

Subject: Bachelor of Arts in Mathematics Option in Mathematics Education

This program, recommended by the Academic Senate at its meeting of December 1, 1988, received the concurrence of the President on December 7, 1988.

Bachelor of Arts in Mathematics Option in Mathematics Education

This option is for students preparing to teach mathematics at the secondary school level. Completion of this option will meet all course requirements for the Single-Subject Waiver Program in Mathematics. Thirty units of post-baccalaureate coursework are also required for the Clear Single-Subject Teaching Credentials in Mathematics (see Single Subject Teacher Education Program in the Graduate School of Education for more specific information about courses and other requirements).
