To develop creative solutions for diverse aging populations through education and research by bringing together faculty, students, and community partners.

To address disparities and promote quality of life in the field of aging in Long Beach and beyond by serving as a leader in:
- Interdisciplinary Applied Research
- Community Engagement
- Workforce Development

The 3rd University in California to be recognized as a committed age-friendly institution. CSULB is committed to becoming more age-friendly in our programs and curricula.

Monthly colloquiums and networking events to foster interdisciplinary knowledge and collaboration on aging to increase quality of life and improve overall well-being.
MILESTONES

WORKFORCE DEVELOPMENT

SCAN HEALTH PLAN SCHOLARSHIP FOR HEALTH & INDEPENDENCE OF SENIORS:

10 College of Health and Human Services students from a wide variety of disciplines received $5,000 each
Social Connectivity: Community Outreach & Partnership

CSA fosters constructive connections with community to improve the quality of life of older adults.

Long Beach Aging Services Collaborative

Launched on March 3rd, 2020 in collaboration with the City of Long Beach Health Department and SCAN Independence at Home to better connect aging service providers throughout Long Beach and beyond.

Meetings

During COVID-19:
weekly virtual meetings

After COVID-19:
quarterly in-person meetings

Searchable Aging Services Provider Database

In support of the Long Beach Age-Friendly City initiatives, CSA has developed and made available a searchable database through the “Resources” page on our website at:

https://www.csulb.edu/college-of-health-human-services/center-for-successful-aging/article/important-long-beach-resources

Searchable Resource Database

- Legal Services
- Caregiver Support
- Healthcare Resources
- Transportation
- Housing
- Food Assistance & Food Banks
- Mental Health
Our Center’s website is now available in Spanish, including language-accessible resources to support our diverse aging community!

Our Center has a Facebook page where we post updates, resources, and upcoming event.

We are currently hosting Facebook group to share resources during COVID pandemic!

Colloquium Speaker Series

Since 2018, the Center has hosted monthly presentations to highlight innovative research on promoting successful aging.

CENTER FOR SUCCESSFUL AGING
Assist community grant writing
Assist Colloquium attendance by community members
Recruitment of students

LUTHERAN TOWERS
Low-Income Senior Housing Program

Through Mr. Chan Park
(Residential Services Coordinator)
American Gold Star Manor (AGSM) is a low-income housing community to 420 older adults, whom are mostly Gold Star families and veterans. Key priorities areas addressed:

- Engaged faculty and students from diverse disciplines
- Established friendships and social connectivity
- Created cohesive social environment
- Increased physical activity
- Improved overall health
- Battled social isolation

150+ residents participated with positive outcomes

115 students gained positive experience working with older adults

11 presentations to date

**CREATING A CULTURE OF HEALTH**

A 15-week workshop integrating health literacy and nutritional cooking demonstrations to:
- address social isolation
- promote social connectivity
- facilitate student training within the Public Health and Nutrition disciplines

Became an approved internship site for CSULB students!

**CONNECTING SENIORS TO THEIR COMMUNITY THROUGH WALKING**

A walking program designed to:
- identify areas in LB older adults would like to visit
- provide feedback by taking pictures of positive and negative aspects of the walking experience as an older adult
- promote socialization, social wellness, and biopsychosocial needs for older adults

Program is continued via the recreational walking club!
Dr. Vennila Krishnan

**TASK INTERVENTIONS TO REDUCE RISK OF FALLING IN OLDER ADULTS**

An 8-week exercise class created to:
- prevent falls by focusing on cognitive and physical performance
- understand the relationship between medications and fall risk

Class is continued via the Osher Lifelong Learning Institute @ CSULB!

---

Dr. Edward Garcia

**Effects of Mild to Moderate Untreated Hearing Loss on Quality of Life of Senior**

24 residents to be fitted with personal sound amplifying products and assess the impact these devices have on social isolation and quality of life.

The purpose of this project is to:
- raise awareness among seniors and students on the importance of treating even mild hearing loss
- understand the influence treatment can have on older adults social engagement

---

Dr. Scott Ducharme

**Multi-Modal Exercise Intervention to Enhance Overall Physical Functionality, Health, and Quality of life**

A 10-week MEFit exercise intervention via the LifeFit Center that includes muscular fitness, cardiovascular fitness, balance, and flexibility components. This intervention is implemented to:
- improve walking ability & physical function
- improve cardiometabolic health
- improve quality of life
- reduce fall risks
California Health Foundation solicitation to serve as the neutral convener of a stakeholder group to prepare recommendations for the **competencies, curricula, training, and certification of Community Health Workers and Promotors (CHWs/P)** in California submitted with the Center for Latino Health and Joy Goebel, Professor of Nursing (November 2019).

Kaiser Permanente / UCLA Center for Health Equity Community Seed Grant Application for “**Risk and Resiliency Stories - Preventing and Recovering from Falls - A Community Resources Guide**” with the Heart of Ida with LA Falls Prevention Coalition (February 2020).

National Institutes of Health R25 Application for “**Diverse Interdisciplinary Geriatrics Research Training Program (DIG Research Training)**” to address the barriers to pursuing training and careers in aging research for diverse communities by creating a curriculum to introduce undergraduate students to basic knowledge and approaches to aging research with Center for Latino Health (May 2020).

Currently seeking funding to address the increased social isolation of seniors highlighted by COVID-19 pandemic by implementing age-friendly technologies and programming in low-income housing throughout Long Beach to provide “**Whole Person Social Telecare**” in collaboration with UniperCare, Lutheran Towers, Heart of Ida, and Los Angeles Alliance for Community Health and Aging (LAACHA).
