

General Engineering Contractor

General Contractor seeking JUNIOR ESTIMATOR

Required Skills:

B.S. in Civil Engineering or Construction Management, or senior-level undergraduate

Recommended Skills:

Excellent communication skills, proficiency with Excel, Word, AutoCAD; estimating and/or scheduling software a plus.

Job Description:

Work and learn directly with our team of Estimators and Project Managers to develop competitive project cost estimates. Perform quantity takeoffs, outreach and solicit proposals from specialty subcontractors and material suppliers, analyze plans and specifications to develop an understanding of project requirements and scope. This is a great opportunity to learn about different project types, work with many public Agencies and Owners, and be exposed to the latest construction methods and technologies.

We are seeking a candidate with the ability to “think outside the box” looking for an opportunity for growth and development. At Los Angeles Engineering, Inc., you are part of a team, with a great work environment. We are a leading General Construction Contractor since 1986. Our work is diverse from road work to minor bridges, parks, athletic complexes, landscaping, utilities, and other specialty complex projects. We offer great compensation packages along with an ESOP program.
