      • Recommendations to the program:
        o Work on curricular concerns including language specialization and professionalization requirements that may be slowing majors down on their progress to degree.
        o Continue to refine its assessment process and report assessment results annually to the Director of Program Review & Assessment and Vice Provost for Academic Programs.
        o Develop a strategic plan for Program development that addresses personnel needs (full time staff and TT Faculty hiring) as well as articulating clear lines of leadership, specifically, distinguishing between the roles of Chair/Program Director, MA Program Director, and GSI Director.
        o Seek departmentalization as soon as it achieves the required tenure density.
        o Place a fully articulated mission on the website.
        o Further develop existing (and new) opportunities for faculty-student research/creative activity collaboration.
      • Recommendations to CLA
        o Support the program by providing additional staff support, as resources permit.
• Support the program in hiring new tenure track faculty, as resources permit.
• Increase the Program director or chair fraction (regardless of whether the I/ST program stays a program or becomes department) to a minimum .4 Chair fraction.
• Support the program/department in working with IR&A to better align major and minor counting, among other data-related issues.

Comments from Dr. Markus:
• Due to the duration of the process, some items discussed in the external review have already been addressed by the department.
• Recent changes have moved the requirements to 39-42 units, including languages. This change has increased I/ST courses relative to other required courses.
• A Constitution for I/ST is in a 2nd draft phase
• Student/faculty collaborative research has increased
• Staff support remains a concern

Comments from AD Daniel O’Connor:
• Believes the program is well situated for growth.

Discussion by UPRC members opened (2:26)
• Self-study for the program review of the International Studies Program accepted and UPRC program review report for the International Studies Program approved (m/s/p 2:30)

• Recommendations to the Department:
  • Continue to assess the SLOs of existing and new courses and use the assessment results to make curricular revisions and program improvements.
  • Continue to take a concerted effort to maintain ASHA’s standards of excellence in academic and clinical training in SLP.
  • Review and update the current strategic plan during the next assessment cycle.
• Recommendations to CHHS:
  • Support the Department in assessment efforts and the curricular changes during the next assessment cycle.
  • Support faculty efforts for research, scholarly, and creative Activities (RSCA) and their ability to engage students in RSCA as budget permits.
  • Work with the Department to seek funds, resources and revenue from non-fee sources for sustaining the Department clinic.

Comments from Dr. Sun:
• The department is working on their strategic plan.
• This semester, they have started offering 3 new courses.
• They are using data from Dr. Cormack to align learning outcomes.
• Their clinic is donation-funded, which is challenging.
