

# Post-Disruption Decision Process

Based on assessments of campus damage and the availability of resources, some initiatives to continue or resume instruction and other critical Academic Affairs functions will follow established planning materials. For other initiatives, the most appropriate response may need to be developed as circumstances evolve. Following an adverse event, the decision-making process will occur across repeated operational timeframes to account for changing conditions. A visual map of the decision process is provided below:

## INITIAL RECOVERY FROM DISRUPTIVE EVENT

### Natural / Public Health

- Flood
- Fire
- Earthquake

### Security

- Bombing/Bomb Threat
- Active Shooter
- Terrorist Attack

### Technology / Utilities

- Network Failure
- Cybersecurity Breach
- Power Outage
- Water/Plumbing Outage

## OPERATIONAL ASSESSMENT OF DAMAGE AND NEEDS

### Network / Internet Access

### Campus Open

### Transportation to Campus

### Facilities Access

### Offices / Classrooms Open

### Equipment Operable

### Personnel Status / Availability

## EXECUTIVE DECISIONS

### Lines of Succession / Delegations of Authority

- Provost
- Provost's Staff

#### DIVISION - Continuity Plans / Resources:

- INSTRUCTION
- Division Communication with Students, Faculty, Staff, and Clients
- Staffing / Recruitment
- Advising
- Division back-up, access to vital records for instruction

## MANAGEMENT DECISIONS

### Lines of Succession / Deans / Associate Deans / Chairs / ASMs

#### COLLEGE / UNIT - Continuity Plans / Resources:

- Protection of Hazardous / Sensitive Lab Materials
- Lab Animal Care / Safety
- Academic Technology data center
- On-line Instruction
- Instructional Lab Services
- Access to Library Resources
- Credential student evaluations
- International student svcs
- College / Dept Communication with Students, Faculty, Staff, and Client
- College / Dept back-up, access to vital records for instruction

## REASSESS AS CONDITIONS CHANGE
