

Mission

The mission of the CSULB Health Science DrPH Program is to provide the best graduate education and training in a multiethnic and urban environment to develop highly competent professionals and leaders in public health informatics and technology, global health, and health policy & management.

The program strives for excellence in teaching, conduct research, and provide service to local, regional, national, and international populations living within the surrounding communities, while making a significant contribution towards increasing health equity for underserved populations.

1250 Bellflower Blvd, Long Beach, CA 90840

CALIFORNIA STATE UNIVERSITY
LONG BEACH

Doctor of Public Health (DrPH)

Concentrations:

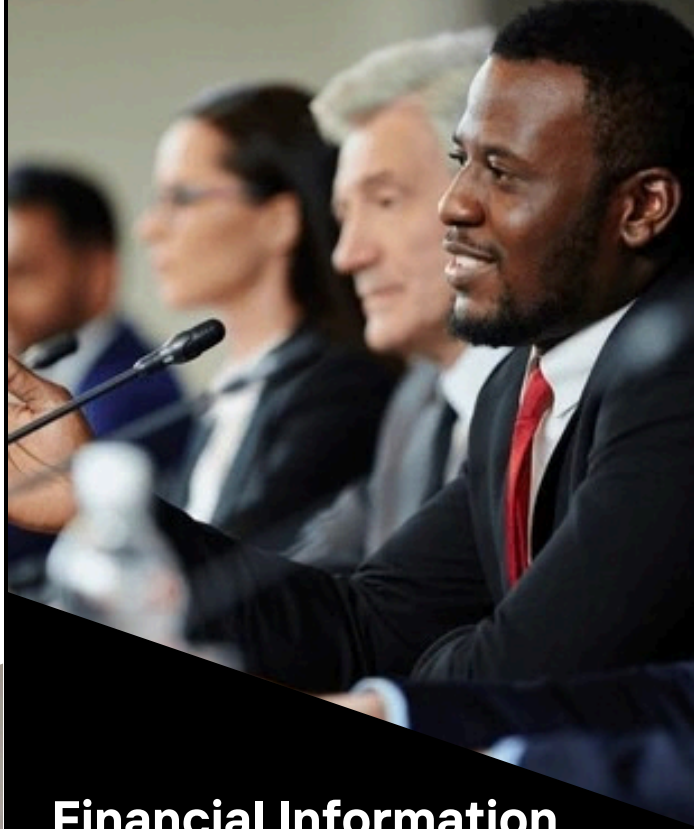

- Public Health Informatics & Technology
- Global Health
- Health Policy & Management

Program Overview

The DrPH requires forty-eight (48) units, including coursework, doctoral practicum, and dissertation completed over the course of three years.

The degree requirements are listed in the university catalogue. For more information, visit the [DrPH program website](#).

The program is place-based. That is, this is NOT an online DrPH program.

Financial Information

Financial assistance is available from the University. Students are referred to the Office of Financial Aid to explore opportunities for support of graduate education.

Among the listed opportunities are the following:

- Perkins Federal Loans
- Graduate Equity Fellowship
- University Scholarships
- State Graduate Fellowships
- Federal Stafford Loan (GSL)
- Student Part-time Employment
- Gaines Award

Tuition

- Refer to [Tuition and Fees](#) on the California State University Long Beach Website

Admission

- Students should have an MPH or equivalent from an accredited institution. OR
 - Prospective students without an MPH must complete our six foundational courses PRIOR to applying OR show completion of equivalent courses. Please inquire about opportunities to complete these foundational courses through our CPACE program.
- A minimum Graduate School GPA of 3.0 or above, in work completed in the highest degree achieved.
- A minimum of 1 year of field experience in the field of public health or a health-related profession. The field experience can be completed while enrolled in the core classes.
