

Typically Offered Courses

As you develop a plan to meet all of your graduation requirements, it is important to know when courses are typically offered (for example, fall only, spring only, or fall and spring). This information is available in the **Course Catalog** in MyCSULB Student Center.

1. Log into MyCSULB Student Center.
2. Select **Browse Course Catalog** located in the “Search for Classes” button.
3. You can search for courses by selecting the first letter of the subject from the alphabetical index.
4. To review course detail information, select the **Course Nbr (Number)** or **Course Title** link.

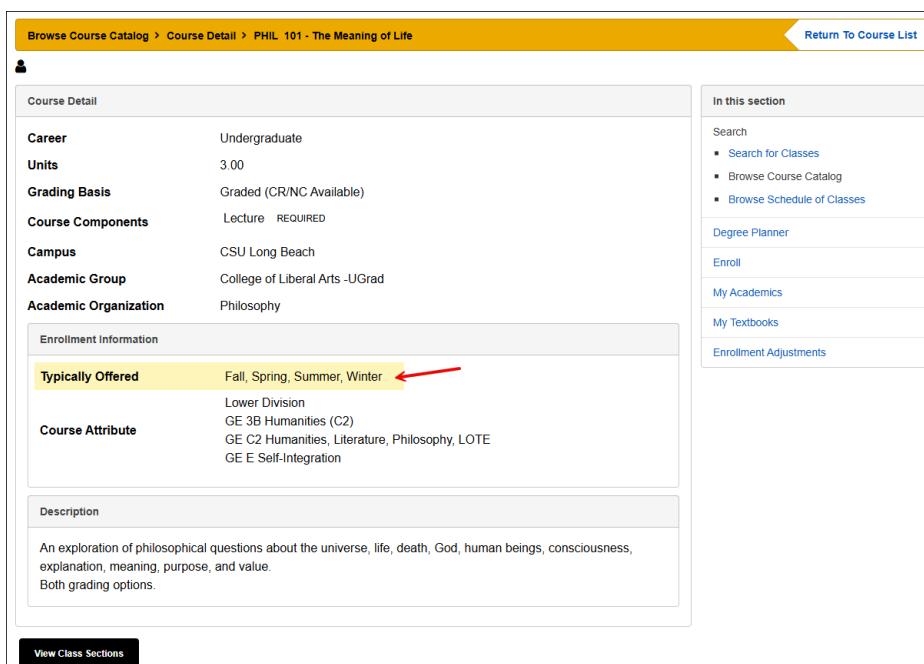

The screenshot shows the 'Browse Course Catalog > Course List' page. At the top, there is an alphabetical index grid with letters A through H and numbers 1 through 5. The letter 'P' is highlighted. Below the grid, a message says 'Select subject code to display or hide course information.' A dropdown menu shows 'P T - Physical Therapy' and 'PHIL - Philosophy' is expanded. The 'Courses' table lists the following courses:

COURSE NBR	COURSE TITLE	TYPICALLY OFFERED
100	Intro Philosophy	Fall, Spring
101	The Meaning of Life	Fall, Spring, Summer, Winter
110	Critical Thinking and Composition	Periodically offered
130	Puzzles and Paradoxes	Fall, Spring

The 'PHIL' row in the table is also highlighted with a red arrow pointing to it.

5. When reviewing the Typically Offered information, be aware that:
 - **Periodically Offered:** check with the department for current plans.
 - **Typically Offered:** provides information on which terms the course is usually offered. This is subject to sufficient demand and qualified instructor availability; therefore, you should use the information as a guideline. The terms that are displayed do not mean that the course is guaranteed to be offered during that term.

The screenshot shows the 'Browse Course Catalog > Course Detail > PHIL 101 - The Meaning of Life' page. The 'Course Detail' section includes fields for Career (Undergraduate), Units (3.00), Grading Basis (Graded (CR/NC Available)), Course Components (Lecture REQUIRED), Campus (CSU Long Beach), Academic Group (College of Liberal Arts -UGrad), and Academic Organization (Philosophy). The 'Enrollment Information' section shows 'Typically Offered' as 'Fall, Spring, Summer, Winter' (highlighted with a red arrow). The 'Course Attribute' section lists Lower Division, GE 3B Humanities (C2), GE C2 Humanities, Literature, Philosophy, LOTE, and GE E Self-Integration. The 'Description' section states: 'An exploration of philosophical questions about the universe, life, death, God, human beings, consciousness, explanation, meaning, purpose, and value. Both grading options.' A 'View Class Sections' button is at the bottom.
