

California State University, Long Beach

UTILITY INFRASTRUCTURE MASTER PLAN

Prepared by P2S Engineering, Inc.
100% Submittal, Final Report
Issued November 27, 2006

P2S

CHAPTER 1 - EXECUTIVE SUMMARY

| | |
|--|-----|
| Background and Scope | 1.1 |
| Objective | 1.1 |
| Methodology | 1.1 |
| Report Overview | 1.1 |
| Summary of Findings and Recommendations... | 1.2 |
| Summary of Costs | 1.4 |
| Proposed Facilities Master Plan..... | 1.5 |

CHAPTER 2 - ANALYSIS OF PRESENT SYSTEMS

| | |
|------------------------------------|------|
| Domestic Fire and Water | 2.1 |
| Sanitary Sewer | 2.7 |
| Storm Drain..... | 2.12 |
| Irrigation Water | 2.17 |
| Chilled and Heating Hot Water..... | 2.21 |
| Natural Gas Systems | 2.29 |
| Electrical Systems..... | 2.35 |
| Telecommunications Systems..... | 2.52 |

CHAPTER 3 - ANALYSIS OF FUTURE NEEDS

| | |
|------------------------------------|------|
| Domestic Fire and Water | 3.1 |
| Sanitary Sewer | 3.2 |
| Storm Drain..... | 3.4 |
| Irrigation Water | 3.6 |
| Chilled and Heating Hot Water..... | 3.7 |
| Natural Gas Systems | 3.13 |
| Electrical Systems..... | 3.14 |
| Telecommunications Systems..... | 3.15 |

CHAPTER 4 - RECOMMENDATIONS

| | |
|------------------------------------|------|
| Domestic Fire and Water | 4.1 |
| Sanitary Sewer | 4.5 |
| Storm Drain..... | 4.10 |
| Irrigation Water | 4.14 |
| Chilled and Heating Hot Water..... | 4.18 |
| Natural Gas Systems | 4.22 |
| Electrical Systems..... | 4.23 |
| Telecommunications Systems..... | 4.33 |

CHAPTER 5 -IMPLEMENTATION & PHASING PLAN

| | |
|------------------------------------|-----|
| Domestic Fire and Water | 5.1 |
| Sanitary Sewer | 5.2 |
| Storm Drain..... | 5.3 |
| Irrigation Water | 5.4 |
| Chilled and Heating Hot Water..... | 5.5 |
| Natural Gas Systems | 5.7 |
| Electrical Systems..... | 5.8 |
| Telecommunications Systems..... | 5.9 |

APPENDICES

| | |
|---|----------|
| BMP Design Criteria | 93 pages |
| Sewer Flow Calculations..... | 3 pages |
| Storm Drain Tc Output..... | 1 page |
| Water Flow Calculations | 3 pages |
| Domestic Water System Hydraulic Model . | 2 pages |
| Natural Gas..... | 21 pages |
| Fire Protection | 2 pages |

CHAPTER 6 - COSTS

| | |
|------------------------------------|-----|
| Domestic Fire and Water | 6.1 |
| Sanitary Sewer | 6.2 |
| Storm Drain..... | 6.3 |
| Irrigation Water | 6.4 |
| Chilled and Heating Hot Water..... | 6.5 |
| Natural Gas Systems | 6.5 |
| Electrical Systems..... | 6.6 |
| Telecommunications Systems..... | 6.7 |

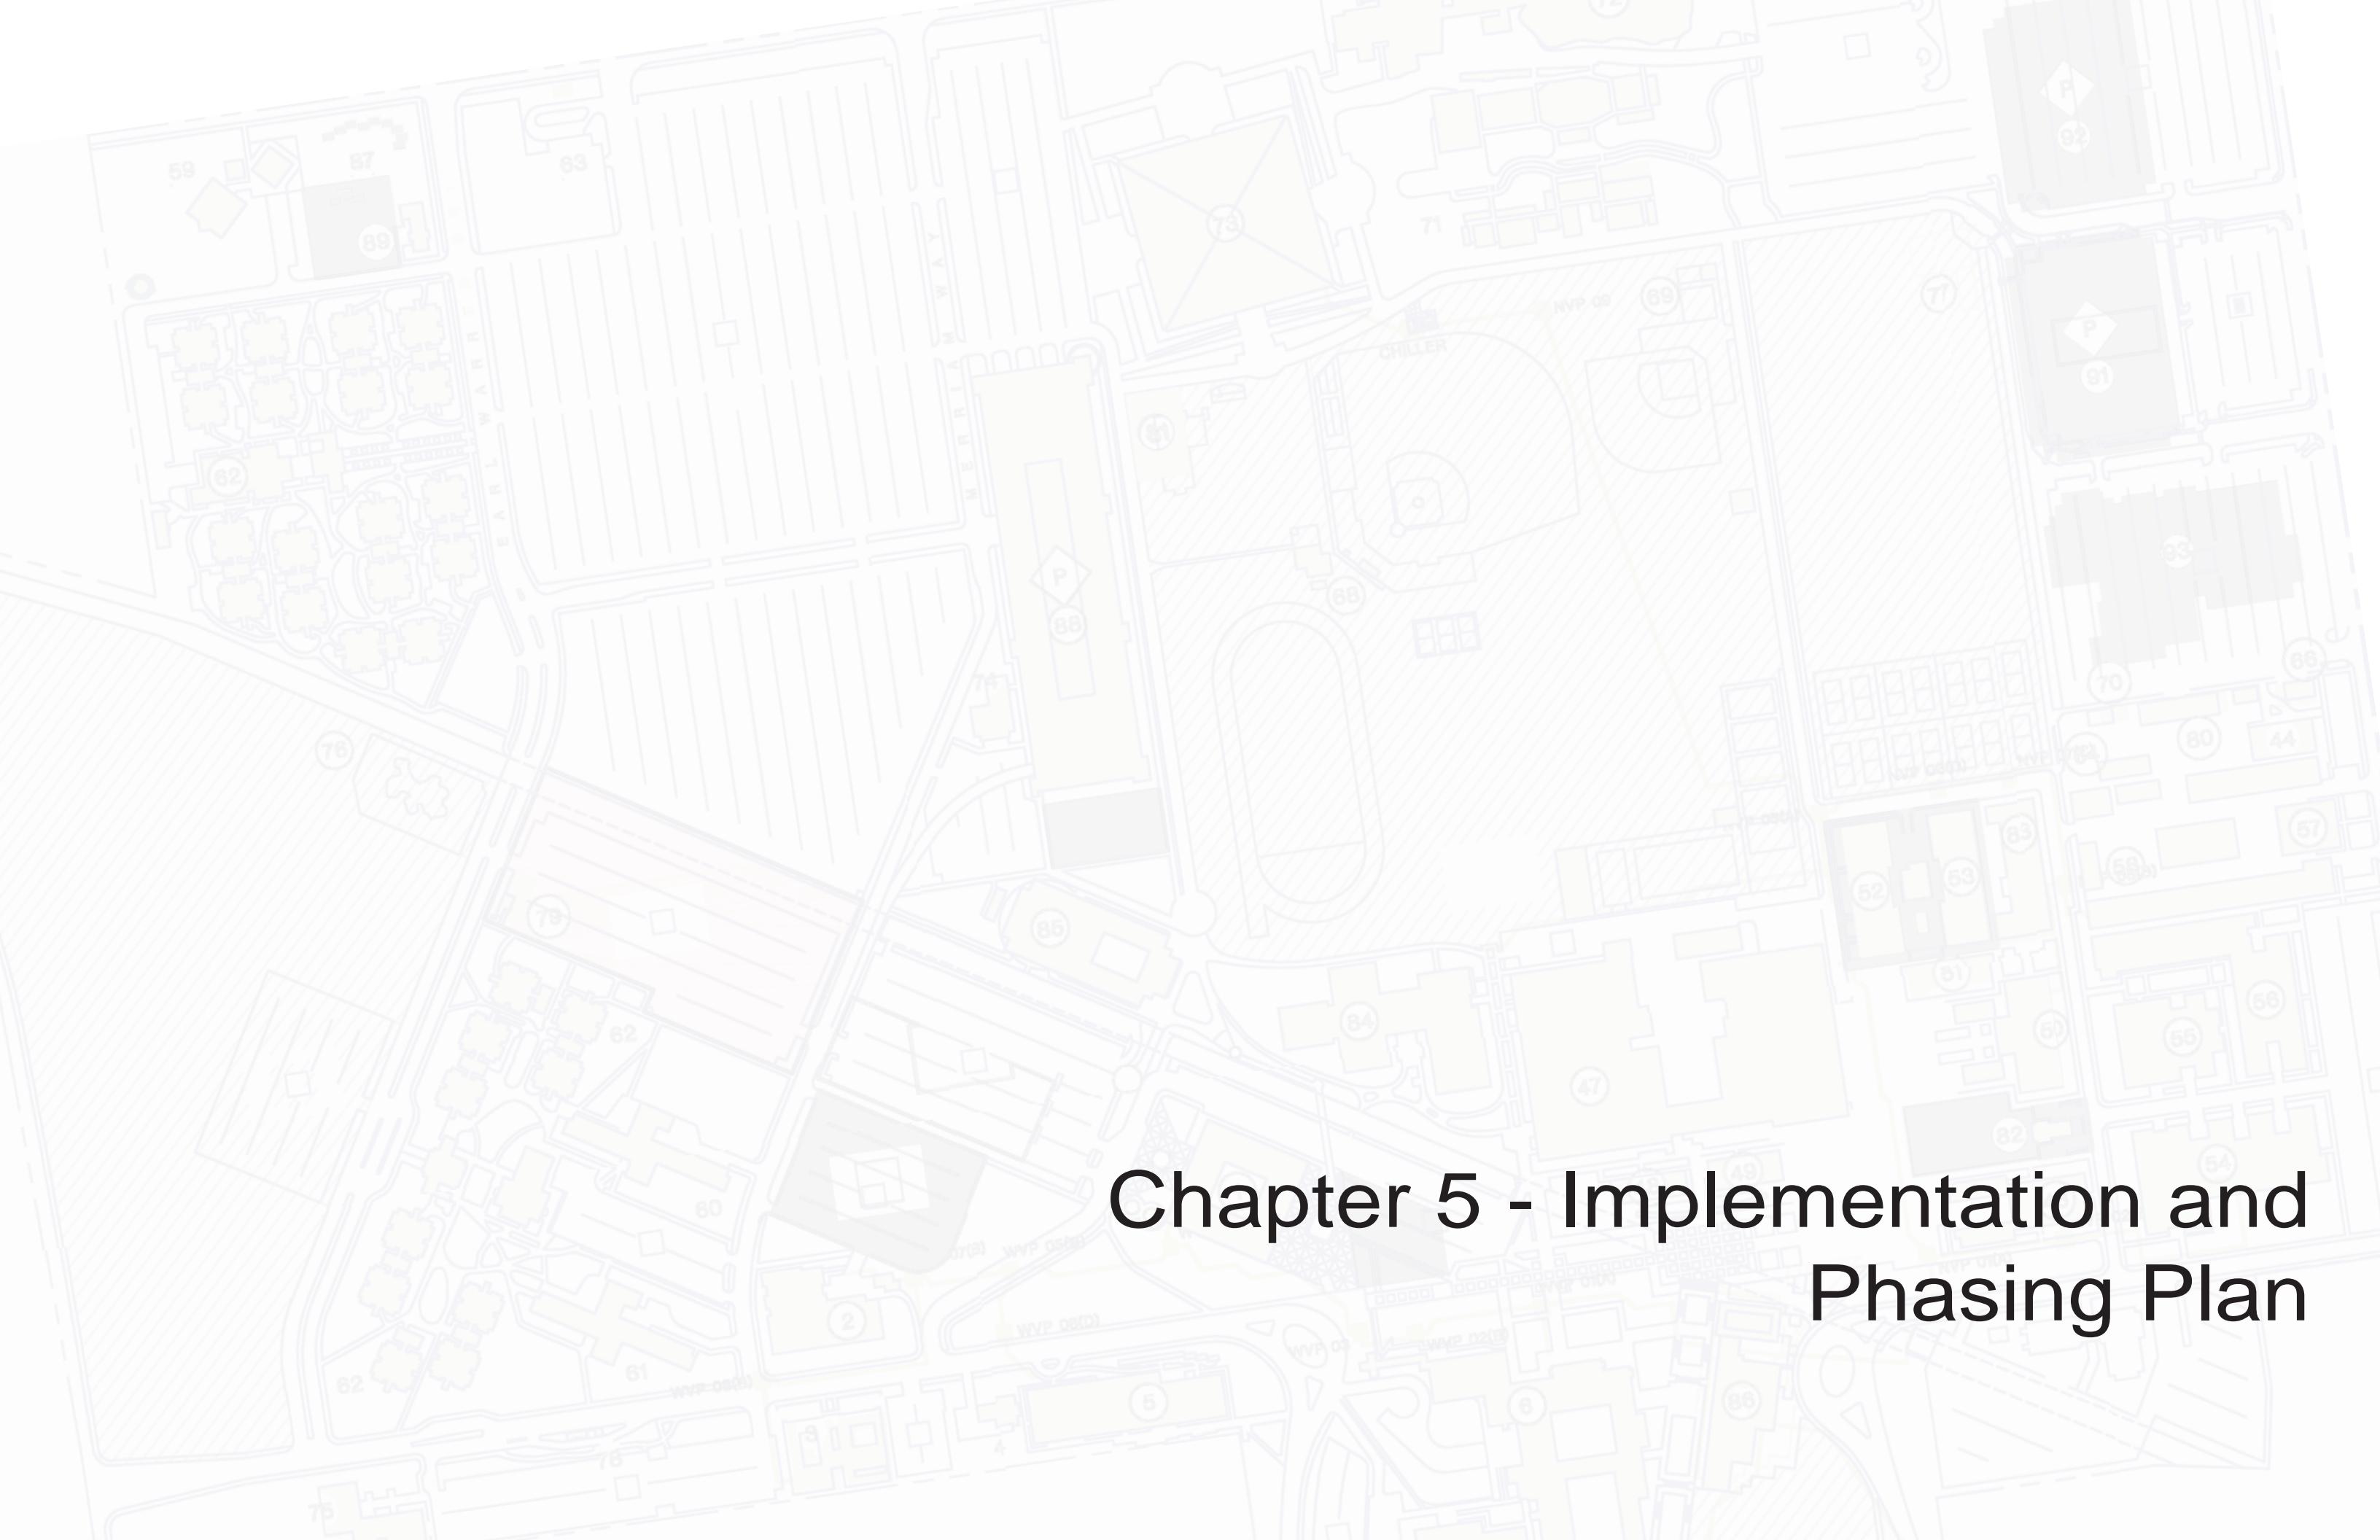

Chapter 1 - Executive Summary

Chapter 2 - Analysis of Existing Systems

Chapter 3 - Analysis of Future Needs

Chapter 4 - Recommendations

Chapter 5 - Implementation and Phasing Plan

Chapter 6 - Costs
