

MIDTERM 2 STUDY GUIDE

HISTORY OF PSYCHOLOGY, Psy 401/501, Spring, 2004, Lee, CSULB

This study guide is provided to help you prepare for MIDTERM 2. Please use this guide (for chapters 11-13, 15-18) covering Functionalism through Contemporary Psychology. A good strategy for the MIDTERM is to take the names and terms listed below and identify each using a couple of sentences. **IT IS IMPORTANT THAT YOU BE ABLE TO LINK UP EACH NAME WITH THE APPROPRIATE PSYCHOLOGY SCHOOL OF THOUGHT OR DISCIPLINE AS WELL AS WITH THE TERMS AND MAJOR PUBLICATIONS THAT APPLY TO THEM.** The format of the exam will be the same as your last midterm: primarily multiple choice questions and 1 or 2 essays tracing a modern day idea/debate/construct back to its historic germination. **Essays will be comprehensive; that is, they will cover the entire book, not just the second half.** Again, please bring your TEXTBOOK, your lecture notes, and a MINI ESSAY BOOK Scantron Form 886-E-LOVAS to class.
