 **2023 COMMENCEMENT CEREMONY**

Photo above: Carlson Bloc Bell Tower. In 1965, the International Sculpture Symposium contributed nine monumental pieces and designs to CSULB. These works received credits in 21 national and international publications, and, in 1972, additional community funds in the form of a trust provided for the completion of the Carlson Memorial Tower, designed by French sculptor Andre Bloc.

Welcome to

CALIFORNIA STATE UNIVERSITY LONG BEACH

SEVENTY-FOURTH ANNUAL COMMENCEMENT CEREMONIES

California State University, Long Beach is a member of the 23-campus California State University (CSU) system. The initial college, known then as Los Angeles-Orange County State College, was established on January 29, 1949, and has since grown to become one of the state's largest universities.

The first classes in 1949 were held in a converted apartment building on Anaheim Street and the cost to enroll was just \$12.50. The 169 transfer students selected for the 25 courses offered in Teacher Education, Business Education, and Liberal Arts were taught by 13 faculty members.

Enrollment increased in 1953 when freshman and sophomore students were admitted.

Expansion, in acreage, degrees, courses and enrollment continued in the 1960s, when the educational mission was modified to provide instruction for undergraduate and graduate students through the addition of master's degrees.

In 1972, the California Legislature changed the name to California State University, Long Beach. Today, more than 37,000 students are enrolled at Cal State Long Beach, and the campus annually receives high rankings in several national surveys.

What students find when they come here is an academic excellence achieved through a distinguished faculty, hard-working staff and an effective and visionary administration. The faculty's primary responsibility is to create, through effective teaching, research and creative activities, a learning environment where students grow and develop to their fullest potential.

Today you are attending one of seven Commencement Ceremonies, taking place over three days, to celebrate the accomplishments of the more than 11,000 graduates and candidates. They are earning doctoral, master's and bachelor's degrees as well as credentials and certificates. We are proud of our graduating students, who now go forward to serve society.

Welcome to our 74th annual Commencement Ceremonies.

A Message from the President...

Dear Graduate,

As you move your cap's tassel from right to left, remember that this moment marks the end of one journey and the beginning of another. It is now your responsibility to take the knowledge and experiences gained during your time at The Beach and use them to make a positive impact in your communities. Remember: your education continues throughout your life – stay curious, passionate, and committed to your goals. And, most importantly, work to make this world a better place.

I want to thank the many faculty, staff, alumni, families, and friends who helped make this day possible for our graduates. On behalf of our graduates, I thank you for your time, love, and encouragement. Class of '23, today we honor your incredible achievements, but we also look ahead to your future as Beach Alumni for life!

Go Beach!

Sincerely,

A handwritten signature in black ink that reads "Jane Close Conoley". The signature is fluid and cursive, with the first name "Jane" being the most prominent.

Jane Close Conoley, Ph.D.
President

A Message from the Interim Chancellor...

Dear Class of 2023,

I offer you my most enthusiastic and heartfelt congratulations on achieving this consequential milestone on the journey of a lifetime.

Today, we celebrate you – and all the hard work, perseverance and scholarship that brought you here. You will undoubtedly look back on this occasion for many years to come, filled with a well-earned sense of pride in your accomplishments – and maybe even a sense of relief for attaining a goal that, at times, might have felt more than a little daunting.

As numerous forces upended our world, you held firmly onto your dreams and persisted in your studies through challenges none of us could have foreseen or imagined. You have by necessity developed and demonstrated skills – far beyond your academic work – that will ensure your continued success: resilience, flexibility, resourcefulness, patience and tenacity. Your resolve shines brightly as a symbol of hope and optimism. It is admirable. And it is inspiring.

Of course, you did not make this journey alone. We also recognize the faculty who deepened your knowledge and enabled you to see the world from new perspectives. We acknowledge the counselors, tutors, advisors, librarians, coaches and support staff who championed you at every turn. And we appreciate the family, friends and loved ones who encouraged you, uplifted you and supported you along the way. Please remember to thank these important people and let them know how much their support means.

This celebration marks a new beginning for you – a time to commence a new life, filled with opportunities and prospects made possible by your degree from the California State University.

With this rite of passage we call “commencement,” you will join a dynamic, global network of more than 4 million CSU alumni. They are a remarkable force for good, and I am certain your addition to their ranks will multiply their contributions to our communities, to our state and to the world. I ask that – in the Cal State spirit – you use the knowledge, skills and personal qualities you have developed to work for justice, seek opportunities to foster equity and always uplift and empower others. Stay connected to your campus and look for ways to give back. And whenever possible, support future generations who aspire to follow in your footsteps.

On behalf of the entire California State University, again, congratulations.

Sincerely,

A handwritten signature in black ink that reads "Jolene Koester". The signature is written in a cursive, flowing style.

Jolene Koester
Interim Chancellor

THE COLLEGE OF ENGINEERING

The College of Engineering at the California State University, Long Beach, is proud to be recognized as one of the premier Engineering Colleges in the western USA and a leader in providing high quality affordable education, in a teaching-intensive, research-driven environment. The mission of the College of Engineering is to serve the State of California and the nation by graduating well-prepared professionals, who are provided with excellent education and training in the fundamentals of their discipline through a combination of theory and hands- on laboratory practices, and who are provided with the ability and skills to expand knowledge and transform complex ideas into working systems. Research, innovation, development and technology transfer are integral part of the COE mission with a long history of engagements with diverse industries for advancement of engineering technologies.

The College of Engineering provides baccalaureate degree programs in engineering, engineering technology, and computer science. Engineering programs include aerospace, biomedical, chemical, civil, computer, construction management, environmental, electrical, and mechanical. Engineering Technology programs include computer and electronics.

Master of Science degrees are offered in aerospace, chemical, civil, electrical, and mechanical engineering, and in computer science, engineering management and interdisciplinary engineering. In addition 59 students have graduated from our joint Ph.D. program (with The Claremont Graduate University) in Engineering and Industrial Applied Mathematics (now titled Engineering and Computational Mathematics) and more than 22 students are currently enrolled in the program.

For the academic year 2022-2023, the College of Engineering enrolled over 5,000 undergraduate and graduate students. With more than 241 Tenure/Tenure-Track and adjunct faculty and over 46 supporting staff and more than 40 state of the art research laboratories and testing facilities, the COE has extensive relations and partnerships with major aerospace, utilities, biomedical, construction, chemical, civil, electrical and mechanical engineering companies for joint project activities and for providing internship and employment opportunities for our students and new graduates.
