13:11:53 From Kirsty.Fleming@csulb.edu to Everyone : RTP  
13:12:36 From Kirsty.Fleming@csulb.edu to Everyone : 1) all evaluators of mini reviews and lecturers should have received a memo from the provost asking that people be understanding and flexible within the guidelines.  
13:13:11 From Kirsty.Fleming@csulb.edu to Everyone : 2) we are working on developing a covid impact statement that faculty members can include in their file - early stages.  
13:13:56 From Kirsty.Fleming@csulb.edu to Everyone : 3) probationary faculty members have until early September to request an one year long extension to. Their probationary period - currently one time and irrevocable.  
13:20:09 From Brenda Vogel to Everyone : Can we distinguish between Hybrid/Synchronous and Hybrid/Asynchronous for fall?  
13:21:26 From Jody Cormack (she/her/hers) to Everyone : Online courses are separated by online synchronous, online asynchronous, or online mix. Hybrid courses are a mix of online and on-campus teaching. We do not have any distinguishing factors for hybrid.  
13:25:07 From Kirsty.Fleming@csulb.edu to Everyone : The CSU is negotiating with a variety of childcare providers to get reduced rates for CSU employees.  
13:25:23 From Deborah Hamm CSULB to Everyone : Awesome news Kirsty..  
13:26:01 From Andreas Bill to Everyone : Can there be some security for parents who teach on campus that they will have access to childcare while teaching?  
13:28:05 From Kirsty.Fleming@csulb.edu to Everyone : @Deb - just heard that this morning.  
13:29:24 From Will Murray to Everyone : Can we require all students in a F2F class to wear masks?  
13:31:08 From Kathleen Keirn to Everyone : Will students be required to follow some kind of safety protocols for face-to-face instruction?  
13:31:15 From Kirsty.Fleming@csulb.edu to Everyone : @Will, we currently require masks for all employees and students on campus (with limited medical exceptions). There were no violations among students in the fall. Safety measures for the fall will be according to health guidelines.  
13:31:17 From Jody Cormack (she/her/hers) to Everyone : Mask wearing is currently required for all individuals on campus. We assume this will continue to be a public health recommendation in fall, and if so, we will require it.  
13:32:54 From Tangan Gao to Everyone : is there any coordination at the university level to avoid the situation that some students have to take, say, one face to face class and other classes online? It will be hard for them to do if they live far away from campus.  
13:33:11 From Colleen.Ryan@csulb.edu to Everyone : CSULB face covering policy

13:33:34 From Jody Cormack (she/her/hers) to Everyone : @Tangan, this should be discussed soon

13:34:23 From Rusty Rust to Everyone : Public health guidelines in some places are stating that its safe even without vacciantion

13:34:49 From Kathleen Keirn to Everyone : For face-to-face instruction, where will students be permitted to gather or wait between their classes?

13:35:22 From Lily House-Peters to Everyone : Is there a way for faculty who are teaching F2F in Fall be moved to a higher priority to ensure by August they are vaccinated before returning to the classroom.

13:35:40 From Rusty Rust to Everyone : ^ what about their families

13:36:05 From Rusty Rust to Everyone : vaccination does not prevent trasmission

13:36:52 From Kirsty.Fleming@csulb.edu to Everyone : @Lily, currently Dr. Fodran believes all employees can be vaccinated by March or April. Of course, these are always contingent on supply of the vaccine.

13:44:33 From Eduardo.Morales@csulb.edu to Everyone : Have you considered only offering senior level courses on campus for Fall 2021, junior level courses in Spring 2022, and so on making changes as is needed or is safe?

5. Eduardo Morales

13:47:03 From Kirsty.Fleming@csulb.edu to Everyone : @Eduardo, individual colleges and departments determine the priority of which classes come back based on their disciplines and pedagogies. What you suggest certainly would seem to work from some disciplines but not necessarily for all.

13:47:09 From Jody Cormack (she/her/hers) to Everyone : All options have been considered! Colleges have worked with Departments to determine high priority courses to return to campus, primarily based on pedogogical needs. Some Colleges have prioritized freshman and graduate seminars, others have prioritized labs or activities.

13:47:35 From Will Murray to Everyone : Students will be able to see which classes are AMI or F2F, right? So individual students, when signing up, can look for the classes that work better for their circumstances.

13:47:43 From Jody Cormack (she/her/hers) to Everyone : yes

13:47:57 From Steve Alfi to Everyone : @Rusty, I agree!

13:49:14 From Corinne Garthoff (she/her) to Everyone : Thank you, Rusty, for voicing this.

3. Eduaro Morales

13:51:52 From Kathleen Keirn to Everyone : What if, what if, a student comes to class and isn't wearing a mask? Will faculty have to "police" their classes?

13:52:33 From Rusty Rust to Everyone : ^ who else would?

13:53:14 From Rusty Rust to Everyone : It feels like we are going to be the ones doing this but that we have the right to ask them to leave if they are not complying

13:53:52 From Rusty Rust to Everyone : ?

13:55:03 From Kathleen Keirn to Everyone : Student conduct might mean that faculty cancel class if a student comes to class and refuses to wear a mask., and then the peer pressure would perhaps mean that students will know ahead of time what the consequences will be. This is being done at other public universities in other states. Students sign a "code of conduct."

13:55:09 From Rusty Rust to Everyone : (they have in fact said that 6ft is minimum and that in some cases not enough)

13:55:24 From Irma Sanchez to Everyone : will department or college provide disposable masks?

13:55:44 From Gwen to Everyone : What if they are wearing a mask but wearing it below their nose? There are so many problems with this. How can we teach and police at the same time?

13:55:59 From Jody Cormack (she/her/hers) to Everyone : to start with, we have not had that situation in fall 20 or spring 21. If it does occur, faculty can ask students to wear a mask. Vending machines will be available for those that forgot. If student refuses, and if the instructor believes this is a health risk for the class, the instructor can cancel the class. The instructor can refer the student to OSCED

13:56:18 From Jessica Pandya she/hers to Everyone : Please note that if we do not get to your question, we do have the chat and will attempt to answer them in future communications!
