

Dear,

You are receiving this email because you have not submitted one of the proof of immunization forms. Recall that this is a requirement for living in University Housing at CSULB; you received reminder emails from Housing on DATE and DATE.

According to Student Health Services, you have not submitted proof of the Meningitis immunization as required. Soon, you will have a hold on your University registration that prohibits you from enrolling in future classes that will not be removed until the immunization proof is received. In addition, failure to promptly address this matter can lead to a referral to the Student Conduct process for violation of the “Failure to Comply” policy as stated in the Housing and Residential Life Resident Handbook. You must have your healthcare provider complete the immunization requirements form on the Student Health Services website found here. You should email a scanned copy of the form directly to shs-vaccine@csulb.edu . Do not email to housing. If you wish to receive immunizations at our Student Health Service should check out the hours of the Immunization Clinic and costs for immunizations at the Student Health Services website.

For important information regarding this requirement please contact directly the Student Health Services Office.

Thank you,
