PERMACULTURE DESIGN CERTIFICATE ONLINE

Permaculture design is an ethically based, whole-systems design approach to create sustainable human settlements and institutions. Although rooted in horticulture and agriculture, permaculture design also touches on regional planning, ecology, animal husbandry, technology, architecture and international development.

Our online, instructor-led Permaculture Design Certificate helps you successfully employ permaculture philosophies and techniques. Within a collaborative, academically rigorous

Saying
Maybe

An idea has a start. A project has a **finish**.

Define what you do best and stick to it.

Define what you are **NOT**.

The Rule of 3

1. I'd love to learn more. Can you send me some information?
2. Is there something here? Is this more than just an idea?
3. Do the research.
