- 3:25-3:45 Large group discussion
- 3:45-4:00 Debriefing/ wrap up
- 4:00-5:00 Refreshments/ Social Hour

Discussion Prompts

- Tell us about yourself and what got you into teaching.
- Tell us about your experience with the impact of COVID in your classroom and educational environment.
- How do you think students seem different this year compared to past years? For instance, they might be different in terms of
 - communication abilities,
 - use of technology,
 - mental, emotional, and physical health, or
 - ability to learn.
- How are you and your colleagues responding to the differences you are seeing? Which responses seem most effective, and which less effective?
- This year's high-school seniors will be next year's first-year students here at CSULB. Do you have any advice for us in welcoming and supporting them?
- Is there anything you wish that we (as faculty, staff, administrators, or students at CSULB) knew about K-12 teachers and your students that we currently don't seem to know or recognize?
