Announcements

Baker discussed the recent GPE. A total of 1127 students tested online, and 382 students tested in person. Three prompts were used, and there are no complaints at this time. Once the grading is done, Baker will send the comments from the people that graded them.

Workshop New GPE Prompts

Prompt Number 5

The committee makes suggestions to move part of the question content into informational source A to simplify the question. However, some committee members believe that it is important to keep this as is because it provides more context. A suggestion was made to make the question slightly more specific.

A discussion about information sources occurs. Information source A is a bit lengthy, while informational source B is very blurry. A decision was made to look for a new informational source B. Brant begins searching with some awesome librarian skills.

Next GPE: April 19th/20th (Goal: 3 prompts, 2 pilots)
