Winter Session 2010

Energy and the Environment ENGR 3021

GE capstone credit (B3 or D2) Global Issues (•)
(Open to all majors—no engineering or math background necessary)

- Obama's energy and environmental policies—will they work?
- How much will we be paying for gasoline next year?
- Is there any limit to growth?
- Can we allow Iran and North Korea to go nuclear?
- What is depleted uranium and its long term effects?
- Is OPEC trying to choke the West?
- Are we losing the edge on renewable energy technologies to Europe and Japan?
- Global warming: Is it real or a hoax?
- Why did the US pull out of the Kyoto Treaty? What's next in Copenhagen?
- Are hybrid and fuel cell vehicles the keys in solving our transportation and environmental problems? What about fast rail?
- Are there alternatives to current tax laws?

If the answer to any of these questions is important to you, this course is for you...

Includes overnight trip to Iguazu Falls, Uruguay; day trips to Colonia, Uruguay; and Tigre Delta and San Isidro plus city tour of Buenos Aires, Tango show, and other cultural events.
