

Early Childhood Assessment Clinic For Children Ages 3 to 6

Would you like to know more about your child's developing cognitive, academic, communication, motor, and personal-social skills?

Would you like to know more about how to promote these important skills in your child?

The Community Clinic for Counseling and Educational Services at CSULB is offering an Early Childhood Assessment Clinic for young children and their parents offered one Saturday in Spring. Advanced graduate students in school psychology, under the supervision of Dr. Kristi Hagans, will be conducting early childhood developmental assessments for children in the community. A psychoeducational report will be provided to you describing your child's areas of strength and need, and ideas on how you can support your child's developing capabilities.
