SELECTION PROCESS for Graduate Nursing Programs

An admission committee, including faculty from the specialty area indicated on the application, will evaluate the application. Applicants are selected based on a scale of 100 points obtained from information in the applicant's file. This will rank students from highest to lowest scores within the specialty the applicant is applying. Applicants with all pre-requisite courses completed will be given preference for admission. As each program fills, alternates in order of ranking are selected. Alternates may be admitted through the second week of the semester in the event a student does not accept admission or drops out. Applicants not admitted may reapply for the next admission date.

NOTIFICATION PROCESS

Letter of the decision regarding acceptance whether they are admitted, an alternate, not admitted or not qualified will notify applicants. Applicants who decline acceptance for the semester to which they apply must provide a letter to the Student Affairs Committee of the intent to enter, or not enter, at a later date. Students entering in a different semester will compete with the eligible pool of applicants for that semester. No priority will be given. (A new application to the university will need to be made for each subsequent semester.) Applications of those not admitted will be kept and filed in the Department of Nursing for one year at which time they will be destroyed.

1. Students who wish to be reconsidered for admission in the next application period must submit a letter to the Student Affairs Committee of their intent to reapply.
2. A new application to the university will need to be made for each subsequent application.
3. It is the student's responsibility to keep his or her file current with the Graduate Nursing Office (including update of transcripts and prerequisites).
4. Students who reapply will not be given special/priority status.

STUDENT COUNSELING

General counseling sessions are held monthly, usually one Wednesday or Thursday of each month during the semester from 5PM to 6PM in the Department of Nursing. Please call 562-985-4473 to verify dates and times. Sessions are generally not held in the months of May-August.

EVALUATION CHECKLISTS

Enclosed you will find three (3) Evaluation Checklists which will need to be completed by the following people:

1. A nursing educator from a program (for example; academic, certificate, C.E., involving an instructor over a number of meetings and days) in which you were most recently enrolled (preferably from the specialty in which you wish to enroll).
2. A recent employer.
3. Another health professional.

If you are unable to obtain an evaluation in any one* of these three categories, you may obtain a relevant evaluation from another individual in the remaining two categories. (*This may be necessary if the program in which you were most recently enrolled no longer has the same instructor, or if the program no longer exists). Be sure to put your own name at the top of each Evaluation Checklist. The Evaluation Checklist must be mailed directly to the Department of Nursing by the evaluator. You are advised to give each person a stamped envelope addressed to:

**California State University, Long Beach
Graduate Nursing Program
1250 Bellflower Blvd.
Long Beach, CA 90840-0301**

The Evaluation Checklists will be considered, along with other stated criteria, in the Admission Committee's evaluation of your application to the Graduate Program. Because these evaluations are quantified, it is essential that the person evaluating you uses the checklist provided. The score will be added to your admission profile.
