Note:
Data is based on candidate performance in the courses offered in *Summer 12, Fall 12, Spring 13.*

Average in the "Total" row is computed as a simple mean of program averages.

N reflects the number of signature assignments related to that standard. This may include data from one or more outcomes/signature assignments

MSCP data: We did not have accurate data on the pathway for each student at the time data were collected; therefore, pathway numbers on this report do not match actual enrollment. Also, the Total N is greater than the sum of the individual pathways. This is due to incomplete pathway data and unique features of the MSCP assessment plan through summer 2013.

= Shaded area means the key idea(s) are not directly measured in that program.

"n/o" = The course in which the outcome is assessed was not offered during *AY12-13*.

"-" = Data not submitted

* = Program collects and analyzes qualitatve data
