SHADOW PROFESSIONALS IN YOUR CAREER FIELD OF STUDY

Welcome to the 5th Annual Chancellor's Office Job Shadow Program

WHY PARTICIPATE IN THE PROGRAM

The Job Shadow Program provides CSU students with an opportunity to gain valuable insight through real and relevant learning as they determine the career paths they will take after graduation. During the program, students have direct interaction with working professionals, providing them with a better understanding of their field of interest as it relates to their current or future majors/minors. The experience also supports and increases the student's knowledge of the skills and abilities needed to be successful when they graduate.

This is not an internship and students will not receive internship credit.

Most importantly, it placed me a step forward in the right direction and more knowledge in Human Resources, Education and Learning. It is my goal to work with a diverse group of cultures and diversity in a HR department. I encourage other CSU's students and international students to enroll in this job shadow program."
