INTRODUCTION TO PARTS I AND II

BACKGROUND

CALIFORNIA STATE UNIVERSITY, LONG BEACH (CSULB) is a vibrant, comprehensive urban university with approximately 5000 employees and an enrollment of approximately 36,000 students. It is one of the largest campus' in the 23 member CSU system.

CALIFORNIA STATE UNIVERSITY, LONG BEACH is a federal government supply and service contractor subject to the affirmative action requirements of Executive Order 11246, the Rehabilitation Act of 1973 as amended, and the Vietnam Era Veterans' Readjustment Assistance Act of 1974, Section 4212. Because CALIFORNIA STATE UNIVERSITY, LONG BEACH has \$50,000 or more in annual contracts with the federal government and employs 50 or more employees, we are required to prepare annual written Affirmative Action Plans (AAP's) for minorities and women, for protected veterans, and for individuals with disabilities for our organization. Failure to comply with these laws and their implementing regulations, which are enforced by the Office of Federal Contract Compliance Programs (OFCCP), can result in debarment of the Company from future contracts and subcontracts.

Affirmative action is a term that encompasses any measure adopted by an employer to correct or to compensate for past or present discrimination or to prevent discrimination from recurring in the future. Affirmative action goes beyond the simple termination of a discriminatory practice.

As stipulated in federal regulations, a prerequisite to the development of a satisfactory affirmative action plan is the evaluation of opportunities for protected group members, as well as an identification and analysis of problem areas inherent in their employment. Also, where a statistical analysis reveals a numeric disparity between incumbency (and/or hiring rates for veterans) and availability, an adequate AAP details specific affirmative action steps to guarantee equal employment opportunity. These steps are keyed to the problems and needs of protected group members. For minorities and women, such steps include the development of hiring and promotion goals to rectify the disparity between incumbency and availability. For protected veterans and individuals with disabilities, such steps will include a thorough review of the company's outreach efforts to determine the effectiveness of such efforts in closing the hiring and/or utilization gaps. It is toward this end that the following AAP of CALIFORNIA STATE UNIVERSITY, LONG BEACH was developed.

APPLICABLE AFFIRMATIVE ACTION LAWS AND REGULATIONS

CALIFORNIA STATE UNIVERSITY, LONG BEACH's AAP for minorities and women (Part I) has been prepared according to Executive Order No. 11246, as amended, and Title 41, Code of Federal Regulations, Part 60-1 (Equal Employment Opportunity Duties of Government Contractors), Part 60-2 (Affirmative Action Programs of Government Non-Construction Contractors; also known as "Revised Order No. 4"), and Part 60-20 (Sex Discrimination Guidelines for Government Contractors).

CALIFORNIA STATE UNIVERSITY, LONG BEACH has developed separately an affirmative action plan for protected veterans and individuals with disabilities (Part II) prepared in accordance with the Rehabilitation Act of 1973, Section 503, as amended and Title 41, Code of Federal Regulations, Part 60-741(Affirmative Action Program for Individuals with Disabilities), the Vietnam Era Veterans' Readjustment Assistance Act of 1974, Section 4212, as amended, and Title 41 Code of Federal Regulations, Part 60-300 (Affirmative Action Program for protected veterans).

Under Section 503, a business with a federal contract of more than \$15,000 is required to treat qualified individuals with disabilities without discrimination on the basis of their physical or mental disability in all employment practices, and to take affirmative action to employ and advance in employment individuals with disabilities. If the company has at least 50 employees and a single contract of \$50,000 or more, then it must also develop a Section 503 AAP, as described in 41 CFR 60-741, Subpart C. Section 503 applies to businesses with federal construction contracts, but not to businesses with federally assisted construction contracts.

Under VEVRAA, a business with a federal contract of \$150,000 or more is required to treat qualified individuals without discrimination based on their status as a protected veteran in all employment practices, and to take affirmative action to employ and advance in employment protected veterans. If the company has at least 50 employees and a single contract of \$150,000 or more, then it must also develop a VEVRAA AAP, as described in 41 CFR 60-300, Subpart C. VEVRAA applies to businesses with federal construction contracts, but not to businesses with federally assisted construction contracts.

COVERED GROUPS UNDER AFFIRMATIVE ACTION LAWS AND REGULATIONS

Coverage under affirmative action laws and regulations applies to:

Women and minorities who are recognized as belonging to or identifying with the following race or ethnic groups: Blacks/African Americans, Hispanics/Latinos, Asians/Pacific Islanders, and American Indians/Alaskan Natives.

Any veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs, or who was discharged or released from active duty because of a service-connected disability.

Recently separated veterans: any veteran currently within three-years of discharge or release from active duty.

Veterans who served on active duty in the U.S. military during a war or campaign or expedition for which a campaign badge is awarded.

Veterans who, while serving on active duty in the Armed Forces, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985.

An individual with a disability: 1) a person who has a physical or mental impairment that substantially limits one or more of his/her major life activities; (2) has a record of such impairment, or (3) is regarded as having such an impairment.

PROGRAM TERMINOLOGY

The terms, "comparison of incumbency to availability," "deficiency," and "problem area," appearing in this AAP, are terms CALIFORNIA STATE UNIVERSITY, LONG BEACH is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance whatsoever. Although CALIFORNIA STATE UNIVERSITY, LONG BEACH will use the terms in total good faith in connection with its AAP, such use does not necessarily signify that the Company agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives.

The comparison of incumbency to availability contained herein is required by Government regulations to be based on certain statistical comparisons. Geographic areas and sources of statistics used herein for these comparisons were used in compliance with Government regulations, as interpreted by Government representatives. The use of certain geographic areas and sources of statistics does not indicate CALIFORNIA STATE UNIVERSITY, LONG BEACH's agreement that the geographic areas are appropriate in all instances of use or that the sources of statistics are the most relevant. The use of such geographic areas and statistics may have no significance outside the context of this AAP. Such statistics and geographic areas will be used, however, in total good faith with respect to this AAP.

The grouping of job titles into a given job group does not suggest that CALIFORNIA STATE UNIVERSITY, LONG BEACH believes the jobs so grouped are of comparable worth.

Whenever the term "goal" is used, it is expressly intended that it "should not be used to discriminate against any applicant or employee because of race, color, religion, gender, or national origin," as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e)(2).

This AAP is not intended to create any contractual or other rights in any person or entity.

RELIANCE ON EEOC'S GUIDELINES

Although CALIFORNIA STATE UNIVERSITY, LONG BEACH does not believe any violation of Title VII of the Civil Rights Act exists, it has developed this AAP in accordance with and in reliance upon the EEOC's Guidelines on Affirmative Action, Title 29 Code of Federal Regulations, Part 1608.

REPORTING PERIOD

This AAP is designed to cover the following reporting period: November 1, 2021 through October 31, 2022.

STATEMENT OF PURPOSE FOR PARTS I AND II

This AAP has been designed to bring women and men, members of minority groups, protected veterans, and individuals with disabilities into all levels and segments of CALIFORNIA STATE UNIVERSITY, LONG BEACH's workforce in proportion to their representation in the qualified relevant labor market.

The AAP, therefore, is a detailed, results-oriented set of procedures which, when carried out, results in full compliance with equal employment opportunity requirements through the equal treatment of all people.

The manner in which this is to be accomplished becomes technical and somewhat complicated. There are several reasons for this. First, CALIFORNIA STATE UNIVERSITY, LONG BEACH is subject to and must address a variety of State and Federal laws and guidelines dealing with equal employment opportunity and affirmative action. These guidelines and requirements are in themselves somewhat technical and complex. In addition, relevant court decisions, which are often useful in interpreting, but sometimes conflicting with these requirements and guidelines, must be taken into account when developing and implementing the AAP. Furthermore, in determining CALIFORNIA STATE UNIVERSITY, LONG BEACH's current equal employment opportunity and affirmative action position and its desired future achievements, numbers, percentages, statistics, and numerous calculations and computations must come into play.

The technical, legal, and mathematical aspects of the AAP, however, all have one common purpose—to allow us to properly identify three key concepts:

1. Where we stand now,
2. Where we must go,
3. How best to get there.

These three concepts are the Affirmative Action Plan.

CHAPTER 1: ORGANIZATIONAL PROFILE

41 C.F.R. § 60-2.11

Workforce Analysis/Lines of Progression

CALIFORNIA STATE UNIVERSITY, LONG BEACH conducted a workforce analysis to identify employees by gender and race/ethnicity in each job title. The data was collected from payroll records dated NOVEMBER 1, 2020.

Job titles are listed by organizational unit. Job titles are listed from lowest to highest paid. The list includes all job titles, including departmental supervision, exempt, and nonexempt titles.

For each job title, CALIFORNIA STATE UNIVERSITY, LONG BEACH identified the total number of employees, the number of male and female employees, the total number of minority employees, the male and female minority employees, the total number of employees who are White, Black, Hispanic, Asian, American Indian or Alaskan Native employees, Native Hawaiian or Pacific Islander, and Two or More races, and the male and female employees within each of these race/ethnic groups.

Lines of Progression

Developed in conjunction with the workforce analysis is information on CALIFORNIA STATE UNIVERSITY, LONG BEACH's lines of progression. Lines of progression (career ladders/career paths) identify the job titles through which an employee can move to the top of a line. For each line of progression, applicable departments are identified. These are the departments which employ persons in the job titles in the specified line of progression. Some lines of progression are limited to only one department, while others are found throughout several departments.

The lines of progression provide useful information regarding patterns of vertical and horizontal movement throughout our workforce. These patterns will be evaluated to ascertain whether they provide to our employees the optimum career mobility and opportunities for advancement.

See the *Workforce Analysis/Lines of Progression* for the results per organizational unit.

CHAPTER 2: JOB GROUP ANALYSIS

41 C.F.R. § 60-2.12

Although the workforce analysis was conducted individually for every job title, after it was completed, job titles were grouped for the comparison of incumbency to availability and for setting goals. There were several reasons for grouping jobs.

Many job titles are so similar in content that handling them individually in the AAP is not necessary. Grouping together these very similar titles is appropriate for the comparison of incumbency to availability. For many job titles, the availability data that can be collected is limited, and the same data must be used for several related jobs. Therefore, grouping these related titles together is logical. Also, many job titles have so few incumbents in them that identifying disparities between incumbency and availability by job title is meaningless—as problem areas would be identified in terms of fractions of people. By grouping several similar titles and increasing the number of employees involved, a meaningful comparison can be conducted; any identified problem areas are more likely to be in terms of whole people. Consequently, goals established to correct problem areas are also more likely to be in terms of whole people.

The three reasons for grouping job titles all discuss "similar" or "related" jobs. That is the most critical guideline in creating job groups. Above all, the job titles placed into a job group must be more similar or related to each other than the job titles in other job groups.

Job groups must have enough incumbents to permit meaningful comparisons of incumbency to availability and goal setting. Ideally, if a job group is identified as containing a problem area, it should be large enough that a goal of a least one whole person can be established. No minimum size has been established for this purpose, however, since it is dependent not only on the size of the job group, but also on the size of the availability percentage and the number of minorities or women already employed in the job group.

It may not be possible for a smaller contractor's job groups to meet the guideline of not crossing IPED categories. While there are usually two or more job groups within each IPED category, for smaller contractors some or all of their job groups may correspond to IPED categories.

CALIFORNIA STATE UNIVERSITY, LONG BEACH did not combine job titles with different content, wages, or opportunities if doing so would have obscured problem areas (e.g., job groups which combine jobs in which minorities or women are concentrated with jobs in which they are underrepresented).

CHAPTER 3: PLACEMENT OF INCUMBENTS IN JOB GROUPS
41 C.F.R. § 60-2.13

Each job group appears on a Job Group Report with a job group name and number. The report lists each job title in the job group. For each job title, the worksheet provides the following information: IPED reporting category, job title, employee headcounts for each job title, and overall percentages by gender and race/ethnicity as of NOVEMBER 1, 2021.

See the *Job Group Analysis* for the listing of the job titles and the associated race and gender headcounts per job group.

CHAPTER 4: DETERMINING AVAILABILITY

41 C.F.R. § 60-2.14

"Availability" is an estimate of the proportion of each sex and race/ethnic group available and qualified for employment at CALIFORNIA STATE UNIVERSITY, LONG BEACH for a given job group in the relevant labor market during the life of the AAP. Availability indicates the approximate level at which each race/ethnic and sex group could reasonably be expected to be represented in a job group if CALIFORNIA STATE UNIVERSITY, LONG BEACH's employment decisions are being made without regard to gender, race, or ethnic origin. Availability estimates, therefore, are a way of translating equal employment opportunity into concrete numerical terms. Correct comparisons of incumbency to availability, worthwhile and attainable goals, and real increases in employment for problem groups depend on competent and accurate availability analyses. With valid availability data, we can compare the percentages of those who could reasonably be expected to be employed versus our current employment (from the workforce analysis), identify problem areas or areas of deficiency, and establish goals to correct the problems.

Steps in Comparison of Incumbency to Availability

Identify Availability Factors

The following availability factors are required of federal government contractors for consideration when developing availability estimates for each job group:

1. External Factor: The external requisite skills data comes from the 2010 Census of Population.
 - A. Local labor area: Los Angeles, CA: 65.3%; Orange County, CA: 31.9%; Riverside County, CA 1.5%; San Bernardino, County, CA: 0.8%; and San Diego County, CA: 0.5%
 - B. Reasonable labor area: National
2. Internal Factor: The percentage of minorities or women among those promotable, transferable, and trainable within the contractor's organization. See the *Internal Availability Analysis* for more detail.

Assign Internal and External Factor Weights: Weights were assigned to each factor for each job group. A combination of historical data and experience were used to determine the weights. Weights were never assigned in an effort to hide or reduce problem areas.

Identify Final Availability: Weights were multiplied by the component-specific data to produce weighted data for each component. Weighted data for each component was summed. This produced a final availability estimate for each sex and race/ethnic group, as well as for minorities in the aggregate.¹

¹ In most cases, the final availability report (and most other technical reports in this AAP) only includes data/information for females and minorities in the aggregate.

See the *Availability Analysis* for the availability breakdown for each job group.

CHAPTER 5: COMPARING INCUMBENCY TO AVAILABILITY
41 C.F.R. § 60-2.15

Once final availability estimates were made for each job group, CALIFORNIA STATE UNIVERSITY, LONG BEACH compared the percentage of incumbents in each job group to their corresponding availability. A comparison was made between the percentage employed as of NOVEMBER 1, 2021 and that group's final availability.

See the *Comparison of Incumbency to Availability* for the results per job group.

CHAPTER 6: PLACEMENT GOALS

41 C.F.R. § 60-2.16

CALIFORNIA STATE UNIVERSITY, LONG BEACH has established an annual percentage placement goal whenever it found that minority or female representation within a job group was less than would reasonably be expected given their availability. In each case, the goal was set at the availability figure derived for women and/or minorities, as appropriate for that job group. These goals take into account the availability of basically qualified persons in the relevant labor area. They also take into account anticipated employment opportunities with our organization. Goals are not rigid and inflexible quotas which must be met, but are instead targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. These goals will be reached primarily through recruiting and advertising to increase the pool of qualified minority and female applicants and through implementation of our action-oriented programs (see Chapter 9). Selections will occur only from among qualified applicants. Goals do not require the hiring of a person when there are no vacancies or the hiring of a person who is less likely to do well on the job ("less qualified") over a person more likely to do well on the job ("better qualified"), under valid selection procedures. Goals do not require that CALIFORNIA STATE UNIVERSITY, LONG BEACH hire a specified number of minorities or women.

Goals are not rigid and inflexible quotas which must be met, but are instead targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. A goal is a guidepost against which CALIFORNIA STATE UNIVERSITY, LONG BEACH, a community group, or a compliance agency can measure progress in remedying identified deficiencies in CALIFORNIA STATE UNIVERSITY, LONG BEACH's workforce. By setting realistic goals, based on expected vacancies and anticipated availability of skills within the relevant labor area, and using a job-related selection system, CALIFORNIA STATE UNIVERSITY, LONG BEACH should be able to meet the goals, assuming we conduct effective recruitment and advertising efforts to ensure an adequate pool of qualified minority and/or female qualified applicants from which to make selections.

In establishing goals, CALIFORNIA STATE UNIVERSITY, LONG BEACH considered the results which could reasonably be expected from putting forth every good faith effort to make our overall AAP work. We involved personnel- relations staff, department heads, and unit managers and supervisors in the goal-setting process. Goals were not established that would exclude any gender or race/ethnic group.

See the *Placement Goals* report for each job group and the *Goals Progress Report* for progress made since the previous AAP.

CHAPTER 8: IDENTIFICATION OF PROBLEM AREAS
41 C.F.R. § 60-2.17(b)

Terminology

The phrases “comparison of incumbency to availability,” and “problem area” appearing in this chapter are terms CALIFORNIA STATE UNIVERSITY, LONG BEACH is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance. Although CALIFORNIA STATE UNIVERSITY, LONG BEACH will use the terms in good faith in connection with its AAP, such use does not necessarily signify the company agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives. Whenever the term “goal” is used, it is expressly intended that it “should not be used to discriminate against any applicant or employee because of race, color, religion, gender, or national origin,” as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e).

Based on analyses of each job group, areas of concern have been identified and are discussed below. In addition to comparing incumbency to availability within job groups, CALIFORNIA STATE UNIVERSITY, LONG BEACH has conducted studies to identify problem areas in each of its selection procedures (i.e., hires, promotions, and terminations) as well as by organizational unit. CALIFORNIA STATE UNIVERSITY, LONG BEACH will continue to monitor and update these studies during each AAP year. In each case where potential problem areas have been identified, affirmative actions, as appropriate, will be taken consistent with any of the action-oriented programs described in Chapter 9 of this AAP.

Goals are established within each of the job groups at no less than the current availability data for the job group.

41 C.F.R. § 60-2.17(b)(1): Workforce by Organizational Unit and Job Group

An analysis of minority and female distribution within each organizational unit was accomplished by a thorough investigation of the *Workforce Analysis*.

An analysis of minority and female utilization within each job group was accomplished by a thorough investigation of the *Comparison of Incumbency to Availability* reports.

41 C.F.R. § 60-2.17(b)(2): Personnel Activity

CALIFORNIA STATE UNIVERSITY, LONG BEACH does not and will not discriminate against any applicant or employee regardless of race, religion, color, national origin, sex, age, sexual orientation/gender identity and status as a protected veteran and/or individual with a disability to any position for which the applicant or employee is qualified. In addition, CALIFORNIA STATE UNIVERSITY, LONG BEACH is committed to a policy of taking affirmative action to employ and advance in employment qualified protected veteran employees. Such affirmative action shall apply to all employment practices, including, but not limited to hiring, upgrading, demotion or transfer, recruitment, recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship and on-the-job training. Decisions related to personnel policies and practices shall be made on the basis of an individual's capacity to perform a particular job and the feasibility of any necessary job accommodation. CALIFORNIA STATE UNIVERSITY, LONG BEACH will make every effort to provide reasonable accommodations to any physical and mental limitations of individuals with disabilities and to disabled veterans.

- (1) Filing a complaint;
- (2) Assisting or participating in an investigation, compliance evaluation, hearing, or any other activity related to the administration of the affirmative action provisions of the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended (VEVRAA) or any other Federal, state or local law requiring equal opportunity for disabled veterans, recently separated veterans, active wartime or campaign badge veterans, or Armed Forces service medal veterans or Section 503 of the Rehabilitation Act of 1973, as amended (Section 503) or any other federal, state or local law requiring equal opportunity for disabled persons;;

- (4) Exercising any other right protected by VEVRAA or Section 503 or their implementing regulations.

Our obligations in this area stem from not only adherence to various state and federal

regulations, but also from our commitment as an employer in this community to provide job opportunities to all persons regardless of race, religion, color, national origin, sex, age, sexual orientation/gender identity and status as a protected veteran or an individual with disability. CHAPTER B: REVIEW OF PERSONNEL PROCESSES
41 C.F.R. §§ 60-300.44(b); 60-741.44(b)

CALIFORNIA STATE UNIVERSITY, LONG BEACH will periodically review personnel processes to ensure that they provide for careful, thorough, and systematic consideration of the job qualifications of applicants and employees with known disabilities and for those who are known covered veterans for job vacancies filled either by hiring or advancement, and for all training opportunities offered or available.

In determining the qualifications of veterans, CALIFORNIA STATE UNIVERSITY, LONG BEACH limits its consideration of a qualified protected veteran's military record, including discharge papers, to only that portion of the record which is relevant to the specific job qualifications for which the veteran is being considered.

Pay ranges have been established by the California State University system for all positions. In offering employment or advancement to persons with disabilities and/or covered veterans, CALIFORNIA STATE UNIVERSITY, LONG BEACH will not reduce the amount of compensation offered because of any disability-related income, pension, or similar benefits received from another source.

Based upon its review, CALIFORNIA STATE UNIVERSITY, LONG BEACH will modify the personnel processes when necessary, and will include the development of new procedures in this Affirmative Action Plan to ensure equal employment opportunity. To date, modifications have been made to expand recruitment efforts and to ensure universal notice and access to training opportunities.

CHAPTER C: PHYSICAL AND MENTAL QUALIFICATIONS
41 C.F.R. §§ 60-300.44(c); 60-741.44(c)

The physical and mental job qualifications of all jobs are reviewed on a regular cycle to ensure that, to the extent that such qualification requirements tend to screen out qualified individuals with disabilities and qualified disabled veterans, job qualifications are consistent with business necessity and the safe performance of the job.

No qualification requirements were identified which had a screening effect. All job qualification requirements were found to be job-related and consistent with business necessity and safety.

CALIFORNIA STATE UNIVERSITY, LONG BEACH will continue to review physical and mental job qualification requirements whenever a job is vacated and CALIFORNIA STATE UNIVERSITY, LONG BEACH intends to fill it through either hiring or promotion and will conduct a qualifications review whenever job duties change.

Pre-employment physical examinations or questionnaires are used by CALIFORNIA STATE UNIVERSITY, LONG BEACH only post-offer and only for positions for which physical agility and condition is a bona fide qualification requirement as governed by CSU job code standards. If at any time in the future, CALIFORNIA STATE UNIVERSITY, LONG BEACH should inquire into an employee's physical or mental condition or should conduct a medical examination prior to a change in employment status, CALIFORNIA STATE UNIVERSITY, LONG BEACH affirms that information obtained as a result of the inquiry will be kept confidential, except as otherwise provided for in the Section 503 regulations. The results of the examination or inquiry will be used in accordance with the Section 503 Regulations.

CHAPTER D: REASONABLE ACCOMMODATION TO PHYSICAL AND MENTAL LIMITATIONS

41 C.F.R §§ 60-300.44(d); 60-741.44(d)

CALIFORNIA STATE UNIVERSITY, LONG BEACH commits to making a reasonable accommodation for qualified individuals with disabilities and qualified disabled veterans, unless such accommodation would impose an undue hardship on the operation of its business. In determining the extent of its obligation, CALIFORNIA STATE UNIVERSITY, LONG BEACH will consider business necessity and financial costs and expenses, among other factors.

The availability of a reasonable accommodation will be made known to all applicants for employment and all current employees. Upon disclosure of a physical or mental limitation, as defined by law, reasonable accommodation will be explored directly with the individual.

CHAPTER K: DATA COLLECTION ANALYSIS
41 C.F.R. §§ 60-300.44(k); 60-741.44(k)

CALIFORNIA STATE UNIVERSITY, LONG BEACH has adopted the current national percentage of veterans in the civilian labor force of 5.7% as its hiring benchmark for protected veterans. CALIFORNIA STATE UNIVERSITY, LONG BEACH will update its hiring benchmark as new data is published and updated via the OFCCP's website. The 5.7% hiring benchmark is applied to each job group within CALIFORNIA STATE UNIVERSITY, LONG BEACH.

CALIFORNIA STATE UNIVERSITY, LONG BEACH also adopted the current national utilization goal of 7.0% for qualified individuals with disabilities. CALIFORNIA STATE UNIVERSITY, LONG BEACH will update its utilization goal as new data becomes available, updated and published. The 7.0% utilization goal is applied *to each job group* within CALIFORNIA STATE UNIVERSITY, LONG BEACH.

Goals and/or benchmarks do not require that CALIFORNIA STATE UNIVERSITY, LONG BEACH hire, promote, train, and/or retain a specified number of individuals with disabilities and/or protected veterans. These goals/benchmarks are not rigid and inflexible quotas which must be met, but are instead targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. A goal is a guidepost against which CALIFORNIA STATE UNIVERSITY, LONG BEACH, a community group, or a compliance agency can measure progress in remedying identified deficiencies in CALIFORNIA STATE UNIVERSITY, LONG BEACH's workforce.

CALIFORNIA STATE UNIVERSITY, LONG BEACH has collected the required data and conducted studies to identify areas of opportunities in the employment of protected veterans and individuals with disabilities. CALIFORNIA STATE UNIVERSITY, LONG BEACH will continue to monitor and update these studies periodically during each AAP year. In each case where the hiring benchmark for protected veterans and/or the utilization goal for individuals with disabilities are not met, affirmative actions, as appropriate, will be taken consistent with the activities mentioned in Chapter F (External Dissemination of Policy and Outreach and Positive Recruitment) and measures described in Chapter H (Internal Audit and Reporting) of this AAP.

See the *Hiring Benchmark and Utilization Goals Analyses*.

Employees or applicants who have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant will not be discharged or in any other manner be discriminated.
