

2016 Green Generation Mixer

Call for Submissions

WANTED: *Sustainability Focused Research Projects, Artworks, Posters, Prototypes, Interactive Displays, Videos, and more**
to be recognized at the...

Sustainability Projects Showcase

*ANY project related to sustainability and the environment in ANY medium or format created by students and faculty from ALL majors and disciplines are welcome!

The Opportunity:

Display, discuss, and gain recognition for your sustainability focused projects! Win prizes! Build your resume and network! (Previous showcases have featured research project posters, eco-friendly fashions, environmentally themed artwork and videos, sustainable technology & design displays).

The Event:

Green Generation Mixer

An opportunity for CSULB students, faculty, and staff to network & connect with each other and Long Beach community members who are working to protect the environment & promote sustainability on and off campus.

The Venue:

The magical Earl Burns Miller Japanese Garden @ CSULB

Mixer & Showcase Date:

Thursday, April 21, 2016

Project Criteria:

Projects should:

- Clearly communicate the sustainability issue/challenge addressed, research findings and/or "take-away" message
- Be polished, professional, and engaging
- Be the original work of the submitter
- Three dimensional projects are welcome but posters should be no larger than 48 x 48 inches

To Submit a Project:

Contact Holli Fajack at
sustainability@csulb.edu or 562-985-1939

Project Submission Deadline:

Friday, April 8, 2016
