INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
California State University, Long Beach Research Foundation:

Report on the Financial Statements

We have audited the accompanying financial statements of California State University, Long Beach Research Foundation, which comprise the statement of net position as of June 30, 2015 and 2014, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of California State University, Long Beach Research Foundation as of June 30, 2015 and 2014, and the changes in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A) on pages 4-15 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The supplemental informational schedules on pages 42-51 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplemental informational schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental informational schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23, 2015 on our consideration of California State University, Long Beach Research Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering California State University, Long Beach Research Foundation's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

JUNE 30, 2015 AND 2014

Introduction

The following discussion and analysis provides an overview of the financial position and activities of the California State University, Long Beach Research Foundation (the Foundation) for the years ended June 30, 2015 and 2014. The discussion has been prepared by management and should be read in conjunction with the financial statements and notes thereto, which follow this section.

The Foundation is a nonprofit organization formed to support and advance the mission of California State University, Long Beach (the University). To fulfill this mission, the Foundation pursues a wide range of opportunities in the areas of grants and contracts, campus programs, public-private partnerships, technology transfer, and other entrepreneurial activities to complement and strengthen the University's teaching, research, scholarly, creative, and public service goals.

Using the Financial Statements

The Foundation's financial report includes three statements: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. These financial statements have been prepared in accordance with Governmental Accounting Standards Board (GASB) principles. GASB establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented on a consolidated basis to focus on the reporting entity as a whole, with resources classified for accounting and reporting purposes into the following four net asset categories:

- Invested in capital assets, net of related debt
- Restricted, non-expendable
- Restricted, expendable
- Unrestricted

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

JUNE 30, 2015 AND 2014

Statement of Net Position

The statement of net position presents the financial position of the Foundation at the end of the fiscal year and includes all assets and liabilities of the Foundation. The difference between total assets and total liabilities – net position – is one indicator of the current financial condition of the Foundation, while the change in net position is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical costs less an allowance for depreciation. For the purpose of distinguishing between current and noncurrent assets and liabilities, current assets and liabilities are those that can be reasonably expected to either generate or use cash, as part of normal business operations, within one year of the financial statement date. A summary of the Foundation's assets, liabilities, and net assets at June 30, 2015 and 2014 is as follows:

	<u>June 30,</u>	
	<u>2015</u>	<u>2014</u>
Current assets	\$ 37,400,000	\$ 39,200,000
Noncurrent assets		
Accounts receivable, net	16,400,000	16,800,000
Pledges receivable, net	1,900,000	2,100,000
Other investments	4,200,000	4,600,000
Capital assets	<u>44,900,000</u>	<u>44,700,000</u>
Total assets	<u>104,800,000</u>	<u>107,400,000</u>
Deferred outflows of resources	<u>200,000</u>	<u>200,000</u>
Current liabilities	9,000,000	12,600,000
Noncurrent liabilities	<u>49,900,000</u>	<u>49,600,000</u>
Total liabilities	<u>58,900,000</u>	<u>62,200,000</u>
Net Assets	<u>\$ 46,100,000</u>	<u>\$ 45,400,000</u>

Total assets decreased \$2.6 million, or 2.4%, during fiscal year 2015 and decreased \$1.6 million, or 1.4%, during fiscal year 2014. The decrease in total assets is due to decrease of cash and investments in 2015. The decrease in 2014 is attributed mainly to decrease in receivables from grant activities. Current assets of \$37.4 million were \$1.8 million, or 4.6% less than 2014. Current assets of \$39.2 million were \$700,000, or 1.8% less than 2013.

Statement of Net Position (Continued)

Total liabilities of \$58.9 million decreased \$3.3 million, or 5.3%, during fiscal year 2015. It decreased \$1.5 million during fiscal year 2014. Current liabilities include accounts payable of \$1.7 million, accrued salaries, benefits, and compensated absences payable of \$2.4 million, unearned revenues of \$3.9 million, and the current portion of long-term debt of \$1 million.

Current unearned revenues represent unexpended cash advances received for sponsored programs.

Net position increased by \$700,000, or 1.5%, during fiscal year 2015. It decreased by \$300,000, or 0.6%, during fiscal year 2014. The increase during fiscal year 2015 was due to the donated assets.

JUNE 30, 2015 AND 2014

Other Investments

The other long-term investments were \$4.2 million in 2015 and \$4.6 million in 2014. These investments consist of funds that have been allocated by the Foundation for long-term investment purposes without donor restrictions.

Capital Assets and Long-Term Debt Activities

At June 30, 2015, The Foundation had \$44.9 million invested in capital assets, net of accumulated depreciation of \$12.9 million.

At June 30, 2014, the Foundation had \$44.7 million invested in capital assets, net of accumulated depreciation of \$13.3 million.

Depreciation charges for the years ended June 30, 2015 and 2014 totaled \$1.23 million and \$1.34 million, respectively. A summary of capital assets, net of accumulated depreciation, is as follows:

	<u>June 30,</u>	
	<u>2015</u>	<u>2014</u>
Building and improvements	\$33,000,000	\$ 33,100,000
Furniture and fixtures	<u>1,800,000</u>	<u>3,300,000</u>
	34,800,000	36,400,000
Less: accumulated depreciation and amortization	(<u>12,900,000</u>)	(<u>13,300,000</u>)
	21,900,000	23,100,000

Land and land improvements	<u>17,100,000</u>	<u>17,100,000</u>
	<u>\$44,900,000</u>	<u>\$ 44,700,000</u>

Capital assets of \$1.4 million were added in 2015. There were no capital assets added in 2014.

Long-term debt obligations consist of bonds of \$30.1 million in 2015 and \$31 million in 2014.

JUNE 30, 2015 AND 2014

Net Position

Net position represents the residual interest in the Foundation's assets after liabilities are deducted. The Foundation's net position is as follows:

	June 30,	
	2015	2014
Invested in capital assets, net of related debt	\$14,300,000	\$ 13,200,000
Restricted:		
Nonexpendable	—	—
Expendable	27,000,000	26,700,000
Unrestricted	<u>4,800,000</u>	<u>5,500,000</u>
Net Assets	<u>\$46,100,000</u>	<u>\$ 45,400,000</u>

Net position increased \$700,000, or 1.5%, during fiscal year 2015. It decreased \$300,000, or 0.6%, in 2014. Net invested in capital assets, net of related debt, represent the Foundation's capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of these assets.

In 2015, restricted net position increased \$300,000, or 1.1%. The invested in capital assets, net of related debt, increased by \$1.1 million, or 8%, due to donated works of art.

In 2014, restricted net position decreased by \$600,000. Unrestricted net position increased by \$600,000, or 12%, due to the prior period adjustment of the post-employment benefit accrual of \$4.5 million to conform to the net OPEB obligation at the end of fiscal year 2014.

Items included in the restricted expendable net position are program funds designated to support research, and other program activities.

Statement of Revenues, Expenses and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents the Foundation's results of operations. A summary of the Foundation's revenues, expenses, and changes in net position is as follows:

	For the Year Ended	
	June 30,	
	2015	2014
Operating revenues:		
Grants and contracts	\$ 25,800,000	\$ 28,500,000

Total operating revenues	40,300,000	40,000,000
Operating expenses	(40,300,000)	(44,100,000)
Operating income (loss)	—	(4,100,000)
Nonoperating revenues (expenses):		
Gifts, noncapital	2,300,000	3,400,000
Investment income (loss), net	200,000	3,700,000
Nonoperating expenses	(1,800,000)	(1,700,000)
Total nonoperating revenues, net	700,000	5,400,000
Increase (decrease) in net assets	700,000	1,300,000
Special item-Transfer to 49er Foundation	—	(1,600,000)
Net assets at beginning of year	45,400,000	45,700,000
Net assets at end of year	<u>\$ 46,100,000</u>	<u>\$ 45,400,000</u>

During fiscal year 2015, total nonoperating revenues decreased \$4.7 million, or 87%, primarily due to reduction in gifts received and the decline of investment market value towards the end of the fiscal year.

During fiscal year 2014, total nonoperating revenues increased \$4.4 million, or 575%, due to gifts in program funds administered by foundation and favorable market conditions.

JUNE 30, 2015 AND 2014

Statement of Revenues, Expenses and Changes in Net Position (Continued)

The operating income (loss) is affected by Foundation program activities, which are allowed to use balances from prior years. Expenditures in the current year may be more or less than revenues recorded during the same year.

During fiscal year 2015, grants and contracts revenues consist of federal grants and contracts of \$17 million, state and local grants and contracts of \$5.4 million, and non-governmental grants and contracts of \$3.4 million.

During fiscal year 2014, grants and contracts revenues consist of federal grants and contracts of \$19 million, state and local grants and contracts of \$6.5 million, and non-governmental grants and contracts of \$3 million.

Investment income, net of fees, consists of a change in the fair market value of investments, including interest, dividends, and realized and unrealized gains and losses of a positive \$191,000 in 2015 and positive \$3.7 million in 2014.

In 2015, operating expenses consist of salaries and fringe benefits of \$24.9 million, supplies and services of \$11 million, scholarships and fellowship of \$3.2 million, and depreciation of \$1.2 million.

In 2014, operating expenses consist of salaries and fringe benefits of \$23.7 million, supplies and services of \$15.4 million, scholarships and fellowship of \$3.8 million, and depreciation of \$1.35 million.

Economic Factors That Will Affect the Future

The CSULB Research Foundation, in partnership with the Office of Research and Sponsored Programs, provides support services to programs funded by external grants and contracts. Revenue received for providing these services makes up a significant portion of the operating revenue for the CSULB Research Foundation. In FY 2014-15, there were 158 new grant awards, which was a 22.48% increase from FY 2013-14. These new awards resulted in an all-time record \$65,391,195 in grants and contracts funding. Most notably among the new grant awards was a five-year \$22.9 million grant from the National Institutes of Health. This grant, known as Building Infrastructure Leading to Diversity (BUILD), will allow CSULB to establish the most comprehensive and transformative research training program in its history.

In FY 2014-15, 269 grant proposals valued at \$83,707,657 were submitted. We remain optimistic that the increases in new grant awards will result in a consistent revenue stream for the CSULB Research Foundation, and further strengthen the research capacity of the campus.

NOTE 1 – Statement of Significant Accounting Policies

Organization

The California State University, Long Beach Research Foundation (the Research Foundation) is a nonprofit, tax-exempt corporation, incorporated in the state of California on October 3, 1956. The Research Foundation is organized to administer grants from governmental and private agencies for research and other activities related to the programs of California State University, Long Beach (the University), and to accept donations, gifts, and bequests for any University-related use. The Research Foundation is a direct support organization and component of the University.

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

The accompanying financial statements have been prepared on the accrual basis. The Research Foundation reports as a Business Type Activity and, accordingly, has reported its activities within a single column in the basic financial statements.

The Research Foundation's policy for defining operating activities as reported on the statement of revenues, expenses, and changes in net position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Nearly all of the Research Foundation's expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues as defined by GASB, including gifts and investment income.

CALIFORNIA STATE UNIVERSITY, LONG BEACH RESEARCH FOUNDATION

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014**

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Basis of Presentation (Continued)

The Research Foundation has adopted GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, GASB Statement No. 35, as amended by GASB Statements No. 37, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments: Omnibus* and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. GASB Statement No. 33 requires that unconditional promises to give be recorded as receivables and revenues when the Research Foundation has met all applicable eligibility requirements. This statement also requires that unspent cash advances received for sponsored programs be recorded as deferred revenue rather than as restricted expendable net assets. GASB Statement No. 35 established standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following four net position categories: Invested in capital assets, net of related debt; Restricted, non-expendable; Restricted, expendable; and Unrestricted.

Classification of Current and Noncurrent Assets (Other than Investments) and Liabilities

The Research Foundation considers assets to be current that can reasonably be expected, as part of its normal business operations, to be converted to cash and be available for liquidation of current liabilities within 12 months of the statement of net position date. Liabilities that reasonably can be expected, as part of normal Research Foundation business operations, to be liquidated within 12 months of the statement of net position date, are considered to be current. All other assets and liabilities are considered to be noncurrent. For clarification of current and noncurrent investments, see the investment accounting policy.

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Net Position

The Research Foundation's net position is classified into the following net position categories:

- *Invested in capital assets, net of related debt*

Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

- *Restricted*

Nonexpendable – Net position subject to externally imposed stipulations that they be maintained permanently by the Research Foundation. Such assets include the Research Foundation's permanent endowment funds.

Expendable – Net position whose use by the Research Foundation is subject to externally imposed stipulations that can be fulfilled by actions of the Research Foundation pursuant to those stipulations or that expire by the passage of time.

- *Unrestricted*

Unrestricted net position is those that are not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Directors or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for any University-related use, which includes academic and research programs and initiatives, and capital programs.

Reporting Entity

The Research Foundation is an affiliated organization component unit of the University. As such, the Research Foundation's financial data will be included in the financial statements of the University.

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Use of Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. The most significant estimates relate to allowance for uncollectible accounts receivable and pledges receivable, estimated useful lives of capital assets, post employment benefit obligation, and charitable unitrust agreements. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Cash and Cash Equivalents

The Research Foundation considers all highly liquid, short-term investments purchased with an original maturity of three months or less to be cash equivalents. The Research Foundation maintains cash with financial institutions in excess of federally insured limits.

Custodial Credit Risk for Deposits

Custodial credit risk for deposits is the risk that the Research Foundation will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The California Government Code and Education Code do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the provision that a financial institution must secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The Research Foundation mitigates the risk by maintaining the deposits at financial institutions that are fully insured or collateralized as required by state law.

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Investments

The Research Foundation has adopted GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Under GASB Statement No. 31, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values using quoted market prices in the statement of net position. Realized and unrealized gains and losses are included in the accompanying statement of revenues, expenses, and changes in net position.

Accounts Receivable

Accounts receivable primarily consists of amounts due from the federal government, state and local governments, and private sources in connection with reimbursement of allowable expenditures made pursuant to contracts and grants. Accounts receivable also includes charges for auxiliary enterprises' sales and services. Management provides for probable uncollectible amounts through a charge to revenue and a credit to a valuation allowance based on its assessment of the current status of the receivables. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to receivables.

Pledges Receivable

The Research Foundation receives pledges and bequests of financial support from corporations, foundations, and individuals. Revenue is recognized when a pledge representing an unconditional promise to pay is received and all eligibility requirements, including time requirements, have been met. In the absence of such promise, revenue is recognized when the gift is received. Endowment pledges do not meet eligibility requirements, as defined by GASB Statement No. 33, and are not recorded as assets until the related gift is received. An allowance for uncollectible pledges receivable is provided based on management's judgment of potential uncollectible amounts (approximately \$1,300,000 and \$1,000,000 at June 30, 2015 and 2014, respectively). The determination includes such factors as prior collection history, type of gift, and nature of fund-raising.

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014**

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Capital Assets

Capital assets of the Research Foundation are stated at cost or, if acquired by gift, at estimated fair value at the date of donation. Major renewals and betterments are charged to capital assets, while replacements, maintenance and repairs that do not improve or extend the life of the respective assets are currently expensed. Depreciation and amortization is charged on a straight-line basis over the lives of the assets, which range from five to forty years.

Collection Items and Works of Art

The Research Foundation's collection items are made up of artifacts of historical significance and art objects that are held for educational research and curatorial purposes. Each of the items is cataloged, preserved and cared for, and activities verifying their existence and assessing their condition are performed continuously. Monies recovered from any collections that are sold must be used to acquire other items for collections.

Collection items acquired on or after July 1, 1996 are capitalized at cost, if the items were purchased, or at their appraised or fair market value on the accession date, if the items were contributed. There were no donated collection items received during the year ended June 30, 2014. The fair market value of donated collection items was approximately \$1,422,000 for the year ended June 30, 2015.

Unearned Revenue

Unearned revenue consists primarily of amounts received from grant and contract sponsors which have not yet been earned under the terms of the agreement and lease payments received in advance from lessees on long-term leases.

Compensated Absences

Research Foundation employees accrue annual leave at rates based on length of service and job classification.

NOTE 1 – Statement of Significant Accounting Policies (Continued)

Classification of Revenues and Expenses

The Research Foundation considers operating revenues and expenses in the statement of revenues, expenses, and changes in net position to be those revenues and expenses that result from exchange transactions or from other activities that are connected directly to the Research Foundation's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as nonoperating revenues and expenses in accordance with GASB Statement No. 35. These nonoperating activities include net investment income, gifts (noncapital), endowments and interest expense.

Income Taxes

The Research Foundation is tax-exempt under Internal Revenue Code Section 501(c)(3) for federal income taxes, as well as the related provisions for state income tax purposes.

NOTE 2 – Accounts Receivable

The composition of accounts receivable is summarized as follows:

NOTE 3 – Pledges Receivable

Pledges receivable are recorded in the statement of net position at estimated net realizable value in accordance with GASB Statement No. 33. Pledges receivable were discounted as of June 30, 2015 using interest rates ranging from 3.39% to 3.95%, which approximated the Research Foundation’s rate of return on treasury notes at the time the pledge is made. Pledges receivable as of June 30, 2015 are summarized as follows:

<u>Due in the Year Ending June 30,</u>	
2016	\$ 630,250

NOTE 4 – Investments

At June 30, 2015, the Research Foundation’s investment portfolio consists primarily of investments held in the investment pool, as well as interest-bearing accounts.

Investment Policy

The primary objective of the Research Foundation’s investment policy is to safeguard the principal. The secondary objective is to meet the liquidity needs of the Research Foundation. The third objective is to return an acceptable yield. In general, the Research Foundation’s investment policy permits investments in obligations of the federal and state governments, equities, corporate bonds, and certain other investment instruments.

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014**

NOTE 4 – Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

The Research Foundation may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net position.

The following is a summary of investments:

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014**

NOTE 7 – Pension Plan and Postemployment Health Care Plan

Pension Plan

The Research Foundation has a defined contribution retirement plan (the Plan) which covers all regular full-time employees and part-time employees who have provided services of at least 1,000 hours during the year. There is a two-year waiting period to enter the Plan. The basic plan contribution rate is equal to 10% of gross earnings. Pension expense was approximately \$560,000 and \$574,000 for the years ended June 30, 2015 and 2014, respectively.

Postemployment Health Care Plan

Plan Description. CSULB Research Foundation's defined benefit postemployment health care plan, California Public Employees Retirement System (CalPERS), provides medical benefits to eligible retired Foundation employees and their beneficiaries through December 31, 2011. Effective January 1, 2012, a new medical insurance program was established through an Auxiliary Organizations Association group contract with Wells Fargo to provide comparable coverages.

Funding Policy. The contribution requirements of plan members and the Research Foundation are established and may be amended by the Research Foundation's board of directors. The Research Foundation is required to contribute the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 37.10% of annual covered payroll.

Postemployment Health Care Plan (Continued)

Annual OPEB Cost. For 2015, the Research Foundation’s annual OPEB (expense) of \$2,108,634 approximated the ARC. The Research Foundation’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 and the two preceding years were as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Annual OPEB Obligation</u>	<u>Net OPEB Obligation</u>
6/30/13	\$1,799,869	15.95%	\$1,512,807	\$8,412,265
6/30/14	\$1,950,532	18.54%	\$1,588,919	\$10,001,184
6/30/15	\$2,108,634	20.63%	\$1,673,646	\$11,674,830

Funded Status and Funding Progress. The funded status of the plan as of June 30, 2015, was follows:

Actuarial accrued liability (AAL)	\$ 18,406,892
Actuarial value of plan assets	—
Unfunded actuarial accrued liability (UAAL)	<u>\$ 18,406,892</u>
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	\$ 5,682,943
UAAL as a percentage of covered payroll	323.90%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 7 – Pension Plan and Postemployment Health Care Plan (Continued)

Postemployment Health Care Plan (Continued)

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

At June 30, 2015, using the assumptions based on the 2012 actuarial valuation, the entry age actuarial cost method was used. An actuarial cost method is a procedure for allocating the actuarial present value of benefits and expenses and for developing an actuarially equivalent allocation of such value to time periods, usually in the form of a normal cost and an actuarial accrued liability. The entry age normal cost method allocates the present value of future benefits on a level basis over the earnings or service (which in this case, earnings were used) of each employee between the hire date and assumed retirement age. The portion of the present value of future benefits allocated to a valuation year is called the normal cost. The portion allocated to all prior years is called the actuarial accrued liability. Valuation results were computed at a 5.5% discount rate.

NOTE 8 – Commitments and Contingencies

Charitable Unitrust Agreements

The Research Foundation is obligated under various charitable unitrust agreements. The trusts provide a fixed percentage of the fair market value to be paid periodically to the trustor. Certain trusts limit the payment to the net income earned on the assets, while the remaining trusts allow for invasion of the principal to make the required payments. Upon termination, the remaining trust assets are to be distributed to designated beneficiaries and the Research Foundation in a manner designated by the grantor. The amounts due to the designated beneficiaries are reported as other liabilities on the statement of net position.

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014**

NOTE 8 – Commitments and Contingencies (Continued)

Contingencies

The Research Foundation receives a significant portion of its support and revenue from government grants, which are subject to government audit. The ultimate determination of amounts received under these programs generally is based upon allowable costs reported to and audited by the government. Until any such audits have been completed and final settlement reached, there exists a contingent liability to refund any amount received in excess of allowable costs. Based on prior history, management believes that no material liability will result from such audits.

As Lessor

The total investment in the land and building is approximately \$39,700,000, with \$35,500,000 allocated to the space available for lease, and approximately \$7,600,000 of accumulated depreciation at June 30, 2015.

Lease terms range from three to four years and require tenants to pay a pro-rata share of common area maintenance. The following is a schedule by years of future minimum rents receivable under noncancellable operating leases that have initial or remaining lease terms in excess of one year as of June 30, 2015:

Year Ending	
<u>June 30,</u>	
2016	\$ 978,760
2017	54,571
2018	40,411
2019	<u>38,154</u>
	<u>\$ 1,111,896</u>

Rental income was approximately \$4,725,000 and \$4,694,000 for the years ended June 30, 2015 and 2014, respectively.

NOTE 8 – Commitments and Contingencies (Continued)

As Lessee

The Research Foundation has entered into multiple leases at different locations under agreements expiring at various dates through December 2015, not including any renewal options. Generally, these agreements provide for periodic adjustments to base rents based upon changes in the CPI.

The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining noncancellable lease terms in excess of one year at June 30, 2015:

<u>Year Ending June 30,</u>	
2016	\$ 118,275
2017	<u>27,580</u>
	<u>\$ 145,855</u>

Rental expense under all operating leases was approximately \$436,000 and \$607,000 for the years ended June 30, 2015 and 2014, respectively.
