

Curriculum for MSN Adult Clinical Nurse Specialist (CNS) Program

Core Courses

N511, 521, 530, 530L, 540, 550, 560, 696

Clinical Specialty Courses

673 and 673L

674 and 674L

675 and 675L

Final Culminating Course

698 Thesis or

692 Directed Project

We have two types of CNS programs: On-Campus and Off-Campus.

The On-Campus program is open to any BSN prepared registered nurse who has applied and enrolled in the university. The classes are held on campus and the clinicals are done using the preceptor model.

The off-site CNS programs are grant-supported and enrollments are restricted to the BSN prepared nursing employees of the Health Care Agency.
