## Set Up An Interview

College takes planning and investigation. Find someone who went to college and interview them.

1. Who are you going to interview?
2. Which high school did they go to?
3. What grades did they get in high school?
4. Were they involved in sports, clubs, or any other activities in high school? If yes, which ones?
5. Why did they decide to go to college?
6. How many colleges did they apply to, and where?
7. Which college(s) did they go?
8. How was their college experience?
