

February 5 and February 12, 2021

Leveraging Technology in the Online Campus Experience

Student Panelists:

NAME	PROFILE
<p>Amayla Early</p> 	<p>Amayla is a second-year Pre-Nursing student at CSULB currently applying to nursing programs. She works at the university as a Supplemental Instruction Leader and Lecture Support for Human Anatomy.</p>
<p>Isaac Julian</p> 	<p>I am a second-year double majoring in Political Science and English Composition with a minor in Communications Studies. After receiving my B.A, I plan to attend Law School and become a lawyer. I plan to specialize in Maritime law, which primarily deals with international trade and business.</p>
<p>Jeffrey Kinol</p> 	<p>I am a third year studying Kinesiology Exercise Science. Throughout my undergraduate career, I have been working as a Supplemental Instructor (SI) for the Learning Center for 4 semesters. As an SI Leader, I lead a class to help BIO 207 students gain a better understanding of the difficult content found within the curriculum through collaborative activities. I also help these students create strong study habits to become independent learners outside of the class. My goal for the future is to go to grad school to become a Physician's assistant.</p>
<p>Jesus Gonzalez</p> 	<p>I am Jesus Gonzalez, I'm a third year Sociology major and a Political Science minor. After graduating with my BA, I hope to continue higher education by pursuing master's degree, in the hopes to pursue a career in high school counseling or student affairs. In these fields I will be able to assist others who need various resources and be the support system that students in high school or college students need for educational success.</p>

<p>Kristina Alexander</p> 	<p>Kristina Alexander earned her Associates Degree in Communications from Saddleback College in the fall of 2019, before transferring to CSULB to pursue her B.A. in Speech-Language Pathology with a minor in gerontology. For the last 9 years, she has worked as a caregiver for a Deaf family member. Kristina became fluent in American Sign Language and received a certificate of completion. Her goal for the future is to continue to make a difference helping older adult patients improve their speech after trauma.</p>
<p>Mariah Meyer</p> 	<p>I am a fourth year Marine Biology student, with an emphasis on ecology and elasmobranch biology. I am currently doing my own research in the CSULB Shark Lab for BIOL 496. After I graduate in May, I am planning to take a year off and then return to obtain my master's degree in the biological sciences. I hope to one day have a career that reflects my values of conservation and emphasizes the importance of the ocean ecosystem.</p>
<p>Rebecca Allen</p> 	<p>Rebecca is completing her M.S. in Gerontology with a Graduate Certificate in Applied Disabilities Studies. She has a B.S. in Health Science with a minor in psychology at CSU Channel Islands in May 2019. She is on track to graduate in December 2021, with a thesis focusing on unmet needs in home- and community- based services for aging Californians. Rebecca is an intern with the UCLA Center for Health Policy Research and a VA work-study student for the CSULB Veterans Services office, as well as a member of the Gerontology Academic Honor and Professional Society (GAHPS). She hopes to pursue a career in health policy management and health outcomes research.</p>
<p>Sumaiyah Hossain</p> 	<p>My name is Sumaiyah Hossain. I'm currently a third year English Literature student also pursuing minors in Italian and Translation Studies. After graduating, I am sure that I want to spend time abroad, either teaching or studying. Some of my career goals are to teach abroad, teach as a professor, work in the publishing/editing world, and work as a translator.</p>
<p>Xan Balayan</p> 	<p>I'm Xan Balayan, a 5th year student majoring in Aerospace Engineering and minoring in Computer Science and will be graduating this Spring semester. I chair the University Student Union Board of Trustees which oversees the USU and SRWC through facilities, services, programs, and public relations perspective. After graduating, I am hopeful to be working with an aerospace company or with the Air Force and will further my education by attaining a master's degree soon.</p>
