DO YOU HAVE AN INTEREST IN AND/OR PASSION FOR K-12 TEACHING?

ARE YOU CONSIDERING EARNING A TEACHING CREDENTIAL ONE DAY?

The Education Studies minor will allow students from outside of the College of Education to learn about the complexities involved in the field of Education and have the opportunity to complete at least one prerequisite for a chosen credential program for a more seamless transition from undergraduate to post-baccalaureate status. The minor also provides fieldwork opportunities through K-12 classroom observations, for those who want to learn more about the experience and what it would be like.
