

Dear Cooperating/Mentor Teacher,

We're excited to announce that your student teacher will be using a new tool during their field experience: M2, developed by Swivl. M2 is a reflective teaching platform designed to enhance professional growth, improve instructional practice, and boost student engagement—all while working hand-in-hand with the valuable mentorship you provide.

What is the Swivl M2?

Swivl M2 is a teacher-guided tool that helps student teachers reflect, ask purposeful questions, get real-time feedback, and capture videos for coaching and self-reflection. Paired with your guidance, it blends technology and mentorship to develop more responsive and effective educators.

Privacy & Security

M2 is designed with strong protections in place to ensure the privacy and security of all users. No personal student data or video is stored, and all data is encrypted and securely housed within the United States. The platform is fully compliant with FERPA, COPPA, and CCPA regulations. Here are additional details on security and privacy: <https://bit.ly/m2security>.

Thank you for the vital role you play in developing future educators. Your partnership shapes not only your student teacher's journey but also the classroom communities they serve. To learn more, visit <https://www.swivl.com/resources-and-trainings/> or contact our office.

With appreciation,

CSULB College of Education Dean's Office
