Faculty Advisor Statement

TO: CSULB Institutional Review Board

FROM: Mike Redman

NAME OF STUDENT: John Doe

TITLE OF PROJECT: Gendered stereotypes and mental illness as they relate to social media.

STATEMENT OF THE ADVISOR:

I, Mike Redman, certify that I have reviewed and confirmed the following regarding the aforementioned project:

- The student and I have discussed and reviewed the submission for appropriateness and completeness with regard to the collection and protection of subject data.
- The research methodologies align with acceptable methodologies of this discipline.
- The risk/benefit ratio is appropriate for the project activities.
- The potential risks include: Triggering topics that are difficult to talk about, potential risk of loss of confidentiality from recordings and a risk of coercion.
- The appropriate safeguards in place to minimize the risks include: Providing a resource sheet with contact information from mental health professionals, storing interview transcripts in digital formats on password protected hard drives and the option to stop the interview at any time with no repercussions.
- I will continue supervision of this project and ensure the student remains compliant with CSULB research policies by supervising John Doe on his research related activities.

My signature below certifies that I as the Faculty Advisor of this research have read and approved the attached IRB Application.
