

# How to Maximize Your Beach Scholarships Opportunities

## STEP 1: General Application

All students must complete the General Application to be considered for any opportunities within BeachScholarships.

Once you **Finish and Submit**, you will be auto-matched to general university-wide scholarships for which you may qualify.

## STEP 2: College/Supplemental Application

Although this application may seem optional, if you do not complete it, you may miss out on several opportunities within your college or department.

Once you **Finish and Submit**, you will be auto-matched to College or Departmental scholarships for which you may qualify.

## STEP 3: Recommended Opportunities

BeachScholarships will create a customized list based on your General and College/Supplemental Application answers, so be sure to **Finish and Submit** them to get the most comprehensive list possible!

Your Recommended scholarships require you to 'apply-to' them and provide additional information. You are not auto-matched to these opportunities.

Click on the name of the opportunity to discover more details or click **Apply** to get started. Be sure to check the criteria before you begin applying!
