

COVID-19 Health and Safety Requirements

In response to the COVID-19 pandemic, CSULB has implemented health and safety protocols (see [COVID-19 website](#)) that follow the guidance of local, state, and national public health authorities. As a member of our campus community, you are expected to follow all campus policies, including COVID-19 related requirements. These apply to anyone who is physically present on University grounds or participating in any CSULB-related activity:

- All students, employees, and guests visiting CSULB facilities or engaging in any in-person university experience on-campus must wear appropriate face coverings while indoors.
- All students and employees are required to be fully vaccinated and boosted to physically access CSULB-related on- or off-campus in-person experiences unless approved for a legitimate exemption.

Exposures to COVID-19

Definition of exposure: You have come into close contact (closer than 6' for more than 15 minutes) with someone who has a confirmed case of COVID-19.

In the event of exposure to someone who has tested positive for COVID-19, you should self-monitor for symptoms, test for COVID-19, and vigilant use of face coverings indoors or outdoors.

LBDHHS will continue to offer COVID testing this fall M/W from 12p-3p at the same location (adjacent to the bookstore). The first day they will be testing on campus is August 22nd.

If you test positive for COVID-19

You should not come to campus for at least 5 days, you must test negative at Day 6 in order to return.

If you are a faculty or staff member, you should immediately report an illness to your administrative services manager (ASM). You should also complete the Illness Reporting chiclet ("sicklet") on your [SSO](#). Employees who test positive for the virus and are either asymptomatic or experience only mild symptoms may be able to work remotely. Please refer to the [Employee Covid Protocol Flow Chart](#).

If a student tests positive for COVID-19, or believes they may be positive but have not yet been tested, or if you know of a student who you believe may have contracted COVID-19, please [fill out this form](#) to notify Student Health Services.
