Imagine yourself in the rich textures of forest and river experiencing an Amazon adventure to thrill the senses: you stand on the deck of a beautiful riverboat as the sun peaks through the lush vegetation. The boat glides into a small tributary, welcomed by a chorus of exotic birds.

Moments later, the forest reverberates as the spine-tlingling roar of howler monkeys joins the mix.

Kayaking to the forest edge, you spot a sloth clinging to a tree and monkeys playing in the forest canopy. Giant palms stand sentinel, incredibly twisted vines dangle above your head and somewhere close by a toucan calls.

You hike through the forest captivated by the scarlet flash of macaws, leafcutter ants marching like tiny toy soldiers, the delicate song of birds rarely seen. Beyond each twist in the trail you find another hidden treasure.

At the river's edge, the sun plays over vibrantly-colored butterflies and jewel-toned insects. River dolphins cavort nearby as you kayak back to the boat, the aroma of delicious food welcoming you aboard.

As the boat glides over the rich muddy waters of the Amazon and the stunning mirror-like waters of the Rio Negro, take time for quiet reflection, enjoy the stunning scenery, and get to know your fellow travelers.

The Amazon is truly one of the world's greatest wonders and one of the last great wilderness experiences in the world. Come join us for this amazing journey!
