

Ecuador

Go Global! Go Abroad!

Short-Term Study Abroad Programs
In Partnership with the Center for International Education

International Health H/SC 420I

GE capstone credit (D2) Global Issues (•)
(Open to all majors)

Course will include analysis and evaluation of:

- The multidisciplinary nature of international health and the impact of such other human service disciplines as education, technology, economics, and public policy in promoting, protecting, and restoring the health of a nation;
- The effectiveness and the ethical considerations involved with the provisions of aid to developing nations;
- The trends in selected, communicable and non-communicable diseases plaguing world health;
- The role of international health agencies and their contributions to improving world health;
- The population, structure, and growth rates of developed and developing countries, in particular, Ecuador.

Students will:

- Visit health care facilities and non-governmental agencies that serve public health needs.
- Have weekend nature walks and birding in a national park
- Learn about culture and environment of Ecuador
- Attend
