

the passiflora

An Organic & Calming Experience

The Passiflora is located in Second Street, the heart of retail stores in Belmont Shore, Long Beach, CA. The purpose of its design is to provide a better retail experience to its variety of costumers by creating a place where they can sit back and relax. Passiflora comes from the Passionflowers scientific name. Passionflowers are one of the most common flowers in the Belmont Shore area and its benefits vary from reducing anxiety to providing an overall relaxing mood. The Passiflora at Belmont Shore is surrounded by Passionflowers and other greenery like Lavender flowers to provide a more calming environment for those who wish to rest, it also uses different raw sustainable materials like wood and stone in organic shapes to not only immerse the costumers in nature but also to help the city of Long Beach have a successful retail experience without disrupting the environment and its beauty.
