N reflects the number of signature assignments related to that standard. This may include data from one or more outcomes/signature assignments.

MSCP data: We did not have accurate data on the pathway for each student at the time data were collected; therefore, pathway numbers on this report do not match actual enrollment. Also, the Total N is greater than the sum of the individual pathways. This is due to incomplete pathway data made available for reporting

LEGEND	
"n/o"	= The course in which the outcome is assessed was not offered during *AY13-14*
"-"	= Data not submitted
*	= Program collects and analyzes qualitatve data
N < 5	= Total N reported equals less than 5. Data are not reported to protect against risk of identifying students
