

Intensive Latin

CSU Long Beach Summer Session

Copyright 1997 Leo C. Curran *Templum Romuli*

- Religious Studies: Want to read the great Christian scholars in the original?
- Philosophy: Ever wish you could read Cartesian philosophy in the original Latin?
- Mediaeval Studies: Why depend on translations? And what about all those texts and inscriptions not translated?
- English: Think of it! All those English writers until this century knew Latin and referred to Latin literary texts in their own writing. What about you?
- History: Want to be able to read the centuries of scholars of history who wrote in Latin?
- Prelaw students: Did you know that the legal vocabulary we use is almost entirely Latin based and often the original Latin phrasing?
