  - B. (10-15 mins) Including LGBTQIA-related data in the HERI survey
    - i. Update from Dr. Miller
      1. Dr. Angela Locks is working with various committees and commissions. 3 groups of data: Faculty, Staff, Students. This is quantitative data.
      2. When it comes to student groups, there could be enough data to differentiate between different identity groups
      3. Staff & Faculty: not enough to break down to sub-groups without potentially identifying individuals.
      4. This group will be prioritized when it comes to collecting the qualitative data, potentially using focus groups. At some point, we

may be responsible for a section for the report. Potentially create a subcommittee within this group for HERI work. Email to follow.

  - B. LGBTQIA+ Cultural Welcome Mentimeter Responses
    - i. The cultural welcome went well. A lot of interaction, polling,
    - ii. Word cloud showed a lot of concern for students' mental health.
  - C. Ongoing concerns: Supporting queer students during the COVID-19 pandemic
    - i. Concern over the "friends" aspect of the word cloud. Is there something similar that we can offer?
    - ii. Queers & Allies group seems to be doing well- connection aided by discord group. Those who attended the cultural welcome got all the links to Rainbow Café & the Discord.
    - iii. Shae will create a space in our BeachBoard to add resources/links for students.
  - D. Website repository for all things LGBTQ at CSULB. How to coordinate? Where will it be hosted (WGSS?)?
    - i. Currently information is everywhere and many things are outdated.
  - E. Online repository/meeting space for faculty engaged in LGBTQIA+-related scholarship, advocacy, etc. How to coordinate? Where will it be hosted (WGSS?)?
    - i. WGSS can still host. There were not many useful links that could be transferred given how old they are (ok for an online archive).
    - ii. Thought: it makes sense to have our own site, independently of WGSS, if we have the budget/capacity.
    - iii. Question: What would it take to have a website such as [www.csulb.edu/lgbtq](http://www.csulb.edu/lgbtq), for example.
      - 1. Travis recommends we reach out to Strategic Communications, otherwise we would need a division to support it. Strategic

Communications maintains the main one.
