Committee Activities

Presentations/Reports Received:

In Spring 2022, the Committee heard a presentation by Neil Hultgren, Chair of the Academic Senate, about Assembly Bill 928, and how to give feedback to ASCSU if desired.

Issues/Recommendations to CEPC/Academic Senate:

- In light of the full array of GE Areas represented in recent proposals, it is essential that we have committee members from all of the disciplines. Please note we have 9 members completing their terms in Spring 2022, so we are in danger of having vacancies in Fall. We are by far the most busy in Fall before the Catalog deadline, so any haste in filling the seats would be appreciated.
- It will be essential for there to be coordination between the new GE Evaluation Committee and the GEGC. After the GEEC has had a chance to established its protocol, a presentation to the GEGC, or at least a discussion with the GEGC Executive Committee would be appreciated.
