

## LIST OF SUMMER 2022 RESEARCH OPPORTUNITIES

Interested in participating in a summer research opportunity? Want to expand your skillset in research. Check out CSULB Summer Student Research Assistantship opportunity below!

### CSULB Summer Student Research Assistantships (SRA)

This assistantship provides financial support during the 2022 summer intersession months to undertake full-time research and scholarly activities in collaboration with a CSULB faculty (or principal investigator) research mentor. This opportunity requires a Research Mentor to submit an application on the student's behalf. It is encouraged to identify a faculty you would like to work with and discuss filling out the application and needed materials as soon as possible. Find more information on the "SRA Guidelines and Requirements" opportunity [here](#).

Below are some additional summer research programs available across various universities and organizations. This list is not exhaustive, as there are a great number of opportunities in California and across the U.S. Please keep in mind CSULB or UROP/OURS are NOT in affiliation with these universities/organizations regarding their summer research experience. All specific program questions should be directed to the program of choice. **This document serves as a starting point, and our office encourages you to visit the page of the program you are interested in for full details on the program, eligibility requirements, dates, funding, and application materials.**
