      • Comments from the program:
        o Lee Blecher provided copies of the program’s current assessment
          plan. Noted that not all program learning outcomes are assessed in
          every course. He noted that more time needs to be spent having full-
          time faculty assess instead of part-time and that some changes to this
          end have already been made.
        o Recommendation about PLOs was amended per Blecher’s
          comments.
        o Blecher commented on the unit count issue; noted that many
          students who eventually obtain a degree from Hospitality
          Management program start in other majors. Many also take minors
          from other departments which increase their unit count.
        o As part of the Beach 2030 efforts, HM program has been doing
          strategic planning.
        o Blecher noted that some part-time lecturers have been moved to full-
          time status but that the program has lost talent to the community
          college system through attrition
