a comprehensive examination according to the requirements of the degree or degree option. Application for enrollment for thesis, project, or comprehensive examination must be made by October 1 for the spring semester or by March 1 for the fall semester.

EDUCATIONAL LEADERSHIP

Introduction

The mission of the Educational Leadership Department is to support dynamic, transformative, socially responsible leaders who engage others, value diversity, operate with academic integrity, and believe in people and their educational futures. The department offers graduate level course work in the following programs: Doctor of Education with a specialization in P12 Leadership or Community College/Higher Education Leadership, Masters of Arts with an option in Educational Administration, Masters of Science in Counseling with an option in Student Development in Higher Education, Preliminary Administrative Services Credential, Professional Administrative Services Credential, and the Graduate Certificate in Community College.

Graduate Degrees

Master of Arts in Education

Option in Educational Administration

Masters of Science in Counseling

Option in Student Development in Higher Education

Doctor of Education with the following specializations:

- Elementary/Secondary Leadership
- Community College/Higher Education Leadership

Credentials

- Preliminary Administrative Services Credential
- Professional Administrative Services Credential – Tier II

Certificate

- Graduate Certificate in Community College

Master of Arts in Education

Option in Educational Administration

Candidates for degrees in Master of Arts programs must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time. Program application deadlines may vary. Visit the College of Education website for program details, application guidelines and materials, and application deadlines (www.ced.csulb.edu). All university regulations governing the master's degree apply to college programs. Program requirements published in the university Catalog in effect during the year a candidate advances to candidacy are the requirements the candidate will be held to (catalog rights).

Educational leaders serve in many capacities. No matter what position an individual holds within an educational organization, all efforts should be directed at supporting the equitable academic achievement of all students being served. The courses in the Educational Administration Option are designed to prepare leaders for this important work. Emphasis is placed on 1) examining the role of schooling in a democratic society, 2) multiple and varied aspects of educational leadership, 3) building collaboratives, 4) managing and guiding change, and 5) working with diverse populations. The program's primary mission is to educate candidates who will assume leadership positions in diverse, urban, K-12 schools and districts. Visit the program website for program details (www.ced.csulb.edu/academic/masters.cfm).

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university.
2. 15 upper-division units in education, including EDP 400 or equivalent.
3. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
4. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time.

The application for Graduate Admission to the University is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the Preliminary Administrative Services Masters/Credential Program must be submitted to the College of Education Graduate Studies Office (ED1-7). An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program application does not require a set of transcripts.

Classified Admission

Successful applicants are admitted to the program with

Classified Admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete EDP 400.
3. Complete EDAD 541 and one other EDAD course for a total of 6 units.
4. Resolve all incomplete grades.
5. Maintain a 3.0 grade point average.
6. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program coordinator.

Requirements

A minimum of 30 units with a 21-unit concentration in Educational Administration is required; 21 units must be at the 500/600 level taken at this university.

1. Take one course at the 500 or 600 level in the College of Education (3 units) with the approval of the Educational Administration program coordinator. Areas include Educational Psychology, Educational Technology and Media Leadership, Social and Cultural Analysis of Education, Special Education, Curriculum and Instruction Elementary or Secondary, Dual Language Development, Early Childhood Education, Reading/Language Arts, Mathematics Education.
2. Take one of the following (3 units):
EDP 520, EDP 595
3. Take one of the following chosen with advisor consultation:
EDAD 695, EDAD 698 Thesis (must take 6 units)
4. Take all of the following (21 units):
EDAD 541 Leadership, Organizational Management, Ethics (3)
Prerequisites: Admission to the Preliminary Administrative Service Credential Program.
EDAD 544 Legal Aspects of Education: Implications and Applications for School Leadership (3)
Prerequisites: EDAD 541.
EDAD 647A Fiscal Resources Educational Administration (3)
Prerequisites: EDAD 541.
EDAD 647B Human Resources in Educational Administration (3)
Prerequisites: EDAD 541.
EDAD 649 Urban Schools and Communities: Academic, Social, Political, and Cultural Issues (3)
Prerequisites: EDAD 541.
EDAD 677A Curriculum/Program Development and Evaluation (3)
Prerequisites: EDAD 541. Corequisites: EDAD 677B.
EDAD 677B Instructional Leadership & Assessment (3)
Prerequisites: EDAD 541. Corequisites: EDAD 677A.

Master of Science in Counseling

Option in Student Development in Higher Education (SDHE)

Counselors serve valuable functions in fields of education, health and human services, and business. Their domains of practice include public and private educational institutions, medical facilities and allied health agencies, social service agencies and organizations, state and federal human service agencies and programs, correctional facilities, business and industry, and private practice. The program's philosophy is to introduce students to a variety of approaches to counseling, and to encourage the development of competencies within these approaches.

The program combines theory and practice utilizing on and off campus course work and field work assignments. Required courses are offered predominantly in the evening, but most field assignments require daytime participation during normal business hours defined by the off-campus sites.

Students coming from diverse experiential backgrounds are trained at the graduate level to be able to perform entry level duties expected by the counseling profession and its specialty areas. Students are prepared to assume future leadership positions in their area(s) of expertise after additional work experiences have been acquired in the field following graduation.

Students completing this option are employed in residence halls, financial aid, student activities, adult re-entry, admissions, career centers, academic advising, disabled student services, counseling centers, orientation, TRIO and Educational Opportunity Programs, multicultural affairs, and community outreach in two- and four-year institutions.

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or university.
2. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
3. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.

Application

Candidates must apply separately to both the university and the program by posted deadlines. Applications should be submitted at the same time. Program Option application deadlines may vary.

The application for Graduate Admission to the University

is available online through CSUMentor (www.csumentor.edu). One complete set of official transcripts must be submitted with the university application. This set of transcripts will be used to determine grade point average eligibility. Failure to submit transcripts in a timely manner will result in a delayed review of the application.

A separate application to the selected Counseling program Option must be submitted to the College of Education Graduate Studies Office (ED1-7). You may only apply to one program per year. A program Option application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. The program Option application does not require a set of transcripts.

Classified Admission

Successful applicants are admitted to the program Option with Classified Admission status.

Advancement to Candidacy - Clear Admission

Students should advance to candidacy as early as possible. For advancement to candidacy (Clear Admission status), students must:

1. Fulfill the campus Graduation Writing Assessment Requirement (GWAR).
2. Complete COUN 510, COUN 513; EDP 400; SDHE 538, SDHE 593.
3. Maintain a 3.0 grade point average in all course work.
4. Resolve all incomplete grades.
5. Meet with the program coordinator and faculty advisor
6. Submit to the Graduate Studies Office an Advancement to Candidacy form signed by the program coordinator.

Requirements

Take all of the following (51 - 57 units):

- COUN 510 Law and Ethics for Counselors (3)
Prerequisites: None.
- COUN 513 Introduction to Clinical Interviewing (3)
Prerequisites: None.
- COUN 515 Counseling Theories (3)
Prerequisites: COUN 513.
- COUN 555 Cross-Cultural Counseling (3)
Prerequisites: COUN 510, COUN 513, COUN 515, SDHE 538, or their equivalent upon approval of the instructor.
- COUN 638 Group Counseling (3)
Prerequisites: Admission to the MS in Counseling, and/or PPS School Counseling Credential, or School Psychology Program, COUN 510, COUN 513, COUN 515 or equivalent upon approval of instructor.
- EDP 400 Introduction to Educational Research (3)
(or equivalent)
Prerequisites: None.
- EDP 520 Quantitative Research Methods in Education (3)
Prerequisites: EDP 400 or equivalent.
- EDP 596 Program Evaluation in Education (3)
Prerequisites: EDP 400 and EDP 520, or equivalent.
- SDHE 516 Counseling the Adult (3)
Prerequisites: COUN 515.
- SDHE 538 Student Development in Higher Education (3)
Prerequisites: None.
- SDHE 547 Student Development Theory in Higher Education: Theory to Practice (3)
Prerequisites: SDHE 538.
- SDHE 548 Students in U. S. Higher Education (3)
Prerequisites: SDHE 538.
- SDHE 549 Management of Student Development in Higher

Education (3)

Prerequisites: None.

SDHE 593 Seminar in Professional Development in Counseling and Human Services (1)
Prerequisites: SDHE 538 and SDHE 548 (must have completed or concurrently enrolled).

SDHE 643B Counseling Field Work: Student Development in Higher Education (3)
Prerequisites: SDHE 516, SDHE 538.

SDHE 644B Advanced Counseling Field Work: Student Development in Higher Education (3)
Prerequisites: SDHE 516, SDHE 538, SDHE 643B.

SDHE 693A Intermediate Seminar in Professional Development in Student Development in Higher Education (1)
Prerequisites: SDHE 593.

SDHE 693B Advanced Professional Development Seminar in Student Development in Higher Education (1)
Prerequisites: SDHE 593, SDHE 693A.

Take one of the following:

SCAE 560, SCAE 561, SCAE 562

Take one of the following:

EDP 698 Thesis (must take 6 units)
Comprehensive examination

Doctor of Education

P-12 Specialization

Community College/Higher Education Specialization

The Education Leadership doctoral program is designed to prepare current and future P-16 educational leaders to develop and nurture organizations that are designed to serve the diverse populations of southern California. Graduates of this program will be prepared to serve as leaders in urban education with expertise to function in a global technological society. The program produces reflective practitioners aware of the complex challenges of curriculum, finance, organizational dynamics, and collaboration with local, state, and national stakeholders.

Students will become more effective leaders by (a) solving problems from multiple perspectives; (b) using multicultural competence to interact with personnel, students and community members; (c) challenging assumptions to improve educational systems; and (d) learning to lead organizations toward respect of divergent viewpoints, learning styles, and ranges of ability.

Emphasis is placed on the expanding and changing role of education for social change to meet the needs of society. Graduate students in a learning cohort community will experience an interdisciplinary approach to the study of educational leadership, teaching and learning, organizational development, management and research.

Graduates of the program will be qualified for a variety of teaching and leadership positions in education and education-related settings, such as superintendent, central office administrator, school principal in P-12, or chancellor, president or administrator in community colleges or 4-year universities.

University Admission

Applications are reviewed annually and students accepted to the program begin study in the summer of each year. Students must file an application for Graduate Admission along with one complete set of official transcripts from all educational institutions with the University Office of Admissions.

Program Admission

In addition to the university application, prospective students must also submit a program application. Admission is granted on a competitive basis; meeting the minimum requirements qualifies an individual for consideration but does not guarantee admission to the program. Requirements for admission will apply to all Ed.D. applicants and include:

1. Evidence of completing an acceptable baccalaureate degree earned at a regionally accredited institution.
2. Evidence of completing a master's degree earned at a regionally accredited institution, or the applicant has completed equivalent academic preparation.
3. A cumulative grade point average of at least 3.0 in upper-division and graduate study combined.
4. Good standing at the last institution of higher education attended.
5. Demonstration of sufficient preparation for, experience in, and potential for educational leadership, including: successful experience in leadership in school, postsecondary, or community contexts, and/or policy leadership; academic excellence; problem-solving ability; technological proficiency; interest in critically assessing current educational policies and practices; and interest in improving current educational policies and practices.
6. Graduate Record Examination (GRE) scores from the three sections of the General Test, taken within five years of applying to the Ed.D. program.
7. Three letters of recommendation attesting to leadership and scholarship potential.
8. A written statement of purpose reflecting an understanding of the challenges facing the public schools or community colleges in California.
9. A written statement from the applicant describing the applicant's plan for meeting professional responsibilities and the demands of the program.
10. A written statement from the applicant's employer indicating support for the applicant's doctoral studies, if applicable.
11. A personal interview.

Requirements

The program requires a minimum of 60 units of which 12 are dissertation units. At least 42 units must be completed in residence at the campus.

All courses must be completed:

1. Core courses (23 units):
EDLD 720 Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
EDLD 721A Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720 or consent of department

chair.

EDLD 721B Advanced Proseminar in Educational

Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A or consent of department chair.

EDLD 721C Advanced Proseminar in Educational

Leadership (3)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B or consent of department chair.

EDLD 721D Advanced Proseminar in Educational

Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B, EDLD 721C or consent of department chair.

EDLD 721E Advanced Proseminar in Educational

Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B, EDLD 721C, EDLD 721D or consent of department chair.

EDLD 722 History and Systems of U.S. Education (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 723 Legal and Ethical Leadership: Implications for

Policy and Practice in P-16 Educ Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 724 Critical Perspectives of U.S. Education and

Diversity (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 725 Organizational Leadership in Educational

Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 726 Policy, Politics, Power in Educational

Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

2. Research courses (13 units):

Take all of the following:

EDLD 730 Educational Research Epistemologies and

Methodologies (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 731 Qualitative Research Methods for Educational

Leadership (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 733 Program and Student Assessment (1)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 734 Survey Methods in Educ Research (1)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

EDLD 735 Applied Field Research (2)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Take one of the following:

EDLD 732A Inferential Data Analysis in Education A (3)

Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of department chair.

EDLD 732B Inferential Data Analysis in Education B (3)

Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of department

chair, ED P 419 or equivalent, and EDLD 730.

3. Specialization courses (12 units). Choose one of the following specializations:
 - A. Community College/Higher Education Specialization:
 - EDLD 740 Policy and Finance Issues in Community Colleges (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - EDLD 741 Teaching and Learning in Post Secondary Settings (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - EDLD 742 Exploration of Campus Cultures: Impact and Influence (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - EDLD 743 Leadership in Higher Education (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - B. P-12 Specialization:
 - EDLD 751 Organizational Culture and Community Engagement in Education (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - EDLD 752 Financial and Human Resource Development (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.
 - EDLD 754 Leadership in P-12 Education (3)
Prerequisite: Admission to the Educational Leadership Doctoral Program or consent of department chair.
 - EDLD 755 Curriculum Theory, Instructional Leadership, and Accountability (3)
Prerequisite: Admission to the Educational Leadership Doctoral Program or consent of department chair.
4. Dissertation (12 units):
 - EDLD 798 Doctoral Dissertation (3)
Prerequisites: Consent of instructor/doctoral candidacy required. Student research and writing of the Ed.D. dissertation.

Doctoral students must maintain a 3.0 GPA to be in good standing. Students who have a grade point average below 3.0 in two successive terms will be disqualified from the program.

The Ed.D. program is designed to allow students to complete all program requirements within three calendar years, including three required summer sessions. Students are expected to complete program requirements within five years after full admission to the program. Extensions of up to two years may be granted if the student is in good standing, there are compelling individual circumstances, and the student demonstrates current knowledge of research and practice in educational leadership. After completion of all course work and successful completion of the qualifying examination, the student will advance to candidacy and undertake the dissertation.

Continuous enrollment is a requirement of the program. If extenuating circumstances require that the student leave the program for a period of time, the faculty will consider an adjusted schedule and an individualized plan.

Qualifying Examination Paper

The qualifying examination paper shall include a rigorous written demonstration of student knowledge; the examination must be passed prior to the student's advancement to

candidacy. The examination will be due by the end of the fourth term in the program. The student will synthesize knowledge from courses taken to date: (1) Leadership core courses, (2) Research Methods courses, and (3) Specialization courses completed up to that time. The structure of the qualifying examination paper will be a definition of the problem under study and a review of the literature that could serve as a preparatory chapter of the dissertation. Failure to earn a designation of "pass with reservations" or above after the second submission, will result in dismissal from the Ed.D. Program.

Dissertation Proposal Examination

The dissertation proposal examination and oral defense will evaluate the student's readiness to proceed with the dissertation research. The dissertation proposal examination will consist of the first three chapters of the dissertation. It will typically focus on an examination of (a) an educational issue, (b) a practice or program, (c) an educational policy or reform or improvement, or (d) implementation studies within an educational organization or community setting.

The dissertation committee will evaluate the proposal. A determination of passing must be made by consensus of the committee. Passing this examination shall constitute formal approval for the candidate to proceed with the proposed dissertation research, subject to Institutional Review Board approval.

Advancement to Candidacy

After being admitted to the program, passing the qualifying examination, completing coursework, and successfully defending the dissertation proposal, the student will advance to candidacy. The total time from admission until candidacy shall not exceed three years unless there are mitigating circumstances and the program faculty have approved the extension. An extension for advancement to candidacy shall not exceed one year.

Dissertation

The dissertation shall be the written product of systematic, rigorous research on a significant educational issue. The dissertation is expected to contribute to an improvement in public P-12 or community college professional practices or policy, generally or in the context of a particular educational institution.

The dissertation shall identify the field-based research problem and question(s), state the major theoretical perspectives, explain the applied significance of the undertaking, relate it to the relevant scholarly and professional literature, set forth the appropriate sources for and methods of gathering and analyzing the data, and offer a conclusion or recommendation. It shall include a written abstract that summarizes the significance of the work, objectives, methodology, and a conclusion or recommendation.

The Dissertation Committee will minimally consist of a chair and two members. The dissertation chair will be determined by the joint agreement of the student and the proposed chairs as approved by the Chair of the Educational Leadership Department. The chair and student will then select two other members; one will be from the

College of Education faculty and the other will be a P-16 practitioner who holds a doctorate, or a community member associated with the program who holds a doctorate.

The dissertation committee chair will provide primary supervision for the dissertation research and is a full-time faculty member at CSU Long Beach. The second committee member is a tenured, tenure-track, or adjunct faculty member of CSU Long Beach. The third committee member is a practitioner from a school district, college, university or public agency other than CSU Long Beach who holds a terminal degree (Ed.D., Ph.D., or J.D.). The Chair of the Educational Leadership Department may allow the replacement of a committee member, based on the evaluation of a rationale provided by the student or committee member making the request.

Final Examination Oral Defense of the Dissertation

The Dissertation Committee will conduct a final oral examination during which the doctoral student defends the dissertation. By unanimous vote the Committee may approve the dissertation and recommend conferral of the degree or may request minor and/or substantive changes. In the event that the Dissertation Committee requires substantive changes, the final vote of the Committee will be postponed until the changes are completed. The Committee may also vote to reject the dissertation, thereby ending the student's participation in the degree program.

Administrative Services Credentials

Certification of school administrators is established through a two-tiered credentialing process.

Upon completion of all Preliminary Administrative Services Credential Program coursework and requirements (Tier 1), candidates apply to the California Commission for Teacher Credentialing (CTC) for a Preliminary Administrative Services Certificate of Eligibility. The Certificate has no expiration date and authorizes the holder to seek an administrative position. The Certificate informs the future employing school district/agency of eligibility to serve. Once the candidate accepts employment as an administrator, the candidate applies to the California Commission for Teacher Credentialing for the Preliminary Administrative Services Credential authorizing the candidate to serve as an administrator in the state of California. Once issued, the Preliminary Credential is valid for five (5) years and it is not renewable.

The Professional Administrative Services Credential (Tier 2) cannot be pursued until the candidate is employed in a position requiring an administrative credential. Once issued, it is valid for five years and is renewable subject to fulfillment of professional development requirements (see complete description of the Professional Administrative Services Credential program below).

Preliminary Administrative Services Credential (code 501)

Prerequisites

The following are required for admission to the program:

1. Baccalaureate degree from an accredited college or

university.

2. 15 upper-division units in education
3. Minimum 2.85 overall grade point average in last degree (not credential or certificate) earned from an accredited institution of higher education. Applicants whose overall GPA is less than 2.85 but meet the University minimum GPA requirement and who present compelling evidence of academic and professional potential either through recent academic performance and/or experiential background, may be considered for admission at the discretion of the program admission committee.
4. International applicants have additional university application requirements including meeting the English language proficiency requirement. Please visit The Center for International Education (CIE) website at www.csulb.edu/cie for more information.
5. An entity that operates a program for the Preliminary Administrative Services Credential shall determine, prior to recommending a candidate for the credential, that the candidate possesses a baccalaureate degree and a valid teaching credential; or a services credential with a specialization in pupil personnel services, library services, health services, or clinical rehabilitative services; or a designated subjects credential and a baccalaureate degree.

Application

An application and directions can be downloaded at www.ced.csulb.edu/graduate/application-packets. Preference will be given to individuals with 3 or more years of classroom teaching and/or related educational experiences.

Requirements

Prerequisite: Enrollment in courses is contingent upon acceptance in the Educational Administration program and the University. Candidates who have not been accepted in the program may not enroll in Educational Administration courses.

1. Take all of the following:
 - EDAD 541 Leadership, Organizational Management, and Ethics (3)
Prerequisites: Admission to the Preliminary Administrative Services Credential Program.
 - EDAD 544 Legal Aspects of Education: Implications and Applications for School Leadership (3)
Prerequisites: EDAD 541.
 - EDAD 647A Fiscal Resources in Educational Admin (3)
Prerequisites: EDAD 541.
 - EDAD 647B Human Resources in Educational Administration (3)
Prerequisites: EDAD 541.
 - EDAD 649 Urban Schools and Communities: Academic, Social, Political, and Cultural Issues (3)
Prerequisites: EDAD 541.
 - EDAD 677A Curriculum/Program Development and Evaluation (3)
Prerequisites: EDAD 541. Corequisites: EDAD 677B.
 - EDAD 677B Instructional Leadership & Assessment (3)
Prerequisites: EDAD 541. Corequisites: EDAD 677A.
 - EDAD 680 Field Experience in Educational Admin (3)
Prerequisites: Admission to program, EDAD 541, completion of at least three additional courses in the

Preliminary Administrative Services Credential program, consent of instructor.

2. The CBEST must be passed prior to entrance into EDAD 680. The CBEST must be taken no later than the second available test administration date following enrollment in the program.

Exit Requirements

1. Verification of five years of successful experience in a position requiring one of the credentials in Item #2 of the "Clear Admission Requirements" (see above);
2. Verification of completion of the State requirement of a mainstreaming course or approved equivalent coursework;
3. Presentation of a professional Exit Portfolio to program faculty with program artifacts of course and field related experiences documenting the candidate's competence and readiness to serve as a school administrator.

Professional Administrative Services Credential – Tier II (code 502)

Certification under the Professional Administrative Services Credential (Tier II) authorizes the candidate to serve in any position requiring the Administrative Services Credential. The Professional Credential cannot be pursued until the candidate is employed in a position requiring an administrative credential. The program requirements must be completed within the five year authorization of the Preliminary Administrative Services Credential. Once issued, the Professional Credential is valid for five years and is renewable subject to fulfillment of professional development requirements.

Prerequisites

1. Possession of a valid Preliminary Administrative Services Credential;
2. Written verification of employment in an administrative position by an educational agency.

Application

1. Program application and evidence that prerequisites have been met.
2. Current resume.
3. Personal narrative describing philosophy of leadership and academic and professional goals while in the program.
4. Copy of valid Preliminary Administrative Services Credential.
5. Written evidence of mentor's commitment to work with the candidate for the duration of the program.
6. Personal contact (phone, email, in person) with program coordinator prior to program application.

Requirements

The Professional Administrative Services Credential Program has a unique format intended to meet the needs of the busy, practicing administrator. Candidates complete the program in 10 semester units. The program is designed to provide the candidate with professional support through an introductory 2-unit course (EDAD 640) in which the Mentoring and Professional Induction Plan is developed. The plan is developed collaboratively among the candidate,

the school district mentor, and the University supervisor. The academic core program consists of two courses, EDAD 658 and 659, which must be completed with a grade of "B" or better. The final requirement is a two (2) unit candidate assessment (EDAD 692) in which the candidate participates in a Portfolio Exhibition.

1. Development of the candidate's Professional Induction Plan during EDAD 640.
2. Completion of the following courses:
 - A. EDAD 640 Mentoring and Professional Development Planning for the New Administrator (2)
Prerequisites: Admission to EDAD Professional Administrative Services Program.
 - B. EDAD 658 Organizational Development, Culture, and Change (3)
Prerequisites: EDAD 640.
 - C. EDAD 659 Educl Governance, Politics & Policy (3)
Prerequisites: EDAD 640.
 - D. EDAD 692 Administrator Portfolio Development and Exhibition (2)
Prerequisites: Completion of the Professional Development Plan, including the core courses, electives and/or professional development activities.
3. Presentation: Administrative Portfolio during EDAD 692.

Exit Requirements

1. Provide verification of two years of successful full time experience in a position requiring the Administrative Services Credential.
2. Present to program faculty, school district mentor, and a panel of other candidates a professional portfolio containing artifacts that demonstrate competency in each of the six administrative services credential standards and satisfactory progress toward attaining goals identified in the candidate's Professional Induction Plan developed in EDAD 640.

Graduate Certificate in Community College

The community college graduate certificate is designed to prepare graduate students to work in community college settings as teaching faculty or counselors. Courses offered in this program provide students with an overview of the community college and its role in the American higher education system. Students will gain insights and experiences in the classroom and in fieldwork that will strengthen their knowledge and skills in working with community college students, faculty, and staff. The certificate program consists of 18 units; 9 units are from the master's degree program and must be approved by the student's master's degree program graduate advisor; and 9 units are specific to the study of college students, the community college, and fieldwork; 15 units must be completed at CSULB. All students will be required to:

1. Submit a Graduate Certificate in Community College application to the Office of Graduate Studies.
2. Be enrolled in a master's degree program in a discipline leading to teaching or counseling in post-secondary education settings.
3. Complete 9 units of coursework in Educational Leadership:
SDHE 552 Introduction to the Community College (3)
Prerequisites: Enrollment in M.A., M.S. or Credential Programs.

SDHE 548 Students in U. S. Higher Education (3)

Prerequisites: SDHE 538.

SDHE 644B Advanced Counseling Field Work: Student Development in Higher Education (3) (counseling or teaching focused)

Prerequisites: SDHE 516, SDHE 538, SDHE 643B.

4. Complete an additional 9 units approved by their master's degree program graduate advisor for consideration to fulfill the 18 units required for the certificate. These courses may include pedagogy, learning theory, instructional management, and/or teaching methodology courses in the student's major area of study, or any other courses in the discipline deemed appropriate by the master's degree program graduate advisor.

Educational Administration Courses (EDAD)

541. Leadership, Organizational Management, and Ethics (3)

Prerequisite: Admission to the Preliminary Administrative Services Credential Program.

Examines the relationship between leadership and organizations; the role of educational leaders; a shared vision to support equitable academic achievement for all students; multiple measures to guide decision making; the relationship among political, social, economic, legal, and cultural factors and schools.

Ten hours field experience required. Course fee may be required. Letter grade only (A-F).

544. Legal Aspects of Education: Implications and Applications for School Leadership (3)

Prerequisite: EDAD 541.

Implications and applications of school law including accessing technological sources of legal information, conducting basic legal research, demonstrating operational knowledge of school law, creating a conceptual and ethical legal leadership framework, developing legal foundational knowledge.

Ten hours field experience required. Course fee may be required. Letter grade only (A-F).

640. Mentoring and Professional Development Planning for the New Administrator (2)

Prerequisite: Admission to EDAD Professional Administrative Services Program.

Development of Individualized Induction Plan based on pre-assessed skills and competence; plan includes assessment documents, mentoring component, goal identification based on CTC standards; completion strategies, evidence/indicators of goal attainment and evaluation plan.

Credit/No Credit grading only.

647A. Fiscal Resources in Educational Administration (3)

Prerequisites: EDAD 541.

Examines foundational concepts and theories of public school finance; social, economic, political, legal and technological dimensions stemming from federal, state, local influence; identification of revenue sources, budgeting strategies/procedures, equitable resource allocation mechanisms, fiscal policy implications.

Letter grade only (A-F). Includes at least 10 hours of field experience. Course fee may be required.

647B. Human Resources in Educational Administration (3)

Prerequisites: EDAD 541.

Examines fundamental human resource leadership issues; laws, ethics, and procedures governing certificated and classified

personnel; employee recruitment, selection, retention and performance appraisal systems, professional development programs; staffing, unions, collective bargaining and contract management, strategic planning, problem solving strategies.

Letter grade only (A-F). Includes at least 10 hours of field experiences. Course fee may be required.

649. Urban Schools and Communities: Academic, Social, Political, and Cultural Issues (3)

Prerequisite: EDAD 541

Examines dynamics of urban schools and communities with emphasis on academic, social, political and cultural issues. Explores culturally diverse families and communities, forming partnerships and effective communication strategies, conflict resolution strategies.

Letter grade only (A-F). Includes at least 10 hours of structured field experiences. Course fee may be required.

658. Organizational Development, Culture, and Change (3)

Prerequisite: EDAD 640.

Explores elements that influence schools as effective organizations, transformational leadership, organizational development, learning strategies for developing successful school cultures and instructional programs. Study of larger political, social, legal and supervisory contexts of organizations; use of behavior/management sciences.

Letter grade only (A-F).

659. Educational Governance, Politics and Policy (3)

Prerequisite: EDAD 640.

Examination of systemic impact of governance systems at federal, state, local levels; implementation and policy development strategies; politics of public education, micro-politics of school sites using theoretical and pragmatic perspectives.

Letter grade only (A-F).

677A. Curriculum/Program Development and Evaluation (3)

Prerequisite: EDAD 541.

Corequisite: EDAD 677B.

Examines teaching, learning, and achievement for all students; policy impact on curriculum development, implementation, and assessment; distributed instructional leadership and accountability; multiple measures and data-driven assessment for program evaluation; closing the achievement gap; communication and partnership with stakeholders.

Not open for credit to students with credit in EDP 677 or EDAD 650.

Ten hours field experience required. Course fee may be required.

Letter grade only (A-F).

677B. Instructional Leadership and Assessment (3)

Prerequisite: EDAD 541.

Corequisite: EDAD 677A.

Examination of instructional leadership and supervision practices that facilitate and sustain continuous school improvement; assessment policies and practices; distributed leadership and accountability; achievement disparities between/among student subgroups; adult learning theory; technology; teacher evaluation and differentiated professional development; and community partnerships.

Includes 10 hours of field experience. Course fee may be required.

Letter grade only (A-F).

680. Field Experience in Educational Administration (3)

Prerequisites: Admission to program, EDAD 541, completion of at least three additional courses in the Preliminary Administrative Services Credential program, consent of instructor.

Application/demonstration of standards based competence as quasi-administrator.

Requires three week, full-time participation at site other than candidate's own. Credit/No Credit grading only. Course fee may be required.

692. Administrator Portfolio Development and Exhibition (2)

Prerequisite: Completion of the Professional Development Plan, including the core courses, electives and/or professional development activities.

Development and presentation of Professional Portfolio reflecting and documenting progress/mastery of goals connected to CTC Administrative Standards.

Credit/No Credit grading only.

695. Master's Research Study in Educational Administration (3)

Prerequisites: EDP 520 or EDP 595; advancement to candidacy in Educational Administration Option, approval of graduate advisor and written application to the Graduate Office. Application for enrollment must be made to the Graduate Office by March 1 for the summer or fall semester or by October 1 for the spring semester.

Application of action based research methods to identify, study, and analyze a school/district based problem. Preparation of culminating research study to include related literature, data collection methods, findings, recommendations and implications.

Credit/No Credit grading only. May be repeated to a maximum of 6 units in different semesters. Not open for credit to students pursuing the Thesis option.

697. Directed Research (1-3)

Prerequisites: Consent of instructor, department chair and associate dean.

Individual research or intensive study under the guidance of a faculty member.

May be repeated to a maximum of 3 units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by March 1 for the fall semester or by October 1 for spring. Letter grade only (A-F).

698. Thesis (3)

Prerequisites: Advancement to candidacy, EDP 595 or EDP 696, approval by director, department chair and associate dean.

Planning, preparation and completion of a thesis under supervision of a faculty committee.

Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester or summer session or October 1 for the spring semester. Letter grade only (A-F).

Educational Leadership Courses (EDLD)

310. Leadership in Postsecondary Contexts (3)

Prerequisite: Upper division standing. Students must have scored 11 or higher on the GVAR Placement Examination or completed the necessary portfolio course that is a prerequisite for a GVAR Writing Intensive Capstone.

Introduction to leadership and organizational theories relevant to student organizations in diverse, higher education contexts. Course content is grounded in students' roles as paraprofessionals and leaders in campus organizations. Assignments apply theory to the practice of college student leadership.

Letter grade only (A-F).

720. Proseminar in Educational Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Introduction to the field of educational leadership. Orientation to doctoral education, academic research, and practice-oriented doctoral-level skills. First semester of a six-semester sequence.

Letter grade only (A-F).

721A. Advanced Proseminar in Educational Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720 or consent of department chair.

Focus on the continued development of the research problem and identification of literature necessary to complete the qualifying examination. Second semester of a six-semester sequence.

Letter grade only (A-F).

721B. Advanced Proseminar in Educational Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A or consent of department chair.

Focus on continued development of the requisite research skills necessary to complete the qualifying examination and, eventually, the proposal and dissertation. Third semester of a six-semester sequence.

Letter grade only (A-F).

721C. Advanced Proseminar in Educational Leadership (3)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B or consent of department chair.

Focus on the development of the Qualifying Examination Paper. Fourth semester of a six-semester sequence.

Letter grade only (A-F).

721D. Advanced Proseminar in Educational Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B, EDLD 721C or consent of department chair.

Focus on the development of the dissertation literature review. Fifth semester of a six-semester sequence.

Letter grade only (A-F).

721E. Advanced Proseminar in Educational Leadership (1)

Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, EDLD 721A, EDLD 721B, EDLD 721C, EDLD 721D or consent of department chair.

Focus on the development of chapter 1 of the dissertation. Sixth semester of a six-semester sequence.

Letter grade only (A-F).

722. History and Systems of U.S. Education (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Critical analysis of major schools of U.S. historical thought and their connection to social developments and examination of history as an interpretive, subjective process in which historians engage in dialogue with larger intellectual communities.

Letter grade only (A-F).

723. Legal and Ethical Leadership: Implications for Policy and Practice in P-16 Educational Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of legal and ethical issues, implications, and applications. Exploration of leadership in complex educational environments, multiple perspectives applying legal and ethical principles and policies, technological legal research. Examination of broad national and state theoretical and practical contexts using an ethical, legal leadership framework.

Letter grade only (A-F).

724. Critical Perspectives of U.S. Education and Diversity (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of identity in relation to disenfranchisement in educational institutions, multiple forms of cultural hegemony, policy and practices that foster inequality in schooling as well as issues related to students with disabilities and second language learners.

Letter grade only (A-F).

725. Organizational Leadership in Educational Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of dynamic organizations from a leader's perspective. Analysis of organizational theory, structure, culture and interrelationships from multiple perspectives as well as the leader's role in managing critical factors that can undermine a high performance organization.

Letter grade only (A-F).

726. Policy, Politics, Power in Educational Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

In-depth analysis of topics relevant to politics and power in educational policy and reform. Exploration of issues related to governance, structure, programs, leadership, strategic planning and assessment.

Letter grade only (A-F).

730. Educational Research Epistemologies and Methodologies (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

In-depth exploration of epistemological underpinnings of educational research, qualitative and quantitative studies, and emergent research and methodologies pertinent to educational practice and policy.

Letter grade only (A-F).

731. Qualitative Research Methods for Educational Leadership (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Advanced study of qualitative research traditions and methods for both understanding and application. Methods and research design elements include ethnographic and focus group interviews, participant and naturalistic observation, case study and document analysis.

Letter grade only (A-F).

732A. Inferential Data Analysis in Education A (3)

Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of department chair.

Hypothesis testing using analysis of variance, factorial analysis of variance, analysis of covariance, multiple regression, and path analysis. A focus on data analyses to address research questions, interpretation of the results, and preparation of a written report of the findings.

Letter grade only (A-F).

732B. Inferential Data Analysis in Education B (3)

Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of department chair, ED P 419 or equivalent, and EDLD 730.

Hypothesis testing using analysis of variance, factorial analysis of variance, analysis of covariance, multiple regression, and path analysis. Overview of Structural Equation Modeling. A focus on data analyses to address research questions, interpretation of the results, and preparation of a written report of the findings.

Letter grade only (A-F).

733. Program and Student Assessment (1)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Assessment of student learning and development and program assessment. Focus on design of a holistic program evaluation incorporating assessment and measurement of student outcomes.

Letter grade only (A-F).

734. Survey Methods in Educational Research (1)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Focus on application and practical methodological tools in designing survey research in educational settings.

Letter grade only (A-F).

735. Applied Field Research (2)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Focus on the development of chapter 3 of the dissertation and piloting of the dissertation study research methods.

Letter grade only (A-F).

740. Policy and Finance Issues in Community Colleges (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

In-depth analysis of the community college system, function and purpose. Exploration of issues related to governance, structure, program, leadership, and strategic planning and assessment.

Letter grade only (A-F).

741. Teaching and Learning in Post Secondary Settings (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Focus on student development and learning theories based on cognitive, psychosocial, typology, and person-environment perspectives. Exploration of the role of faculty and others in the collaborative development and implementation of responsive curricula at 2- and 4-year institutions.

Letter grade only (A-F).

742. Exploration of Campus Cultures: Impact and Influence (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of faculty, administrative, and student cultures in terms of values, behavioral norms, impact and influences. Application of research methods to the study of campus cultures. Dialogue concerning the implications of these findings for higher education policies and practices.

Letter grade only (A-F).

743. Leadership in Higher Education (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Analysis of current research and theories on leadership and organizational change in higher education: multicultural organizational development theories, planning, change, and the effective strategies for change. Exploration of case studies of organizational leadership.

Letter grade only (A-F).

750. Instructional Improvement and Accountability (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of the role of educational leaders in engaging stakeholders in data collection, analysis, and application to practice; the development of a culture of inquiry, and the distribution of leadership for continuous instructional improvement and accountability systems design.

Letter grade only (A-F).

751. Organizational Culture and Community Engagement in Education (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of school organizational culture, leadership and the local community in a global context: organizational strategies and development of teams to promote systemic change, cultural transformation and social justice.

Letter grade only (A-F).

752. Financial and Human Resource Development (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of the acquisition, distribution, cultivation and management of human, fiscal, and time resources in public education. Identification and application of skills necessary for harnessing human and financial resources that further the goals of a school and district.

Letter grade only (A-F).

753. Supervision of Curriculum, Teaching, Learning and Assessment (3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Advanced theoretical analysis of curriculum, teaching, learning, and assessment of student achievement in diverse settings; impact of electronic and information technology on student knowledge acquisition; principles of professional development; macro and micro political and policy influences; leadership implications.

Letter grade only (A-F).

754. Leadership in P-12 Education (3)

Prerequisite: Admission to the Educational Leadership Doctoral Program or consent of department chair.

P-12 leadership paradigms, models, theories, organizational/structural configurations; internal/external local, state, national influences on leadership; change theory/agency; relationship, communication, and professional disposition-building strategies; research/practice integration.

Letter grade only (A-F).

755. Curriculum Theory, Instructional Leadership, and Accountability (3)

Prerequisite: Admission to the Educational Leadership Doctoral Program or consent of department chair.

Advanced research and analysis of the relationship among theory, curriculum, teaching, learning, assessment, and professional development in diverse settings. Role of the instructional leader.

Letter grade only (A-F).

790. Selected Topics - Educational Leadership (1-3)

Prerequisite: Admission to the Educational Leadership Doctorate program or consent of department chair.

Examination of various issues in educational leadership.

Letter grade only (A-F). May be repeated with different topics in the same semester up to a maximum of 24 units. Topics announced in the *Schedule of Classes*.

- A. Issues of Leadership Roles and Responsibilities
- B. Change Management
- C. Focus Group Facilitation
- D. Data-based Organizational Change
- E. Applications of Technology
- F. The Needs of Student Populations
- G. Governing Boards
- H. Staff Development Programs
- I. Personnel Assessment Instruments

797. Directed Individual Study (1-3)

Prerequisites: Consent of instructor, department chair and associate dean.

Individual research or intensive study under the guidance of a faculty member.

Letter grade only (A-F). May be repeated to a maximum of 24 units in different semesters.

798. Doctoral Dissertation (3)

Prerequisites: Consent of instructor/doctoral candidacy required. Student research and writing of the Ed.D. dissertation.

Credit/No Credit grading only. May be repeated to a maximum of 24 units in different semesters.

Student Development in Higher Education Courses (SDHE)

516. Counseling the Adult (3)

Prerequisite: COUN 515.

Theory and practice of counseling and guidance of the adult.

Not open for credit to students with credit in EDP/COUN 516. Letter grade only (A-F). Course fee may be required.

538. Student Development in Higher Education (3)

Survey of student development in public and private colleges and universities, focusing on historical, philosophical and theoretical foundations; roles and functions; legal, ethical, and organizational issues.

Not open for credit to students with credit in EDP/COUN 538. Letter grade only (A-F).

547. Student Development Theory in Higher Education: Theory to Practice (3)

Prerequisite: SDHE 538.

Explores student development theory and the application of theory to practice for programs and services in student affairs/higher education. Examine cognitive, psychosocial, and person/environment theories and their application to traditional and non-traditional student populations.

Not open for credit to students with credit in EDP/COUN 547. Letter grade only (A-F).

548. Students in U. S. Higher Education (3)

Prerequisite: SDHE 538.

Focus on concepts of community and culture in United States college with an emphasis on understanding the diversity of student population to include age, gender, ethnic culture, sexual orientation, and people with disabilities.

Not open for credit to students with credit in EDP/COUN 548. Letter grade only (A-F).

549. Management of Student Development in Higher Education (3)

Analysis of management and organizational theory and practice as it pertains to student development in higher education. Includes study of human and physical resources management.

Not open for credit to students with credit in EDP/COUN 549. Letter grade only (A-F).

552. Introduction to the Community College (3)

Prerequisite: Enrollment in M.A., M.S. or Credential Programs.

Introduction, orientation, and survey of California and American community college. Components and modules include teaching and learning, leadership and governance issues, organization and administration, student development, classroom research, institutional resources, and student diversity and equity in the community college.

Not open for credit to students with credit in EDP/COUN 552. Letter grade only (A-F).

593. Seminar in Professional Development in Counseling and Human Services (1)

Prerequisites/Corequisites: SDHE 538 and SDHE 548.

Experiential orientation to profession of counseling and student development/student affairs in higher education with an emphasis on opportunities to observe interactions between organizational and student cultures, and the functions and role of student affairs professionals in the work environment through fifty-hour practicum.

Not open for credit to students with credit in EDP/COUN 593.

Letter grade only (A-F). Course fee may be required.

643. Counseling Field Work (3)

B. Student Development in Higher Education (3)

Prerequisites: SDHE 516, SDHE 538.

Practical experiences of 225 hours in counseling and guidance activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following fall semester, and October 1 for the spring semester.

Not open for credit to students with credit in EDP 541 or COUN 643B. Credit/No Credit grading only. Course fee may be required.

644. Advanced Counseling Field Work (3)

B. Student Development in Higher Education (3)

Prerequisites: SDHE 516, SDHE 538, SDHE 643B.

Continued practical experiences of 225 hours in counseling and guidance activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following fall semester, and October 1 for the spring semester.

Not open for credit to students with credit in EDP 541 or EDP/COUN 644B. Credit/No Credit grading only. Course fee may be required.

693A. Intermediate Seminar in Professional Development in Student Development in Higher Education (1)

Prerequisites: SDHE 593.

Explore professional development topics to prepare for professional work in student development in higher education.

Attendance at a local, regional or national professional conference required.

Not open for credit to students with credit in COUN 693A. Letter grade only (A-F).

693B. Advanced Professional Development Seminar in Student Development in Higher Education (1)

Prerequisites: SDHE 593, SDHE 693A

Explore advanced professional development topics in student development in higher education. Demonstrate an integration of roles, philosophy and theory for counseling and student development work. Attendance at a local, regional and national conference required.

Not open for credit to students with credit in COUN 693B. Letter grade only (A-F).

ELECTRICAL ENGINEERING

College of Engineering

Department Chair: Anastasios Chassiakos

Department Office: Engineering and Computer Science (ECS) 561

Telephone: (562) 985-5102/5103

Website: <http://www.csulb.edu/colleges/coe/ee>

Faculty: James Ary, Chin Chang, Anastasios G. Chassiakos, Christopher Druzgalski, Fumio Hamano, Kenneth James, I-Hung Khoo, Rajendra Kumar (emeritus), Tulin E. Mangir (emeritus), Mohammad Mozumdar, Bahram Shahian, Robert Teng, Chit-Sang Tsang, Mahmoud Wagdy, Fei Wang, Ray Wang, Heu-Geul (Henry) Yeh

Undergraduate Advisors

Electrical Engineering: Fei Wang

Computer Engineering Technology: I-Hung Khoo

Electronics Engineering Technology: I-Hung Khoo

Extension Program Advisor/Coordinator for Electrical Engineering: I-Hung Khoo

Graduate Advisor: James Ary

Biomedical Engineering Advisor: Maryam Moussavi

Administrative Coordinator: Clarice Ross

Students desiring detailed information should contact the department office for referral to one of the faculty advisors.

Career Possibilities

Electrical Engineer • Systems Engineer • Electronics Engineer • Communications Engineer • Electrical Design Engineer • Sales Engineer • Electronics Test Engineer • Research Engineer • Consultant • Manufacturer's Representative • Safety Engineer • Quality Control Specialist • Production Manager (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Advisory and Development Council

The Department of Electrical Engineering is supported by an Advisory and Development Council consisting of outstanding engineers and executives from industry and government in southern California. Its function is to form a liaison between the University and industry and to keep the administration and faculty informed of modern engineering practices. This ensures that the curricula are kept up-to-date. It also advises on placement opportunities before and after graduation.

ABET Accreditation

The Bachelor of Science in Electrical Engineering offered at the Long Beach campus is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. The Electrical Engineering Extension Program offered at Lancaster University Center, Lancaster, CA is undergoing accreditation review in 2014- 2015.

Undergraduate Programs

Bachelor of Science in Electrical Engineering (120 units)

The objectives of the Bachelor of Science in Electrical Engineering Program are to prepare students to be successful and advance in their chosen careers in industry, academia, and public institutions, making significant contributions to the field

of electrical engineering. These objectives are achieved by providing students:

1. a solid foundation in basic science, mathematics, and EE practices and major design skills to maintain high employability, adaptability, and an ability to develop and apply new technology;
2. effective communication skills to be able to progress in their careers;
3. an awareness of ethical and societal responsibilities;
4. an ability to work effectively in a team environment.

The bachelor's degree in electrical engineering is designed to prepare graduates for responsible engineering positions in design, development, research, applications, and operation in the fields of communications, control systems, digital signal processing systems, electromagnetics, digital and analog electronic circuits, physical electronics, computer-aided design and power systems. The curriculum is built around a strong basic core of mathematics, physics and engineering science. This is followed by intermediate courses in electrical engineering topics and finally a senior elective sequence including a senior design seminar and terminating in a capstone design course.

By choice of senior elective sequence, comprehensive coverage is provided in any one of the above fields.

Laboratory facilities are available in the engineering buildings allowing for basic as well as more advanced laboratory instruction in electronics, digital signal processing, control systems, microelectronics, communications, power, and digital systems.

Extension Program

The undergraduate program in electrical engineering is also offered as an extension program at Lancaster University Center, Lancaster, CA as part of the Antelope Valley Engineering Programs. This special program offered through the College of Continuing and Professional Education (CCPE) only accepts upper division transfer students with specific admission requirements. The extension program is a cohort-based model, allowing students to proceed as a group through the program in a prescribed lock-step sequence.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Electrical Engineering). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Electrical Engineering at the Long Beach campus must also meet similar major specific requirements. To become fully admitted into the Electrical Engineering major at the Long Beach campus, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses:

Core Lower Division Major Requirements (grade of "C" or

better required):

MATH 122 (Calculus I), MATH 123 (Calculus II), PHYS 151 (Mechanics & Heat)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

To be admitted to the Electrical Engineering Extension Program offered at Lancaster University Center, all prospective students must have a minimum cumulative 2.5 GPA on all transferable course work attempted, and complete course work equivalent to the following:

Core Lower Division Major Requirements – 33 units (grade of C or better required):

- MATH 122 (Calculus I), MATH 123 (Calculus II), MATH 224 (Calculus III), PHYS 151 (Mechanics & Heat), PHYS 152 (Electricity & Magnetism), PHYS 254 (Modern Physics), EE 202 (Computer Methods), CECS 100 (Computer Programming), and EE 211/211L (Electrical Circuits with lab)

General Education Courses - 30 units:

- Category A – 9 units (Written Communication, Oral Communication, Critical Thinking)
- Category C – 9 units (Humanities, Arts)
- Category D – 9 units (US history, Constitution & American Ideals, Social Science)
- Category E – 3 units (Self-Integration)

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an advisor to determine if the student's performance in the courses merits an additional semester to complete the requirements.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade of "C" or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

Core:

Take all the following courses:

EE 186 Introduction to Programming and Applications for Electrical Engineers (3)

Prerequisite/Corequisite: ENGL 100.

EE 200 Trends in Electrical Engineering (1)

Prerequisites: None.

EE 201 Digital Logic Design (3)

Prerequisite: None

EE 202 Computer Methods in Engineering (3)

Prerequisites: MATH 123 with a grade of "C" or better.

EE 211 Electric and Electronic Circuits I (3)

Prerequisites: (EE 210/210L or PHYS 152) and (MATH 123 or equivalent) all with a grade of "C" or better.

EE 211L Electric Circuits Laboratory (1)

Prerequisite/Corequisite: EE 211.

ENGR 101 Intro to the Engineering Profession (1)

Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skills (1)

Prerequisite: ENGR 101 with a grade of "C" or better.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113, or a grade of "C" or better in MATH 117.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.

MATH 370A Applied Mathematics I (or equivalent) (3)

Prerequisites: A grade of "C" or better in MATH 123. Exclude freshmen.

PHYS 151 Mechanics and Heat (4)

Prerequisite/Corequisite: MATH 122.

EE 301 Digital System Design (3)

Prerequisite: EE 201 with a grade of "C" or better.

EE 310 Signals and Systems (3)

Prerequisites: EE 211; and MATH 370A or equivalent all with a grade of "C" or better. Corequisite: EE 202.

EE 330 Analog Electronic Circuits I (4)

Prerequisite: EE 211, EE 211L both with a grade of "C" or better.

EE 346 Microprocessor Principles and Applications (3)

Prerequisites: EE 201, EE 202 all with a grade of "C" or better.

EE 350 Energy Conversion Principles (3)

Prerequisites: (EE 202 or equivalent) and EE 211 and EE 211L all with a grade of "C" or better, or consent of instructor.

EE 360 Electromagnetic Fields (3)

Prerequisites: MATH 224, EE 310 all with a grade of "C" or better.

EE 370 Control Systems (3)

Prerequisite: EE 310 all with a grade of "C" or better.

EE 370L Control Systems Laboratory (1)

Prerequisite/Corequisite: EE 370.

EE 380 Probability, Statistics & Stochastic Modeling (3)

Prerequisites: MATH 123; (EE 202 or CECS 271 or CECS 274) all with a grade of "C" or better.

EE 382 Communications Systems I (3)

Prerequisite: EE 310 all with a grade of "C" or better.

EE 386 Digital Signal Processing (3)

Prerequisites: EE 310 or CECS 301 all with a grade of "C" or better.

Take one of the following choices:

PHYS 152 Electricity and Magnetism (4)

Prerequisite: PHYS 151 with a grade of "C" or better. Prerequisite/Corequisite: MATH 123.

or both of the following:

EE 210 Electro-Magnetic Foundations in EE (3)

Prerequisite: PHYS 151 all with a grade of "C" or better. Corequisites: MATH 123, EE 210L.

EE 210L Electro-Magnetic Foundations in EE Lab (1)

Prerequisite/Corequisite: EE 210.

Select one course from the following:

PHYS 254 Applied Modern Physics (3)

Prerequisite: PHYS 152 or EE 210; Prerequisite/Corequisite: MATH 224.

EE 220 Materials Sciences for Electrical Engineers (3)

Prerequisites: MATH 224 and (EE 210 and EE 210L) all with a grade of "C" or better.

Each of the foregoing courses must be completed with a grade of "C" or better as well as ENGL 100 or equivalent.

Other required courses are:

EE 400D Electrical Engineering Design Project (3)

Prerequisites: EE 301, EE 330, EE 370, EE 382 and EE 386 all with a grade of "C" or better; or consent of instructor.

EE 430 Analog Electronic Circuits II (3)

Prerequisite: EE 330 with a grade of "C" or better.

Prerequisite/Corequisite: EE 370.

EE 430L Analog Electronics II Laboratory (1)

Prerequisite/Corequisite: EE 430.

Each BSEE student must propose course work consisting of a capstone design course supported by at least two related courses, which form an area of in-depth study as approved by the EE Undergraduate Advisor. Possible areas of study include but are not limited to power, digital signal processing, controls, communications and electronics. A list showing the required supporting courses and capstone design course for each area of study is available from the EE Undergraduate Advisor. Combinations of the above areas of study or another area of study may be proposed to the EE Undergraduate Advisor. Additional elective courses must be chosen from EE 400 level courses to total at least 12 units. The entire program must total at least 120 units.

A grade of "C" or better is required for the capstone senior design course in the area of specialization.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take coursework in a community college or another college to meet curricular requirements while enrolled as an undergraduate in the Department of Electrical Engineering must petition the EE Undergraduate Advisor for prior approval to enroll in specific courses. This policy is for either concurrent enrollment or summer enrollment. Prior approval for transfer credit for upper division major courses may generally be approved for no more than six semester units, subject to approval by the EE Undergraduate Advisor and the EE Department Chair who may require sufficient information to determine if each requested course is deemed equivalent to an EE course at CSULB. Exceptions require approval by vote of the EE Undergraduate Curriculum Committee.

Bachelor of Science in Engineering

Option in Biomedical and Clinical Engineering (120 units)

The Department of Electrical Engineering administers an option in Biomedical and Clinical Engineering that allows the student to acquire substantive competence in biomedical engineering and biology. The program builds upon a strong base of biology, mathematics, physics, chemistry, and engineering science to develop a clinically oriented biomedical engineer to serve medical and industrial needs. It includes a core of standard electrical engineering courses as well as courses and laboratories in biomedical engineering, anatomy, physiology and biology. Elective units are available in the senior year to explore individual areas of interest.

Students planning to attend medical, dental or other health professional or graduate schools in Biomedical Engineering may select courses in Chemistry and/or Biology with the approval of the Biomedical Engineering advisor.

Laboratory facilities in the field of biomedical engineering are available in the engineering buildings; and laboratory facilities for anatomy and physiology are available on campus. Computer systems are available to simulate

biological systems and to collect, process and display physiological data.

Major Declaration

Freshmen admission to engineering majors is to a 'pre-major' status (i.e., Pre-Biomedical & Clinical Engineering). Continuation in the major will be subject to meeting specific lower division course and GPA requirements at CSULB that indicate the student's ability to succeed and complete the major. Transfer applicants and CSULB students seeking admission into Biomedical & Clinical Engineering must also meet similar major specific requirements. To become fully admitted into the Biomedical & Clinical Engineering major, all prospective students (i.e., pre-majors, undeclared, major changes) must have a minimum cumulative 2.5 GPA and complete the following lower-division courses with a minimum grade of "C" prior to earning 60 units:

Core Lower-Division Major Requirements:

MATH 122 (Calculus I), MATH 123 (Calculus II), PHYS 151 (Mechanics & Heat)

General Education Foundations Courses:

Written Communication, Oral Communication, and Critical Thinking

Degree Progress

Students must complete the following requirements within one calendar year of declaring the major. Some students may need to take courses during Summer Session to meet these requirements. At the end of the year, students who have not met the requirements must either declare another major or meet with an Academic Advisor to determine if the student's performance in the courses merits an additional semester to complete.

First-Time Freshmen: A grade of "C" or better must be achieved in MATH 122 within one calendar year.

Transfer Students: A grade C or better must be achieved in MATH 123 and PHYS 151 within one calendar year.

Requirements

Lower Division

Take all of the following courses:

BIOL 207 Human Physiology (4)

Prerequisites: GE Foundation requirements.

CHEM 111A General Chemistry (5)

Prerequisites: A passing score on the Chemistry Placement Examination.

Corequisite: MATH 109 or higher.

EE 200 Trends in Electrical Engineering (1)

Prerequisites: None.

EE 201 Digital Logic Design (3)

Prerequisite: None.

EE 202 Computer Methods in Engineering (3)

Prerequisites: MATH 123 with a grade of "C" or better.

EE 211 Electric and Electronic Circuits I (3)

Prerequisites: (EE 210/210L or PHYS 152) and (MATH 123 or equivalent) all with a grade of "C" or better.

EE 211L Electric Circuits Laboratory (1)

Prerequisite/Corequisite: EE 211.

ENGR 101 Intro to the Engineering Profession (1)

Prerequisite/Corequisite: MATH 111 or MATH 113 or MATH 122.

ENGR 102 Academic Success Skills (1)

Prerequisite: ENGR 101 with a grade of "C" or better

- MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and MATH 113.
- MATH 123 Calculus II (4)
Prerequisite: A grade of "C" or better in MATH 122.
- MATH 224 Calculus III (4)
Prerequisite: A grade of "C" or better in MATH 123 or MATH 222.
- PHYS 151 Mechanics and Heat (4)
Prerequisite/Corequisite: MATH 122.

Take one of the following choices:

- PHYS 152 Electricity and Magnetism (4)
Prerequisite: PHYS 151; Prerequisite/Corequisite: MATH 123.

Or both of the following:

- EE 210 Electro-Magnetic Foundations in EE (3)
Prerequisite: PHYS 151 all with a grade of "C" or better.
Corequisites: MATH 123, EE 210L.
- EE 210L Electro-Magnetic Foundations in EE Lab (1)
Prerequisite/Corequisite: EE 210

Select one course from the following:

- PHYS 254 Applied Modern Physics (3)
Prerequisite: PHYS 152 or EE 210; Prerequisite/
Corequisite: MATH 224.
- EE 220 Materials Sciences for Electrical Engineers (3)
Prerequisites: MATH 224 and (EE 210 and EE 210L) all
with a grade of "C" or better

Each of the foregoing courses must be completed with a grade of "C" or better as well as ENGL 100 or equivalent. The interdisciplinary courses as well as the Communications Studies (COMM) courses required for General Education must be taken for a letter grade.

Upper Division:

Take all of the following courses which must be completed with a "C" or better:

- EE 301 Digital System Design (3)
Prerequisite: EE 201 with a grade of "C" or better.
- EE 310 Signals and Systems (3)
Prerequisites: EE211; and MATH 370A all with a grade of "C" or better or equivalent. Corequisite: EE 202.
- EE 330 Analog Electronic Circuits I (4)
Prerequisite: EE 211, EE 211L both with a grade of "C" or better.
- EE 346 Microprocessor Principles and Applications (3)
Prerequisites: EE 201, EE 202 all with a grade of "C" or better.
- EE 370 Control Systems (3)
Prerequisite: EE 310 all with a grade of "C" or better.
- EE 370L Control Systems Laboratory (1)
Prerequisite/Corequisite: EE 370.
- EE 382 Communication Systems I (3)
Prerequisite: EE 310 with a grade of "C" or better.
- EE 386 Digital Signal Processing (3)
Prerequisites: EE 310 or CECS 301 all with a grade of "C" or better.
- EE 400D Electrical Engineering Design Project (3)
Prerequisites: EE 301, EE 330, EE 370, EE 382 and EE 386 all with a grade of "C" or better; or consent of instructor.
- EE 406 Medical Instrumentation and Measurements (3)
Prerequisite: EE 330 with a grade of "C" or better or consent of instructor or graduate standing.
- EE 406L Biomedical Engineering Laboratory (1)
Prerequisite/Corequisite: EE 406.
- EE 407 Applications of Computers in Medicine (3)

Prerequisite: EE 346 with a grade of "C" or better or consent of instructor or graduate standing.

- EE 412. Fractals in Engineering (3)
Prerequisite: EE 310 with a grade of "C" or better or graduate standing.
- EE 430 Analog Electronic Circuits II (3)
Prerequisite: EE 330 with a grade of "C" or better.
Prerequisite/Corequisite: EE 370.
- MATH 370A Applied Mathematics I (3)
Prerequisites: A grade of "C" or better in MATH 123. Not open to Freshmen.

Take two additional approved biomedical electives to at least 120 units.

Bachelor of Science in Electronics Engineering Technology

For requirements and courses, see description in the Engineering Technology Programs section of this catalog.

Bachelor of Science in Computer Engineering Technology

For requirements and courses, see description in the Engineering Technology Programs section of this catalog.

Graduate Programs

Master of Science in Electrical Engineering

This program affords an opportunity for engineers and others to advance their competency in analysis and design to better meet the high technology needs of local industry. Each student selects two core courses and three graduate courses in one area of emphasis, and the remaining courses must augment and support the area of emphasis. Some current examples of areas of emphasis are biomedical, communications, computer/communication networks and security, control systems and robotics, digital signal processing, digital and computer systems, electromagnetics and optics, electronics, networks and filters, and power. Students may create other areas of emphasis with the approval of the graduate advisor. Students will choose one of the three alternatives: thesis, project, and course-only. Successful completion of a thesis provides a unifying culmination to the program, and an enhanced resume for future industrial or academic endeavor. A limited number of laboratory and teaching assistantships are available to qualified graduate students.

Prerequisites

1. A bachelor's degree from an accredited program in electrical engineering or a bachelor's degree from an accredited engineering, natural science or other appropriate program with the requirement that essential undergraduate deficiencies in electrical engineering are removed prior to Advancement to Candidacy.
2. The student should apply online at CSU Mentor. Do not send an application to the Department. International students should apply online at CSU Mentor or through the Center for International Education.
To be considered for admission the prospective graduate student must have attained a GPA of at least 2.8 for the last 60 semester units (90 quarter units) attempted prior to entry in the MSEE program. The general Graduate Record

Examination (GRE) is required.

The student should apply online at CSU Mentor. Do not send an application to the Department. International students should apply online at CSU Mentor or through the Center for International Education.

Requirements

Take at least 2 out of the below 5 courses appropriate to area of emphasis and subject to graduate advisor approval:

EE 503 Advanced Systems Engineering (3)

Prerequisite: EE 411 with a grade of "C" or better or equivalent mathematical maturity.

EE 505 Advanced Engineering Mathematics for EE (3)

Prerequisites: Consent of instructor.

EE 508 Probability Theory and Random Processes (3)

Prerequisite: EE 380 with a grade of "C" or better.

EE 509 Network Theory (3)

Prerequisites: EE 386, EE 410 or EE 430 all with a grade of "C" or better.

EE 511 Linear Systems Analysis (3)

Prerequisite: EE 411 or EE 470 all with a grade of "C" or better or equivalent mathematical maturity.

Complete 30 unit minimum in 400-, 500-, or 600-level courses as approved in advance by the graduate advisor.

Take one of the following three alternatives:

1. Thesis Alternative:

500/600-level EE courses including core (15 units);

EE 697 Directed Research (3);

EE 698 Thesis or Industrial Project (6);

400/500/600-level courses in EE (6 units);

Comprehensive Oral Exam on Thesis.

2. Project Alternative:

• 500/600-level EE courses including core (21 units);

• EE 697 Directed Research (6) (on a capstone project);

• 400/500/600-level EE courses (3 units);

• Comprehensive Oral Exam on the capstone project.

3. Course-Only Alternative:

500/600-level EE courses including core and at least

three courses forming area of emphasis (24 units);

400/500/600-level EE courses (6 units);

Comprehensive Oral Exam on the area-of-emphasis.

Tentative Program

Upon matriculation graduate students must consult with the graduate advisor and a tentative program must be approved by the advisor by a few weeks into the first semester. The program must contain two core courses and exhibit an area of emphasis comprised of at least three related graduate courses (500 or 600 level). Students should obtain the MSEE Handbook, which covers the procedures and requirements, from the advisor or Electrical Engineering Department office or Electrical Engineering web.

Advancement to Candidacy

At least one semester before the graduating semester students must advance to candidacy. To apply for advancement to candidacy students must satisfy the following requirements:

1. All deficiencies must have been made up with a GPA of at least 3.0.
2. Currently enrolled in a regular session.
3. Demonstration of competence in technical writing by

passing an appropriate writing course such as ENGL 317, ENGL 417, ENGL 418, or ENGL 419 with a grade of "C" or better or by providing acceptable proof of technical writing ability to the graduate advisor. This requirement can be waived for thesis or project students upon recommendation of the graduate advisor.

4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

5. Completion of at least 9 units as a graduate student in residence while maintaining both an overall GPA and a program GPA of at least 3.0. Students are advised to seek advancement before completing 15 units of the program.

Ph.D. in Engineering and Industrial Applied Mathematics

For requirements, see the description in the College of Engineering section of this catalog.

Courses (E E)

LOWER DIVISION

186. Introduction to Programming and Applications for Electrical Engineers (3)

Prerequisite/Corequisite: ENGL100 or equivalent

Introduction to programming using the C language, with emphasis on electrical engineering applications. Variables, conditional control flow loops, functions and program structure, pointers and arrays, input/output processing. Introduction to embedded system applications and development platforms.

Letter Grade only (A-F). (Lecture 2 hours, laboratory 3 hours).

200. Trends in Electrical Engineering (1)

Electrical Engineering as a profession. Nature of professional and design activities. Advances in Electrical Engineering. Current designs, future trends and challenges in various fields of Electrical Engineering. (Lecture 1 hour) Letter grade only (A-F).

201. Digital Logic Design (3)

Practical design of digital circuits. Basic topics in combinational and sequential switching circuits with applications to the design of digital devices.

(Lecture-problems 2 hours, laboratory 3 hours)

202. Computer Methods in Engineering (3)

Prerequisites: MATH 123 with a grade of "C" or better.

Introduction to MATLAB and numerical methods with applications to engineering. Programming in MATLAB. Introduction to SIMULINK and other MATLAB toolboxes.

(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F). Not open for credit to students with credit in ENGR 202.

210. Electro-Magnetic Foundations in Electrical Engineering (3)

Prerequisite: PHYS 151 all with a grade of "C" or better.

Corequisites: MATH 123, EE 210L.

Electric fields. Magnetic fields. Ohm's law. Kirchoff's laws. Physics of inductance and capacitance. Conservation of energy. Introduction to RL, RC and RLC circuits. Introduction to phasors. Introduction to electric machinery, computer electronics, electromagnetic radiation, and communication.

(Lecture-problems 3 hours) Letter grade only (A-F).

210L. Electro-Magnetic Foundations in Electrical Engineering Laboratory (1)

Prerequisite/Corequisite: EE 210.

Laboratory experiments demonstrating behavior of resistive circuits; capacitors and inductors; transient RL and RC circuits; sinusoidal (phasor) RL, RC and RLC circuits; motors, generators, and transformers.

Letter grade only (A-F).

211. Electric and Electronic Circuits (3)

Prerequisites: (EE 210/210L or PHYS 152) and (MATH 123 or equivalent) all with a grade of "C" or better.

Linear circuit analysis techniques including circuit transformations, mesh and node analyses. Thevenin's, Norton's, Superposition, and Maximum Power Transfer theorems. Transient analysis of RL, RC and RLC circuits. Phasors. Power concepts. Nonlinear circuits including diodes. Circuit solution using PSpice.

(Lecture-problems 3 hours) Letter grade only (A-F).

211L. Electric Circuits Laboratory (1)

Prerequisite/Corequisite: EE 211.

Laboratory investigation of Ohm's Law, Kirchhoff's Laws, voltage and current division, mesh and nodal analysis, Thevenin and Norton equivalents, superposition, simple RL, RC, RLC circuits, phasors. Use of voltmeters, ammeters, ohmmeters and oscilloscopes. Identification of unknown elements.

(Laboratory 3 hours) Letter grade only (A-F).

220. Materials Sciences for Electrical Engineers (3)

Prerequisites: MATH 224 and EE 210 all with a grade of "C" or better.

Basic principles of optical and wave propagation. Introduction to quantum electronics. Fundamental aspects of photonics and materials sciences and their relevance to solid state electronic circuits.

Letter grade only (A-F). (Lecture-problems 3 hours)

260. Analytical Methods for Electromagnetics (4)

Prerequisite: EE 210 or PHYS 152 or equivalent all with a grade of "C" or better.

Fundamental concepts and analytical methods for electromagnetics. (Lecture 3 hours, problem session 2 hours.) Letter grade only (A-F).

UPPER DIVISION

301. Digital System Design (3)

Prerequisite: EE 201 with a grade of "C" or better.

FPGA based digital design. Implementation of FPGA digital hardware systems based on the algorithms and implementation requirements using hardware description languages, optimization, logic synthesis, place and route methods. Implementation of finite state machines.

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

310. Signals and Systems (3)

Prerequisites: EE211; and MATH 370A or equivalent all with a grade of "C" or better.

Corequisite: EE 202.

Fundamental concepts of signals and systems. Laplace Transforms. Fourier Series. Fourier Transforms. Two-port parameters.

(Lecture-problems 3 hours) Letter grade only (A-F).

315. Introduction to Systems Analysis (3)

Prerequisite: MATH 123 with a grade of "C" or better.

System definitions: linear, nonlinear, continuous, discrete. Analytical, and qualitative solution of nonlinear systems. Linear system analysis and solutions. Introduction to complex algebra. Discrete systems modeling, analysis, solutions. State space representation and stability analysis. Introduction to linear and matrix algebra.

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

330. Analog Electronic Circuits I (4)

Prerequisites: EE 211, EE 211L both with a grade of "C" or better.

Analysis and design of diode, bipolar junction transistor, field-effect transistor (MOSFET and JFET), and CMOS circuits. Op-Amp linear and nonlinear circuit applications. Digital electronic circuits. Laboratory includes transistor and operational amplifier circuit design and CAD tools.

(Lecture-problems 3 hours, laboratory 3 hours) Letter grade only (A-F).

346. Microprocessor Principles and Applications (3)

Prerequisites: EE 201, EE 202 all with a grade of "C" or better.

Introduction to the design of modern RISC based microprocessors and microcontrollers. Programming problems written in C++ and assembly using the critical thinking skills learned in CECS100. Architectural principles learned in the classroom illustrated using the assembly programming language.

Letter grade only (A-F). (Lecture-problems 2 hours, lab 3 hours)

350. Energy Conversion Principles (3)

Prerequisites: (EE 202 or equivalent) and EE 211 and EE 211L, or consent of instructor all with a grade of "C" or better.

Electromechanical energy conversion. Power transformers. DC, synchronous, and induction machines. Laboratory experiments on power electronics and rotating machinery.

Letter grade only (A-F). (Lecture-problems 2 hours, lab 3 hours).

360. Electromagnetic Fields (3)

Prerequisites: MATH 224, EE 310 all with a grade of "C" or better.

Electric and magnetic field theory including propagation of plane waves in lossless and dissipative media. Maxwell's equations. Transmission lines and waveguides.

(Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in EE 460.

370. Control Systems (3)

Prerequisite: EE 310 with a grade of "C" or better.

Control systems analysis; block diagrams, signal flow graphs, stability criteria, root locus, frequency domain analysis. Examples of classical control system design.

Letter grade only (A-F). (Lecture-problems 3 hours).

370L. Control Systems Laboratory (1)

Prerequisite/Corequisite: EE 370.

Experiments which reinforce concepts learned in EE 370. Digital simulation modeling, analysis, and design. Real time applications.

Letter grade only (A-F). (Laboratory 3 hours)

380. Probability, Statistics, and Stochastic Modeling (3)

Prerequisites: MATH 123; (EE 202 or CECS 271 or CECS 274) all with a grade of "C" or better.

Probability with an emphasis on computer modeling of probabilistic systems. Topics such as discrete and continuous random variables, moments, correlation, covariance, Markov processes and queuing theory presented from a mathematical foundation developed and exemplified with realistic computer simulations from students.

Letter grade only (A-F). (Lecture 2 hrs, Laboratory 3 hrs)

382. Communication Systems I (3)

Prerequisite: EE 310 with a grade of "C" or better.

Review of Fourier series and transforms. Introduction to passive, active, and digital filters. Basic elements of probability theory, statistics, concept of white noise, AM, DSB, SSB and vestigial modulation, narrowband and wideband FM.

Letter grade only (A-F). (Lecture-problems 2 hours, lab 3 hours)

386. Digital Signal Processing (3)

Prerequisites: EE 310 or CECS 301 all with a grade of "C" or better.

Introduction to discrete-time signals and systems, z-transform, digital filters, system design, and comparison to the analog counterparts. Multimedia-based laboratory experiments for discrete-time signals and systems in time and frequency domain, synthesis of digital sound/music with MATLAB or C.

Letter grade only (A-F). Not open for credit to students with credit in EE 485. (Lecture-problems 2 hours, laboratory 3 hours)

400D. Electrical Engineering Design Project (3)

Prerequisites: EE 301, EE 330, EE 370, EE 382 and EE 386 all with a grade of "C" or better; or consent of instructor

First integrative learning capstone design course. Project design, design for testability, safety, manufacturability, and other constraints such as performance, cost, packaging, codes and standards.

Ethics, social and environmental impact. Teamwork, written communication and presentations

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

405. Selected Topics in Electrical Engineering (3)

Prerequisites: Senior standing in electrical engineering or consent of instructor or graduate standing.

Selected topics from recent advances in electrical engineering.

Letter grade only (A-F). May be repeated to a maximum of 6 units with undergraduate advisor consent. Topics announced in *Schedule of Classes*. (Lecture-problems 3 hours).

406. Medical Instrumentation and Measurements (3)

Prerequisite: EE 330 with a grade of "C" or better or consent of instructor or graduate standing.

Design and analysis of medical instruments, electrodes and amplifiers for measurement of physiological signals.

Letter grade only (A-F). (Lecture-problems 3 hours)

406L. Biomedical Engineering Laboratory (1)

Prerequisite/Corequisite: EE 406.

Laboratory study of medical instrumentation, transducers and computer data processing.

(Laboratory 3 hours) Letter grade only (A-F).

407. Applications of Computers in Medicine (3)

Prerequisite: EE 346 with a grade of "C" or better or consent of instructor or graduate standing.

Integrative learning capstone course with focus on principles of analysis and design of computing and data collection equipment for real-time on-line medical systems. Emphasis on written and oral communication and teamwork. (Lecture-problems, projects 3 hours) Letter grade only (A-F).

410. Analog Filter Design (3)

Prerequisite: EE 310 with a grade of "C" or better or graduate standing.

Theory and design of active filters using operational amplifiers. Emphasis is placed on low-pass filters.

Lecture-problems 3 hours) Letter grade only (A-F).

411. Continuous- and Discrete-Time Linear Systems (3)

Prerequisite: EE 370 with a grade of "C" or better or graduate standing.

Review of matrices and linear algebra. Z-transforms, linear systems, and difference equations. State-space description of linear systems. Analysis including stability, reachability, and observability. State-feedback.

(Lecture-problems 3 hours) Letter grade only (A-F).

412. Fractals in Engineering (3)

Prerequisite: EE 310 with a grade of "C" or better or graduate

standing.

Application of fractal geometry to system theory. Study of system dynamics leading to complex behaviors and chaos. Scaling laws, sensitivity to initial conditions, strange attractors, and if noise will also be discussed.

(Lecture-problems 3 hours). Letter grade only (A-F).

420. Solid State Electronic Devices (3)

Prerequisite: PHYS 254 with a grade of "C" or better or graduate standing.

Semiconductor crystal structure and growth. Carrier modeling, drift and diffusion currents. P-N junctions, diodes, solar cells and light-emitting diodes (LED). Bipolar junction transistor (BJT) biasing, linear and switched operation. Metal oxide semiconductor field effect transistor (MOSFET) operation. Solar cells, photovoltaics, and lasers.

Not open for credit to students with credit in EE 320. (Lecture-problems 3 hours) Letter grade only (A-F).

427./527. Digital Filter Design and Audio Processing (3)

Prerequisite: EE 386 with a grade of "C" or better or consent of instructor.

Digital filter design methods, filter architectures, round-off noise, implementation and applications to audio signal processing. Additional projects required for EE 527.

(Lecture-problems 3 hours) Letter grade only (A-F).

428./528. Speech Signal Processing (3)

Prerequisite/Corequisite: EE 486 or consent of instructor.

Principles and engineering applications of speech signal processing. Speech synthesis, recognition, encoding, and compression. Applications of neural networks.

Additional projects required for EE 528. (Lecture-problems 3 hours) Letter grade only (A-F).

430. Analog Electronic Circuits II (3)

Prerequisite: EE 330 with a grade of "C" or better.

Prerequisite/Corequisite: EE 370.

Differential pairs, current sources, output stages, and integrated operational amplifiers. Op-amp applications and practical issues. Frequency response. Computer-aided circuit analysis and design. Feedback amplifiers and stability. Oscillators.

(Lecture-problems 3 hours) Letter grade only (A-F).

430L. Analog Electronics Laboratory II (1)

Prerequisite/Corequisite: EE 430.

Advanced transistor, operational amplifier, and linear-integrated circuits and systems design laboratory.

Not open for credit to students with credit in EE 433L. (Laboratory 3 hours) Letter grade only (A-F).

434./534. Mixed-Signal IC Design (3)

Prerequisites: EE 201 and EE 330 all with a grade of "C" or better or consent of instructor.

CMOS fabrication. Component layout. MOSFET modeling. Mixed-signal devices such as D/A and A/D converters and phase-locked loops. Substrate Noise coupling. System-on-chip considerations. Design using CAD tools.

Additional projects required for EE 534. (Lecture-problems 2 hours, Laboratory 3 hours) Letter grade only (A-F).

435./535A. Microelectronics (3)

Prerequisites: EE 201 and EE 330 all with a grade of "C" or better.

Theory of microelectronics integrated circuit design, IC fabrication technology, device characterization, modelling, digital and analog simulation tools, physical layout tools, digital standard cell library design, IC digital system designs, I/O pad design, full chip simulation and physical designs.

Additional projects required for EE535A. (Lecture-problems 3 hours) Letter grade only (A-F).

435L. Microelectronics Laboratory (1)

Corequisite: EE 435.

Laboratory evaluation of IC process steps. Wafer probe, packaging, and final test. Empirical device model formulation from test data.

Not open for credit to students with credit in EE 420L. (Laboratory 3 hours) Letter grade only (A-F).

436./536. Microfabrication and Nanotechnology (3)

Prerequisites: EE 330 and PHYS 254; or MAE 300 all with a grade of "C" or better.

Techniques and the technology of miniaturization of electrical, mechanical, optical, and opto-electronic devices in sizes from millimeters to nanometers. Design examples of sensors, microlenses, cantilevers, and micromotors, process fabrication.

Additional projects required for EE 536. (Lecture-problems 3 hours) Letter grade only (A-F).

442. Mechatronic Systems Design (3)

Prerequisites: (EE 202 and EE 346) or (MAE 300 and MAE 376) all with a grade of "C" or better, or consent of instructor

Sensor and actuator characteristics, selection criteria, and modeling. Simulation and design of mechatronic systems. Hardware implementation and interfacing using microcontroller. Hardware-in-the-loop (HIL) simulation.

Letter grade only (A-F). Same course as MAE 490G. Not open for credit to students with credit in MAE 490G. (Lecture-problems 3 hours)

443. System-on-Chip Architecture and Applications (3)

Prerequisite: EE 346 with a grade of "C" or better or consent of instructor or graduate standing.

Introduction to System-on-Chip Architecture by using ARM's MCU and MMU. Concepts and methodologies in designing a system-on-chip (SoC) based microprocessor core. Principles of modern SoC and processor design. Embedded applications based around SoC processor cores.

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

444. Microprocessor Based System Design (3)

Prerequisite: EE 346 with a grade of "C" or better or graduate standing.

Study of microprocessor based systems and their integration with peripheral devices including sensors, actuators, and serial communications. Following a progressive lab sequence, over the semester the student will design and construct a modern RISC microcontroller based system.

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F). Not open for credit to student with credit in EE 347.

447. Design of Electronic Systems (3)

Prerequisites: (EE 301 or 435) and EE 346 and EE 430 all with a grade of "C" or better, or graduate standing.

Prerequisite/Corequisite: EE 400D or graduate standing.

Second integrative learning capstone course, focusing on the design of analog and digital systems. Extensive laboratory projects, written communication, and teamwork. Computer aided circuit/system analysis and design using hardware descriptive language (HDL), PSPICE, Matlab/Simulink, etc.

(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

448./548. Wireless and Mobile Networks and Security in Wireless Networks (3)

Prerequisite: EE 482 with a grade of "C" or better or equivalent.

Wireless and Mobile Ad-hoc Networks and Security. Ad-hoc and geographic routing, resource discovery, MAC, IP-mobility, mobility modelling, wired-wireless networks, security aspects. Lab Projects will include use of tools such as OPNET, Ethereal, Sniffer,

Scanner, IDS, etc.

Advanced project required for EE 548. (Lecture-problems 3 hours) Letter grade only (A-F).

450. Electronic Control of Motors (3)

Prerequisite: EE 350 with a grade of "C" or better or graduate standing.

Prerequisites/Corequisites: EE 370 or graduate standing.

Characteristics of semiconductor power switches. Modeling and application of control theory to various types of motors. Bidirectional and four-quadrant converter topologies for motion control. Selection of drives to control AC and DC motors. Uninterruptible power supplies and adjustable speed drives.

(Lecture-problems 3 hours) Letter grade only (A-F).

451. Electric Vehicles (3)

Prerequisites: EE 350 and (EE 370 or MAE 376) all with a grade of "C" or better; or graduate standing.
