- 6.1 Report from CSULB President Jane Conoley: TIME CERTAIN 2:15 pm- JC reports on Mark Wiley returning temporarily as interim Chief of Staff for President. Budget news is encouraging, large chunk is not in continuing funding but a significant amount is in continuing funds. \$330 M in deferred maintenance needed on campus. JC invited AS to visit the new Student Success building. No request for a tuition increase forthcoming for the CSU due to current budget. Reporting on Beach 2030 coming up with strategic initiatives from the data. Alumni and Community Center is community funded and is searching for a location. Two% increase in student population questioned by (Lucy Huckabee) JC states that the increase would be in certain areas of need. Question on waste reduction effort addressed with new waste cans being rolled out- smaller size is problematic for CAPS. Second Mental Health summit coming up in February will deal with funds needed to help students in need. No update on Intellectual property issue. Official opening for Student Success Center in March 2019.
- 6.2 Report from CFA President Doug Domingo-Forasté- DDF reports on new contract coming up in June. PPT report to be put on AS website and CFA website. DDF asks for faculty participation in ratifying new contract forthcoming.

6.3 Report from ASCSU Senator Kelly Janousek: TIME CERTAIN 2:30 pm= reports on ASCSU 3 days' worth of meetings. Passed 11 resolutions. Funding for training on unconscious bias as well as scanning of faculty computers for dangerous materials. Budget is good news, looking at future of funding including tuition free funding. Tenets document mentioned by Chancellor White and said it will be examined. Allowing flexibility in implementing EO 1110 in some campuses. 81% of CSU students receive some type of funding help. 59% receive full tuition paid. Most students graduate with low debt. Resolution passed granting Library data bases receiving increased funding for the first time in many years.

8. NEW BUSINESS

8.1 Proposed revision of General Education Policy (AS-1073-19/CEPC/EC)—FIRST READING: TIME CERTAIN 3:15 pm- Danny Paskin speaks to revision of GE policy being put forward by CEPC. NS reported that Summer 2018 CO issued EO 1100 which mandated that campuses comply with certain stipulation of General Education Breadth requirements. CSULB decided to rethink our GE policy here. There is the GE requirements and the campus specific requirements. Survey and forums ensued and feedback was collected and a report was made by CEPC with the results. AD hoc was created to compile GE document, then another committee created another document due to general unhappiness with the adhoc committee by certain colleges. Moving forward next week amendments will be solicited from AS, policy needs to be read in advance by Senators not at the meeting. DP reports on a comparison table made that explains the differences

4

that the different committees compiled. CEPC used the various documents to create a new policy combining all previous recommendations. CEPC has membership from all constituencies on campus. Recommendation needed by end of last semester. Multiple discussions ensued. DP reports that certain points of the policy were sticking points and these were the GR sections (campus specific requirements) so CEPC voted to separate the 2 parts into GE and GR which allowed for more effective discussions. JC reports that we must follow the EO as far as the specific requirements. TT created a color-coded document, which illustrates the differences on AS website for reference. New committee GEEC suggested helping with new GE policy. General Education is defined as: NS states one model says in your major you also get exposure to the other things, a second model says that your major does not include all areas of study that are needed for a well-rounded degree. As a University, we feel that all students should be exposed to "X" (GE courses). Those who do not agree with this definition should draft an amendment to be presented on the floor of the Senate. AC states that the nature of the discussions regarding major specific requirement for GE would help the AS. TT reports that how students can get all the GE units they need is not a philosophical discussion but more of a practical discussion. Major specific requirements for GE courses can be problematic if there are too many courses offered. DP says discussion regarding how to fit GE courses within the 120-unit limit of majors.
