

Important Notice Regarding MSIO Program Course Scheduling

MSIO Program students are often eager to apply their learning to real-world work settings. Toward this end, many MSIO students work part-time while completing their coursework. Courses in the MSIO program will be offered primarily during day and early evening hours. In order to accommodate student work schedules, whenever possible MSIO day classes will be limited primarily to 2 days (e.g., Tuesdays and Fridays). Early evening classes such as statistics meet twice weekly on either Mondays and Wednesdays, or Tuesdays and Thursdays (occasionally these may be scheduled during the day). Early evening classes typically begin at 5:30 p.m.
