

# 10 SUSTAINABILITY INDICATORS

## 1 | Energy Efficiency

- Worldwide corporate energy efficiency goals to boost productivity
- 9,000+ employees in 24 countries work to boost sustainable operations and improve the energy efficiency of NVIDIA products

## 2 | Sustainability Community Outreach

- RBA Environmental Sustainability Workgroup
- CDP Supply Chain Program
- RBA Online Environmental Survey on carbon, water, and waste

## 3 | Diverse Eco-Conscious Culture

- Commitment to diversity in the workforce
- Equal opportunity towards engineering careers regardless of sex or religious beliefs

## 4 | Curb Carbon Footprint

- Cut greenhouse gas footprint by 15 percent per employee

## 5 | Green Real Estate

- Green building standards on new real estate to target high levels of sustainable and environmental performance

## 6 | A Sustainable Work Environment

- Established Green2Work program; including electric vehicle charging, shuttle services, cyclist resources, and carpooling
- Commute initiatives for employees

## 7 | Eco-Friendly Packaging for the Conscious Consumer

- Use of 100 percent recycled fibers in 100 percent of bulk carton packages and in over 80 percent of consumer packages
- Vegetable oil-based and water-based printing inks, and using suppliers that leverage distribution centers to minimize shipping footprint

## 8 | Minimizing Climate Change

- 92/100 on Carbon Disclosure Project; risen steadily from a score of 34 five years ago

## 9 | Renewable Energy Initiative

- 65% electricity from renewable energy by 2025

## 10 | Supplier Environmental Impact

- Supplier accountability with ISO 14001 Certification
