

6th Annual UROP Research Symposium

Session A: 3 – 4 pm

Exploring Prescription Stimulant Misuse: A Qualitative, Theory-Guided, Interview Approach

Arabidopsis Trithorax Genes Contribute to the Regulation of Leaf Senescence

Do Ethnically Diverse Students Benefit from a Short-Term Study Abroad Program?

Cross-cultural Differences in the Link Between Anxiety Sensitivity and Depressive Symptoms
Emerging Adults

The Link between Psychological Control and Depression with Gender as a Moderator

Wrap Around Services to Reduce Recidivism: Systematic Literature Review of Best Practices
Support Community Re-entry Among High Frequency Utilizers of the Criminal Justice System

A Gift of The Healing Touch

In Their Voice: What Do Caregivers of Patients with Cancer Need?

Applying Micro-computed Tomography Imaging Techniques to Visualize the 3D Anatomy of
Vertebrate Animals

Ostracism Can Sting: Social Distress and Pain Mediate the Relationship Between Social Excl
and Aggression

Making Legible Victims: An Analysis of Moral Entrepreneurs' Role in Anti-trafficking in South I

Mimicking Organic Motion to Robotic Movement

Entrepreneurial Women in Public Relations: Issues of Work-Life Balance

Imagining a Better Future for Students with Mental Health Challenges at CSULB: Actionable
Data from Beach2030

Parenting Stress Among College Fathers

Catalytic Activity of Colloidal Pd Nanoparticles: Solvent Effects

Catalytic Activity of Colloidal Pd Nanoparticles with Different Surface Ligand Density

What Constitutes a “good death”?: Millennial and Post-millennial Perspectives on Medical Aid-in-dying

Multimedia Performance Project for Quito, Ecuador

Barriers to Help Seeking Among Latino Intimate Partner Violence Survivors: Implications for Future Research and Service Delivery

The Effects of Soil Change on Marine Life and Ecosystem

Health Factors of Urban American Indians within LA County

LASER- Induced Generation of Single Bubbles

Urinary Incontinence and Women’s Sexuality

Bitcoin and Beyond: A Legal Review of Blockchain Technology

Predicting Solid Propellant Performance Based on Formulation

Dip-coater Apparatus Design

Life Cycle of Forced Migration: Partial Citizenship and the Politics of Displaced Peasants in Medellín, Colombia

Adult-Child Conversations in an Aquarium: Science Language, Conversation Quality, & Implications of Smart Technology Use

Product Development Considerations for a Healthy Snack

Matlab Grader System

The Guft-Giving Effort

Nikkei Car Culture in Southern California

Comorbidities and Review of Systems for Long Beach Wound Scoring System for Diabetic Foot Ulcer Patients

Voltage Analysis Using Augmented Reality

Session B: 4:30 – 5:30 pm

Global Capitalism: The U.S Invasion and Occupation of Iraq

International Adoption of Children with Dwarfism

Spanish Literature

Data Recycling for One-Dimensional Single Domain Model for Coercivity on Chain Length

Evoking Awe via Presence in Virtual Reality to Prompt Prosocial Behavior

Thinking and Talking about Race and Ethnicity with Asian American College Students

Motor and Cognitive Comparison of Dual Task Cost for Community Dwelling Older Adults

Lost Lugares: Tracing Queer Latino/a/x Spaces

Where do we Teach? Factors Affecting the Workplace choices of Diverse Teacher Candidates

Benevolent Sexism in the Workplace

Computational Study of Butyrylcholinesterase Inhibition by Aromatic Dibutyl Phosphates

Investigating the Role of Stereochemistry in the Development of Cholinesterase Inhibitors to Treat Alzheimer's Disease

BIM-based LEED Evaluation Model for Sustainability Requirements of LEED Certification

Effect of a High Electric Field on the Thermal End Phase Change Characteristics of an Impacting

Developing a Nutrition Screening Tool for Children with Autism

Effect Pre-exercise Hyperglycemia on Post-exercise Insulin Sensitivity

Get On the Bus: Connecting with Families

The Effects on Rape Myths on Survivor Post-assault Beliefs and Outcomes

Effect of Hot Phase Change Material (PCM) substrate on Transient Heating of Impacting Drops

The Synthesis of Antibody-Antifungal Hybrid Protein

Radial Tensile Loader

Recovery System Design for a Reusable High-Powered Rocket

Long Beach Rocketry's 2019 Payload System

Transcribing Conversations About the Hocank Language

Parent Perceptions of Challenges for Teens with Autism Spectrum Disorder (ASD) Transitioning Young Adulthood

5 Seconds of Dreaming

Mobile Privacy and Data Usage

Fresnel Video Lens

Racialization on Latino students at CSULB

Innovating Recovery and Prevention

Imagining a Better Future for Students with Mental Health Challenges at CSULB: Actionable Data from Beach 2030

California Ballot Measures

3D Cardiac Remodeling

Biofeedback in Gait Analysis
